RE: Conditional Use Request for
Olive Road Food Mart – Fuel Pump Addition
Property ID # 20-1S-30-2101-003-006
1112 Olive Road
Pensacola, FL 32514
GCE Project No. 10200.02

Dear Mr. Holmer,

Please accept this letter requesting a conditional use to install gasoline pumps at the existing Olive Road Food Mart in Pensacola, Florida. The project site is located on the north side of Olive Road approximately one quarter mile east of Cody Lane. The property is zoned R-6. The Future Land Use code for the site is Mixed Use – Urban. The current use of the property is a convenience store. Gasoline service was previously provided at the site however the underground tanks and fuel pumps have since been removed. The owner would like to provide this service once again.

A pre-application meeting was held with Escambia County staff on February 13, 2003. The site plan enclosed with this request incorporates revisions made based on the reviewers' comments. In addition, the criteria set forth in Section 2.05.03 of the LDC have been acknowledged and measures have been taken as follows:

1. On-site circulation:

Access to the Olive Road Food Mart is currently provided by a large undivided driveway off Olive Road. For this project, the existing driveway shall be modified to include a curbed landscape island in the center of the property frontage. This modification shall create two full access driveways for ingress and egress to/from Olive Road. In addition the parking areas are designed to meet the current ADA requirements.

2. Nuisance:

The proposed addition of fuel pumps at the existing convenience store will not have any adverse effects on the surrounding properties. The pumps and underground fuel storage tanks shall be installed in accordance with the Escambia County Health Department and Fire Department requirements. The design and installation shall ensure that the health, safety and general welfare of the community is maintained. In addition, the fuel service stations shall be limited to passenger

vehicles only. The refueling service shall not be for use by heavy trucks or other large vehicles which could be considered a "nuisance".

3. Solid Waste:

Solid waste service is currently provided by Waste Pro of Pensacola. This service shall continue. Trash is collected and contained in a dumpster located on the east side of the building and shall remain at this location. A fence enclosure shall be constructed around the existing dumpster pad location as required by Escambia County for screening. The site has been designed to provide easy access to the dumpster for garbage collection trucks to remove the solid waste.

4. Utilities:

Potable water service is currently provided by ECUA. An existing septic system located on the north side of the property currently provides for collection and treatment of sanitary waste. The existing system shall not be impacted by the proposed improvements. However, as requested by staff, the system shall be pumped, inspected and certified by a licensed septic contractor for approval by the Escambia County Health Department. Electrical service is provided by Gulf Power via overhead electric lines located along Olive Road.

5. Buffers:

Front perimeter landscaping and landscaping buffers along the sides and rear of the property shall be provided in accordance with Article 7 of the Escambia County LDC and discussions with Escambia County staff. This includes the addition of a landscape island located in the center of the property frontage to create two full access driveways. Landscape islands are also proposed at each property corner (south side) which shall include crepe myrtles. The addition of these trees shall improve the aesthetics of the existing property.

6. Signs:

Site signage currently includes an approximately fifteen (15) foot tall pylon sign on the southwest corner of the property and minimal wall-mounted signs. No new signs are proposed for the requested improvements.

7. Environmental Impact

The existing property is located in uplands with no known wetlands, water bodies or stormwater systems on or near the project parcel. The property is located in flood zone X which is outside the 500-year flood plain. The north side of the property (beyond the building) is a vegetated area with no protected trees.

Stormwater runoff from the site sheet flows from north to south. The runoff is collected in a series of stormwater inlets located along the north side of Olive Road in County right-of-way. The proposed landscape islands shall be constructed with curb openings to allow for unobstructed flow to the inlets. No other alterations or modifications shall be made to the existing stormwater system.

During construction, best management practices shall be used to ensure erosion and sedimentation controls are in place.

8. Neighborhood Impact

The current uses of adjacent properties along the north side of Olive Road are commercial, office and church services. The addition of gasoline pumps to the existing convenience store shall have minimal impact on the adjacent properties. The fuel service addition could be considered a "convenience" to the neighborhood since there are no other gas service stations within an approximate one mile radius.

9. Other requirements of Code

According to Article 6 (Zoning Districts) of the Escambia County LDC, "sale of gasoline (and related service station products)" is allowed as a Conditional Use in the R-6 zoning district. The addition of fuel pumps at the existing Olive Road Food Mart meets this requirement.

Your consideration of this request is appreciated. Please feel free to contact me if you have any questions or comments at 850.375.8263 or email at erica@gulfcivileng.com.

Sincerely,

Erica L. Floyd, P.E.

Project Manager

CONCURRENCY DETERMINATION ACKNOWLEDGMENT

For Rezoning Requests Only

Property Reference Number(s): N/A

Property Address: N/A

I/We acknowledge and agree that no future development for which concurrency of required facilities and services must be certified shall be approved for the subject parcel(s) without the issuance of a certificate of concurrency for the development based on the actual densities and intensities proposed in the future development's permit application.

I/We also acknowledge and agree that approval of a zoning district amendment (rezoning) or Future Land Use Map amendment does not certify, vest, or otherwise guarantee that concurrency of required facilities and services is, or will be, available for any future development of the subject parcels.

I/We further acknowledge and agree that no development for which concurrency must be certified shall be approved unless at least one of the following minimum conditions of the Comprehensive Plan will be met for each facility and service of the County's concurrency management system prior to development approval:

- a. The necessary facilities or services are in place at the time a development permit is issued.
- b. A development permit is issued subject to the condition that the necessary facilities and services will be in place and available to serve the new development at the time of the issuance of a certificate of occupancy.
- c. For parks and recreation facilities and roads, the necessary facilities are under construction at the time the development permit is issued.
- d. For parks and recreation facilities, the necessary facilities are the subject of a binding executed contract for the construction of the facilities at the time the development permit is issued and the agreement requires that facility construction must commence within one year of the issuance of the development permit.
- e. The necessary facilities and services are guaranteed in an enforceable development agreement. An enforceable development agreement may include, but is not limited to, development agreements pursuant to Section 163.3220, F.S., or as amended, or an agreement or development order issued pursuant to Chapter 380, F.S., or as amended. For transportation facilities, all in-kind improvements detailed in a proportionate fair share agreement must be completed in compliance with the requirements of Section 5.13.00 of the LDC. For wastewater, solid waste, potable water, and stormwater facilities, any such agreement will guarantee the necessary facilities and services to be in place and available to serve the new development at the time of the issuance of a certificate of occupancy.
- f. For roads, the necessary facilities needed to serve the development are included in the first three years of the applicable Five-Year Florida Department of Transportation (FDOT) Work Program or are in place or under actual construction no more than three years after the issuance of a County development order or permit.

I HEREBY ACKNOWLEDGE THAT I HAVE READ, UNDERSTAND AND AGREE WITH THE ABOVE STATEMENT ON THIS _____ DAY OF _____, YEAR OF _____.

AFFIDAVIT OF OWNER AND LIMITED POWER OF ATTORNEY

As owner of the property located at 1112 Olive Road, Pensacola, FL 32514,
Florida, property reference number(s) 20-1S-30-2101-003-006

I hereby designate Erica Floyd, P.E. (Gulf Civil Engineering, LLC) for the sole purpose
of completing this application and making a presentation to the:

- Planning Board and the Board of County Commissioners to request a rezoning on the above referenced property.
- Board of Adjustment to request a(n) CONDITIONAL USE on the above referenced property.

This Limited Power of Attorney is granted on this 20th day of MARCH the year of, 2013, and is effective until the Board of County Commissioners or the Board of Adjustment has rendered a decision on this request and any appeal period has expired. The owner reserves the right to rescind this Limited Power of Attorney at any time with a written, notarized notice to the Development Services Bureau.
