(c) A certificate of an authorized official of the Issuer in which such official provides the resolution approving the transactions contemplated herein and certifies, among other things, that (i) to the best of his knowledge, the representations and warranties of the Issuer in this Agreement are true and correct, and the Issuer has complied with all agreements and satisfied all conditions on its part to be performed or satisfied on or prior to the Closing Date; (ii) to the best of his knowledge, no Event of Default has occurred and is continuing, and no event has occurred and is continuing which, with the lapse of time or the giving of notice or both, would constitute such an Event of Default; and (iii) no litigation is pending or, to the best of his knowledge, threatened (A) to restrain or enjoin the issuance or delivery of the Bonds, the application of the proceeds thereof, the payment, collection or application of revenues or the pledge thereof pursuant to this Agreement or the execution, delivery or performance of this Agreement, (B) in any way contesting or affecting any authority for or the validity of any of the matters referred to in clause (A) above, (C) in any way contesting the existence or powers of the Issuer or (D) in any way contesting the payment, collection or application of revenues or the pledge thereof pursuant to this Agreement;

(d) A certificate of an Assistant Secretary of the Borrower certifying to, among other things, the organizational status and documents of the Borrower and the resolutions approving the transactions contemplated herein;

(e) A certificate of an authorized officer of the Borrower in which such officer, to the best of his or her knowledge, certifies that the representations and warranties of the Borrower in this Agreement are true and correct; that the Borrower has complied with all agreements and satisfied all conditions on its part to be performed or satisfied pursuant to this Agreement at or prior to the Closing Date; and that no Event of Default has occurred and is continuing, and no event has occurred and is continuing which, with the lapse of time or the giving of notice or both, would constitute such an Event of Default;

(f) An opinion or opinions of Bond Counsel to the effect that (i) interest on the Bonds will be excludable from gross income for federal income tax purposes; (ii) interest on the Bonds will be an item of tax preference for purposes of the federal alternative minimum tax; and (iii) interest on the Bonds will be exempt from income taxation by the State;

(g) An opinion or opinions of counsel to the Borrower;

(h) An opinion of counsel to the Issuer;

(i) Payment of the Lender's structuring fee in the amount of $16,000; and

(j) Such other documentation, certificates and opinions as may be reasonably required by the Issuer, the Lender, the Lender's counsel or Bond Counsel.

Section 7. Delivery of and Payment for the Bonds; Loan by the Issuer; Use of Proceeds; Repayment of the Loan.

(a) (i) Subject to the terms and conditions of this Agreement, the Issuer does hereby make available to the Borrower, and the Borrower does hereby accept from the Issuer, effective as of the Closing Date, the principal amount of the Bonds.

(ii) On the Closing Date, the Borrower agrees to apply the proceeds of the Bonds to refund the Prior Bonds and agrees to deposit, or cause to be deposited, with the Prior Trustee the amount necessary to pay the principal of and accrued interest on the outstanding Prior Bonds. The Borrower agrees to pay any additional principal on the Prior Bonds to the extent that the proceeds of the Bonds are insufficient to redeem the Prior Bonds in full on the Closing Date.

(b) The Borrower shall make all payments required under the Bonds, on behalf of the Issuer, as and when the same become due and shall promptly pay directly to the Lender all other amounts necessary to pay principal of and interest on the Bonds, including any other payments required by the Bonds, as and when the same become due (whether at maturity, by acceleration or otherwise). Payments shall be made as provided in the Bonds. Any amount at any time paid to the Lender as the payment of principal of or interest on the Bonds as the same become due shall be credited against the Borrower's obligation hereunder as of the date such obligation is due (but subject to collection of any instrument, draft, check or order for payment received by the Lender). If such amount should be sufficient to pay at the times required the principal of and interest on the Bonds then remaining unpaid (including amounts accrued as of such date and amounts that will accrue through final Payment of the Bonds), the Borrower shall not be obligated to make any further payments hereunder but only if the same constitutes Payment of the Bonds. Interest on the Bonds shall be payable on the dates as provided therein. Notwithstanding anything contained herein to the contrary, if any payment of principal of or interest on the Bonds is payable on a day that is not a Business Day, such payment shall be made on the next succeeding Business Day with the same force and effect as if made on the date such principal of or interest on the Bonds is due. The Bonds shall mature, and be due in full, on March 1, 2033.

(c) The Bonds shall be subject to mandatory tender by the Lender for purchase on the Mandatory Purchase Date. The Lender shall be required to tender the Bonds to the Borrower for purchase at a purchase price equal to 100% of the principal amount of the Bonds, plus accrued and

unpaid interest thereon up to but not including the Mandatory Purchase Date. In the event the Lender fails to tender the Bonds as provided above on or prior to the Mandatory Purchase Date, the Lender shall not be entitled to any payment (including any interest to accrue subsequent to the Mandatory Purchase Date) other than the purchase price for such untendered Bonds, and the untendered Bonds shall no longer be entitled to the benefits of this Agreement, except for the purpose of payment of the purchase price therefor.

(d) The Bonds shall bear interest as provided in the Bonds; provided, however, that in no event shall the rate of interest on the Bonds exceed at any time the Maximum Rate. Notwithstanding anything herein to the contrary, if at any time the interest rate applicable to the Bonds shall exceed the Maximum Rate, the rate of interest payable on the Bonds shall be limited to the Maximum Rate and, to the extent lawful, the interest that would have been payable on the Bonds but was not payable as a result of the operation of this sub-section shall be cumulated and the interest payable to the Lender on the Bonds shall be increased (but not above the Maximum Rate therefor) until such cumulated amount, together with interest thereon at the Federal Funds Rate (as defined in the Bonds) to the date of repayment, shall have been received by the Lender.

(e) All interest payable on the Bonds shall be computed as provided in the Bonds.

(f) The Borrower shall make reasonable arrangements satisfactory to the Issuer and the Lender for the payment of the Lender's reasonable expenses, including reasonable legal expenses, incurred in connection with any Determination of Taxability.

(g) The Lender shall, if requested by the Borrower, have an attorney-in-fact, qualified to practice before the Internal Revenue Service, designated by the Borrower for the purpose of appealing or challenging any Determination of Taxability; provided, however, the Borrower provides indemnity reasonably satisfactory to the Lender to indemnify the Lender against any additional tax liability, penalties or interest that may result from any such appeal. All reasonable legal fees, costs and expenses of such appeal shall be paid by the Borrower. In the event a final judgment or order shall have been entered within 180 days of the Determination of Taxability finding, as a final determination, that no Determination of Taxability has indeed occurred, the Lender shall reimburse to the Borrower all supplemental interest that has been paid on the Bonds, and no additional supplemental interest shall be payable unless and until a Determination of Taxability shall subsequently occur.

(h) (i) If any Change in Law shall:

(A) impose, modify or deem applicable any reserve, special deposit, liquidity ratio or similar requirement (including any compulsory loan requirement or insurance charge) against assets of, deposits with or for account of, or credit extended by, the Lender;

(B) impose on the Lender or the London interbank market any other condition (other than Indemnified Taxes or Excluded Taxes) affecting this Agreement; or

(C) subject the Lender to any Taxes on its loan to the Borrower under this Agreement, or its deposits, reserves, other liabilities or capital attributable thereto (other than (x) Indemnified Taxes, (y) Excluded Taxes and (z) Other Taxes);

and the result of any of the foregoing shall be to increase the cost to the Lender of making or maintaining such loan to the Borrower or to reduce the amount of any sum received or receivable by the Lender hereunder (whether of principal, interest or otherwise), then the Borrower will pay to the Lender such additional amount or amounts as will compensate the Lender for such additional costs incurred or reduction suffered.

(ii) If the Lender determines that any Change in Law regarding capital or liquidity requirements has or would have the effect of reducing the rate of return on the Lender's capital or on the capital of the Lender's holding company, if any, as a consequence of this Agreement or the loan made by the Lender hereunder to the Borrower to a level below that which the Lender or the Lender's holding company could have achieved but for such Change in Law (taking into consideration the Lender's policies and the policies of the Lender's holding company with respect to capital adequacy and liquidity), then from time to time the Borrower will pay to the Lender such additional amount or amounts as will compensate the Lender or the Lender's holding company for any such reduction suffered.

(iii) A certificate of the Lender setting forth the amount or amounts necessary to compensate the Lender or its holding company, as the case may be, as specified in paragraph (i) or (ii) of this subsection, and setting forth in reasonable detail the Change in Law and the calculations of such amount or amounts, shall be delivered to the Borrower and shall be conclusive absent manifest error. The Borrower shall pay the Lender the amount shown as due on any such certificate within 10 days after receipt thereof.

(iv) Failure or delay on the part of the Lender to demand compensation pursuant to this subsection shall not constitute a waiver of the Lender's right to demand such compensation; provided that the Borrower shall not be required to compensate the Lender pursuant to this subsection for any increased costs or reductions incurred more than six months prior to the date that the Lender notifies the Borrower of the Change in Law giving rise to such increased costs or reductions and of the Lender's intention to claim compensation therefor; provided further that, if the Change in Law giving rise to such increased costs or reductions is retroactive, then the six-month period referred to above shall be extended to include the period of retroactive effect thereof.

(i) (i) Any and all payments by or on account of any obligation of the Borrower hereunder to the Lender shall be made free and clear of and without deduction for any Taxes, except as required by applicable law; provided that if the Borrower shall be required to deduct any Tax, then (A) if such Tax is an Indemnified Tax or Other Tax, the sum payable shall be increased as necessary so that after making all required deductions have been made (including deductions applicable to additional sums payable under this subsection) the Lender receives an amount equal to the sum it would have received had no such deductions been made, (B) the Borrower shall make such deductions and (C) the Borrower shall pay the full amount deducted to the relevant Governmental Authority in accordance with applicable law.

(ii) The Borrower shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(iii) The Borrower shall indemnify the Lender, within 10 days after written demand therefor, for the full amount of any Indemnified Taxes or Other Taxes (including Indemnified Taxes or Other Taxes imposed or asserted on or attributable to amounts payable under this subsection) paid by the Lender and any penalties, interest and reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes or Other Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to the Borrower by the Lender shall be conclusive absent manifest error.

(iv) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by the Borrower to a Governmental Authority, the Borrower shall deliver to the Lender the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Lender.

(j) If the Lender requests compensation under subsection (h) above, or if the Borrower is required to pay any additional amount to the Lender or any Governmental Authority for account of the Lender pursuant to subsection (i) above, then the Lender shall use reasonable efforts to designate a different lending office for holding the Bonds hereunder or to assign its rights and obligations hereunder to another of its offices, branches or affiliates, if, in the judgment of the Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to subsections (h) or (i), as the case may be, in the future and (ii) would not subject the Lender to any unreimbursed cost or expense and would not otherwise be disadvantageous to the Lender. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by the Lender in connection with any such designation or assignment.

Section 8. Tax Covenants.

(a) Neither the Borrower nor the Issuer shall take any action, fail to take any action or make any use of the proceeds of the Bonds which would cause the interest on the Bonds to be included in the gross income of the Lender.

(b) Without limiting the generality of the foregoing, the Borrower and the Issuer represent and warrant that the Tax Certificate and the Non-Arbitrage Certificate are true, complete and correct and agree to comply with the provisions thereof, which are hereby incorporated herein.

(c) The Borrower shall comply in all material respects with Section 46-307 under Article VII of Chapter 46 of the Escambia County Code.

Section 9. Affirmative and Negative Covenants.

(a) The Borrower shall deliver to the Lender such information (or a copy thereof) as is required to be delivered by the Borrower to the Administrative Agent under Sections 6.01 and 6.02 of the Reference Revolver. Information required to be delivered pursuant to this subsection (other than the certificate described in the next to last paragraph of Section 6.01 of the Reference

Revolver) shall be deemed to have been delivered in accordance with this subsection on the date on which such information has been posted (i) on the Borrower's website on the internet, (ii) at www.sec.gov or (iii) at another website identified by the Borrower in a notice to the Lender and accessible by the Lender without charge.

(b) Sections 6.03, 6.04, 6.06, 6.07, 6.08 and 6.09 of the Reference Revolver as well as related defined terms contained therein (collectively, the "Incorporated Covenants"), are hereby incorporated herein by reference for the benefit of the Lender with the same effect as if the same were set forth herein in their entirety and were made as of the date hereof, and the Borrower covenants that during the term of this Agreement it will comply with the Incorporated Covenants. Any amendment of the Incorporated Covenants or the addition of any new covenants or more restrictive covenants in the Reference Revolver (or any Replacement Revolver, as applicable) subsequent to the Closing Date shall be automatically incorporated herein.

(c) Any reference in this Agreement to the requirements of the "Reference Revolver" is a reference to the requirements of the Reference Revolver (or, as applicable, the Replacement Revolver) in effect at the relevant time. If the Reference Revolver is terminated, unless a Replacement Revolver is entered into substantially contemporaneously in replacement of the Reference Revolver, for the purposes of this Agreement, the Reference Revolver (or most recent Replacement Revolver, as applicable) shall be deemed to remain outstanding in the form in which it existed immediately prior to its termination, without giving effect to any consents, waiver, amendments or other modifications made in anticipation of such termination. The principles of this clause (c) shall be applicable to each Replacement Revolver as though it was the original Reference Revolver.

(d) The Borrower will promptly give to the Lender notice and a copy of each Replacement Revolver from time to time in effect and each amendment to or modification or supplement of, or termination of, the Reference Revolver at the time in effect.

Section 10. Events of Default.

Each of the following events is hereby declared an Event of Default hereunder:

(a) (i) Failure by the Borrower to make any principal payment on the Bonds when due and payable, or (ii) failure by the Borrower to make any interest payment on the Bonds within five Business Days of when due and payable;

(b) Failure by the Borrower to observe and perform any covenant, condition or agreement on its part to be observed or performed hereunder, other than as referred to in the foregoing subsection (a), for a period of thirty (30) days after written notice, specifying such failure, requesting that it be remedied and stating that it is a notice of default, has been given to the Borrower (with a copy to the Issuer) by the Lender;

(c) Any representation, warranty or certification made by the Borrower herein, or any certificate furnished by the Borrower to the Lender pursuant to the provisions hereof, shall prove to have been false or misleading in any material respect as of the time made or furnished; or

(d) Any Event of Default under the Reference Revolver.

Section 11. Remedies of the Lender; Expenses.

Upon the occurrence and continuation of an Event of Default other than one referred to in clause (f) or (g) of the Existing 5-Year Credit Agreement, the Lender may (a) by written notice to the Borrower (with a copy to the Issuer), declare to be immediately due and payable an amount equal to the then unpaid principal of the Bonds, plus interest accrued on the Bonds to the date of such declaration, whereupon the same shall become immediately due and payable; and (b) exercise any remedy otherwise permitted by law or in equity. Upon the occurrence and continuation of an Event of Default referred to in clause (f) or (g) of the Existing 5-Year Credit Agreement, an amount equal to the then unpaid principal of the Bonds plus interest accrued on the Bonds shall automatically become immediately due and payable without presentment, demand, protest or other formalities of any kind, all of which are hereby expressly waived by the Borrower. All remedies of the Lender provided for herein are cumulative. The exercise of any right or remedy by the Lender hereunder shall not in any way constitute a cure or waiver of default hereunder, or invalidate any act done pursuant to any notice of default, or prejudice the Lender in the exercise of any of its rights hereunder. Whether or not the Lender elects to employ any or all remedies available to it upon an Event of Default, the Lender shall not be liable for payment of, and the Borrower shall pay, any expense incurred in connection with the exercise of any remedy available to the Lender or for the performance or nonperformance of any other obligation of the Borrower. Without limiting the foregoing, the Borrower will pay all fees, costs and expenses of the Lender and the Issuer, including reasonable legal fees and expenses, incurred in connection with an Event of Default or any exercise of remedies under this Agreement, which shall include fees, costs and expenses incurred in connection with discussions, negotiations, workouts, amendments, modifications or other actions related to an anticipated, potential or past Event of Default, regardless of whether such Event of Default actually occurs or continues to exist.

Section 12. Limitation of the Issuer's Liability.

No covenant, agreement or obligation contained herein shall be deemed to be a covenant, agreement or obligation of any present or future official, officer, employee or agent of the Issuer in his individual capacity, and neither the officials of the Issuer nor any officer thereof executing the Bonds shall be liable personally on the Bonds or be subject to any personal liability or accountability by reason of the issuance thereof. No official, officer, employee or agent of the Issuer shall incur any personal liability with respect to any other action taken by him or her pursuant to this Agreement, provided such official, officer, employee or agent acts in good faith.

In the exercise of the powers of the Issuer and its officers under this Agreement, the Issuer shall not be accountable to the Borrower for any action taken or omitted by it or its officers in good faith and believed by it or them to be authorized or within their discretion or rights or powers conferred on them. The Issuer and its officers shall be protected in its or their acting upon any paper or document believed by it or them to be genuine, and it and they may conclusively rely upon the advice of counsel and may (but need not) require further evidence of any fact or matter before taking any action.

No recourse shall be had for the payment of the principal of or interest on any of the Bonds or for any claim based thereon or upon any obligation, provision, covenant or agreement contained in this Agreement or the Bonds, against any past, present or future officer, official, employee or

agent of the Issuer, or any officer, official, employee or agent of any successor to the Issuer, as such, either directly or through the Issuer or any successor to the Issuer, under any rule of law or equity, statute or constitution or by the enforcement of any assessment or penalty or otherwise, and all such liability of any such officer, official, employee or agent as such is hereby expressly waived and released as a condition of and in consideration for the execution of this Agreement and the issuance of the Bonds.

THE BONDS SHALL NOT CONSTITUTE AN INDEBTEDNESS, LIABILITY OR GENERAL OR MORAL OBLIGATION, OR A PLEDGE OF THE FAITH, CREDIT OR TAXING POWER OF THE ISSUER OR THE STATE OR ANY POLITICAL SUBDIVISION THEREOF, WITHIN THE MEANING OF ANY CHARTER OR CONSTITUTIONAL OR STATUTORY PROVISIONS OR LIMITATIONS. THE PRINCIPAL OF AND PREMIUM, IF ANY, AND INTEREST ON THE BONDS AND ALL PAYMENTS REQUIRED UNDER THIS AGREEMENT SHALL BE PAYABLE SOLELY FROM THE PROCEEDS DERIVED BY THE ISSUER UNDER THIS AGREEMENT, AND NEITHER THE ISSUER NOR THE STATE NOR ANY POLITICAL SUBDIVISION THEREOF SHALL EVER BE REQUIRED TO (I) LEVY AD VALOREM TAXES ON ANY PROPERTY WITHIN ITS TERRITORIAL LIMITS TO PAY THE PRINCIPAL OF AND PREMIUM, IF ANY, AND INTEREST ON THE BONDS OR TO MAKE ANY OTHER PAYMENTS PROVIDED FOR UNDER THIS AGREEMENT OR (II) PAY THE SAME FROM ANY FUNDS OF THE ISSUER OTHER THAN THOSE DERIVED BY THE ISSUER UNDER THIS AGREEMENT, AND THE BONDS SHALL NOT CONSTITUTE A LIEN UPON ANY PROPERTY OWNED BY OR SITUATED WITHIN THE TERRITORIAL LIMITS OF THE ISSUER.

Section 13. Indemnification by the Borrower.

The Borrower agrees that it will indemnify and hold harmless the Lender and the Issuer and their Related Parties (each such Person being called an "Indemnitee") against any and all losses, costs, damages, expenses and liabilities (collectively, the "Losses"), including, but not limited to, reasonable attorneys' fees and expenses, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments directly or indirectly resulting from one or more Claims (as defined herein). The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings brought against any Indemnitee or to which any Indemnitee is a party, specifically relating to the Bonds, the Project or this Agreement, provided that the term "Claim" shall not include, and the indemnification herein shall not extend to, as to any Indemnitee, Losses that are determined by a court of competent jurisdiction by final and nonappealable judgment to have arisen in whole or in part (in which case this exclusion shall apply on a proportionate basis) from the gross negligence, bad faith or willful misconduct of such Indemnitee or the failure by such Indemnitee to observe and perform its duties without gross negligence, bad faith or willful misconduct as determined by a court of competent jurisdiction by final and nonappealable judgment. The obligations of the Borrower under this Section shall apply to all Losses or Claims, or both, that result from any event, occurrence, condition or relationship prior to termination of this Agreement, whether such Losses or Claims, or both, are asserted prior to termination of this Agreement or thereafter. Each Indemnitee, as appropriate, shall reimburse the Borrower for payments made by the Borrower pursuant to this Section to the extent of any proceeds, net of all expenses of collection, actually received by it from any insurance with respect to the Loss sustained. Each Indemnitee shall have the duty to claim any such insurance proceeds

and each Indemnitee, as appropriate, shall assign its respective rights to such proceeds, to the extent of such required reimbursement to the Borrower. In case any action shall be brought against any Indemnitee or to the actual knowledge of any Indemnitee threatened against it in respect of which indemnity may be sought against the Borrower, such Indemnitee shall promptly notify the Borrower in writing (provided that a failure to notify the Borrower in writing shall not excuse the Borrower from its obligations hereunder, unless such failure (a) resulted from the gross negligence, bad faith or willful misconduct of the applicable Indemnitee as determined by a court of competent jurisdiction by final and nonappealable judgment or (b) would preclude the Borrower from availing itself of defenses, protections or other remedies) and, with respect to the Lender or its officers or employees, the Borrower shall have the right to assume, and, with respect to the Issuer or its officers or employees, the Borrower shall assume, the investigation and defense thereof including the employment of counsel and the payment of all expenses. Subject to attorney-client privilege restrictions, the Borrower shall inform any applicable Indemnitee of the status of any action that the Borrower has assumed the defense of pursuant to this section. Each Indemnitee has the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by such Indemnitee unless the employment of such counsel has been authorized by the Borrower. The Borrower shall not be liable for any settlement of any such action without its consent, which consent shall not be unreasonably withheld, but, if any such action is settled with the consent of the Borrower or if there be final judgment for the plaintiff in any such action, the Borrower agrees to indemnify and hold harmless each Indemnitee from and against any Loss by reason of such settlement or judgment.

The duty of the Borrower to defend each Indemnitee under this Section 13 shall commence from the time the Claim is known of as provided herein, and such duty shall exist and continue regardless of the merits of the Claim, except with respect to Claims that are determined by a court of competent jurisdiction by final and nonappealable judgment to have arisen in whole or in part (in which case this exclusion shall apply on a proportionate basis) from the gross negligence, bad faith or willful misconduct of such Indemnitee or the failure by such Indemnitee to observe and perform its duties without gross negligence, bad faith or willful misconduct as determined by a court of competent jurisdiction by final and nonappealable judgment.

It is the intention of the parties hereto that the Issuer and its Related Parties shall not incur pecuniary liability or expense (specifically including, but not limited to, expenses incurred in defending any Claim) by reason of, arising out of or relating to the Bonds, this Agreement or the Project.

Section 14. Registration and Transfer of the Bonds.

The Bonds shall be issued in registered form without coupons, payable to the registered owner or registered assigns. The Bonds will not be assigned a separate rating by any rating agency, registered with the Depository Trust Company or other securities depository, or assigned a CUSIP number. The Lender, as agent of the Issuer, shall keep books for the registration of transfer of the Bonds as the Bond Registrar. The Bonds may be transferred in whole, or in part in Authorized Denominations, only to Permitted Transferees that purchase commercial promissory notes or other municipal securities in the ordinary course of business; provided, however, that the Lender may not transfer 50% or more of the outstanding principal amount of the Bonds to one or more

Permitted Transferees without the prior written consent of the Borrower (which consent shall not be unreasonably withheld, conditioned or delayed). The transfer of the Bonds may be registered only upon an assignment executed by the registered owner in such form as shall be satisfactory to the Borrower, the Lender and such registered owner, such registration to be made on the registration books and endorsed on the Bonds by the Lender. The person in whose name the Bonds shall be registered shall be deemed and regarded as the absolute owner thereof for all purposes, and payment of the principal of and interest on the Bonds shall be made only to or upon the order of the registered owner thereof or its, his or her legal representative or administrative agent.

Section 15. Option To Prepay.

The principal of and interest on the Bonds may be prepaid by the Borrower in whole or in part in Authorized Denominations at any time without premium or penalty. Whenever the Bonds are subject to prepayment, the Borrower may prepay its obligations under this Agreement, in whole or in part in Authorized Denominations at any time, upon fifteen (15) days' prior written notice to the Lender by paying to the Lender the principal amount to be prepaid and accrued interest to the prepayment date, and by making arrangements satisfactory to the Issuer and the Lender for payment of their respective reasonable fees and expenses (including, but not limited to, reasonable fees and expenses of counsel), if any. Any such prepayment of the Bonds shall without more be deemed a prepayment of the Borrower's obligations hereunder in the same amount.

In the case of any liabilities, losses or expenses (including, without limitation, loss of margin, any loss or expense sustained or incurred in liquidating or employing deposits from third parties, and any loss or expense incurred in connection with funds acquired to purchase or hold the Bonds) which the Lender sustains or incurs as a consequence of the Borrower's prepayment (whether voluntary, after acceleration or otherwise) of the Bonds on a date other than an Interest Payment Date (collectively, the "Breakage Expenses"), the Borrower shall pay to the Lender a prepayment premium in such amount as will reimburse the Lender for such Breakage Expenses. A notice as to any amounts payable pursuant to this paragraph given to the Borrower by the Lender shall, in the absence of manifest error, be conclusive and shall be payable upon demand. The Borrower's payment obligations hereunder shall survive the payment in full of the Bonds and all other amounts payable hereunder.

Section 16. Participations.

The Issuer and the Borrower agree that the Lender may from time to time enter into a participation agreement or agreements with one or more persons (the "Participants"), pursuant to which the Participants shall be given participations in the Bonds, provided that (a) no participation shall increase any liability of the Borrower or the Issuer, and the Borrower and the Issuer shall not have any direct obligation to a Participant, and (b) the Lender shall at all times retain sufficient participation in the Bonds to be able to grant consents and provide waivers without the consent of any other Participant. The Lender may divulge to any Participant all information, reports, financial statements, certificates and documents obtained by it from the Borrower or any other person under any provision of this Agreement.

Section 17. Benefit of Agreement.

The Borrower intends that the representations, warranties and covenants made by the Borrower in this Agreement shall be for the equal benefit of the Issuer and the Lender hereunder.

Section 18. Notices.

All demands, notices, approvals, consents, requests and other communications hereunder and under the other Bond Documents shall be in writing and shall be deemed to have been given when transmitted by telecopy or facsimile transmission, sent using electronic mail, delivered in person or by overnight courier or mailed by first class registered or certified mail, postage prepaid, addressed as follows:

Section 19. Waiver of Jury Trial; Jurisdiction and Venue.

(a) TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, EACH OF THE PARTIES HERETO IRREVOCABLY WAIVES ANY RIGHT IT MAY HAVE TO A JURY TRIAL OF ANY MATTERS OR CLAIMS ARISING OUT OF THIS AGREEMENT OR OUT OF THE CONDUCT OF THE RELATIONSHIP BETWEEN THE PARTIES. THIS PROVISION IS A MATERIAL INDUCEMENT FOR THE LENDER TO MAKE THE EXTENSION OF CREDIT FOR THE BENEFIT OF THE ISSUER AND THE BORROWER. FURTHER, EACH OF THE ISSUER AND THE BORROWER HEREBY CERTIFIES THAT NO REPRESENTATIVE OR AGENT OF THE LENDER OR THE LENDER'S COUNSEL HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT THE LENDER WOULD NOT SEEK TO ENFORCE THIS WAIVER OF RIGHT TO JURY TRIAL PROVISION IN THE EVENT OF LITIGATION. NO REPRESENTATIVE OR AGENT OF THE LENDER OR THE LENDER'S COUNSEL HAS THE AUTHORITY TO WAIVE, CONDITION OR MODIFY THIS PROVISION.

(b) EACH OF THE ISSUER (TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW) AND THE BORROWER HEREBY IRREVOCABLY (I) AGREES THAT ANY SUIT, ACTION OR OTHER LEGAL PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT (A) MAY BE BROUGHT AGAINST THE BORROWER IN THE SUPREME COURT OF THE STATE OF NEW YORK SITTING IN NEW YORK COUNTY AND THE UNITED STATES DISTRICT COURT OF THE SOUTHERN DISTRICT OF NEW YORK AND (B) SHALL BE BROUGHT AGAINST THE ISSUER IN THE CIRCUIT COURT OF ESCAMBIA COUNTY, FLORIDA OR THE UNITED STATES DISTRICT COURT OF

THE NORTHERN DISTRICT OF FLORIDA, AND ANY APPELLATE COURT FROM ANY THEREOF, AND CONSENTS TO THE JURISDICTION OF SUCH COURTS IN ANY SUCH SUIT, ACTION OR PROCEEDING AND (II) WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY OBJECTION WHICH IT MAY HAVE TO THE LAYING OF VENUE OF ANY SUCH SUIT, ACTION OR PROCEEDING IN ANY SUCH COURTS AND ANY CLAIM THAT ANY SUCH SUIT, ACTION OR PROCEEDING HAS BEEN BROUGHT IN AN INCONVENIENT FORUM. Escambia County, Florida, a political subdivision of the State of Florida (the "Issuer"), for value received, hereby promises to pay, or cause to be paid, solely from the source and as hereinafter provided, to the registered owner named above (the "Lender"), at such place as the holder of this Bond may in writing designate, in lawful money of the United States of America, the principal sum specified above, together with interest hereon from the dated date set forth above, and thereafter from the Interest Payment Date (as defined herein) on which interest has been paid or duly provided for, until payment hereof in full on or before the maturity date specified above, and, to the extent permitted by law, interest on any overdue installments of such interest at the interest rate provided herein.

THIS BOND SHALL NOT CONSTITUTE AN INDEBTEDNESS, LIABILITY OR GENERAL OR MORAL OBLIGATION, OR A PLEDGE OF THE FAITH, CREDIT OR TAXING POWER OF THE ISSUER OR THE STATE OR ANY POLITICAL SUBDIVISION THEREOF, WITHIN THE MEANING OF ANY CHARTER OR CONSTITUTIONAL OR STATUTORY PROVISIONS OR LIMITATIONS. THE PRINCIPAL OF AND PREMIUM, IF ANY, AND INTEREST ON THIS BOND AND ALL PAYMENTS REQUIRED UNDER THE AGREEMENT (AS DEFINED HEREIN) SHALL BE PAYABLE SOLELY FROM THE PROCEEDS DERIVED BY THE ISSUER UNDER THE AGREEMENT, AND NEITHER THE ISSUER NOR THE STATE NOR ANY POLITICAL SUBDIVISION THEREOF SHALL EVER BE REQUIRED TO (I) LEVY AD VALOREM TAXES ON ANY PROPERTY WITHIN ITS TERRITORIAL LIMITS TO PAY THE PRINCIPAL OF AND PREMIUM, IF ANY, AND

INTEREST ON THIS BOND OR TO MAKE ANY OTHER PAYMENTS PROVIDED FOR UNDER THE AGREEMENT OR (II) PAY THE SAME FROM ANY FUNDS OF THE ISSUER OTHER THAN THOSE DERIVED BY THE ISSUER UNDER THE AGREEMENT, AND THIS BOND SHALL NOT CONSTITUTE A LIEN UPON ANY PROPERTY OWNED BY OR SITUATED WITHIN THE TERRITORIAL LIMITS OF THE ISSUER.

This Bond is authorized and issued pursuant to the provisions of the Florida Industrial Development Financing Act, being Part II of Chapter 159, Florida Statutes, as amended (the "Act"), for the purpose of refunding the Issuer's Environmental Improvement Revenue Bonds, 2009 Series A (International Paper Company Project), currently outstanding in the aggregate principal amount of $8,000,000. Reference is hereby made to the Financing Agreement, dated as of April 1, 2019 (the "Agreement"), by and among the Issuer, the Lender and International Paper Company, a New York corporation (the "Borrower"), and all amendments and supplements thereto, for a description of the provisions with respect to the nature and extent of the security for this Bond, the rights, duties and obligations of the Issuer and the rights of the Lender with respect thereto. All capitalized terms used herein but not defined shall have the meanings in the Agreement.

Interest on this Bond shall be payable on the first Business Day of each month, commencing May 1, 2019 (each an "Interest Payment Date"). This Bond shall be subject to mandatory tender by the Lender for purchase on the Mandatory Purchase Date, in accordance with the terms of the Agreement.

This Bond shall bear interest at the Adjusted LIBOR Rate (which shall be determined by the Lender as provided therefor and shall become effective on each LIBOR Adjustment Date and shall remain in effect until the next succeeding LIBOR Adjustment Date), except as follows:

(a) If the Lender shall determine (which determination shall be final and conclusive) that, by reason of circumstances affecting the eurodollar market generally, deposits in dollars (in the applicable amounts) are not being offered to banks in the eurodollar market for the selected term, or adequate means do not exist for ascertaining LIBOR, then the Lender shall notify the Borrower in writing. Thereafter, until the Lender notifies the Borrower that the circumstances giving rise to such suspension no longer exist, (a) the availability of the Adjusted LIBOR Rate shall be suspended, and (b) the interest rate on this Bond shall be converted on the next LIBOR Adjustment Date to the Alternate Rate;

(b) If the Lender shall determine (which determination shall be final and conclusive) that any enactment, promulgation or adoption of or any change in any applicable law, rule or regulation, or any change in the interpretation or administration thereof by a governmental authority, central bank or comparable agency charged with the interpretation or administration thereof, or compliance by the Lender with any guideline, request or directive (whether or not having the force of law) of any such authority, central bank or comparable agency shall make it unlawful or impossible for the Lender to maintain loans based on LIBOR, the Lender shall notify the Borrower in writing. Upon receipt of such written notice, until the Lender notifies the Borrower that the circumstances giving rise to such determination no longer apply, (a) the availability of the Adjusted LIBOR Rate shall be suspended, and (b) the interest rate on this Bond shall be converted to the Alternate

Rate either (i) on the next LIBOR Adjustment Date if the Lender may lawfully continue to hold this Bond bearing interest based on LIBOR to such day, or (ii) immediately if the Lender may not lawfully continue to hold this Bond bearing interest based on LIBOR;

(c) If a Determination of Taxability shall have occurred, this Bond shall bear interest at the Taxable Rate as provided below; or

(d) If an Event of Default shall have occurred and be continuing under the Agreement, this Bond shall bear interest at the Default Rate.

All interest payable on this Bond shall be computed on the basis of the actual number of days elapsed over a year of 360 days if calculated on the basis of LIBOR and on the basis of the actual number of days elapsed over a year of 365 or 366 days if calculated on the basis of the Alternate Rate. The interest rate on this Bond shall not in any event exceed at any time the Maximum Rate. Notwithstanding anything herein to the contrary, if at any time the interest rate applicable to this Bond shall exceed the Maximum Rate, the rate of interest payable on this Bond shall be limited to the Maximum Rate and, to the extent lawful, the interest that would have been payable on this Bond but was not payable as a result of the operation of this paragraph shall be cumulated and the interest payable to the Lender on this Bond shall be increased (but not above the Maximum Rate therefor) until such cumulated amount, together with interest thereon at the Federal Funds Open Rate to the date of repayment, shall have been received by the Lender.

Upon the occurrence of a Determination of Taxability, the Borrower shall pay to the Lender on the next Interest Payment Date additional interest on this Bond in an amount by which (i) the interest which would have accrued on this Bond at the Taxable Rate during the period beginning on the Taxable Date and ending on the earlier to occur of the date of conversion to the Taxable Rate or the date of payment in full and retirement of this Bond, exceeds (ii) the interest actually paid on this Bond for such period. Thereafter, interest on this Bond shall accrue at the Taxable Rate.

"Adjusted LIBOR Rate" shall mean a rate of interest per annum equal to (rounded upward to the next whole multiple of 1/100 of 1%) the product of (a) the sum of (i) LIBOR plus (ii) 1.25%, multiplied by 80% and (b) the Margin Rate Factor. The Adjusted LIBOR Rate shall be adjusted (a) on each LIBOR Adjustment Date and (b) for any change in the LIBOR Reserve Percentage so that the Lender shall receive the same yield.

"Alternate Rate" shall mean a rate of interest per annum equal to (rounded upward to the next whole multiple of 1/100 of 1%) the product of (a) 80% multiplied by (b) the sum of the Base Rate plus 0.50%.

"Base Rate" shall mean the greater of (a) the Prime Rate and (b) the sum of the Federal Funds Rate plus fifty (50) basis points (0.50%).

"Default Rate" shall mean the Prime Rate plus 2%.

"Determination of Taxability" shall mean a determination that the interest on this Bond is includable in the gross income of the Lender for Federal income tax purposes, which determination

shall be deemed to have been made on the date on which the Borrower is advised in writing that a final determination, from which no further right of appeal exists, has been made by a court of competent jurisdiction in the United States of America or by the Internal Revenue Service, in a proceeding with respect to which the Borrower has been given written notice and an opportunity to participate and defend, that the interest on this Bond is includable in the gross income of the Lender for Federal income tax purposes; provided, however, that no Determination of Taxability shall be deemed to have occurred unless the Borrower has been afforded the opportunity, at its own expense, to contest any such conclusion or assessment, and no Determination of Taxability shall be deemed to have occurred until such contest, if made, has been finally determined. The Borrower shall be deemed to have been afforded the opportunity to contest if it shall have been permitted to commence and maintain any action in the name of the Lender to judgment and through any appeals therefrom or other proceedings related thereto.

"Federal Funds Rate" shall mean, for any day, the rate per annum (rounded upward, if necessary, to the nearest 1/100th of 1%) equal to the weighted average of the rates on overnight Federal funds transactions with members of the Federal Reserve System arranged by Federal funds brokers on such day, as published by the Federal Reserve Bank of New York on the Business Day next succeeding such day, provided that (i) if such day is not a Business Day, the Federal Funds Rate for such day shall be such rate on such transactions on the preceding Business Day as so published on the next succeeding Business Day, and (ii) if no such rate is so published on such next succeeding Business Day, the Federal Funds Rate for such day shall be the average rate quoted to the Lender on such day on such transactions as determined by the Lender. Each determination of the Federal Funds Rate by the Lender shall be conclusive and binding on the Issuer and the Borrower except in the case of manifest error.

"LIBOR" shall mean the interest rate per annum determined by the Lender by dividing (the resulting quotient rounded upwards, at the Lender's discretion, to the nearest 1/100th of 1%) (a) the rate of interest determined by the Lender in accordance with its usual procedures (which determination shall be conclusive absent manifest error) to be the eurodollar rate two (2) Business Days prior to an applicable LIBOR Adjustment Date for an amount comparable to the outstanding principal amount of this Bond and having a borrowing date and a maturity comparable to one-month by (ii) a number equal to 1.00 minus the LIBOR Reserve Percentage; provided, however, if LIBOR, determined as provided above, would be less than zero, then LIBOR shall be deemed to be zero.

"LIBOR Adjustment Date" shall mean (a) the Closing Date, (b) the first Business Day of each calendar month and (c) the effective date of any change in the LIBOR Reserve Percentage.

"LIBOR Reserve Percentage" shall mean the maximum effective percentage in effect on such day as prescribed by the Board of Governors of the Federal Reserve System (or any successor) for determining the reserve requirements (including, without limitation, supplemental, marginal and emergency reserve requirements) with respect to eurocurrency funding (currently referred to as "Eurocurrency liabilities").

"Margin Rate Factor" means (rounded upward, if necessary, to the nearest 1/100th of 1%) one minus the Maximum Federal Corporate Tax Rate multiplied by 1.265823. The effective date

of any change in the Margin Rate Factor shall be the effective date of the increase or decrease (as applicable) in the Maximum Federal Corporate Tax Rate resulting in such change.

"Maximum Federal Corporate Tax Rate" shall mean the maximum rate of income taxation imposed on corporations pursuant to Section 11(b) of the Code, as in effect from time to time (or, if as a result of a change in the Code, the rate of income taxation imposed on corporations generally shall not be applicable to the Lender, the maximum statutory rate of federal income taxation which could apply to the Lender).

"Maximum Rate" shall mean twelve percent (12%) per annum.

"Prime Rate" shall mean the rate publicly announced by the Lender from time to time as its prime rate. The Prime Rate is determined from time to time by the Lender as a means of pricing some loans to its borrowers. The Prime Rate is not tied to any external rate of interest or index, and does not necessarily reflect the lowest rate of interest actually charged by the Lender to any particular class or category of customers.

"Taxable Date" shall mean the date on which interest on this Bond is first includable in gross income of the Lender as a result of a Determination of Taxability.

"Taxable Rate" shall mean a rate of interest per annum equal to (rounded upward to the next whole multiple of 1/100 of 1%) the sum of (a) LIBOR, plus (b) 1.25%. The Taxable Rate shall be adjusted (a) on each LIBOR Adjustment Date and (b) for any change in the LIBOR Reserve Percentage so that the Lender shall receive the same yield.

If any payment of principal of or interest on this Bond is payable on a day that is not a Business Day, such payment shall be made on the next succeeding Business Day.

Subject to the terms of the Agreement, this Bond may be prepaid by the Borrower, on behalf of the Issuer, in whole or in part at any time without premium or penalty upon fifteen (15) days' prior written notice to the Lender.

The Agreement provides that the Lender, at its option, may declare all amounts payable under this Bond to be immediately due and payable upon an Event of Default thereunder, and upon such declaration all amounts hereunder shall become immediately due and payable.

NEITHER THE ISSUER (OR ANY REPRESENTATIVE THEREOF) NOR ANY PERSON EXECUTING THIS BOND SHALL BE LIABLE PERSONALLY ON THIS BOND OR SUBJECT TO ANY PERSONAL LIABILITY OR ACCOUNTABILITY BY REASON OF THE ISSUANCE THEREOF.

This Bond is registered in the name of the holder hereof on the registration books kept by the Bond Registrar designated pursuant to the Agreement, which registration has been made in said registration books and endorsed hereon by the Bond Registrar, and no registration of transfer hereof shall be valid unless made on said registration books at the written request of the holder as provided in the Agreement.

All acts, conditions and things required to happen, exist or to be performed precedent to and in the issuance of this Bond have happened, exist and have been performed.

This Bond is issued with the intent that the laws of the State of Florida will govern its construction.

THIS BOND MAY BE TRANSFERRED IN WHOLE, OR IN PART IN AUTHORIZED DENOMINATIONS, ONLY IN ACCORDANCE WITH THE AGREEMENT AND MAY BE TRANSFERRED ONLY TO PERMITTED TRANSFEREES THAT PURCHASE BONDS, NOTES OR OTHER MUNICIPAL SECURITIES IN THE ORDINARY COURSE OF BUSINESS.

THIS FUNDING AGREEMENT is made and entered into this **7th** day of **March 2019,** by and between the ESCAMBIA COUNTY COMMUNITY REDEVELOPMENT AGENCY, (the "CRA"), 221 Palafox Place, Pensacola, Florida 32502 and **Thomas J. Clayton,** (the "Recipient"), owner of residential property located at **1 Greve Road,** Pensacola, Florida, **32507**.

WITNESSETH:

WHEREAS, the CRA has established the **Residential Rehab Grant Program** (the "Program") to provide grants to qualified property owners for projects within the boundaries of the County's designated Community Redevelopment Areas; and

WHEREAS, the Recipient has applied for a grant to fund the project described in **EXHIBIT I** of this Agreement (the "Project"); and

WHEREAS, the parties wish to define their rights and obligations with respect to the Project and the Program grant to be provided to the Recipient.

NOW, THEREFORE, in consideration of the mutual covenants contained in this Agreement, and other good and valuable consideration, the parties agree as follows:

1. Recitals: The above recitals are incorporated into this Agreement.

2. **Residential Rehab Grant Program:** The CRA awards to the Recipient a matching Grant in the total amount of **$4,365**, which, together with any matching funds provided by the Recipient, shall be expended solely for the construction and completion of the Project described in **EXHIBIT I**, which is hereby fully incorporated into this agreement.

3. In-Kind Match: The Recipient shall provide matching funds in the total amount of **$4,365**, which shall be comprised of a cash contribution of **$4,365**.

4. Project: The Project funded by the grant is defined in **EXHIBIT I.** The Recipient shall supervise the work performed and ensure proper maintenance of the Project. The CRA will not be responsible in any manner for the selection of a contractor. Work on the Project shall not commence until the Recipient receives written notification from the CRA that the Project may proceed.

5. Term: The work to be performed for the Project shall commence after the **7th** day of **March 2019**, and the Project shall be complete on or before the **7th** day of **June 2019**, (the "Termination Date"). In the event that the Project will not be completed by the Termination Date, the Recipient shall submit a written request for an extension to the CRA at least (30) days prior to the Termination Date. The CRA, in its sole discretion, may grant the extension. However, the CRA's agreement to grant an extension shall not constitute a waiver of any of the other terms or provisions of this Agreement.

6. Applicable Laws: The Recipient must comply with all applicable federal, state, and local laws, and shall, at his expense, secure and pay for all permits and be responsible for all other fees or charges associated with the performance of the Project or any other activities under this Agreement.

7. Indemnification: The Recipient shall indemnify, defend, and hold harmless the CRA, including its elected officials, Board members, agents and employees, from and against all claims, suits, actions, damages, losses, and expenses, including but not limited to attorney's fees and costs, arising out of or resulting from this Agreement, the Project, or any other activities under this Agreement.

8. Termination: The CRA shall have the right to terminate this Agreement for convenience or in the event of a breach of any of its terms and provisions. A breach shall include, but not be limited to, failure to meet the match requirements described in paragraph 3; failure to begin work and progress along the schedule in the time and manner specified in paragraph 5; failure to obtain approval of any Project modifications; or failure to obtain Project time extensions. If a Project is terminated, and the Project is located on public property or right-of-way, the CRA reserves the right to remove or require the Recipient to remove any or all portions of the Project or claim as its own and use it deems fit, any improvements or materials remaining on the Project site.

9. Notice of Termination: Upon the CRA's determination that the Recipient has breached any term or provision of the Agreement, the CRA shall provide the Recipient with written notice of the breach and the required corrective action. This Agreement shall terminate automatically if the Recipient fails to remedy the breach to the CRA's satisfaction within fifteen (15) days of the Recipient's receipt of the written notice.

10. Subsequent to Termination: The CRA shall provide the Recipient a certified letter confirming termination of the Agreement. Within thirty (30) days of receipt of the termination letter, the Recipient shall submit a cashier's check to the County for the total amount of grant funds disbursed under this Agreement.

11. Property Owner(s) as Independent Contractor: The parties agree that the Recipient is an independent contractor and is not employee or agent of the CRA.

12. Inspector: The Escambia County CRA, or other County officials as may be duly authorized by the CRA, reserves the right to place inspectors at the work site in order to ensure proper expenditure of the grant funds provided under this Agreement. The CRA does not assume any liability for the quality of work performed or injuries incurred during the performance of the Project. Further, the CRA shall not act in a supervisory capacity during the course of the Project.

13. Payment Process: At Project completion, the CRA will reimburse the Recipient for pre-approved eligible Project costs that are incurred during the course of the Project. The Recipient accepts sole responsibility for ensuring that all Project expenses are reviewed and approved by the CRA prior to Recipient authorizing delivery of the goods, services, or equipment. The Recipient shall provide the CRA with a minimum of three written price quotes for each item to be purchased. The CRA shall not be obligated to disburse Grant funds for any unauthorized goods, services, or equipment, and the liability for payment in such instances shall be the responsibility of the Recipient. The CRA shall not be obligated to disburse Grant funds until the Recipient submits vendor invoices, copy of signed permit, proof of payment, and other documentation as may be required by the CRA. Final determination regarding the acceptability of supporting documentation shall rest with the Clerk of the Circuit Court/Finance Division. The Recipient shall provide the CRA with the names and signatures of all persons designated by Recipient to purchase goods, services, and equipment for the Project and the CRA shall not be obligated to disburse Grant funds to persons not previously designated by the Recipient.

14. Maintenance of Records: The Recipient shall maintain written records and accounts documenting all expenditures related to the Project. The Recipient shall maintain all documents for a minimum period of three (3) years from the date of final completion of the Project, or until final resolution of matters involving any questioned costs, audit concerns, or related matters. The Recipient acknowledges that this Agreement and any related financial records, audits, reports, plans, correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. In the event that the Recipient fails to abide by the provisions of Chapter 119, Florida Statutes, the CRA may terminate this Agreement. In such case, the Recipient shall not be entitled to receive any further disbursement or benefit associated with this Agreement.

Recommendation Concerning Authorization of a Month-to-Month Continuation of the Agreement for Livestock Collection and Boarding Services - Tim Tolbert, Building Official/Department Director

That the Board authorize a month-to-month continuation of the current livestock and boarding Agreement, as permitted by the terms of the current Agreement between Escambia County and Josh Weekley.

The Animal Control Department is required to respond to calls regarding cruelly treated or stray livestock by collecting and boarding them in an approved and inspected facility. care and boarding until such time as enforcement or other action can be accomplished.

REBUILD NORTHWEST FLORIDA, INC.

THIS LEASE AGREEMENT is made and entered into this ____ day of _____, 2019 by and between Rebuild Northwest Florida, Inc., a Florida non-profit corporation ("Rebuild") and Escambia County, a political subdivision of the State of Florida ("County").

WITNESSETH:

WHEREAS, Escambia County (County) is the owner of real property (Property) located at 150 West Maxwell Street, Escambia County, Florida; and

WHEREAS, Rebuild Northwest Florida, Inc. (Rebuild) is a non-profit corporation that provides assistance to individuals in strengthening residential homes to mitigate the potential impact of hurricanes; and

WHEREAS, Rebuild has requested that the County lease the Property to Rebuild for use as office space for its hurricane mitigation program; and

WHEREAS, the Board of County Commissioners for Escambia County has determined that the Property is not needed for County purposes and that it is in the best interest of the County to lease the Property to Rebuild under the terms and conditions stated herein; and

NOW, THEREFORE, the reasons set forth herein and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, the parties agree as follows:

1. Recitals. The foregoing recitals are true and correct and incorporated herein by reference.

2. Property Leased. The County leases to Rebuild property located at 150 West Maxwell Street, Pensacola, Florida, more particularly described in the attached Exhibit A ("Property").

3. Term. The initial term of the Lease shall be for three (3) years, commencing on _____, 2019 (Effective Date). This Lease may be renewed by Rebuild for two additional two (2) year terms, provided that Rebuild shall deliver to the County written notice of its intent to renew at least thirty (30) days prior to the expiration of the current term.

4. Rent. Rebuild shall pay to the County as rent the sum of One Dollar ($1.00) per year.

5. Construction of Improvements. No new permanent improvements shall be constructed on the Property unless Rebuild first obtains written authorization from the County. Rebuild shall be responsible for obtaining all permits necessary for any construction or improvements. Upon termination or expiration of this Lease, any such improvements not removed by Rebuild may be disposed of by the County in any manner the County deems appropriate.

6. Maintenance and Utilities. Rebuild shall be responsible for routine maintenance of the Property and for ensuring that the Property is kept in a neat, safe, and orderly condition. The County will provide replacement air filters and light bulbs, exterior landscaping and grounds keeping. Rebuild shall be responsible for all utility service charges, including electricity, water, sewer, custodial services, pest control, security, telephone, internet, and cable television.

7. Repairs. The County shall repair the Property, including the structural elements, roof, doors, windows, electrical system, heating and air conditioning system, plumbing system, painting, carpet or other floor covering, fixtures, and paved elements. The cost of such repairs shall be the responsibility of the County except to the extent that the damage or condition necessitating the repair is the result of the negligent or willful misconduct of Rebuild, its officers, employees, agents, and invitees.

8. Inspection. Rebuild shall regularly inspect the Property and any improvements and promptly correct and/or notify the County, as appropriate, of any situation that would reasonably be perceived to represent a danger or hazard to persons or to the Property. Rebuild accepts the Property "as is" on the Effective Date of this Lease with no warranties regarding suitability of use.

9. Indemnification. Rebuild agrees to hold harmless, pay on behalf of, protect, defend, and indemnify the County, its officers, agents, and employees from and against any demand, claim, suit, loss, expense, or damage which may be asserted against any of them by reason of any alleged damage to property or injury to or death of any person arising out of or in any way related to the use or possession of the Property by Rebuild.

10. Insurance. Rebuild shall provide, at its own expense, insurance to cover any damage sustained by the leased premises or any improvements, whether occasioned by fire, windstorm, flood, or other hazard or casualty, or act of God. The insurance must cover the value of replacement costs for the building.

Certificates must be mailed to Michael Watts, Risk Manager, Post Office Box 1591, Pensacola, Florida 32597-1591. Certificates must reflect a thirty (30) day notice of cancellation and non-renewal clauses. Certificates of insurance will be satisfactory to the County with all succeeding coverages and carriers to be consecutive to prior coverages.

No provision of the Lease can be construed, or in any way is intended to be construed, as a waiver of Escambia County's sovereign immunity or any other limitation of liability of

Escambia County. Escambia County is self-insured for liabilities in excess of the amounts provided under Section 768.28, Florida Statutes.

Rebuild agrees not to violate, or knowingly or negligently permit or allow to be violated, any condition of any insurance policies required by the Lease. All insurance coverage of Rebuild must be primary to any insurance or self-insurance carried by Escambia County applicable to the Lease. The acceptance by Escambia County of any Certificate of Insurance does not constitute approval or agreement by Escambia County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the Lease.

11. Use of Premises. Rebuild shall use the Property solely as an administrative office for its hurricane mitigation program and for no other purpose.

12. Termination. Either party may terminate this Lease, for cause or convenience, by providing at least thirty (30) days written notice to the other party. Upon termination, Rebuild shall return the Property to the condition that existed on the Effective Date of the Lease.

[Funding Source: Fund 151, CRA Brownsville, Cost Center 370113, Object Code 56101]

BACKGROUND:

On August 18, 2011, the Board of County Commissioners approved and authorized to expend funds on acquisition of thirteen properties located in the Frontera Circle within the Brownsville Redevelopment Area in efforts to reduce blight and revitalize the community.

On September 6, 2018, the Board of County Commissioners approved to file an Application for Tax Deed on the property located at 3822 Frontera Circle which the County currently holds a tax certificate. Tax certificates are sold annually, through

In order to establish the background, context, and frame of reference for this Agreement and to generally express the objectives and intentions of the respective parties herein, the following statements, representations, and explanations shall be accepted as predicates for the undertakings and commitments included within the provisions which follow and may be relied upon by the parties as essential elements of the mutual considerations upon which this Agreement is based.

2.1 Under this Agreement, Escambia County will budget funds during Fiscal Year(s) 18-19 in the amount of Fifty-Five Thousand, Eight Hundred Seventy-Six Dollars ($55,876.00) for this Project.

2.2 The Board of County Commissioners has met the requirements of the Consultants' Competitive Negotiation Act, as contained in Section 287.055, Florida Statutes, as amended, and has selected the Consultant to perform the services hereunder.

2.3 Negotiations pertaining to the services to be performed by the Consultant were undertaken between Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiation.

ARTICLE 3
SCOPE OF WORK

The Consultant will provide certain professional consultant services for the tasks outlined in Escambia County's Request for Letters of Interest (RLI) in Specification No. PD 18-19.008, Design Services for Perdido Key Fire Station Concrete Drive Repairs, and as represented in the Consultant's Letter of Interest response to PD 18-19.008, subsequent interview, and proposal presentation. In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

(c) If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

3.4 The Consultant shall accomplish the design services required under this Agreement so as to permit the award of a contract at a price that does not exceed the estimated construction contract price as set forth in paragraph (b) below. When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is Four Hundred Thousand Dollars ($400,000.00).

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

ARTICLE 4
TIME FOR PERFORMANCE

4.1 The schedule for completion of the Consultant's services shall be in accordance with Exhibit "B," which is attached hereto and made a part hereof. Such schedule may be modified from time to time upon the mutual consent of the County and the Consultant.

The Consultant's schedule for the performance of its services shall include allowances for periods of time required for the County's review and for its approval of submissions by the Consultant. Time limits established by this schedule, which are hereby approved by the County, shall not be exceeded by the Consultant, except for reasonable cause.

4.3 Prior to beginning the performance of any basic services under this Agreement, the Consultant must receive in writing a Notice to Proceed from the Contract Administrator.

ARTICLE 5

5.1 COMPENSATION: The County agrees to pay the Consultant, as compensation for its services under Section 3.1 of this Agreement, an aggregate fee for certain project tasks pursuant to the fee schedule set forth in Exhibit "C," attached hereto and made a part hereof. At the completion of each task, the Consultant will be compensated by a lump sum amount, which has been negotiated for that task, unless otherwise mutually agreed to by the parties hereto. BACKGROUND:

January 24, 2019, the Board awarded a Lump Sum Contract to Baskerville-Donovan, Inc., per PD 17-18.061, Universal Access Plan for County Facilities and Parks Pensacola Beach and Perdido Key, in the amount of $300,000.

Project Universal Access is one of ten projects selected by the Board of County Commissioners for inclusion in the 2016-17 RESTORE Direct Component (Pot 1) Multi-Year Implementation Plan (MYIP). The intent of the project is to identify universal public access deficiencies on Pensacola Beach and Perdido Key, develop a universal access plan, and design priority projects identified in the plan. Deficiencies will be identified through a survey of existing County facilities, parks, and infrastructure. The evaluations and community stakeholder outreach targeting

disabled citizens will be utilized to rank and recommend priority projects in the universal access plan. Priority projects deemed feasible by the County and usable by community stakeholders will be designed to meet and exceed ADA Standards of Accessible Design, U.S. Access Board Recreational Guidelines, Florida Accessibility Code, and the Federal Highway Administration and Florida Department of Transportation Design Standards.

Requests for Letters of Interest, PD 17-18.061, Universal Access Plan for County Facilities and Parks Pensacola Beach and Perdido Key were publicly noticed on July 2, 2018 to sixty-seven firms. Responses were received from two firms on July 31, 2018. The Selection/Negotiation Committee ranked in the following order:

1. Baskerville-Donovan, Inc.
2. TOWNES + architects, P.A.

Actual Fees were negotiated with Baskerville-Donovan, Inc. as required by F.S. 287.055 on December 5, 2018 for an agreed upon amount of $300,000.

RESTORE Act - SPECIAL AWARD CONDITIONS

1. **Special Condition 1:** An ASAP Maximum Draw Limit of $337,394.56 is in place for this award. The ASAP Maximum Draw Limit allows Escambia County to draw funds from ASAP for budgeted direct costs and indirect costs up to 3% of the total Direct Component award funds received for administrative costs, as this term is defined in 31 CFR § 34.2. This ASAP Maximum Draw Limit restricts withdrawal of funds from ASAP for non-administrative facilities-related indirect costs. Escambia County may request removal of the maximum draw limit in writing and upon submitting documentation supporting its classification of indirect costs as either administrative costs or facilities costs, as they are described in 31 CFR § 34.2 and 2 CFR § 200.414. Escambia County is required to distinguish in its Federal Financial Report (SF-425) submissions the portion of its indirect costs it is claiming as administrative costs from its non-administrative, facilities-related costs.

B. DISCUSSION OF SPECIFIC ACTIVITY
IF APPLICABLE, PLEASE FOLLOW SPECIFIC DIRECTIONS FOR NON-FEDERAL SHARE OF ANOTHER FEDERALLY FUNDED ACTIVITY and ACTIVITIES APPROVED PRIOR TO JULY 6, 2012 IN THE DIRECT COMPONENT APPLICATION GUIDANCE.

1. Proposed Scope of Work

(a) Directions: Provide a detailed scope of work that fully describes the project or program for which funding is requested, including:

- Need, purpose, and objectives;
- How the project/program meets the identified primary activity designated in A1;
- Specific tasks, milestones and related timeframes (also captured in Milestones Report); and
- Description of all funding sources included on the SF-424.

Projects designed to protect or restore natural resources must be based on best available science. Include a description of the methods to be used to achieve the protection or restoration objective(s). (Also complete Question B.6.)

NEED: According to the latest U.S. Census data, there are 56.7 million people in the United States with a disability. The Center for Independent Living Disability Resource Center estimates 54,000 persons with disabilities reside in Escambia County, and 10.4% of Escambia County's population with a disability are under the age of 65. A lack of adequate disabled public access locations at boat ramps, parks, education trails, and Gulf of Mexico beaches exists in Escambia County. While all new improvements must meet the latest ADA Standards, many of the older public facilities and infrastructure do not meet the needs and desires of disabled persons today. There is a need to update and enhance public infrastructure before the county can effectively market Escambia County to disabled tourists.

PURPOSE: To develop a needs assessment outlining priorities and projects recommended by community stakeholders to enhance public access amenities for disabled persons which will be used to recommend future construction projects to effectively promote Escambia County as a disability friendly destination.

OBJECTIVE: Planning assistance that will lead to infrastructure benefiting the economy.

FUNDING SOURCES: This project will be completely funded by Direct Component funds.

SCOPE OF WORK:
Escambia County will plan and design the Universal Public Access Plan in accordance with the Direct Component under the RESTORE Act and in compliance with the RESTORE Act, Treasury regulations and all applicable rules and laws. The Universal Public Access Plan is a planning assistance activity that will evaluate public infrastructure, including facilities, in Escambia County for compliance with Americans with Disabilities Act (ADA) Standards to identify enhancement opportunities to meet the needs and desires of citizens with disabilities by upgrading existing infrastructure, including facilities.

An evaluation of public access locations will include public parks, trails, and boardwalks on Pensacola Beach, Perdido Key, and shoreline parks in Escambia County. Subsequently, a needs assessment will be produced resulting from the evaluation and input from stakeholders in the community. Citizens, specifically disabled citizens, will provide input to identify amenities and priorities to include in the needs assessment and future implementation by Escambia County and partner community organizations. The needs assessment will identify priorities where enhanced amenities can be included in existing public infrastructure and facilities to enable marketing Escambia County as a destination for disabled tourists to enhance the economy. Example amenities include multisensory educational kiosks, dune walkovers with observation decks, beach mat access to the Gulf of Mexico, chemical sensory standards, and restroom/parking facilities.

Development of the project consists of five tasks/milestones, as follows:

Timeline:

1.	Selection of Contractor	Feb. 2018 – July 2018
2.	Evaluation Plan	Aug. 2018 – Jan. 2019
3.	Public Stakeholder Meetings	Aug. 2018 – July 2020
4.	Draft Universal Access Master Plan	Feb. 2019 – July 2020
5.	Finalization of Master Plan and Associated Work	Aug. 2020 – Jan. 2021

Task 1. Selection of Contractor
This task will include solidifying a scope of work, releasing the request for qualifications (RFQ), selection of the contractor, and entering into a contract. 2 CFR 200 contract provisions will be included in all contract and subcontract agreements.

This task will take approximately six months.

Task 2. Evaluation Plan
This task will evaluate public access locations on Pensacola Beach, Perdido Key, and shoreline parks in unincorporated Escambia County for compliance and compatibility with the Americans with Disability Act 2010 Design Standards. The evaluation will:

a) Inventory Site Conditions
   The evaluation plan will establish baseline conditions of existing public access locations by inventorying current site conditions. The evaluation will inventory publicly owned property, enhancements, and equipment for:
   a. Obstructions- Obstacles and protruding elements in the path of travel.
   b. Signage- Non-identification of access routes and accessible facilities; illegible signs.
   c. Pathways- Inconvenient or dangerous interruptions in the path of travel.

d. Curb Ramps- Improperly designed transition or lack of transition between the curb and the street at pedestrian crossings.
e. Pedestrian Crossings- Uneven surface; lack of guide markers.
f. Parking- No allocation of parking space for the disabled.
g. Ramps- Inaccessible routes due to differences in level; steep and/or long ramps with no resting landings.
h. Restrooms- Insufficient space inside a restroom; poor design of fixtures and fittings.

b) Identify Deficiencies
The evaluation will qualify and quantify deficiencies as they relate to:

1) Compliance with the Americans with Disabilities Act 2010 Design Standards
   a. Are approaches/routes clear and accessible?
   b. Are parking areas and restroom facilities accessible?
   c. Are enhancement and equipment materials safe and accessible?
2) Public access considered usable by disabled community
   a. Are the needs of the disabled community being met?
   b. Are public access locations unusable by one or more of the five disabled groups due to a lack of access?
      i. Wheelchair users
      ii. People with limited walking abilities
      iii. The sightless
      iv. The partially sighted
      v. The hearing impaired

This task will take approximately six months.

Task 3. Public Stakeholder Meetings
Public stakeholder meetings will play an integral role to the project as it relates to the disabled community, residents, and visitors at large. Stakeholders include but are not limited to residents, tourism groups, disabled advocacy groups, businesses, and local agencies. A trained facilitator will guide the development of goals and objectives to assure stakeholders that concerns, constraints, and other opportunities are fully recognized and addressed. Once agreement is reached on the alternatives to be pursued, the design process can proceed. These meetings will be held through the duration of the project. The selected contractor will oversee three public meetings. It is expected that a meeting will be held during the evaluation process, conceptual design, and one other time. Escambia County staff will hold additional meetings as needed.
This task will take approximately 24 months over the duration of the project.

Task 4. Draft Universal Public Access Master Plan
The selected contractor will meet with Escambia County staff to coordinate the Master Plan. The design will be based on the evaluation findings (Task 2) and stakeholder input (Task 3). The Master Plan will identify ADA enhancement opportunities and design such enhancements at public access locations on Pensacola Beach, Perdido Key, and unincorporated Escambia County.

a) Goals: The Master Plan will be based on the following goals:
   1. Plan and design ADA compliant enhancements at existing public access locations
   2. Plan and design enhancements to meet the needs of the disabled community at existing public access locations

   Project goals will be achieved by developing a Master Plan that:

- Develops design and cost estimates for enhancements
- Prioritizes projects
- Develops an implementation plan
- Identifies funding sources
- Develops an implementation schedule based on funding availability
- Updates the Master Plan as required

b) Design: This subtask includes plan development. The contractor will produce 30, 60, and 100 percent plan specifications for review and approval by the County. Design will be based on the goals as outlined in Task 4 (a).

c) Project Prioritization: This subtask will prioritize identified projects for implementation. Prioritization will be based on public input, evaluation plan outcomes, and funding availability.

This task will take approximately 18 months.

Task 5. Finalization of Design Package and Associated Work
This task will include packaging the final design plans and associated work to have a completed Master Plan for Universal Public Access.

a) Contractor Deliverables: This sub-task includes the contractor producing the final design package to Escambia County to include 100% design plans and associated work referenced in the above tasks.

b) RESTORE Staff Deliverables: This sub-task includes the project manager producing the final documents including the Best Available Science Review, the Evaluation of Current Local Ordinances and Recommended Updates, and the Success Criteria.

c) Identify Funding Sources: This sub-task includes exploring potential funding sources for projects identified within the plan. ~~This may include grant writing to apply for leveraging grants~~ to fund the implementation of the projects within the finalized plan.

d) Grant Management: This sub-task includes the necessary steps to manage the grant award, such as reporting and closeout, with the U.S. Treasury and will be completed internally.

The selected contractors will meet with Escambia County staff regularly to ensure the project goals are being met. Additionally, the Escambia County RESTORE Program Manager will ensure the project continues to meet the RESTORE Act, U.S. Treasury, and 2CFR 200 rules, regulations, and policies. The Environmental Project Coordinator will be responsible for managing the project for Escambia County and sending progress reports to the U.S. Treasury and Escambia County Board of County Commissioners.

This task will take approximately six months.

(b) If the proposed project is part of a larger project outside the scope of this application, describe the larger project and the proposed project's relationship to it.

This project is planning and design of the Universal Public Access Plan. Future projects include implementation of projects identified within the plan. The 2016-17 MYIP outlines that only planning and design will be funded for this MYIP cycle.

2. Budget Justification (See OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards)
Directions: Explain in detail how the proposed budget supports the proposed scope of work. The budget justification should relate each budget category listed in the SF-424A and SF-424C to the specific tasks discussed in the response to B1. Provide specific justification for ALL budget categories that apply, including an explanation of the necessity, allowability, reasonableness, and allocability of proposed costs. Please refer to the relevant Funding Opportunity Announcement for descriptions of the budget categories.

It will include tasks such as site evaluations, ADA best management practices, regular coordination meetings, conceptual rendering, and drafting designs.

5. Public Input for this Proposed Activity
Directions: Describe how the applicant considered the meaningful public input from individuals, businesses, Indian tribes, and nonprofit organizations relating to this proposed project, including input received during the preparation of the Multiyear Plan.

Escambia County, in accordance with the RESTORE Act, solicited broad-based participation from individuals, businesses, Indian tribes, and non-profit organizations during a 45-day public comment period for the 2016-17 MYIP from June 5th to July 19th 2017. A total of 349 comments were received via telephone, in-person, email, mail, and through the County website at www.myescambia.com/restore. This website includes the 349 public comments and full report. A public Kickoff Meeting was widely advertised and held on June 5, 2017 at the Escambia County Central Office Complex. A summary of the public comments indicated no major concerns with the Universal Public Access Plan project and most were supportive or neutral.

Major Concerns and Responses: Public comments received relating to the Universal Public Access Plan were mostly supportive or neutral. There were concerns related to the master plan budget and spending limited funds to create a master plan without committing implementation funding. Investing in a review of current park conditions and potential future sites and development of a master plan will create shovel-ready projects that greatly enhance the County's ability to acquire and leverage funding. If proper planning is not done, then efficiency would be reduced, and the ability to incorporate public input and ideas would be greatly reduced or lost.

The Escambia County Board of County Commissioners has reviewed public comments and on September 7, 2017 authorized staff to submit the MYIP without modification to the U.S. Department of Treasury.

6. Best Available Science, if applicable

Directions: If the answer to the following question is "yes" complete this section. Is the proposed activity designed to protect or restore natural resources? Yes ○ No ○

The RESTORE Act requires activities designed to protect or restore natural resources to be based on the 'best available science,' which is defined in the Act as science that (a) maximizes the quality, objectivity, and integrity of information, including statistical information; (b) uses peer-reviewed and publicly available data; and (c) clearly documents risks and uncertainties in the scientific basis for such projects.

The applicant must make a determination that a project designed to protect or restore natural resources is based on the best available science. In order to support this determination, the applicant must clearly state the protection or restoration objective(s) of the project, describe the methods that will be used to achieve the objective(s), and explain how these methods are based on best available science. The response must be sufficiently detailed for Treasury to evaluate the reasonableness of the applicant's determination that the project is based on best available science. In addressing the three.pronged test in the definition of 'best available science,' the applicant must cite, when available, peer.reviewed, objective, methodologically sound literature sources that support the conclusion that the proposed scope of work is an effective way to achieve the stated objectives.

For each literature source cited, the applicant must provide sufficient citations, including:

- Title;
- Journal in which the literature source appeared, if applicable;
- Publication date;
- Author(s); and
- Web address if downloaded or available online.

The applicant must provide written answers to all of the following:
(Submission of source materials will not satisfy the requirements for answering this question.)

- A summary of the peer-reviewed information that justifies the proposed objectives, including methods used for the proposed activity. If peer-reviewed literature sources are unavailable, the applicant must explicitly state this and provide a brief explanation of what alternative scientific information sources were used. If the applicant relied on publicly available data, the applicant must cite the source of the data, the date of collection, and the size of the data set. Whenever possible, the applicant should use publicly available data from sources such as state agencies and federal agencies, for example the U.S. Census Bureau, U.S. Fish and Wildlife Service, Environmental Protection Agency, National Oceanic and Atmospheric Administration. The applicant must provide a link to each publicly available data source used.

- A summary of the literature sources' conclusions and any uncertainties or risks in the scientific basis that would apply to the proposed activity, including any uncertainties or risks that were identified by the public or by a Gulf Coast Ecosystem Restoration Council member.

- A summary of how the applicant's methods reasonably support and are adaptable to Gulf Coast Region if the information supporting the proposed activity does not directly pertain to the Gulf Coast Region.

- A summary of an evaluation of uncertainties and risks in achieving the project's best available science objectives over the longer term; e.g., is there an uncertainty or risk that in 5-10 years the project/program will be obsolete or not function as planned given projections of sea level rise or other environmental change such as in freshwater inflows to estuaries?

RESTORE ACT FINANCIAL ASSISTANCE STANDARD TERMS AND CONDITIONS AND PROGRAM-SPECIFIC TERMS AND CONDITIONS

PREFACE

The grant agreement is comprised of the following documents:

1. A Notice of Award from the Department of the Treasury ("Treasury");
2. The RESTORE Act Financial Assistance Standard Terms and Conditions ("Standard Terms and Conditions");
3. The RESTORE Act Financial Assistance Program-Specific Terms and Conditions ("Program-Specific Terms and Conditions");
4. The approved application, including all documents, certifications, and assurances that are part of the approved application;
5. The approved scope of work;
6. The approved budget; and,
7. Any special terms and conditions applied by Treasury to the award ("Special Award Conditions").

The recipient must comply, and require each of its subrecipients, contractors, and subcontractors employed in the completion of the activity, project, or program to comply with all federal statutes, federal regulations, executive orders (EOs), Office of Management and Budget (OMB) circulars, Standard Terms and Conditions, Program-Specific Terms and Conditions, and any Special Award Conditions of this federal financial assistance award ("Award"), as applicable, in addition to the certifications and assurances required at the time of application. This Award is subject to the laws and regulations of the United States.

Any inconsistency or conflict in Standard Terms and Conditions, Program-Specific Terms and Conditions, and any Special Award Conditions of this Award will be resolved according to the following order of precedence: federal laws, federal regulations, applicable notices published in the Federal Register, EOs, OMB circulars, Treasury's Standard Terms and Conditions, Program-Specific Terms and Conditions, and any Special Award Conditions. Special Award Conditions may amend or take precedence over Standard Terms and Conditions and Program-Specific Terms and Conditions.

Some of these Standard Terms and Conditions contain, by reference or substance, a summary of pertinent federal statutes, federal regulations published in the Federal Register (Fed. Reg.) or Code of Federal Regulations (C.F.R.), EOs, or OMB circulars. In particular, these Standard Terms and Conditions incorporate many of the provisions contained in OMB's Uniform Guidance for Grants and Cooperative Agreements (2 C.F.R. Part 200), which supersedes former OMB Circular A-102 (the former grants management common rule), OMB Circular A-133 (single audit requirements), and all former OMB circulars containing the cost principles for grants and cooperative agreements. To the extent that it is a summary, such a provision is not in derogation of, or an amendment to, any such statute, regulation, EO, or OMB circular. Unless a definition is provided here, definitions can be found in the RESTORE Act (Public Law No. 112-141 (July 6, 2012)), Treasury's RESTORE Act regulations (79 Fed. Reg. 48039 (Aug. 15, 2014) and 79 Fed. Reg. 61236 (Oct. 10, 2014), codified at 31 C.F.R. Part 34)), and/or 2 C.F.R. Part 200.

A PROGRAM-SPECIFIC TERMS AND CONDITIONS - AWARDS UNDER THE DIRECT COMPONENT

In addition to all the Standard Terms and Conditions described in Sections C through V of this document, all Treasury RESTORE Act awards made under the Direct Component include the following Program-Specific Terms and Conditions in this Section A:

1. Administrative Costs

a. Administrative costs are defined at 31 C.F.R. § 34.2.

b. Under no circumstances may the recipient use more than three percent of the Award funds received for administrative costs. Administrative costs do not include indirect costs that are identified specifically with, or readily assignable to facilities, as defined in 2 C.F.R. § 200.414. Costs borne by subrecipients do not count toward the three percent cap.

c. Up to 100 percent of program income may be used to pay for allowable administrative costs, subject to the three percent cap.

2. Oil Spill Liability Trust Fund

The recipient must not seek any compensation for the approved program or project from the Oil Spill Liability Trust Fund. If the recipient is authorized to make subawards, the recipient must not use Direct Component funds to make subawards to fund activities for which any claim for compensation was filed and paid out by the Oil Spill Liability Trust Fund after July 6, 2012.

3. Remedies for Noncompliance

a. If Treasury determines that the recipient has expended Direct Component funds to cover the cost of any ineligible activities, in addition to the remedies available in Section M of these Standard Terms and Conditions, per 31 C.F.R. § 34.804, Treasury will make no additional payments to the recipient from the Gulf Coast Restoration Trust Fund (Trust Fund), including no payments from the Trust Fund for activities, projects, or programs other than Direct Component activities, projects, or programs, until the recipient has either (1) deposited an amount equal to the amount expended for the ineligible activities in the Trust Fund, or (2) Treasury has authorized the recipient to expend an equal amount from the recipient's own funds for an activity that meets the requirements of the RESTORE Act.

b. If Treasury determines the recipient has materially violated the terms of this Award, Treasury will make no additional funds available to the recipient from any part of the Trust Fund until the recipient corrects the violation.

B PROGRAM-SPECIFIC TERMS AND CONDITIONS - AWARDS UNDER THE CENTERS OF EXCELLENCE RESEARCH GRANTS PROGRAM

In addition to the prohibitions contained in 2 C.F.R. Part 200, Subpart E (*Cost Principles*), the following costs are unallowable unless approved in writing by Treasury:

Any program income (defined at 2 C.F.R. § 200.80) generated by the recipient or the subrecipient during the period of performance of the award or subrecipient agreement, as applicable, must be included in the approved budget and be used for the purposes and under the conditions of these Standard Terms and Conditions and any Special Award Conditions, i.e. solely to accomplish the approved scope of work.

7. Incurring Costs or Obligating Federal Funds Beyond the Expiration Date

The recipient must not incur costs or obligate funds under this Award for any purpose pertaining to the operation of the activity, project, or program beyond the end of the period of performance. The only costs which are authorized for a period up to 90 days following the end of the period of performance are those strictly associated with close-out activities. Close-out activities are normally limited to the preparation of final progress, financial, and required audit reports unless otherwise approved in writing by Treasury. Under extraordinary circumstances, and at Treasury's sole discretion, Treasury may approve the recipient's request for an extension of the 90-day closeout period.

Part 200, subpart E (*Cost Principles*). The recipient agrees to contact Treasury immediately upon receipt of these refunds.

9. Subawards

a. If the recipient is permitted to make subawards under this award, the recipient must execute a legally binding written agreement with the subrecipient. This agreement must incorporate all the terms and conditions of this Award, including any Special Award Conditions, and must include the information at 2 C.F.R. § 200.331. The recipient must perform all responsibilities required of a pass-through entity, as specified in 2 C.F.R. Part 200.

b. The recipient must evaluate and document each subrecipient's risk of noncompliance with federal statutes, federal regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring strategy, as described in 2 C.F.R. § 200.331(b).

c. The recipient must monitor the subrecipient's use of federal funds through reporting, site visits, regular contact, or other means to provide reasonable assurance that the subrecipient is administering the subaward in compliance with the RESTORE Act, Treasury's RESTORE Act regulations, these Standard Terms and Conditions, Program-Specific Terms and Conditions, and any Special Award Conditions, and to ensure that performance goals are achieved.

d. The recipient must provide training and technical assistance to the subrecipient as necessary.

e. The recipient must, if necessary, take appropriate enforcement actions against non-compliant subrecipients.

f. If lower tier subawards are authorized by Treasury, the recipient must ensure that a subrecipient who makes a subaward applies the terms and conditions of this Award, including any Special Award Conditions, to all lower tier subawards, and that a subrecipient who makes a subaward carries out all the responsibilities of a pass-through entity described at 2 C.F.R. Part 200.

   ii. The officers, employees, and agents of the recipient shall neither solicit nor accept anything of monetary value from subrecipients.

   iii. A recipient may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. A financial interest may include employment, stock ownership, a creditor or debtor relationship, or prospective employment with the organization selected or to be selected for a subaward.

H AWARD DISBURSEMENT

1. Unless otherwise specified in a Special Award Condition, Treasury will make advance payments under this Award. However, if one of the following occurs, Treasury will require Award funds to be disbursed on a reimbursement basis either with or without pre-approval of drawdown requests: (1) Treasury determines that the recipient does not meet the financial management system standards (see Section E) included in these Standard Terms and Conditions, (2) Treasury determines that the recipient has not established procedures that will minimize the time elapsing between the transfer of funds and disbursement, or (3) Treasury determines that the recipient is in noncompliance with the RESTORE Act, Treasury's RESTORE Act regulations, other pertinent federal statutes, these Standard Terms and Conditions, Program-Specific Terms and Conditions, and/or any Special Award Conditions, and determines that the appropriate remedy is to require payment on a reimbursement basis.

2. If reimbursement is used, Treasury may require pre-approval of drawdown requests. If Treasury requires pre-approval of drawdown requests, Treasury will provide the recipient with instructions on what billing to submit. Treasury will make payment within 30 calendar days after receipt of the billing, unless Treasury determines the request to be improper, in which case payment will not be made.

3. To the extent available, the recipient must disburse funds available from program income, rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds before requesting additional cash payments of Award funds.

4. Treasury will use the Department of Treasury's Automated Standard Application for Payment (ASAP) system to disburse payments of Award funds. In order to receive payments, the recipient must first enroll in ASAP.gov. Treasury creates and funds account(s) for recipients in ASAP.gov, and recipients access their account(s) online to request funds. All Award funds will be disbursed electronically using the Automated Clearing House (ACH) for next day or future day payments only. Awards paid through ASAP.gov may contain controls or withdrawal limits set by Treasury.

5. Requirements applicable to recipients that are states: Payment methods of state agencies or instrumentalities must be consistent with Treasury-State agreements under the Cash Management Improvement Act, 31 C.F.R. Advance payments to the recipient must be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the recipient in carrying out the purpose of the approved activity, project, or program. The timing and amount of advance payments must be as close as is administratively feasible to the actual disbursements by the parish or county for activity, project, or program costs and the proportionate share of any allowable indirect costs. Advances should not be drawn down more than three business days before expenditure. Advanced funds not disbursed in a timely manner must be promptly returned to Treasury. The recipient must make timely payment to contractors (vendors) in accordance with the contract provisions.

7. Advances of federal funds must be deposited and maintained in United States Government-insured interest-bearing accounts whenever possible. The recipient is not required to maintain a separate depository account for receiving Award funds. If the recipient maintains a single depository account where advances are commingled with funds from other sources, the recipient must maintain on its books a separate subaccount for the Award funds. Consistent with the national goal of expanding opportunities for women-owned and minority-owned business enterprises, the recipient is encouraged to ensure fair consideration of women-owned and minority-owned banks (a bank which is owned at least 50 percent by women or minority group members).

8. The recipient must maintain advances of federal funds in interest bearing accounts, unless one of the following conditions applies:

a. The recipient receives less than $120,000 in federal awards per year;

b. The best reasonably available interest bearing account would not be expected to earn interest in excess of $500 per year on federal cash balances; or

c. The depository would require an average or minimum balance so high that it would not be feasible within the expected federal and non-federal cash resources.

9. On an annual basis, the recipient must remit interest earned on federal advance payments deposited in interest-bearing accounts to the Department of Health and Human Services, Payment Management System, Rockville, MD 20852. Interest amounts up to $500 per year may be retained by the recipient and used for administrative costs.

a. The award term at Appendix A of 2 C.F.R. Part 170 is hereby incorporated by reference.

b. The Federal Funding Accountability and Transparency Act of 2006 (FFATA) requires information on federal awards to be made available to the public via a single, searchable website. This information is available at www.USASpending.gov. The FFATA Subaward Reporting System (FSRS) is the reporting tool federal prime awardees (*i.e*., prime contractors and prime grants recipients) use to capture and report subaward and executive compensation data regarding their first-tier subawards to meet the FFATA reporting requirements. Prime grant awardees will report against sub-grants awarded. The subaward information entered in FSRS will then be displayed at

http://www.USASpending.gov.

c. Recipients of RESTORE Act funding are subject to FFATA subaward reporting requirements as outlined in the OMB guidance on FFATA issued August 27, 2010. The recipient is required to file a FFATA subaward report by the end of the month following the month in which the recipient makes any subaward greater than or equal to $25,000. This includes any action that brings the cumulative total award to $25,000 or more. This report must be filed electronically at http://www.fsrs.gov.

d. The recipient must report total compensation for each of its five most highly compensated executives for the preceding completed fiscal year, by the end of the month following the month in which this Award is made, and annually thereafter if—

   i. The total federal funding authorized to date under this Award is $25,000 or more; and

   ii. In the preceding fiscal year, the recipient received—

      1) 80 percent or more of annual gross revenues from federal procurement contracts (and subcontracts) and federal financial assistance subject to FFATA, as defined at 2 C.F.R. § 170.320 (and subawards); and

      2) $25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts) and federal financial assistance subject to FFATA, as defined at 2 C.F.R. 170.320 (and subawards); and

   iii. The public does not have access to information about the compensation of the executives through periodic reports filed under § 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or § 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at http://www.sec.gov/answers/execomp.htm.)

e. The recipient must report on the total compensation of its subrecipients' five most highly compensated executives, as required by FFATA, and must include provisions in every executed contract or agreement with affected subrecipients requiring the subrecipient to provide all information necessary for the recipient to report on subrecipient executive compensation. The recipient must report on subrecipient executive compensation by the end of the month following the month during which the recipient makes the subaward.

f. The recipient must keep its information current in SAM (System for Award Management, which is the successor to the Central Contractor Registry, (CCR)) at least until submission of the final SF-425 or receipt of the final Award payment, whichever is later. This requires that the recipient review and update the information at least annually after the initial registration, and more frequently if required by changes in the recipient's information. SAM is the federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the System for Award Management Internet site (currently at https://www.sam.gov/portal/public/SAM/).

g. If the recipient is authorized to make subawards under this Award, the recipient must notify potential subrecipients that the recipient may not make a subaward to any entity unless that entity has provided its Data Universal Numbering System (DUNS) number to the recipient. A DUNS number is the nine-digit number

established and assigned by Dun and Bradstreet, Inc. to uniquely identify business entities.

If the total value of the recipient's currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds $10,000,000 for any period of time during the period of performance of this Federal award, then the recipient during that period of time must maintain the accuracy of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings described in paragraph b. of this award term and condition. This is a statutory requirement under § 872 of Public Law 110-417, as amended (41 U.S.C. § 2313). As required by § 3010 of Public Law 111-212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for Federal procurement contracts, will be publicly available.

b. *Proceedings About Which The Recipient Must Report*

The recipient must submit the information required about each proceeding that:

i. Is in connection with the award or performance of a grant, cooperative agreement, or procurement contract from the Federal Government;
ii. Reached its final disposition during the most recent five year period; and
iii. Is one of the following:

1) A criminal proceeding that resulted in a conviction, as defined in paragraph e. of this award term and condition;
2) A civil proceeding that resulted in a finding of fault and liability and payment of a monetary fine, penalty, reimbursement, restitution, or damages of $5,000 or more;
3) An administrative proceeding, as defined in paragraph e. of this award term and condition, that resulted in a finding of fault and liability and your payment of either a monetary fine or penalty of $5,000 or more or reimbursement, restitution, or damages in excess of $100,000; or
4) Any other criminal, civil, or administrative proceeding if:

a) It could have led to an outcome described in paragraph b.iii. 1), 2), or 3) of this award term and condition;
b) It had a different disposition arrived at by consent or compromise with an acknowledgment of fault on your part; and
c) The requirement in this award term and condition to disclose information about the proceeding does not conflict with applicable laws and regulations.

c. *Reporting Procedures*

Enter in the SAM Entity Management area the information that SAM requires about each proceeding described in paragraph b of this award term and condition.

The recipient does not need to submit the information a second time under assistance awards that the recipient received if they already provided the information through SAM because they were required to do so under Federal procurement contracts that they were awarded.

d. *Reporting Frequency*

During any period of time when the recipient is subject to the requirement in paragraph1 of this award term and condition, the recipient must report proceedings information through SAM for the most recent five year period, either to report new information about any proceeding(s) that they have not reported previously or affirm that there is new information to report. Recipients that have Federal contract, grant, and cooperative agreement awards with a cumulative total value greater than $10,000,000 must disclose semiannually any information about the criminal, civil, and administrative proceedings.

e. *Definitions*

For purposes of this award term and condition:

i. Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (*e.g.,* Securities and Exchange Commission Administrative proceedings, Civilian Board of Contract Appeals proceedings, and Armed Services Board of Contract Appeals proceedings). This includes proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include audits, site visits, corrective plans, or inspection of deliverables.

ii. Conviction, for purposes of this award term and condition, means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

iii. Total value of currently active grants, cooperative agreements, and procurement contracts includes—

1) Only the Federal share of the funding under any Federal award with a recipient cost share or match; and
2) The value of all expected funding increments under a Federal award and options, even if not yet exercised.

13. <u>Publications and Signage</u>

Any publications (except scientific articles or papers appearing in scientific, technical, or professional journals) or signage produced with funds from this Award, or informing the public about the activities funded in whole or in part by this Award, must clearly display the following language: “This project was paid for [in part] with federal funding from the Department of the Treasury under the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act).” Publications (except scientific articles or papers appearing in scientific, technical, or professional journals) produced with funds from this Award must display the following additional language: “The statements, findings, conclusions, and recommendations are those of the author(s) and do not necessarily reflect the views of the Department of the Treasury.”

14. Homeland Security Presidential Directive 12

If the performance of this Award requires the recipient's personnel to have routine access to Treasury-controlled facilities and/or Treasury-controlled information systems (for purpose of this term "routine access" is defined as more than 180 days), such personnel must undergo the personal identity verification credential process. In the case of foreign nationals, Treasury will conduct a check with U.S. Citizenship and Immigration Services' (USCIS) Verification Division, a component of the Department of Homeland Security (DHS), to ensure the individual is in a lawful immigration status and that he or she is eligible for employment within the United States. Any items or services delivered under this Award must comply with Treasury personal identity verification procedures that implement Homeland Security Presidential Directive 12, "Policy for a Common Identification Standard for Federal Employees and Contractors", FIPS PUB 201, as amended, and OMB Memorandum M-05-24, as amended. The recipient must ensure that its subrecipients and contractors (at all tiers) performing work under this Award comply with the requirements contained in this Section V.14. Treasury may delay final payment under this Award if the subrecipient or contractor fails to comply with the requirements listed in the section below. The recipient must insert the following term in all subawards and contracts when the subrecipient or contractor is required to have routine physical access to a Treasury-controlled facility or routine access to a Treasury-controlled information system:

a. The subrecipient or contractor must comply with Treasury personal identity verification procedures identified in the subaward or contract that implement Homeland Security Presidential Directive 12 (HSPD-12), Office of Management and Budget (OMB) Guidance M-05-24, as amended, and Federal Information Processing Standards Publication, FIPS PUB 140-2, as amended, for all employees under this subaward or contract who require routine physical access to a federally controlled facility or routine access to a federally controlled information system.

b. The subrecipient or contractor must account for all forms of government-provided identification issued to the subrecipient or contractor employees in connection with performance under this subaward or contract. The subrecipient or contractor must return such identification to the issuing agency at the earliest of any of the following, unless otherwise determined by Treasury:

   i. When no longer needed for subaward or contract performance;

   ii. Upon completion of the subrecipient or contractor employee's employment; or

   iii. Upon subaward or contract completion or termination.

15. Foreign Travel

a. The recipient may not use funds from this Award for travel outside of the United States unless Treasury provides prior written approval.

b. The recipient must comply with the provisions of the Fly America Act, as amended, (49 U.S.C. § 40118). The implementing regulations of the Fly America Act are found at 41 C.F.R. §§ 301-10.131–301-10.143.

c. The Fly America Act requires that federal travelers and others performing U.S. Government-financed air travel must use U.S. flag air carriers, to the extent that service by such carriers is available. Foreign air carriers may be used only in specific instances, such as when a U.S. flag air carrier is unavailable, or use of U.S. flag air carrier service will not accomplish the agency's mission.

d. One exception to the requirement to fly U.S. flag carriers is transportation provided under a bilateral or multilateral air transport agreement, to which the United States Government and the government of a foreign country are parties, and which the Department of Transportation has determined meets the requirements of the Fly America Act pursuant to 49 U.S.C. § 40118(b). The United States Government has entered into bilateral/multilateral "Open Skies Agreements" (U.S. Government Procured Transportation) that allow federal funded transportation services for travel and cargo movements to use foreign air carriers under certain circumstances. There are multiple "Open Skies Agreements" currently in effect. For more information about the current bilateral and multilateral agreements, visit the GSA website http://www.gsa.gov/portal/content/103191. Information on the Open Skies agreements (U.S. Government Procured Transportation) and other specific country agreements may be accessed via the Department of State's website http://www.state.gov/e/eeb/tra/.

e. If a foreign air carrier is anticipated to be used for any portion of travel funded under this Award, the recipient must receive prior approval from the Treasury. When requesting such approval, the recipient must provide a justification in accordance with guidance provided by 41 C.F.R. § 301–10.142, which requires the recipient to provide Treasury with the following: name; dates of travel; origin and destination of travel; detailed itinerary of travel; name of the air carrier and flight number for each leg of the trip; and a statement explaining why the recipient meets one of the exceptions to the regulations. If the use of a foreign air carrier is pursuant to a bilateral agreement, the recipient must provide Treasury with a copy of the agreement or a citation to the official agreement available on the GSA website. Treasury shall make the final determination and notify the recipient in writing. Failure to adhere to the provisions of the Fly America Act will result in the recipient not being reimbursed for any transportation costs for which the recipient improperly used a foreign air carrier.

16. Export Control

a. This clause applies to the extent that this Award involves access to export-controlled items.

b. In performing this financial assistance Award, the recipient may gain access to items subject to export control (export-controlled items) under the Export Administration Regulations (EAR) issued by the Department of Commerce (DOC). The recipient is responsible for compliance with all applicable laws and regulations regarding export-controlled items, including the EAR's deemed exports and re-exports provisions. The recipient shall establish and maintain effective export compliance procedures throughout performance of the Award. At a minimum, these export compliance procedures must include adequate controls of physical, verbal, visual, and electronic access to export-controlled items, including by foreign nationals.

c. Definitions:

i. Export-controlled items. Items (commodities, software, or technology), that are subject to the EAR (15 C.F.R. §§ 730–774), implemented by the DOC's Bureau of Industry and Security. These are generally known as "dual-use" items, items with a military and commercial application.

ii. Deemed Export/Re-export. The EAR defines a deemed export as a release of export-controlled items (specifically, technology or source code) to a foreign national in the U.S. Such release is "deemed" to be an export to the home country of the foreign national. 15 C.F.R. §

734.2(b)(2)(ii). A release may take the form of visual inspection, oral exchange of information, or the application abroad of knowledge or technical experience acquired in the United States. If such a release occurs abroad, it is considered a deemed re-export to the foreign national's home country. Licenses from DOC may be required for deemed exports or re-exports.

d. The recipient shall control access to all export-controlled items that it possesses or that comes into its possession in performance of this Award, to ensure that access to, or release of, such items are restricted, or licensed, as required by applicable federal statutes, EOs, and/or regulations, including the EAR.

e. To the extent the recipient wishes to provide foreign nationals with access to export-controlled items, the recipient shall be responsible for obtaining any necessary licenses, including licenses required under the EAR for deemed exports or deemed re-exports.

f. Nothing in the terms of this Award is intended to change, supersede, or waive the requirements of applicable federal statutes, EOs, and/or regulations.

g. Compliance with this Section V.15 will not satisfy any legal obligations the recipient may have regarding items that may be subject to export controls administered by other agencies such as the Department of State, which has jurisdiction over exports of munitions items subject to the International Traffic in Arms Regulations (ITAR) (22 C.F.R. §§ 120–130), including releases of such items to foreign nationals.

h. The recipient shall include this clause, including this paragraph (i), in all lower tier transactions (subawards, contracts, and subcontracts) under this Award that may involve access to export-controlled items.

SUPPLEMENTAL STANDARD TERMS AND CONDITIONS - AWARDS UNDER THE DIRECT COMPONENT FOR ACQUISITION AND IMPROVEMENTS TO REAL PROPERTY

W ACQUISITION AND IMPROVEMENTS TO REAL PROPERTY

1. Compliance with State, Local and Federal Requirements

The project must comply with all applicable federal laws and regulations, and with all requirements for state, and local laws and ordinances to the extent that such requirements do not conflict with federal laws. The recipient is also responsible for supervising the design, bidding, construction, and operation of construction projects in compliance with all award requirements. The recipient must comply with, and must require all contractors and subcontractors, to comply with all federal, state, and local laws and regulations. The recipient must ensure compliance with special award conditions which may contain conditions that must be satisfied prior to advertisement of bids, start of construction, or other critical event.

2. Title

Prior to receiving Treasury authorization to start construction, the recipient must furnish evidence, satisfactory to Treasury, that the recipient has acquired good and merchantable title free of all mortgages, foreclosable liens, or encumbrances, to all land, rights of way and easements necessary for the completion of the project.

3. Permitting Requirements

Prior to receiving Treasury authorization to start construction, the recipient must furnish evidence, satisfactory to Treasury, that recipient has received all federal, state and local permits necessary for the completion of the project.

4. Federal Interest in Real Property

"Federal interest" refers to real property that is acquired or improved, in whole or in part, with RESTORE Act Direct Component funds, which must be held in trust by the Recipient for the benefit of the project for the Estimated Useful Life of the project, during which period Treasury retains an undivided equitable reversionary interest in the real property (i.e., the "federal interest").

5. Estimated Useful Life

Property that is acquired or improved, in whole or in part, with federal assistance is held in trust by the recipient for the purpose(s) for which the award was made for the Estimated Useful Life. Estimated Useful Life means the period of years that constitutes the expected useful lifespan of a project, as determined by Treasury, during which Treasury anticipates obtaining the benefits of the project pursuant to project purposes authorized by the RESTORE Act. For this award the recipient has proposed an Estimated Useful Life from the date of construction completion. Treasury's issuance of the grant agreement represents its concurrence with the recipient's proposed Estimated Useful Life.

The recipient's obligation to the federal government continues for the Estimated Useful Life of the project, as determined by Treasury, during which Treasury retains an undivided equitable reversionary interest (the "federal interest") in the property improved, in whole or in part, with the Treasury investment.

If Treasury determines that the recipient has failed or fails to meet its obligations under the terms and conditions of this award, Treasury may exercise its rights or remedies with respect to its federal interest in the project. However, Treasury's forbearance in exercising any right or remedy in connection with the federal interest does not constitute a waiver thereof.

6. Commencement of Construction

The recipient should not commence construction prior to the date of the Award. The recipient must make a written request to Treasury for permission to commence construction after the construction contractor has been selected and at least 30 days prior to construction. For project costs to be eligible for Treasury reimbursement, Treasury must determine that the award of all contracts with associated costs are in compliance with the scope of the project and all terms and conditions of this award, and all necessary permits have been obtained, and the federal interest is secure. No construction funds may be drawn from ASAP without Treasury's written permission. If the recipient commences construction prior to Treasury's determination, the recipient proceeds at its own risk.

Treasury will only review contract amendments or change orders which change the scope of a contract.

7. Use of Real Property

Encumbering real property on which there is a federal interest without prior Treasury approval is an unauthorized use of the property and of project trust funds under this

award. See 2 C.F.R. § 200.316. Real property or interest in real property may not be used for purposes other than the authorized purpose of the award without the express, prior written approval of Treasury, for as long as the federal government retains an interest in the property. The property must not be sold, conveyed, transferred, assigned, mortgaged, or in any other manner encumbered except as expressly authorized in writing by Treasury. The recipient must maintain facilities constructed or renovated with grant funds in a manner consistent with the purposes for which the funds were provided for the duration of the Estimated Useful Life.

In the event that the real property or interest in real property is no longer needed for the originally authorized purpose, the recipient must obtain disposition instructions from Treasury consistent with 2 C.F.R. § 200.311.

8. Recording the Federal Interest in the Real Property

To document the federal interest, the recipient agrees to prepare and properly record a "Covenant of Purpose, Use and Ownership" (Covenant), or, where a subrecipient is the title owner, to ensure that the subrecipient prepares and properly records a "Covenant of Purpose, Use and Ownership" (Covenant) on the property acquired or improved with federal assistance funds. See 2 C.F.R. § 200.316. This Covenant does not establish a traditional mortgage lien in that it does not establish a traditional creditor relationship requiring the periodic repayment of principal and interest, or the ability of Treasury to foreclose on the real property at any time. Rather, pursuant to the Covenant, the recipient and/or the subrecipient, as applicable, acknowledges that it holds title to the real property in trust for the public purposes of the financial assistance award and agrees, among other commitments, that it will repay the federal interest if it disposes of or alienates an interest in the real property, or uses it in a manner inconsistent with the public purposes of the award, during the Estimated Useful Life of the property.

a. The Covenant must be satisfactory in form and substance to Treasury, must include the name and current address of the recipient and subrecipient (if applicable), the grant award number, amount and date of award and subrecipient agreement (if applicable), date of the purchase of property (if applicable), and the Estimated Useful Life of the project. It must also include statements that the real property will only be used for purposes consistent with the RESTORE Act; that it will not be mortgaged or used as collateral, sold or otherwise transferred to another party, without the written permission of Treasury; and that the federal interest cannot be subordinated, diminished, nullified or released through encumbrance of the property, transfer of the property to another party or any other action the recipient/subrecipient takes without the written permission of Treasury.

b. The recipient agrees to provide to Treasury an attorney's title opinion as to the title owner of the property, and to properly record, in accordance with applicable law, the Covenant in the real property records in the jurisdiction in which the real property is located in order to provide public record notice to interested parties that there are certain restrictions on the use and disposition of the real property during its Estimated Useful Life, and that Treasury retains an undivided equitable reversionary interest in the real property to the extent of its participation in the project for which funds have been awarded.

c. Treasury requires an opinion of counsel for the recipient to substantiate that the document has been properly recorded.

d. Failure to properly and timely file and maintain documentation of the federal interest may result in appropriate enforcement action, including, but not limited to, disallowance of the cost of the acquisition or improvement by Treasury.

e. The Federal Interest must be perfected and recorded/filed in accordance with state and/or local law concurrent with the acquisition of the real property, where an award includes real property acquisition, and for construction of buildings and projects to improve the real property, no later than the date construction and/or improvement work commences.

f. When the Estimated Useful Life of the project is ended, the federal interest is extinguished and the federal government has no further interest in the real property.

9. Administration, Operation and Maintenance

The recipient agrees to administer, operate, and maintain the project for its Estimated Useful Life in the same manner in which it operates and maintains similar facilities and equipment owned by it, and in accordance with state and local standards, laws and regulations. The recipient must not be in breach of its obligations under this award except to the extent the failure to fulfill any obligation is due to an Uncontrollable Force. "Uncontrollable Force" means an event beyond the reasonable control of, and without the fault or negligence of, the party claiming the Uncontrollable Force that prevents the recipient from honoring its contractual obligations under this Agreement and which, by exercise of the recipient's reasonable care, diligence and foresight, such recipient was unable to avoid. Uncontrollable Forces include, but are not limited to:

a. Strikes or work stoppage;

b. Floods, earthquakes, or other natural disasters; terrorist acts; and

c. Final orders or injunctions issued by a court or regulatory body having competent subject matter jurisdiction which the recipient, claiming the Uncontrollable Force, after diligent efforts, was unable to have stayed, suspended, or set aside pending review by a court of competent subject matter jurisdiction. Neither the unavailability of funds or financing, nor conditions of national or local economies or markets must be considered an Uncontrollable Force.

10. Reporting Requirement

The recipient must complete and submit to Treasury a report on the status of the real property or interest in real property in which the federal government retains an interest, using a *SF-429 Real Property Status Report* form annually for the first three years of a federal award and thereafter every five years until the end of the Estimated Useful Life or time of disposition, whichever is less. All reports must be for the period ending December 31, or any portion thereof, beginning with the year of the award, and are due no later than 30 days following the end of the reporting period.

11. Insurance

The recipient must, at a minimum, provide the equivalent insurance coverage for real property improved with federal funds as provided to property owned by the recipient state, county or parish, in compliance with 2 C.F.R. § 200.310.

12. Bonding

a. For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the recipient or pass-through entity may request in writing that Treasury accept its bonding policy and requirements. If Treasury

determines that the federal interest in the project is adequately protected, the recipient or pass-through entity need not comply with the following three bonding requirements. For all other recipients and pass-through entities, the minimum requirements for construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold are as follows: A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual instruments as may be required within the time specified.

b. A performance bond on the part of the contractor for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

c. A payment bond on the part of the contractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

13. Floodplain Requirements

In accordance with 44 C.F.R. Part 9, prior to Treasury's authorization to commence construction in a designated 100-year floodplain, the recipient must provide evidence satisfactory to Treasury of a Floodplain Notice, that the 30-day period established for receipt of comments from the public in response to public notice published regarding the potential for adverse project impact on the values and functions of a designated 100-year floodplain has expired and that identified concerns (if any) have been addressed to Treasury's satisfaction. This notice may be satisfied through a federal/state environmental assessment process used as the vehicle for public notice, involvement, and explanation per 44 C.F.R. § 9.8(2).

In addition, prior to Treasury's authorization to commence construction of structures and/or buildings within a designated 100-year floodplain, the recipient must provide evidence satisfactory to Treasury of the following:

a. Floodplain Protection: That the project engineer/architect has certified that the project facility will be adequately protected from damage by floods in this area of apparent potential flood hazard. The evidence must include adequate justification for the Base Flood Elevation designation for the financial assistance award site.

b. Floodplain Insurance: That the community is participating in the National Flood Insurance Program, and that as required, the recipient will purchase flood insurance.

14. Goals for Women and Minorities in Construction

Department of Labor regulations set forth in 41 C.F.R. § 60-4 establish goals and timetables for participation of minorities and women in the construction industry. These regulations apply to all federally assisted construction contracts in excess of $10,000. The recipient must comply with these regulations and must obtain compliance with 41 C.F.R. § 60-4 from contractors and subcontractors employed in the completion of the project by including such notices, clauses and provisions in the Solicitations for Offers or Bids as required by 41 C.F.R. § 60-4.

a. The goal for participation of women in each trade area must be as follows: From April 1, 1981, until further notice: 6.9 percent;

b. All changes to this goal, as published in the Federal Register in accordance with the Office of Federal Contract Compliance Programs regulations at 41 C.F.R. § 60-4.6, or any successor regulations, must hereafter be incorporated by reference into these Special Award Conditions; and,

c. Goals for minority participation must be as prescribed by Appendix B-80, Federal Register, Volume 45, No. 194, October 3, 1980, or subsequent publications. The recipient must include the "Standard Federal Equal Employment Opportunity Construction Contract Specifications" (or cause them to be included, if appropriate) in all federally assisted contracts and subcontracts. The goals and timetables for minority and female participation may not be less than those published pursuant to 41 C.F.R. § 60-6.

15. Contracting with small and minority businesses, women's business enterprise, and labor surplus area firms

The recipient must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include:

a. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

b. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

c. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women's business enterprises;

d. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;

e. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and,

f. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in (a) — (e) of this paragraph.

16. Davis Bacon Act, as amended (40 U.S.C. §§ 3141–3148)

Davis-Bacon Act-related provisions are applicable for a construction project if it is for the construction of a project that can be defined as a "treatment works" in 33 U.S.C § 1292; or for a construction project regardless of whether it is a "treatment works" project if it is receiving federal assistance from another federal agency operating under an authority that requires the enforcement of Davis-Bacon Act-related provisions. When required, all prime construction contracts in excess of $2,000 awarded by the non-Federal entity must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141–3144, and §§ 3146–3148) as supplemented by Department of Labor regulations (29 C.F.R. Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must

be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition contracts must be required to pay wages not less than once a week.

The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to Treasury. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. Part 3, "Contracts and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation or which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to Treasury.

17. <u>Equal Opportunity Clause</u>

Pursuant to 41 C.F.R. § 60-1.4(b), Federally assisted construction contracts, for construction which is not exempt from the requirements of the equal opportunity clause, 41 C.F.R. Part 60-1—Obligations of Contractors and Subcontractors, [t]he [recipient] hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 C.F.R. Chapter 60, which is paid for in whole or in part with funds obtained from the federal government or borrowed on the credit of the federal government pursuant to a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any federal program involving such grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

41 C.F.R. § 60-1.4 Equal opportunity clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which

an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

18. Revised ADA Standards for Accessible Design for Construction Awards

The U.S. Department of Justice has issued revised regulations implementing Title II of the ADA (28 C.F.R. Part 35) and Title III of the ADA (28 C.F.R. Part 36). The revised regulations adopted new enforceable accessibility standards called the "2010 ADA Standards for Accessible Design" (2010 Standards). The 2010 Standards are an acceptable alternative to the Uniform Federal Accessibility Standards (UFAS). Treasury deems compliance with the 2010 Standards to be an acceptable means of complying with the Section 504 accessibility requirements for new construction and alteration projects. All new construction and alteration projects must comply with the 2010 Standards.

AGREEMENT BETWEEN ESCAMBIA COUNTY, FLORIDA AND CHAVERS CONSTRUCTION, INC. FOR STANDARD ROAD/DRAINAGE CONSTRUCTION CONTRACT DOCUMENTS.

THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, ("County"), hereby contracts with Chavers Construction, Inc., a Florida corporation for profit, to perform all work ("Work") in connection with PD 18-19.011, Crockett Street & Crestfield Circle Drainage Improvements, Phase I ("Project"), as detailed in the attached Plans and Specifications and other Contract Documents hereafter specified.

SECTION 1. CONTRACT DOCUMENTS

A. The Contract Documents include this Agreement, including Amendments and Exhibits, the Exhibits described in Section 6, Change Orders, Work Directive Changes, Field Orders and the solicitation documents, including addenda. These Contract Documents are incorporated by reference and made a part of this Agreement. A copy of all Contract Documents shall be maintained by Contractor at the Project site at all times during the performance of the Work.

B. In case of any inconsistency or conflict among the provisions of the agreement and any other terms and conditions of any documents comprising the Contract Documents, the provisions of the Agreement shall control. Concerning the Contract Documents, the order of precedence shall be as follows: 1) the Agreement, including Amendments and Exhibits; 2) Change Orders; 3) Work Directive Changes; 4) Field Orders; 5) the Solicitation Documents, including addenda. The Contract Documents listed above represent the entire and integrated agreement between the parties hereto, and supersede prior negotiations, representations, or agreements, either written or oral.

C. County shall furnish to the Contractor up to four (4) sets of the Contract Documents for execution of the Work. Additional copies of the Contract Documents are available at the cost of reproduction.

SECTION 2. SCOPE OF WORK

Contractor agrees to furnish and pay for all management, supervision, financing, labor, materials, tools, fuel, supplies, utilities, equipment and services of every kind and type necessary to diligently, timely, and fully perform and complete in a good workmanlike manner the Work required by the Contract Documents.

SECTION 3. CONTRACT AMOUNT

For satisfactory completion of the Work the County agrees to pay the Contractor the following amount (herein "Contract Amount"), in accordance with the terms of this Agreement:

Three Hundred Sixty-Eight Thousand Two Hundred Thirty-Six Dollars and Fifty Cents

$368,236.50

SECTION 4. BONDS

A. Contractor shall provide at his expense Performance and Payment Bonds, in the form prescribed in **Exhibit B**, in the amount of 100% of the Contract Amount. The Performance and Payment Bonds shall be underwritten by a surety authorized to do business in the State of Florida and otherwise acceptable to County; provided; however, the surety shall be rated as "A-" (excellent) or better as to general policy holders rating and Class V or higher rating as to financial size category and the amount required shall not exceed 5% of the reported policy holder's surplus, all as reported in the most current Best Key Rating Guide, published by A.M. Best Company, Inc. of 75 Fulton Street, New York, New York 10038.

B. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Document, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the County's approval. Failure by Contractor to maintain its bonds in full force and effect at all times, including the warranty period, shall be grounds for termination of this Contract.

C. As per Florida Statutes, Section 255.05, the Contractor shall be required to execute and record the Performance and Payment bonds. The bonds must state the name and principal business address of both the Principal and the Surety and a description of the project sufficient to identify it. (The filing costs are $10.00 for the first page and $8.50 for each remaining page).

SECTION 5. CONTRACT TIME AND LIQUIDATED DAMAGES.

A. Time is of the essence in the performance of the Work under this Agreement. Contractor shall commence the Work within ten (10) calendar days from the Commencement Date, established in the Notice to Proceed. No Work shall be performed at the Project site prior to the Commencement Date. Contractor shall provide 48 hours' notice prior to beginning the Work. The Work shall be substantially completed within one hundred fifty (150) calendar days from the Commencement Date. The Work shall be fully completed and deemed ready by the County for final completion within thirty (30) calendar days from the Substantial Completion Date. The Contract Time shall be the time period from the Commencement Date to the date of final completion totaling one hundred eighty (180) calendar days (herein "Contract Time"). No work under this contract shall commence until certificates of insurance have been received and acknowledged by the Purchasing Manager.

B. County and Contractor recognize that, since time is of the essence for this Agreement, the County will suffer financial loss if the Work is not substantially completed within the time specified. Should Contractor fail to substantially complete the Work within the time period noted above, County shall be entitled to assess, as liquidated damages, but not as a penalty, **$1,000.00** for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed by the County on the date that the County's Architect certifies in writing that the construction of the project, or specified part thereof, is sufficiently completed in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it is intended. Along with such certification, the Architect shall compile a "punch list" of

any remaining exceptions that do not adversely affect the use of the Project. Completion of these items will be required prior to final payment.

C. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the County's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

D. When any period of time is referenced to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

EXHIBIT A
GENERAL TERMS AND CONDITIONS

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents, as being required to produce the intended result shall be supplied whether or not specifically called for. When words, which have a well-known technical or trade meaning, are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2. If, during the performance of the Work, Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to County and before proceeding with the Work affected thereby shall obtain an interpretation or clarification from the County. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the County. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

1.4. "Engineer", where referenced on the drawings or in the specifications or in other related documents, shall mean the Escambia County Engineer or the designated representative thereof.

Section 2. INVESTIGATION AND UTILITIES

2.1. Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or

compensation.

2.2. Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Where Utilities block construction, Contractor shall aggressively pursue relocation by the Utility owners. Contractor shall immediately notify the County of any delays due to Utilities blockage and document all attempts to resolve such blockage. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 3. SCHEDULE

3.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to County, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work and shall include dates of Shop Drawing Submittals.

3.2. The Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the County's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The County's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the County's obligation to pay Contractor.

Section 4. PROGRESS PAYMENTS

4.1. Prior to submitting its first Application for Payment, Contractor shall submit to County, for its review and approval, a schedule of values based upon the Contract Price, listing the major elements of the Work and the dollar value for each element. After its approval by the County, this schedule of values shall be used as the basis for the Contractor's Applications for Payment. This schedule shall be updated and submitted along with a completed and notarized copy of the Application for Payment form attached to the Agreement as **Exhibit E.**

4.2. Prior to submitting its first Monthly Application for Payment, Contractor shall submit to County a complete list of all its proposed subcontractors and material men, showing the work and materials involved. The first Application for Payment shall be submitted no earlier than thirty (30) days after Commencement Date.

4.3. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the County in writing, the Application for Payment will subdivide the work into component parts in sufficient detail to serve as the basis for a progress payment and shall also be accompanied by a bill of sale, invoice or other documentation warranting that upon payment by County, the County shall receive the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect County's interest therein, all of which shall be subject to the County's prior written approval.

4.4. Contractor shall submit four (4) copies of its applications for Payment to the County on or about the 25th day of each month for work performed during that month. Contractor shall submit no more than one application for payment each month. Within ten (10) calendar days after receipt of each Application for Payment, the County shall either: (1) indicate approval of the requested payment; (2) indicate approval of only a portion of the requested payment, stating in writing the reasons therefore; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. In the event of a total or partial denial of the Application for Payment, the Contractor may make the necessary corrections and resubmit the Application for Payment for reconsideration within ten (10) calendar days of receiving notice of refusal.

If re-submittal of the Application for Payment is refused, in whole or in part, the Contractor may submit a written request to the County Administrator for an administrative decision within two (2) business days of receiving notice of refusal. Upon receiving a timely request, an administrative decision shall be rendered within ten (10) calendar days with written notification provided to the Contractor.

If the administrative decision is disputed, the Contractor may submit a written request to the County Administrator for an administrative hearing before the Dispute Resolution Committee (DRC) within two (2) business days of receiving said decision. A hearing shall be scheduled within ten (10) business days from the date the request is received, and the Contractor will receive written notice of the hearing date. The DRC may, within its discretion, render a final decision at the hearing or may elect to mail a written decision within a period not to exceed ten (10) calendar days from the hearing date. The DRC's written decision shall be considered administratively final.

The County shall, within twenty (20) business days after County approval of an Application for Payment, pay the Contractor the amounts so approved. Provided, however, in no event shall the County be obligated to pay an amount greater than that portion of the Application for Payment approved by the County.

4.5 County shall retain ten percent (10%) of the gross amount of each monthly payment request or ten percent (10%) of the portion thereof approved by the County for payment whichever is less. The retained sum shall be accumulated and not released to Contractor until final payment is due. Any interim interest on such sums shall accrue to County.

If the Contract Amount is $200,000.00 or less, the following shall apply:

At the County's sole discretion, a percentage of the amount retained from the gross amount of each monthly payment may be reduced prior to final completion of the Project and said percentage released to the Contractor upon receiving a certificate of substantial completion and approval from the Architect/Engineer.

If the Contract Amount is in excess of $200,000.00, the following shall apply:
After fifty percent (50%) completion of Work, the County shall reduce the retainage to five percent (5%) of the gross amount of each monthly payment request or five percent (5%) of the portion thereof approved by the County for payment, whichever is less. After fifty percent (50%) completion of Work, the Contractor may request payment of up to one-half of the retainage held by the County, and the County shall make payment unless there are grounds for withholding the payment of retainage. The County shall not pay or release any amounts that are the subject of a good faith dispute, claim, or demand.

Release of any portion or percentage of sums retained prior to final completion of the

Project shall in no way imply approval or acceptance of Contractor's work.

4.6 Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

4.7 Each Application for Payment shall be accompanied by Release and Affidavit, in the form attached as **Exhibit D**, showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested or have been paid in full. The County shall not be required to make payment until and unless these affidavits are furnished by Contractor.

4.8 Applications for Payment will not be approved unless all submittals required by the Contract documents, up to that point, are provided and "As-Built" record documents are maintained as required by Section 8.2.

Section 5. PAYMENTS WITHHELD

5.1. The County may decline to approve any Application for Payment, or portions thereof, because of subsequently discovered evidence or subsequent inspections. The County may nullify the whole or any part of any approval for payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after three (3) days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

Section 6. FINAL PAYMENT

6.1. County shall make final payment to Contractor within forty- five (45) calendar days after the Work is finally inspected and accepted by County in accordance with Section 20.1 herein, provided that Contractor first, and as an explicit condition precedent to the accrual of Contractor's right to final payment, shall have furnished County with a properly executed and notarized copy of the Release and Affidavit attached as Exhibit D, as well as, a duly executed copy of the Surety's consent to final payment and such other documentation that may be required by the Contract Documents or the County.

6.2. Contractor's acceptance of final payment shall constitute a full waiver of any and all claims by Contractor against County arising out of this Agreement or otherwise relating to the Project, except those previously made in writing and identified by Contractor as unsettled at the time of the final Application for Payment. Neither the acceptance of the Work nor payment by County shall be deemed to be a waiver of County's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the County at the time of final inspection.

Section 7. SUBMITTALS AND SUBSTITUTIONS

7.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. When submitted for the Engineer's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked, and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Documents. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

7.2. Prior to submitting its first Application for Payment, Contractor shall provide to County a CD/DVD in digital format and/or photographs showing the pre-existing conditions located within the limits of construction.

7.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by County from anyone other than Contractor and all such requests must be submitted by Contractor to County within thirty (30) calendar days after Notice to Proceed is received by Contractor.

7.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the County for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the County in evaluating the proposed substitute. The County may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

7.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the County, if Contractor submits sufficient information to allow the County to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the County shall be the same as those provided herein for substitute materials and equipment.

7.6. The County shall be allowed a reasonable time within which to evaluate each proposed substitute. The County shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the County's prior written acceptance, which shall be evidenced by either a Change Order or an approved Shop Drawing. The County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 8. DAILY REPORTS, AS-BUILTS, AND MEETINGS

8.1. Unless waived in writing by County, Contractor shall complete and submit, along with its Application for Payment, to the County on a monthly basis a daily log of the Contractor's work for the preceding month in a format approved by the County. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

8.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions which adversely affect the Work;

8.1.2. Soil conditions which adversely affect the Work;

8.1.3. The hours of operation by Contractor's personnel and subcontractor's personnel;

8.1.4. The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontract and trade;

8.1.5. All equipment present at the Project site, description of equipment use and designation of time equipment was used (specifically indicating any down time);

8.1.6. Description of Work being performed at the Project site;

8.1.7. Any unusual or special occurrences at the Project site;

8.1.8. Materials received at the Project site

The daily log shall not constitute nor take the place of any notice required to be given by Contractor to County pursuant to the Contract Documents.

8.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the County, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to County for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to County by Contractor.

8.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. County, or any duly authorized agents or representatives of County, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 9. CONTRACT TIME AND TIME EXTENSIONS

9.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and material men, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as coordination of all portions of the Work under the Contract Documents.

9.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the County in writing within forty-eight (48) hours after the commencement of such delay. Written supporting data with specific details of Contractor operations, which were delayed, shall be submitted to the County within fifteen (15) calendar days after the occurrence of the delay, unless the County grants additional time in writing for such submittals, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension.

9.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which County may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from County. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against County will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damages For Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

9.4. Requests for delays due to adverse weather conditions shall meet all of the following conditions:

9.4.1. Contractor notified the County in writing within forty-eight (48) hours of the delay.

9.4.2. The weather was unusual as documented by supporting data.

9.4.3. The weather did have an adverse impact on the contractor’s schedule (critical path only).

9.4.4. The Contractor and inspector’s daily logs corroborate the adverse impact. Where a conflict exists between the weather data and the daily reports, the daily reports will take precedence.

Section 10. CHANGES IN THE WORK

10.1. County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost and/or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of County, and County shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of County is authorized to direct any extra or changed work orally.

10.2. A Construction Change Order, in the form attached as **Exhibit F** to this Agreement, shall be issued and executed promptly after an agreement is reached between Contractor and County concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount shall be adjusted in the Change Order in the manner as County and Contractor shall mutually agree.

10.3. If County and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by County in a written Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by County. If Contractor disagrees with the County's adjustment determination, Contractor must make a claim pursuant to Section 11 of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

10.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

10.5. County shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

10.6. The County shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 11. CLAIMS AND DISPUTES

11.1. A Claim is a demand or assertion by one of the parties seeking an adjustment or interpretation of the terms of the Contract Documents, payment of money, extension of time or other relief with respect to the terms of the Contract Documents. The term "Claim" also includes other disputes and matters in question between County and Contractor arising out of or relating to the Contract Documents. The responsibility to substantiate a Claim shall rest with the party making the Claim.

11.2. Claims by the Contractor shall be made in writing to the County within forty-eight (48) hours after the first day of the event giving rise to such Claim or else the Contractor shall be deemed to

have waived the Claim. Written supporting data shall be submitted to the County within fifteen (15) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the Claim. All claims shall be priced in accordance with the provisions of Subsection 10.4.

11.3. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending Claim, action, suit or administrative proceeding, unless otherwise agreed to by the County in writing. County shall continue to make payments in accordance with the Contract Documents pending Claim.

Section 12. OTHER WORK

12.1. County may perform other work related to the Project at the site by County's own forces, have other work performed by utility owners or let other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact with specific details of anticipated costs and delays to County within forty-eight (48) hours of being notified of the other work. Written supporting data of actual need for additional time or additional expense, shall be submitted to the County within fifteen (15) calendar days after completion of other work, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension or adjustment to the Contract Amount.

12.2. Contractor shall afford each utility owner and other contractor (or County, if County is performing the additional work with County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the County and the others whose work will be affected.

12.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or County), Contractor shall inspect and promptly report to County in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 13. INDEMNIFICATION AND INSURANCE

13.1 Contractor shall pay on behalf of or indemnify and hold harmless County and its agents, officers and employees from and against all liabilities, damages, losses, and costs, including attorney's and paralegal fees, incurred by County to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by anyone for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. Contractor's obligation as provided herein shall be limited to its proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor, and Contractor shall not be required to pay on behalf of or indemnify and hold harmless County where County's negligence, recklessness,

or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's fees and paralegal fees.

County and Contractor agree one percent (1%) of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement.

Contractor agrees that such indemnification by Contractor relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any applicable statutes of limitations thereafter. Contractor's obligation to indemnify shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

13.2 Contractor shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in Exhibit C to the Agreement. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and/or responsible risk retention group insurance companies, which are registered with the State of Florida. All commercial insurance carriers providing the Contractor with required insurance shall be a minimum financial size category of VII according to the AM Best Rating Guide, latest edition. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Within ten (10) calendar days after Notice of Award is received by Contractor and prior to the commencement of work, Contractor shall provide County with properly executed Certificates of Insurance to evidence Contractor's compliance with the insurance requirements of the Contract Documents. Said Certificates of Insurance shall be on forms approved by County, such as "Acord Form 25". The Certificates of Insurance shall be personally, manually signed by the authorized representatives of the insurance company/companies shown on the Certificates of Insurance, with proof that they are authorized representatives thereof. Certificates of Insurance shall be mailed to Escambia County in care of: Purchasing Manager, Purchasing Division, P.O. Box 1591, Pensacola, Florida 32597-1591. In addition, certified, true and exact copies of all insurance policies required hereunder shall be provided to County, on a timely basis, when requested by County.

13.3 The Certificates of Insurance and required insurance policies shall contain provisions that thirty (30) days' prior written notice by registered or certified mail shall be given County of any cancellation, intent not to renew, or reduction in the policies or coverages, except in the application of the aggregate limits provisions. In the event of a reduction in the aggregate limit of any policy, Contractor shall immediately take steps to have the aggregate limit reinstated to the full extent permitted under such policy.

13.4 All insurance coverages of the Contractor shall be primary to any insurance or self-insurance program carried by the County applicable to this Project. The acceptance by County of any Certificate of Insurance does not constitute approval or agreement by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the requirements of the Contract Documents. No work shall commence at the Project site unless and until the required Certificates of Insurance are received by the County.

13.5 Contractor shall require each of its subcontractors to procure and maintain, until the completion of the subcontractor's work, insurance of the types and to the limits specified in **Exhibit C**, unless such insurance requirements for the subcontractor is expressly waived in writing by the County.

All liability insurance policies, other than professional liability, worker's compensation and employer's liability policies, obtained by Contractor to meet the requirements of the Contract Documents shall name Escambia County as an additional insured and shall contain Severability of Interest provisions. Escambia County shall also be designated as certificate holder with the address of P. O. Box 1591, Pensacola, Florida 32597-1591. If any insurance provided pursuant to the Contract Documents expires prior to the completion of the Work, renewal Certificates of Insurance and, if requested by County, certified, true copies of the renewal policies shall be furnished by Contractor within thirty (30) days prior to the date of expiration.

13.6 All liability policies shall be underwritten on the "occurrence" basis, unless otherwise approved in writing by the County Division of Risk Management. "Claims made" policies, if approved by the Risk Manager, and subsequent insurance certificates shall provide a "retro-date" which shall include the effective date of the contract. "Claims-made" renewals or carrier and policy replacements shall reflect the original "retro-date."

13.7 Should at any time the Contractor not maintain the insurance coverages required herein, the County may terminate the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge the Contractor for such coverages purchased. The County shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance coverages shall in no way be construed to be a waiver of any of its rights under the Contract Documents.

13.8 Contractor shall submit to County a copy of all accident reports arising out of any injuries to its employees or those of any firm or individual to whom it may have subcontracted a portion of the Work, or any personal injuries or property damages arising or alleged to have arisen on account of any work by Contractor under the Contract Documents.

13.9 Duty to Provide Legal Defense. Contractor shall pay for and provide a legal defense for the County, which shall include attorneys' fees and costs, both of which will be done only if and when requested by the County, for all liabilities, damages, losses, and costs as described in paragraph 13.1 above. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Section 14. COMPLIANCE WITH LAWS

14.1 Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify County in writing. Compliance with the above laws shall include but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Section 102, Standard Specifications for Road and Bridge Construction, Florida Department of Transportation.

14.2 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY): In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to

verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States, except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Section 15. CLEANUP AND PROTECTIONS

15.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by County. Non-compliance with directives of this section may serve as a basis of rejection of Application for Payment.

15.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work.

Section 16. ASSIGNMENT

16.1. Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of County. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward County.

Section 17. PERMITS, LICENSES AND TAXES

17.1. Except as noted in paragraph 17.2 below, all permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to County have been disclosed to Contractor in the bidding documents or other request for proposal at the time the Project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising there from. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

17.2. Permits required for the Work from FDOT, FDEP, the Army Corps of Engineers, and any archeological permitting agency will be paid for and obtained by the County.

17.3. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 18. TERMINATION FOR DEFAULT

18.1. Contractor shall be considered in material default of the Agreement and such default shall be considered cause for County to terminate the Agreement, in whole or in part, as further set forth in this Section, if Contractor: (1) fails to begin the Work under the Contract Documents within the time specified herein; or (2) fails to properly and timely perform the Work as directed by the County or as provided for in the approved Progress Schedule; or (3) performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or (4) discontinues the prosecution of the Work; or (5) fails to resume Work which has been suspended within a reasonable time after being notified to do so; or (6) becomes insolvent or is declared bankrupt, or commits any act of bankruptcy; or (7) allows any final judgment to stand against it unsatisfied for more than ten (10) days; or (8) makes an assignment for the benefit of creditors; or (9) fails to obey any applicable codes, laws, ordinances, rules or regulations with respect to the Work; or (10) materially breaches any other provision of the Contract Documents.

18.2. County shall notify Contractor in writing of Contractor's default(s). If County determines that Contractor has not remedied and cured the default(s) within seven (7) calendar days following receipt by Contractor of said written notice, then County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate Contractor's right to proceed under the Agreement, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of Contractor, take assignments of any of Contractor's subcontracts and purchase orders, and complete all or any portion of Contractor's Work by whatever means, method or agency which County, in its sole discretion, may choose.

18.3. If County deems any of the foregoing remedies necessary, Contractor agrees that is shall not be entitled to receive any further payments hereunder until after the Project is completed. All monies expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses (including attorneys' fees) or damages incurred by County incident to such completion, shall be deducted from the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, Contractor agrees to pay promptly to County on demand the full amount of such excess, including costs of collection, attorney's fees (including appeals) and interest thereon at the maximum legal rate of interest until paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures and damages incurred by the County to complete the Work, such excess shall be paid to the Contractor. The amount to be paid to the Contractor or County, as the case may be, and this obligation for payment shall survive termination of the Agreement.

18.4. The liability of Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained, and obligations assumed by County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, in settlement, discharge or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder.

18.5. If, after notice of termination of Contractor's right to proceed pursuant to this Section, it is determined for any reason that Contractor was not in default, or that its default was excusable, or that County is not entitled to the remedies against Contractor provided herein, then Contractor's remedies against County shall be the same as and limited to those afforded Contractor below under Subsection 19.1, Termination for Convenience.

18.6. If the Contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Contractor in conjunction with this Agreement then the County may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven (7) days' written notice, during which period Contractor still fails to allow access, terminate the employment of the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Contractor, and may finish the project by whatever method it may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the Project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontract work).

Section 19. TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

19.1. County shall have the right to terminate this Agreement without cause upon seven (7) calendar days written notice to Contractor. In the event of such termination for convenience, Contractor's recovery against County shall be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but Contractor shall not be entitled to any other or further recovery against County, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

19.2. County shall have the right to suspend all or any portions of the Work upon giving Contractor two (2) calendar days' prior written notice of such suspension. If all or any portion of the Work is so suspended, Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the Contract Documents. In no event shall the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds three (3) months, the Contractor shall have the right to terminate the Agreement with respect to that portion of the Work which is subject to the ordered suspension.

Section 20. COMPLETION

20.1. Upon receipt of written notice, the County will ascertain whether the work or designated portions thereof are ready for the Engineer's substantial completion inspection. From the Engineer's list of incomplete or unsatisfactory items, a schedule for the County's review will be prepared for their completion indicating such completion dates. The County will issue a Certificate of Substantial Completion when the work on the punch list has been accomplished.

20.2. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the County shall promptly make such inspection and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a Certificate of Final Completion and Recommendation for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit in the form attached as **Exhibit D**, (2) consent of surety to final payment, (3) if required by County, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by County, and (4) a published copy of the Notice of Completion as provided for in this section. County reserves the right to inspect the Work and make an independent determination as to the Work's

acceptability. Unless and until the County is completely satisfied, the final payment shall not become due and payable.

20.3. After the Work is ready for final inspection and acceptance by the County, a legal advertisement must be published by the Contractor in a local newspaper of a general countywide circulation at least thirty (30) days before final payment shall be made. Example of such publication is as follows:

Legal Notice of Completion

Notice is hereby given that the undersigned Contractor has completed and has ready for acceptance by the Board of County Commissioners of Escambia County, Florida, the following construction project:

_____
(Project Name and Address)

_____
(Legal Name and Address - entity of the Contractor)

Subcontractors, material men, and other persons having payment claims against the Contractor relating to this project should govern themselves accordingly.

Section 21. WARRANTY

21.1. Contractor shall obtain and assign to County all express warranties given to Contractor or any subcontractors by any material men supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to County that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within two (2) years after substantial completion and acceptance, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work, which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which County is entitled as a matter of law. The Performance Bond shall remain in full force and effect throughout the two (2) year Warranty Period.

Section 22. PROJECT LAYOUT AND CONTROL

22.1. Engineer will provide survey control, referencing beginning and ending stations, P.C.'s, P.T.'s and intermediate stations at 500 foot intervals. Staking is to be set along control line (base line or centerline of right-of-way, as indicated on plans) or at an offset determined by the Engineer. Bench Marks will be provided at intervals no greater than 1000 feet. The Engineer at the Contractor’s expense shall replace any of these points, which are disturbed or destroyed by the Contractor.

22.2. Contractor shall employ a competent Engineer or Land Surveyor licensed in the State of Florida familiar with construction control procedures to lay out all other parts of the work, and to establish all points, grades and levels necessary to locate the work. The Contractor shall be held responsible for all mistakes that may be caused by his incorrect layout and grade spotting work, or caused by the loss or disturbance of the Engineer's layout work.

22.3. Should the Contractor in the course of the work find that the points, grades, and levels which are shown upon the Drawings are not conformable to the physical conditions of the locality at the proposed work or structure, he shall immediately inform the Engineer of the discrepancy between the actual physical conditions of the locality of the proposed work, and the points, grades and levels which are shown on the Drawings. No claim shall be made by the Contractor against the Owner for compensation or damage by reasons for failure of the Engineer to represent upon said Drawings, points, grades and levels conformable to the actual physical conditions of the locality of the proposed work.

Section 23. TESTS AND INSPECTIONS

23.1. County, its respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide County with timely notice of readiness of the Work for all required inspections, tests or approvals.

23.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish County the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.

23.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the County, such work must, if requested by County, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given County timely notice of Contractor's intention to cover the same and County has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from County, such Work must, if requested by County, be uncovered for County's observation and be replaced at Contractor's sole expense.

23.4. Neither observations by the County nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with the Contract Documents.

23.5. Prior to payment for any Work for which testing is specified, Contractor shall provide the County a copy of reasonably acceptable test results relating to such work as required by the technical specifications of the solicitation.

Section 24. DEFECTIVE WORK

24.1. Work not conforming to the requirements of the Contract Documents shall be deemed defective Work. If required by County, Contractor shall, as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by County, remove it from the site and replace it with acceptable Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold County harmless for same.

24.2. If the County considers it necessary or advisable that covered Work be observed by County or inspected or tested by others, Contractor, at County's request, shall uncover, expose or otherwise make available for observation, inspection or tests as County may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and County shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

24.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, County may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of County to stop the Work shall not give rise to any duty on the part of County to exercise this right for the benefit of Contractor or any other party.

24.4. Should the County determine, at its sole opinion, it is in the County's best interest to accept defective Work, the County may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the County's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the County accepts such defective Work after final payment, Contractor at the discretion of the County shall promptly pay County an appropriate amount to adequately compensate County for its acceptance of the defective Work or shall increase in the Work's warranty period beyond two (2) years.

24.5. If Contractor fails, within a reasonable time after the written notice from County, to correct defective Work or to remove and replace rejected defective Work as required by County, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, County may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, County may exclude Contractor from any or all of the Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which County has paid Contractor but which are stored elsewhere. Contractor shall allow County, and their respective representatives, agents, and employees such access to the Project site as may be necessary to enable County to exercise the rights and remedies under this Subsection. All direct, indirect and consequential costs of

County in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by County of County's rights and remedies hereunder.

Section 25. SUPERVISION AND SUPERINTENDENTS

25.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent acceptable to the County, who shall not be replaced without prior written notice to County except under extraordinary circumstances. The resident superintendent shall possess Florida Department of Transportation approved training and certifications applicable to the Work, including but not limited to National Pollutant Discharge Elimination System (NPDES) Stormwater Management and Maintenance of Traffic Control Devices. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. County shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 26. PROTECTION OF WORK

26.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

26.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 27. EMERGENCIES

27.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from County is obligated to act to prevent threatened damage, injury or loss. Contractor shall give County written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the County determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

Section 28. USE OF PREMISES

28.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

28.2. Contractor shall provide and maintain in a neat, sanitary condition such accommodation for the use of his employees as may be necessary to comply with the regulations of the State Board of Health or other bodies having jurisdiction. He shall commit no public nuisance.

Section 29. SAFETY

29.1. The Contractor shall designate in writing the individual responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

29.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

29.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

29.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

29.2. The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by County has occurred.

29.3 The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.

29.4 The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in **Exhibit C** of this Agreement.

Section 30. PROJECT MEETINGS

Prior to the commencement of Work, the Contractor shall attend a pre-construction conference

with the County to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the County with respect to the Project, when directed to do so by County. Contractor shall have its subcontractors and suppliers attend all such meetings (including the pre-construction conference) as may be directed by the County.

EXHIBIT C
INSURANCE AND SAFETY

INSURANCE - BASIC COVERAGES REQUIRED

The Contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such on policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the Contract Documents, whether such services, work and operations be by the Contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The Contractor shall require, and shall be responsible for assuring throughout the time the Agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the Contractor. The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the Contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the Contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The Contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The Contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The Contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid

certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile And Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.
Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage
Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be

considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability and automobile liability policies.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of $1,000.
4. Designate Escambia County as the certificate holder as follows:
   Escambia County
   Attention: Paul R. Nobles, CPPO, CPPB, Purchasing Manager
   Office of Purchasing
   P.O. Box 1591
   Pensacola, FL 32597-1591
   Fax (850) 595-4806
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

MINIMUM PROJECT SAFETY REQUIREMENTS

The following safety requirements represent the minimum condition, which shall be met by all Contractors and subcontractors performing work for Escambia County: Reported or observed violations of Federal and State laws and regulations, or County ordinances shall be brought to the attention of the County project manager and County's Department of Safety and Risk Services and shall be immediately corrected by the Contractor. Additionally, the County may order work to be stopped if conditions exist that present immediate danger to persons or property. The Contractor acknowledges that any such stoppage will not shift responsibility for any damages from the Contractor to the County. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the County's Department of Safety and Risk Services for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

(1) Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the County a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

(2) The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including County and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

(3) The Contractor shall provide all necessary safety equipment for County staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

(4) Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of County staff, visitors, and the general public while operating work vehicles at a "controlled" construction site. Where conditions warrant, or at the request of the County, temporary barriers shall also be established for these traffic areas.

(5) The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to County staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE; ANYONE TRESPASSING ON THIS PROPERTY SHALL, UPON CONVICTION, BE GUILTY OF A FELONY; "A DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY," and other general safety warning signs, i.e., "HARD HAT AREA," as are deemed necessary by the Contractor and project manager.

(6) In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the County safety Office. Alternative measures may include, but are not limited to, working during "off 'hours such as nights, weekends, or holidays, or the providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the County).

(7) The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the County's Department of Safety and Risk Services and the appropriate life safety code inspector), shall the life safety code components of an occupied facility be reduced or otherwise compromised.

A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor and County's Department of Safety and Risk Services as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

- When a project alters a building's fire protection compartment features, such as fire barriers, smoke barriers, or corridor walls, exits must provide free and unobstructed egress. Employees shall receive notice if any alternative exits have been designated. Buildings or areas under construction must maintain escape egress for construction workers at all times. These means of egress shall be inspected daily by the Contractor.

- When a project affects fire alarms, fire detection, or fire suppression systems, of a building that is occupied, the Contractor must ensure that such systems are not functionally impaired. Any temporary systems, which are installed, must be inspected and tested monthly by the Contractor. Employees must be notified when such temporary systems are in place.

- When any sources of ignition are present, such as welding torches, smoking by all persons shall be prohibited on any construction site and in any County facility.

(8) Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

(a) The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the County's Department of Safety and Risk Services. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

(b) Material Safety Data Sheets (MSDS) shall be provided to the County's Department of Safety and Risk Services for all hazardous substances used on the project or brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

(c) Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

(d) The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

(9) The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing County 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

(10) The Contractor agrees and understands that all County construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or County regulatory agencies.

(11) The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

(12) Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

(13) Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior written approval from the County's Department of Safety and Risk Services shall be obtained before their use.

(14) The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic,

cadmium, mercury, selenium), on the work site shall be avoided. Prior written approval for use of these metals shall be obtained by the Contractor from the County's Department of Safety and Risk Services.

(15) The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and County's Department of Safety and Risk Services for review.

(16) The County contracts out the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager and the County's Department of Safety and Risk Services.

(17) The above-cited guidelines represent minimum expectations and actions, which shall be taken by Contractors while under contract for County construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager and County's Department of Safety and Risk Services.

EXHIBIT G
PAYMENT ADJUSTMENT - BITUMINOUS MATERIALS.

1. The bid unit price for Bituminous Material will be adjusted to reflect changes, both increases and decreases, in the Asphalt Index price of bituminous material from that in effect during the month in which bids were received for this contract. The Contractor will not be given the option to reject this cost adjustment of Bituminous Materials. This adjustment will be made in accordance with the following criteria:

1.1. Price adjustments will apply only to the price of bituminous material F. O. B. manufacturer's asphalt terminal and will not reflect variations in the cost of transportation from the terminal to the job site.

1.2. Price adjustments will be made for all bituminous material incorporated into asphalt pavement whether paid for under a separate bid item or under other items, which include the cost of bituminous material.

1.3. Price adjustments will not be made until the semi-final or final payment is made on the contract. The bid unit price for bituminous material will be used in preparing monthly progress payments.

1.4. No price adjustment reflecting any further increases in the cost of bituminous material will be made for any month after expiration of the allowable contract time, including any extensions that may be granted.

1.5. The adjusted unit price shall be calculated for the month during which the material was incorporated into the project in accordance with the following formula:

Pa ' PbX(Id-Ib) where:

Pa ' Adjusted unit price for Bituminous Material. (To be calculated separately for each month during which bituminous material is used and will reflect an increased or decreased price.)

Pb ' Bid unit price for Bituminous Material.

Id ' Asphalt Price Index during the month in which the material is incorporated into the project.

Ib ' Asphalt Price Index during the month in which bids were received for this contract.

1.6. The County will determine the Asphalt Price Index for each month. The Index shall be determined by averaging quotations in effect on the first day of the month at all terminals, which could reasonably be expected to furnish bituminous material to projects in the State of Florida.

1.7. A price adjustment will be made only when the current Asphalt Price Index varies by 5% or more from the Index that was applicable when bids were received or 5% or more from when the last previous adjustment was made.

The Asphalt Price Index to be used by the County will be that used by the Florida Department of Transportation, as available from them after the 15th of each month.

2.1 Negotiations pertaining to hourly rates for professional services to be performed by the Consultant were undertaken between the Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiations.

2.2 The Board of County Commissioners has met the requirements of Section 287.055, Florida Statutes, as amended, the Consultants' Competitive Negotiation Act, and has selected CH2M Hill, Inc., to perform such services hereunder.

2.3 Escambia County will budget funds for each task order issued under the Agreement.

ARTICLE 3
SCOPE OF SERVICES

3.1 The Consultant will provide Professional Services as Governed by Florida Statute 287.055 as hereinafter described in this Article 3 for tasks outlined in Escambia County's RFP Specification No. P.D. 02-03.79. ARTICLE 4
ORDERING OF THE WORK

4.1 The Consultant is one of several firms selected to perform professional services on same or similar terms pursuant to this Agreement. 4.2 The scope of work, provided by the County, will constitute the basis for negotiation of each task order. When requested by the County, the Consultant will provide a proposal to the County to perform the services requested under this scope of work. The County and the Consultant will enter negotiations to determine a fair and reasonable number of hours, by discipline, for such requested services pursuant to Section 3.2.

In the event a mutually agreeable number of hours cannot be reached, the Consultant will be requested to provide a best and final offer to the County. If this best and final offer is not acceptable to the County, negotiations will cease with the Consultant, and the County will open negotiations for the same scope of work with another firm.

As part of the replacement of the Occie Phillips Road Over Brushy Creek Bridge, the roadway approaches should be resurfaced/reconstructed as appropriate, but as a minimum to the extent of the new guardrail. At the project location, the existing roadway typical section consists of a 20' wide unpaved (clay) roadway with no shoulders. The existing bridge typical section is approximately 24' wide by 75' long. The new structure shall be constructed along the existing horizontal alignment.

One roadway typical section and one bridge typical section will be required for this project. The new roadway and bridge typical sections will meet Florida Greenbook requirements for lane and shoulder widths. The Consultant shall provide an approved signed and sealed Typical Section Package to be submitted to the County for review and concurrence prior to the 30% plans submittal date.

Right of way acquisition is necessary in order to construct the new roadway and bridge typical sections. As early as possible, the Consultant shall provide maps or plan sheets to the FDOT Project Manager, District Survey Office and the County Surveyor reflecting the requirements for additional right of way. The FDOT Project Manager for Survey, Mapping and Right of Way activities associated with this project is Mrs. Nikole Arrant, PE, HNTB (850.415.9017), narrant@hntb.com. The

A No Passing Zone Study will not be required.

The Consultant shall coordinate and develop a Maintenance of Traffic (MOT) plan during all field activities, including Survey and Geotechnical Field Investigations.

An onsite temporary diversion will be utilized at the project location to facilitate bridge replacement. The Consultant shall coordinate with the County to determine the type and availability of temporary bridge components before deciding on the temporary bridge type to be used. The Consultant shall design a safe and effective Traffic Control Plan (TCP) to move vehicular and pedestrian traffic during all phases of construction. The design shall include construction phasing of roadways ingress and egress to existing property owners and businesses, routing, signing and pavement markings, roadway pavement, drainage structures, ditches, front slopes, back slopes, drop offs within clear zone, and traffic monitoring sites. Special consideration shall be given to the construction of the drainage system when developing the construction phases. Positive drainage must be maintained at all times.

The Consultant shall be responsible for producing a construction cost estimate and reviewing and updating the cost estimate when scope changes occur and/or at milestones of the project (30%, 60% 90%, etc.).

The Consultant shall attend all technical meetings necessary to execute the scope of services.

The Consultant should review all existing features within the project limits for a functional design that will meet Florida Greenbook design standards, as well as the Escambia County Land Development Code Design Standards Manual, and make a determination as to whether a design variation or exception is appropriate. Conditions may be identified during design that may warrant design variations or exceptions. The Consultant is to submit the requests for variations and exceptions to the County as early as possible for approval in order to minimize potential schedule delays.

5. Survey

The Consultant and Surveyor shall communicate with the District Survey Office and the County Surveyor to determine the appropriate survey requirements for this project based on the anticipated limits of construction and the proposed scope of work. The Consultant shall provide a basic graphic depiction and/or description of areas needed for topographical

survey, DTM, cross sections, utilities, drainage structures, pavement markings, and wetland lines. Aerial imagery is recommended.

The Consultant shall submit all survey notes and computations to document the surveys. All field survey work shall be recorded in approved media and submitted to the District Survey Office and County Surveyor. Field data submitted to the District Survey Office must be of an approved type. The field data shall be certified by the surveyor in responsible charge of work being performed before the final product is submitted.

The survey notes shall include documentation of decisions reached from meetings, telephone conversations or site visits. All like work (such as bench lines, reference points, etc.) shall be recorded contiguously. The District Survey Office may not accept field survey radial locations of section corners, platted subdivision lot and block corners, alignment control points, alignment control reference points and certified section corner references. The District Survey Office may instead require that these points be surveyed by true line, traverse or parallel offset.

The following activities will be performed by the Consultant. Refer to the District 3 (D3) Survey Guidelines for requirements.

- Horizontal Project Control (HPC),
- Vertical Project Control (VPC),
- Alignment and/or Existing Right of Way Lines,
- Reference Points,
- Topography/Digital Terrain Model (DTM)(3D),
- Planimetric (2D),

Official County-maintained right of way is to be determined for this project and Maintenance Maps prepared and provided to the District Survey Office and County Surveyor. Maintained right of way lines,

including stations and offset dimensions at breaks, will be shown on all plan sheets.

6. Mapping

The Consultant will be responsible for the preparation of control survey maps, right of way maps, maintenance maps, sketches, other miscellaneous survey maps, and legal descriptions as required for this project in accordance with all applicable FDOT Manuals, Procedures, Handbooks, District-specific requirements, County requirements and Florida Statutes. All maps, surveys and legal descriptions will be prepared under the direction of a Florida Professional Surveyor and Mapper (PSM) to FDOT size and format requirements utilizing FDOT approved software, and will be designed to provide a high degree of uniformity and maximum readability.

The Consultant will submit maps, legal descriptions, quality assurance check prints, checklists, electronic media files and any other documents as required for this project to the County Surveyor for review, and to the District Survey Office for review and approval.

As early as possible, the Consultant shall provide maps or plan sheets accompanied by a *.kmz file reflecting the requirements for additional right of way. The right of way requirements submittal shall identify, via highlighting in varying colors (not yellow), the County-maintained right of way, required right of way, temporary construction easements (TCEs), perpetual easements, intended license agreements (LAs), and limits of construction. In addition, this submittal will indicate in some way whether the submittal is draft or final. The initial, draft requirements submittal and subsequent draft requirements submittals can be submitted electronically to the FDOT Project Manager, the District Survey Office, and the County Surveyor. An updated *.kmz file is expected with each resubmittal. The requirements are not considered final until indicated by the Department. Once the requirements are approved, the Consultant shall designate each sheet as “final” and electronically transmit to the FDOT Project Manager, District Survey Office, and County Surveyor in *.pdf format (the file name shall include the FPID number).

The County-maintained right of way is to be determined for this project and Maintenance Maps prepared and provided to the District Survey Office and County Surveyor. Prior to establishing maintained right of way in the field, the Consultant shall notify the FDOT Project Manager, District Survey Office, and/or District Mapping Office to request a representative from the Department be present, if needed, to ensure the maintained right of way is established properly. A representative from the County and/or County Surveyor will need to be present.

Depending on the TIITF determination, a TIITF sketch may be required for the project. The Consultant will be responsible for preparing the TIITF sketch, if required.

The following files will be provided by the Consultant:

- Master CADD File:
    - Alignment,
    - Section and 1/4 Section Lines,
    - Existing Right of Way,
    - Topography,
    - Proposed Right of Way Requirements,

This sheet(s) may be included with the Control Survey Map, Right of Way Map and Maintenance Map.*
- Miscellaneous Surveys and Sketches:
    - TIITF Sketches,
    - Right of Way Monumentation Map.

7. Right of Way

A Project Agreement will be executed between the County and the FDOT, which will allow the FDOT to purchase right of way in the County's name, as well as establish the responsibility of future maintenance activities. The individual to lead this coordination will be Mrs. Nikole Arrant, PE, HNTB (850.415.9017), narrant@hntb.com.

8. Permitting

The Consultant shall be responsible for the identification, coordination and applications for all permits necessary to construct this project. The Consultant shall field inspect the project for the structural condition of all side drains, cross drains, and drainage under the roadway area and make recommendations concerning repairs, extensions, replacement/upgrade, or removal of such facilities consistent with the Escambia County Land Development Code, Design Standards Manual for Stormwater. Drainage structures shall be assessed and designed to meet clear zone requirements within existing right of way or a design variation or exception must be obtained. The Consultant shall contact and document discussions with the local maintaining agency regarding historical drainage problems in the project area.

The Consultant shall develop a drainage basin map based upon available information and field reviews to be used in defining the system hydrology. The available information should consist of old plans, USGS Quadrangles, USGS Studies, NWFWMD Studies, FEMA Studies, Local Government Agency Studies or Contours, etc. This map shall incorporate drainage basin boundaries, existing survey and/or LiDAR and field observations, as necessary, to define the system. Basin delineations shall also include any existing collection systems in a logical manner to aid in the development of the hydraulic model. The drainage map should be included in the Hydraulic

Design Study. The Hydrology should be by regional or local regression equations, or by the rational method. An assumed velocity should not be used. The Consultant shall document the Drainage Design in the Drainage Design Study (23CFR650A).

The Consultant has the responsibility for determining the need, appropriate locations, and sizes for water management facilities and drainage outfalls, consistent with the Escambia County Land Development Code, Design Standards Manual for Stormwater.

Flood data requirements will need to be determined. Flood data will be required in plans under the following conditions 1) necessary for all structures that are being modified, 2) necessary for all structures that have a history of flooding or other hydraulic problems even if the structure is not to be modified, 3) necessary for structures that may not be modified but share a drainage basin with another structure being modified and are being impacted by such modification.

Prior to Phase II (60%) plans submittal, the Consultant shall meet with the County Stormwater Engineering Manager. The purpose of this meeting is to provide information to the Consultant that will better coordinate the Preliminary and Final Drainage Design efforts.

The Consultant shall provide the County Stormwater Engineering Manager a signed and sealed Drainage Design Study. All testing and classification will be performed in accordance with applicable County standards, ASTM Standards or AASHTO Standards, and the Florida Department of Transportation Soils and Foundations Handbook, unless otherwise specified.

The Consultant shall develop a detailed boring location plan and meet with the County, if requested, for boring plan approval. Auger borings with water table readings, Standard Penetration Test (SPT) borings with water table

readings, SPT borings for bridge decks, and Cone Pentrometer Test (CPT) soundings with water table readings shall be performed, as applicable. The Consultant shall stake borings and cores and obtain utility clearance.

Laboratory test results should be tabulated for inclusion in the geotechnical report and for the necessary calculations and analyses.

The Consultant shall review encountered groundwater levels, estimate seasonal high groundwater levels, and evaluate groundwater levels for structure design. The evaluation, selection, detailed analysis and basis of the selected foundation alternative shall be provided in a Geotechnical Report and the BDR.

The Consultant shall draft the detailed boring/sounding standard sheet, including environmental classification, results of laboratory testing, and specialized construction requirements, for inclusion in final plans. The Consultant shall prepare a complete set of drawings to include all SPT borings, auger borings and other pertinent soils information in the plans and Final Geotechnical Report. The final reports, special provisions, as well as record prints, will be signed and sealed by a Professional Engineer licensed in the State of Florida.

The Consultant will be responsible for utility coordination associated with this project. The Consultant will identify which utilities exist within the corridor during the survey phase by calling Sunshine 811. A copy of the Sunshine 811 “design” ticket listing all utility owners within the project limits shall be provided to the County.

Once the draft design is apparent, the Consultant shall determine if any additional survey is required with regard to utility designations in order to provide an adequate design and accurate quantities. The Consultant will coordinate with the District Survey Office to determine how much additional survey is required and what is the most economical method of obtaining the additional data.

The Consultant will be responsible for showing areas that may be affected by construction. The Consultant will evaluate utilities for potential impacts and prepare a Utility Conflict Matrix. TERMS FOR FEDERAL AID CONTRACTS (APPENDIX I):

The following terms apply to all contracts in which it is indicated that the services involve the expenditure of federal funds:

A. It is understood and agreed that all rights of the Local Agency relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.

B. All tracings, plans, specifications, maps, computer files and/or reports prepared or obtained under this Agreement, as well as all data collected, together with summaries and charts derived therefrom, will be considered works made for hire and will become the property of the Agency upon completion or termination without restriction or limitation on their use and will be made available, upon request, to the Agency at any time during the performance of such services and/or completion or termination of this Agreement. Upon delivery to the Agency of said document(s), the Agency will become the custodian thereof in accordance with Chapter 119, Florida Statutes. The Consultant will not copyright any material and products or patent any invention developed under this agreement. The Agency will have the right to visit the site for inspection of the work and the products of the Consultant at any time.

C. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of the U.S. Department of Transportation, anything to the contrary in this Agreement not withstanding.

D. The consultant shall provide access by the Florida Department of Transportation (recipient), the Agency (subrecipient), the Federal Highway Administration, the U.S. Department of Transportation's Inspector General, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the consultant which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

E. Compliance with Regulations: The Consultant shall comply with the Regulations: relative to nondiscrimination in Federally-assisted programs of the U.S. Department of Transportation Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.

F. Nondiscrimination: The Consultant, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of material and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

G. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations made by the Consultant, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.

H. Information and Reports: The Consultant will provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish this information, the Consultant shall so certify to the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

I. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this contract, the Local Agency shall impose such contract sanctions as it or the Florida Department of Transportation, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to,

   1. withholding of payments to the Consultant under the contract until the Consultant complies and/or

   2. cancellation, termination or suspension of the contract, in whole or in part.

J. Incorporation or Provisions: The Consultant will include the provisions of Paragraph C through K in every subcontract, including procurements of materials and leases of equipment unless exempt by the Regulations, order, or instructions

issued pursuant thereto. The Consultant shall take such action with respect to any subcontract or procurement as the Local Agency, Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions, including sanctions for noncompliance. In the event a Consultant becomes involved in, or is threatened with, litigation with a subconsultant or supplier as a result of such direction, the Consultant may request the Local Agency to enter into such litigation to protect the interests of the Local Agency, and, in addition, the Consultant may request the United States to enter into such litigation to protect the interests of the United States.

K. Compliance with Nondiscrimination Statutes and Authorities: Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms “programs or activities” to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 -- 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration’s Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). I certify that I have no present conflict of interest on the projects identified below, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation of any consultant/contractor/vendor for selection on any contract if I have a conflict of interest or a potential conflict of interest. As set forth in Sections 112.313 and 334.193, Florida Statutes, employees of the Department may not have any interest, financial or otherwise, direct or indirect; engage in any business transaction or professional activity; or accept any obligation of any kind which is in conflict with the proper conduct of their duties in the public interest.

I recognize that employees are expected to honor the ethical obligations inherent in public service. These obligations go beyond mere legal obligations and demand from the employee a greater sensitivity to his or her conduct, as well as the public's perception of such conduct.

Employees are expected to safeguard their ability to make objective, fair, and impartial decisions, and therefore may not accept benefits of any sort under circumstances in which it could be inferred by a reasonable observer that the benefit was intended to influence a pending or future decision of theirs, or to reward a past decision. Employees should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I will maintain the confidentiality of all information not made public by the Florida Department of Transportation ("Department") related to the procurement of the above-referenced ("Project") that I gain access to as a result of my involvement with the Project ("Procurement Information"). I understand that Procurement Information includes, but is not limited to, documents prepared by or for the Department related to procurement of the Project. I also understand that Procurement Information includes, but is not limited to, documents submitted to the Department by entities seeking an award of the Project ("Proposers"). I understand that Procurement Information may include documents submitted by Proposers related to letters of response/letters of interest, technical proposals, price proposals, financial proposals, and information shared during exempt meetings. I also understand that Procurement Information may also include documents that evaluate or review documents submitted by Proposers, and information regarding Project cost estimates. I also agree not to discuss the Project with anyone who is a member of or acting on behalf of a Proposer.

Unless so ordered by a court of competent jurisdiction or an opinion of the Office of the Florida Attorney General, I will not divulge any Procurement Information except to individuals who have executed a Conflict of Interest/Confidentiality Certification which has been approved by the Department ("Project Personnel"). I understand that a list of Project Personnel will be maintained by Department. If I am contacted by any member of the public or the media with a request for Procurement Information, I will promptly forward such request to the Department's Procurement Office. I will also maintain security and control over all documents containing Procurement Information which are in my custody.

I agree not to solicit or accept gratuities, unwarranted privileges or exemptions, favors, or anything of value from any firm under consideration for an agreement associated with the Project, and I recognize that doing so may be contrary to statutes, ordinances, and rules governing or applicable to the Department or may otherwise be a violation of the law.

I agree not to engage in bid tampering, pursuant to Section 838.22, Florida Statutes.

I realize that violation of the above mentioned statutes would be punishable in accordance with Section 112.317, Section 334.193, or Section 838.22, Florida Statutes, and could result in disciplinary action by the Department.

CONFLICT OF INTEREST/CONFIDENTIALITY CERTIFICATION FOR CONSULTANT/CONTRACTOR/TECHNICAL ADVISORS

I certify that I have no present conflict of interest, that I have no knowledge of any conflict of interest that my firm may have, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation on any contract if I have a conflict of interest or a potential conflict of interest.

Consultants/Contractors are expected to safeguard their ability to make objective, fair, and impartial decisions when performing work for the Department, and therefore may not accept benefits of any sort under circumstances in which it could be inferred by a reasonable observer that the benefit was intended to influence a pending or future decision of theirs, or to reward a past decision. Consultants performing work for the Department should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I will maintain the confidentiality of all information not made public by the Florida Department of Transportation ("Department") related to the procurement of the above-referenced ("Project") that I gain access to as a result of my involvement with the Project ("Procurement Information"). I understand that Procurement Information includes, but is not limited to, documents prepared by or for the Department related to procurement of the Project. I also understand that Procurement Information includes, but is not limited to, documents submitted to the Department by entities seeking an award of the Project ("Proposers"). I understand that Procurement Information may include documents submitted by Proposers related to letters of response/letters of interest, technical proposals, price proposals, financial proposals, and information shared during exempt meetings. I also understand that Procurement Information may also include documents that evaluate or review documents submitted by Proposers, and information regarding Project cost estimates. I also agree not to discuss the Project with anyone who is a member of or acting on behalf of a Proposer.

Unless so ordered by a court of competent jurisdiction or an opinion of the Office of the Florida Attorney General, I will not divulge any Procurement Information except to individuals who have executed a Conflict of Interest/Confidentiality Certification which has been approved by the Department ("Project Personnel"). I understand that a list of Project Personnel will be maintained by Department. If I am contacted by any member of the public or the media with a request for Procurement Information, I will promptly forward such request to the Department's Procurement Office. I will also maintain security and control over all documents containing Procurement Information which are in my custody.

I agree not to solicit or accept gratuities, unwarranted privileges or exemptions, favors, or anything of value from any firm under consideration for an agreement associated with the Project, and I recognize that doing so may be contrary to statutes, ordinances, and rules governing or applicable to the Department or may otherwise be a violation of the law.

I agree not to engage in bid tampering, pursuant to Section 838.22, Florida Statutes.

I realize that violation of the above mentioned standards could result in the termination of my work for the Department. I further realize that violation of the above mentioned statute would be punishable in accordance with Section 838.22, Florida Statutes..

Instructions for Certification

Instructions for Certification - Lower Tier Participants:
(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost $25,000 or more - 2 CFR Parts 180 and 1200)
a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.

b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.

d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. “First Tier Covered Transactions” refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). “Lower Tier Covered Transactions” refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). “First Tier Participant” refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). “Lower Tier Participant” refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).

e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the $25,000 threshold.

g. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (https://www.epls.gov/), which is compiled by the General Services Administration.

h. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

i. Except for transactions authorized under paragraph e of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

DBE BID PACKAGE INFORMATION

DBE Utilization

The Department began its DBE race neutral program January 1, 2000. **Contract specific goals are not placed on Federal/State contracts;** however, the Department has an overall 10.65% DBE goal it must achieve. In order to assist contractors in determining their DBE commitment level, the Department has reviewed the estimates for this letting.

As you prepare your bid, please monitor potential or anticipated DBE utilization for contracts. When the low bidder executes the contract with the Department, information will be requested of the contractor's DBE participation for the project. While the utilization is not mandatory in order to be awarded the project, continuing utilization of DBE firms on contracts supports the success of Florida's DBE Program, and supports contractors' Equal Employment Opportunity and DBE Affirmative Action Programs.

Any project listed as 0% DBE availability does not mean that a DBE may not be used on that project. A 0% DBE availability may have been established due to any of the following reasons: limited identified subcontracting opportunities, minimal contract days, and/or small contract dollar amount. Contractors are encouraged to identify any opportunities to subcontract to DBE's.

Please contact the Equal Opportunity Office at (850) 414-4747 if you have any questions regarding this information. Forms may be downloaded at: **www.dot.state.fl.us/proceduraldocuments/ .**

DBE Reporting

If you are the prime contractor on a project, enter your DBE participation in the Equal Opportunity Compliance system prior to the pre-construction or pre-work conference for all federal and state funded projects. This **will not** become a mandatory part of the contract. It will assist the Department in tracking and reporting planned or estimated DBE utilization. During the contract, the prime contractor is required to report actual payments to DBE and MBE subcontractors through the web-based Equal Opportunity Compliance (EOC) system.

All DBE payments must be reported whether or not you initially planned to utilize the company. In order for our race neutral DBE Program to be successful, your cooperation is imperative. If you have any questions, please contact EOOHelp@dot.state.fl.us.

Bid Opportunity List

The Federal DBE Program requires States to maintain a database of all firms that are participating or attempting to participate on FDOT-assisted contracts. The list must include all firms that bid on prime contracts or bid or quote subcontracts on FDOT-assisted projects, including both **DBE's and non-DBEs.**

Please complete the Bidders Opportunity List through the Equal Opportunity Compliance system within 3 business days of submission of the bid or proposal for ALL subcontractors or sub-consultants who quoted to you for specific project for this letting. The web address to the Equal Opportunity Compliance system is:
https://www3.dot.state.fl.us/EqualOpportunityCompliance/Account.aspx/LogIn?ReturnUrl=%2fEqualOpportunityCompliance%2f .

DBE/AA Plans

Contractors bidding on FDOT contracts are to have an approved DBE Affirmative Action Plan (FDOT Form 275-030-11B) on file with the FDOT Equal Opportunity Office before execution of a contract. DBE/AA Plans must be received with the contractors bid or received by the Equal Opportunity Office prior to the award of the contract.

Plans are approved by the Equal Opportunity Office in accordance with Ch. 14-78, Florida Administrative Code. Plans that do not meet these mandatory requirements may not be approved. Approvals are for a (3) three year period and should be updated at anytime there is a change in the company's DBE Liaison Officer and/or President. Contractors may evidence adoption of the DBE/AA Policy and Plan and/or a change in the designated DBE Liaison officer as follows:

- Print the first page of the document on company stationery ("letterhead") that indicates the company's name, mailing address, phone number, etc.
- Print the company's name in the "___" space; next to "Date" print the month/day/year the policy is being signed; record the signature of the company's Chief Executive Officer, President or Chairperson in the space next to "by" and print the full first and last name and position title of the official signing the policy.
- Print the DBE Liaison's full name, email address, business mailing address and phone number the bottom of email.

E-mail the completed and signed DBE AA Plan to: **eeoforms@dot.state.fl.us.**

The Department will review the policy, update department records and issue a notification of approval or disapproval; a copy of the submitted plan will not be returned to the contractor.

In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is $_____.

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

ARTICLE 3
SCOPE OF WORK

The Consultant will provide certain professional consultant services for the tasks outlined in Escambia County's Request for Letters of Interest (RLI) in Specification No. PD 17-18.023, Design Services for OC Phillips Road Over Brushy Creek Bridge (484029), and as represented in the Consultant's Letter of Interest response to PD 17-18.023, subsequent interview, and proposal presentation. In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

(c) If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

3.4 The Consultant shall accomplish the design services required under this Agreement so as to permit the award of a contract at a price that does not exceed the estimated construction contract price as set forth in paragraph (b) below. When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is $2,300,000.00.

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

ARTICLE 4
TIME FOR PERFORMANCE

4.1 The schedule for completion of the Consultant's services shall be in accordance with Exhibit "B," which is attached hereto and made a part hereof. Such schedule may be modified from time to time upon the mutual consent of the County and the Consultant.

SUE Surveying

American's SUE subconsultant will conduct all surveying services related to ASCE Quality Level "A" locating of subsurface utilities. This includes field surveying all test holes excavated. The survey will be performed using EFB data collecting software, using a segment within the survey database that does not conflict with the topographic survey being performed under Task 400.

The deliverable will be an updated 2D UTEXRD01.dgn file with the ASCE Quality Level "A" Locating (VVH test holes) having been added for American to again reference into their design plans. In addition, American's SUE subconsultant will provide a test hole data sheet, updated Subsurface Utility report and a Utility Verification sheet. The Utility Verification sheet can be inserted directly into the American plan set. The aforementioned deliverables will also be provided to SSMC for SSMC to incorporate into the survey deliverable as described under Task 400.

The final UTEXRD01 deliverable shall be in AutoCAD format (DWG).

TASK 1202 – SUPPLEMENTAL GEOTECHNICAL INVESTIGATION

If poor, erratic, or unanticipated subsurface conditions are encountered in the four abutment borings, two additional borings could be drilled in the center of the bridge. These borings would be drilled by coring through the existing concrete, setting a PVC casing through the core hole and driving it into the stream bed, and then drilling through the casing using the "mud" jetting technique and a Bentonite drilling mud. These two additional borings would be drilled to a depth of 120 feet below the existing bridge deck surface. Upon the completion of drilling, the bottom of the core holes would be filled with a plug and then topped with concrete.

In accordance with Board Policy adopted on September 16, 2013, regarding the posting of pending vehicle and equipment purchases sourced from the State of Florida Contract, Federal Schedules, or other Purchasing Cooperative Contracts sanctioned for use by Escambia County, Florida, Board of County Commissioners to allow for local vendors to make offers that meet or beat the stated purchase price, specification for VE 18-19.005, Public Safety EMS Department Purchase of three 2019 International MV607 SBA LP Horton Ambulances was posted beginning on December 17, 2018, for a period of thirty days. No bids were received.

The Public Safety EMS Department originally requested a quote from Horton for four ambulances. During the process of creating the advertisement, the department requested that the quantity be increased to eight units. A new quote was received and there was no change in the pre-unit price. Eight units were posted in the solicitation/advertisement on the County web site. Once the thirty-day period passed, the department requested that the recommendation for purchase be made for just three units.

In order to establish the background, context, and frame of reference for this Agreement and to generally express the objectives and intentions of the respective parties herein, the following statements, representations, and explanations shall be accepted as predicates for the undertakings and commitments included within the provisions which follow and may be relied upon by the parties as essential elements of the mutual considerations upon which this Agreement is based.

2.1 Under this Agreement, Escambia County will budget funds during Fiscal Year(s) XX-XX in the amount of «Contract_Amount_Word»($«Contract_Amount_Numeric») for this Project.

2.2 The Board of County Commissioners has met the requirements of the Consultants' Competitive Negotiation Act, as contained in Section 287.055, Florida Statutes, as amended, and has selected the Consultant to perform the services hereunder.

2.3 Negotiations pertaining to the services to be performed by the Consultant were undertaken between Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiation.

ARTICLE 3
SCOPE OF WORK

The Consultant will provide certain professional consultant services for the tasks outlined in Escambia County's Request for Letters of Interest (RLI) in Specification No. PD «PD_», «Solicitation_Name», and as represented in the Consultant's Letter of Interest response to PD «PD_», subsequent interview, and proposal presentation. In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

(c) If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

3.4 The Consultant shall accomplish the design services required under this Agreement so as to permit the award of a contract at a price that does not exceed the estimated construction contract price as set forth in paragraph (b) below. When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design

a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is $«Contract_Amount_Numeric».

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. RE: Design Services for Lee Street Sidewalks, Drainage, and Sanitary Project – PD 18-19.016
Civil Engineering and Surveying Services Scope of Work

Dear Mr. Lovingood:

We are pleased to provide you with the scope of work for Civil Engineering and Surveying Services associated with the design of sidewalks, minor drainage and sanitary sewer design along and adjacent to Lee Street in the Brownsville Community. Our understanding of this project is based on the scope in the Request for Letters of Interest dated January 15, 2019. The project will consist of the design and construction of the following:

- A five (5) foot wide sidewalk along the south side of Lee Street between W Street and Kirk Street.
- A five (5) foot wide sidewalk along the east side of Shoemaker Street between Lee Street and West Brainerd Street.
- Minor drainage improvements associated with maintaining the existing conveyance along the sidewalk routes.
- Gravity Sanitary Sewer along Lee Street from T Street to Kirk Street. This sewer line will be designed per the ECUA Brownsville Sanitary Sewer Master plan.

It should be noted that there is presently no existing drainage infrastructure located along either Lee Street or Shoemaker Street. The sidewalks will be designed such that they do not impede the flow of runoff across the right-of-way towards the street. The Municipal team will review the existing drainage basin study which includes the Brownsville area and will address specific drainage concerns within the project limits if possible. We have limited detailed drainage design improvements to Optional Services.

We propose to complete the following Basic Scope of Services:

TASK 1 – PRELIMINARY DESIGN

1. Project coordination to include meetings and correspondence with client, the design team, and affected utilities.
2. Gather pertinent background data for the project area relative to drainage, right-of-way, existing utilities, etc.

3. Right-of-way and topographic survey per the RLI requirements. Survey will generally include topo location of all above-ground improvements, property corners, trees, marked utilities, etc. within the existing right-of-way. The survey will also extend up each adjacent connecting side street for a minimum of 50 feet. It will also include surveying finished floors and building corners along the sanitary sewer route.
4. Geotechnical Engineering in order to confirm sanitary sewer system bedding and backfill as well as sidewalk design and roadway reconstruction requirements.
5. Utility coordination to include forwarding design ticket information to affected utilities and coordinating the field location of their facilities.
6. Field check of completed survey.

- Provides evidence of a commitment to subcontract to Section 3 business concerns, 25 percent or more of the dollar amount of the awarded contract.

SECTION II

SECTION 3 - ECONOMIC OPPORTUNITIES

What is Section 3?

It is a means by which HUD fosters local economic development, neighborhood economic improvement, and individual self-sufficiency. Section 3 is the legal basis for providing jobs for residents and awarding contracts to businesses in areas receiving certain types of HUD financial assistance.

Under Section 3 of the HUD Act of 1968, wherever HUD financial assistance is expended for housing or community development, to the greatest extent feasible, economic opportunities will be given to Section 3 residents and businesses in that area.

Section 3 Policy

Congress established the Section 3 policy to guarantee that the employment and other economic opportunities created by Federal financial assistance for housing and community development programs should, if possible, be directed toward low- and very-low income persons, particularly those who are recipients of government assistance for housing.

Who are Section 3 residents?

Section 3 residents are:

- Public housing residents
- **Low and very-low income** persons who live in the metropolitan area or non-metropolitan county where a HUD-assisted project for housing or community development is located.

Determining Income Levels

- **Low income** is defined as 80% or below the median income of that area
- **Very low income** is defined as 50% or below the median income of that area.
- Current income levels by household size for the **Escambia County area** are provided in the table below (2018):

# PERSONS IN FAMILY	50% OF MEDIAN	80% OF MEDIAN
1	$22,850	$36,550
2	26,100	41,750
3	29,350	46,950
4	32,600	52,150
5	35,250	56,350
6	37,850	60,500
7	40,450	64,700

What is a Section 3 business & what types of economic opportunities are available under Section 3?

A **Section 3 business** is a business:

- That is at least 51 percent or more owned by Section 3 residents,
- Whose permanent, full-time employees include persons, at least 30 percent of whom are currently Section 3 residents, or within three years of the date of first employment with the business concern were Section 3 residents, or
- That provides evidence of a commitment to subcontract in excess of 25 percent of the dollar award of all subcontracts to be awarded to a Section 3 business concern.

Types of Opportunities:

- Job training
- Employment
- Contracts

Examples include:

Administrative/ Management	Services	Construction
accounting	appliance repair	architecture
payroll	florists	bricklaying
research	marketing	carpentry
bookkeeping	carpet installation	cement/masonry
purchasing	janitorial	demolition
word processing	photography	drywall
	catering	electrical
	landscaping	elevator construction
	printing	engineering
	computer/information	fencing
	manufacturing	heating
	transportation	iron works
		machine operation
		painting
		plastering
		plumbing
		surveying
		tile setting

Who will award the economic opportunities?

Recipients of HUD financial assistance ***and their contractors and subcontractors are required*** to provide economic opportunities, to the greatest extent possible, consistent with existing Federal, State, and local laws and regulations.

Who receives priority under Section 3?

For training and employment:

- Persons in public and assisted housing
- Persons in the area where the HUD financial assistance is expended
- Participants in HUD Youthbuild programs
- Homeless persons

How can businesses find Section 3 residents to work for them?

Businesses can recruit in the neighborhood and public housing developments to inform residents about available training and job opportunities. Distributing flyers, posting signs, placing ads, and contacting resident organizations and local community development and employment agencies to locate potential workers are effective ways of acquiring jobs.

Are recipients, contractors and subcontractors required to provide long-term employment opportunities, and not simply seasonal or temporary employment?

Recipients are required, to the greatest extent feasible, to provide all types of employment opportunities to low and very low-income persons, including seasonal and temporary employment, as well as long-term jobs.

Employment goals are based on "new hires", which are defined as full-time employees for permanent, temporary or seasonal employment opportunities.

Recipients and contractors are encouraged to provide long-term employment. At least 30 percent of the permanent, full-time employees hired should be Section 3 residents. After a Section 3 employee has been employed for 3 years, the employee may no longer be counted as a Section 3 employee to meet the 30 percent requirement. This requires recipients to continue hiring Section 3 residents when employment opportunities are available.

B. Activities and contracts subject to Section 202 (all contracts/subcontracts above $10,000)

The Contractor agrees to post in a conspicuous place, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration without regard to race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided by the Contract Compliance Officer advising the labor union or worker's representatives of the Contractor's commitment under Section 202 of Executive Order 11246, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and others.

(f) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(2) Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity (Executive Order 11246). (Applicable to contracts/subcontracts exceeding $10,000.)

(a) The Offeror’s or Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Opportunity Construction Contract Specifications" set forth herein.

(b) The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

Female participation: 6.9% (statewide)

Minority participation 19.9%

These goals are applicable to all Contractor's construction work (whether or not it is federally-assisted) performed in the covered area. If the Contractor performs construction work in a geographic area located outside of the covered area, it shall apply the goals established for such geographic area where the work is actually performed. With regard to this second area, the Contractor also is subject to the goals for both its Federally involved and non-Federally involved construction.

The Contractor's compliance with Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3 (a), and its efforts to meet

the goals established or the geographic area where the contract resulting from his solicitation is to be performed. The hours of minority and female employment or training must be substantially uniform throughout the length of the contract and in each trade the Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order, and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

(c) The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address, and telephone number of the subcontractor; employer identification number; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the contract is to be performed.

(d) As used in this Notice, and in the contract resulting from the solicitation, the "covered area" is **Escambia County, Florida.**

(3.) Standard Federal Equal Employment Opportunity Construction Contract Specifications (Executive Order 11246).

(a) As used in these specifications:

i. "Covered area" means the geographical area described in the solicitation from which this contract resulted;

ii. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;

iii. "Employer identification number" means the Federal Social Security number used on the Employer's quarterly Federal Tax Return, U. S. Treasury Department Form 941.

iv. "Minority" includes:
(A.) Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);

(B.) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);

(C.) Asian and Pacific Islander (all persons having origins in any of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

(D.) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

(b.) Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of $10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.

(c.) If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U. S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors toward a goal in an approved Plan does not execute any covered Contractor's or Subcontractor's failure to take good faith efforts to achieve the Plan goals and timetables.

(d) The Contractor shall implement the specific affirmative action standards provided in paragraphs (g) (i) through (xvi) of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered construction contractors performing contracts in geographical areas where they do not have a Federal or Federally-assisted construction contract shall apply the minority and female goals established for the geographic area where the contract is being performed. Goals are published periodically in the Federal Register in notice form and such notices

may be obtained from any Office of Federal Contract Compliance Programs office or from Federal procurement contracting officers. The Contractor is expected to make substantially uniform progress in meeting its goals in each craft during the period specified.

(e) Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specifications, Executive Order 11246, or the regulations promulgated pursuant thereto.

(f) In order for the nonworking training hours of apprentices and trainees to be counted in meeting goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to, employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U. S. Department of Labor.

(g) The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensively as the following:

i. Ensure and maintain a working environment free of harassment, intimidation and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites in such facilities.

ii. Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organization's responses.

iii. Maintain a current file of the names, addresses, and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source, or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union, or if referred, not employed by the Contractor, this shall be documented in the file with the reason therefore, along with whatever additional actions the Contractor may have taken.

iv. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

v . Develop on-the-job training opportunities and/or participate in training programs for the areas which expressly include minorities and women, including upgrading apprenticeship, trainee and other programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.

vi. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training

programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

vii. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

ix. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

x. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other g by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.

xi. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR 60-3.

xii. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

xiii. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

xiv. Ensure that all facilities and company activities are non-segregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

xv. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

xvi. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

(h) Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations g(i) through (xvi). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the Contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under g(i) through (xvi). of these Specifications provided that the Contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation shall not be a defense for the Contractor's noncompliance.

(i) A single goal for minorities and separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is under utilized).

(j) The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

(k) The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

(l) The Contractor shall carry out-sections and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

(m) The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensively as those standards prescribed in paragraph g of these specifications, so as to achieve maximum results from its effort to ensure equal employment opportunity. If the Contractor fails to comply with the requirement of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. 2.3 Negotiations pertaining to the services to be performed by the Consultant were undertaken between Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiation.

ARTICLE 3
SCOPE OF WORK

The Consultant will provide certain professional consultant services for the tasks outlined in Escambia County's Request for Letters of Interest (RLI) in Specification No. PD 18-19.017, Design Services for Erress Boulevard, Rochelle St, and Diego Circle Sidewalks, and as represented in the Consultant's Letter of Interest response to PD 18-19.017, subsequent interview, and proposal presentation. In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

(c) If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

3.4 The Consultant shall accomplish the design services required under this Agreement so as to permit the award of a contract at a price that does not exceed the estimated construction contract price as set forth in paragraph (b) below. When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is $600,000.00.

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

ARTICLE 4
TIME FOR PERFORMANCE

4.1 The schedule for completion of the Consultant's services shall be in accordance with Exhibit "B," which is attached hereto and made a part hereof. Such schedule may be modified from time to time upon the mutual consent of the County and the Consultant.

TOTAL DOLLAR AMOUNT AWARDED TO SECTION 3 BUSINESSES: $_____

A Section 3 Business concern is a business that:

- Is 51 percent or more owned by Section 3 residents;
- Employs Section 3 residents for at least 30 percent of its full-time, permanent staff; or
- Provides evidence of a commitment to subcontract to Section 3 business concerns, 25 percent or more of the dollar amount of the awarded contract.

SECTION II

SECTION 3 - ECONOMIC OPPORTUNITIES

What is Section 3?

It is a means by which HUD fosters local economic development, neighborhood economic improvement, and individual self-sufficiency. Section 3 is the legal basis for providing jobs for residents and awarding contracts to businesses in areas receiving certain types of HUD financial assistance.

Under Section 3 of the HUD Act of 1968, wherever HUD financial assistance is expended for housing or community development, to the greatest extent feasible, economic opportunities will be given to Section 3 residents and businesses in that area.

Section 3 Policy

Congress established the Section 3 policy to guarantee that the employment and other economic opportunities created by Federal financial assistance for housing and community development programs should, if possible, be directed toward low- and very-low income persons, particularly those who are recipients of government assistance for housing.

Who are Section 3 residents?

Section 3 residents are:

- Public housing residents
- **Low and very-low income** persons who live in the metropolitan area or non-metropolitan county where a HUD-assisted project for housing or community development is located.

Determining Income Levels

- **Low income** is defined as 80% or below the median income of that area
- **Very low income** is defined as 50% or below the median income of that area.
- Current income levels by household size for the **Escambia County area** are provided in the table below (2018):

# PERSONS IN FAMILY	50% OF MEDIAN	80% OF MEDIAN
1	$22,850	$36,550
2	26,100	41,750
3	29,350	46,950
4	32,600	52,150
5	35,250	56,350
6	37,850	60,500
7	40,450	64,700

What is a Section 3 business & what types of economic opportunities are available under Section 3?

A **Section 3 business** is a business:

- That is at least 51 percent or more owned by Section 3 residents,
- Whose permanent, full-time employees include persons, at least 30 percent of whom are currently Section 3 residents, or within three years of the date of first employment with the business concern were Section 3 residents, or
- That provides evidence of a commitment to subcontract in excess of 25 percent of the dollar award of all subcontracts to be awarded to a Section 3 business concern.

Types of Opportunities:

- Job training
- Employment
- Contracts

Examples include:

Administrative/ Management	Services	Construction
accounting	appliance repair	architecture
payroll	florists	bricklaying
research	marketing	carpentry
bookkeeping	carpet installation	cement/masonry
purchasing	janitorial	demolition
word processing	photography	drywall
	catering	electrical
	landscaping	elevator construction
	printing	engineering
	computer/information	fencing
	manufacturing	heating
	transportation	iron works
		machine operation
		painting
		plastering
		plumbing
		surveying
		tile setting

Who will award the economic opportunities?

Recipients of HUD financial assistance ***and their contractors and subcontractors are required*** to provide economic opportunities, to the greatest extent possible, consistent with existing Federal, State, and local laws and regulations.

Who receives priority under Section 3?

For training and employment:

- Persons in public and assisted housing
- Persons in the area where the HUD financial assistance is expended
- Participants in HUD Youthbuild programs
- Homeless persons

How can businesses find Section 3 residents to work for them?

Businesses can recruit in the neighborhood and public housing developments to inform residents about available training and job opportunities. Distributing flyers, posting signs, placing ads, and contacting resident organizations and local community development and employment agencies to locate potential workers are effective ways of acquiring jobs.

Are recipients, contractors and subcontractors required to provide long-term employment opportunities, and not simply seasonal or temporary employment?

Recipients are required, to the greatest extent feasible, to provide all types of employment opportunities to low and very low-income persons, including seasonal and temporary employment, as well as long-term jobs.

Employment goals are based on "new hires", which are defined as full-time employees for permanent, temporary or seasonal employment opportunities.

Recipients and contractors are encouraged to provide long-term employment. At least 30 percent of the permanent, full-time employees hired should be Section 3 residents. After a Section 3 employee has been employed for 3 years, the employee may no longer be counted as a Section 3 employee to meet the 30 percent requirement. This requires recipients to continue hiring Section 3 residents when employment opportunities are available.

SECTION 3 COMPLIANCE REPORT

Attached is a sample SECTION 3 SUMMARY REPORT to be completed by every contractor/subcontractor awarded a construction contract of $100,000 or more on a CDBG project and must be submitted to County before final funds are released.

The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order, and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

(c) The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address, and telephone number of the subcontractor; employer identification number; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the contract is to be performed.

(d) As used in this Notice, and in the contract resulting from the solicitation, the "covered area" is **Escambia County, Florida.**

(3.) Standard Federal Equal Employment Opportunity Construction Contract Specifications (Executive Order 11246).

(a) As used in these specifications:

i. "Covered area" means the geographical area described in the solicitation from which this contract resulted;

ii. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;

iii. "Employer identification number" means the Federal Social Security number used on the Employer's quarterly Federal Tax Return, U. S. Treasury Department Form 941.

iv. "Minority" includes:
(A.) Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);

(B.) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);

(C.) Asian and Pacific Islander (all persons having origins in any of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

(D.) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

(b.) Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of $10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.

(c.) If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U. S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. (d) The Contractor shall implement the specific affirmative action standards provided in paragraphs (g) (i) through (xvi) of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered construction contractors performing contracts in geographical areas where they do not have a Federal or Federally-assisted construction contract shall apply the minority and female goals established for the geographic area where the contract is being performed. Goals are published periodically in the Federal Register in notice form and such notices may

be obtained from any Office of Federal Contract Compliance Programs office or from Federal procurement contracting officers. The Contractor is expected to make substantially uniform progress in meeting its goals in each craft during the period specified.

(e) Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specifications, Executive Order 11246, or the regulations promulgated pursuant thereto.

(f) In order for the nonworking training hours of apprentices and trainees to be counted in meeting goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to, employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U. S. Department of Labor.

(g) The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensively as the following:

i. Ensure and maintain a working environment free of harassment, intimidation and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites in such facilities.

ii. Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organization's responses.

iii. Maintain a current file of the names, addresses, and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source, or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union, or if referred, not employed by the Contractor, this shall be documented in the file with the reason therefore, along with whatever additional actions the Contractor may have taken.

iv. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

v . Develop on-the-job training opportunities and/or participate in training programs for the areas which expressly include minorities and women, including upgrading apprenticeship, trainee and other programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.

vi. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training

programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

vii. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

ix. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

x. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other g by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.

xi. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR 60-3.

xii. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

xiii. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

xiv. Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

xv. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

xvi. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

(h) Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations g(i) through (xvi). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the Contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under g(i) through (xvi). of these Specifications provided that the Contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation shall not be a defense for the Contractor's noncompliance.

(i) A single goal for minorities and separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is under utilized).

(j) The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

(k) The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

(l) The Contractor shall carry out-sections and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

(m) The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensively as those standards prescribed in paragraph g of these specifications, so as to achieve maximum results from its effort to ensure equal employment opportunity. If the Contractor fails to comply with the requirement of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

(n) The contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee, the name, address, telephone numbers, construction trade, union affiliation, if any, employee identification number where assigned, social security number, race, sex, status (e.g., mechanic, apprentice trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and location at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, contractors shall not be required to maintain separate records.

(o) Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance and encourage present minority and female employees to recruit other minority persons and women and, where reasonable, upon the application of requirements

for the hiring of local is or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

In order to establish the background, context, and frame of reference for this Agreement and to generally express the objectives and intentions of the respective parties herein, the following statements, representations, and explanations shall be accepted as predicates for the undertakings and commitments included within the provisions which follow and may be relied upon by the parties as essential elements of the mutual considerations upon which this Agreement is based.

2.1 Under this Agreement, Escambia County will budget funds during Fiscal Year(s) XX-XX in the amount of «Contract_Amount_Word»($«Contract_Amount_Numeric») for this Project.

2.2 The Board of County Commissioners has met the requirements of the Consultants' Competitive Negotiation Act, as contained in Section 287.055, Florida Statutes, as amended, and has selected the Consultant to perform the services hereunder.

2.3 Negotiations pertaining to the services to be performed by the Consultant were undertaken between Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiation.

ARTICLE 3
SCOPE OF WORK

The Consultant will provide certain professional consultant services for the tasks outlined in Escambia County's Request for Letters of Interest (RLI) in Specification No. PD «PD_», «Solicitation_Name», and as represented in the Consultant's Letter of Interest response to PD «PD_», subsequent interview, and proposal presentation. In the event of a conflict between the terms of the proposal and this Agreement, the terms of this Agreement shall prevail.

3.1 The basic services to be provided are set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specified, such services shall be completed in accordance with the standard care in the profession at the time such services are rendered.

3.2 Such services, generally, shall include those services performed by a consultant, its employees, and subcontractors, as more specifically enumerated in the Scope of Work of Exhibit "A" and any other services specifically included therein.

3.3 The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished by the Consultant under this Agreement. The consultant shall, without additional compensation, correct or revise any errors or omissions in its designs, drawings, specifications, and other services furnish pursuant to the Agreement.

(a) Neither the County's review, approval or acceptance of, nor payment for, the services required under this Agreement shall be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement, and the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(b) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies provided by law.

(c) If the Consultant is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

3.4 The Consultant shall accomplish the design services required under this Agreement so as to permit the award of a contract at a price that does not exceed the estimated construction contract price as set forth in paragraph (b) below. When bids or proposals for the construction contract are received that exceed the estimated price, the Consultant shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Agreement. However, the Consultant shall not be required to perform such additional services at no cost to the County if the unfavorable bids or proposals are the result of conditions beyond its reasonable control.

(a) The Consultant will promptly advise the County if it finds that the project being designed will exceed or is likely to exceed the funding limitations, and it is unable to design

a usable facility within these limitations. Upon receipt of such information, the County will review the Consultant's revised estimate of construction cost. The County may, if it determines that the estimated construction contract price set forth in this Agreement is so low that award of a construction contract not in excess of such estimate is improbable, authorize a change in scope or materials as required to reduce the estimated construction cost to an amount within the estimated construction contract price set forth in paragraph (b) below, or the County may adjust such estimated construction contract price. When bids or proposals are not solicited or are unreasonably delayed, the County shall prepare an estimate of constructing the design submitted and such estimate shall be used in lieu of bids or proposals to determine compliance with the funding limitation. In the event the county increases the amount in (b) below the compensation to the consultant may be increased equitably.

(b) The estimated construction contract price for the project described in the Agreement is $«Contract_Amount_Numeric».

3.5 The Consultant may be liable for County costs resulting from negligent, reckless or intentionally wrongful errors or omissions in designs furnished under this Agreement, or failure to timely perform its services under this Agreement. Therefore, when a modification to a construction contract is required because of a negligent, reckless or intentionally wrongful error or omission in the services provided under this Agreement, the County (with the advice of technical personnel and legal counsel) shall consider the extent to which the Consultant may be reasonably liable. The County shall enforce such liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the County's interest.

Project Summary

This project primarily consists of the design of sidewalks for pedestrian traffic along Avery Street between Gary Circle and North W Street. Sidewalk will be designed along the north side of Avery for the entire project length and along the south side of Avery from Z Street to W Street. Who will award the economic opportunities?

Recipients of HUD financial assistance ***and their contractors and subcontractors are required*** to provide economic opportunities, to the greatest extent possible, consistent with existing Federal, State, and local laws and regulations.

Who receives priority under Section 3?

For training and employment:

- Persons in public and assisted housing
- Persons in the area where the HUD financial assistance is expended
- Participants in HUD Youthbuild programs
- Homeless persons

How can businesses find Section 3 residents to work for them?

Businesses can recruit in the neighborhood and public housing developments to inform residents about available training and job opportunities. Distributing flyers, posting signs, placing ads, and contacting resident organizations and local community development and employment agencies to locate potential workers are effective ways of acquiring jobs.

Are recipients, contractors and subcontractors required to provide long-term employment opportunities, and not simply seasonal or temporary employment?

Recipients are required, to the greatest extent feasible, to provide all types of employment opportunities to low and very low-income persons, including seasonal and temporary employment, as well as long-term jobs.

Employment goals are based on "new hires", which are defined as full-time employees for permanent, temporary or seasonal employment opportunities.

Recipients and contractors are encouraged to provide long-term employment. At least 30 percent of the permanent, full-time employees hired should be Section 3 residents. After a Section 3 employee has been employed for 3 years, the employee may no longer be counted as a Section 3 employee to meet the 30 percent requirement. This requires recipients to continue hiring Section 3 residents when employment opportunities are available.

During the performance of this contract, the Contractor agrees as follows:

(1) The Contractor shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor shall take affirmative action to ensure that applicants for employment are employed , and that employees are treated during employment without regard to their race, color, religion, sex or national origin. The Contractor shall state that all qualified applicants will be considered without regard to race, color, religion, sex, or national origin.

(3) Contractors shall incorporate foregoing requirements in all subcontracts.

B. Activities and contracts subject to Section 202 (all contracts/subcontracts above $10,000)

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. The Contractor agrees to post in a conspicuous place, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration without regard to race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided by the Contract Compliance Officer advising the labor union or worker's representatives of the Contractor's commitment under Section 202 of Executive Order 11246, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the Rules, Regulations, and Relevant Orders of the Secretary of Labor.

(e) The Contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Department and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and others.

(f) In the event of the Contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

The Contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions, including sections of noncompliance: *Provided,* however, that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the Contractor may request the United States to enter into such litigation to protect the interest of the United States.

(2) Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity (Executive Order 11246). (Applicable to contracts/subcontracts exceeding $10,000.)

(a) The Offerer's or Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Opportunity Construction Contract Specifications" set forth herein.

(b) The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

Female participation: 6.9% (statewide)

Minority participation 19.9%

These goals are applicable to all Contractor's construction work (whether or not it is federally-assisted) performed in the covered area. If the Contractor performs construction work in a geographic area located outside of the covered area, it shall apply the goals established for such geographic area where the work is actually performed. With regard to this second area, the Contractor also is subject to the goals for both its Federally involved and non-Federally involved construction.

The Contractor's compliance with Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3 (a), and its efforts to meet

the goals established or the geographic area where the contract resulting from his solicitation is to be performed. The hours of minority and female employment or training must be substantially uniform throughout the length of the contract and in each trade the Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order, and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

(c) The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address, and telephone number of the subcontractor; employer identification number; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the contract is to be performed.

(d) As used in this Notice, and in the contract resulting from the solicitation, the "covered area" is **Escambia County, Florida.**

(3.) Standard Federal Equal Employment Opportunity Construction Contract Specifications (Executive Order 11246).

(a) As used in these specifications:

i. "Covered area" means the geographical area described in the solicitation from which this contract resulted;

ii. "Director" means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;

iii. "Employer identification number" means the Federal Social Security number used on the Employer's quarterly Federal Tax Return, U. S. Treasury Department Form 941.

iv. "Minority" includes:
(A.) Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);

(B.) Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish Culture or origin, regardless of race);

(C.) Asian and Pacific Islander (all persons having origins in any of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and

(D.) American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

(b.) Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of $10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.

(c.) If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U. S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors toward a goal in an approved Plan does not execute any covered Contractor's or Subcontractor's failure to take good faith efforts to achieve the Plan goals and timetables.

(d) The Contractor shall implement the specific affirmative action standards provided in paragraphs (g) (i) through (xvi) of these specifications. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered construction contractors performing contracts in geographical areas where they do not have a Federal or Federally-assisted construction contract shall apply the minority and female goals established for the geographic area where the contract is being performed. Goals are published periodically in the Federal Register in notice form and such notices

may be obtained from any Office of Federal Contract Compliance Programs office or from Federal procurement contracting officers. The Contractor is expected to make substantially uniform progress in meeting its goals in each craft during the period specified.

(e) Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the Contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the Contractor's obligations under these specifications, Executive Order 11246, or the regulations promulgated pursuant thereto.

(f) In order for the nonworking training hours of apprentices and trainees to be counted in meeting goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to, employ the apprentices and trainees at the completion of their training, subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U. S. Department of Labor.

(g) The Contractor shall take specific affirmative actions to ensure equal employment opportunity. The evaluation of the Contractor's compliance with these specifications shall be based upon its effort to achieve maximum results from its actions. The Contractor shall document these efforts fully, and shall implement affirmative action steps at least as extensively as the following:

i. Ensure and maintain a working environment free of harassment, intimidation and coercion at all sites, and in all facilities at which the Contractor's employees are assigned to work. The Contractor, where possible, will assign two or more women to each construction project. The Contractor shall specifically ensure that all foremen, superintendents, and other on-site supervisory personnel are aware of and carry out the Contractor's obligation to maintain such a working environment, with specific attention to minority or female individuals working at such sites in such facilities.

ii. Establish and maintain a current list of minority and female recruitment sources, provide written notification to minority and female recruitment sources and to community organizations when the Contractor or its unions have employment opportunities available, and maintain a record of the organization's responses.

iii. Maintain a current file of the names, addresses, and telephone numbers of each minority and female off-the-street applicant and minority or female referral from a union, a recruitment source, or community organization and of what action was taken with respect to each such individual. If such individual was sent to the union hiring hall for referral and was not referred back to the Contractor by the union, or if referred, not employed by the Contractor, this shall be documented in the file with the reason therefore, along with whatever additional actions the Contractor may have taken.

iv. Provide immediate written notification to the Director when the union or unions with which the Contractor has a collective bargaining agreement has not referred to the Contractor a minority person or woman sent by the Contractor, or when the Contractor has other information that the union referral process has impeded the Contractor's efforts to meet its obligations.

v . Develop on-the-job training opportunities and/or participate in training programs for the areas which expressly include minorities and women, including upgrading apprenticeship, trainee and other programs relevant to the Contractor's employment needs, especially those programs funded or approved by the Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.

vi. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training

programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.

vii. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination, or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.

ix. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

x. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other g by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.

xi. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR 60-3.

xii. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

xiii. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

xiv. Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

xv. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction contractors and suppliers, including circulation of solicitations to minority and female contractor associations and other business associations.

xvi. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

(h) Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations g(i) through (xvi). The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the Contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under g(i) through (xvi). of these Specifications provided that the Contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, makes a good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation shall not be a defense for the Contractor's noncompliance.

(i) A single goal for minorities and separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, and all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is under utilized).

(j) The Contractor shall not use the goals and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

(k) The Contractor shall not enter into any Subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

(l) The Contractor shall carry out-sections and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

(m) The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensively as those standards prescribed in paragraph g of these specifications, so as to achieve maximum results from its effort to ensure equal employment opportunity. If the Contractor fails to comply with the requirement of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

(n) The contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee, the name, address, telephone numbers, construction trade, union affiliation, if any, employee identification number where assigned, social security number, race, sex, status (e.g., mechanic, apprentice trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and location at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, contractors shall not be required to maintain separate records.

(o) Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance and encourage present minority and female employees to recruit other minority persons and women and, where reasonable, upon the application of requirements for the hiring of local is or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

C. Certification of Non-Segregated Facilities (Contracts over $10,000)

By the submission of this bid, the bidder, offeror, applicant or subcontractor certifies that he/she does not maintain or provide for his/her employees any segregated facility at any of his/her establishments, and that he/she does not permit employees to perform their services at any location, under his/her control, where segregated facilities are maintained. He/She certifies further that he/she will not maintain or provide for employees any segregated facilities at any of his/her establishments, and he/she will not permit employees to perform their services at any location under his/her control where segregated facilities are maintained. The bidder, offer or, applicant or subcontractor agrees that a breach of this certification is violation of the Equal Opportunity Clause of this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work eating areas, time clocks, locker rooms, and other storage or dressing areas, Deportation and housing facilities provided for employees which are in fact segregated on the basis of race, color, religion, or otherwise. He/She further agrees that (except where he/she has obtained identical certifications from proposed subcontractors prior to the award of subcontractors have submitted identical certifications for specific time periods).

D. Civil Rights Act of 1964

Under Title VI of the Civil Rights Act of 1964, no person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

E. Section 109 of the Housing and Community Development Act of 1974

SECTION 1. CONTRACT DOCUMENTS.

A. The Contract Documents include this Agreement, including Amendments and Exhibits, the Exhibits described in Section 6, Change Orders, Work Directive Changes, Field Orders and the solicitation documents, including addenda. These Contract Documents are incorporated by reference and made a part of this Agreement. A copy of all Contract Documents shall be maintained by Contractor at the Project site at all times during the performance of the Work.

B. In case of any inconsistency or conflict among the provisions of the agreement and any other terms and conditions of any documents comprising the Contract Documents, the provisions of the Agreement shall control. Concerning the Contract Documents, the order of precedence shall be as follows: 1) the Agreement, including Amendments and Exhibits; 2) Change Orders; 3) Work Directive Changes; 4) Field Orders; 5) the Solicitation Documents, including addenda. The Contract Documents listed above represent the entire and integrated agreement between the parties hereto, and supersede prior negotiations, representations, or agreements, either written or oral.

C. County shall furnish to the Contractor up to four (4) sets of the Contract Documents for execution of the Work. Additional copies of the Contract Documents are available at the cost of reproduction.

SECTION 2. SCOPE OF WORK.

Contractor agrees to furnish and pay for all management, supervision, financing, labor, materials, tools, fuel, supplies, utilities, equipment and services of every kind and type necessary to diligently, timely, and fully perform and complete in a good workmanlike manner the Work required by the Contract Documents.

SECTION 3. CONTRACT AMOUNT.

In consideration of the faithful performance by Contractor of the covenants in this Agreement to the full satisfaction and acceptance of County, County agrees to pay, or cause to be paid, to Contractor the following amount (herein "Contract Amount"), in accordance with the terms of this Agreement:

One Million Four Hundred Twenty-Two Thousand Five Hundred Seventy Nine Dollars

$1,422,579.00

SECTION 4. BONDS.

A. Contractor shall provide at his expense Performance and Payment Bonds, in the form prescribed in **Exhibit B**, in the amount of 100% of the Contract Amount. The Performance and Payment Bonds shall be underwritten by a surety authorized to do business in the State of Florida and otherwise acceptable to County; provided; however, the surety shall be rated as "A-" (excellent) or better as to general policy holders rating and Class V or higher rating as to financial size category and the amount required shall not exceed 5% of the reported policy holder's surplus, all as reported in the most current Best Key Rating Guide, published by A.M. Best Company, Inc. of 75 Fulton Street, New York, New York 10038.

B. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Document, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the County's approval. Failure by Contractor to maintain its bonds in full force and effect at all times, including the warranty period, shall be grounds for termination of this Contract.

C. Per §255.05, Florida Statutes, the Contractor shall be required to execute and record the Performance and Payment bonds. The bonds must state the name and principal business address of both the Principal and the Surety and a description of the project sufficient to identify it. (The filing costs are $10.00 for the first page and $8.50 for each remaining page).

SECTION 5. CONTRACT TIME AND LIQUIDATED DAMAGES.

A. Time is of the essence in the performance of the Work under this Agreement. Contractor shall commence the Work within ten (10) calendar days from the Commencement Date, established in the Notice to Proceed. No Work shall be performed at the Project site prior to the Commencement Date. Contractor shall provide 48 hours' notice prior to beginning the Work. The Work shall be substantially completed within one hundred forty (140) calendar days from the Commencement Date. The Work shall be fully completed and deemed ready by the County for final completion within thirty (30) calendar days from the Substantial Completion Date. The Contract Time shall be the time period from the Commencement Date to the date of final completion totaling one hundred seventy (170) calendar days (herein "Contract Time").

B. County and Contractor recognize that, since time is of the essence for this Agreement, the County will suffer financial loss if the Work is not substantially completed within the time specified. Should Contractor fail to substantially complete the Work within the time period noted above, County shall be entitled to assess, as liquidated damages, but not as a penalty, $150.00 for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed by the County on the date that the County's Architect certifies in writing that the construction of the project, or specified part thereof, is sufficiently completed in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it is intended. Along with such certification, the County's Architect shall compile a "punch list" of any remaining exceptions that do not adversely affect the use of the Project. Completion of these items

will be required prior to final payment.

C. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the County's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

D. When any period of time is referenced to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

The Agreement shall be interpreted under and its performance governed by the laws of the State of Florida and the parties agree that venue shall be in Escambia County, Florida for any matter which is the subject of this Contract.

SECTION 11. NO WAIVER.

The failure of the County to enforce at any time or for any period of time any one or more of the provisions of the Agreement shall not be construed to be and shall not be a waiver of any such provision or provisions or of its right thereafter to enforce each and every such provision.

SECTION 12. ENTIRE AGREEMENT.

Each of the parties hereto agrees and represents that the Agreement comprises the full and entire agreement between the parties affecting the Work contemplated, and no other agreement or understanding of any nature concerning the same has been entered into or will be recognized, and that all negotiations, acts, work performed, or payments made prior to the execution hereof shall be deemed merged in, integrated and superseded by the Agreement.

SECTION 13. SEVERABILITY.

Should any provision of the Agreement be determined by a court to be unenforceable, such a determination shall not affect the validity or enforceability of any other section or part thereof.

SECTION 14. PUBLIC RECORDS.

The Contractor acknowledges that this Agreement and any related financial records, audits, reports, plans correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. Contractor shall maintain all such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. Contractor shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Contractor agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Contractor fails to abide by the provisions of Chapter 119, Florida Statutes, the County may, without prejudice to any other right or remedy and after giving the Contractor and surety, if any, seven days written notice, during which period the Contractor still fails to allow access to such documents, terminate the contract. In such case, the Contractor shall not be entitled to receive any further payment. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontractor work).

EXHIBIT A
GENERAL TERMS AND CONDITIONS

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words which have a well known technical or trade meaning are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2. If during the performance of the Work Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to Architect/Engineer in writing and before proceeding with the Work affected thereby shall obtain a written interpretation or clarification from the Architect/Engineer. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the Architect/Engineer. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

1.4. "Architect", where referenced on the drawings or in the specifications or in other related documents, shall mean the Escambia County Architect or the designated representative thereof.

Section 2. INVESTIGATION AND UTILITIES

2.1. Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or

compensation.

2.2. Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 3. SCHEDULE

3.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to County, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress Schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work and shall include dates of Shop Drawing Submittals.

3.2. The Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the County's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The County's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the County's obligation to pay Contractor.

Section 4. PROGRESS PAYMENTS

4.1. Prior to submitting its first Application for Payment, Contractor shall submit to County and the Architect/Engineer, for its review and approval, a schedule of values based upon the Contract Price, listing the major elements of the Work and the dollar value for each element. After its approval by the County and Architect/Engineer, this schedule of values shall be used as the basis for the Contractor's Applications for Payment. This schedule shall be updated and submitted along with a completed and notarized copy of the Application for Payment form attached to the Agreement as **Exhibit E**.

4.2. Prior to submitting its first monthly Application for Payment, Contractor shall submit to County and the Architect/Engineer a complete list of all its proposed subcontractors and materialmen, showing the work and materials involved and the dollar amount of each proposed subcontract and purchase order. The first Application for Payment shall be submitted no earlier than thirty (30) days after the Commencement Date.

4.3. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the County in writing, the Application for Payment will subdivide the work into component parts in sufficient detail to serve as the basis for a progress payment and shall also be accompanied by a bill of sale, invoice or other documentation warranting that upon payment by County, the County shall receive the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect County's interest therein, all of which shall be subject to the County's prior written approval.

4.4. Contractor shall submit four (4) original copies of each of its Applications for Payment to the Architect/Engineer on or before the 25th day of each month for work performed during the previous month. Invoices received after the 25th day of each month shall be considered for payment as part of the next month's application. Within ten (10) calendar days after receipt of each Application for Payment, the Architect/Engineer shall either: (1) indicate approval of the requested payment; (2) indicate approval of only a portion of the requested payment, stating in writing the reasons therefore; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. In the event of a total or partial denial of the Application for Payment by the Architect/Engineer, the Contractor may make the necessary corrections and resubmit the Application for Payment for reconsideration within ten (10) calendar days of receiving notice of refusal.

If re-submittal of the Application for Payment is refused by the Architect/Engineer, in whole or in part, the Contractor may submit a written request to the County Administrator for an administrative decision within two (2) business days of receiving notice of refusal. Upon receiving a timely request, an administrative decision shall be rendered within ten (10) calendar days with written notification provided to the Contractor.

If the administrative decision is disputed, the Contractor may submit a written request to the County Administrator for an administrative hearing before the Dispute Resolution Committee (DRC) within two (2) business days of receiving said decision. A hearing shall be scheduled within ten (10) business days from the date the request is received, and the Contractor will receive written notice of the hearing date. The DRC may, within its discretion, render a final decision at the hearing or may elect to mail a written decision to the property owner within a period not to exceed ten (10) calendar days from the hearing date. The DRC's written decision shall be considered administratively final.

The County shall, within twenty (20) business days after County approval of an Application for Payment, pay the Contractor the amounts so approved. Provided, however, in no event shall the County be obligated to pay an amount greater than that portion of the Application for Payment approved.

4.5 County shall retain ten percent (10%) of the gross amount of each monthly payment request or ten percent (10%) of the portion thereof approved by the County for payment, whichever is less. The retained sum shall be accumulated and not released to Contractor until final payment is due. Any interim interest on such sums shall accrue to County.

At the County's sole discretion, a percentage of the amount retained from the gross amount of each monthly payment may be reduced prior to final completion of the Project and said percentage released to the Contractor upon receiving a certificate of substantial completion and approval from the Architect/Engineer.

Release of any portion or percentage of sums retained prior to final completion of the Project shall in no way imply approval or acceptance of Contractor's work.

4.6 Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

4.7 Each Application for Payment shall be accompanied by Release and Affidavit, in the form attached as **Exhibit D**, showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested on have been paid in full. The County shall not be required to make payment until and unless these affidavits are furnished by Contractor.

4.8 Applications for Payment will not be approved unless all submittals required by the Contract documents, up to that point, are provided and "As-Built" record documents are maintained as required by Section 8.2.

4.9 Contractor agrees and understands that funding limitations exist and that the expenditure of funds must be spread over the duration of the Project at regular intervals based on the Contract Amount and Progress Schedule. Accordingly, prior to submitting its first monthly Application for Payment, Contractor shall prepare and submit for County's and Architect/Engineer's review and approval, a detailed Project Funding Schedule, which shall be updated as necessary and approved by County to reflect approved adjustments to the Contract Amount and Contract Time. No voluntary acceleration or early completion of the Work shall modify the time of payments to Contractor as set forth in the approved Project Funding Schedule.

Section 5. PAYMENTS WITHHELD.

5.1. The Architect/Engineer or County may decline to approve any Application for Payment, or portions thereof, because of subsequently discovered evidence or subsequent inspections. The Architect/Engineer or County may nullify the whole or any part of any approval for payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after three (3) days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

Section 6. FINAL PAYMENT

6.1. County shall make final payment to Contractor within thirty (30) calendar days after the Work is finally inspected and accepted by County and Architect/Engineer in accordance with Section 20.1 herein, provided that Contractor first, and as an explicit condition precedent to the accrual of Contractor's right to final payment, shall have furnished County with a properly executed and

notarized copy of the Release and Affidavit attached as **Exhibit D**, as well as, a duly executed copy of the Surety's consent to final payment and such other documentation that may be required by the Contract Documents or the County.

6.2. Contractor's acceptance of final payment shall constitute a full waiver of any and all claims by Contractor against County arising out of this Agreement or otherwise relating to the Project, except those previously made in writing and identified by Contractor as unsettled at the time of the final Application for Payment. Neither the acceptance of the Work nor payment by County shall be deemed to be a waiver of County's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the Architect/Engineer or County at the time of final inspection.

Section 7. SUBMITTALS AND SUBSTITUTIONS

7.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. When submitted for the Architect's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked, and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Documents. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

7.2. Prior to submitting its first Application for Payment, Contractor shall provide to County a DVD showing the pre-existing conditions located within the limits of construction.

7.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by County from anyone other than Contractor and all such requests must be submitted by Contractor to County within thirty (30) calendar days after Notice to Proceed is received by Contractor.

7.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the County for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the County in evaluating the proposed

substitute. The County may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

7.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the County, if Contractor submits sufficient information to allow the County to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the County shall be the same as those provided herein for substitute materials and equipment.

7.6. The County shall be allowed a reasonable time within which to evaluate each proposed substitute. The County shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the County's prior written acceptance, which shall be evidenced by either a Change Order or an approved Shop Drawing. The County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 8. DAILY REPORTS, AS-BUILTS, AND MEETINGS

8.1. Unless waived in writing by County, Contractor shall complete and submit, along with its Application for Payment, to the County on a monthly basis a daily log of the Contractor's work for the preceding month in a format approved by the County. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

8.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions which adversely affect the Work;

8.1.2. Soil conditions which adversely affect the Work;

8.1.3. The hours of operation by Contractor's personnel and subcontractor's personnel;

8.1.4. The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontract and trade;

8.1.5. All equipment present at the Project site, description of equipment use and designation of time equipment was used (specifically indicating any down time);

8.1.6. Description of Work being performed at the Project site;

8.1.7. Any unusual or special occurrences at the Project site;

8.1.8. Materials received at the Project site; and

8.1.9. A list of all visitors to the Project site.

The daily log shall not constitute nor take the place of any notice required to be given by Contractor to County or Architect/Engineer pursuant to the Contract Documents.

8.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract

Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the County, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to County for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to County by Contractor.

8.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. County, or any duly authorized agents or representatives of County, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 9. CONTRACT TIME AND TIME EXTENSIONS

9.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and materialmen, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as coordination of all portions of the Work under the Contract Documents.

9.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the County in writing within forty-eight (48) hours after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which Contractor may have had to request a time extension.

9.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which County may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from County. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against County will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage For Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

Section 10. CHANGES IN THE WORK

10.1. County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of County, and County shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of County is authorized to direct any extra or changed work orally.

10.2. A Change Order, in the form attached as Exhibit F to this Agreement, shall be issued and executed promptly after an agreement is reached between Contractor and County concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount shall be adjusted in the Change Order in the manner as County and Contractor shall mutually agree.

10.3. If County and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by County in a written Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by County. If Contractor disagrees with the County's adjustment determination, Contractor must make a claim pursuant to Section 11 of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

10.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

10.5. County shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

10.6. The County shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 11. CLAIMS AND DISPUTES

11.1. A Claim is a demand or assertion by one of the parties seeking an adjustment or interpretation of the terms of the Contract Documents, payment of money, extension of time or other relief with respect to the terms of the Contract Documents. The term "Claim" also includes other disputes and matters in question between County and Contractor arising out of or relating to the Contract Documents. The responsibility to substantiate a Claim shall rest with the party making the Claim.

11.2. Claims by the Contractor shall be made in writing to the County and Architect/Engineer within forty-eight (48) hours after the first day of the event giving rise to such Claim or else the Contractor shall be deemed to have waived the Claim. Written supporting data shall be submitted to the County and Architect/Engineer within fifteen (15) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the Claim. All claims shall be priced in accordance with the provisions of Subsection 10.4.

11.3. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending Claim, action, suit or administrative proceeding, unless otherwise agreed to by the County in writing. County shall continue to make payments in accordance with the Contract Documents during the pendency of any Claim.

Section 12. OTHER WORK

12.1. County may perform other work related to the Project at the site by County's own forces, have other work performed by utility owners or let other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact to County and Architect/Engineer within forty-eight (48) hours of being notified of the other work. If the Contractor fails to send the above required forty-eight (48) hour notice, the Contractor will be deemed to have waived any rights it otherwise may have had to seek an extension to the Contract Time or adjustment to the Contract Amount.

12.2. Contractor shall afford each utility owner and other contractor (or County, if County is performing the additional work with County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Architect/Engineer and the others whose work will be affected.

12.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or County), Contractor shall inspect and promptly report to Architect/Engineer in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 13. INDEMNIFICATION AND INSURANCE

13.1 Contractor shall pay on behalf of or indemnify and hold harmless County and its agents, officers and employees from and against all liabilities, damages, losses, and costs, including attorney's and paralegal fees, incurred by County to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by anyone for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. Contractor's obligation as provided herein shall be limited to its

proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor, and Contractor shall not be required to pay on behalf of or indemnify and hold harmless County where County's negligence, recklessness, or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's fees and paralegal fees.

County and Contractor agree one percent (1%) of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement.

Contractor agrees that such indemnification by Contractor relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any applicable statutes of limitations thereafter. Contractor's obligation to indemnify shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

13.2 Contractor shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in Exhibit C to the Agreement. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and/or responsible risk retention group insurance companies or trusts which are registered with the State of Florida. Foreign or off-shore insurance carriers are not acceptable for work under this contract unless admitted to the State of Florida. All commercial insurance carriers providing the Contractor with required insurance shall be a minimum financial size category of VII according to the AM Best Rating Guide, latest edition. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Within ten (10) calendar days after Notice of Award is received by Contractor and prior to the commencement of work, Contractor shall provide County with properly executed Certificates of Insurance to evidence Contractor's compliance with the insurance requirements of the Contract Documents. Said Certificates of Insurance shall be on forms approved by County, such as "Acord Form 25". The Certificates of Insurance shall be personally, manually signed by the authorized representatives of the insurance company/companies shown on the Certificates of Insurance, with proof that they are authorized representatives thereof. Certificates of Insurance shall be mailed to Escambia County in care of: Purchasing Manager, Office of Purchasing, P.O. Box 1591, Pensacola, Florida 32597-1591. In addition, certified, true and exact copies of all insurance policies required hereunder shall be provided to County, on a timely basis, when requested by County.

13.3 The Certificates of Insurance and required insurance policies shall contain provisions that thirty (30) calendar days' prior written notice by registered or certified mail shall be given County of any cancellation, intent not to renew, or reduction in the policies or coverages, except in the application of the aggregate limits provisions. In the event of a reduction in the aggregate limit of any policy, Contractor shall immediately take steps to have the aggregate limit reinstated to the full extent permitted under such policy.

13.4 All insurance coverages of the Contractor shall be primary to any insurance or self-insurance program carried by the County applicable to this Project. The acceptance by County of any Certificate of Insurance does not constitute approval or agreement by the County that the

insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the requirements of the Contract Documents. No work shall commence at the Project site unless and until the required Certificates of Insurance are received by the County.

13.5 Contractor shall require each of its subcontractors to procure and maintain, until the completion of the subcontractor's work, insurance of the types and to the limits specified in Exhibit C, unless such insurance requirements for the subcontractor is expressly waived in writing by the County. All liability insurance policies, other than professional liability, worker's compensation and employer's liability policies, obtained by Contractor to meet the requirements of the Contract Documents shall name Escambia County as an additional insured and shall contain severability of interest provisions. Escambia County shall also be designated as certificate holder with the address of P. O. Box 1591, Pensacola, Florida 32597-1591. If any insurance provided pursuant to the Contract Documents expires prior to the completion of the Work, renewal Certificates of Insurance and, if requested by County, certified, true copies of the renewal policies, shall be furnished by Contractor within thirty (30) days prior to the date of expiration. Upon expiration of an insurance policy term during the course of work under the contract, succeeding insurance policies shall be consecutive to the expiring policy.

13.6 All liability policies shall be underwritten on the "occurrence" basis, unless otherwise approved in writing by the County Division of Risk Management. "Claims made" policies, if approved by the Risk Manager, and subsequent insurance certificates shall provide a "retro-date" which shall include the effective date of the contract. "Claims-made" renewals or carrier and policy replacements shall reflect the original "retro-date."

13.7 Should at any time the Contractor not maintain the insurance coverages required herein, the County may terminate the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge the Contractor for such coverages purchased. The County shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance coverages shall in no way be construed to be a waiver of any of its rights under the Contract Documents.

13.8 Contractor shall submit to County a copy of all accident reports arising out of any personal injuries or property damages arising or alleged to have arisen on account of any work by Contractor or sub-Contractor under the contract documents.

13.9 Duty To Provide Legal Defense. Contractor shall pay for and provide a legal defense for the County, which shall include attorneys' fees and costs, both of which will be done only if and when requested by the County, for all liabilities, damages, losses, and costs as described in paragraph 13.1 above. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Section 14. COMPLIANCE WITH LAWS

14.1. Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify County and Architect/Engineer in writing. Compliance with the above laws shall include

but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Florida Department of Transportation Manual of Traffic Control and Safe Practices. Failure to adhere to the requirements of the abovenamed laws and regulations regarding safety and traffic control shall be grounds for an immediate work stoppage, either by County staff or the Contractor, until the deficiency is corrected.

14.2 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY)

In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States, except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Section 15. CLEANUP AND PROTECTIONS.

15.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by County.

15.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work. Non-compliance with directives of this section may serve as a basis of rejection of Application for Payment.

Section 16. ASSIGNMENT

16.1 Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of County. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward County.

Section 17. PERMITS, LICENSES AND TAXES.

17.1. All permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to County have been disclosed to Contractor in the bidding documents or other request for proposal at the time the Project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising therefrom. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

17.2. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 18. TERMINATION FOR DEFAULT.

18.1 Contractor shall be considered in material default of the Agreement and such default shall be considered cause for County to terminate the Agreement, in whole or in part, as further set forth in this Section, if Contractor: (1) fails to begin the Work under the Contract Documents within the time specified herein; or (2) fails to properly and timely perform the Work as directed by the County or Architect/Engineer or as provided for in the approved Progress Schedule; or (4) performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or (5) discontinues the prosecution of the Work; or (6) fails to resume Work which has been suspended within a reasonable time after being notified to do so; or (7) becomes insolvent or is declared bankrupt, or commits any act of bankruptcy; or (8) allows any final judgment to stand against it unsatisfied for more than ten (10) days; or (9) makes an assignment for the benefit of creditors; or (10) fails to obey any applicable codes, laws, ordinances, rules or regulations with respect to the Work; or (11) materially breaches any other provision of the Contract Documents.

18.2 County shall notify Contractor in writing of Contractor's default(s). If County determines that Contractor has not remedied and cured the default(s) within seven (7) calendar days following receipt by Contractor of said written notice, then County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate Contractor's right to proceed under the Agreement, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of Contractor, take assignments of any of Contractor's subcontracts and purchase orders, and complete all or any portion of Contractor's Work by whatever means, method or agency which County, in its sole discretion, may choose.

18.3 If County deems any of the foregoing remedies necessary, Contractor agrees that it shall not be entitled to receive any further payments hereunder until after the Project is completed. All monies expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses (including Architect/Engineer and attorneys' fees) or damages incurred by County incident to such completion, shall be deducted from the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, Contractor agrees to pay promptly to County on demand the full amount of such excess, including costs of collection, attorney's fees (including appeals) and interest thereon at the maximum legal rate of interest until paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures and damages incurred by the County to complete the Work, such excess shall be paid to the Contractor. The amount to

be paid to the Contractor or County, as the case may be, shall be certified by the Architect/Engineer, upon application, and this obligation for payment shall survive termination of the Agreement.

18.4 The liability of Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained, and obligations assumed by County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, in settlement, discharge or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder.

18.5 If, after notice of termination of Contractor's right to proceed pursuant to this Section, it is determined for any reason that Contractor was not in default, or that its default was excusable, or that County is not entitled to the remedies against Contractor provided herein, then Contractor's remedies against County shall be the same as and limited to those afforded Contractor below under Subsection 19.1, Termination for Convenience.

18.6 If the Contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Contractor in conjunction with this Agreement then the County may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven (7) calendar days' written notice, during which period Contractor still fails to allow access, terminate the employment of the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Contractor, and may finish the project by whatever method it may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the Project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontract work).

Section 19. TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

19.1. County shall have the right to terminate this Agreement without cause upon seven (7) calendar days' written notice to Contractor. In the event of such termination for convenience, Contractor's recovery against County shall be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but Contractor shall not be entitled to any other or further recovery against County, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

19.2. County shall have the right to suspend all or any portions of the Work upon giving Contractor two (2) calendar days' prior written notice of such suspension. If all or any portion of the Work is so suspended, Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the Contract Documents. In no event shall the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds three (3) months, the Contractor shall have the right to terminate the Agreement with respect to that portion of the Work which is subject to the ordered suspension.

Section 20. COMPLETION

20.1. Upon receipt of written notice, the County will ascertain whether the work or designated portions thereof are ready for the Architect's substantial completion inspection. From the Architect's list of incomplete or unsatisfactory items, a schedule for the County's review will be prepared for their completion indicating such completion dates. The County will issue a Certificate of Substantial Completion when the work has been deemed substantially complete by the County.

20.2. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the County shall promptly make such inspection and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a Certificate of Final Completion and Recommendation for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit in the form attached as **Exhibit D**, (2) consent of surety to final payment, (3) if required by County, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by County, (4) a published copy of the Notice of Completion as provided for in this section and (5) all required close out document as provided in the contract documents. County reserves the right to inspect the Work and make an independent determination as to the Work's acceptability. Unless and until the County is completely satisfied, the final payment shall not become due and payable.

20.3. After the Work is ready for final inspection and acceptance by the County, a legal advertisement must be published by the Contractor in a local newspaper of a general countywide circulation at least thirty (30) days before final payment shall be made. Example of such publication is as follows:

Legal Notice of Completion

Notice is hereby given that the undersigned Contractor has completed and has ready for acceptance by the Board of County Commissioners of Escambia County, Florida, the following construction project:

_____

(Project Name and Address)

_____

(Legal Name and Address - entity of the Contractor)

Subcontractors, material men, and other persons having payment claims against the Contractor relating to this project should govern themselves accordingly.

Section 22. WARRANTY

22.1. Contractor shall obtain and assign to County all express warranties given to Contractor or any subcontractors by any material men supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to County that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within two (2) years after substantial completion and acceptance, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work, which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which County is entitled as a matter of law. The Performance Bond shall remain in full force and effect throughout the two (2) year Warranty Period.

Section 23. TESTS AND INSPECTIONS

23.1. County, Architect/Engineer, their respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide Architect/Engineer with timely notice of readiness of the Work for all required inspections, tests or approvals.

23.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish Architect/Engineer the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the Architect/Engineer and County.

23.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the Architect/Engineer, such work must, if requested by Architect/Engineer, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given Architect/Engineer timely notice of Contractor's intention to cover the same and Architect/Engineer has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from Architect/Engineer, such Work must, if requested by Architect/Engineer, be uncovered for Architect/Engineer's observation and be replaced at Contractor's sole expense.

23.4. The County shall charge to Contractor and may deduct from any payments due Contractor all engineering and inspection expenses incurred by County in connection with any overtime work. Such overtime work consisting of any work during the construction period beyond the regular eight (8) hour day and for any work performed on Saturday, Sunday or holidays.

23.5. Neither observations by the Architect/Engineer nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with

the Contract Documents.

23.6. Prior to payment for any Work for which testing is specified, Contractor shall provide the County a copy of reasonably acceptable test results relating to such work as required by the technical specifications of the solicitation.

Section 24. DEFECTIVE WORK

24.1. Work not conforming to the requirements of the construction plans or Contract Documents or work conforming to the construction plans or contract documents containing errors or omissions, including, but not limited to, design flaws shall be deemed defective Work. If required by County or Architect/Engineer, Contractor shall as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by County or Architect/Engineer, remove it from the site and replace it with undefective Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold County harmless for same.

24.2. If the County or Architect/Engineer considers it necessary or advisable that covered Work be observed by Architect/Engineer or inspected or tested by others, Contractor, at County's or Architect/Engineer's request, shall uncover, expose or otherwise make available for observation, inspection or tests as County or Architect/Engineer may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and County shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

24.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, County or Architect/Engineer may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of County or Architect/Engineer to stop the Work shall not give rise to any duty on the part of County or Architect/Engineer to exercise this right for the benefit of Contractor or any other party.

24.4. Should the County determine, at its sole opinion, it is in the County's best interest to accept defective Work, the County may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the County's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the County accepts such defective Work after final payment, Contractor at the discretion of the County shall promptly pay County an appropriate amount to adequately compensate County for its acceptance of the defective Work or shall increase in the Work's warranty period beyond two (2) years.

24.5. If Contractor fails, within a reasonable time after the written notice from County or Architect/Engineer, to correct defective Work or to remove and replace rejected defective Work as required by Architect/Engineer or County, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, County may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, County may exclude Contractor from any or all of the Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which County has paid Contractor but which are stored elsewhere. Contractor shall allow County or Architect/Engineer, and their respective representatives, agents, and employees such access to the Project site as may be necessary to enable County to exercise the rights and remedies under this Subsection. All direct, indirect and consequential costs of County in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by County of County's rights and remedies hereunder.

Section 25. SUPERVISION AND SUPERINTENDENTS

25.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent, who shall not be replaced without prior written notice to County except under extraordinary circumstances. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. County shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 26. PROTECTION OF WORK

26.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

26.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 27. EMERGENCIES

27.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from County or Architect/Engineer is obligated to act to prevent threatened damage, injury or loss. Contractor shall give Architect/Engineer written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the Architect/Engineer determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjacent to the Contract Amount or an extension to the Contract Time.

Section 28. USE OF PREMISES

28.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

Section 29. SAFETY

29.1. The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

29.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

29.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

29.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

28.2 The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by County has occurred.

28.3 The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.

28.4 The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in **Exhibit C** of this Agreement.

Section 30. PROJECT MEETINGS.

30.1. Prior to the commencement of Work, the Contractor shall attend a preconstruction conference with the County to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the Architect/Engineer or County with respect to the Project, when directed to do so by County or Architect/Engineer. Contractor shall have its subcontractors and suppliers attend all such meetings (including the preconstruction conference) as may be directed by the County or Architect/Engineer.

EXHIBIT C
INSURANCE AND SAFETY

INSURANCE - BASIC COVERAGES REQUIRED

The Contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such on policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the Contract Documents, whether such services, work and operations be by the Contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The Contractor shall require, and shall be responsible for assuring throughout the time the Agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the Contractor. The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the Contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the Contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The Contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The Contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The Contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile And Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.
Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage
Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability policy.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of $1,000.
4. Designate Escambia County as the certificate holder as follows:
   Escambia County
   Attention: Paul R. Nobles, Purchasing Manager
   Office of Purchasing
   P.O. Box 1591
   Pensacola, FL 32597-1591
   Fax (850) 595-4805
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

ENDORSEMENTS/ADDITIONAL INSURANCE

INSTALLATION FLOATER COVERAGE

Installation Floater insurance is to be purchased when Builder's Risk insurance is inappropriate, or when Builder's Risk insurance will not respond, to cover damage or destruction to renovations, repairs or equipment being installed or otherwise being handled or stored by the Contractor, including off-site storage, transit and installation. The amount of coverage should be adequate to provide full replacement value of the property, repairs, additions or equipment being installed, otherwise being handled or stored on or off premises. All risks coverage is preferred.

MINIMUM PROJECT SAFETY REQUIREMENTS

The following safety requirements represent the minimum condition, which shall be met by all Contractors and subcontractors performing work for Escambia County: Reported or observed violations of Federal and State laws and regulations, or County ordinances shall be brought to the attention of the County project manager and County's Department of Safety and Risk Services and shall be immediately corrected by the Contractor. Additionally, the County may order work to be stopped if conditions exist that present immediate danger to persons or property. The Contractor acknowledges that any such stoppage will not shift responsibility for any damages from the Contractor to the County. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the County's Department of Safety and Risk Services for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

(1) Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the County a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

(2) The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including County and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

(3) The Contractor shall provide all necessary safety equipment for County staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

(4) Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of County staff, visitors, and the general public while operating work vehicles at a "controlled" construction site. Where conditions warrant, or at the request of the County, temporary barriers shall also be established for these traffic areas.

(5) The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to County staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE; ANYONE TRESPASSING ON THIS PROPERTY SHALL, UPON CONVICTION, BE GUILTY OF A FELONY; "A DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY," and other general safety warning signs, i.e., "HARD HAT AREA," as are deemed

necessary by the Contractor and project manager.

(6) In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the County safety Office. Alternative measures may include, but are not limited to, working during "off 'hours such as nights, weekends, or holidays, or the providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the County).

(7) The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the County's Department of Safety and Risk Services and the appropriate life safety code inspector), shall the life safety code components of an occupied facility be reduced or otherwise compromised.

A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor and County's Department of Safety and Risk Services as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

- When a project alters a building's fire protection compartment features, such as fire barriers, smoke barriers, or corridor walls, exits must provide free and unobstructed egress. Employees shall receive notice if any alternative exits have been designated. Buildings or areas under construction must maintain escape egress for construction workers at all times. These means of egress shall be inspected daily by the Contractor.

- When a project affects fire alarms, fire detection, or fire suppression systems, of a building that is occupied, the Contractor must ensure that such systems are not functionally impaired. Any temporary systems, which are installed, must be inspected and tested monthly by the Contractor. Employees must be notified when such temporary systems are in place.

- When any sources of ignition are present, such as welding torches, smoking by all persons shall be prohibited on any construction site and in any County facility.

(8) Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

(a) The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work

areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the County's Department of Safety and Risk Services. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

(b) Material Safety Data Sheets (MSDS) shall be provided to the County's Department of Safety and Risk Services for all hazardous substances used on the project or brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

(c) Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

(d) The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

(9) The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing County 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

(10) The Contractor agrees and understands that all County construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or County regulatory agencies.

(11) The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

(12) Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

(13) Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the

project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior written approval from the County's Department of Safety and Risk Services shall be obtained before their use.

(14) The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic, cadmium, mercury, selenium), on the work site shall be avoided. Prior written approval for use of these metals shall be obtained by the Contractor from the County's Department of Safety and Risk Services.

(15) The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and County's Department of Safety and Risk Services for review.

(16) The County contracts out the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager ~~or~~ and the County's Department of Safety and Risk Services.

(17) The above-cited guidelines represent minimum expectations and actions, which shall be taken by Contractors while under contract for County construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager and County's Department of Safety and Risk Services.

SUPPLEMENTAL TERMS AND CONDITIONS

1. OWNER DIRECT PURCHASES (ODP)

1.1 County reserves the right to require Contractor to assign some or all of its subcontracts or other agreements with material, including equipment, suppliers directly to County. Any materials purchased by County pursuant to such an assignment of a material supply subcontract or agreement shall be referred to as "Owner Direct Purchases" (ODP) and the responsibilities of both County and Contractor relating to such ODP shall be governed by the terms and conditions of these Supplementary Conditions, which shall take precedence over other conditions and terms of the Contract Documents where inconsistencies or conflicts exist.

1.2 Material suppliers shall be selected by Contractor using competitive bidding/proposals. Supply contracts shall be awarded by the Contractor to the supplier whose bid/proposal is most advantageous to the County, price and other factors considered.

The Contractor shall include the price for all construction materials in lump sum price in his bid. His bid shall also include all Florida State sales and other taxes normally applicable to such material and equipment. The County may consider purchasing any item but does not expect to issue purchase orders for less than $5,000. County-Purchasing of selected construction materials will be administered on a deductive Change Order basis.

1.3 Contractor shall provide County a list of all intended suppliers, vendors, and material men for consideration as ODP. This list shall be submitted at the same time as the preliminary schedule of values and the project CPM schedule. The Contractor shall submit price quotes from the vendors, as well as a description of the materials to be supplied, estimated quantities and prices.

1.4 Upon request from County, and in a timely manner, Contractor shall prepare Purchasing Requisition Request Form which shall, in form and detail acceptable to County, specifically identify the materials which County may, in its discretion, elect to purchase directly. The Purchasing Requisition Request Form shall include:

a. the name, address, telephone number and contact person for the material supplier
b. manufacturer or brand, model or specification number of the item
c. quantity needed as estimated by Contractor
d. the price quoted by the supplier for the materials identified therein
e. any sales tax associated with such quote

f. delivery dates as established by Contractor
g. any reduction in Contractor's cost for both the Payment Bond and the
h. Performance Bond
i. shipping, handling and insurance costs

j. detail concerning bonds or letters of credit provided by the supplier if included in his/her proposal.
k. Special terms and conditions which have been negotiated with the supplier relative to payment terms, discounts, rebates, warranty, credits or other terms and conditions which will revert to the Owner.

Contractor shall include copies of vendors' quotations and specifically reference any terms and conditions, which have been negotiated with the vendors concerning letters of credit, terms, discounts, or special payments.

At the County's option, the County will install a computer with the appropriate software and dial-up modem connection in the Contractor's office for the Contractor's use in entering requisition requests into the purchasing system. The required telephone line will be the responsibility of the Contractor.

1.5 After receipt of the Purchasing Requisition Request Form, County shall prepare a Purchase Order for all items of material, which County chooses to purchase directly. The purchase order shall be sent to the vendor with a copy sent to the contractor. Pursuant to the Purchase Order, the vendor will provide the required quantities of material at the price established in the vendor's quote to the contractor, excluding any sales tax associated with such price. The Contract Administrator shall be the approving authority for the County on Purchase Orders in conjunction with ODP. The Purchase Order shall also require the delivery of the ODP on the delivery dates provided by the Contractor in the Purchasing Requisition Request Form.

1.6 In conjunction with the execution of the Purchase Orders by the suppliers, Contractor shall execute and deliver to County one or more deductive Change Orders, referencing the full value of all ODP to be provided by each supplier from whom the County elected to purchase material directly, plus all sales taxes associated with such materials in Contractor's bid to County, plus any savings to Contractor in the cost of Payment and Performance Bonds associated with such ODP. To compensate the Contractor for the warranty enforcement obligation the Contractor's overhead and profit associated with ODP shall not be deducted from the contract. The Contract Administrator shall be the approving authority for the County on deductive Change Orders in conjunction with ODP.

1.7 Contractor shall be fully responsible for all matters relating to the procurement of materials furnished by and incorporated into the Project in accordance with these Supplementary Conditions including, but not limited to, assuring the correct quantities, placing the order in a timely manner, and assuring coordination of

purchases, providing and obtaining all warranties and guarantees required by the Contract Documents, inspection and acceptance of the goods at the time of delivery. The Contractor shall coordinate delivery schedules, sequence of delivery loading orientation, and other arrangements normally required by the Contractor for the particular materials furnished. The Contractor shall provide all services required for the unloading, handling and storage of materials through installation. The County assumes the risk of loss of building material through their incorporation into the installation.

1.8 As ODP are delivered to the jobsite, the Contractor shall visually inspect all shipments from the suppliers, and sign off on the receiving reports for material delivered. The Contractor shall assure that each delivery of ODP is accompanied by documentation adequate to identify the Purchase Order against which the purchase is made. This documentation may consist of a delivery ticket and an invoice from the supplier conforming to the Purchase Order together with such additional information as the County may require. The Contractor will then forward the receiving report to the Clerk of the Court, Accounts Payable to match up with the invoice for payment.

1.9 The Contractor shall insure that ODP conform to the Specifications, and determine prior to incorporation into the Work if such materials are patently defective, and whether such materials are identical to the materials ordered and match the description on the bill of lading. If the Contractor discovers defective or non-conformities in ODP upon such visual inspection, the Contractor shall not utilize such nonconforming or defective materials in the Work and instead shall promptly notify the County of the defective or nonconforming condition so that repair or replacement of those materials can occur without any undue delay or interruption to the Project. If the Contractor fails to perform such inspection and otherwise incorporates into the work such defective or nonconforming ODP, the condition of which it either knew or should have known by performance of an inspection, Contractor shall be responsible for all damages to County resulting from Contractor's incorporation of such materials into the Project, including liquidated or delay damages.

1.10 The Contractor shall maintain records of all ODP it incorporates into the Work from the stock of ODP in its possession. The Contractor shall account monthly to the County for any ODP delivered into the Contractor's possession, indicating portions of all such materials which have been incorporated into the work.

1.11 The Contractor shall be responsible for obtaining and managing all warranties and guarantees for all materials and products as required by the Contract Documents. All repair, maintenance or damage-repair calls shall be forwarded to the Contractor for resolution with the appropriate supplier, vendor, or subcontractor. Additionally, ODP items shall be warranted by the Contractor as part of the Contractor's warranty. The Contractor agrees and understands that it shall undertake all warranty enforcement and other related duties of the County for its Owner Direct Purchase equipment and materials. These duties shall be governed by and carried out pursuant to Section 21 of Exhibit A, General Terms and Conditions. To that end, the Contractor expressly agrees it shall make no distinction in discharging

such warranty duties under Section 21 between Owner Direct Purchase equipment and materials and equipment and materials otherwise supplied by the Contractor.

1.12 Notwithstanding the transfer of ODP by the County to the Contractor's possession, the County shall retain legal and equitable title to any and all ODP.

1.13 The transfer of possession of ODP from the County to the Contractor shall constitute a bailment for the mutual benefit of the County and the Contractor. The County shall be considered the bailor and the Contractor the bailee of the ODP. ODP shall be considered returned to the County for purposes of their bailment at such time as they are incorporated into the Project.

1.14 The County shall purchase and maintain builders risk insurance sufficient to protect against any loss of or damage to ODP. Such insurance shall cover the full value of any ODP not yet incorporated into the Project during the period between the time the County first takes title to any of such ODP and the time when the last of such is incorporated into the Project. The Contractor shall purchase and maintain builders risk, all risk, insurance based on the completed value of project, less the County's ODP values. The Contractor must name Escambia County as additional insured on its policy.

1.15 The County shall in no way be liable for any interruption or delay in the Project, for any defects or other problems with the Project, or for any extra costs resulting from any delay in the delivery of, or defects in, ODP. Contractor's sole or exclusive remedy shall be an extension of the Contract Time for such reasonable time as determined by Contract Administrator.

1.16 Contractor shall be required to review invoices submitted by all suppliers of ODP delivered to the project sites and either concur or object to the County's issuance of payment to the suppliers, based upon Contractor's records of materials delivered to the site and any defects detected in such materials.

1.17 In order to arrange for the prompt payment to the supplier, prompt submittal of a copy of the applicable Purchase Order as receiving report, invoices, delivery tickets, written acceptance of the delivered items, and such other documentation as may be reasonably required by the County. Upon receipt of the appropriate documentation, the County shall prepare a check drawn to the supplier based upon the data provided. This check will be released and remitted directly to the supplier. The Contractor agrees to assist the County to immediately obtain partial or final release of waivers as appropriate.

1.18 At the end of the project Contractor will be provided with a deductive Change Order for the costs incurred by County to provide all ODP, not covered by previous change orders. Salvage materials shall be stored or removed from the site at the County's direction, or may be turned over to the Contractor by the County for salvage or disposal at the Contractor's option.

B. Approve establishing an Environmental Technician position to perform duties associated with monitoring water quality around the Rolling Hills property site, per Board Action on February 21, 2019. Funding will be approximately $21,519 ($30,347 including benefits), to cover the position through the end of Fiscal Year 2018/2019. [Funding Source: Fund 129/2015 CDBG, Cost Center 370224]

BACKGROUND:

Tax Certificates are sold annually through an online Tax Certificate sale for delinquent real estate taxes. If taxes remain unpaid, the certificate holder may file a Tax Deed Application with the Tax Collector's Office two years after the date of delinquency. If not redeemed, the property may be sold at a public auction conducted by the Clerk of the Circuit Court. Florida Statute 197.502(3) provides that the County in which the property is located shall apply for a tax deed on all County-held certificates on property valued at $5,000 or more on the Property Appraiser's most recent assessment roll, and may apply for tax deeds on certificates on property valued at less than $5,000 on the Property Appraiser's most recent assessment roll. Each of the properties that are the subject of this recommendation are valued at less than $5,000 on the Property Appraiser's most recent roll.

On September 6, 2018, the Board of County Commissioners approved to file an Application for Tax Deed for each of the five parcels aforementioned, which the County currently holds a tax certificate. If the County is the successful bidder, this would assist in the Erress Blvd and Diego Circle Blight Reduction Project to reduce slum and/or blight conditions in this community. All of the properties have significant back taxes, code enforcement liens, and/or other encumbrances.

BUDGETARY IMPACT:

Funding for this project is available in Fund 129/2015 CDBG, Cost Center 370224.

LEGAL CONSIDERATIONS/SIGN-OFF:

Staff will coordinate with the County Attorney's office throughout this bidding process.

PERSONNEL:

All work associated with this request is being done in-house and no additional staff is required.

POLICY/REQUIREMENT FOR BOARD ACTION:

Board approval is required for authorization to bid on the tax deed sales for property acquisition.

IMPLEMENTATION/COORDINATION:

If Board approves to proceed, Neighborhood and Human Services Department staff will follow County guidelines fo the Tax Deed Sale process.

Tax Certificates are sold annually, through an online Tax Certificate sale, for delinquent real estate taxes. If taxes remain unpaid, the certificate holder may file a Tax Deed Application with the Tax Collector's Office two years after the date of delinquency. If not redeemed, the property may be sold at a public auction conducted by the Clerk of the Circuit Court. Florida Statute 197.502(3) provides that the County in which the property described in the certificate is located shall apply for a tax deed on all County-held certificates on property valued at $5,000 or more on the Property Appraiser's most recent assessment roll, and may apply for tax deeds on certificates on property valued at less than $5,000 on the Property Appraiser's most recent assessment roll. Each of the properties that are the subject of this recommendation are valued at less than $5,000 on the Property Appraiser's most recent roll.

Value Reconciliation

The Direct Sales Comparison Approach was utilized exclusively within this report. The comparable sales bracket the subject well with consideration to the limited amount of vacant sales for this area.

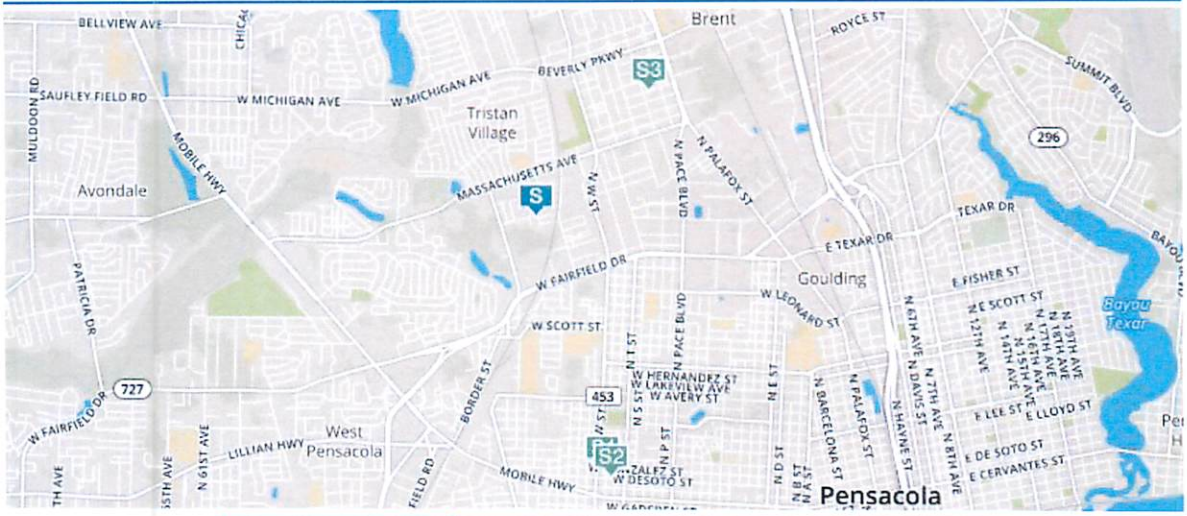
How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Sales #2 & #3 are listed as superior because of the location and lot size. The neighborhood is limited with vacant land sales and undeveloped properties are scarce for this area.

Was it necessary to use distant comparables or older sales?
No

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:



Did you reconcile towards one end of the range because of market conditions?
No

Market Conditions:
This market segment extends over several blocks and is primarily comprised moderately priced housing and developments with a wide range of pride of ownership. The community is bordered by Massachusetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the West, and N W Street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community. The subject development consists of homes of similar design and ages that also include a section of single family detached residences that were built from 1971-1980 and range in sizes from 1000-1900 square feet. The surrounding neighborhood is characterized by modest single family homes, residential attached and mobile homes. Properties range from poor to average condition. Shopping, schools, employment centers, medical facilities and recreational opportunities are located within close proximity. Commercial uses are concentrated along Massachusetts, "W" Street & Michigan Highway.

Supply and demand levels are balanced for this market and values are stable.

The current market is considered to be a buyers' market with normal concessions for all or part of the closing costs. Marketing time usually exceeds more than 90 days. Within recent months, available properties on the market has declined slightly. Currently, asking prices have been declining and the median days on market have been increasing. Properties which are priced right initially appear to be selling faster than homes that have been on the market longer with repeatedly reduced asking prices. The fall and winter are also historically the slowest part of the year for the local market.

Subject History

The subject has not been sold in the last 36 months

The Subject does not appear to have been listed in the MLS in the past year.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

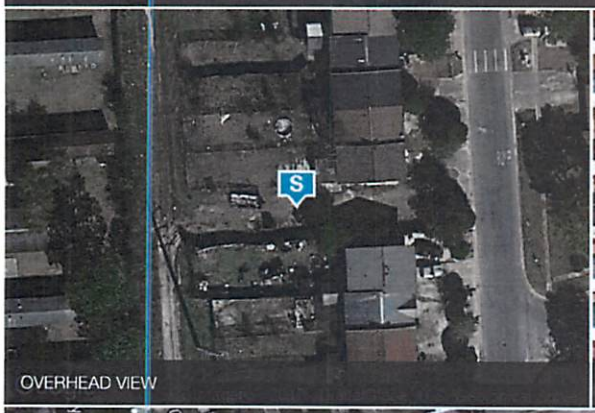
Inspector's Comments



The Subject property is a vacant lot in similar condition to the surrounding properties. The site is relatively clear, with little or no debris from a previous structure. There is currently a privacy fence along the left side of the subject which is deteriorating, and another vacant parcel to the right of the subject. Upon visual inspection of the property using county maps, markers and coordinates, it is our opinion that this is currently a vacant lot.

Value Reconciliation

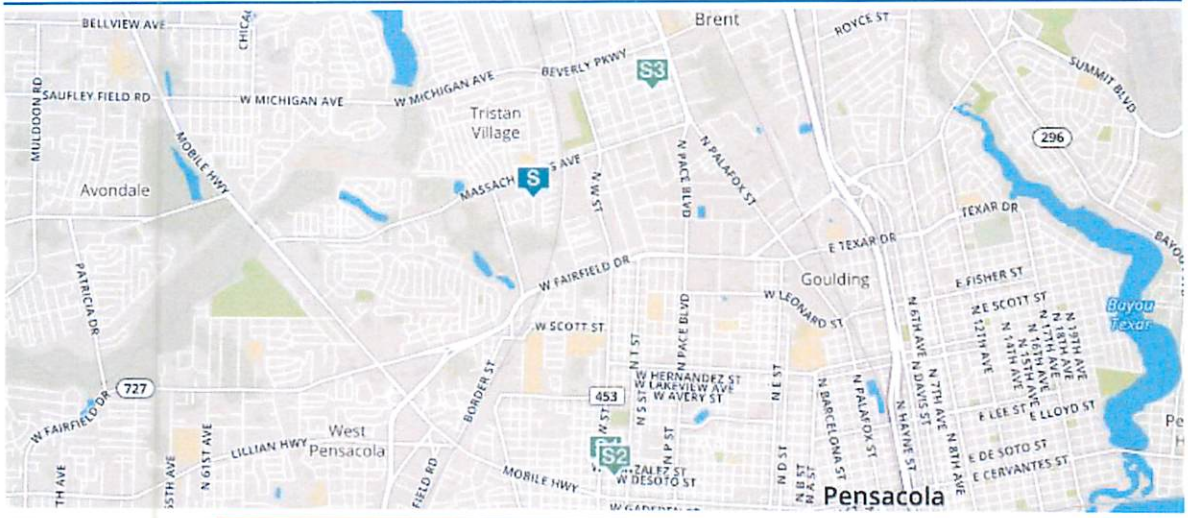
The Direct Sales Comparison Approach was utilized exclusively within this report. The comparable sales bracket the subject well with consideration to the limited amount of vacant sales for this area.

Legal Description
LT 54 VALENCIA ARMS PB 7 P 99 OR 6096 P 1699

How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Sales #2 & #3 are listed as superior because of the location and lot size. The neighborhood is limited with vacant land sales and undeveloped properties are scarce for this area.

Was it necessary to use distant comparables or older sales?
Yes: Due to low volume or recent vacant lot sales in the immediate vicinity, sales were researched from a greater distance.

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:



Did you reconcile towards one end of the range because of market conditions?
No

Market Conditions:
This market segment extends over several blocks and is primarily comprised moderately priced housing and developments with a wide range of pride of ownership. The community is bordered by Massachusetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the West, and N W Street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community. The subject development consists of homes of similar design and ages that also include a section of single family detached residences that were built from 1971-1980 and range in sizes fromb1000-1900 square feet. The surrounding neighborhood is characterized by modest single family homes, residential attached and mobile homes. Properties range from poor to average condition. Shopping, schools, employment centers, medical facilities and recreational opportunities are located within close proximity. Commercial uses are concentrated along Massachusetts, "W" Street & Michigan Highway.

Supply and demand levels are balanced for this market and values are stable.

The current market is considered to be a buyers' market with normal concessions for all or part of the closing costs. Marketing time usually exceeds more than 90 days. Within recent months, available properties on the market has declined slightly. Currently, asking prices have been declining and the median days on market have been increasing. Properties which are priced right initially appear to be selling faster than homes that have been on the market longer with repeatedly reduced asking prices. The fall and winter are also historically the slowest part of the year for the local market.

The Subject does not appear to have been listed in the MLS in the past year.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.

Value Reconciliation

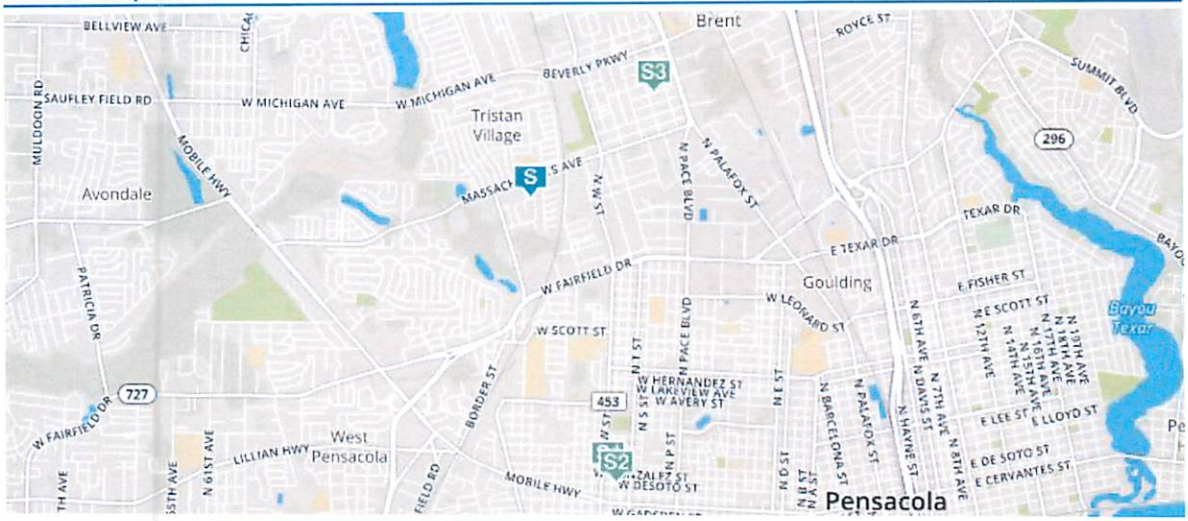
Vacant Lot Valuation - The Direct Sales Comparison Approach was utilized exclusively within this report. The comparable sales bracket the subject well with consideration to the limited amount of vacant sales for this area.

Legal Description
LT 24 VALENCIA ARMS PB 7 P 99 OR 6096 P 1699

How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Sales #2 & #3 are listed as superior because of the location and lot size. The neighborhood is limited with vacant land sales and undeveloped properties are scarce for this area.

Was it necessary to use distant comparables or older sales?
No

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:



Did you reconcile towards one end of the range because of market conditions?
No

Market Conditions:
This market segment extends over several blocks and is primarily comprised moderately priced housing and developments with a wide range of pride of ownership. The community is bordered by Massachusetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the West, and N W Street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community. The subject development consists of homes of similar design and ages that also include a section of single family detached residences that were built from 1971-1980 and range in sizes from 1000-1900 square feet. The surrounding neighborhood is characterized by modest single family homes, residential attached and mobile homes. Properties range from poor to average condition. Shopping, schools, employment centers, medical facilities and recreational opportunities are located within close proximity. Commercial uses are concentrated along Massachusetts, "W" Street & Michigan Highway.

Supply and demand levels are balanced for this market and values are stable.

The current market is considered to be a buyers' market with normal concessions for all or part of the closing costs. Marketing time usually exceeds more than 90 days. Within recent months, available properties on the market has declined slightly. Currently, asking prices have been declining and the median days on market have been increasing. Properties which are priced right initially appear to be selling faster than homes that have been on the market longer with repeatedly reduced asking prices. The fall and winter are also historically the slowest part of the year for the local market.

Subject History

The subject has not been sold in the last 36 months

The Subject does not appear to have been listed in the MLS in the past year.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

Value Reconciliation

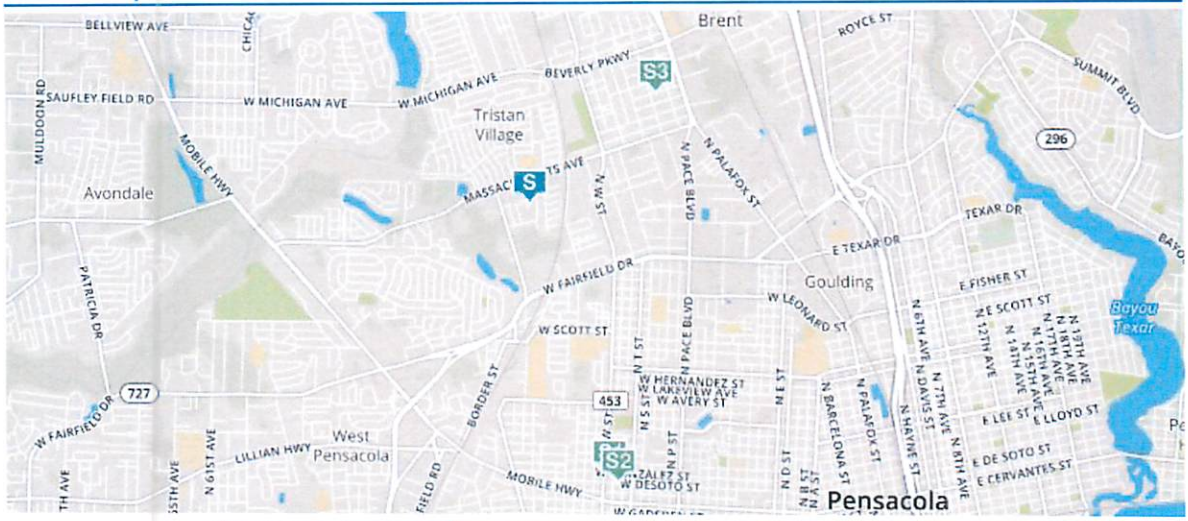
The Direct Sales Comparison Approach was utilized exclusively within this report. The comparable sales bracket the subject well with consideration to the limited amount of vacant sales for this area.

Legal Description
LT 43 VALENCIA ARMS PB 7 P 99 OR 5846 P 1101

How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Sales #2 & #3 are listed as superior because of the location and lot size. The neighborhood is limited with vacant land sales and undeveloped properties are scarce for this area.

Was it necessary to use distant comparables or older sales?
No

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:



Did you reconcile towards one end of the range because of market conditions?
No

Market Conditions:
This market segment extends over several blocks and is primarily comprised moderately priced housing and developments with a wide range of pride of ownership. The community is bordered by Massachusetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the West, and N W Street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community. The subject development consists of homes of similar design and ages that also include a section of single family detached residences that were built from 1971-1980 and range in sizes from 1000-1900 square feet. The surrounding neighborhood is characterized by modest single family homes, residential attached and mobile homes. Properties range from poor to average condition. Shopping, schools, employment centers, medical facilities and recreational opportunities are located within close proximity. Commercial uses are concentrated along Massachusetts, "W" Street & Michigan Highway.

Supply and demand levels are balanced for this market and values are stable.

The current market is considered to be a buyers' market with normal concessions for all or part of the closing costs. Marketing time usually exceeds more than 90 days. Within recent months, available properties on the market has declined slightly. Currently, asking prices have been declining and the median days on market have been increasing. Properties which are priced right initially appear to be selling faster than homes that have been on the market longer with repeatedly reduced asking prices. The fall and winter are also historically the slowest part of the year for the local market.

Subject History

The subject has not been sold in the last 36 months

The Subject does not appear to have been listed in the MLS in the past year.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

Inspector's Comments

The Subject property is a vacant lot in similar condition to the surrounding properties. The site has concrete pad from a previous unit as well concrete step and driveway from previous improvements. There is a vacant lot to the left of the subject, and an improved interior unit to the right.. Upon visual inspection of the property using county maps, markers and coordinates, it is our opinion that this is currently a vacant lot.

Value Reconciliation

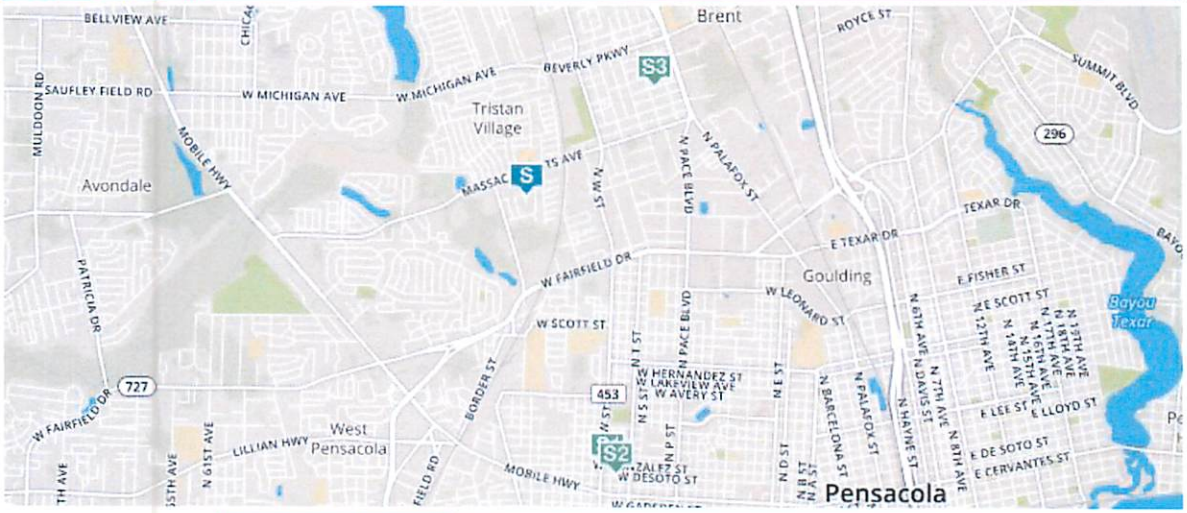
The Direct Sales Comparison Approach was utilized exclusively within this report. The comparable sales bracket the subject well with consideration to the limited amount of vacant sales for this area.

Legal Description:
LT 40 VALENCIA ARMS PB 7 P 99 OR 6212 P 1234

How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Sales #2 & #3 are listed as superior because of the location and lot size. The neighborhood is limited with vacant land sales and undeveloped properties are scarce for this area.

Was it necessary to use distant comparables or older sales?
No

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:



Did you reconcile towards one end of the range because of market conditions?
No

Market Conditions:
This market segment extends over several blocks and is primarily comprised moderately priced housing and developments with a wide range of pride of ownership. The community is bordered by Massachusetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the West, and N W Street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community. The subject development consists of homes of similar design and ages that also include a section of single family detached residences that were built from 1971-1980 and range in sizes from 1000-1900 square feet. The surrounding neighborhood is characterized by modest single family homes, residential attached and mobile homes. Properties range from poor to average condition. Shopping, schools, employment centers, medical facilities and recreational opportunities are located within close proximity. Commercial uses are concentrated along Massachusetts, "W" Street & Michigan Highway.

Supply and demand levels are balanced for this market and values are stable.

The current market is considered to be a buyers' market with normal concessions for all or part of the closing costs. Marketing time usually exceeds more than 90 days. Within recent months, available properties on the market has declined slightly. Currently, asking prices have been declining and the median days on market have been increasing. Properties which are priced right initially appear to be selling faster than homes that have been on the market longer with repeatedly reduced asking prices. The fall and winter are also historically the slowest part of the year for the local market.

Subject History

The subject has not been sold in the last 36 months

The Subject does not appear to have been listed in the MLS in the past year.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

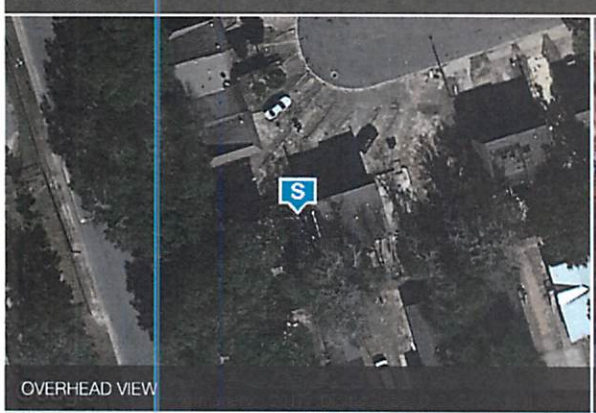
Inspector's Comments



The Subject property is a vacant lot in similar condition to the surrounding properties. The site is relatively clear, with little or no debris from a previous structure. The only improvement is a 6' privacy fence spanning the units on either side of the lot. Upon visual inspection of the property using county maps, markers and coordinates, it is our opinion that this is currently a vacant lot.

1. REPRESENTATIONS OF CUSTOMER. By signing this Agreement including these Terms and Conditions and the Global Data Privacy Policy located at www.timeclockplus.com/privacy.aspx, collectively the agreement ("Agreement") for TimeClock Plus OnDemand Services between the Customer ("You") and DMI, you represent, warrant and certify that: (a) you are 18 years of age or older; (b) you are authorized to bind the company or organization named above under this Agreement, (c) you are authorized to use the payment method specified to engage in transactions relating to TimeClock Plus OnDemand Services provided by Data Management, Inc. ("DMI"), including any recurring payment information and (d) you have read, understand and agree to the Terms and Conditions of this Agreement and DMI's Global Data Privacy Policy found at www.timeclockplus.com/privacy.aspx, which may be amended from time-to-time to adhere to changing data protection legislation.

2. DEFINITIONS.

2.1 "Active Employee" means a Customer Employee who was not marked suspended or terminated for a complete month. For purposes of billing Monthly Employee Fees, an active employee is one who has been marked as active within the TimeClock Plus OnDemand system on any date during a month, no matter the duration of being marked active, and such employee will be subject to the Monthly Employee Fee for the complete month.

2.2 "Employee" means Customer's employee, agent or contractor for whom Customer has agreed to pay a fee under this Agreement.

2.3 "Services" means the right to access and use TimeClock Plus OnDemand Software, our website, or the user website interface provided by DMI.

2.4 "Monthly Employee Fee" means DMI's then current fee for each of Customer's Employees to access and use the Services measured over the course of each calendar month, as outlined on the Purchase Order. This fee may be prorated during the first month of the Initial Service Term, and may be prorated for the last month of the Initial Service Term.

2.5 "Software" means the TimeClock Plus OnDemand software and associated modules authorized for Customer access and use under this Agreement.

2.6 "User" means Customer Employees who are not added to the TimeClock Plus OnDemand database as an Employee but *are* physically added as Users within the Software with management rights. Users *will not* be considered Employees and will not incur Monthly Employee Fees, except Users who are added to the database as Employees as well as Users, who are effectively considered Employees and a Monthly Employee Fee will be assessed for each.

2.7 "Overage Charge" means the fee due as a result of an Employee added during a month for which billing has already been processed. Since billing is done in advance, the Monthly Employee Fee for Employees added during any month for which billing has already occurred will be reflected as an Overage Charge in billing the following month. For annual subscription organizations, Customer's next statement and charges will reflect the increased employee count with overage charges incurred from the previous month and prorated over the number of months remaining in the term.

2.8 "Personal Data" means any information that can be used to identify, locate or contact an Employee or User.

2.9 "Hardware Support and Maintenance Agreement" means any agreement that extends services to current TimeClock Plus terminals, clocks, and biometric devices, and maintenance releases for related products purchased or licensed by the Customer from DMI or a registered reseller.

2.10 "Supported Hardware" means any hardware purchased from DMI that is coverable under a DMI Support and Maintenance Agreement.

3. USE AND ACCESS. DMI will provide Customer and its authorized Employees and Users access to the Services during the Term. DMI shall make Services available to Customer 24 hours a day, seven (7) days a week except for interruptions by reason of maintenance or downtime beyond DMI's reasonable control. Customer will use the Services only for its internal business operations and will not permit the Services to be used by or for the benefit of anyone other than Customer. Customer will not have the right to re- license or sell rights to access and/or use the Services to transfer or assign rights to access or use the Services, except as expressly provided herein. Customer will not transmit or share identification or password codes to persons other than authorized TimeClock Plus OnDemand Users nor permit the identification or password codes to be cached in proxy servers and accessed by individuals who are not authorized Users. Customer will be responsible for all equipment and software required for Customer to access the Internet including, without limitation, a web browser compatible with the Services. Customer acknowledges that DMI is not responsible for any use or misuse of the Services by Customer or its employees or contractors. You may not access the Services if you are a competitor of DMI, unless DMI provides written consent.

3.1 Customer's Responsibilities. Customer agrees to act as the Data Controller, and appoint DMI as Data Processor, of information entered by its authorized Employees and Users. Customer agrees to impose similar data protection-related terms that will not be less protective than those imposed on DMI by this Agreement and the Global Data Privacy Policy.

3.2 Subprocessors. DMI has appointed third party data Subprocessors for the purposes of hosting and security services. These Subprocessors may process Personal Data in accordance with the terms of this agreement and the Global Data Privacy Policy. The Subprocessor agreements impose similar data protection-related processing terms on the third party Subprocessor that are not less protective than those imposed on DMI in this Agreement and the DMI Privacy Policy for Client Data Processing Services. DMI has published an overview of the categories of Subprocessors involved in the performance of the relevant Services which can be found at www.timeclockplus.com/privacy.aspx.

4. TECHNICAL SUPPORT. DMI will provide support to Customer for the Services and Supported Hardware during regular business hours which are 7:00 am to 7:00 pm CST time, Monday through Friday, excluding DMI company holidays ("Regular Business Hours"). DMI, at all times, may monitor usage of Services to gather metadata for delivering and improving the Services.

5. SOFTWARE UPGRADES. From time to time, DMI will release new versions of TimeClock Plus OnDemand and will upgrade the Services to the latest version. DMI also releases firmware updates and patches for Supported Hardware. DMI will give at least five (5) business days' notice to Customer before performing software upgrades.

6. PAYMENT. Customer shall pay all fees or charges in accordance with the fees, charges, and billing terms in effect at the time a fee or charge is due and payable. Payments will be made in advance of the Service being provided and may be made annually, quarterly, or monthly, or as otherwise mutually agreed on the Purchase Order. All payment obligations are non-cancellable and all amounts paid are non-refundable. If you elect to dispute charges or fees, you must contact DMI in writing within fifteen (15) days of the date of the invoice in question to be eligible to receive an adjustment or credit. *Services will be suspended for accounts that are 10 calendar days past due.*

7. FEES & CHARGES.

7.1 Service charges will be equal to the number of total Employees multiplied by the Monthly Employee Fee. Customer is responsible for Monthly Employee Fees for the total number of Active Employees who are made active during any calendar month. Customer may add additional Employees as desired each month, by paying the Monthly Employee Fees on the next billing cycle. Employees added at any time during a calendar month will be charged in full for that billing period. Because you are billed in advance for Services, if you increase your Active Employee count during a calendar month, your next statement and charges will reflect the increased Active Employee count with Overage Charges incurred from the previous month. If DMI is required by law to pay or collect any federal, state, local, or value-added tax on any fees charged under this Agreement, or any other similar taxes or duties levied by any governmental authority, excluding taxes levied on DMI's net income, then such taxes and/or duties will be billed to and paid by Customer immediately upon Customer's receipt of DMI's invoice and supporting documentation for the taxes or duties charged.

7.2 Hardware Support and Maintenance charges will be equal to the percentage set forth in the applicable Hardware Support and Maintenance Agreement multiplied by the total purchase price of the Supported Hardware.

8. BILLING CYCLE. See Purchase Order.

9. TERM. The Term of this Agreement will commence the day the web site interface for the Services is made accessible to you via the Internet or the Start Date, whichever is later, and will continue for the Initial Service Term outlined on the Purchase Order. Thereafter this Agreement and any associated Hardware Support and Maintenance Agreement for Supported Hardware incorporated with the Services will automatically renew for successive periods of the same duration as the Initial Service Term unless either party gives the other party ninety (90) days' notice of its intent not to renew.

9.1 Subsequent to the initial term specified in the applicable Purchase Order, DMI may increase the Monthly Employee Fee at any time effective thirty (30) days after providing notice to Client; provided, however, that any such increase will not occur more than once in a consecutive twelve (12) month period and such increase shall not exceed three (3)% of the current rate.

10. PAYMENT. You must provide DMI with valid bank draft or credit card information to use our Services. You are responsible for any and all bank, access fees and/or other fees that may be assessed by your bank, financial institution, or other Program provider.

11. EARLY CANCELLATION. You may cancel your services within thirty (30) days of Start Date with no termination fees. Prepaid fees are non-refundable.

12. TERMINATION. In addition to all other rights that DMI may have to discontinue your access to Services, DMI may discontinue your access to Services with thirty (30) days' notification if you fail to pay any bill in full when it is due or if you otherwise violate the Terms and Conditions of this Agreement. DMI may require that you pay, and you agree to pay, before we reconnect your Services, all past due charges, a fee will be charged ("Restart Fee"), and all outstanding balances accrued through the date of such disconnection. If your Services are terminated for any reason, you still must pay all outstanding balances accrued, including without limitation, any applicable fees and taxes. Except in certain limited circumstances, charges for Services, once charged to your account, are non-refundable, and no refunds or credits will be provided in connection with the cancellation of Services.

13. WARRANTY AND DISCLAIMER. EXCEPT AS EXPRESSLY STATED HEREIN, DMI EXPRESSLY DISCLAIMS ALL REPRESENTATIONS, WARRANTIES OR CONDITIONS OF ANY KIND, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, ACCURACY OF ANY INFORMATIONAL CONTENT OR THOSE ARISING BY STATUTE, OF CONFORMITY TO ANY REPRESENTATIONS OR DESCRIPTIONS NOT CONTAINED HEREIN, OR OTHERWISE IN LAW OR FROM COURSE OF DEALING OR USAGE OF TRADE.

WITHOUT LIMITING THE FOREGOING, DMI DOES NOT WARRANT THAT ANYTHING WILL MEET CUSTOMER'S REQUIREMENTS, WILL BE UNINTERRUPTED, SECURE, RELIABLE, ACCURATE OR ERROR-FREE. DMI HAS NO OBLIGATIONS CONCERNING PRODUCTS OR SERVICES USED OUTSIDE THE U.S.A. UNLESS THEY ARE STATED IN WRITING BY DMI TO BE EXPORT PROGRAM PRODUCTS AND ARE ISSUED AN EXPORT PROGRAM WARRANTY. DMI'S OBLIGATIONS, IF ANY, ARE CONDITIONAL ON CUSTOMER PROMPTLY COMPLYING WITH ALL OF THIS AGREEMENT'S TERMS AND CONDITIONS. USER ACCEPTS SERVICES "AS IS" AND WITH ALL FAULTS. THE LIMITED WARRANTIES AND REMEDIES IN THIS AGREEMENT ARE THE SOLE AND EXCLUSIVE WARRANTIES AND REMEDIES CONCERNING ANY GOODS, SERVICES, OR INTANGIBLES, NOW OR IN THE FUTURE.

14. LIABILITY LIMITATION. IN NO EVENT SHALL DMI BE LIABLE FOR ANY INDIRECT, INCIDENTAL, EXEMPLARY, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES OR REMEDIES RELATING TO SERVICES OR ANY DMI PRODUCTS, GOODS, OR INTANGIBLES (EXCLUDED DAMAGES INCLUDE, WITHOUT LIMITATION, FOR LOST PROFITS, BUSINESS INTERRUPTION, COSTS OF DELAY, FAILURE OF DELIVERY, REVENUE, GOODWILL, LOST OR DAMAGED DATA, DOCUMENTATION OR EQUIPMENT, LOSS OF BUSINESS INFORMATION, COST OF REMOVAL OR INSTALLATION OF ANYTHING, INTERCEPTIONS, DEFECTS, VIRUSES, DELAYS, OR FAILURE OF PERFORMANCE, OTHER LOSS ARISING OUT OF USE, OR INABILITY TO USE SERVICES, LIABILITIES TO THIRD PARTIES, INABILITY TO USE TIMECLOCK PLUS ONDEMAND SERVICES, ERRORS IN THE SOFTWARE, MALFUNCTIONS OR ERRONEOUS DATA, PAYMENTS TO THIRD PARTIES WHICH ARE TOO SMALL, TOO LARGE, TOO LATE OR ARE OTHERWISE IMPROPER), EVEN IF DMI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF THE FORM OF ACTION (INCLUDING, WITHOUT LIMITATION, CONTRACT, NEGLIGENCE, TORT, WARRANTY, ETC.), ANY ASSERTED DMI BREACH OF PROMISE OR WARRANTY; ANY ACT OR FAILURE TO ACT; NEGLIGENCE INCLUDING GROSS NEGLIGENCE; OR ANY CLAIM MADE AGAINST USER BY ANY OTHER PARTY. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL DMI'S LIABILITY (FOR ALL CAUSES OF ACTION), EXCEED THE AMOUNT PAID BY USER TO DMI FOR TOTAL MONTHLY EMPLOYEE FEES PAID TO DMI FOR THE PRECEDING SIX (6) MONTHS FROM THE DATE OF THE INCIDENT. THESE LIMITATIONS ARE INDEPENDENT AND APPLY REGARDLESS OF THE BASIS OF THE CLAIM, INCLUDING, BUT NOT LIMITED TO, A FINDING THAT A WARRANTY, CONDITION, OR REMEDY HAS FAILED ITS ESSENTIAL PURPOSE, BREACH OF CONTRACT (INCLUDING, BUT NOT LIMITED TO, FUNDAMENTAL BREACH), TORT, (INCLUDING, BUT NOT LIMITED TO, NEGLIGENCE OR MISREPRESENTATION), BREACH OF STATUTORY DUTY, OR OTHER LEGAL OR EQUITABLE THEORY. ANY CAUSE OF ACTION CUSTOMER MAY HAVE AGAINST DMI, ITS AFFILIATES, OFFICERS AND AGENTS MUST BE COMMENCED WITHIN ONE YEAR AFTER THE CLAIM OR CAUSE OF ACTION ARISES OR SHALL BE FOREVER BARRED. DMI'S MAXIMUM AGGREGATE LIABILITY SHALL NEVER EXCEED THE AMOUNT PAID BY CUSTOMER FOR THE PRODUCTS DURING THE SIX (6) MONTHS IMMEDIATELY PRIOR TO THE DATE OF THE CLAIM. THIS LIMITATION OF LIABILITY SHALL APPLY REGARDLESS OF THE BASIS OF THE CLAIM.

15. DATA PROTECTION. DMI has adopted the provisions contained in the Global Data Privacy Policy for the processing of Customer Employee Personal Data in accordance with GDPR and other applicable data protection laws.

15.1 Instructions. DMI will process certain categories and types of Personal Data only upon Customer's instructions and in accordance with applicable data protection laws (e.g. GDPR). Customer is responsible for ensuring that all Users who provide instructions are authorized to do so and agrees that DMI will only perform processing activities that are necessary and relevant to provide the Services.

15.2 Requests. Customer will have sole responsibility for the accuracy, quality, and legality of Personal Data and the means by which it was obtained. To the extent permitted by law and subject to the limitations set forth in s.768.28, Florida Statutes, Customer agrees to hold harmless DMI from any and all direct claims, damages and demands, including reasonable attorney's fees, arising out of Customer's violation of applicable data protection laws. Nothing herein is intended to serve as a waiver of sovereign immunity by Customer and nothing herein shall be construed as consent by Customer to be sued by third parties in any matter arising out of this Agreement. Nothing in this Agreement relieves DMI of its own direct responsibilities and liabilities under the applicable data protection laws.

Further information about DMI's use of data and data retention policies can be found in the Global Data Privacy Policy at: www.timeclockplus.com/privacy.aspx.

DMI shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, DMI agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event DMI fails to abide by the provisions of Chapter 119, Florida Statutes, the Customer may, without prejudice to any other right or remedy and after giving seven (7) days written notice, during which period DMI still fails to allow access to such documents, terminate this Agreement.

Gulf Coast Kid's House (GCKH) is requesting $20,000 to help with three projects.

First, $5000 will be used to assist with a child abuse prevention campaign - both in April and year-round. We conduct a regional awareness campaign, From Blue to Better each April in recognition of National Child Abuse Awareness month. Your donation will support the collaborative efforts of partners who work together to increase understanding among both adults and children about the prevention of and proper response to child abuse. Last year one case of suspected child abuse was reported for every eleven children in Escambia County. Reported abuse during the three months surrounding the campaign demonstrates the power of raising awareness. Typically, we see an additional 50-100 reports in the months of March, April and May. Our end goal will remain to increase awareness of child abuse in Escambia County, and the effectiveness of your support will be measured by increases in business partners, web traffic, media presence, and reports of child abuse. We will use ECSO funds to boost prevention in April and maintain it all year.

Second, $10,000 will be used to support the safety of Gulf Coast Kid's House staff and clients. GCKH routinely seeks the advice of the Pensacola Police Department (PPD) to ensure that we are as safe as possible. Child abuse is an emotional and deeply personal issue and we must ensure the heightened emotions of our clients do not put children or staff in jeopardy. Some security enhancements we have already implemented are: panic buttons and cameras throughout the building, aggressive landscaping and proper trimming to ensure good lines of site, semi-annual active shooter drills, tinted windows, magnetic locks on all doors, etc. We would like to replace our residential, glass paneled office doors with solid wood doors.

Finally, $5,000 will be used to support our Summer fundraiser, Brunch and Bubbles. Brunch and Bubbles is a unique brunch and champagne event at Portofino Island Resort. Guests will gather for live music and brunch and will be able to bid on "experience" auction items such as sunset cruises and plane rides. All money raised supports the operations at Gulf Coast Kid's House.

ECSO is no stranger to GCKH and the important work we do. We are grateful for your partnership and would be delighted to highlight your support at our fundraisers and outreach events throughout the year.

Dear Applicant:

This modifies our letter of the above date in which we stated that you would be treated as an organization that is not a private foundation until the expiration of your advance ruling period.

Your exempt status under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3) is still in effect. Based on the information you submitted, we have determined that you are not a private foundation within the meaning of section 509(a) of the Code because you are an organization of the type described in section 509(a)(1) and 170(b)(1)(A)(vi).

Grantors and contributors may rely on this determination unless the Internal Revenue Service publishes notice to the contrary. However, if you lose your section 509(a)(1) status, a grantor or contributor may not rely on this determination if he or she was in part responsible for, or was aware of, the act or failure to act, or the substantial or material change on the part of the organization that resulted in your loss of such status, or if he or she acquired knowledge that the Internal Revenue Service had given notice that you would no longer be classified as a section 509(a)(1) organization.

You are required to make your annual information return, Form 990 or Form 990-EZ, available for public inspection for three years after the later of the due date of the return or the date the return is filed. You are also required to make available for public inspection your exemption application, any supporting documents, and your exemption letter. Copies of these documents are also required to be provided to any individual upon written or in person request without charge other than reasonable fees for copying and postage. You may fulfill this requirement by placing these documents on the Internet. Penalties may be imposed for failure to comply with these requirements. Additional information is available in Publication 557, Tax-Exempt Status for Your Organization, or you may call our toll free number shown above.

If we have indicated in the heading of this letter that an addendum applies, the addendum enclosed is an integral part of this letter.

Because this letter could help resolve any questions about your private foundation status, please keep it in your permanent records.

If you have any questions, please contact the person whose name and telephone number are shown above.

The Booker T. Washington High School Softball Program provides high school girls with a variety of character-building opportunities, encourage physical activity, as well as the opportunity to hone their softball skills for possible college scholarships. Programs like ours are vital because they keep our children engaged in a positive educational environment and off of the streets.

As part of our softball season, we want to keep a continual reminder to our players, as well as visiting players that drugs are not acceptable. As a constant reminder, a 3' x 8' full color vinyl banner of your approval will be placed along our Outfield fence. This message will serve as a constant reminder to all who attend our campus to stay free from drugs. Funds will be used to purchase equipment, gear, tournaments, as well as make improvements to the softball field.

In addition, we welcome any and all representatives to join us during any home game to watch and cheer for our girls, the Washington High School Ladycats. Please contact us for a complete schedule of games.

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

Pensacola Little Theatre (PLT), owner of the Pensacola Cultural Center (PCC), is a safe home away from home for over 1,000 volunteer children and teens each year. Throughout the year, these volunteers will spend more than 85,000 hours at the PCC in a safe, educational environment. PLT prides itself on enriching the lives of these youth and Northwest Florida through diverse educational opportunities, all while instilling a sense of community and safe practices inside our theatre walls. Through our performances and education classes, volunteers and students spend roughly 4 hours each day, Monday - Saturday, throughout the week inside of the PCC, as opposed to spending this time with their peers being subject to drug and alcohol abuse, peer pressure, domestic violence, and unsafe crime/neighborhood exposure. Acting as the second-home parents of the volunteers, we strive to display what a safe, drug-free and crime-free community of leaders and fellowship can be like.

Over the summer, PLT continues to offer these opportunities for involvement and education while schools are out, decreasing the chance of these demographics being involved in crime or dangerous activity. Over the summer, PLT will instruct and rehearse specific summer-long performances to keep these volunteers safe and culturally growing. This year, PLT will perform Once Upon a Shoe from July 15 - 28, with 5 weeks of rehearsal beforehand. The performance will be open to the public, which will further increase the exposure of the talents and safe practices of these volunteers to the community.

Between the rights, royalties, scripts, costumes, sets, lighting, marketing, and additional technical assistance required, the show is budgeted to cost PLT right over $6,500,00. In order to keep availability and affordability within reason for these audiences, PLT will come out of pocket to pay for this specific show. It is our hope and request that you will support local, community theatre in continuing to create a safe environment for these 1,000+ volunteers each year and will specifically sponsor our performances of Once Upon a Shoe, which will/can include your logo on all printed materials in order to create community awareness of your efforts and belief in what we do at PLT. We thank you for continuing your mission to improve the quality of life and protect the property of all individuals in Escambia County. Working together, PLT can continue to offer another safe haven for Escambia County adults and children to improve their quality of life and enrich their mindsets and cultural diversity.

We cordially invite you to participate as sponsor of the 2019 Walk the Talk for Epilepsy events taking place all over Florida in the spring. The event in our area will be on May 4th at Seville Square, Downtown Pensacola. This is an occasion for friends, family and loved ones of those living with epilepsy to come together to support this cause.

91% of every dollar raised will directly benefit the Floridians we help who are living with Epilepsy. We trust that you will find great satisfaction in knowing that your support will help us achieve our goals to serve these families living in our community. Epilepsy affects 400,000 people in Florida, mostly children and the elderly. We provide them with a myriad of programs such as community education, support groups, case management, medical services, prevention, Camp Boggy Creek and much more. We offer epilepsy awareness and seizure first aid to teachers, students, first responders, city personnel, and medical communities. During our training, we also discuss Anti Epilepsy Drugs (AED). AED are very potent and we emphasize their proper use as stricitly medicial used under a physician's supervision. The education and outreach coupled with our comprehensive case management services work to ensure a safe community. We truly rely on sponsorships and donors to carry our agency and allow us to continue providing such services.

As we have in the past, we would like to invite Sheriff Morgan to sing the National Anthem before our Walk.

I have enclosed a sponsorship package.

Dear Taxpayer:

This is in response to your request dated Apr. 29, 2016, regarding your tax-exempt status.

We issued you a determination letter in March 1972, recognizing you as tax-exempt under Internal Revenue Code (IRC) Section 501(c)(3).

Our records also indicate you're not a private foundation as defined under IRC Section 509(a) because you're described in IRC Sections 509(a)(1) and 170(b)(1)(A)(vi).

Donors can deduct contributions they make to you as provided in IRC Section 170. You're also qualified to receive tax deductible bequests, legacies, devises, transfers, or gifts under IRC Sections 2055, 2106, and 2522.

In the heading of this letter, we indicated whether you must file an annual information return. If a return is required, you must file Form 990, 990-EZ, 990-N, or 990-PF by the 15th day of the fifth month after the end of your annual accounting period. IRC Section 6033(j) provides that, if you don't file a required annual information return or notice for three consecutive years, your exempt status will be automatically revoked on the filing due date of the third required return or notice.

For tax forms, instructions, and publications, visit www.irs.gov or call 1-800-TAX-FORM (1-800-829-3676).

If you have questions, call 1-877-829-5500 between 8 a.m. and 5 p.m., local time, Monday through Friday (Alaska and Hawaii follow Pacific Time).

The King Richard Foundation's purpose is to financially sponsor attendance of disadvantaged children affected by Autism and other Developmental disabilities (i.e. Down 's syndrome, Cerebral Palsy, Mentally Challenged, etc.) at local summer camps, but will assist these children in general. The goal of the foundation is to help offset some of the cost with partial and full scholarships for these families in need of assistance with tuition. Grant will be used to fund KRF's, "Send A Kid To Camp,"- to help pay camp fees and tuition for 8 eligible candidates, camp costs ranging from $600 to $2800, and in some cases provide assistance with gas for transportation to and from camp site and/ or lunch money for campers to eat while attending camp. Other functions of KRF include providing funding for other enrichment projects, i.e. discovery trips, community events, etc. educational programs for targeted individuals, and public awareness activities.

There are more than 2500 children affected by Autism in our community, and several thousands affected by other developmental disabilities (i.e. Down's Syndrome, Cerebral Palsy and Mentally Challenged). Even though there are other organizations within the community that provide services, many times these individuals and their families fall between the cracks for reasons unknown, and are unable to get services that they desperately need. The foundation's mission is to be of service to disadvantaged individuals and their families with the goal of helping to improve their quality of life with educational, therapeutic and recreational opportunities that are not available to them. Funding is necessary to provide programs to assist these families in need. Through educational programs they can learn to better care for their loved one affected by this condition, and everyone regardless of their socioeconomic status should be afforded the same opportunity to participate in recreational activities as everyone else. The foundation believes that everyone that wants to participate in camp should have the same opportunity as everyone else, and not be turned away because of his or her family's inability to pay. We want to help these individuals assimilate into society which is costly. With the aid and support of the Foundation these individuals will have access to activities in the community that they would not otherwise be able to participate.

RE: 10th Annual "Beauty by the Bay"
Fashion Show/Dinner – Autism Fundraiser - May 19, 2019, (3:00 p.m.)

Dear friend (Sponsor),

When's camp, Mom? When's camp?

I'm told by many parents this question is asked over and over by their children as the days lead up to camp. Summer camps are vitally important to kids from all walks of life including children with Autism and other developmental disabilities. In Escambia and Santa Rosa County there are an estimated 2500 hundred children with Autism whose families face the challenge of finding safe, affordable and appropriate placement in summer camps and recreational outlets. These children not only require programs that are inclusive, but programs that are highly specialized and designed to meet the needs of each individual's special needs.

This is the tenth year the **King Richard Foundation (KRF)** will sponsor kids with special needs participation in summer camp programs. The foundation continues to have success and grow each year with the generous support from the business community, friends and neighbors. We have set a goal to sponsor eight candidates attendance at camp this year and will need your support to achieve this goal. Our hope is that no child will be left behind regardless of the cost, which can range from $600.00 to $2800.00, depending on the needs of the child. And, needless to say, most of our parents need assistance with the tuition. These camps on average are from four weeks to eleven weeks and offer a variety of activities including singing, dancing, trips to the movies, mall, beach, etc. and more importantly, they are learning life skills while having fun.

The 10th Annual "Beauty by the Bay" Fashion Show, dinner and special entertainment will be held on Sunday, May 19, 2019, at 3:00pm, at Sanders Beach – Corinne Jones Community Center. You may make your contributions to the foundation in the following ways:

- Reserve a table for 10 for $350.00 and receive a ½ page advertisement for your business
- Purchase and sell individual tickets for $35.00 available **NOW** online at our website.
- Purchase and sell advertisement space in our ad booklet: $100.00 - full page, $50.00 - half page. $25.00-quarter page.
- Make a donation of any amount to the foundation.

All sponsors and donors will be acknowledged in our ad booklet and are welcome to share information at the display table (brochures, etc.). The King Richard Foundation is a 501(c)3 non-profit organization, all money and/or goods donated are tax deductible as under the Internal Revenue Code.

Your support is needed to help us accomplish our goal, which is to **"Send A Kid To Camp."**

Dear Applicant:

This modifies our letter of the above date in which we stated that you would be treated as an organization that is not a private foundation until the expiration of your advance ruling period.

Your exempt status under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3) is still in effect. Based on the information you submitted, we have determined that you are not a private foundation within the meaning of section 509(a) of the Code because you are an organization of the type described in section 509(a)(2).

Gentlemen:

On the basis of your stated purposes and the understanding that your operations will continue as evidenced to date or will conform to those proposed in your ruling application, we have concluded that you are exempt from Federal income tax as an organization described in section 501(c)(3) of the Internal Revenue Code. Any changes in operation from those described, or in your character or purposes, must be reported immediately to your District Director for consideration of their effect upon your exempt status. You must also report any change in your name or address.

You are not required to file Federal income tax returns so long as you retain an exempt status, unless you are subject to the tax on unrelated business income imposed by section 511 of the Code, in which event you are required to file Form 990-T. Our determination as to your liability for filing the annual information return, Form 990-A, is set forth above. That return, if required, must be filed on or before the 15th day of the fifth month after the close of your annual accounting period indicated above.

Contributions made to you are deductible by donors as provided in section 170 of the Code. Bequests, legacies, devises, transfers or gifts to or for your use are deductible for Federal estate and gift tax purposes under the provisions of section 2055, 2106 and 2522 of the Code.

You are not liable for the taxes imposed under the Federal Insurance Contributions Act (social security taxes) unless you file a waiver of exemption certificate as provided in such act. You are not liable for the tax imposed under the Federal Unemployment Tax Act. Inquiries about the waiver of exemption certificate for social security taxes should be addressed to this office, as should any questions concerning excise, employment or other Federal taxes.

This is a determination letter.

Very truly yours,

A. J. O'Donnell, Jr.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-15739 **County Administrator's Report 14. 2.**
BCC Regular Meeting **Discussion**
Meeting Date: 03/07/2019
Issue: Request to add Escambia County Library System sites to the USDA Summer Feeding Program
From: TODD HUMBLE, Library Services Director
Organization: Library Services
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the USDA Summer Feeding Program in Escambia County - Todd Humble, Library Services Director

That the Board grant approval for the West Florida Public Library System to operate the free United States Department of Agriculture (USDA) summer meal service for children in areas of Escambia County.

BACKGROUND:

The Summer Food Service Program (SFSP) ensures that low-income children continue to receive nutritious meals when school is not in session. This service is offered at no cost to the communities it serves. Escambia County Library Services, in partnership with the 501(c)(3) Feeding the Gulf Coast, provided 2,264 meals to children who otherwise may not have had one during the summer of 2018 at our libraries. This program was operated at the Pensacola Library, Molino Branch Library, and the Century Branch Library along with the Quintette, Carver Park, Wedgewood, Brownsville, and Ebenwood Community Centers.

BUDGETARY IMPACT:

No Escambia County funds are used to provide the actual meals. The meals are funded by the USDA (United States Department of Agriculture) distributed thru Feeding the Gulf Coast. Staff time will be utilized in cooperation with volunteers to insure the meals are only provided to children. All meals are prepackaged and the required USDA training is provided at no charge on site prior to the program being launched.

LEGAL CONSIDERATIONS/SIGN-OFF:

Escambia County legal department has been provided the details of the program.

PERSONNEL:

Library Services personnel will run the program. All three sites requested will offer hot lunches Monday thru Friday.

POLICY/REQUIREMENT FOR BOARD ACTION:

Because this will be a County operated program, approval of the Board is sought.

IMPLEMENTATION/COORDINATION:

Library Services will run the program over the summer of 2019 begining May 28th and ending August 2nd.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-15686 **County Administrator's Report 14. 3.**
BCC Regular Meeting **Discussion**
Meeting Date: 03/07/2019
Issue: Nationwide 457 Agreement Amendment
From: ERIC KLEINERT, Department Director
Organization: Human Resources
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Nationwide 457 Amendment Options - Eric Kleinert, Human Resources Department Director

That the Board approve and authorize the Chairman to sign, subject to Legal review and sign-off, one of the following three Nationwide 457 amendment options:

A. Option One: Guaranteed Minimum Interest Rate (GMIR) for 2019 @ 3.0% and lowers by 0.5% in 2020-2021 and then by 1.0% in 2022. Active employees have a 20% liquidity of funds. Retirees remain with 100% liquidity. Crediting Rate is 3.5% for the remainder of 2019 and market based starting in 2020;

B. Option Two: GMIR will follow the same sliding scale as Option One. Active employees have a 40% liquidity of funds. Retirees remain with 100% liquidity. Crediting Rate is 3.4% for the remainder of 2019 and market based starting in 2020; or

C. Option Three: Existing balances in the current Fixed Contract will remain at a 3.5% GMIR. All new contributions to the Fixed Contract will be established with a GMIR of 1.0% and a Crediting Rate of 1.2%. The Crediting rate is subject to change with the market beginning in 2020. New funds can also be placed in the existing Default Investment Alternative (DIA). Participants must elect a new option. Retirees maintain 100% liquidity; and

D. Approve, if “Option 1” or “Option 2” is selected, the Supplemental Fee Structure of the Nationwide 457 Agreement Amendment (for Deferred Compensation Services).

BACKGROUND:

The amendment to the Nationwide 457 agreement will become effective the first quarter of 2019. This is a required change by Nationwide in regard to the Guaranteed Minimum Interest Rate (GMIR) of the fixed annuity contract. Currently, our Guaranteed Minimum Interest Rate is 3.5%. Nationwide is making a mandatory change to lower the GMIR; which will help to better align with the market and reduce the mandatory reserve funds, allowing Nationwide to offer more valuable retirement plans. The Crediting Rate, the annual effective yield to participants, is currently 3.5% and is guaranteed to remain as such for the year. Starting 2020 the Crediting Rate is determined by the market. Should the Crediting Rate decrease; it cannot go below the GMIR. Nationwide has been slowly implementing this plan over the last five years, nationally.

Nationwide has given Escambia County three options to choose from regarding the lowered GMIR. If no action is taken, contributions will no longer be accepted.

Our options are as follows:

Option One: GMIR for 2019 @ 3.0% and lowers by 0.5% in 2020-2021 and then by 1.0% in 2022. Active employees have a 20% liquidity of funds. Retirees remain with 100% liquidity. Crediting Rate is 3.5% for the remainder of 2019 and market based starting in 2020.

Option Two: GMIR will follow same sliding scale as Option One. Active employees have a 40% liquidity of funds. Retirees remain with 100% liquidity. Crediting Rate is 3.4% for the remainder of 2019 and market based starting in 2020.

Option Three: Existing balances in the current Fixed Contract will remain at a 3.5% GMIR. All new contributions to the Fixed Contract will be established with a GMIR of 1.0% and a Crediting Rate of 1.2%. The Crediting rate is subject to change with the market beginning in 2020. New funds can also be placed in the existing Default Investment Alternative (DIA). Participants must elect a new option. Retirees maintain 100% liquidity.

Nationwide is also offering the following amendment for the Supplemental Administration Fee Structure to options 1 and 2 above: Escambia County's current Administration Fee structure (administrative fees) for the fixed mutual funds is at 0.0 and will remain as such in the supplemental option. Escambia County's current Fee structure (administrative fees) for the variable mutual funds is at 0.8, 0.55, or 0.45 dependent upon which investment the employee selects. With the supplemental option selection these basis points will be decreased to 0.3, 0.1, or 0. This is allowable due to the lowered mandatory reserve.

Next Steps

As part of this change, we are asking you to consider the options outlined in the *Guaranteed Minimum Interest Rate Change: Explanation of Options* and take the associated actions by 2/1/2019. As Plan Sponsor, you have a responsibility to make decisions on behalf of the Plan regarding products and features available to your Plan participants.

Please take time to review the options and sign and return the required documents to Nationwide. If you do not select one of the options provided, new contributions will no longer be accepted to your current Fixed contract. This includes, but is not limited to, payroll contributions, rollovers, transfers and exchanges.

Guaranteed Minimum Interest Rate Change: Explanation of Options

Please consider your available options before making a selection on the *Guaranteed Minimum Interest Rate Change: Options Form* (the *Options Form*). The *Options Form* and required documents can be found in the enclosed folder.

1) Option One

Your contract is amended to lower the Guaranteed Minimum Interest rate annually on the following schedule:

2018	2019	2020	2021	2022
3.5%	3.0%	2.5%	2.0%	1.0%

The contract's quarterly Crediting Rate[1] will continue to be set based on Nationwide's normal business practices and may vary depending on market conditions and investment performance.

2) Option Two

The contract is amended to lower the Guaranteed Minimum Interest Rate annually on the same schedule shown in Option One. Additionally, the per participant exchange and transfer limit is also increased from 20% to 40%.

The contract's quarterly Crediting Rate will continue to be set based on Nationwide's normal business practices and may vary depending on market conditions and investment performance. However, because of the increased exchange and transfer limit, the Crediting Rate under this option will be less than under Option One. At the time of this letter, this difference is 0.1% annually, but the variance is not guaranteed to remain at this level.

3) Option Three (*Default Option*)

The existing balance in your current Fixed Contract will maintain the current GMIR for these existing balances only, unless otherwise agreed to by Nationwide and the Plan Sponsor. New contributions will no longer be accepted to your current Fixed contract. This includes, but is not limited to, payroll contributions, rollovers, transfers and exchanges. This change will be effective 2/1/2019.

Accordingly, you will need to provide direction for your participants' future allocations to replace their current Fixed allocation. Two options are available. If this option is chosen, you will also need to select a sub-option:

A. Continue to offer Nationwide Fixed Contract. An application for a new Fixed contract is enclosed. This contract will be established with an initial Crediting Rate of 1.2% and a 1.0% GMIR.

B. Utilize the Plan's existing Default Investment Alternative (DIA). If the Participant does not elect a new investment to replace the Fixed option, it will be treated as if no investment direction has been given and the Default Investment Alternative will be used for future contributions. Your plan's current fund lineup can be viewed online at www.nrsforu.com.

Please Note: if you do not take action, you are electing to place those participant allocations in your existing DIA. The participants will be notified of the change so that they may have the opportunity to change their allocation.

[1]The Crediting Rate is the interest rate credited as an annual effective yield.

FAQ: Guaranteed Minimum Interest Rate

What is changing?

We're adjusting the GMIR to ensure we can continue offering current and future participants valuable retirement plan solutions. Accordingly, Nationwide must align with the market and gradually reduce the GMIR in our fixed annuity contracts.

Why is Nationwide making this change now?

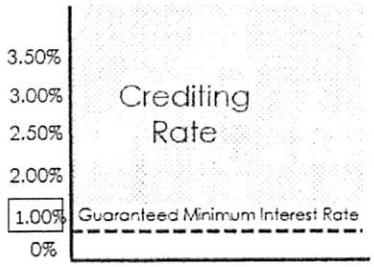
As we survey the retirement plans market, we've recognized a need to change a feature of our product suite—the Guaranteed Minimum Interest Rate (GMIR) of the fixed annuity contract available in your plan. Over the past five years, many providers have lowered their GMIRs. During that time, Nationwide did not take any action; however, interest rates have only increased modestly, creating an interest rate environment in which we can no longer offer an above-market rate.

For the last several years, the industry has operated in a consistently low interest rate environment, which has directly impacted the investment returns available in the market. During this time, Nationwide has continued to provide an above-market rate to participants invested in our fixed contract, but now recognizes the need to adjust the GMIR.

What is a Crediting Rate?

The Crediting Rate is the interest rate credited as an annual effective yield to participants that are invested in the fixed annuity on a daily basis. The Crediting Rate is determined on a quarterly basis by Nationwide and is different than the GMIR.

What is a Guaranteed Minimum Interest Rate?



The Guaranteed Minimum Interest Rate is the lowest Crediting Rate that Nationwide will credit to participant accounts under the terms of the contract.

What is the difference between a Crediting Rate and a GMIR?

While the quarterly Crediting Rate may vary depending on market conditions and investment performance, the GMIR is the minimum interest rate established under the Contract. It is meant to act as a floor, meaning regardless of market conditions or investment performance, participants with assets invested in the Contract will not receive a rate of return less than the GMIR.

What happens when the crediting rate wants to drop below the GMIR but is limited by the guarantee?

Nationwide's goal is to pay a competitive crediting rate to participants. Reducing the Guaranteed Minimum Interest Rate may not have a direct impact on the crediting rate that is paid to the participant. Even though Nationwide will annually step down the Guaranteed Minimum Interest Rate to 1.0%, the crediting rate may change quarterly. And while it may be reduced occasionally due to market conditions or investment performance, it will never drop below the Guaranteed Minimum Interest Rate. See the graphic below:

What can I expect from Nationwide?

You can expect Nationwide to continue to offer a competitive crediting rate to your participants. Our goal is to help America's workers prepare for and live in retirement and we will help do this through the products and services that we offer. Nationwide can also provide materials and tools to help communicate this change to affected participants upon request.

The following applies to Options 1 or 2 only:

When will the change to the GMIR be effective for Options 1 and 2?

This adjustment will begin in the first quarter of 2019, meaning participants with assets invested in the fixed annuity contract will still receive their current GMIR throughout 2018. Additionally, the GMIR will step down over a period of five years, giving participants ample time to evaluate future asset allocation decisions. Please refer to the Guaranteed Minimum Interest Rate Amendment: Option Sheet for an illustration of the schedule.

What is the schedule of the GMIR step down?

2018	2019	2020	2021	2022
3.5%	3.0%	2.5%	2.0%	1.0%

Please note: reducing the GMIR may not have a direct impact on the crediting rate that is paid to the participant. Even though Nationwide will gradually step down the GMIR to 1.0%, the crediting rate may change quarterly. And while it may be reduced occasionally due to market conditions or investment performance, it will never drop below the GMIR.

What is the exchange and transfer limit under Option 2? *(note: appropriate language will populate for the plan)*

The percentage of the participant's assets invested in the contract which can be exchanged or transferred out of the contract per year. If the limit is exceeded, no further exchanges or transfers will be permitted until the following year.

BCC Regular Meeting **Discussion**
Meeting Date: 03/07/2019
Issue: Santa Rosa Island Authority Lease Renewal - 906 Ariola Drive
From: AMY LOVOY, Interim County Administrator
Organization: County Administrator's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Renewal of a Lease at 906 Ariola Drive in Pensacola Beach by the Santa Rosa Island Authority Board of Directors - Amy Lovoy, Interim County Administrator

That the Board approve or deny the renewal of a "perpetual" lease at 906 Ariola Drive, Pensacola Beach, Florida (Property Ref. No. 282S262150008004), as approved by the Santa Rosa Island Authority Board of Directors on February 13, 2019. Per Chapter 79-456 F.S., the Board of County Commissioners has veto power over the SRIA Board within 30 days of any substantive action taken regarding changes in land use and leases.

BACKGROUND:

For financing purposes, the lender of a prospective buyer of the leasehold prompted this request for a renewal by the current leaseholders Brian and Adrienne Paugoulatos for an additional 99 years. The lessee pays ad valorem taxes on both the improvements and the land and also notified SRIA of the intention to renew within the required timeframe prior to the expiration of the original term, per correspondence from the SRIA Board. The language in the lease is that of a "perpetual" nature per Section 14 of the lease, which reads as follows:

(14) In event lessee shall fully perform all the terms, provisions and conditions on his part to be performed for the full term of this lease, lessee shall have the right and privilege at his election to renew this lease for a further term of 99 years, by giving the Authority written notice of such election to renew not later than six (6) months prior to the expiration of the original term. Such renewal shall be on the like covenants, provisions and conditions as are in this lease contained, including an option for further renewals.

RE: Lease Renewal for Mr. & Mrs. Paugoulatos, 906 Ariola Drive, Pensacola Beach, Florida

Dear Chairman May:

I am writing to you on behalf of the Santa Rosa Island Authority Board of Directors, who voted on February 13, 2019, at the request of the Mr. & Mrs. Paugoulatos, to renew the lease at 906 Ariola Drive, Pensacola Beach, Florida for an additional term of 99 years. The request for the lease extension was prompted by the lender of a prospective buyer for the leasehold. In order to finance the leasehold purchase, the lender required this lease have at least 35 more years on the term (at the time of the request, there were only 34 years remaining on the lease). We understand that this leasehold pays ad valorem taxes on both the improvements and the land.

The SRIA Board, the SRIA Staff and its attorney carefully analyzed the lease to determine what if any terms were negotiable, particularly the amount of the lease fees and any additional renewals. The language in Section 14 of the attached lease provides as follows:

> In event lessee shall fully perform all the terms, provisions and conditions on his part to be performed for the full term of this lease, lessee shall have the right and privilege at his election to renew this lease for a further term of 99 years, by giving the Authority [SRIA] written notice of such election to renew, not later than six (6) months prior to the expiration of the original term. Such renewal shall be on the like covenants, provisions and conditions as are in the lease contained, including an option for further renewals.

Mr. & Mrs. Paugoulatos have timely provided the Santa Rosa Island Authority with requisite written notice of their election to renew the Lease for an additional term of 99 years on the like covenants, provisions and conditions as are in the lease including an option for further renewals. The SRIA Board, SRIA Staff and its attorney further concluded that the language of Section 14 of this lease does not afford the Santa Rosa Island Authority the ability to renegotiate the terms of this lease, including but not limited to the lease fees to be paid or the additional lease renewals. Therefore, this lease was renewed for an additional 99 years under like covenants, provisions and conditions as are in the lease including an option for further renewals

Please feel free to contact us if you have any questions about this lease renewal.

CHAPTER 79-457

House Bill No. 1540

An Act relating to Escambia County; amending section 3(a) of chapter 24500, Laws of Florida, 1947, as amended, empowering the board of county commissioners of the county to veto actions taken by the Santa Rosa Island Authority; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (a) of Section 3 of chapter 24500, Laws of Florida, 1947, as amended by chapter 70-680, Laws of Florida, is amended to read:

Section 3. (a) The county commissioners are authorized and required to delegate to and vest power and authority in a board hereinafter provided for, to be known as Santa Rosa Island Authority, to exercise, do and perform all of the authority, powers, duties, acts and things herein granted to, vested in, or authorized to be exercised by the county or county commissioners, which shall include the power and authority herein granted to or vested in said county commissioners to lease the island from time to time, in whole or in part or parts to purchase, construct, extend, improve, own, maintain, insure and operate, either itself or by contract or lease with individuals, firms or corporations, all of the bridges, buildings, structures, facilities, projects, developments, streets, playgrounds, installations, utilities, properties, establishments and things mentioned in this act; to acquire, sell and dispose of property; to fix and collect tolls, rents, revenues and profits, to advertise the island; to adopt and enforce building codes and health, sanitation and safety rules and regulations, and regulations generally; and to enter into leases and contracts. The authority shall be required to hold a public hearing, after notice and publication of said hearing in a newspaper of general circulation in the county once a week for two (2) consecutive weeks, on the proposed land use plan prior to the adoption of the proposed plan of development. After the adoption of

the land use plan, the future development plan shall not be final or become effective until approved by the board of county commissioners of Escambia County. The land use plan may be altered, changed or amended only in accordance with the procedure as provided for in its original adoption; provided, however, the board of county commissioners shall have the sole power to convey, upon duly passed resolution of the said board, up to seven and one half (7 1/2) miles of the following described lands to the appropriate federal agency for inclusion in the land envisioned in the Gulf Islands National Seashore Act:

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-15731 **County Attorney's Report 14. 1.**
BCC Regular Meeting **Action**
Meeting Date: 03/07/2019
Issue: Approval of Proposed Settlement of Workers' Compensation Claims Brought by Gerald Frymire
From: CHARLES PEPPLER, Deputy County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Approval of Proposed Settlement of Workers' Compensation Claims Brought by Gerald Frymire.

That the Board approve a proposed settlement in the sum of $45,000.00 payable to Gerald Frymire in exchange for a complete resolution of all claims for Workers' Compensation benefits. The County would be responsible for payment in full of the settlement.

BACKGROUND:

The claimant is a 74-year-old male who was formerly employed by the County as a Corrections Officer. On November 13, 1995, Mr. Frymire was involved in an accident in the course and scope of his employment while lifting a disabled inmate from a bathtub into a wheelchair. He sustained significant injury to his neck and a lesser injury to his lower back. Both the accident and resulting injuries were determined to be compensable and benefits have been provided under the Workers' Compensation Act.

Since the accident, Mr. Frymire has undergone extensive medical treatment. He has been diagnosed with cervical spondylosis, degenerative disc disease, facet syndrome and spinal stenosis. For the past fifteen years, Dr. Ruben Timmons, a pain management specialist, has provided conservative treatment, consisting of injections, pain medications, including anti-inflammatory medication. In 2017, a new physician took over pain management treatment for Mr. Frymire and added lidocaine topical ointment as well as a TENS unit.

Mr. Frymire has sustained compensable injuries that are still requiring continuing

medical care and is reporting ongoing neck and bi-lateral shoulder symptoms that are consistent with the original trauma. He has averaged over the past three years $6,500.00 per year in medical benefits. Considering his life expectancy, future medical exposure could exceed $65,000.00. Mr. Frymire also has several medical conditions which are unrelated to his original accident, but which complicate treatment and would lead to increased costs in the future. As Mr. Frymire is a Medicare beneficiary, the Center for Medicare and Medicaid Services has approved a Medicare set-aside allocation in the amount of $20,438.00 to account for future medical care.

The parties and their counsel recently negotiated a provisional settlement agreement (wash-out) which would release the County and PGCS from future liability for Workers' Compensation benefits in exchange for a lump sum payment of $45,000.00. As the County's self-insured retention has not been exhausted, the Board would be responsible for payment of this lump sum. The proposed settlement would resolve all claims for Workers' Compensation benefits stemming from the November 13, 1995 accident. Mr. Frymire would also execute a general release which would include a separation agreement and waiver of any further employment-related claims that he may have against the County. Brian T. Hanley, our retained insurance counsel, has recommended that the proposed settlement be approved in light of the anticipated and substantial exposure for future medical claims.

BUDGETARY IMPACT:

The appropriate reserves from Internal Service, 501 Fund have been set to fund the self-insured retention portion of the settlement.

LEGAL CONSIDERATIONS/SIGN-OFF:

Mr. Hanley will prepare the settlement documents.

AI-15730 **County Attorney's Report 14. 2.**
BCC Regular Meeting **Action**
Meeting Date: 03/07/2019
Issue: Approval of Proposed Settlement of Workers' Compensation Claims Brought by Ron Heilman
From: CHARLES PEPPLER, Deputy County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Approval of Proposed Settlement of Workers' Compensation Claims Brought by Ron Heilman.

That the Board approve a proposed settlement in the sum of $25,000.00 payable to Ron Heilman in exchange for a complete resolution of all claims for Workers' Compensation benefits. The County would be responsible for payment in full of the settlement.

BACKGROUND:

The claimant is a 59-year old male who was formerly employed as an equipment operator by the County. On February 13, 2003, Mr. Heilman was involved in an accident in the course of his employment when he was struck by a tree. Mr. Heilman sustained severe injuries to his right upper leg and knee along with several other minor injuries. Given the circumstances, the accident and the resulting injuries were deemed compensable and medical and indemnity benefits have been provided.

Mr. Heilman was seen by Dr. William Smith, an orthopedic surgeon, who diagnosed a comminuted fracture of the right femur and subsequently performed open reduction and internal fixation surgery which included placement of hardware. Even after the surgery, Mr. Heiman continued to have pain. He underwent a second surgical procedure to remove two of the implanted screws. From the second surgery, he developed an infection and required an extended course of antibiotic therapy. After completion of this therapy, Dr. Smith determined that Mr. Heilman had reached maximum medical improvement and gave him a 2% impairment rating attributed to post-traumatic arthritis and residual

pain.

Over the past fifteen years, Mr. Heilman has periodically sought ongoing medical treatment both here and in Tennessee where he relocated in 2009 when he resigned his employment from Escambia County. His Tennessee doctor diagnosed a medial meniscus tear in the knee of the leg that was broken and has causally linked the tear to the trauma he received. His Tennessee doctor has also determined that it may be necessary to remove more of the hardware from the initial surgery.

The parties and their counsel recently negotiated a provisional settlement (wash-out) releasing Escambia County and PGCS from future liability for Workers' Compensation benefits in exchange for a lump sum payment of $25,000.00. As noted above, the County would be entirely responsible for payment of his lump sum. However, the proposed agreement would fully and finally resolve any and all claims for medical benefits, indemnity benefits, attorney's fees, and costs. Mr. Heilman would also execute a general release, which would include a separation agreement, and a waiver of any other employment-related claims that he may have against the County. Brian T. Hanley, retained insurance counsel for the County, has recommended that the Board approve the proposed settlement.

BUDGETARY IMPACT:

The appropriate reserves from Internal Service, 501 Fund have been set to fund the self-insured retention portion of the settlement.

Escambia County, Florida

AI-15754 **County Attorney's Report 14. 3.**
BCC Regular Meeting **Action**
Meeting Date: 03/07/2019
Issue: Proposed Settlement of ADA and Section 504 Claims brought in Walter Joseph Beckman v. Escambia County, Case No. 3:18-cv-2189-MCR/EMT
From: CHARLES PEPPLER, Deputy County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Proposed Settlement of ADA and Section 504 Claims brought in Walter Joseph Beckman v. Escambia County, Case No. 3:18-cv-2189-MCR/EMT.

That the Board take the following action:

A. Authorize the Chairman to sign the settlement agreement and release in which the Board will be paying Mr. Beckman and his attorneys the sum of $14,800.00 for attorney's fees and any alleged damages suffered by Plaintiff; and

B. Authorize the County Attorney's Office to sign the joint stipulation for dismissal with prejudice once the Board approves the settlement agreement and release.

BACKGROUND:

Walter Joseph Beckman initiated a lawsuit against Escambia County claiming that its website at www.myescambia.com was inaccessible to blind and low-sighted individuals in violation of Title II of the Americans With Disabilities Act, 42 U.S.C. §§ 12131 *et seq*. (Title II) and Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794 (Section 504). Title II of the ADA prohibits local governments from excluding qualified individuals with a disability from participation in or the benefits from services, programs or activities of the local government. Although there are numerous District Court decisions granting motions to dismiss of claims by blind persons as to website accessibility, those decisions concern Title III and access to public accommodations through websites. There are no "on point" Eleventh Circuit opinions construing Title II as

to local governments and the issue of website accessibility by blind or low-sighted persons.

A recent decision of the U.S. District Court, Southern District of Florida, has held that the obligations imposed on local governments under Title II are different that those imposed on private or commercial entities under Title III where access to public accommodations is accomplished through their websites. The district court denied Palm Beach County's motion to dismiss and allowed the case to proceed.

Although this lawsuit presents a close question as to whether the County excluded Mr. Beckman from participating in a government activity, the settlement agreement and release allows for the County to limit its exposure to attorney's fees and expert witness costs should Judge Rodgers disagree with the County's position. In addition, the settlement agreement gives the County until December 31, 2019 to make its website accessible to blind and low-sighted persons for documents that are posted on the website subsequent to December 31, 2019. It appears that the Information Technologies and Community and Media Relations Departments have been working hard to make the County's website accessible to blind and low-sighted persons for several months, even prior to the lawsuit. Department representatives have reviewed the accessibility measures as set forth in paragraph 15 of the agreement and have communicated their understanding that the measures are reasonable and can be complied with by December 31, 2019.

Therefore, it is the recommendation of this office that the Board of County Commissioners authorize Chairman May to execute the settlement agreement and release, authorize payment of the monies set forth in the settlement agreement and release and authorize the submission of a stipulation for dismissal with prejudice to the U.S. District Court for entry of an order of dismissal with prejudice.

BUDGETARY IMPACT:

Payment will be made from the 501 Internal Service Fund.

LEGAL CONSIDERATIONS/SIGN-OFF:

Deputy County Attorney Charles V. Peppler has reviewed the Settlement Agreement and Release and approved it as to form and content.
