Re: Vacant Land
2100 W. Hernandez Street
Pensacola, Florida 32505
Escambia County

Dear Mr. Godwin or Ms. Cantrell,

In response to your request, we have conducted the required investigation, gathered the necessary data, and made certain analyses that have enabled us to form an opinion of the current market value of the fee simple interest in the above captioned subject property. The following Summary Appraisal Report presents our findings.

The purpose of the appraisal is to develop an opinion of the market value of the fee simple interest of the subject property based on a personal observation of the subject; information provided to our office; and the investigation and analyses undertaken, as of November 3, 2011, the date of observation; subject to the attached assumptions and limiting conditions. The intended user is the Board of County Commissioners, Escambia County, FL, c/o Larry Godwin or Judy Cantrell, Public Works Department, 3363 West Park Place, Pensacola, FL 32505. It is our understanding this appraisal will be utilized for internal decision making regarding the subject property. No other use of this report by any other entity or person is authorized.

We have analyzed the market value of the subject property based on our opinion of the highest and best use of the subject property. Subject to the assumptions, limiting conditions and certification set forth herein, it is our professional opinion the market value of the fee simple interest in the subject property as of November 3, 2011 is:

\$75,000

SEVENTY FIVE THOUSAND DOLLARS

"AS-IS" FEE SIMPLE INTEREST

November 3, 2011

Exposure Time: The exposure time linked to the final value opinion for subject property is estimated to be eighteen (18) to twenty four (24) months based on market sales of similar properties and current market activity.

Marketing time at concluded value estimate: We estimate the marketing time for the subject property to be eighteen (18) to twenty four (24) months.

The following is a Summary Appraisal Report utilizing the direct sales comparison and income approaches to value and has been prepared utilizing all of the requirements set forth as standards for real estate appraisals established for federally related transactions by the Comptroller of the Currency, the Federal Reserve Board, the Federal Deposit Insurance Corporation, the State of Florida, including Federal regulations as stipulated by all appropriate federal regulatory agencies under the most recent Real Estate Appraisal ruling (12 CFR Par 34-Title XI of FIRREA).

G. Daniel Green MAI, SRA inspected the subject property.

The appraisal is in conformity with the standards for real estate appraisals as established by the Appraisal Foundation and its Appraisal Standards Board. It is intended to comply with the requirements set forth under Standards Rule 2 of the *Uniform Standards of Professional Appraisal Practice* (USPAP) effective January 1, 2010 adopted by the Appraisal Foundation. The fee for this appraisal was not based on value nor was the assignment undertaken based on a predetermined value, trend in value or a minimum or maximum value. The report presents discussions of the data, reasoning, and analyses that were used in the appraisal process to develop the appraiser's credible opinion of value. The depth of discussion contained in the report is specific to the needs of the client and for the intended use stated in the report. The content of this Summary level report includes all specification in USPAP as defined in Standards Rule 2 -2 (b) and through our scope of work have concluded to a credible opinion of value.

G. Daniel Green MAI, SRA is currently certified under the voluntary continuing education program of the Appraisal Institute.

Due to the current market uncertainty in the US and local real estate economy, the opinions and conclusions herein are effective as of the appraisal date only.

In addition to the assumptions and limiting conditions, the following also apply:

- 1. The client, Board of County Commissioners, Escambia County, FL, nor the current owner of the property furnished a boundary survey. All measurements and parcel sizes are based on the Escambia County Property Appraiser's records. Should this information be inaccurate, this appraisal and all value indications arrived at herein may be considered invalid and subject to review by the appraiser signing this report.*
- 2. The appraisal does not address unforeseeable events that could alter the property improvement and/or market conditions reflected in the analysis.*
- 3. The appraisal does not address the removable personal property situated on the subject property (i.e. storage sheds) in the estimate of value (if any).*
- 4. The appraiser also reserves the right to alter opinions of value contained in this appraisal report on the basis of information withheld or not discovered in the normal course of diligent investigation.*
- 5. It is an extraordinary assumption of this appraisal assignment that the unimproved alleyway at the rear of the property, in effect, separating the rear 25', does not have a significantly detrimental impact, primarily based on the historical trend of having these alleyways vacated." Should this assumption be inaccurate, this appraisal and all value indications arrived at herein may be considered invalid and subject to review by the appraiser signing this report.*

Respectfully Submitted,

G. Daniel Green, MAI SRA
State-Certified General Real Estate
Appraiser RZ836

CERTIFICATION OF VALUE

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and is our personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- We have no (or the specified) present or prospective interest in the properties that are the subject of this report and no (or the specified) personal interest with respect to the parties involved.
- We have no bias with respect to the properties that are the subject of this report or to the parties involved with this assignment.
- Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
- Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
- G. Daniel Green MAI, SRA has made an exterior observation of the property.
- No one provided significant real property appraisal assistance to the person(s) signing this certification.
- The reported analysis, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of The Code of Professional Ethics & Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- The undersigned appraisers have the knowledge and experience to complete this assignment competently.
- As of the date of this report, G. Daniel Green MAI, SRA has completed the continuing education program of the Appraisal Institute.
- The appraisers signing this report have not performed services regarding the subject property within 36 months prior to the effective date of this appraisal, as an appraiser or in any other capacity.

G. Daniel Green, MAI SRA
State-Certified General Real Estate
Appraiser RZ836

POLICY STATEMENT OF THE APPRAISAL INSTITUTE

It is improper to base a conclusion or opinion of value upon the premise the racial, ethnic or religious homogeneity of the inhabitants of an area or of a property is necessary for maximum value.

Racial, religious and ethnic factors are deemed unreliable predictors of value trends or price variance.

It is improper to base a conclusion or opinion of value, or conclusion with respect to neighborhood trends, upon stereotyped biased presumptions relating to the effective age or remaining life of the property being appraised or the life expectancy of the neighborhood in which it is located.

DISCLOSURE OF COMPETENCY

The signing appraisers of this report are competent to complete this report in accordance with the competency provision in the USPAP 2010. Appraisers' qualifications are included toward the end of the report.

Board of County Commissioners
Escambia County, FL
c/o Larry Godwin or Judy Cantrell
Public Works Department
3363 West Park Place
Pensacola, FL 32505

INTENDED USE OF APPRAISAL

It is our understanding this appraisal shall serve to assist with internal decision making regarding the subject property.

DATE OF VALUE OPINION

November 3, 2011

DATE OF REPORT

November 4, 2011

PROPERTY RIGHTS TO BE APPRAISED

The property rights appraised include all present and future benefits and rights of the property associated with the *fee simple* ownership position, free and clear of other leases, mortgage indebtedness, other liens or special assessments against the property. The Appraisal Institute defines Fee Simple ownership rights as "absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."

1 2002 The Dictionary of Real Estate Appraisal – Fourth Edition

SCOPE OF WORK

Scope of Work is defined in the preamble to Standard 1 as follows: The type and extent of research and analysis in an assignment.

“In developing a real property appraisal, an appraiser must identify the problem to be solved, determine the scope of work necessary to solve the problem and correctly complete research and analyses necessary to produce a credible appraisal.”

Identification of the Problem:

As stated previously, we have been engaged by the Board of County Commissioners, Escambia County, FL, c/o Larry Godwin or Judy Cantrell, Public Works Department, 3363 West Park Place, Pensacola, FL 32505 to develop the “As-Is” market value of the fee simple interest in the property located at 2100 W. Hernandez Street, Pensacola, FL 32505 and identified by the Escambia County Property Appraiser’s Office by Parcel ID #172S30-1200-011-028. This property is in the southern portion of Escambia County.

Determine the scope of work necessary to solve the problem and correctly complete research and analyses necessary to produce a credible appraisal:

The subject property was observed, photographed and analyzed.

Neighborhood influences were analyzed and considered. Market forces were analyzed including the supply and anticipated supply of comparable properties, sales and listings of comparable properties. Other activities undertaken included examination of commercial real estate values, site development costs, expected levels of developers profit and zoning and land use regulations.

Local and national data sources were reviewed for timely factors, rates, costs and values as they pertained to the subject property as of the date of valuation. This was supplemented with interviews of real estate brokers in the Escambia County market area.

Primary data concerning region, neighborhood and the property was obtained through discussions with city and county government officials, taxing authority, zoning authority, the Escambia County Property Appraiser’s Office and market participants.

Specific market data utilized in this valuation analysis was collected from inner-office files and from the public records of various counties within the Florida panhandle (as compiled by Metro Market Trends, Inc., a real estate database company). A party to each sale was contacted whenever possible to verify and confirm the transaction data contained in the public records.

The nature of the market data collected has been determined based upon a thorough analysis of the subject property and resulting highest and best use analyses. Within the confines of this analysis, we have made an examination of all available and pertinent market data that could be located within a minimum time frame of at least six months before the effective date of the appraisal. However, this search has been extended substantially in many areas in order to obtain a sufficient quantity of market data.

The extent of reporting the data has been governed by the Uniform Standards of Professional Appraisal Practice. Also, the selection of the data reported is limited to that information which is considered to be relevant to the assignment and to the purpose of the appraisal, under the terms of the highest and best use conclusions rendered herein.

The following information has been relied upon and/or considered in the performance of this valuation analysis:

- Aerial and section maps prepared by the Escambia County Property Appraiser's Office and available on their website.
- Zoning of the subject and comparable sales data compiled from Escambia County and the City of Pensacola.
- Personal observation of the subject property

After considering the analyses of the data using the applicable approaches to value, a final opinion of the market value of the fee simple interest will be provided. This report constitutes a summary appraisal analysis.

The following Summary Appraisal Report utilizes the Direct Sales and Income Approaches to value. The Cost Approach was deemed unreliable; and, therefore omitted from this analysis.

The Direct Sales Comparison Approach will utilize the sales of comparable vacant land properties within the subject's market. Adjustments for differences in financing, size, shape, and other pertinent conditions of sale will be considered. After appropriate adjustment, a value indication for the subject via the Direct Sales Comparison Approach will be derived.

This report is a Summary appraisal utilizing one approach to value, the Direct Sales Comparison Approach. The Cost and Income Approaches do not apply to the subject property due to the fact that we are valuing vacant land.

DEFINITION OF MARKET VALUE

“the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- (1) Buyer and seller are typically motivated;
- (2) Both parties are well informed or well advised, and acting in what they consider their own best interests;
- (3) A reasonable time is allowed for exposure in the open market;
- (4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- (5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

* Federal Deposit Insurance Corporation (FDIC) definition of market value based on: OCC: 12 CFR 34, subpart D; FRB: 12 CFR Part 208, subpart C; FDIC: 12 CFR Part 365; and OTS: 12 CFR Parts 545 and 563.

EXPOSURE TIME

Exposure time may be defined as follows: The estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal; a retrospective estimate based upon an analysis of past events assuming a competitive and open market. Exposure time is different for various types of real estate and under various market conditions. It is noted that the overall concept of reasonable exposure encompasses not only adequate, sufficient and reasonable time but also adequate, sufficient and reasonable effort. This statement focuses on the time component. The fact that exposure time is always presumed to occur prior to the effective date of the appraisal is substantiated by related facts in the appraisal process: supply/demand conditions as of the effective date of the appraisal; the use of current cost information; the analysis of historical sales information (sold after exposure and after completion of negotiations between seller and buyer); and the analysis of future income expectancy estimated from the effective date of the appraisal.¹ We estimate the exposure time for this property to be 18 to 24 months.

MARKETING PERIOD

Reasonable marketing time is an opinion of the amount of time it might take to sell a property interest in real estate at the estimated market value level during the period immediately after the effective date of the appraisal.² The reasonable marketing time is a function of price, time, use and anticipated market conditions such as changes in the cost and availability of funds; not an isolated estimate of time alone. Marketing time, which occurs after the effective date of the market value estimate, differs from exposure time, which is always presumed to precede the effective date of an appraisal.

In developing the estimated marketing period, the marketing time of the comparable sales were considered as well as current listings of similar properties. In addition, brokers familiar with the subject area were contacted and the marketing period is supported by findings from these interviews. We estimate the marketing time for this property to be 18 to 24 months.

ZONING

Per Escambia County the subject property is zoned C-2, General Commercial District per Escambia County. A complete zoning definition for the district is as follows.

6.05.16. C-2 General commercial and light manufacturing district (cumulative).

A. *Intent and purpose of district.* This district is composed of certain land and structures used to provide for the wholesaling and retailing of commodities and the furnishing of several major services and selected trade shops. The district also provides for operations entailing manufacturing, fabrication and assembly operations where all such operations are within the confines of the building and do not produce excessive noise, vibration, dust, smoke, fumes or excessive glare. Outside storage is allowed with adequate screening being provided (see section 7.01.06.E.). Characteristically, this type of district occupies an area larger than that of

Updated 01/2010

Article 6 ZONING DISTRICTS

the C-1 retail commercial district, is intended to serve a considerably greater population, and offers a wider range of services. New residential uses located in a Commercial FLU category are only permitted as part of a predominantly commercial development in accordance with Comprehensive Plan Policy 7.A.4.7.g. The maximum density for residential uses is 25 dwelling units per acre, except in the Low Density Residential FLU category where the maximum density is 18 dwelling units per acre. Refer to article 11 for uses, heights and densities allowed in C-2, general commercial and light manufacturing areas located in the Airport/Airfield Environs. Refer to the overlay districts within section 6.07.00 for additional regulations imposed on individual parcels with C-2 zoning located in the C-3(OL) Warrington Commercial Overlay District or C-4(OL) Brownsville-Mobile Highway and "T" Street Commercial Overlay District.

All general commercial and light manufacturing (C-2) development, redevelopment, or expansion must be consistent with the locational criteria in the Comprehensive Plan (Policies 7.A.4.13 and 8.A.1.13) and in article 7.

B. *Permitted uses.*

1. Any use permitted in the C-1 district.
2. Amusement and commercial recreational facilities such as, but not limited to, amusements parks, shooting galleries, miniature golf courses, golf driving ranges, baseball batting ranges and trampoline centers.
3. Carnival-type amusements when located more than 500 feet from any residential district.
4. Distribution warehousing, and mini-warehouses with ancillary truck rental services.
5. New and used car sales, mobile home and motorcycle sales and mechanical services. No intrusions are permitted on the public right-of-way (see section 6.04.09).
6. Automobile rental agencies. No intrusions are permitted on the public right-of-way (see section 6.04.09).

7. Truck, utility trailer, and RV rental service or facility. No intrusions are permitted on the public right-of-way (see section 6.04.09).
8. Automobile repairs, including body work and painting services.
9. Radio broadcasting and telecasting stations, studios and offices with on-site towers 150 feet or less in height. See section 7.18.00 for performance standards.
10. Commercial food freezers and commercial bakeries.
11. Building trades or construction office and warehouses with outside on-site storage.
12. Marinas, all types including industrial.
13. Cabinet shop.
14. Manufacturing, fabrication and assembly type operations which are contained and enclosed within the confines of a building and do not produce excessive noise, vibration, dust, smoke, fumes or excessive glare.
15. Commercial communication towers 150 feet or less in height.

Article 6 ZONING DISTRICTS

16. Taxicab companies.

17. Bars and nightclubs.

18. Boat sales and service facilities.

19. Boat and recreational vehicle storage. (No inoperable RVs, untrailer boats, repair, overhaul or salvage activity permitted. Storage facility must be maintained to avoid nuisance conditions as defined in section 7.07.06.)

20. Adult entertainment uses subject to the locational criteria listed below (See Escambia County, Code of Ordinances sections 18-381 through 18-392 for definitions and enforcement; additionally refer to Chapter 6, article IV, Division 2, titled "Nudity and Indecency"). However, these C-2 type uses are not permitted in the Gateway Business Districts.

a. Adult entertainment uses must meet the minimum distances as specified in the following locational criteria:

- (1) One thousand feet from a preexisting adult entertainment establishment;
- (2) Three hundred feet from a preexisting commercial establishment that in any manner sells or dispenses alcohol for on-premises consumption;
- (3) One thousand feet from a preexisting place of worship;
- (4) One thousand feet from a preexisting educational institution;
- (5) One thousand feet from parks and/or playgrounds;
- (6) Five hundred feet from residential uses and areas zoned residential within the county.

21. Borrow pits and reclamation activities thereof (subject to local permit and development review requirements per Escambia County Code of Ordinances, Part I, Chapter 42, article VIII, and performance standards in Part III, the Land Development Code, article 7).

22. Temporary structures. (See section 6.04.16)

23. Other uses similar to those permitted herein. Determination on other permitted uses shall be made by the planning board (LPA).

C. *Conditional uses.*

1. Kennels.
 2. Heliports.
 3. Automobile race track.
 4. Solid waste transfer stations, collection points, and/or processing facilities.
 5. Junkyards, salvage yards, and waste tire processing facilities.
- D. *Off-street parking and loading regulation.* See section 7.02.00.
- E. *Traffic requirements.* See section 7.11.09.

Article 6 ZONING DISTRICTS

- F. *Screening adjacent to residential areas.* See section 7.01.00.
- G. *Landscaping.* See section 7.01.00.
- H. *Site and building requirements.* Same as C-1 district.
- I. *Signs.* See article 8.
- J. *Locational criteria.* See article 7 and Comprehensive Plan Policies 7.A.4.13 and 8.A.1.13.

REGIONAL DATA

The purpose of this section is to present a description of the surrounding regional attributes and specifically describe Escambia County and Santa Rosa County, statistically referred to as the Pensacola MSA (Metropolitan Statistical Area). Escambia County is home to the majority of economic and government activity within the Pensacola MSA, and is therefore more heavily considered and presented within this profile.

Northwest Florida Metropolitan Statistical Areas (MSAs)

- Pensacola MSA
- Ft. Walton Beach MSA
- Panama City MSA
- Tallahassee MSA

A profile has been created through research of census data and use of the Haas Center for Research and Economic Development. Information has been gathered from the Escambia County Chamber of Commerce, Santa Rosa County Chamber of Commerce and other sources, including Planning and Development Departments for both counties.

The regions central location is approximately 200 miles east of New Orleans, Louisiana, 250 miles south of Birmingham, Alabama, 370 Miles southwest of Atlanta, Georgia and 375 miles west of Jacksonville, Florida. The Pensacola MSA is bisected by Interstate 10, which allows easy access across the southeast. Interstate 110 also connects I-10 directly to downtown Pensacola. Air transportation is available at Pensacola Regional Airport, where seven major carriers provide service to nine domestic destinations. Four general aviation airports also serve the region. Water transportation is available at the adjacent Port of Pensacola which is also part of a

foreign trade zone located within an Enterprise Zone. Local rail transportation is available from CSX, Alabama Gulf Coast Railway, Amtrak and the Burlington Northern Santa Fe Railroad.

The two counties of Escambia and Santa Rosa (Escambia's abutting county to the east), include 1,685 square miles of land area. There is approximately 212 square miles of water area in the depicted region not including the Gulf of Mexico. There are over 30 miles of coastline located on the two counties. Gulf Island National Seashore is stretched sporadically across the entirety of Escambia and Santa Rosa Shorelines. Black Water River Park, located in the northern region of Santa Rosa County, is home to 590 acres of land and water. This area also houses military bases including Pensacola Naval Air Station, NAS Whiting Field and Corry Station.

In 2005, Florida's Great Northwest, Inc. identified the need and developed the vision for a strategic economic development plan to serve as a long-term guide for sustainable economic development in Northwest Florida.

Mission Statement of Florida's Great Northwest: Florida's Great Northwest's mission is to grow a vibrant and sustainable economy for all 16 counties in Northwest Florida that creates nationally and globally competitive advantages for the development of key industry clusters, increases the income and prosperity of workers and families, ensures healthy communities and a vibrant quality of life, and preserves the natural beauty and resources of the region.

Discussions surrounding a sustainable and diversified economy have increased amid the challenges of the recession. However, Florida's Great Northwest's strategic planning efforts during the last few years have created a clear focus on key target industries in sectors that are displaying steady growth. New industries within the Pensacola MSA include: AppRiver, LLC, Navy Federal Credit Union, GE Energy (wind turbines), Avalex Technologies, and ActiGraph, LLC.

Tourism in the Pensacola Bay area brings in approximately \$552,000,000 annually.

GEOGRAPHY

Escambia County has a total of 876 square miles and encompasses a land mass of approximately 662 square miles. The terrain is semi-flat with an extreme elevation of 120 feet above sea level. The border to the east of Escambia County is the Escambia River and Escambia Bay, the northern border is the Florida/Alabama state line, the western border is the Florida/Alabama border delineated by the Perdido River and Perdido Bay, and the southern border is the shore of the Gulf of Mexico. The area includes navigable access to the Gulf of Mexico and the Port of Pensacola is an international deep port for large commercial ships and military sea vessels, part of a foreign trade zone, and are located within an Enterprise Zone. Pensacola is home to more than 400 underwater shipwrecks, including the 888 foot battleship that has become the world's largest manmade reef. Escambia County is known as the "Western Gate to the Sunshine State". The area is also known as part of the "Emerald Coast" and the "Sun Belt". There are on average 343 days of sunshine per year, with an average temperature of 77 degrees.

DEMOGRAPHICS

Escambia County's population increased slightly during the last ten years, but the county experienced a population shift into the area between Barrineau Park and 9 Mile roads, according to data released by the U.S. Census Bureau. Escambia County saw a very slight 1 percent increase during the decade as the population increased from 294,410 in 2000 to 297,619 in 2010.

The county is divided into four "Census County Division" areas. Population figures from those divisions showed a very definite growth trend in the "Cantonment CCD" – an area roughly bordered by Barrineau Park and Quintette roads to the north and 9 Mile Road to the south. The area showed a 15.8 percent population increase to 50,638 person.

The three other Census County Divisions all showed 1.4 to 3.0 percent population decreases.

Century's population decreased slightly, from 1,714 in 2000 to 1,698 in 2010. The City of Pensacola saw a more substantial population decrease – almost 8.5 percent – from 56,255 in 2000 to 51,923 in 2010.

Neighboring Santa Rosa County grew from 117,743 to 151,372 during the decade, an increase of almost 29 percent. Santa Rosa was among the fastest growing counties in Florida. The Town of Jay's population decreased, from 579 to 533.

EDUCATION

There are a total of 107 public schools in the Pensacola MSA. There are 51 elementary schools, 17 middle schools, 13 high schools, and 26 alternative schools. The Escambia County School District is one of the 100 largest in the nation, providing programs ranging for accelerated learning for gifted students to dropout prevention for troubled students. The area has access to many Colleges and Vocational Schools including Troy State University, University of West Florida, Pensacola Christian College, Pensacola State College, and George Stone Vocational Training Center.

More than 11,000 students are enrolled at the University of West Florida. The University of West Florida is a Doctoral/Research University, which specializes in engineering and the humanities. UWF is a space-grant institution that was established in 1963. The University of West Florida sits on the third largest campus in the State University System, 1,600 acres (6.5 km²), and its campus is a natural preserve that is bordered by two rivers and Escambia Bay. The University of West Florida is known for its small class sizes and its intimate, private school like educational atmosphere, which distinguishes it from the larger universities in the State University System.

In 2010 UWF opened a new multimillion dollar facility, home of the new School of Science and Engineering including the Computer Science, Computer Information Systems, Electrical Engineering, Computer Engineering, Mathematics and Statistics, Physics, and Software Engineering programs.

The building includes prototype robot fabrication and testing laboratories, 3-D virtual reality simulators, a state-of-the-art holo deck and a glass wall atrium that helps put science into public view. This construction is based on Project Kaleidoscope, a national initiative funded project by the National Science Foundation and the Keck Foundation. This collegiate facility is one of the first of its kind.

Pensacola State College (since 2010), previously Pensacola Junior College, offers more than 100 majors and areas of concentration. The college offers associates and bachelors degrees as well as vocational certifications and an adult high school. Local sports fans have watched several area teams take national collegiate championships. Several private colleges also produce graduates for Northwest Florida.

MILITARY

Naval Air Station Pensacola or NAS Pensacola, also nicknamed, "The Cradle of Naval Aviation", is a United States Navy base located within the Pensacola city limits. It is best known as the primary training base for all Navy, Marine and Coast Guard aviators and Naval Flight Officers, the advanced training base for most Naval Flight Officers, and as the home base for the United States Navy Flight Demonstration Squadron, the precision-flying team known as the Blue Angels. It is currently a Superfund site.

The air station also hosts the Naval Air and Operational Medical Institute (NAOMI), which provides training for all naval flight surgeons, aviation physiologists, and aviation experimental psychologists. With the closure of Naval Air Station Memphis in Millington, Tennessee and the transition of that facility to Naval Support Activity Mid-South, NAS Pensacola also became home to the Naval Air Technical Training Center (NATTC), providing technical training schools for nearly all enlisted aircraft maintenance and enlisted aircrew specialties in the U.S. Navy, U.S. Marine Corps and U.S. Coast Guard.

NAS Pensacola contains Forrest Sherman Field, home of Training Air Wing SIX, providing undergraduate flight training for all prospective Naval Flight Officers for the U.S. Navy and U.S. Marine Corps, prospective U.S. Air Force Navigator/Combat Systems Officers for the F-15E Strike Eagle and B-1B Lancer bomber, and flight officers/navigation for other NATO/Allied/Coalition partners. TRAWING SIX consists of the Training Squadron 4 (VT-4) Warbucks, Training Squadron 10 (VT-10) Wildcats and Training Squadron 86 (VT-86) Sabrehawks, flying the T-45C Goshawk, T-6A Texan II, T-39 Sabreliner and U.S. Air Force T-1A Jayhawk aircraft.

Other tenant activities include the United States Navy Flight Demonstration Squadron, the Blue Angels, flying F/A-18 Hornets and a single USMC KC-130F Hercules; the 2nd German Air Force Training Squadron USA (German: 2. Deutsche Luftwaffenausbildungsstaffel USA - abbreviated "2. DtLwAusbStff"), and the NAS Pensacola Search and Rescue Detachment (flying SH-60 Seahawk helicopters). A total of 131 aircraft operate out of Sherman Field, generating 110,000 flight operations each year.

The National Museum of Naval Aviation, the Pensacola Naval Air Station Historic District, and the National Park Service-administered Fort Barrancas and its associated Advance Redoubt are all located at NAS Pensacola, as well as Barrancas National Cemetery.

HOUSING

In 2010, the housing market in the Pensacola MSA continued a steady, long-term decline. According to MLS, detached residences in Escambia County experienced a decline of approximately 7.5% +/- from the previous year. Sales prices are down approximately 17.5% from three years previous.

The National Association of Realtors also report that single family housing permits had grown 42.8% over the past twelve years, as of September 2010. This rise in housing permits implies stabilization in local supply. However, any rebound in home prices is expected to be a very slow process with any appreciation in the next few years expected to be minimal.

DEVELOPMENT LAND

According to the PWC (formerly Korpacz) Real Estate Investor Survey for quarter 4 2010, "Due to a lack of sufficient data, specific key indicators are excluded for this market this quarter." This survey also reports, with respect to Development Land, "it will not get any cheaper than it is now, but prepare to wait a long time for the right development opportunity. This lack of certainty from one of the most relied upon investor surveys implies a higher level of risk for investors purchasing vacant land. As a basic principal of economics, this higher level of risk has a downward effect on property values.

GOVERNMENT

Escambia County

Escambia County is governed by a board of county commissioners and is divided into five districts. One county commissioner is elected from each district to serve a four-year term. Commissioners are chosen in partisan elections by voters from the districts in which they live. The board appoints a county administrator to be chief administrative officer of the county, responsible to the commission for the orderly operations of matters within the board's jurisdiction.

The Office of Public Information and Communications is the information hub for the Escambia County Board of County Commissioners, county administration and its bureaus. Their mission is to enhance the relationship between Escambia County government, its citizens and the media through public relations, media relations and customer service.

Escambia County is comprised of the following six bureaus: Corrections, Development Services, Management and Budget Services, Neighborhood and Community Services, Public Safety, and Public Works.

The Corrections Bureau is comprised of three divisions: Community Corrections, Environmental Enforcement and Animal Control, and the Road Prison.

The Development Services bureau consists of a group of professional and certified planners who, along with support staff, help administer the Escambia County Comprehensive Plan and Land Development Code. This Bureau is comprised of the following divisions: Building Inspection Division, Environmental Services, Geographic Information Systems, Planning and

Development, and Projects and Contracts. These departments are helpful in deciphering and enforcing land use regulations and building codes.

The Management & Budget Services Bureau is responsible for the primary internal and administrative functions of Escambia County government.

Neighborhood and Community Services is the largest of the county's bureaus, and it provides a diverse array of vital programs to the community. These programs include Community Affairs, Escambia Extension, Neighborhood Redevelopment, and Solid Waste Management.

The mission of the Public Safety Bureau is to mitigate emergency situations and teach residents how is to prepare their families, homes and businesses for disaster.

The Public Works Bureau is charged with the conservation and preservation of Escambia County's infrastructure, including Parks/Marine Maintenance, DCAT, Engineering, Fleet Maintenance, Facilities Management, Roads Division, and Mosquito Control staff.

The United States District Court for the Northern District of Florida is located in Pensacola.

Santa Rosa County

A board of commissioners governs Santa Rosa County. The commissioners are elected by specified districts. The commission in turn appoints a county manager who oversees the day to day operations of the respective governments.

The county operates separate planning and zoning department and building inspection department. These departments are helpful in deciphering and enforcing land use regulations and building codes.

Santa Rosa County Sheriff department and fire department offer adequate protection for the area. The fire department is staffed with volunteers and paid employees by municipality within the county.

The Gulf Power Company, a subsidiary of Southern Company, serves Northwest Florida with three modern electricity generating stations. The Bell South Telephone Company provides telephone service for Pensacola. The Escambia County Utilities Authority (ECUA) supplies water to most residents of the county and provides solid waste, recycling, and yard trash collection to residential properties within the unincorporated area of the county. Natural Gas services are available through Energy Services of Pensacola.

The Department of Transportation cares for all interstates and highways throughout the area. The City of Pensacola operates the Port of Pensacola which can accommodate ocean going vessels with drifts up to 33 feet. The Pensacola Regional Airport is a commercial airport served by American Airlines, ComAir, Continental Airlines, Delta Airlines, Northwest Airlink, and US Airways. Southwest Airlines are currently in negotiations regarding their possible future expansion to The Pensacola Regional Airport.

The state of Florida has no personal income tax. There is no sales tax on food, medicine, packaging, boiler fuels, and inventories. The majority of Florida tax revenue comes from sales tax on retail sales, rentals, and transient living accommodations. Additionally, there is a corporate state income tax of 5.5%.

SUMMARY

Pensacola remains to be the largest metropolitan area in the Northwest Florida with a strong dependence on a military presence. Escambia County, along with the surrounding region, is in an expanding stage of economic development. The commissioners in the Pensacola area have shown strong will and determination to bring corporations and jobs to the area through the "Florida's Great Northwest" Plan. This region is expected to continue to grow for the foreseeable future.

Interesting information about the area:

- Two Pensacola area beaches made it in the America's top ten beaches - Perdido Key at No. 3 and Eastern Perdido Key at No. 7, according to Dr. Stephen Leatherman of the University of Maryland's Laboratory for Coastal Research
- Pensacola ranked as 4th best place out of 151 cities in the nation for retirees according to the book "Retirement Places Rated" written by David Savageau, published by Prentice-Hall Press
- TripAdvisor and Southern Living call the Pensacola Bay Area one of the nation's "top family-friendly destinations"
- Pensacola is proud to call itself home to the Blue Angels, officially known as the U.S. Navy Flight Demonstration Squadron.
- Pensacola is nicknamed "The City of Five Flags" due to the five governments that have flown flags over it during its history: the flags of Spain, France, Great Britain, the Confederate States of America and the United States.
- University of West Florida named "Best Southeastern College by the *Princeton Review*
- Pensacola MSA ranked 76th, surpassing cities such as Miami, Jacksonville and Orlando in Forbes magazine's May 23 issue listing 150 large metro areas as "Best Places for Business."

REGIONAL LOCATION MAP

NEIGHBORHOOD ANALYSIS

The Neighborhood description is the study of general influences on all property values and particularly the subject property. This analysis is made to determine how the operation of social, economic, government and environmental forces influence the property values in proximity to the subject. The definition of market area (neighborhood) is "a grouping of complementary land uses affected by similar operation of four forces that affect property value."

The subject property is located along the north side of West Hernandez Street. North W Street is located to the west, West Fairfield is positioned to the north, Baptist Hospital is situated to the east, and Highway 90/W i.e. Cervantes can be found to the south. Hernandez Street is a two lane, two way road with modest speeds of 25 mph +/- . The neighborhood is currently experiencing a declining commercial real estate market and lease market; however, this landscape is typical nationwide. Historical trends suggest the economic climate will eventually improve; however, the timetable and extent of the stabilization is not easily surmised.

This neighborhood is located to the northwest of Pensacola's Central Business District and is characterized by a mixture of neighborhood commercial uses located along the major thoroughfares and residential uses can generally be seen along interior sites. The majority of commercial uses are retail or service oriented with some light industrial. Major neighborhood amenities, such as shopping and educational facilities, are situated nearby. County services are adequate and tax rates appear to be in proportion with other commercial properties in this area.

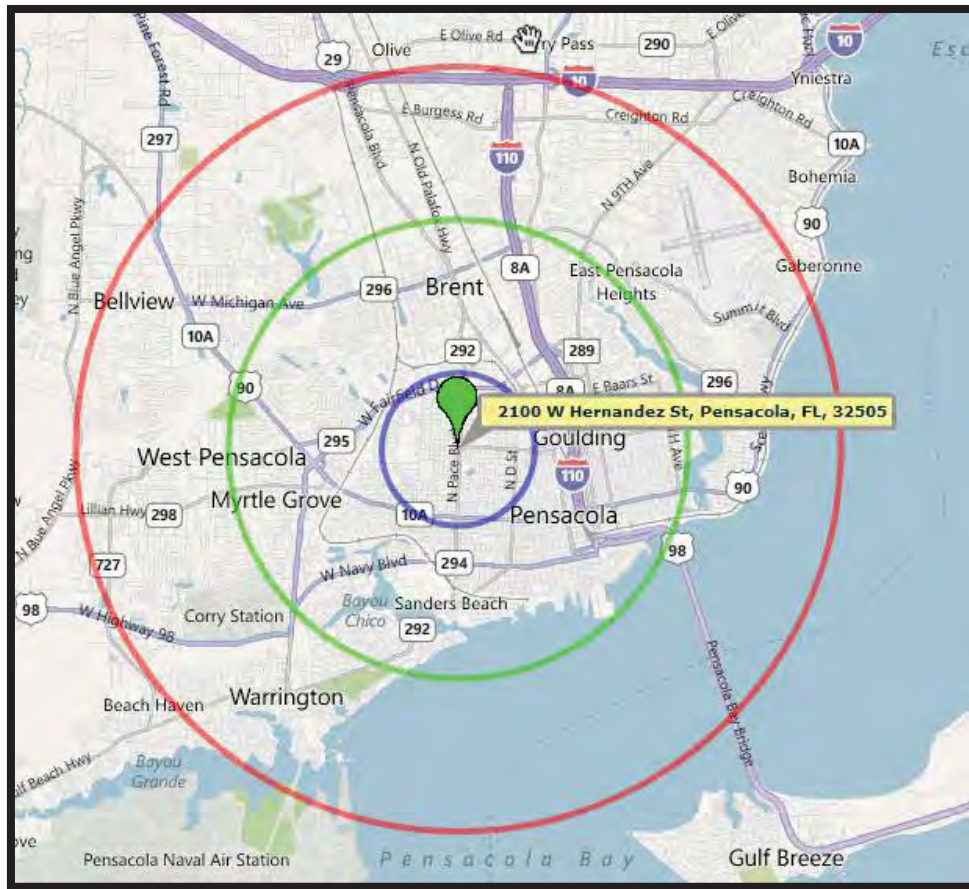

NEIGHBORHOOD LOCATION MAP

SITE TO DO BUSINESS

In the following pages we have included neighborhood information on the subject property taken from an online database at www.STDBOnline.com. This website is dedicated to gathering reports based on radius searches and provided a wide variety of demographic information for the subject property's surrounding area. In the subject property's case we felt a five (5) mile radius would be sufficient. A two page report including has been included on the following pages. We have briefly summarized the information in the following paragraph.

The 2010 population in this selected geography is reported to be 144,641. The 2000 census revealed a population of 143,945 representing a .05% annual compounded growth rate. It is estimated that the population in this area will be 144,183 in 2015 representing a compound annual growth rate of -.06% from 2010. Currently, the median household income in this selected geography is reported to be \$37,933 compared to the US median which is reported to be \$54,442. The Census revealed a median household income of \$30,440 in 2000. It is estimated that the median household income in this area will be \$44,797 in five years. With median household income values up and expected to continue upward, the market appears to be in a growth position. It was also noted that the Median home value in this area is \$95,357, compared to the median home value of \$157,913 for the US. The five year compounded annual growth rate for median home values is projected to be 3.06 annually, resulting in an estimated 2015 median home value of \$110,881.

Households by Income

Current median household income is \$37,933 in the market area, compared to \$54,442 for all U.S. households. Median household income is projected to be \$44,797 in five years. In 2000, median household income was \$30,440, compared to \$22,141 in 1990.

Current average household income is \$48,032 in this market area, compared to \$70,173 for all U.S. households. Average household income is projected to be \$52,997 in five years. In 2000, average household income was \$41,270, compared to \$28,962 in 1990.

Current per capita income is \$19,962 in the market area, compared to the U.S. per capita income of \$26,739. The per capita income is projected to be \$22,101 in five years. In 2000, the per capita income was \$16,947, compared to \$11,398 in 1990.

Population by Employment

Total Businesses	667	4,649	7,335
Total Employees	16,048	57,825	92,994

Currently, 86.4 percent of the civilian labor force in the identified market area is employed and 13.6 percent are unemployed. In comparison, 89.2 percent of the U.S. civilian labor force is employed, and 10.8 percent are unemployed. In five years the rate of employment in the market area will be 89.2 percent of the civilian labor force, and unemployment will be 10.8 percent. The percentage of the U.S. civilian labor force that will be employed in five years is 91.2 percent, and 8.8 percent will be unemployed. In 2000, 88.2 percent of the population aged 16 years or older in the market area participated in the labor force, and 2.7 percent were in the Armed Forces.

In the current year, the occupational distribution of the employed population is:

- 56.3 percent in white collar jobs (compared to 61.6 percent of U.S. employment)
- 23.3 percent in service jobs (compared to 17.3 percent of U.S. employment)
- 20.3 percent in blue collar jobs (compared to 21.1 percent of U.S. employment)

In 2000, 75.0 percent of the market area population drove alone to work, and 2.3 percent worked at home. The average travel time to work in 2000 was 21.2 minutes in the market area, compared to the U.S. average of 25.5 minutes.

Population by Education

In 2010, the educational attainment of the population aged 25 years or older in the market area was distributed as follows:

- 16.8 percent had not earned a high school diploma (14.8 percent in the U.S.)
- 30.6 percent were high school graduates only (29.6 percent in the U.S.)
- 8.9 percent had completed an Associate degree (7.7 percent in the U.S.)
- 13.7 percent had a Bachelor's degree (17.7 percent in the U.S.)
- 7.7 percent had earned a Master's/Professional/Doctorate Degree (10.4 percent in the U.S.)

PARCEL MAP PER ESCAMBIA COUNTY

Parcel 172S30-1200-011-028

AERIAL MAP PER ESCAMBIA COUNTY

Parcel 172S30-1200-011-028

SITE DESCRIPTION

Parcel Address:

2100 W. Hernandez Street, Pensacola, Florida, 32505, Escambia County.

Dimensions and Area:

The subject property is comprised of two sections within one parcel. Parcel # 172S301200011028 measures 130' x 165' and has a total area of .49 acres +/- . These dimensions are taken from the Escambia County Property Appraiser's website and do not account for the 20 foot unimproved County owned alleyway positioned between the two sections. *However, it is an extraordinary assumption of this appraisal assignment that the unimproved alleyway at the rear of the property, in effect, separating the rear 25' does not have a significantly detrimental impact, primarily based on the historical trend of having these alleyway's vacated." Should this assumption be inaccurate, this appraisal and all value indications arrived at herein may be considered invalid and subject to review by the appraiser signing this report. A visual representation is presented below for the reader's review.

Parcel 172S30-1200-011-028

Easements:

No information was provided to our office regarding the presence of any easement that may affect the value in any way. If this assumption is found to be inaccurate, this appraisal analysis and all value indications arrived at herein, may be considered invalid and subject to a review by the appraiser signing this report.

Topography:

The subject property is more or less at street grade and average for the area.

Soils:

The soils contained within the subject parcel have been identified as...

32—Troup sand, 0 to 5 percent slopes

This very deep, somewhat excessively drained soil is on nearly level summits and gently sloping shoulder slopes of ridges in the central and northern parts of the county. Slopes generally are long and smooth. Individual areas are irregular in shape. They range from 15 to about 600 acres in size.

Typically, the surface layer is dark grayish brown sand about 5 inches thick. The subsurface layer extends to a depth of 58 inches. It is yellowish brown sand in the upper part, strong brown sand in the middle part, and yellowish red loamy sand in the lower part. The subsoil to a depth of 80 inches is red sandy loam and sandy clay loam.

Utilities:

Gulf Power provides the electricity. ECUA furnishes water and sewer for the subject property.

Street Improvements:

W Hernandez Street is a two lane, asphalt paved road that is situated west of North Pace Boulevard.

Location in Block:

2100 W. Hernandez Street, Pensacola, Florida, 32505, Escambia County is a corner parcel with 165 +/- feet of frontage on North Pace Boulevard and 130 +/- feet along W. Hernandez Street.

Relationship Surroundings:

The site is typical for the area and includes primarily commercial properties. Residential dwellings are located in the more interior sites.

Environmental:

We are not aware of any environmental contamination evident to this property with no visible sources noted upon inspection. However, we are not experts in this matter and a qualified professional should evaluate this land prior to the reliance of this report.

Ingress/Egress (Access):

Access to 2100 W. Hernandez Street Pensacola, FL 32505, Escambia County is via Hernandez or North Pace Boulevard. There is not a delineated turn lane for use from either direction on W Hernandez, and one does not appear to be needed, based on the minimal traffic flow.

Traffic Counts:

According to the Florida Department of Transportation and the 2010 daily traffic report <http://www2.dot.state.fl.us/FloridaTrafficOnline/viewer.html> there is not a traffic counter in the immediate area of the subject.

2100 W. Hernandez Street Pensacola, FL 32505

The traffic counter on North Pace Boulevard south of W. Jordan Street indicates 15,700 +/- AADT.

HIGHEST & BEST USE

Overview

Highest and Best Use is defined in the 13th edition of the Appraisal of Real Estate (Appraisal Institute, Chicago, 2008) as follows:

“The reasonably probable and legal use of vacant land or an improved property that is legally permissible, physically possible, appropriately supported, and financially feasible, and that results in the highest value.”

As evident by its definition, Highest and Best Use is a multiple step process that investigates the optimum use of a property by a variety of criteria. These factors have been considered in the following analysis.

As Vacant

Physically Possible Uses

2100 W. Hernandez Street Pensacola, FL 32505

Parcel is .49 +/- acres or 21,450 SF per the Escambia County Property Appraiser’s website. This parcel has significant access and fair visibility with 130 +/- feet along Hernandez and 165 +/- feet along North Pace Boulevard. The overall size and shape of the subject property allows for a variety of uses.

Legally Permissible Uses

The subject property is zoned C-2, General Commercial District per Escambia County. The immediate neighborhood is dominated by commercial and industrial businesses, with residential properties in the more interior surrounding areas. The future designation of the comprehensive plan indicates future commercial use.

Financially Feasible Uses

The test for financial feasibility as improved addresses what the market demands for properties similar to the subject property in its immediate area. Escambia County is going through a period of development expansion in the more outlying areas of the county, as the more core area of Pensacola has been built out. However, the current slow real estate and lease market is affecting areas such as the subject property. There is hope that the market will recover over the next few years, but currently extended marketing and exposure times are anticipated. The subject property is located near a built up section of North Pace Boulevard. This roadway is a busy commercial and retail commercial thoroughfare where there are steady traffic counts in the 15,000 AADT range. Due to the location of the subject parcel, the best utilization would be to maximize the current commercial zoning.

Maximally Productive Use

The key to maximally productive utilization is to balance the legally allowable use with the level of demand for the most marketable use. The subject property is located in an area where there are many industrial and retail properties in close proximity that offer competitive rental and resale rates. Due to the fact that the property is located in an area where the majority of other surrounding properties are zoned commercial and achieving varying levels of success, a continued commercial utilization is the best use for the subject property.

The following is a list of allowable uses under the subject property's C-2, General Commercial District per Escambia County and the below grid is an illustration of the potential uses for the subject property and the supporting reasoning for that conclusion.

Potential Use C-2	Likelihood	Reasoning
Retail	Likely	Suitable use
Personal services establishments	Likely	Suitable use
Restaurants	Likely	Suitable use
Auto repair and service stations	Likely	Suitable use
Hotels and motels	Unlikely	Inadequate site area
Grocery, produce	Likely	Suitable use
Distribution Warehousing	Likely	Suitable use
Hospitals	Unlikely	Inadequate site area
Funeral Homes	Unlikely	Not Maximally Productive
Animal hospitals	Unlikely	Not Maximally Productive
Indoor Movie Theaters	Unlikely	Not Maximally Productive
Offices, professional services	Likely	Suitable use
Manufacturing, fabrication and assembly	Likely	Suitable use

There are a number of potential uses for the subject property site. The most logical use of the subject property is for commercial purposes, given the subject property's visibility when traveling N. Pace Boulevard, a services or retail utilization is appropriate.

VALUATION METHODOLOGY

The Direct Sales Comparison, or Market, Approach involves direct comparisons of the subject property to similar properties that have sold in the marketplace in order to derive a market value indication for the subject property. The approach consists of steps in which the appraiser searches the market for sales, qualifies the sales prices and terms, compares the sales to the subject property for differences, adjusts the sales for those differences and formulates an opinion of value of the subject property from the indicated values (as adjusted) of the sales.

Typically, the appraiser reduces the comparable sale to a unit of comparison or units of comparison. These may be physical, such as dollars per square foot of area, or they may be economic, such as gross rent multiples. These units of comparison yield a pattern by which the appraiser can convert the subject property's similar unit to a value indication by the Sales Comparison Approach.

To be used as a valid indication of value, any comparable sale must qualify as bona fide and have similar characteristics to the subject property. When there is a sufficient amount of data, the indication of value via the Sales Comparison Approach is generally persuasive.

The Direct Sales Comparison approach to value will be utilized in order to form a final market opinion of value for the fee simple interest in the subject property.

DIRECT SALES COMPARISON APPROACH

This is an appraisal technique in which the market value estimate is based upon prices paid in actual market transactions and current listings. It is a process of correlation and analysis of similar recently sold properties. The reliability of this technique is dependent upon:

- a) The degree of comparability of each property with the property being appraised,
- b) The time of sale,
- c) The verification of sales data,
- d) The absence of unusual conditions affecting the sale.

A search has been made to develop sales information on properties comparable to the subject. The following is a discussion of those sales, using a physical price per square foot (\$/SF) method of comparison. Our research and analysis revealed three comparable improved sales for the construction type composed in the subject property. Supporting documentation on these comparable sales is contained within the appraiser's files. These sales are representative of similar usage structures located in the subject's marketing area.

Typically, the appraiser reduces the comparable sale to a unit of comparison or units of comparison. These may be physical, such as dollars per square feet of area, or they may be economic, such as gross income multiples. These units of comparison yield a pattern by which the appraiser can convert the subject property's similar unit to a value indication by the market approach.

Comments

This is an interior parcel located along the south side of Lenox Parkway. According to Escambia County records, the adjacent parcel to the east is an auto sale, repair business owned by Phillip & Atonia Walters, the purchasers of this parcel. Business Name: "Pensacola Fuel Injection and Service." *Public record indicates this same parcel sold in 8/2001 for \$55,500. Philip Walters confirmed on 11/14/11 that he indeed purchased this lot for the expansion of his business. Philip verified the date of purchase as well as price. The purchaser also indicated this lot was publicly marketed, but we were unable to find a corresponding MLS#.

Analysis and Adjustment of Sales:

The adjustment process is typically applied through either quantitative or qualitative analysis. Quantitative adjustments are often developed as dollar or percentage amounts, while qualitative adjustments are simply expressed through relative comparison (i.e. significantly inferior). Quantitative adjustments are most applicable when the quality and quantity of data allows paired sales, cost or statistical analysis. Given the availability of data and imperfect nature of the real estate market, participants most often rely on relative or qualitative comparisons.

Combining the benefits of both qualitative and quantitative analysis, a blended adjustment technique is generally used. This is accomplished through pre-assigning quantitative adjustments for relative comparison. The following chart illustrates the blended adjustment technique.

BLENDED ADJUSTMENTS		
Qualitative Comparisons		Pre-Assigned Quantitative Adjustments
Slight Adj.		5%
Moderate Adj.		10%
Fair Adj.		15%
Significant Adj.		20%
Large Adj.		25% Plus

Market participants can often identify superior and inferior characteristics when comparing properties. Without paired sales or statistical information, applying quantitative adjustments to reflect the differences is often problematic or subjective. For this analysis, the above listed quantitative adjustments reflect the need for slight, moderate, fair, significant, or large adjustments.

Adjustments are based on our rating of each comparable sale in relation to the subject. If the comparable is rated superior to the subject property, the sale price is adjusted downward to reflect the subject's relative inferiority; if the comparable is rated inferior, its price is adjusted upward. Adjustments were considered in the elements of comparison discussed below.

Property Rights

To the best of our knowledge, all three comparable sales were of fee simple interest and therefore required no adjustment.

Financing

All three comparable sales were done on a “cash to seller” basis or at financing terms consistent with the current market and therefore required no adjustment.

Conditions of Sale

All three sales were found to be “arms length” transactions and therefore required no adjustments.

Time/Market Adjustments

A time/market adjustment is used to reflect the appreciation/depreciation of properties over time and normally is applied to comparable sales data that are a year or more. The adjustments applied are based on a time/market study of commercial properties in the general area that indicate an appreciation rate of a certain percentage per year. There have not been enough resale transactions involving properties similar to the subject in order to derive a reliable rate of appreciation/depreciation to apply to the comparable sales. Therefore, all real property transactions since 1st quarter 2009 in Escambia County have been researched to derive some type of rate of appreciation/depreciation basis applicable to the subject comparables from a very general standpoint. We derived the adjustments by applying the quarter/year those sales transactions occurred, and subtracted the indicator from the current quarter/year. Then that number is divided by the indicator when the sales transaction occurred. In other words Sale 2 occurred in the 2nd quarter of 2009 with an indicator of 70. Currently the indicator is at 62. Therefore, $70 - 62 = 8$; $8 / 70 = -11\%$, which was applied in our grid. Subsequent to analysis of this graph, Sales 1 and 3 from 1st quarter 2009 were given a -7% adjustment.

*A graph of the REARS survey has been provided for the reader’s visual review.

Location

Location adjustments area applied for use, in this case commercial use, is quantifiable based on the number of issues such as traffic counts, convenience, parking, etc. Sale 1 is located in an area some distance from the subject, similar overall. Sale #2 is located several blocks east of the subject, in a superior area, requiring downward adjustment. Sale 3 required a modest upward adjustment for its slightly inferior location.

Topography:

The subject property and all three comparable properties have similar topography and therefore no adjustments were warranted.

Zoning:

Zoning is considered significant due to the allowable development on a certain parcel. The subject property and all three comparable sales have similar zoning and no adjustments were applied.

Road Frontage:

The subject property has a total of 295 feet of frontage between Hernandez Street and N. Pace Boulevard. Comparable Sale 2 had a similar road frontage to parcel size ratio; therefore, no adjustment was applied. Sales 1 and 3 have inferior road frontage considering these parcel's sizes in relation to the subject's size/frontage ratio; so these sales received a positive adjustment in this category.

Site Acreage:

Acreage adjustments are applied where great anomalies are apparent in the size of the comparable sales. The adjustments made here may seem analogous to the process, however, due to the laws of economy of scale, larger parcels of vacant commercial land will reflect a lower per unit value compared to smaller parcels even though the gross price of the piece may be greater. Keeping this theory in mind, Sales #1, #2, and #3, (smaller tracts) required some downward consideration.

Utilities:

All public utilities are available at or near the subject as well as all comparables. Therefore, no adjustments were necessary.

Shape:

The shape of a parcel is important for development purposes. The more rectangular a parcel is, the more a parcel can be utilized by a potential developer. All three sales were relatively similar in overall shape, not requiring any significant adjustment.

Corner/Interior:

Corner parcels in the commercial market usually sell for more than interior parcels due to their improved visibility/access. The subject property is a corner parcel. Sale 2 is as well; therefore, no adjustment was applied. Sales 1 & 3 however, are interior parcels requiring some upward adjustment.

Functional Utility

This category is utilized to address functional concerns with the properties. The subject and all three comparable sales represent fully functional sites that are all well suited to accommodate their respective uses. No adjustments needed.

Reconciliation

The range of price per square foot values has been narrowed due to the adjustments to a range of unit indications of \$3.12, \$3.52, and \$3.98 per square foot. This indicates a range in value for the subject property between \$66,593 and \$84,949. The mathematical mean of the three values per square foot is \$3.54. All three comparable sales are considered the most comparable sales available at this time for the subject property. This is due to the lack of commercial land sales in the Pensacola and Escambia County area, particularly commercial parcels.

More weight was given to Sale 1 given it required the smallest amount of gross adjustment.

Final Land Value Analysis- PARCEL #172S30-1200-011-028

Subject Site Size(SF)	Reconciled Price/SF	Overall Value
21,344	\$3.52	\$75,131
Rounded to		\$75,000

\$75,000

**SEVENTY FIVE THOUSAND DOLLARS
VALUE VIA THE DIRECT SALES COMPARISON APPROACH
PARCEL #172S30-1200-011-028**

RECONCILIATION AND FINAL VALUE OPINION

The final reconciliation section discusses the respective value indications, analysis of the methods used, and the strength of the data compiled for each technique, and explains the reasoning behind identifying a single point of value.

The purpose and ultimate goal of the reconciliation is to form a meaningful, credible conclusion about the final opinion of value.

The one applicable approach to value provided the following value indication:

Direct Sales Comparison Approach	\$75,000
---	-----------------

Direct Sales Comparison Approach

When an adequate amount of data is available, the sales comparison approach is the best valuation technique because it directly reflects buyers and sellers actions. In this analysis, all of the sales in the direct comparison grid are in the general area, are fairly recent, and all are reasonably similar type properties. These sales were analyzed with a quantitative/qualitative analysis and, after accounting for minor physical differences, a range of value was developed and reconciled, which is consistent with market practice. The direct sales comparison approach is felt to be a good indicator.

Final Value Opinion

The Direct Sales Comparison Approach to value lent very good support to this indication of value. After reviewing the strengths and weaknesses of the data and method for valuation, the final value opinions for the fee simple interest in the appraised property is reconciled to:

\$75,000
SEVENTY FIVE THOUSAND DOLLARS
"AS-IS" VALUE
FEE SIMPLE INTEREST
NOVEMBER 3, 2011

G. Daniel Green MAI, SRA is currently certified under the voluntary continuing education program of the Appraisal Institute.

Due to the current market uncertainty in the US and local real estate economy, the opinions and conclusions herein are effective as of the appraisal date only.

In addition to the included assumptions and limiting conditions, the following also apply:

1. *The client, Board of County Commissioners, Escambia County, FL, nor the current owner of the property furnished a boundary survey. All measurements and parcel sizes are based on the Escambia County Property Appraiser's records. Should this information be inaccurate, this appraisal and all value indications arrived at herein may be considered invalid and subject to review by the appraiser signing this report.*
2. *The appraisal does not address unforeseeable events that could alter the property improvement and/or market conditions reflected in the analysis.*
3. *The appraisal does not address the removable personal property situated on the subject property (i.e. storage sheds) in the estimate of value (if any).*
4. *The appraiser also reserves the right to alter opinions of value contained in this appraisal report on the basis of information withheld or not discovered in the normal course of diligent investigation.*
5. *It is an extraordinary assumption of this appraisal assignment that the unimproved alleyway at the rear of the property, in effect, separating the rear 25' does not have a significantly detrimental impact, primarily based on the historical trend of having these alleyways vacated." Should this assumption be inaccurate, this appraisal and all value indications arrived at herein may be considered invalid and subject to review by the appraiser signing this report.*

Exposure Time: The exposure time linked to the final value opinion for subject property is estimated to be eighteen (18) to twenty four (24) months based on market sales of similar properties and current market activity.

Marketing time at concluded value estimate: We estimate the marketing time for the subject property to be eighteen (18) to twenty four (24) months.

Respectfully Submitted,

G. Daniel Green, MAI SRA
State-Certified General Real Estate
Appraiser RZ836

ASSUMPTIONS AND LIMITING CONDITIONS

1. The appraiser certifies that to the best of his knowledge and belief, the statements contained in this appraisal and upon which the opinions expressed herein are based, are correct, subject to the limiting conditions herein set forth; also, that this appraisal has been made in conformity with the Professional Standards of the Appraisal Institute.
2. No responsibility is to be assumed for legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated in this report.
3. The property is appraised free and clear of all liens and encumbrances unless otherwise stated in this report.
4. Responsible ownership and competent property management are assumed unless otherwise stated in this report.
5. The information furnished by others is believed to be reliable. However, no warranty is given for its accuracy.
6. All engineering is assumed to be correct. Any plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.
7. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.
8. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless otherwise stated in this report.
9. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless nonconformity has been stated, defined, and considered in this appraisal report.
10. It is assumed that all required licenses, certificates of occupancy or other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimates contained in this report are based.
11. Any sketch in this report may show approximate dimensions and is included to assist the reader in visualizing the property. Maps and exhibits found in this report are provided for reader reference purposes only. No guarantee as to accuracy is expressed or implied unless otherwise stated in this report.
12. It is assumed that the utilization of the land and improvements is within the boundaries or property lines of the property described and that there is no encroachment or trespass unless otherwise stated in this report.
13. The appraiser is not qualified to detect hazardous waste and/or toxic materials. Any comment by the appraiser that might suggest the possibility of the presence of such substances should not be taken as confirmation of the presence of hazardous waste and/or toxic materials. Such determination would require investigation by a qualified expert in the field of environmental assessment. The presence of substances such as asbestos, urea-formaldehyde foam insulation or

other potentially hazardous materials may affect the value of the property. The appraiser's value estimate is predicated on the assumption that there is no such material on or in the property that would cause a loss in value unless otherwise stated in this report. No responsibility is assumed for any environmental conditions, or for any expertise or engineering knowledge required to discover them. The appraiser's descriptions and resulting comments are the result of the routine observations made during the appraisal process.

14. Unless otherwise stated in this report, the subject property is appraised without a specific compliance survey having been conducted to determine if the property is or is not in conformance with the requirements of the Americans with Disabilities Act. The presence of architectural and communications barriers that are structural in nature that would restrict access by disabled individuals may adversely affect the property's value, marketability, or utility.
15. Any proposed improvements are assumed to be completed in a good workmanlike manner in accordance with the submitted plans and specifications.
16. The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and are invalid if so used.
17. Possession of this report, or a copy thereof, does not carry with it the right of publication. Any person other than the party to whom it is addressed without the written consent of the appraiser, and in any event, only with proper written qualification and only in its entirety may not use it for any purpose.
18. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected) shall be disseminated to the public through advertising, public relations, news sales, or other media without prior written consent and approval of the appraiser.

QUALIFICATIONS OF APPRAISER

G. DANIEL GREEN, MAI, SRA

First South Bank	Wachovia Bank, N.A.
Regions Mortgage	Compass Bank
Regions Bank	Adams Homes of NW FL
Local Attorneys and Private Developers	GMAC Mortgage
Gulf Breeze Chamber of Commerce	United Bank

PROFESSIONAL EXPERIENCE

I entered the field of Real Estate in the summer of 1977. My experience in property marketing initiated interest in the appraisal area. Since 1978, I have devoted my time to the study of real estate appraisal, combined with practical experience. This experience has included proposed and existing appraisals of single and multifamily residences, fast-food restaurants, retail establishments, office buildings, hotels, motels, churches, industrial warehousing, night clubs, acreage, subdivisions developments and specialized properties.

I have been qualified as an expert witness in Federal Court.

I have been qualified as an expert witness in Escambia County Circuit Court.

I have been qualified as an expert witness in Santa Rosa County Circuit Court.

Required Completion Date: 10/13/2011 Report Delivery: Hard Copy | Electronic

Dear Appraiser:

Escambia County hereby requests your services in providing a Summary Appraisal on the above referenced real estate, including all applicable valuation approaches. Regulations require the appraisal to be signed by the Appraiser to whom the engagement letter is addressed.

The purpose of the appraisal is to estimate the Market Value of the interest in the above-captioned real estate. Regulations and guidelines require an "as is" value consisting of "the current market value of the property in its actual physical condition and subject to the zoning in effect as of the date of the appraisal (a current date of value)."

The intended user/client is Escambia County and/or it's affiliates with an intended use for acquiring the parcel of property for drainage improvements.

Under the Gramm-Leach-Bliley Act, all provided information concerning the subject property and borrower, as well as the opinions and results of the appraisal, are confidential and cannot be distributed/ discussed with any other user/client without prior written approval from Escambia County. You are authorized to commence with the appraisal upon acceptance of this engagement letter and its prompt return to the Bank within the specified time as noted in this letter agreement. The above referenced, agreed upon appraisal fee is a gross fee, inclusive of all expenses, and will be paid as specified in this letter agreement. In order to comply with federal regulations, the appraisal is required to conform to the following minimum standards:

1) Compliance:

- a. The Appraisal must conform to generally accepted appraisal standards as evidenced by the Uniform Standards of Professional Appraisal Practice (USPAP) and all of the related USPAP Supplemental Standards;
 - i. And the appraisal guidelines and requirements pursuant to FIRREA;
 - ii. And for members of the Appraisal Institute the Code of Professional Ethics and Standards of Professional Appraisal Practice will apply and must be stated in the appraisal summary report.
- b. The Appraiser and this Appraisal must conform to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 for all residential appraisals.

2) **Format:** Your appraisal(s) must be in writing and contain sufficient information and analysis to support the value. According to the OCC 2006-27 revisions to the USPAP, Scope of Work (SOW) Appraiser must determine an appropriate Scope of Work that should be performed to produce "credible assignment results".

3) **Site Inspection:** The subject property is to be physically inspected thoroughly both interior and exterior by the appraiser, unless otherwise directed by client in writing.

4) **Deductions:** The Appraisal must analyze and report appropriate deductions and discounts for proposed construction or renovation, partially leased buildings, non-market lease terms, and tract developments with unsold units;

5) **Market Value:** Your opinion must be based on market value. "Market Value" as defined by par 323.2 (g) of FDIC Rules and Regulations means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a. Buyer and seller are typically motivated.
- b. Both parties are well informed or well advised, and acting in what they consider their own best interest.
- c. A reasonable time is allowed for exposure in the open market.
- d. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto;
- e. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

6) **Certified Appraiser:** The Appraisal must be performed and signed by an appraiser certified in the state where the property is located, state certified general appraiser for commercial properties or when applicable for residential properties a state certified residential real estate appraiser.

Deliver to: Escambia County

Please note that neither your engagement to make this appraisal (or any future appraisals for this client) nor any compensation therefore are contingent upon the reporting of a predetermined value, the amount of the value, the attainment of a stipulated result, or the occurrence of a subsequent event. Please show your agreement and understanding of this engagement letter with your signature in the space provided below and return (via U.S. Mail, Facsimile, or attachment to email) at your earliest convenience. Any questions regarding this engagement letter or concerns arising during the valuation of the subject property should be directed to the undersigned. Thank you for your consideration and service.

Sincerely,

Judy Cantrell

Real Estate Acquisition Specialist
