# LIONFISH

## Regional Control Workshop

**Monday, May 11**

4:30 p.m. "Meet, Greet and Learn"

5:30 p.m. Workshop

*Escambia County Central Office Complex, 3363 West Park Place, Pensacola*

**Lionfish** are an invasive exotic species with potential for great harm to the economy, environment and fisheries. These fish have venomous spines that are capable of serious injury. At the workshop participants will learn how to assist in controlling the lionfish population. The objective of the Lionfish Regional Control Workshop will be to allow everyone to become involved in controlling the lionfish population, as collaboration is our best chance for successfully reducing lionfish.

For information about lionfish or the workshop, please contact Rick O'Connor, Escambia Extension, (850) 475-5230 or Robert Turpin, Escambia County Marine Resources, (850) 554-5869 and visit [myescambia.com](http://myescambia.com)
