In August 2004 Furnace and Tube Service, Inc. filed for Chapter 11 Bankruptcy as a result of a prolonged downturn in the industrial market place. Leading up to the filing, the Company did have significant financial difficulties which resulted in some material suppliers / subcontractors not being paid in full. These issues were approximately 8 years ago and far behind us. Since these issues, the Company has seen record levels of growth and profitability. The cash and working capital of the Company are strong and relations with suppliers and subcontractors are equally strong.

Attached you will find a copy of the Order issued by the Bankruptcy Court confirming the Company's plan of reorganization and concluding our involvement with the Bankruptcy Court in March 2005.

If you should have any questions regarding this matter, please do not hesitate to contact me at 225-757-1856 x202.
