II. ACTION ITEMS

1. Planning Board Appointment

Motion made by Commissioner Valentino, seconded by Commissioner Robinson, and carried unanimously, appointing Rodger Lowery to serve as an At-large appointment to the Escambia County Planning Board to fill the unexpired term of Mr. David Woodward, effective July 10, 2014, through April 4, 2015.

2. Dock Right-of-Way

Motion made by Commissioner Valentino, seconded by Commissioner Robinson, and carried unanimously, approving the permitting of a dock on right-of-way that has been dedicated to the public but not yet opened, maintained, or otherwise accepted by the County *(in front of 2800 Bayou Grande Boulevard)*, per *(Escambia County Land Development Code)* LDC 7.05.00.C.12.g; on August 8, 2013, the Board adopted Ordinance 2013-37 to establish a process to obtain permits for construction of docks and piers on right-of-way that have been dedicated to the public but not yet opened, maintained, or otherwise accepted by the County, upon authorization by the Board of County Commissioners; this change to LDC Article 7 was based upon the fact that there are many platted subdivisions that dedicate waterfront right-of-way to the public and, in many instances, the County has not accepted these dedications; upland property owners often desire to build docks, piers, and similar structures on or across the area dedicated to the public.

- (2) All food must be placed in a sanitary container of sufficient size for the cat and/or dog being fed. Only an amount of food that is appropriate for daily consumption may be provided.
- (3) Excess quantities of food may not be dumped on the ground or placed outdoors in bowls or other contains. Leaving open food packages outdoors is also prohibited.

(4) Feeding outdoors must take place on the property owned by the person placing the food or be done with the consent of the property owner. A Violation of this section is a civil infraction punishable as provided for in section 10-23.

Section 3. That Volume I, Chapter 10, Article I, Section 10-28 of the Escambia County Code of Ordinances is hereby created to read as follows:

Sec. 10-28. Community Cat Management Initiative.

- (a) *Short title*. This section shall be known as the "Escambia County Community Cat Management Ordinance".
- (b) Legislative intent. Escambia County hereby recognizes the need for innovation in addressing the issues presented by feral, free-roaming and other community cats. It is further recognized that there are community care givers of cats, and that properly managed community cats may be part of the solution to the continuing euthanasia of cats. The intent of this section is to address these issues by authorizing a community cat management initiative.
- (c) Community Cat Management Requirements. Community cats shall be managed as follows:
 - (1) All managed community cats must be maintained on private property of the caregiver(s), or with permission on the private property of another landowner (including city, state, and federal public property).
 - (2) All cats that are part of community cat management programs must be sterilized, vaccinated against the threat of rabies, and ear-tipped (preferably on the left ear) for easy identification. Female cats may also be tattooed on the stomach or right ear as evidence of sterilization.
- (d) If the requirements of subsection (c) above are met, the community cat is exempt from pickup and impounding as a stray pursuant to section 10-5, tag and licensing requirements of sections 10-8(b) and 10-9, and roaming at large provisions of section 10-11(a), except as provided in subsection (f) below. Community cats may be subject to the animal nuisance provisions of section 10-11(e).
- (e) If a person is providing care for a community cat or community cat colony/group, the following conditions must be satisfied:
 - (1) Food must be provided in the proper quantity for the number of cats being managed, and must be maintained in proper feeding containers.
 - (2) Water, if supplied, must be clean, potable and free from debris and algae.
 - (3) If shelter is provided, it shall be unobtrusive, safe, and of the proper size for the cat(s).

- (4) If veterinary care is needed, but is unavailable or too expensive, the caregiver must not allow a community cat to suffer.
- (f) The provisions of this section shall not apply to any portion of Santa Rosa Island or Perdido Key under the jurisdiction of Escambia County.
- (g) A Violation of this section is a civil infraction punishable as provided for in section 10-23.

Section 4. Severability.

If any section, sentence, clause or phrase of this Ordinance is held to be invalid or unconstitutional by any Court or competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this Ordinance.

Section 5. Inclusion in the Code.

It is the intention of the Board of County Commissioners that the provisions of this Ordinance shall become and be made a part of the Escambia County Code; and that the sections of this Ordinance may be renumbered or relettered and the word "ordinance" may be changed to "section", "article", or such other appropriate word or phrase in order to accomplish such intentions.

Section 6. Effective Date.

This Ordinance shall become effective upon filing with the Department of State.

Civil Air Patrol-BCC MOU 2014

MEMORANDUM OF UNDERSTANDING BY AND BETWEEN THE CIVIL AIR PATROL THROUGH ITS FLORIDA WING AND THE ESCAMBIA COUNTY BOARD OF COUNTY COMMISSIONERS

I. <u>Purpose</u>. The Escambia County Board of County Commissioners (ECBOC) and Civil Air Patrol (CAP) wish to utilize the services of CAP and its volunteers for the public good. This memorandum of understanding (MOU) describes the procedures by which ECBOC may request CAP mission support as well as the terms under which missions are authorized, performed, and reimbursed. The memorandum does not, in and of itself, create any legal obligations among the parties or signatories. All previous MOU(s) between CAP and ECBOC are superseded by this agreement. *NOTE: No Counterdrug (CD) missions are authorized by this MOU*.

II. <u>**Parties.**</u> This MOU is between CAP, through its Florida Wing, and ECBOC.

A. Civil Air Patrol. CAP is a federally chartered charitable non-profit corporation. (36 U.S.C. §§40301-40307) Missions flown under this MOU are "corporate missions." Although CAP is not a government agency or military service, it acts as a volunteer civilian auxiliary of the United States Air Force (USAF) when the services of CAP are used by any department or agency in any branch of the Federal Government. Only the USAF can assign "Air Force Assigned Missions" (AFAMs). See Attachment AF for a discussion of CAP's status and missions as the Air Force Auxiliary (10 U.S.C. §§9441-9442) and procedures to request "Air Force assigned missions" (or AFAMs)

1. Florida Wing, CAP. Florida Wing is an administrative subdivision of CAP and not a separate legal entity from CAP. CAP is generally organized along geographic lines and Florida Wing's jurisdiction is defined by the boundaries of the state. Missions under this MOU will be performed by Florida Wing. Contact information is included as Attachment A. (The parties may update Attachment A unilaterally by e-mail or other writing.)

2. CAP Members. CAP members are volunteers in public service. Members pay an annual membership fee to join and participate in CAP. "Members," as volunteers are not "employees." Although CAP may have employees in the state, their duties as employees are administrative in nature and do not include participating in CAP missions. Florida Wing may use CAP members of units from outside of wing of Florida to perform missions under this MOU. All CAP members shall be deemed members of Florida Wing while performing missions under this MOU and entitled to benefits of such membership that arise under this MOU.

3. CAP-USAF. The United States and Civil Air Patrol – United States Air Force (CAP-USAF) are not a party to this agreement. See Attachment AF.

B. Escambia County Board of Commissioners.

1. The Escambia County Emergency Services. The ECBOC, through its Escambia County Emergency Services (ECES), provides the coordination of emergency services

within Escambia County including incorporated areas. This includes the selection and utilization of various resources and organizations capable of rendering services. Pursuant to Chapter 252, Florida Statutes, the ECBOC, through ECES, also coordinate the relief activities of both public and private relief or disaster assistance organizations that agree to volunteer their services under the direction and guidance of Escambia County authorities. Escambia County may utilize personnel and facilities of Florida Wing CAP for relief or disaster assistance organizations, churches, temples and synagogues in the distribution of food, relief supplies, medicines and other items and temporary shelters as part of the restoration or reconstruction of community services and essential facilities when deemed necessary. (ECES contact information is found in Attachment A.)

2. Other State or Local Agencies. Other agencies of the State of Florida or local government agencies within the State of Florida that request CAP assistance may submit an abbreviated MOU (such as a letter executed by both parties) that incorporates the terms and conditions of this MOU by reference. An abbreviated MOU should refer to the MOU Registration Number on the cover page of this Agreement and attach a copy of this MOU.

3. State of Florida – Florida Wing Relationship. There is no statutory relationship between the State of Florida and the Florida Wing CAP.

III. <u>CAP Mission Capabilities & Limitations.</u>

A. Capabilities.

1. **Objectives.** CAP provides an organization of private citizens equipped to respond to local and national emergencies and to serve the public welfare. (36 U.S.C. §40302) CAP can quickly organize large numbers of highly trained volunteers with ready access to up-to-date equipment to provide cost effective support to government agencies.

2. **Operations.** Florida Wing CAP assistance to ECBOC may include, and is not limited to: aerial missions such as reconnaissance to search for victims, damage assessments, or environmental surveys utilizing visual, photographic, digital, and video techniques; airborne communications support; and airlift subject to regulatory restrictions discussed herein. Other support may include: manual labor (e.g. filling sandbags for flood control); radio communications; and ground teams used in search and rescue (SAR) missions. Ground teams are prohibited from participating in CD or other law enforcement missions.

B. Limitations.

1. **Priority of Missions.** ECBOC understands and acknowledges that the USAF may withdraw CAP from missions in progress under this MOU when necessary to pursue higher priority missions. This is because CAP is the official auxiliary of the Air Force, and there is a priority for employing CAP resources which may affect availability of support to state and local authorities. Priority for utilizing CAP resources is as follows: first, USAF, then other DoD departments and agencies, other Federal departments and agencies, state agencies, and finally, local agencies.

2. Law. CAP does not have any special exemption from civil or criminal law. Nothing in this agreement shall be read to require any party or signatory to act in violation of the law or applicable regulations. Furthermore, none of the provisions in this MOU is intended to conflict with applicable laws, regulations, or directives governing CAP missions/activities, including but not limited to those discussed below.

a. Federal Aviation Regulations. Civil Air Patrol pilots, most of whom are private pilots, are required to comply with Federal Aviation Regulations (FARs.) FARs may prohibit private pilots from flying some of the missions (including transport missions except for certain exceptions) contemplated by this MOU. (See Attachment *C*, CAP Missions and Pilot Limitations)

b. Assistance to Law Enforcement. CAP regulations limit assistance to law enforcement agencies to "passive assistance."

CAP members may not be deputized nor may they take an active part in arrest or detention activities and have no authority to restrict persons by means of force, active or implied.

a. CAP assistance to law enforcement agencies which may lead to criminal prosecution is restricted to patrol, reconnaissance, and reporting only. Requests for such assistance, unless of an emergency nature, must be approved in advance by the Wing and Region Commanders and coordinated with (the National Operations Center (NOC) at 888-211-1812 or <u>opscenter@capnhq.gov</u>.) All CAP flights will be in accordance with CAPR 60-1.

(CAPR 900-3 paragraph 3a.[In part]

÷

c. CAP Directives. CAP missions and activities are also limited by CAP regulations. CAP personnel are required to comply with CAP regulations. Failure of CAP members to comply with applicable regulations may result in administrative action. (See references below)

3. Risk Management. CAP is an organization of non-paid volunteer citizens. As such, CAP members may decline to participate in missions or discontinue missions at any time. Additionally, CAP may decline or suspend CAP missions for any reason, including but not limited to safety, risk, and liability concerns.

IV. <u>Emergency Missions.</u> For emergency missions in which (a) life or property is in imminent peril and (b) local resources are inadequate, see Attachment AF for criteria and procedures for requesting an AFAM.

V. <u>Requesting Missions – In General</u>. Any and all mission requests may be submitted to the NOC at 888-211-1812 or <u>opscenter@capnhq.gov</u>. Reimbursement will be made in accordance with paragraphs V and VII. Corporate missions may include, but are not limited to:

A. Air and Ground Search and Rescue (SAR) Operations. See Attachment AF regarding requests for air and ground SAR operations. If the Air Force declines to accept the mission, CAP may nevertheless accept the mission as a corporate mission.

B. Mercy Missions. Mercy missions refer to the transport of blood, organs, serum, and medical equipment necessary to relieve a specific time-critical, life-threatening situation where commercial transportation is unavailable. For more information on how to request a Mercy mission, contact the Air Force Rescue Coordination Center (AFRCC) at 800-851-3051.

C. Disaster Mitigation and Relief (DR) Operations. DR inisions relate to assistance needed for major disasters or emergencies (including all natural and man-made disasters such as hurricanes, floods, tornados, major storms, earthquakes, oil spills or other environmental disasters). See Attachment AF regarding requests for DR missions. If the Air Force declines to accept the mission, CAP may nevertheless accept the mission as a corporate mission.

D. SAR/DR Training Missions. See Attachment AF regarding requests for air and ground SAR/DR Training Missions. If the Air Force declines to accept the mission, CAP may nevertheless accept the mission as a corporate mission.

E. Homeland Security (HLS). See Attachment AF regarding requests for Homeland Security operations. If the Air Force declines to accept the mission, CAP may nevertheless accept the mission as a corporate mission.

F. Aerial Reconnaissance of Ground Conditions and Surface Traffic for ECBOC. This may include visual or photographic reconnaissance of wildlife, land, forests, roadways and waterways, etc. (Note: in the event of an "environmental disaster," ECBOC may be able to request an AFAM in accordance with Attachment AF). Participation of ECBOC personnel in these aerial reconnaissance missions is discussed in paragraph V., G. below.

G. Agency Crewmembers. ECBOC may request CAP aircraft and aircrew as an aerial platform from which ECBOC officials may perform "aerial work," as "crew members." "Aerial work" includes missions such as aerial reconnaissance of ground conditions (discussed in paragraph V.F. above) or operation of an airborne repeater. ECBOC officials may be authorized to fly aboard CAP aircraft in accordance with CAPR 60-1, CAP Flight Management. ECBOC officials performing aerial work or duty in the aircraft during flight are crewmembers and not "passengers."

H. Air Transportation of Cargo and Passengers. Air transport of cargo and/or passengers on corporate missions shall be in accordance with subparagraphs (1) and (2) below. Such missions shall be performed without reimbursement or payment of any kind from sources outside of CAP due to FAA restrictions. (Note: Transport missions may be funded by the CAP pilot or Florida Wing CAP but such missions may be limited due to availability of funding):

1. Human Organs, Tissues, and Medical Supplies. CAP may perform missions to transport organs, tissues, medical supplies at request of ECBOC for humanitarian reasons without accepting reimbursement or payment of any kind from outside sources.

2. ECBOC Officials/Other Non-CAP Passengers. CAP may transport ECBOC officials and other non-CAP passengers approved in accordance with CAPR 60-1.

VI. <u>Command, Control, Coordination and Cooperation</u>:

A. Immediate command and control over all CAP resources and personnel employed in accordance with this MOU shall rest with CAP at all times. Mutual consent should be the norm; nevertheless, any party to this agreement may suspend or terminate CAP missions conducted pursuant to this MOU without cause.

B. Both Florida Wing CAP and ECBOC agree to maintain continual and effective communication and coordination to facilitate the training necessary for effective CAP participation with ECES personnel in disaster relief missions.

VII. <u>Reimbursement</u>. Reimbursement to Florida Wing for missions will be as follows:

A. Reimbursement for Corporate Missions. When ECBOC reimbursement is required by Florida Wing for missions performed under this MOU, such reimbursement shall be limited to the rates established in the current Civil Air Patrol Regulation 173-3, *Payment for Civil Air Patrol Support* Attachment 1 (a copy of which is provided as Attachment D and incorporated herein by reference) The parties agree that Attachment D, as revised from time to time by Civil Air Patrol and approved by CAP-USAF and the FAA, will be the basis for determining reimbursement. Additionally, aircraft and automobile fuel and oil will be reimbursed at actual cost.

B. Restrictions on Billing. Dual payment/compensation or double billing is prohibited and may not be requested or accepted. For example, if Florida Wing receives or is offered state funds for aircraft operating expenses (fuel, oil, maintenance), Florida Wing may not seek or accept reimbursement for the same expense from CAP National Headquarters, or from any other source (i.e. another federal agency).

VIII. Liabilities: Insurance, Workers Compensation & Related Matters.

A. State Protections. There are no Florida benefits afforded CAP and its members such as workers compensation or liability protection. CAP third party liability and personal injury coverage available to the corporation and its members are generally outlined in CAP Regulation 900-5.

B. CAP Protections. In addition to protections afforded in paragraph VIII.A. above (if any), CAP and its members are protected by liability insurance policies as well as member benefits described in CAP Regulation 900-5, *Civil Air Patrol Insurance/Benefits Program* and 112-10, *Indemnification*.

C. No Federal Protections. CAP and its members are not deemed to be instrumentalities of the United States while performing corporate missions. Therefore, Federal Tort Claims Act (FTCA) (10 U.S.C. §9442(b) (2); 28 U.S.C. §§2671 *et. seq.*) and Federal Employees Compensation Act (FECA) (5 U.S.C. §8141) do not apply.

D. Indemnification. Attachment C CAPR 173-3, ATTACHMENT 1, REIMBURSEMENT RATES

CAPR 173-3 ATTACHMENT 1 1 JULY 2013

Attachment 1 - Aircraft Flying Hour Maintenance Payment Rates

7

The rates in these tables are calculated from actual reported maintenance expenses for CAP aircraft. Many factors, such as aircraft age, Airworthiness Directives, design and model, affect CAP expenditures for maintenance. CAP has elected to establish overall fleet rates for only the models of aircraft in the CAP corporate fleet.

Wings participating in the national consolidated maintenance program will not have maintenance funds paid to the wing. In addition, the Category "B" and "C" maintenance mission funds collected by those wings must be forwarded to NHQ so the funds can be used to maintain the wing's aircraft.

Effective 1 July 2013

Table 7. "Dry" Hourly Reimbursement Rates for all sorties flown on or after 1 July 2013 on USAF requested CAP or member-funded missions

Manuf.	Čessna	Cessna	Cessna	Cessna	Cessna	Cessna	Gippsland	de Havilland	Maule

The above rates include only minor maintenance and are not generally related to engine

horsepower because engine expenses are managed under CAP's major maintenance program.

ten stutil for lingen gerige i surgere etc.

Notes:

1. "Basic Hourly Rate" for single-engine corporate or member-owned/furnished aircraft not listed above: \$38.00.

2. Use of single-engine member-owned or member-furnished aircraft must be approved in advance for all missions.

a. Use in Air Force assigned missions requires approval by the appropriate Air Force approval authority. It also requires the member to complete an Air Force hold harmless agreement.

b. Use in corporate missions requires approval by the wing/region commander or director of operations/director of emergency services.

c. Single-engine member-owned or member-furnished aircraft models that have been approved in accordance with this note but are not listed in the table above will be reimbursed at the "Basic Hourly Rate."

Attachment C CAPR 173-3, ATTACHMENT 1, REIMBURSEMENT RATES (cont'd.)

CAPR 173-3 ATTACHMENT 1 (CONT'D) 1 JULY 2013

3. The use of all twin-engine aircraft for any mission requires prior approval through the wing/region and the NOC; the NOC will coordinate with the appropriate Air Force approval authority when required for Air Force Assigned Missions (AFAM) and coordinate establishing a reinibursement rate for the aircraft. Wings/regions should send requests well in advance to the NOC at <u>opscenter@capnhq.gov</u>. Once approval has been obtained, the NHQ staff will determine the reimbursement rate and notify the wing/region in writing. Additional requirements for the use of member-owned/furnished aircraft on AFAMs can be found in CAPR 60-1.

8

4. Aircraft fuel, lubricants, de-icing services and other mission essential supplies are authorized for participation in Air Force-assigned reimbursable missions and are in addition to the above rates (receipts required).

5. Corporate glider tow aircraft are reimbursed at the appropriate rate for their model classification. Reimbursement for non-corporate glider tows participating in the Cadet Glider Flight Orientation Program will be based on the actual cost of the tow (receipts required).

6. Glider maintenance reimhursement will be on an actual cost basis. All maintenance of gliders requires a control number from NHQ CAP/LG prior to repairs being accomplished. Submit receipts for all expenses incurred to NHQ CAP/LG for payment or reimbursement. Electronic copies of original receipts are acceptable. Tail number accounting principles must be followed for gliders.

7. Fuel and lubricants to operate glider winches are reimbursable to the Wing. Supporting receipts must be attached to the WMIRS e108.

8. Aerial Digital Imaging System (ADIS), Advanced Digital Reconnaissance System (ADRS), Satellite Digital Imaging System (SDIS) and Geospatial Information Interoperability Exploitation Portable (GIIEP) Rates. CAP will charge an additional \$65 an hour to operate and maintain ADIS, ADRS, SDIS or GIIEP, but only when supporting missions that are not funded with CAP's annual Congressional appropriation, when members are funding training personally, or when using customer provided (including AFNORTH provided) ADIS, ADRS, SDIS or GIIEP systems that CAP does not support with operations and maintenance funding. The money collected for ADIS, ADRS, SDIS and GIIEP operations from these missions must be forwarded to NHQ for the systems that NHQ provides to the wings. Wings that have purchased their own systems may keep the money, but must comply with specific program income restrictions. This information can be obtained from NHQ/FM. The hourly charge to operate these systems will begin when the aircraft departs the mission base to execute the sortie and ends when the aircraft returns to the mission base. The rate will not be charged on flights to/from the home base and the mission base unless ADIS, ADRS, SDIS or GIIEP operations are conducted en route.

9. Airborne Real-time Cueing Hyperspectral Enhanced Reconnaissance (ARCHER) Rates. CAP will charge an additional \$235 an hour to operate ARCHER, but only when supporting missions that are not funded with CAP's annual Congressional appropriation, br when members are funding training personally. The money collected for ARCHER operation from these missions must be forwarded to NHQ. The hourly charge to operate the ARCHER system will begin when the aircraft departs the mission base to execute the ARCHER sortie and ends when the aircraft returns to the mission base. The ARCHER rate will not be charged on flights to/from the home base and the mission base unless ARCHER operation is conducted en route to the mission base.

10. Existing modifications to the Cooperative Agreement (CA) for which funding was based on present day reimbursement rates no grandfathered through the and of their respective periods of performance. Modifications to the CA made after 30 June 2013 will reflect the new rates.

The Hon. Lumon May, Chair Escambia County Board of Commissioners Post Office Box 1591 Pensacola, FL 32591-1591

Dear Lumon:

This letter is being submitted as a formal request of the Board of County Commissioners to extend the 2014 ad valorem property tax roll prior to completion of the Valuation Adjustment Board hearings. It is important to afford the taxpayers of Escambia County the opportunity to pay their taxes during each of the four discount periods allowed by law. Prompt action by the Board will ensure this. This extension also will allow the collection of revenue for the various taxing authorities to begin November 1, 2014. Authority for early extension of the tax roll is provided for in F.S. 197.323. Thank you.

Sincerely,

EXHIBIT A - SCOPE OF WORK:

The Escambia County Drug Court is a partnership between the courts, the Escambia County Department of Corrections, Pretrial Release Program, Office of the State Attorney, Public Defender's Office, Florida Department of Corrections, and Pathway Addiction Treatment Center. The primary goal of the drug court is to provide immediate and concerted treatment to the drug offender.

This program is a twelve month, three phase approach to substance abuse. It encompasses the vocational, educational and spiritual components in conjunction with providing substance abuse treatment. Phase I provides assessment and intensive outpatient treatment plus urinalysis exams. Phase II addresses the participants' receptiveness to substance abuse treatment in an outpatient setting, emphasizing a drug free lifestyle, and developing the mechanisms for coping with stressful situations. Phase III provides ongoing substance abuse support with a focus on the available community resources such as educational and vocational referrals.

This program provides early intervention and serves as a meaningful alternative to incarceration for the offender who can adequately function in the community with support. It is the goal of this program to realize a reduced recidivism rate for those offenders who successfully complete the program. This in turn will provide the offender the basis to build upon to become a productive member of our community.

Upon acceptance into Drug Court, clients participate in an administrative intake process at Pathway Addiction Treatment Center a component of Lakeview Center, Inc. consisting of the collection of identifying data, determination of financial status, and signature of consent for treatment. In addition each client participates in a clinical assessment consisting of the following: a psychosocial assessment, a psychiatric assessment where indicated, alcohol/drug use history, discussion of an initial treatment plan, a review of the program schedule, completion of appropriate release of information forms as well as any legal requirements for documentation and follow-up. The client completes a medical history checklist which is reviewed and if needed a referral for a physical is made.

After the initial intake the client begins attending the drug court treatment program located at Pathway Addiction Treatment Center. Pathway utilizes a multifaceted, graduated intensity approach including professional counseling, peer support, community support systems, aftercare groups, and professional referrals. An assessment of high risk behaviors is part of the initial assessment at the time of intake. A referral system is established for HIV related issues such as education and counseling. Testing is provided upon request of the client and through referral. A clinical chart is developed for all clients and documentation is contained therein. Assessments, treatment plans, progress notes, urinalysis results and discharge summaries are maintained in the client chart. The following services are provided by the treatment agency:

Phase I: Approximately 12 weeks of intensive outpatient treatment using a day-treatment model. Services include a minimum of 12 hours of programming per week (e.g. cognitive restructuring, Twelve Step Program, and drug and alcohol education). Services allow program participants to attend treatment sessions either during the day or in the evening to accommodate individuals who are working. Treatment further includes at least 4 hours of group treatment 3 days per week and random urinalysis testing a minimum of twice weekly.

Phase II: Approximately 3-4 months (dependant upon individual's progress) of moderately intensive outpatient treatment. Services include a minimum of 8 hours of programming per week. Treatment further includes at least 4 hours of group treatment 2 days per week and random urinalysis testing a minimum of twice weekly.

Phase III: Approximately 6 months of less intensive outpatient treatment. Services include a minimum of 4 hours of programming per week. Treatment further includes at least 2 hours of group treatment 2 days per week and random urinalysis testing a minimum of twice weekly.

Throughout the year the individual is given status call court dates for the Court to review the offender's treatment progress. Pathway provides detailed status call reports for each client at every court appearance. Phase I clients attend court once per week, phase II once every other week, and phase III once every three weeks. This enables the judge to provide support to the clients as needed and to institute sanctions if recommended by treatment. It further provides the client with a sense of continuity and identification within the programs. Rather than feeling "lost in the system", the client learns the judge knows of and has an interest in his/her situation. This aspect allows the courtroom to become a therapeutic environment for the participants.

General Project Information

Project Title:	DRUG COURT TREATMENT SERVICES		
Subgrant Recipient:	Escambia County Board of Commissioners		
Implementing Agency:	First Judicial C	ircuit	
Project Start Date:	10/1/2014	End Date:	9/30/2015

Problem Identification

Drug-related criminal cases have imposed an enormous burden on court systems. According to the FBI's Uniform Crime Report 2012, nationwide law enforcement made 12,196,959 arrests. The highest percentage of arrests-property offenses(est.1,646,212)- a frequent criminal charge for offenders who are addicted to alcohol and/or illegal substances. The second highest percentage of arrests-drug violations(est.1,552,432 arrests), followed by driving under the influence (est.1,282,957). Substance abusing offenders present a challenge to the criminal justice system not just because of their volume, but also due to the interrelated nature of addiction and criminal behavior. Illegal drug use appears to increase their criminal behavior. Many addicts commit crimes to support their substance abuse habit, while for others, substance abuse reflects more pervasive criminal values and an established criminal lifestyle. Without access to substance abuse treatment, these offenders are likely to continue use and/or relapse and return to criminal activity following release from custody.

Federal, state, and local responses to the drug epidemic have focused on enhanced enforcement and incarceration. These efforts have failed to significantly reduce illegal drug availability or use. At the same time, the costs of jail and prison have risen, while drug involved offenders have continued to use and/or relapse and return to criminal activities. The DOC's Annual Report FY12-13, reveals that 33,295 offenders were sentenced to prison, giving a total of 100,884 offenders in the prison system as of June 30, 2013. Of those offenders, 16.9% were drug offenders, 16.3% were theft/forgery/fraud. Reviewing the Annual Reports for the past five years, DOC notes "Over the last five years, prison admissions for drug crimes has gradually decreased from 27.4% of total admissions in FY 2008-09 to 24.2% in FY 2012-13." Even given this decrease, drug offenses remain among Florida's top five offenses for which inmates are currently serving prison sentences.

The Escambia County Drug Court Program is a partnership between the courts, the Escambia County DOC, Pretrial Release Program, Office of the State Attorney, Office of the Public Defender, Florida DOC, and Pathway Addiction Treatment Center, a component of Lakeview Center, Inc. The primary goal of the Drug Court Program is to provide an immediate and concerted treatment to the drug offender.

This program is a twelve month, three phase approach to substance abuse. It encompasses the vocational, educational, and spiritual components in conjunction with providing substance abuse treatment. Phase I provides initial assessment, intensive outpatient treatment, and random drug urinalysis testing. Phase II addresses the participants' receptiveness to substance abuse treatment, emphasizing a drug free lifestyle, and developing the mechanisms for coping with stressful situations. Phase III provides ongoing substance abuse support with a focus on the available community resources, such as educational and vocational referrals.

Florida Department of Law Enforcement Justice Assistance Grant - County-wide

Section 2: Project Overview

Project Overview:

The Escambia County Drug Court Program provides early intervention and serves as a meaningful alternative to incarceration for the offender who can adequately function in the community with support. It is the goal of this program to realize a reduced recidivism rate for those offenders who successfully complete the program. This in turn will provide the offender the basis to build upon to become a productive member of our community.

Problem Description:

The Escambia County Drug Court Program is the only non-residential substance abuse treatment program for the entire county. Grant funds will be utilized to pay for substance abuse assessments and treatment services for Drug Court clients.

Clients of the Drug Court Program undergo random drug urinalysis and breathalyzer testing. Grant funding will be used to purchase a new, updated breathalyzer machine to replace the current machine which was purchased in April, 2007. Newer, updated equipment will ensure continuous and accurate readings on all breathalyzer results.

Upon entering the Drug Court Program, the vast majority of our clients do not have reliable transportation. The Drug Court Program provides single ride bus passes to clients for the sole purpose of traveling to/from substance abuse treatment sessions. Grant funds will provide single ride bus passes for clients to travel to/from substance abuse treatment sessions.

Needs Assessment:

Over the years, funding for Drug Court Programs has been reduced. Without sufficient funding available to the Drug Court Program, it will be impossible to provide the current level of treatment for offenders in Escambia County. This will cause an increase in the number of inmates currently in the Escambia County Jail. Approximately 90% of the offenders who enter the Drug Court Program are incarcerated prior to entering the program. By entering the Drug Court Program, these offenders are released from jail which immediately eliminates the cost of housing the inmate.

The initial review of an offender's case is conducted by the Assistant State Attorney. The criminal history is reviewed to determine whether the offender meets the criteria established for entry into the Drug Court Program. If criteria are met, the offender is transported to the judicial center for appearance in Drug Court.

Offenders charged with the following offenses are eligible for the program: Possession of Controlled Substances; Purchase of Controlled Substances; Manufacture of Controlled Substances; Prescription Forgery; and Introduction of Contraband into Detention Facility. The following offenses may be considered for admission into drug court if it appears that the causal factor involved is drug addiction and restitution is recoverable at some point in the foreseeable future: Theft; Forgery; Uttering Forgeries; Worthless Checks; Burglary; and Dealing in Stolen Property. Wherever practicable, victim approval for admission must be obtained. Offenders will be allowed admission into the Drug Court Program upon entry of a plea to the instant charges and, as a condition of probation, successfully complete the Drug Court Program and aftercare component.

Upon entry into the program, clients participate in an intake process consisting of the

Florida Department of Law Enforcement Justice Assistance Grant - County-wide

Section 2: Project Overview

collection of identifying data, determination of financial status, and signature of a consent for treatment. In addition, each client participates in a clinical assessment consisting of a psychosocial and psychiatric assessment, alcohol/drug use history, development of initial treatment plan, and review of the program schedule, documentation and follow-up. A medical history checklist is created and reviewed and a referral for a physical and/or psychological appointment is made, if needed.

The Escambia County DOC has assigned three probation officers who work in conjunction with the treatment agency and the offender. A monthly home study is conducted and regular office visits and random drug urinalysis occur. The focus of the probation officer is on the vocational, educational, and employment component of treatment. The probation officer and the court liaison for treatment serve as case managers for the offender.

Project Summary (Scope of Work)

Project Summary:

The following services are provided by the treatment agency:

Phase I: Approximately 3 months of intensive outpatient treatment using the Matrix model of recovery. Services include a minimum of 12 hours of weekly intensive out-patient substance abuse treatment, which includes early recovery, relapse prevention, and abstinence and maintenance. Clients attend treatment sessions 3 times per week, 4 hours per session. Services allow participants to attend treatment during the day or in the evening to accommodate individuals who are employed. Treatment further includes linkage of ancillary services, random urinalysis testing, and a Twelve Step support group.

Phase II: Approximately 3-4 months of moderately intensive outpatient treatment. Services include a minimum of 8 hours of weekly intensive out-patient substance abuse treatment, which includes relapse prevention and abstinence and maintenance. Clients attend treatment sessions 2 times per week, 4 hours per session. Treatment further includes linkage of ancillary services, random urinalysis testing, and a Twelve Step support group.

Phase III: Approximately 6 months of less intensive outpatient treatment. Services include a minimum of 4 hours of weekly substance abuse treatment which includes abstinence and maintenance. Clients attend treatment sessions 2 times per week, 2 hours per session. Treatment further includes linkage of ancillary services, random urinalysis testing, and a Twelve Step support group.

Throughout the year the client is given status call court dates for the judge to review the client's treatment progress. Pathway provides the judge detailed status call reports for every client prior to each court appearance. Phase I clients attend court once per week, Phase II once every other week, and Phase III once every three weeks. This enables the judge to provide support to the client as needed and to institute sanctions if warranted. It further provides the client with a sense of continuity and identification within the program. Rather than feeling "lost in the system," the client becomes aware that the judge knows of, and has an interest in, his/her situation. This aspect allows the courtroom to become a therapeutic environment for the client. Consistent positive urinalysis and/or nonattendance of treatment sessions could result in the client's incarceration in jail. Once released from jail, the client resumes participation in treatment.

Florida Department of Law Enforcement

Justice Assistance Grant - County-wide

The Drug Court Program offers offenders the opportunity not only to participate in an intensive outpatient treatment program, but provides the opportunity to receive vocational and educational training. It is our goal that offenders remain drug fee and become productive members of the community. It is our hope that this project permanently interrupts the cycle of criminal activity, arrest, prosecution, conviction, incarceration, and violence on the part of the offender.

Goals and Objectives:

The mission of the Drug Court Program is to reduce substance abuse and criminal behaviors by providing opportunities and linkages to community resources to help clients lead healthy, productive lives, resulting in stronger families and increased public safety. In order to accomplish this mission, the following goals and objectives have been identified:

- * Provide 10 offenders with psychosocial assessments during the grant period.
- * Provide 10 offenders with substance abuse treatment services during the grant period.
- * Provide 10 offenders with rehabilitation services during the grant period.
- * Estimate 5 offenders will successfully complete the Drug Court Program during the grant period.

The achievement of these goals will be measured using interviews, arrest records, and court records.

Treatment and Prevention Project Service Provider:

The service provider is Pathway Addiction Treatment Center, a component of Lakeview Center, Inc. which is a non-profit corporation authorized to do business in the State of Florida with administrative offices at 1221 West Lakeview Avenue, Pensacola, Florida 32501. Immediately after the intake appointment, the client begins attending the intensive outpatient treatment program. Pathway utilizes a multi-faceted, graduated intensity approach including professional counseling, peer support, community support systems, aftercare groups, and professional referrals. An assessment of high risk behaviors is part of the initial assessment. HIV testing and medical care are provided upon request of the client and through referrals. A clinical chart is developed for all clients and documentation is contained therein. Assessments, treatment plans, progress notes, urinalysis testing results, and discharge summaries are maintained in the client chart.

Cooperating and Participating Agencies:

The Escambia County Drug Court Program is a partnership between the court, the Escambia County Department of Corrections, Pretrial Release Program, Office of the State Attorney, Office of the Public Defender, Florida Department of Corrections, and Pathway Addiction Treatment Center, a component of Lakeview Center, Inc.

Project Activities/Administration:

The offender is arrested and referred to the Escambia County Drug Court Program. The state attorney and judge review the case for approval of eligibility. The public defender meets with the offender to review legal issues. A plea is accepted, and the offender is referred to treatment for an assessment.

Upon acceptance, the offender immediately begins intensive outpatient substance abuse treatment. During each phase of treatment, the offender is required to attend treatment, court sessions, Twelve Step support group meetings, and comply with the requirements

Florida Department of Law Enforcement

Justice Assistance Grant - County-wide

of the probation office or community control office. Upon successful completion of the program, the state attorney, probation officer, public defender, and treatment provider recommend the offender for graduation from the Drug Court Program. All offenders must be approved by the judge in order to schedule a graduation date. At graduation, a key chain and Certificate of Completion are presented by the judge to the offender.

Target Groups/Clients/Participants:

Offenders receiving substance abuse treatment services will be offenders who have committed a drug related crime. The offenders could be charged with purchase, possession, or manufacturing of a controlled substance, prescription forgery, introduction of contraband, theft, forgery, uttering forgeries, worthless checks, burglary, and dealing in stolen property. Violations of probation or community control cases are accepted.

Project Results:

Successful completion of the offender in remaining drug-free for 90 days prior to their completion of the program.

Notwithstanding any other special condition of this award, faith-based organizations may, in some circumstances, consider religion as a basis for employment. See www.ojp.gov/about/ocr/equal fbo.htm.

Problem Identification

Pensacola State College (PSC) Police Department is a small agency on a medium size community college. The department works crashes, monitors parking issues, such as illegal handicap parking, and does speed enforcement, as needed. The state of Florida Department of Highway Safety and Motor Vehicles, the local offices of the Clerk of the Court and law enforcement agencies are adopting the technology that allows the information regarding any traffic-related event to be recorded and transmitted electronically. This reduces errors, makes for a smoother transmission of records and related recorded storage at the local, as well as the county and state, level. The use of the electronic hardware and software can increase officer safety because the officer is no longer focused on writing and can have better situational awareness.

Project Summary (Scope of Work)

Four (4) e-ticket systems will provide Pensacola State college police officers with the capability to provide an accurate, complete and uniform record keeping system. This system will increase police officer's safety by less time during a traffic stops, cost savings, cleaner record keeping, eliminate errors, and an easy to read citation for individuals receiving a citation. Citations will be electronically recorded and transmitted to Department of Highway Safety and Traffic and Motor Vehicle (DHSMV) in Tallahassee, FL.

RECOMMENDATION:

<u>Recommendation Concerning the Write-Off of Accounts Receivable Recorded in the Emergency</u> <u>Medical Service Fund as Uncollectible Bad Debts - Michael D. Weaver, Public Safety</u> <u>Department Director</u>

That the Board adopt the Resolution authorizing the write-off of \$1,211,053.35 in accounts receivable that have been recorded in the Emergency Medical Service Fund of Escambia County and have been determined to be uncollectible bad debts.

BACKGROUND:

This Resolution allows an accounting transaction to be recorded and in no way should be construed to be a forgiveness of the debt. This Resolution includes write-offs from EMS Ambulance Billings for the third quarter of Fiscal Year 2013-2014 for 2,596 accounts that have been through all phases of the billing and collection cycles, to include all primary and secondary insurance filing, private pay processing, pre-collection letter(s), and/or referral to the secondary collection agency. All accounts have been with the secondary collection agency for at least 120 days. All avenues for collection have been exhausted and we are confident these accounts are truly uncollectible, and any further action would be unproductive.

NOW, THEREFORE, it is resolved by the Board of County Commissioners of Escambia County, Florida, that:

CAO Approval:	

RECOMMENDATION:

Recommendation Concerning a Copier Lease and Maintenance Agreement with Dex Imaging for the Corrections Department - Jail - Gordon C. Pike, Corrections Department Director

That the Board award a Purchase Order Agreement for a 60-month Lease and Maintenance to Dex Imaging, for the Corrections Department - Jail, for a monthly charge of \$3442.56, with an annual amount of \$41,310.72, in accordance with the Escambia County, Florida, Code of Ordinances, Chapter 46, Finance, Article II, Purchases and Contracts, Section 106 - Multi-Year Lease and Lease Purchase Agreements.

[Funding: Fund 001, General Fund/Corrections Department, Cost Center 290401 Jail, Object Code 54401, Rentals and Leases]

BACKGROUND:

A review of the Escambia County Corrections Jail copying and printing equipment revealed there are numerous machines in various locations throughout the Jail. The current monthly cost of operating this equipment is \$4,255.00 per month. The Corrections Department, with the assistance of Information Technology, received quotes from 3 different vendors to provide a solution that would improve efficiency and cut cost. Dex Imaging proposal involves replacing the current outdated equipment with new leased equipment and combining the maintenance and lease fees into one invoice. The current recommendation is to dispose of the current equipment, which was purchased, and consolidate equipment with one vendor which will provide a annual savings of \$812.44 per month.

BUDGETARY IMPACT:

Open, shut and lock with ease.

Our ergonomically-friendly door handles close easily and lock reliably. No more wasted time due to door lock error codes. Huebsch keeps your laundry running at maximum productivity.

Advanced protection where you need it.

To keep your washer running strong, we've designed seals and bearings for optimal corrosion resistance, seven times the water protection and premium heat and wear protection.

What makes our line so efficient?

It's **eBcost**, our revolutionary extraction technology that makes us supremely efficient in the following ways:

Uses 33% less electrical energy and 11% less water than two-speed models.

This is made possible by our advanced inverter drive technology and improved cylinder and sump system design, which optimizes water use to maximize cleaning and customer satisfaction while reducing non-wash water below the cylinder.

High-speed extraction reduces drying time.

Our improved technology spins up to 200 G-Force, removing more water than competitive 100 G-Force models (as much as a 1/2 gallon in a 30 lb. washer-extractor). That means reduced drying time and lower gas consumption for your laundry... did we mention improved throughput? Huebsch Galaxy 200 models produce extracts of 100 G-Force.

Multiple water levels deliver major savings.

With the Galaxy 400 control, Huebsch gives you the power to set water levels to conserve this precious (and often expensive) resource. There are three water levels to choose from – low, medium and high. The Galaxy 200 control offers high and low water selections.

Advanced leak detection eliminates wasted water.

We've answered laundry managers' calls to help eliminate the issue of stuck drain valves. We offer patented Water Guardian leak detection. This one-of-a-kind technology detects leaks for both the drain and fill valve, eliminating wasted water and resources.

Control Your Costs

How does the Galaxy 400 control increase my productivity?

Infrared communication means fast and easy changes to programs.

Managers with the Galaxy 400 control can easily program and retrieve operations data about their machines through a PDA or laptop PC. Simple access to data and easy programming helps save time and ensures proper wash programs are being followed.

Galaxy 200 (G200)

Unmatched Durability

Commercial laundry equipment is no small expense; I want peace of mind my equipment will last well into the future. What sets Huebsch apart from other brands in terms of reliability?

Tested to the limit.

At Huebsch, we test our machines against the toughest standards in our state-of-the-art test lab. This allows us to create efficient and reliable commercial-quality machines you can trust in the field.

Not just standing behind our equipment, but standing beside you and your business.

Our Galaxy washer-extractors with eBoost are manufactured at our Ripon, Wis. headquarters. We warranty the frame, cylinder, shaft, bearings and seals for five years. The entire machine receives Huebsch's standard three-year warranty.

In addition, we have more service representatives in the field than most brands have in their whole organization, and our support is further bolstered by an online component and a help line that takes over 120,000 calls per year.

Huebsch is the answer.

Huebsch is the answer.

Anybody can sell you laundry equipment and discuss the merits of each nut and bolt. However, at Huebsch, our priority is answering your questions about how working with us will make your business easier to run and more profitable.

Customers have selected Huebsch products for their ease of use, supreme durability and because owning a Huebsch product brings a service and support network that's unmatched within the industry. For profitability, reliability and ease of use, Huebsch is the answer.

Big Performance

Why are 120 - 200 lb Huebsch NovaStar™ commercial tumble dryers a good fit for my laundry?

Extra capacity.

When on-premises laundries are faced with huge loads and no time to waste waiting for a dryer, managers turn to Huebsch NovaStar™ tumble dryers for their extra-large cylinders and superior capacity. NovaStar™ models keep productivity in your laundry high.

Highly efficient.

Huebsch large capacity tumble dryers give you not only extra capacity, but also superior efficiency with a high performance heater box. Sealed cylinder rims and a concentrated airflow pattern ensure no heat is wasted, helping to keep utility costs down and the laundry yielding maximum throughput volumes.

Additional Features

Beyond efficiency, what NovaStar™ features help improve my operation overall?

Large door openings.

Huebsch is the answer for fast loading and unloading with 26.89" door openings. When your staff is able to load and unload quickly, your laundry is able to keep loads moving. In addition, the steel con-

struction of our door and heavy-duty hinge ensure both can handle whatever the staff dishes out.

Easy to clean.

A self-cleaning lint screen means fast, efficient lint removal from the tumble dryer's large storage area. The result is consistent fast, efficient drying.

Tangle tamer.

NovaStar[™] tumble dryers put an end to tangles by making reversing cylinders standard features. That means no more wasted time for staff spent untangling large pieces such as sheets or table linens.

Excellent Options

What other options make NovaStar[™] models the right choice for my operation?

An extra line of defense.

Huebsch offers its Combustion Auto Response Equipped (CARE) system as an option on NovaStar™ tumble dryers. CARE monitors for excessive

cylinder temperatures and sprays water on the load should it register an abnormally high reading. A "system active" signal also can be sent to a property's alarm system or another device.

A Great Finish

How will these tumble dryers help my laundry deliver fantastic finished results?

Staying in control.

NovaStar[™] models can be equipped with either Huebsch's extremely user-friendly Galaxy control or Dual Digital control. For the ultimate in utility savings and increased throughput, Galaxy

Galaxy Control

Dual Digital Control

offers OPT (Over-dry Prevention Technology) to end your drying cycle at the exact moisture level that fits your operation. The Galaxy control also features 30 programmable cycles and three cycle types that allow for greater consistency in drying time. Laundry owners will see savings on their energy and labor costs as well as extended linen life. With the Dual Digital control, operators can set drying time (0-60 minutes), cool down time (0-15 minutes) and temperature (high, medium, low, no heat). Additional user-friendly features include a one-touch cycle repeat, automatic anti-wrinkle extended tumble and time remaining display.

Unmatched Durability

Commercial laundry equipment is no small expense; I want peace of mind my equipment will last well into the future. What sets Huebsch apart from other brands in terms of reliability?

Quality components.

The NovaStar's™ drive system is built using cast iron pulleys and permanently sealed bearings. An all-belt drive system increases reliability. The bottom line is reliable performance with minimal maintenance.

Not just standing behind our equipment, but standing beside you and your business.

Our **Made-In-America** product comes with an industry-leading bond. The entire machine receives Huebsch's standard three-year warranty.

In addition, Huebsch has more service representatives in the field than most brands have in their whole organization. Huebsch support is further bolstered

by an online component and distribution network that assists customers with their laundry questions.

UT SERIES 120-170 LB TUMBLE DRYERS

UniMac has been recognized around the world as the leading manufacturer of commercial laundry equipment. We produce, sell and support more commercial washers and dryers in North America than any other company. Our UT Series tumble dryers are the most efficient machines on the market, boasting durable construction and reliable performance.

LOWER YOUR COSTS WITH UNIMAC

Drying cycles are usually 30 percent longer than wash cycles. Reducing dry times to match wash time allows you to run your laundry at maximum efficiency. Our dryers are designed for fast drying while balancing energy costs. With more than 60 years of dryer engineering experience, we have found the perfect balance between drying time and actual Btu usage to conserve energy, maximize throughput and lower labor costs.

OPTIDRY™ OVER-DRY PREVENTION TECHNOLOGY

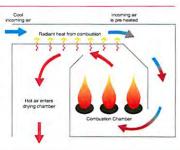

UniMac's optional OPTidry[™] system takes efficiency further by eliminating costly over-drying. Removing overdrying from your laundry not only reduces utility expenses, but also curbs labor costs and extends linen life, saving up to thousands of dollars annually.

INDUSTRY-LEADING DURABILITY

When it comes to your machine lasting longer and looking good, the difference is in the details. And that's where UniMac shines. Our tumble dryers incorporate a durable cart bumper and kick plate to protect dryer fronts from scratches and dents incurred during the laundering process. Constructed of high-grade steel, our heavy-duty door and two-point hinges will stand up to the toughest laundry conditions.

SPECIAL ENCAPSULATED HEAT SYSTEM

UniMac's enclosed heat system boosts efficiency and helps you keep your laundry environment more comfortable. Energy costs and drying times are reduced because radiant heat from the stove top is used to preheat intake air before it enters the combustion chamber.

OPIC

INDUSTRIAL STRENGTH MEETS INNOVATIVE TECHNOLOGY Redesigned Unimac" UW85-160 LB Machines

As the leading manufacturer of on-premises laundry equipment, UniMac[®] offers more than 60 years of incomparable quality and long-lasting performance. We're committed to delivering the lowest cost of ownership in the industry. That's why our UW Series is designed with cutting-edge innovations and industrial strength. And now, our industry-leading UW45 & 65 hardmount washer-extractors design has been extended to complete the line and meet your demand for larger capacities. Our 85-160 lb machines are equipped with cutting-edge technologies that competitors simply cannot deliver, maximizing throughput and saving more on utility costs than ever before.

> SMARTER TECHNOLOGY FOR INCREASED EFFICIENCY Rugged, Industrial-Strength Heavyweights Increased capacities with smaller footprints Sleek, Modern New Design is easy to clean and maintain

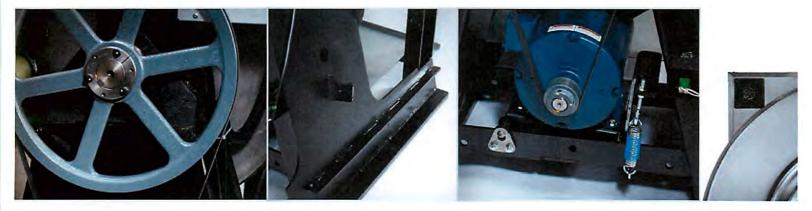

Proudly based in Ripon, Wisconsin, USA, UniMac is dedicated to research, development and testing to provide equipment that delivers industrial strength and long-lasting quality. Our products undergo a 5-Stage Product Development Process and are pushed beyond their limits in our state-of-the-art test lab to ensure they exceed the toughest demands of the commercial environment and meet our customers' highest standards.

UNYIELDING CONSTRUCTION TO LAST LONGER

Our redesigned UW hardmount washer-extractors feature industry-leading technology to optimize efficiency — but not at the expense of durability. Our products are manufactured with heavy-duty construction that you can count on to improve productivity. In fact, UW's are built to handle the toughest demands of the commercial environment. Made with premium materials, they're tested beyond the breaking point to ensure each machine meets the highest possible standards for performance. We don't call them industrial-strength heavyweights for nothing. With every load, they bring you the long-lasting quality you expect from the world leader in commercial laundry.

BEARINGS/DRIVE SHAFT

Built for industrial needs, cylindrical front/spherical rear bearings can handle 200% more force than ball bearings, helping your machine last longer. The upgraded shaft means even less deflection than the previous UW models. These parts work together to take on the toughest, most unbalanced loads.

FRAME

The strongest frames UniMac[®] has ever built. Made of plate steel, our frames are robotically welded for improved dimension consistency, computer-optimized and destructive-tested for maximum strength and made to handle vibration and unbalanced loads effortlessly. UW's tall frames provide extra cart clearance and elevated drain height. They offer proper ergonomics for the end user, reduced pad costs and increased plumbing flexibility.

INVERTER DRIVE

The proven technology provides smooth, reliable power for optimal wash and extract performance.

CYLINDER RIBS

Perforated cylinder ribs collect wash water and create a cascade of water that falls gently during each revolution.

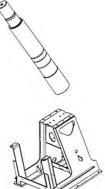

MOTOR

Our motor has 67% more horsepower than cabinet washer-extractors of the same capacity. Our oversized motors allow for around-the-clock use, increasing the life of the motor as well as your productivity.

SIMPLIFIED INSTALLATION

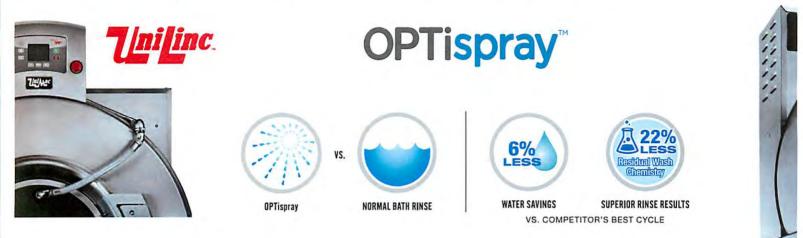

Redesigned UW hardmount washer-extractors offer a narrower frame and smaller footprint than previous models. That means they can easily fit into tight spaces and narrow doors. Plus, they can be used on the same concrete pads as older models. Our frame is pallet jackable, requires the same or fewer bolts and allows vertical access — which all leads to:

> GREATER INSTALL FLEXIBILITY LESS INSTALLATION TIME REDUCED INSTALLATION COSTS

OPTISPRAY[™] DELIVERS SUPERIOR RINSING WITH LESS WATER

We not only build stronger — we build smarter. Our industry-exclusive OPTispray[™] Rinsing Technology features unique spray rinse intelligence that no one in the industry can come close to offering. Available on all UniLinc[™] cycles, OPTispray minimizes the water required to rinse a load and reduces cycle time with extremely effective rinsing, delivering incredible throughput savings for managed laundries. Compared to competitor products that use bath rinses alone, OPTispray uses a spray rinse to carry away dirt and chemicals and leave behind less residue — providing unmatched rinse quality and improved wash performance for superior results.

COMPARED TO UNIMAC[®] UW80-150 LB MACHINES, REDESIGNED UW85-160 LB MACHINES PROVIDE:

WATER SAVINGS

30% water reduction when combined with ECO cycles.

FASTER CYCLE TIMES

Quicker cycles result in 13% improved productivity.

NON-WASH WATER

Minimal sump cylinder design saves 45% of non-wash water with every bath. Cycle after cycle, the savings really add up.

COST SAVINGS

Greater annual savings on water, sewer and heating costs than previous UW models.

NEW MOD	EL	OLD MODEL	ADDED ANNUAL SAVINGS
UW85	VS.	UW80	\$1,322
UW105	VS.	UW100	\$2,159
UW130	VS.	UW125	\$3,128
UW160	VS.	UW150	\$5,393

Savings assumptions: 10 loads/day x 365 days/year, water rate \$5/1000 gal, sewer \$5/1000 gal and 93% of incoming water goes to drain, 7% retained in load, gas cost \$1/therm, 75°F temperature rise, 85% gas heater efficiency, and 65% of incoming water is heated using an external water heater. (Local utility rates vary widely and ground water temperatures vary by region. Check your local data and adjust accordingly.)

UW105

THE UW SERIES GETS MORE DONE IN LESS TIME

With our redesigned UW hardmount washer-extractors, UniMac[®] gives you more ways to improve the efficiency of your laundry room. With 300 G-Force extraction, they deliver extremely fast dry times. Combined with advanced UniLinc[™] controls and OPTispray[™] Rinsing Technology, these machines increase your productivity better than any other machine on the market.

INCREASED CAPACITY

5-10 lb larger capacity than older UW models so you can wash more in every load.

DECREASED FOOTPRINT

Smaller footprint means these machines take up less space in your laundry room.

IMPROVED DOOR

Rugged hinge and handle paired with a proven roll pin/cam door lock system allows for smooth open-and-close operation.

ENLARGED DOOR OPENING

Larger door openings allow you to get loads in and out faster, improving your productivity compared to competitor brands.

AD-120 On-Premise Dryer

Why Purchase ADC AD-120?

Engineer Driven Design That is Built to Last

Our dryers showcase ADC's engineer-driven approach to design. Bearings are permanently lubricated on the motor and drive system. There are no chains used at ADC; rather, we use V-belts and pulleys for smooth, quiet, and trouble free operation. Our dryer cabinets are electrostatically powder-painted inside and out then baked at 420-degrees fahrenheit before final assembly - ensuring the hardest surface and the longest lasting finish in the industry.

Rugged Steel Door with Gasketless Door Glass

Our dryer doors are one solid piece of steel with gasketless glass. This eliminates the issue of glass falling out due to wear and tear on rubber gaskets that some manufacturers use to secure their glass. The security and durability that gasketless glass provides is essential to a successful laundromat operation.

Easy-to-Read, Multilingual Controls

We were the first to bring computer operated dryers to the market and today we continue to be a leader in applying technology to dryer operation. Our years of experience along with our accessible design, easy-to-read LED screens and our user friendly multilingual interface positions ADC as the pioneer in the laundry industry.

BOARD OF COUNTY COMMISSIONERS Escambia County, Florida

AI-6597	County Administrator's Report 11.8.
BCC Regular M	eeting Budget & Finance Consent
Meeting Date:	09/04/2014
Issue:	State Housing Initiatives Partnership Agreement with Community Action Program Committee, Inc.
From:	Keith Wilkins
Organization:	Community & Environment
CAO Approval:	

RECOMMENDATION:

Recommendation Concerning the State Housing Initiatives Partnership Agreement with Community Action Program Committee, Inc.- Keith Wilkins, Community & Environment Department Director

That the Board take the following action regarding the State Housing Initiatives Partnership (SHIP) Agreement with the Community Action Program the Committee, Inc., (CAP):

A. Approve the Agreement for the SHIP Housing Repair Assistance Project between Escambia County and CAP to provide \$157,500 in SHIP Program and Administrative funds, to support housing repair activities for eligible homeowners in Escambia County; and

B. Authorize the Chairman or Vice Chairman to execute the Agreement and all Project-related documents, as required to implement the Project.

[Funding: Fund 120, 2015 SHIP, Cost Center 220445]

BACKGROUND:

The 2014-2016 Escambia/Pensacola SHIP Program Local Housing Assistance Plan approved by the Board on April 2, 2013 (see **Exhibit I**) incorporated an allocation for housing repair assistance for very low and low income families, which was recently augmented by the award of 2015 SHIP funds by the Florida legislature. CAP, a seasoned local non-profit agency, has requested a SHIP allocation to be used over the next 12 months to support housing repair activities that compliment CAP's ongoing Home Weatherization Program. The \$150,000 Housing Repair Assistance Project will allow CAP to complete repairs to at least 20 homes owned by families meeting SHIP Program eligibility requirements. ARTICLE VI Contract Period and Termination

6. If, at the six (6) month interval, the Recipient has not contractually committed a minimum of fifty percent (50%) of the SHIP Program funds stipulated in Article III, this Agreement shall be unilaterally amended to reduce the funding by the difference between the amount contractually committed by the Recipient and the fifty percent (50%) threshold, leaving fifty percent (50%) of the total funds available in the last six (6) months. Funds removed from availability shall be reallocated for other SHIP Program activities.

6.4 The nine (9) month review shall examine the accomplishments achieved, review concerns and prepare for finalizing the project. Failure to accomplish the tasks outlined in this Agreement may negatively impact future award of SHIP funds to the Recipient by the County.

The Recipient shall ensure that each applicant for housing repair assistance under the Project agrees, as a condition of approval, that the County, City of Pensacola, State of Florida, Florida Housing Finance Corporation, or their duly authorized representatives shall be allowed access to the loan/grant file(s) for purposes of documenting compliance with SHIP Program requirements associated with this Agreement. The Recipient shall be fully, and directly responsible for the proper documentation associated with the expenditure of all SHIP Program funds provided under this Agreement.

7.1 These records and accounts shall be kept and maintained, for a minimum period of five (5) years following the termination of this Agreement unless said records are the subject of audit or litigation in which case they shall be retained indefinitely pending resolution of such review.

13.1 To abide by Chapter 119, Florida Statutes, as the same may be amended from time to time, and which is incorporated by reference herein.

13.2 That all SHIP Program funds provided through this Agreement shall be used solely in support of homeownership activities targeting the preservation of existing homeowner occupied single family residences.

13.3 Project funds shall be restricted to low income eligible homeowners residing within Escambia County, Florida, which shall be the defined service area for purposes of this Agreement. This generally includes all areas of Escambia County, Florida, both incorporated and unincorporated.

13.4 That Project activities shall be dually governed by requirements of the Recipient's non-SHIP home repair programs, if any, and Florida Administrative Code (FAC) 67-37, and amendments thereto. A. Approve the Affordable Homeownership Revolving Loan Agreement with CEII committing a maximum of \$100,000, from Fund 124/Affordable Housing, to finance the construction, rehabilitation, or renovation of affordable single family homes for sale to qualified low and moderate income home buyers; and

B. Authorize the Vice Chairman to execute the Agreement and all related documents as required to implement the project.

[Funding: Fund 124/Affordable Housing, Cost Center 220406]

BACKGROUND:

Community Enterprise Investments, Inc. (CEII) has worked closely with Escambia County and the City of Pensacola for many years to foster acquisition/rehabilitation or production of affordable homes and apartments for low and moderate income families. Through various lenders, CEII has the ability to secure a limited number of foreclosed homes or properties that must be used to provide affordable homeownership for eligible persons/families. Income definitions are taken from the State Housing Initiatives Partnership (SHIP) Program for purposes of this Agreement. The initiative will heighten opportunity for lower income families to attain affordable home ownership, assist with redevelopment of idle lots/properties in selected areas of interest, and increase the rate of homeownership within the targeted areas.

The funds will be provided to CEII in the form of a zero interest revolving construction loan to be repaid to the County at closing as individual homes are sold to eligible homebuyers. The funds will remain available for use by CEII for the duration of this Agreement. The complete Agreement is included in **Exhibit I**.

BUDGETARY IMPACT:

Funds adequate to support this Agreement are budgeted in Fund 124/Affordable Housing in Cost Center 220406.

LEGAL CONSIDERATIONS/SIGN-OFF:

The agreement has been reviewed and approved by Kristin Hual, Assistant County Attorney.

POLICY/REQUIREMENT FOR BOARD ACTION:

Formal agreements are required for agencies involved with the delivery of housing activities and such agreements must be approved by the Board.

IMPLEMENTATION/COORDINATION:

Implementation of the Agreement will be managed by the Neighborhood Enterprise Division of the Community & Environment Department. RECOMMENDATION:

Recommendation Concerning an Amendment to the Interlocal Agreement between Santa Rosa County and Escambia County for Federal Transit Administration Grant Funding (Veterans' Transportation and Community Living Initiative Grant) - Joy D. Blackmon, P.E., Public Works Department Director

That the Board take the following action concerning the Amendment to the Interlocal Agreement between Santa Rosa County and Escambia County for Federal Transit Administration (FTA) Grant Funding (Veteran's Transportation and Community Living Initiative Grant):

A. Approve the Amendment to the Interlocal Agreement between Santa Rosa County and Escambia County for FTA Grant Funding to designate the dispersing of the Grant funds; and

B. Authorize the Chairman to sign the Interlocal Agreement and any other documents associated with this Grant without further action of the Board.

[Funding Source: Escambia County Area Transit (ECAT) will manage the expenditure of the Grant funds]

BACKGROUND:

Meeting in regular session on July 11, 2013, Escambia County entered into an Interlocal Agreement with Santa Rosa County establishing conditions, extent, and mechanisms whereby the Parties agreed to cooperatively utilize Veterans' Transportation and Community Living Initiative (VTCLI) grant funding in the amount of \$222,387 from the FTA for eligible projects and expenditures.

In accordance with Chapter 427, Florida Statutes, and applicable federal regulations and requirements, Escambia County and Santa Rosa County are designated planning areas now served by separate Community Transportation Coordinators (CTC), which coordinate community transportation services for citizens within the counties. Due to the change in the CTC, it has been decided that it is in the best interest of the public to amend certain provisions of the Interlocal Agreement relating to the Use of Funding.

Originally, this grant was awarded to Santa Rosa County, although they are not a direct recipient of FTA grant dollars. Escambia County is a recipient and agreed to receive the grant dollars on behalf of Santa Rosa County. The funding was going to be utilized to purchase updated scheduling software and equipment for the existing one call/one click center operated by the CTC serving both Escambia County and Santa Rosa County. Due to the split in services, it has been decided to share the monies as follows:

Escambia County

1. Interactive Voice Response Module and hardware in the amount of \$130,387

Santa Rosa County

- 1. Automated Scheduling Software in the amount of \$53,500
- 2. Mobile data terminals and hardware in the amount of \$38,500

Escambia County is still the recipient of the full grant amount. This amendment to the existing interlocal agreement designates the dispersing of the grant funds.

BUDGETARY IMPACT:

Escambia County Area Transit (ECAT) will manage the expenditure of the grant funds. This grant has no required matching funds.

LEGAL CONSIDERATIONS/SIGN-OFF:

Kristin Hual, Assistant County Attorney, has reviewed and approved the Amendment to the Interlocal Agreement.

PERSONNEL:

POLICY/REQUIREMENT FOR BOARD ACTION:

Board policy required Board approval of all Interlocal Agreements.

IMPLEMENTATION/COORDINATION:

Upon BCC approval, staff will work with Santa Rosa County and the FTA to implement the grant by purchasing scheduling software and hardware.

In accordance with Chapter 417, Florida Statutes, and applicable federal regulations and requirements, Escambia and Santa Rosa Counties are designated planning areas, jointly served by a Community Transportation Coordinator (CTC), to coordinate community transportation services for citizens within the two-county area. As part of its services, the CTC operates a one-call/one-click center to provide transportation service connectivity between the two counties.

Because this region of the Gulf Coast is home to a large population of veterans and active duty military and their families, and several military installations are located here, including Naval Air Station Pensacola, Naval Air Station Whiting Field, Eglin Air Force Base, and Hurlburt Field, Santa Rosa County was selected by the FTA to receive a Veterans Transportation and Community Living Initiative (VTCLI) grant (Federal Section 5309 funding) in the amount of \$222,387.

Typically, Section 5309 funds are only available to FTA-designated recipients; this grant, however, was made available to everyone. In order to receive the federal funds, though, an entity must be registered with FTA as a grantee. While Santa Rosa County is not an FTA-registered grantee, Escambia County is, and is therefore eligible to receive FTA funding, and is permitted to receive the VTCLI grant funding on behalf of Santa Rosa in accordance with the terms set forth in this Interlocal Agreement. The Interlocal Agreement establishes the conditions, extent, and mechanism whereby the parties shall cooperatively utilize the VTCLI grant funding from the FTA for eligible projects and expenditures.

Escambia County was the direct recipient of a Federal Section 5309, State of Good Repair grant, which also included funding for scheduling software and hardware for the Community Transportation Coordinator, Pensacola Bay Transportation. By entering into this Interlocal Agreement with Santa Rosa County, and combining the VTCLI grant with the State of Good Repair grant, a greater regional impact is feasible.

BUDGETARY IMPACT:

Escambia County Area Transit (ECAT) will manage the expenditure of the grant funds.

LEGAL CONSIDERATIONS/SIGN-OFF:

Kristin Hual, Assistant County Attorney, has reviewed and approved the Interlocal Agreement as to form and legal sufficiency.

PERSONNEL:

Additional personnel will not be required as a result of this Interlocal Agreement.

POLICY/REQUIREMENT FOR BOARD ACTION:

Board policy requires Board approval of all Interlocal Agreements.

IMPLEMENTATION/COORDINATION:

Upon BCC approval, staff will work with Santa Rosa County and Pensacola Bay Transportation to implement the grant by purchasing scheduling software and hardware.

[Funding Source: Fund 112, Disaster Recovery Fund, Cost Center 330492/54612/56101, Project No. ESCPW17]

BACKGROUND:

The property at 811 Blue Springs Drive is in Crescent Lake Subdivision, Unit 4, described as Lot 23, Block 9, of said subdivision as recorded in Plat Book 5 at Page 59 of the public records of Escambia County, Florida. There is an existing drainage easement along the south boundary line of this property, which is owned by Mrs. Vicki Willis.

After the flood event, staff acquired an engineering report from Atkins North America, Inc. relative to the stormwater drainage system in the Crescent Lake Subdivision area, which identified this property as being suitable for a stormwater retention pond purposes. Atkins North America, Inc. evaluated two properties (811 Blue Springs Drive and 6110 Clearwater Avenue) at the intersection of Blue Springs Drive and Clearwater Avenue which could be used to construct a stormwater pond which would help attenuate some of the upstream runoff before it could discharge into the storm drain system.

Based on the engineering report staff approached the owner to see if she was interested in selling the property at 811 Blue Springs Drive; the owner indicated that she was interested in selling. Staff had an appraisal performed by G. Daniel Green and Associates, dated June 17, 2014, which placed a value of \$49,000 on the property, which the owner indicated she was amenable to accepting. Therefore, staff is requesting the Board to consider granting approval to purchase a parcel of real property (approximately 0.30 acres), with house, from Vicki Willis for the appraised amount of \$49,000, subject to the terms and conditions contained in the Contract for Sale and Purchase.

BUDGETARY IMPACT:

Funding for this acquisition is available in Fund 112 (Disaster Recovery Fund), Cost Center 330492/54612/56101, Project No. ESCPW17.

Address: 103 Bay Bridge Dr, Gulf Breeze, FL 32561 Appraiser Paula Marie Pelezo

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.

The appraiser may have provided a plat and/or parcel map in the appraisal report to assist the reader in visualizing the lot size, shape, and/or orientation. The appraiser has not made a survey of the subject property.

If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.

The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.

The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.

An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.

The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database. Possession of this report or any copy thereof does not carry with it the right of publication.

Forecasts of effective demand for the highest and best use or the best fitting and most appropriate use were based on the best available data concerning the market and are subject to conditions of economic uncertainty about the future.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report by the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

DEFINITION OF MARKET VALUE *:

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;

2. Both parties are well informed or well advised and acting in what they consider their own best interests;

3. A reasonable time is allowed for exposure in the open market;

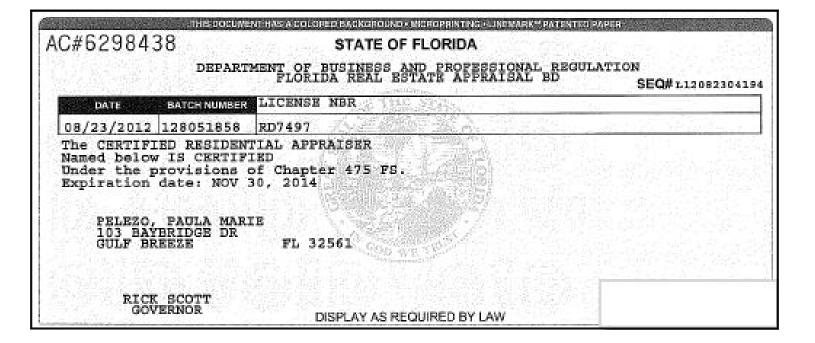

4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions

Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

[Funding Source: Fund 112, Disaster Recovery Fund, Cost Center 330492/54612/56101, Project No. ESCPW17]

BACKGROUND:

The property at 6110 Clearwater Avenue is in Crescent Lake Subdivision, Unit 4, described as Lot 22, Block 9, of said subdivision as recorded in Plat Book 5 at Page 59 of the public records of Escambia County, Florida. There is an existing drainage easement along the north boundary line of this property, which is owned by Ms. Marnie Land Dandry.

The house on this property sustained damage during the April 2014 flood event; there was damage to the yard as well.

After the flood event, staff acquired an engineering report from Atkins North America, Inc. relative to the stormwater drainage system in the Crescent Lake Subdivision area, which identified this property as being suitable for a stormwater retention pond purposes. Atkins North America, Inc. evaluated two properties (811 Blue Springs Drive and 6110 Clearwater Avenue) at the intersection of Blue Springs and Clearwater Avenue which could be used to construct a stormwater pond which would help attenuate some of the upstream runoff before it could discharge into the storm drain system.

Based on the engineering report, staff approached the owner to discuss the sale of the property at 6110 Clearwater Avenue; the owner indicated that she was interested in selling. Staff had an appraisal performed by G. Daniel Green and Associates dated July 23, 2014, which placed a value of \$64,000 on the property, which the owner indicated she was amenable to accepting. Therefore, staff is requesting the Board to consider granting approval to purchase a parcel of real property (approximately 0.34 acres), with house, from Marnie Land Dandry for the appraised amount of \$64,000, subject to the terms and conditions contained in the Contract for Sale and Purchase.

BUDGETARY IMPACT:

Funding for this acquisition is available in Fund 112 (Disaster Recovery Fund), Cost Center 330492/54612/56101, Project No. ESCPW17.

LEGAL CONSIDERATIONS/SIGN-OFF:

The Contract for Sale and Purchase was approved as to form and legal sufficiency by Stephen West, Senior Assistant County Attorney. The County Attorney's Office will prepare the closing documents and conduct the closing for the purchase of this property.

PERSONNEL:

All work associated with this acquisition is being done in-house and no additional staff is required.

POLICY/REQUIREMENT FOR BOARD ACTION:

These actions are consistent with the provisions of Section 46-139 of the Escambia County Code of Ordinances.

IMPLEMENTATION/COORDINATION:

Upon Board approval, staff will maintain compliance with Section 46-139 of the Escambia County Code of Ordinances.

If Buyer fails or refuses to perform the Contract and Seller is not in default under this Contract, Seller will receive the deposit/earnest money, if any, plus all interest accrued, and other reasonable costs incurred by the Seller in reliance on the Contract, to be paid by Buyer as liquidated damages, consideration for the execution of the Contract and in full settlement of any claims for damages and as Seller's sole remedy under the Contract and Seller have no right of specific performance. If Seller fails or refuses to perform the Contract for any reason and Buyer is not in default under the Contract, (i) Buyer may proceed in law or in equity to enforce Buyer's rights under the Contract, or (ii) Buyer may elect to terminate the Contract and to receive the return of Buyer's deposit, plus interest earned, and reimbursement from Seller for all costs and expenses Buyer incurred with regard to the Contract in full settlement of any claims for damages.

13. ATTORNEYS' FEES; COSTS. Each party shall be responsible for their own attorneys' fees and costs in connection with any litigation or other dispute resolution proceeding.

14. SURVIVAL. All representations and warranties contained in the Contract and any provision of the Contract which by their nature and effect are required to be observed, kept or performed after closing, (i) survive closing and the delivery of the Warranty Deed, and (ii) remain

binding upon and for the benefit of the parties to the Contract, their respective successors and assigns, until fully observed, kept or performed.

15. ASSIGNABILITY. Buyer and Seller cannot assign the Contract or rights under the Contract without the express written consent of the other.

16. RISK OF LOSS. The risk of loss to the Property is the responsibility of Seller until closing.

Additional information regarding radon and radon testing may be obtained from the Escambia County public health unit.

18. OTHER AGREEMENTS. No prior or present agreements or representations are binding upon Buyer or Seller unless included in the Contract. No modification or change in the Contract are valid or binding upon the parties unless in writing and executed by the parties to be bound.

23. INSPECTION OF PROPERTY. Upon reasonable notice and without disruption of Seller's current use of the Property, Buyer may have subsurface investigations and environmental audits of the Property made by qualified geotechnical and environmental engineers sufficient in the judgment of the inspecting engineer to ascertain whether or not the Property meets the standards acceptable to Buyer. In the event that the report indicates that the Property does not meet Buyer's standards, Buyer, by notice to Seller on or before 10 days prior to closing, has the option of terminating the Contract and Seller agree to return any deposit paid by Buyer. 25. OCCUPANCY AND POSSESSION. Seller warrants delivery of possession of the Property to Buyer at closing.

26. CONDEMNATION. Seller conveys by sale the Property for public use and waives any right to compensation for the Property other than as provided for in the Contract. Fannie Mae Form 2055 March 2005

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

26. — Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Scope of Work:

The scope of research preformed for this report was limited to an examination of similar improved property sales in the subject market area. Information of these properties was obtained through the local MLS system, county property appraisers office. appraisers files and often third party sources involved with the sale. The scope of data concerning the physical condition of the subject property is limited to a "walk through" and "walk around" observation of the subject and in some cases information revealed by others. Areas that are not readily accessible including the attic and crawl space (if any) or areas that are covered by personal property, carpet (etc) or vegetation have not been observed. The appraisal specifically is not a "home inspection", "site survey", "WDO inspection", or "engineering/structural inspection."

• Exterior-Only : Improvements - Condition of the Property

The subject is of average quality construction and average condition. There were no needed repairs noted during the inspection. This appraisal is based on a limited observation of the subject only from the street. It makes no guarantees or warranties concerning the physical condition of the subject. It is not a survey, termite inspection, home inspection or structural inspection of the subject. See page 3 of 6 - URAR

At the clients request, this is a drive by appraisal with an exterior observation from the street only. Based upon a limited observation from the street, the subject appears to be of average quality construction and average condition. It is assumed that the interior of the subject is of the same level of quality and maintenance that is shown on the exterior. Based on the exterior maintenance, it is assumed that the interior has not been updated and is in average condition. The number of bedrooms, number of bathrooms and interior features are unknown. The appraisal is therefore based on the extraordinary assumption tha the subject has two bedroom and one and a half bathroom and is in average condition but with no significant structural, mechanical, plumbing, or electrical needed repairs.

The appraisal is being completed under the extraordinary assumption that there is no flood damage from the flood evet that occured in April 2014, and that elements related to functional, mechanical, structural, and electrical components are in reasonable condition relative to its age and general quality level. If this is proven to be inaccurate, then all opinions and conclusions within this valuation may be subject to change. The use of this assumption might affect the assignment results.

*Extraordinary Assumptions are commonly used in the appraisal business. An extraordinary assumption is something that has a degree of uncertainty, but which you assume to be true for the purposes of rational analysis.

Sales Comparison Analysis:

All comparable sales are located within the subjects subdivision and are within 20% size GLA, constructed within 10 years from the subject, and sold with-in the last 12 months.

Comparables sales one and three required a 0.04% time adjustment as reflected in the attached graph of all relevant transactions in Escambia County from 06/13-06/14.

From research conducted on sales and listings in the subjects subdivision, it appears that a lot of renovating and updating is taking place. The size GLA on the property tax cards for base area differs from what the listings agents are reporting on MLS for Approx SF. Its hard to confirm without speaking to an agent or actually going inside the property weather or not some of the additional base simi-unfinished space on the property tax cards, which the realtors are adding into the Approx SF on MLS, can be truly considered gross living area or not. Therefore a lot of these properties that appear to be similar in size GLA are not. This means some of the data reported at the top of pg. 2 in the URAR and in the Market Conditions addenda on current listings and sales with in the last twelve months is not completely accurate or reliable.

Comparable sale one is smaller is size GLA, but similar in age, condition, and exterior features. This sale required a positive adjustment for lacking a half bath.

Comparable sale two is also smaller in size GLA. Updates for this sale include new roof, new appliances, and new bathroom fixtures with in the last 5 years per MLS sheet. This sale required an negative adjustment for updates the subject lacked, along with an additional carport space. Otherwise this subject is similar in age, location, and is with in 20% size GLA from the subject.

Comparable sale three is smaller in size GLA from the subject. Per property records this residence has 1043 base SF, and 230 base simi-finished SF. Per phone conversation on 07/23/2014 with the listing agent Robert Frassetti, this home was renovated one year ago and the base simi-finished area was converted in a master bedroom, with full bath and closet and is now considered gross living area. This was also verified by MLS photos. Additional updates for this comparable are new kitchen cabinets and counters, new stainless steel Kenmore appliances, fixtures, and lighting. Therefore this sale also required a negative condition adjustment and bath adjustment. This sale had a one car garage which is superior to the subject and therefore required a negative adjustment.

Comparable sale four was used to bracket the subjects size GLA. This comparable was very similar in size GLA and was a recent sale, however this lot is superior in location and view because it is a lake front lot with a lake view. This comparable required an adjustment for an additional bathroom which the subject lacks.

Adjustments for all sales exceeded guidelines for line, net, and/or gross adjustments. This was unavoidable due to the lack of sales that are similar to the subject in condition, size GLA, site value, and features.

Meeting Date:	09/04/2014
Issue:	County's Acceptance of Property from Florida Department of Transportation (FDOT)
From:	Joy D. Blackmon, P.E., Department Director
Organization:	Public Works
CAO Approval:	

RECOMMENDATION:

<u>Recommendation Concerning the County's Acceptance of Property Located on West Herman</u> <u>Street and on State Road 10 (US 90) from the Florida Department of Transportation - Joy D.</u> <u>Blackmon, P.E., Public Works Department Director</u>

That the Board take the following action concerning the County's acceptance of property for retention pond purposes on West Herman Street, and property for a boat ramp project on State Road 10 (US 90), from the Florida Department of Transportation (FDOT):

A. Accept the transfer of real property from FDOT for retention pond purposes on West Herman Street;

B. Accept the transfer of real property from FDOT for a boat ramp project on State Road 10 (US 90);

C. Authorize the payment of incidental expenses associated with the recording of the documents; and

D. Authorize the Chairman or Vice Chairman to sign any documents, subject to Legal review and sign-off, necessary to complete the acceptance of these properties.

[Funding: Funds for the recording of documents for these projects are available in the Engineering Escrow Account accessible by the Clerk's Office]

BACKGROUND:

The County has a project in design to make road and drainage improvement in the West Herman Street and North Pace Boulevard area. The County owns a portion of an existing retention pond located off West Herman Street near the intersection of West Herman Street and North Pace Boulevard. The existing pond area was an old FDOT borrow pit, of which FDOT still owns a portion. The FDOT protion is approximately 3.18 acres. Because the design for this project indicates the need for additional stormwater capacity in this area, at the County's request, FDOT has agreed to convey this property to the County and have provided a Public Purpose Quit Claim deed to convey this parcel.

The County also recently acquired property on State Road 10 (US 90), at Perdido River for a public boat ramp project. After acquiring the property, it was discovered that FDOT actually owned more right-of-way on State Road 10 (US 90), than previously determined. At the County's request, FDOT has agreed to convey to the County the portion of the State Road 10 (US 90), right-of-way (approximately 0.18 acres) abutting the recently acquired County property. FDOT has provided a Public Purpose Quit Claim deed to convey this property.

Board acceptance is required for the conveyance of these properties to the County.

BUDGETARY IMPACT:

Funds for the recording of documents for these projects are available in the Engineering Escrow Account accessible by the Clerk's office.

LEGAL CONSIDERATIONS/SIGN-OFF:

The Public Purpose Quit Claim deeds will be reviewed and approved by the County Attorney's Office prior to recording.

PERSONNEL:

All work associated with this request is being done in-house and no additional staff is required.

POLICY/REQUIREMENT FOR BOARD ACTION:

County staff will maintain compliance with Section 46-139 of the County Codes.

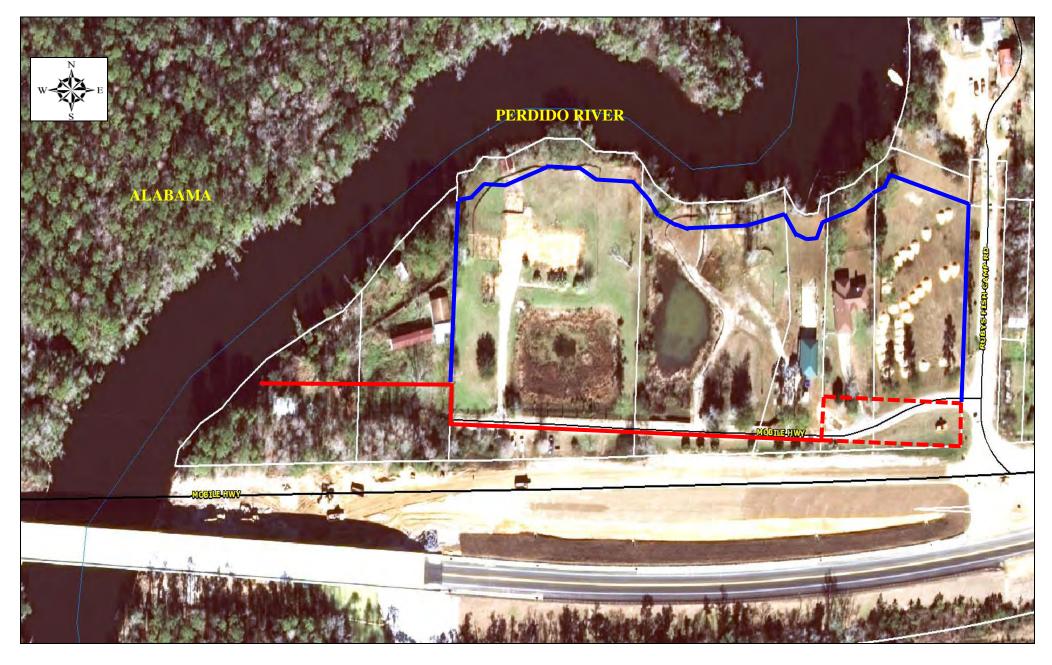

IMPLEMENTATION/COORDINATION:

Upon Board approval, the Public Purpose Quit Claim deeds will be recorded in the public records, with copies provided to FDOT.

BACKGROUND:

Meeting in regular session on June 10, 2013, the Board approved the Contract for the Myrtle Grove Athletic Park Improvements Project. The project consists of re-grading and paving the existing parking areas within the Myrtle Grove Athletic Park, extensive expansion of the existing stormwater treatment facilities to accommodate the improvements, and installing associated drainage structures throughout the site to route the stormwater.

The Myrtle Grove Athletic Park has been in existence more than 50 years. During that time many underground improvements have been installed through the years with inadequate records showing the location of the improvements. This has proven to be problematic throughout construction. Change Order #1, in the amount of \$27,106.06, was an additive change order to pay for items encountered sub-surface that were not anticipated. Changes included t-ball field light circuit relocation, softball field scoreboard circuit relocation, meter relocation, sub-surface concrete debris removal, and relocation of a fence. Change Order #2, in the amount of \$25,006.53, was an additive change order to pay for additional sub-surface conflicts and changes needed based upon surrounding public input. These changes included additional landscaping, irrigation additions and modifications, water main relocation, and lighting circuit replacement. Change Order #3, #4 and #5 were for time only.

Change Order #6 is an additive/deductive change order, in the amount of \$19,307.18, to close out the project. The additions included unforeseen sub-surface conflicts and other items needed to complete construction. These items include septic system relocation, t-ball concession area drainage modifications, additional curb, water line relocation, and temporary field/slope repairs.

BUDGETARY IMPACT:

Funds for this project are available in Fund 352 "LOST III", Cost Center 350229, Object Code 56301, Project #12PR1842.

Public Works			

# **RECOMMENDATION:**

Recommendation Concerning a Change Order to Roads, Inc., of NWF on Contract PD 13-14.006 "Road Materials Pricing Agreement" - Joy D. Blackmon, P.E., Public Works Department Director

That the Board approve and authorize the County Administrator to execute the following Change Order to Roads, Inc., of NWF, for the "Road Materials Pricing Agreement", to allow the Road Division to obtain asphalt for use in re-surfacing open graded cold mix roads.

Department:	Public Works
Division:	Engineering/Infrastructure Division
Туре:	Addition
Amount:	\$100,000
Vendor:	Roads, Inc. of NWF
Project Name:	"Road Materials Pricing Agreement"
Contract:	PD 13-14.006
PO#:	140985
CO#:	1
Original Award Amount:	\$250,000
Cumulative Amount of Change Orders through this CO:	\$100,000
New Contract Total:	\$350,000

[Funding Source: Fund 352, LOST III, Cost Center 210107, Object Code 56301, Project #09EN0388]

# BACKGROUND:

On February 6, 2014, the Board ratified the Roadway Materials Pricing Agreement, pursuant to the Board's award on January 2, 2014, for the Indefinite Quantity, Indefinite Delivery contract for PD 13-14.006, Roadway Materials Pricing Agreement, based on the pricing provided and approved funding for the Public Works Department, Engineering Division for this contract. A purchase order was issued to Roads, Inc. of NWF, in the amount of \$250,000, to be used to provide asphalt and tack to resurface open graded cold mix roads.

The County paved several miles of dirt roads with open graded cold mix over the last decade. These roads had a life expectancy of five to seven years, and in most cases have exceeded this period. Many of these roads are now in poor shape and have severe raveling of the driving surface. By allowing the Roads Division to resurface some of these roads before they fail, the County may potentially save thousands of dollars.

This Change Order will allow the Roads Division of the Public Works Department to obtain asphalt and tack from Roads, Inc., of NWF, for use in resurfacing open graded cold mix roads. To date, they have paved Sandy Hollow Road, Cool Creek, Barrineau Lane, Barrineau South and Holland Road.

# **BUDGETARY IMPACT:**

Funds for this project are available in Fund 352 "LOST III", Cost Center 210107, Object Code 56301, Project #09EN0388.

## BACKGROUND:

Meeting in regular session on June 3, 2014, The Board approved the issuance of Purchase Orders exceeding \$50,000.00 issued under the Declaration of a Local State of Emergency for Escambia County, effective April 29, 2014 through May 27, 2014, for the Flood Event of 2014, to procure goods and services for emergency response, protective measures for repairs to critical infrastructure and for measures taken to protect the health and safety in severely affected areas. Purchase Order 141330 issued to Heaton Brothers Construction Co., Inc. was approved at this meeting.

The Original Work Order was issued under Emergency Order (Priority 2) out of the Emergency Operations Center (EOC). Work included milling and replacement of a section of road, replacement of a storm junction box, replacement and reconnection of existing infrastructure to pre-existing conditions. Change Order #1 and #2 were processed for accounting purposes only adding the correct cost center, object code and project numbers to the purchase order. Change order work includes deductions for unused quantities, and additions for storm sewer piping uncovered during construction and determined defective/damaged. Therefore, expansion scope items include additional excavation and pipe removal, increasing 54" reinforced concrete pipe from 96If to 240If, addition of a 54" concrete endwall, and driveway replacement. Hi Robin,

Thank you for taking the time to discuss the flood damage costs with Justin, Belinda and myself.

The new account set up in fund 112 in the cost centers is 54612. If you have to do a change order or new purchase orders for any damage due to the flood which would include roads/bridges/drainage/ponds/design/damage assessments etc.) please use this account number. If there are any other questionable items, please give Justin or myself a call.

We will move any existing balances that are in 56301 via journal entry, so you will just need to make any changes going forward.

In our discussion with the Auditors, if there was an existing road/bridge or other capital item damaged this would fall into the repair category. If it is a new road or bridge constructed where there was none, that that would be capital.

Thanks, Sharon

THIS AGREEMENT is entered into by the State of Florida, Division of Emergency Management, with headquarters in Tallahassee, Florida (hereafter referred to as the "Grantee"), and Escambia County

(hereafter referred to as the "Subgrantee").

THIS AGREEMENT IS ENTERED INTO BASED ON THE FOLLOWING FACTS AND CONDITIONS:

- A. On May 6, 2014 President Barack H. Obama issued a major disaster declaration designated FEMA-4177-DR-FL for the State of Florida as a result of Severe Storms, Tornadoes, Straight-Line Winds, and Flooding. As amended, the declaration authorizes Public Assistance in Escambia, Santa Rosa, Okaloosa, Walton, Holmes, Washington, Bay, Calhoun, and Jackson Counties.
- B. The FEMA-State Agreement executed May 16, 2014, between the State of Florida and the Federal Emergency Management Agency (FEMA) governing the use of such funds requires the State to share the costs eligible for federal financial assistance, and the State has undertaken to share those costs, as appropriated, with its Subgrantees; and

THEREFORE, the Grantee and the Subgrantee agree to the following:

(1) DEFINITIONS.

As used in this Agreement, tha following terms shall have the following meanings unless another meaning is specified elsewhere:

Stafford Disastar Relief and Emergency Assistance Act, Public Law 93-288, as amended, 42 U.S.C §§ 5121-5207 (Stafford Act); in accordance with 44 CFR § 206.44; and applicable policies of FEMA.
- B. "FEMA-State Agreement" is the agreement executed May 16, 2014, as amended, between the FEMA and the State of Florida, for a presidential major disaster declaration designated FEMA-4177-DR-FL.

The Subgrantee shall also reimburse the Grantee if the Subgrantee receives any duplicate benefits from any other source for any damage identified on the applicable Project Worksheets for which Subgrantee has received payment from Grantee.

B. In the event that Grantee should determine that Subgrantee has received duplicate benefits, by its execution of this Agreement, the Subgrantee gives Grantee or the chief financial officer of the Florida Department of Financial Services the authority to set off the sum of any such duplicate benefits by withholding it from any other funds otherwise due and owing to Subgrantee, or to use such remedies available at law or equity to the repayment of said sums to Grantee.

### **RECOMMENDATION:**

Recommendation Concerning Solid Waste Recycling, PD 13-14.067 - Amy Lovoy, Management and Budget Services Department Director

That the Board award Contract #PD 13-14.067, Solid Waste Recycling, to Allied Waste Services of North America, LLC, at no cost to the County, and approve the Agreement for Recyclable Paper Materials between Escambia County and Allied Waste Services of North America, LLC.

## BACKGROUND:

The solicitation was advertised in the Pensacola News Journal on July 14th 2014, and one response was received.

Drop-Off Recycling sites were temporarily closed due to a combination of the West Florida Recycling facility shut down and increased contamination from the April 29th flood event debris. This service provides processing for the BCC's Drop-Off Recycling Program. Sites are located throughout the County for residential and commercial use. The number of Drop-Off sites has been revised to focus on the most productive sites.

Recycling material collected from the sites have historically been paper and paper materials consisting of minimum tonnage (approximately 25 tons/week). Costs to transfer this material out of County are estimated to be up to \$55.00 per ton to include tip fee, material, personnel and equipment. Allied Waste Services is a local vendor with the ability to process this type of material. Under this Contract no revenue or additional expenses are incurred by the County.

## **BUDGETARY IMPACT:**

Funding: no impact on County Budget

## Vonna Jo Estates: ID 309

Isolated spots of erosion and downed/leaning fence were the two issues found at the time of the site visit to pond 309. Approximately 200' of chain link fence needs replacement on the northern and western perimeters. Two sections measuring 15' by 12' and one 30' by 12' need to be regraded and sodded. Sediment built up along the western berm as water was overtopping the pond and out falling into the adjacent creek. A 38' stretch of the berm will need to be regraded and sodded once the sediment is removed. Preliminary notes in the County's pond database indicated the need to remove the cover at the curb inlet on Vonna Jo Circle, just outside of the pond's perimeter fence. This was done to investigate the situation; however, no damage was visible to the inlet or structure bottom.

# 52nd Avenue: ID 444

Several locations of erosion were found on the side slopes during the site visit to pond 444. On the east bank a section 110' by 25' needs to be stabilized, regraded, and sodded. The worst spot in this stretch is an area 20' by 25' and 2' deep that will also require fill material. The southwest corner has an eroded area 28' by 8' wide and 2' deep. The eroded soil is still piled on the pond slope and needs to be removed or used as fill material. The pile also measures approximately 28' by 8'. The west bank has a section 100' by 20' that also needs stabilization, regrading, and sodding and has section 30' by 20' by 2' deep that requires fill. Minor erosion, approximately 10' by 3' by 1' deep, was found along the northwest corner concrete flume.

# 62nd Avenue & LaRua Street: ID 527

Side slope damage was found around the entire pond at the time of the site visit. Approximately 75% of the pond's side slopes need to be regraded and sodded. Berm height at the pond is approximately 35'. The worst area of damage is in the pond's northwest corner. The corner is washed out completely and needs to be filled in, regraded, and sodded. The damaged area is 115' long by 75' wide and 8' deep. Note that aerials of this pond show erosion prior to the storm event; however, not to the extent of damage found after the storm.

# Glynn Key Linear Park: ID 778

Major damage was found at several locations around pond 778. Along the southern edge of the pond, 50' of chain link fence needs replacement and a washout 15' by 10' by 3' deep was found at the start of the boardwalk and should be filed in. A road washout caused sediment to pile up on the southwestern pond berm and also caused damage to 70' of chain link fence. This washout was approximately 3' deep and covers a 40' by 25' area. To repair this area the sediment needs to be removed, fill will need to be brought in, and the area regraded and sodded. Along a concrete spillway on the western edge of the pond, a fence pole was knocked loose and needs to be replaced to stabilize approximately 20' of fence. A 20' by 10' pile of sediment needs to be removed from the pond bottom. The worst damage found was a 56' by 34' blowout of the northeastern berm of the pond and underneath the adjacent boardwalk. This blowout is approximately 6' deep and will require fill material, regrading, and sodding the area. As water was flowing towards Jones Creek, it washed away a vast amount of sediment and 110' of chain link fence that needs replacement.

## Lakewood Cottages: ID 802

The only damage found at pond 802 was a large washout of the southeastern berm that measures 18' by 30' by 2' deep. The washout extends a few feet outside of the perimeter fence's boundary and into the adjacent property. This area can be repaired by removing sediment, bring in fill material, regrading, and sodding.

Because the Pensacola area is such a great destination, each year we attract more and more teams wishing to enjoy our beautiful beaches and great weather. The Youth Association of Northeast Pensacola (NEP) is continually working to better our facilities and grounds to provide a first class venue for these teams to compete and each year strive to invest more and more funds in the infrastructure of our park. Because we are Non-profit organization and completely self funded, we utilize registration fees and fund raising activities from our teams each year to cover the required budget items to maintain successful Recreational baseball/Softball leagues for over 800 kids ranging in ages from 3-14. Any additional funding to help promote these events and improve the facilities would be very much appreciated and utilized to attract more and more teams who will ultimately spend money in Escambia county's restaurants, gas stations, hotels and provide economic stimulus to our growing county.

Issue:	Settlement of Workers' Compensation Claim Involving Johnny Wilson		
From:	Ryan Ross, Assistant County Attorney		
Organization:	County Attorney's Office		
CAO Approval:			

#### **RECOMMENDATION:**

Recommendation Concerning the Settlement of a Workers' Compensation Claim Involving Johnny Wilson

That the Board approves a washout workers compensation settlement for former deputy sheriff Johnny Wilson in the amount of \$450,000.00, inclusive of attorney's fees and costs. An excess insurance carrier will reimburse Escambia County for a minimum of \$383,164.64 of this settlement amount.

#### BACKGROUND:

Johnny Wilson is a 39-year-old former Escambia County deputy sheriff. On May 16, 2003, he was involved in a motor vehicle accident in the course of his employment. He sustained a severe injury to his lower back and also sustained less significant injuries that resolved shortly thereafter. Mr. Wilson has received substantial medical treatment since his accident. On April 6, 2005, an authorized treating physician opined that Mr. Wilson reached maximum medical improvement with a 10% permanent impairment rating. Although he returned to his position as a deputy sheriff, Mr. Wilson required further medical treatment for his work-related injuries. In 2013, Mr. Wilson underwent a functional capacity evaluation. This report provided limitations that prevented Mr. Wilson from continuing employment as a deputy sheriff. He has filed a petition for permanent and total disability (PTD) benefits, which the County is contesting through outside counsel for its third-party adjuster. (A detailed medical and employment history is available from Assistant County Attorney Ryan Ross.)

Due to his young age and life expectancy, the County has substantial exposure if the Judge for Compensation Claims finds that Mr. Wilson is permanently and totally disabled. The County's adjuster, PGCS, estimates that the present value of future PTD benefits is over \$1,000,000.00. PGCS further forecasts future medical benefits will cost \$423,978.00. Therefore, in an effort to resolve the claim prior to a final hearing and to effectuate significant savings, outside counsel has negotiated a washout workers compensation settlement in the amount of \$450,000.00, inclusive of attorney's fees and costs. Riverstone Claims Management, LLC, the excess insurance carrier in this case, will ultimately be responsible for reimbursing a substantial portion of the above-outlined settlement funds. The self-insured retention for this claim amounts to \$350,000.00. Medical and indemnity benefits paid to date amount is \$283,164.64. Accordingly, if the Board approves the proposed settlement, the County will be responsible for a maximum of

\$66,835.36 of the settlement proceeds. Riverstone will reimburse the County for a minimum of \$383,164.64. Please note that Riverstone has already approved the proposed settlement agreement contingent upon approval by the Board of County Commissioners. In light of the potential exposure associated with this case, PGCS and outside counsel recommend that the Board approves the proposed settlement agreement.

Issue: From: Organization:	Settlement of Tort Claim Brought by Jazimen Bryant Charles Peppler, Deputy County Attorney County Attorney's Office	

#### **RECOMMENDATION:**

Recommendation Concerning Settlement of a Tort Claim Brought by Jazimen Bryant

That the Board approve settlement of a tort claim presented by Jazimen Bryant for a payment of \$16,250 in exchange for the execution of a General Release and Hold Harmless Agreement.

#### BACKGROUND:

On July 3, 2013, EMT John Bartholomew was operating EMS Ambulance Unit 5 northbound on "E" Street. He was transporting a patient who was being attended to by Paramedic Shawn Ribble. As he approached Moreno Street, a 2009 Buick Lacrosse CX driven by Jazimen Bryant in which Jacqueline Carter was a front seat passenger was proceeding west on Moreno Street. Ms. Bryant had a green light and proceeded through the intersection. Ms. Bryant did not hear a siren nor did her passenger Jacqueline Carter. Mr. Bartholomew provided a statement that he proceeded through the intersection because it was clear of traffic, but as he entered the intersection, he observed the Bryant/Carter vehicle proceeding from the west. He continued north as the front of the Buick Lacrosse collided with the right side of the ambulance unit. An incident review board convened pursuant to the safety policy of the Department of Human Resources. It determined that Mr. Bartholomew had failed to follow state law and County policy. Subsequent to the accident, Mr. Bartholomew was asked to submit his resignation relating to other issues, which he did, and he is no longer employed by the County.

Ms. Bryant was 22 years old at the time of the accident. She was transported to the Baptist Hospital emergency room complaining of back pain and neck pain. She was eventually treated by the Roberts Chiropractic Clinic and was seen by Dr. Jeff Noon. Ms. Bryant was treated with chiropractic adjustments, massage and other manipulations until January 2014. An MRI by Dr. Lord on October 18, 2013 found bulging discs at the L3-L4, L4-L5, L5-S1 levels of her vertebral spine. On December 12, 2013, Dr. Noon believed that she had reached maximum medical improvement and that she was left with a permanent injury of 18% of the body of the whole with 15% to her low back and 3% to her neck. Because of the herniated discs, he estimated that future surgery costs would be \$30,000 as well as further chiropractic treatment in the range of \$5-10,000. Ms. Bryant's back pain continues to fluctuate since her treatment. She had medical bills of approximately \$14,713.

The proposed settlement of \$16,250 is consistent with jury verdicts for back and neck injuries and with negligence admitted.

#### **BUDGETARY IMPACT:**

Funds for the settlement will be paid from general reserve.

#### LEGAL CONSIDERATIONS/SIGN-OFF:

Charles V. Peppler, Deputy County Attorney, has prepared this recommendation and will ensure the settlement requirements are completed should the Board approve the settlement.

#### PERSONNEL:

#### POLICY/REQUIREMENT FOR BOARD ACTION:

#### **IMPLEMENTATION/COORDINATION:**

The County Attorney's Office will work with the Offices of Risk Management and the Clerk of Court to complete the settlement should it be approved by the Board.

Recommendation Concerning Settlement of a Tort Claim Brought by Jacqueline Carter

That the Board approve a settlement of a tort claim presented by Jacqueline Carter for payment of \$18,000 in exchange for the execution of a General Release and Hold Harmless Agreement.

#### BACKGROUND:

On July 3, 2013, EMT John Bartholomew was operating EMS Ambulance Unit 5 northbound on "E" Street. He was transporting a patient who was being attended to by Paramedic Shawn Ribble. Subsequent to the accident, Mr. Bartholomew was asked to submit his resignation relating to other issues, which he did, and he is no longer employed by the County.

At the time of the accident, Ms. Carter was 48 years old and employed as a health care worker. She was transported and admitted to Baptist Hospital emergency room with complaints of neck pain. She was diagnosed with a cervical sprain. Soon thereafter, she was treated by Dr. Noon at the Roberts Chiropractic Clinic complaining of severe neck and back pain. Some of her back pain radiating into her left calf. An MRI performed by Dr. Lord in October 2013 found that there was severe facet (a component of the vertebral body which comprises the spine) disease at the L3-L4 level. The MRI also revealed a right collateral annular tear of the disc at L4-L5 as well as a disc bulge at the L5-S1 level with severe left foraminal stenosis (a narrowing of that portion of the vertebrae which encloses the spinal nerves). Dr. Noon found that Ms. Carter had reached maximum medical improvement as of December 4, 2013 and that she was left with a permanent injury of 10% of the body of the whole with 7% assigned to the lumbar spine and 3% to the neck. Because of the herniated discs, he has estimated future surgery to cost \$30,000 with chiropractic and physical therapy treatment in the future to be between \$20-25,000. Ms. Carter

lost \$324.80 in lost wages and her medical bills totaled \$15,588.

The settlement of \$18,000 is within the range of reasonable verdicts that could be expected for this type spinal injury and with negligence being admitted.

#### **BUDGETARY IMPACT:**

Funds for the settlement will be paid from general reserve.
