The application of local preference to a particular purchase or contract for which the Board of County Commissioners is the awarding authority may be waived upon approval of the Board of County Commissioners.

g) Limitations:

1. The provisions of this section shall apply only to procurements which are above the formal bid threshold as set forth in the Escambia County Purchasing Code.

2. The provisions of this section shall not apply where prohibited by federal or Florida law, or where prohibited under the conditions of any grant.

3. The provisions of this section shall not apply to any purchase exempted from the provisions of the Escambia County Purchasing Code.

4. The provisions of this section shall not apply to contracts made under the Consultants Competitive Negotiation Act (CCNA), F.S. § 287.055.

h) Penalties:

1. Misrepresentation:

A Vendor who misrepresents the local preference status of its firm in a bid or proposal submitted to the County will lose the privilege to claim local preference status for a period of up to one (1) year from the date of the award of the contract or upon completion of the contract, whichever is greater.

2. Failure to Maintain Local Business Preference Qualifications:

Any Vendor that does not maintain its local preference status resulted in the awarded contract shall be in breach of contract and will be subject to termination of the contract, suspension of payments under the contract, and loss of the local preference status on the contract awarded.

3. Lack of Good Faith:

The Contractor or firm may show that it attempted through reasonable and objective means and in good faith to comply with the terms of the contract relating to local businesses but was unable to comply. If the County determines that the Contractor or firm did not act in good faith, all amounts paid to the Contractor or firm under the

County contract intended for expenditure with the local business shall be forfeited and recoverable by the County. In addition, the contract may be rescinded, and the County may return all or a portion of the goods received and recover all amounts paid under the contract for the goods which were returned.

Effective July 1, 2015, the County **may not** use a local preference for a "competitive solicitation for **construction services** in which **fifty percent (50%) or more** of the cost will be paid from state appropriated funds which have been appropriated at the time of the competitive solicitation." For any such solicitation, the County must disclose in the bid package that "any applicable local ordinance or regulation does not include any local preference…" See §255.0991, Florida Statutes.

ESCAMBIA COUNTY, FLORIDA
INVITATION TO BID
BIDDER'S CHECKLIST
19-20 ROAD RESURFACING PROJECT
SPECIFICATION 19-20.033

HOW TO SUBMIT YOUR BID:
Please review this document carefully. Offers that are accepted by the County are binding contracts. **Incomplete bids are not acceptable.** All documents and submittals shall be received by the Office of Purchasing on or before the date and hour specified for receipt. Late bids will be returned unopened.

* *Documents submitted with Bids are to be on the forms provided in the Invitation to Bid and photocopies of other required documents.*

THE FOLLOWING DOCUMENTS SHALL BE RETURNED WITH THE BID:
- Solicitation, Offer, and Bid Form. The Bid Form must contain an original signature in indelible ink. Bids with photocopies or scanned signatures will not be accepted.
- Bid Surety (bond, check, etc.)

THE FOLLOWING DOCUMENTS SHOULD BE RETURNED WITH THE BID:
- Sworn Statement Pursuant to Section 287.133(3)(A), Florida Statutes on Entity Crimes.
- Drug-Free Workplace Form.
- Information Sheet for Transactions and Conveyances Corporate Identification.
- Certificate of Authority to do Business from the State of Florida.
- Occupational License.
- Florida Department of Business and Professional Regulation – License(s), Certification(s), and/or Registration(s).

BEFORE YOU SUBMIT YOUR BID, HAVE YOU:
Placed your bid with all required submittal items in a sealed envelope, clearly marked for specification number, project name, name of bidder, and due date and time of bid receipt?

THE FOLLOWING DOCUMENTS ARE REQUIRED UPON NOTICE OF AWARD:
- Certificate of Insurance
- Payment and Performance Bonds

HOW TO SUBMIT A NO BID:
If you do not wish to bid at this time, please remove the Solicitation, Offer, and Bid Form from the Bid Package and enter No Bid in the "Reason for No Offer" block, your company's name, address, signature, and return the Solicitation, Offer, and Bid Form in a sealed envelope. This will ensure your company's active status in our Bidder's list.

This form is for your convenience to assist in filling out your bid.
Do not return this form with your bid.

Attached to bid you shall find a bid bond, cashier's check, or certified check (circle one that applies) in the amount of five percent (5%) of bid.

The work shall be substantially completed within **Three Hundred (300) calendar days** from the Commencement Date. The Bidder agrees to fully complete all work included above within **Three Hundred Thirty (330) consecutive calendar days** from the date of Substantial Completion, which is Notice to Proceed. **Liquidated damages of $1000 each day will be assessed for each day that completion of the project is delayed.** All work to be accomplished under this bid shall be the responsibility of Bidder and failure of Sub-Contractors to perform shall not relieve Bidder of any liquidated damages. A Bid Bond in the amount of **five percent (5%) of base bid** is to be furnished by each Bidder. Bidder further acknowledges that all of the work outlined above may not be required at the discretion of Escambia County. The total will be subject to total funds available during the course of the work. However, it is the intent of Escambia County at this time to substantially complete the listed work.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A),
FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to _____
(Print Name of Public Entity)

By _____
(Print Individual's Name and Title)

For _____
(Print Name of Entity Submitting Sworn Statement)

Whose business address is:

_____

_____

And (if applicable) its Federal Employer Identification Number (FEIN) is:

_____

If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding thirty-six (36) months shall be considered an affiliate.

c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **Indicate which statement applies.**

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with a convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that is not in the public interest to place the entity submitting this sworn statement on the convicted Vendor list. **(Attach a copy of the final order.)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY INDENTIFIED IN PARAGRAPH ONE (1) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Drug-Free Workplace Form

The undersigned Vendor, in accordance with Florida Statue 287.087 hereby certifies that _____ does:

(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business' policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in Paragraph One (1).

4. In the statement specified in Paragraph One (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or please of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Paragraphs 1 through 5.

SPECIAL TERMS AND CONDITIONS

The Board of County Commissioners, Escambia County, Florida, invites your company to submit a sealed offer on the item(s) as listed in this solicitation request.

All terms and conditions below are a part of this request, and no offer will be accepted unless all these conditions have been complied with. The County reserves the right to waive informalities in any offer; to reject any or all offers, in whole or in part, and/or to accept the offer(s) that in its judgement is from the lowest, most responsible, and responsive Offeror(s).

Instructions to Offerors

1. General Information

All offers to be considered shall be in the possession of the Office of Purchasing prior to the time of the solicitation closing. Offers may be mailed or delivered to the Office of Purchasing, 2nd Floor, Room 11.101, Matt Langley Bell, III Bldg., 213 Palafox Place, Pensacola, FL 32502, in a sealed envelope clearly marked:

Specification Number PD 19-20.033, "19-20 Road Resurfacing Project", Name of Submitting Firm, Time and Date due.
Note: If you are using a courier service (FedEx, Airborne, UPS, etc.) you must mark the air-bill and envelope or box with the Specification number and project name.

Regardless of the method of delivery, each Offeror shall be responsible for his offer(s) being delivered on time as the County assumes no responsibility for same. Offers offered or received after the time set for solicitation closing will be rejected and returned unopened to the Offeror(s).

The Following Policy will apply to all methods of source selection:

A. Conduct of Participants

After the issuance of any solicitation, all bidders/proposers/protestors or individuals acting on their behalf are hereby prohibited from **lobbying** as defined herein or otherwise attempting to persuade or influence any elected County officials, their agents or employees or any member of the relevant selection committee at any time during the **blackout period** as defined herein; provided, however, nothing herein shall prohibit bidders/proposers/protestors or individuals acting on their behalf from communicating with the purchasing staff concerning a pending solicitation unless otherwise provided for in the solicitation or unless otherwise directed by the Purchasing Manager.

B. Definitions

Blackout Period means the period between the time the Bid for invitations for bid or the request for proposal, or qualifications, or information, or requests for letters of interest, or the invitation to negotiate, as applicable, are received at the Escambia County Office of Purchasing and the time the Board awards the contract and any resulting bid protest is resolved or the solicitation is otherwise cancelled.

Lobbying means the attempt to influence the thinking of elected County officials, their agents or employees or any member of the relevant Selection Committee for or against a specific cause related to a pending solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication.

C. Sanctions

The Board may impose any one or more of the following sanctions on a non-employee for violations of the policy set forth herein:

1) Rejection/Disqualification of Submittal,

2) Termination of Contract; or

3) Suspension or Debarment as Provided in Sec. 46-102 of the Escambia County Code of Ordinances.

This policy is not intended to alter the procedure for Protested Solicitations and Awards as set forth in the Sec. 46-101 of the Escambia County Code of Ordinances.

2. Scope of Work

This project consists of the resurfacing and/or reconstructing in portion or whole of Falcon Dr., English Oak., Oakcliff Rd., Brisas Wy., Cariba Ct., Las Brisas Dr., Las Brisas Ct., Pebble Creek Dr., Pebble Creek Dr., Pebble Creek Pl., Pebble creek Rd., Pebble Creek Ter., Clear Lake Dr., Chandelle Dr., Chandelle Lake Dr, Detroit Blvd., Raleigh Cir., Cain Ave., Hawkins St., Hoyt St., Fairchild St., Lilac Ln., Nestle Dr., Bloodworth Ln., Plantation Rd. and Sunshine Hill Rd. This project will also include other work associated with the reconstruction of roadways such as maintenance of traffic, stormwater pollution prevention, sod stabilization shoulder work, pavement striping, possible dewatering, etc. The contractor is to maintain traffic flow at all times, with minimal delays. Roadways are to have two-way traffic opened during all non-working hours. Closure of one lane will be allowed only during working hours. Contractor is to notify the residents no later than 48 hours prior to work beginning on each roadway/group of roads. The Road Department shall receive 50% of the milling from this contract. Contractor is to coordinator with the Road Department on when and where this shall occur. The Road Department will provide trucks and haul straight from the milling machine or arrange for transport from a mutually agreed upon location.

Related Documents:

All roadway construction shall comply with the Escambia County Technical Specifications, latest edition, and all interim standards that apply to these editions.

Any reference to FDOT Standard Specifications for Road and Bridge Construction, latest edition, Division 1, General Requirements and Covenants, shall be excluded and not applicable to any specification referred herein or otherwise listed in these documents or in the Escambia County Technical Specifications.

Licenses:

General Contractors License
Underground Utilities License
Work Zone Safety Traffic Supervisor Certifications

3. Bid Surety

Each offer shall be accompanied by a bid bond, cashier's check or certified check in the amount of **5%** of the total offer.

Checks or bonds are to be made payable to Escambia County, Florida. The amount of the bond or check is the amount of liquidated damages agreed upon should the Offeror fail or refuse to enter into a contract with the County.

A County warrant in the amount of the bid check(s) of the successful Offeror(s) will be returned immediately after the Offeror and the County are mutually bound by contract as evidenced by signatures thereto by an authorized representative of both the Offeror and the County, and/or the Offeror accepts the purchase order by signing the Solicitation, Offer and Bid Form/acceptance copy of same and returning to the County Purchasing department. Any unsuccessful Offeror(s) will have the amounts of his cashier's or certified check returned via County warrant promptly after award.

All Offerors agree that any interest earned on any bid surety while in possession of the County, or its agents, shall be retained by the County.

4. Bonds

Performance and Payment Bonds
The County **shall** require the successful Offeror(s) to furnish **separate performance and payment bonds** under pledge of adequate surety and covering up to **100% of the dollar value of award** on the forms provided by the County. Such bonds shall be issued by sureties authorized to act as a surety by the State of Florida. Bonds of the successful Offeror(s) shall be reviewed by the Office of Purchasing to assure compliance, then recorded in the Office of the Clerk of the Circuit Court Recording Office, 1st Floor, 221 Palafox Place, Pensacola, Florida, by the successful Offeror at his expense before the contract is executed. The cost of recording is $10.00 for the first page and $8.50 for each additional page.

5. Procurement Questions

Questions shall be directed to Paul Nobles, Purchasing Manager, at PRNobles@myescambia.com. Last day for questions will be March 11, 2020 at 5:00 p.m. CDT.

6. Bid Forms

This Solicitation contains a Solicitation, Offer, and Bid Form which shall be submitted in a sealed envelope, in duplicate with Original signatures in indelible ink signed in the proper spaces. Responses on Vendor forms will not be accepted.

The Offeror’s Checklist included in this Solicitation provides instructions to the Offeror on the documentation to be submitted during the procurement process.

7. Pre-Solicitation Conference

A non-mandatory Pre-Solicitation Conference will be held at the Escambia County Office of Purchasing, 213 Palafox Place, Pensacola, FL 32502 in Conference Room #11.407 on March 5, 2020 at 10:00 AM CDT.

8. Liquidated Damages

Should the awarded Vendor fail to complete the required services or make delivery of the commodities or equipment within the time(s) specified in the contract, or within such additional time(s) as may be granted by Escambia County, the County will suffer damage, the amount of which is difficult, if not impossible to ascertain therefore, the Vendor shall pay to the County, as liquidated damages, the sum of **$1000** for each calendar day of delay that actual completion extends beyond the time limit specified until such reasonable time as may be required for final completion of the work. Such sum is mutually agreed upon as a reasonable and proper amount of damages the County will sustain per diem by failure of the Vendor to complete the services or make delivery within the specified time. The costs for liquidated damages shall not be construed as a penalty on the Vendor.

9. Safety Regulations

Equipment shall meet all state and federal safety regulations for grounding of electrical equipment.

10. Codes and Regulations

The awarded Vendor shall strictly comply with all federal, state and local building and safety codes.

11. Payment

Partial payments in the full amount for the value of items received and accepted may be requested by the submission of a properly executed **original** invoice, with supporting documents if required. Payment for accepted equipment/supplies/services will be accomplished by submission of an **original** invoice, in duplicate, to:

Clerk of the Circuit Court
Attention: Accounts Payable
221 Palafox Place
Pensacola, FL 32502

12. Warranty

The awarded Vendor shall fully warrant all equipment furnished hereunder against defect in materials and/or workmanship for a period of two (2) years from date of delivery/acceptance by Escambia County.

Should any defect in materials or workmanship, except ordinary wear and tear, appear during the above stated warranty period, the awarded Vendor shall repair or replace same at no cost to the County, immediately upon written notice from the Purchasing Chief.

13. Debris

Awarded Vendor shall be responsible for the prompt removal of all debris, which is a result of this contractual service.

14. Protection of Property/Security

The awarded Vendor shall provide all barricades and take all necessary precautions to protect buildings and personnel.
All work shall be completed in every respect and accomplished in a professional manner and awarded Vendor shall provide for removal of all debris from County property.
The awarded Vendor shall at all times guard against damage or loss to property of Escambia County, or of other Vendors or contractors, and shall be held responsible for replacing or repairing any such loss or damage.
The County may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the awarded Offeror or his agent.
The awarded Vendor shall at all times guard against injury to Escambia County employees.
The Vendor shall properly fence and secure the construction site(s) at all times, including evenings and weekends.
The awarded Vendor must, at all times, comply with State of Florida and Occupational Safety and Health Administration (OSHA) safety regulations.

15. Permits

The County and/or its contracted consultant(s) have conducted a review of required permits and fees required to be purchased by the contractor from the County permitting agencies for this specific project and they are listed on the Bid form(s) to the best of our knowledge.

16. Term of Offer

An offer shall constitute an irrevocable offer for a period of ninety (90) days from the solicitation opening date or until the date of award, whichever is earlier, without forfeiting bid bond or check. In the event that an award is not made by the County within ninety (90) days from the solicitation opening date, the Offeror may withdraw his offer or provide a written extension of his offer.

17. Award

Award shall be made on an "all-or-none total" basis.
The offeror or contractor will be required to fully comply with all applicable federal, state, and local regulations. The offeror should carefully review these requirements which are detailed in this solicitation.

18. Termination

The purchase order or contract will be subject to immediate termination if either product or service does not comply with specifications as stated herein or fails to meet the County's performance standards. In the event that any of the provisions of the contract are violated by awarded Vendor, Escambia County may serve written notice upon the awarded Vendor of its intention to terminate the contract. Such notice is to state the reason(s) for such intention to terminate contract. The liability of the Vendor for any and all such violation(s) shall not be affected by any such termination and his surety, if any, shall be forfeited.

19. Termination (Services)

The Contract Administrator shall notify the Office of Purchasing of unsatisfactory performance and/or deficiencies in service that remain unresolved or recurring. The Office of Purchasing shall notify the contractor, in writing, of such unresolved or recurring deficiencies within five (5) working days of notification by the Contract Administrator.

Upon the third such written notification of unsatisfactory performance and/or deficiencies to the contractor by the Office of Purchasing within a four (4) month period; or the sixth such notification within any contract term, shall result in issuance of written notice of immediate contract termination to the contractor by the Office of Purchasing. Such termination may also result in suspension or debarment of the contractor.

20. Termination (Public Records Request)

If the contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the contractor in conjunction with this agreement then the County may, without prejudice to any right or remedy and after giving the contractor and his surety, if any, seven (7) days written notice,

during which period contractor still fails to allow access, terminate the employment of the contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the contractor, and may finish the project by whatever method it may deem expedient. In such case, the contractor shall not be entitled to receive any further payment until the project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the contractor (excluding monies owed the contractor for subcontract work.)

21. As Specified

All items delivered shall meet the specifications herein. Items delivered not as specified will be returned at no expense by Escambia County. The County may return, for full credit, any unused items received which fail to meet the County's performance standards.

Non-Contract Insurance Requirements

22. Standard Insurance Requirements and Certificates

This offer contains an extensive insurance requirement. Offerors are encouraged to review these requirements with their insurance agents before submitting offers.

It is not necessary to have this level of insurance in effect at the time of submitting the offer.

A letter from the Offeror's insurance carrier will be required as evidence that the Offeror will be able to obtain the levels of insurance as required by the contract and indicated on the Sample Certificate of Insurance should your firm be awarded the contract.

A. County Insurance Required

The contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings

if "Secure Best Ratings" may be considered. Such policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the contract documents, whether such services, work and operations be by the contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The contractor shall require and shall be responsible for assuring throughout the time the agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the contractor.

The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the contractor's interests or liabilities but are merely minimums.

Except for worker's compensation and professional liability, the contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the contractor or any other insurance of the contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations which arise out of this agreement, contract or lease.

B. <u>Workers Compensation Coverage</u>

The contractor shall purchase and maintain worker's compensation insurance for all worker's compensation obligations imposed by state law and with employer's liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

C. <u>General, Automobile and Excess or Umbrella Liability Coverage</u>

The contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the commercial general liability and business auto policies of the insurance services office.

Minimum limits of $1,000,000.00 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employer's liability required in the worker's compensation coverage section) and the total amount of coverage required.

D. General Liability Coverage - Occurrence Form Required

Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

E. Business Auto Liability Coverage

Business auto liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

The General Liability and Business Auto Liability policies shall be endorsed to include Escambia County as an additional insured and provide for 30-day notification of cancellation.

F. Excess or Umbrella Liability Coverage (If utilized to achieve required policy limits)

Umbrella liability insurance is preferred, but an excess liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

G. Evidence/Certificates of Insurance

Required insurance shall be documented in certificates of insurance. If and when required by the County, certificates of insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the certificate of insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverage(s) indicated on each certificate of insurance.

New certificates of insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information:

1. Indicate that Escambia County is an additional insured on the general liability and business auto liability policies.

2. Include a reference to the project and the Office of Purchasing number.

3. Disclose any self-insured retentions in excess of $1,000.

4. Designate Escambia County as the certificate holder as follows:

   Escambia County
   Attention: Paul Nobles, Purchasing Manager
   Office of Purchasing, Room 11.101
   213 S. Palafox Place, 2nd Floor
   Pensacola, FL 32502
   Fax (850) 595-4806

5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the contractor shall furnish complete copies of the contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For commercial general liability coverage, the contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

23. Indemnification

Contractor agrees to save harmless, indemnify, and defend County and Architect/Engineer and their agents, officers and employees from any and all claims, losses, penalties, interest, demands, judgments, and costs of suit, including attorneys' fees and paralegals' fees, for any expense, damage or liability incurred by any of them, whether for personal injury, death, property damage, direct or consequential damages, or economic loss, including environmental impairment, arising directly or indirectly on account of or in connection with the Work done by Contractor under this Agreement or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by any one for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. County and Contractor agree the first $100.00 of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims made. Such payment on the behalf of the County shall be in addition to any and all other

legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Evaluation Comments:

During the 17-18 Resurfacing contract there were several issues that arose; Scheduling, Workmanship, Documentation, Coordination with County staff, and damages to adjacent properties.

Scheduling: Midsouth was issued a NTP on 9/6/2018 with a duration of 320 days. This placed the substantial date as 7/23/2019. Midsouth did not begin work on the contract for 82 days. Midsouth fell behind on the SOW in regards to all three schedules that were submitted. On 8/9/2019 staff notified Midsouth that the remaining SOW that had not begun would be deducted from their contract and rebid. The deductive CO was processed.

Workmanship: Throughout the contract the overall workmanship of the paving was sub-par. Midsouth left roller marks, hand work marks, depressions, bumps and debris in final asphalt layers. With the numerous defects staff were noticing, a third party testing firm were contracted to perform verification tests on the asphalt placed. At this time in the contract there were sixteen roads where resurfacing had been performed. Of those sixteen Midsouth was required to rework all or at least portions of fifteen due to density failures. They were placed on hold till a corrective action plan could be established and approved by County staff. Once approved, Midsouth was allow to proceed with remaining work with the understanding that the quantity of paving and workmanship must remain at an acceptable level. It was agreed that Midsouth would incorporate the rework into the remaining SOW as they proceeded forward.

Documentation: Staff repeatedly had to ask for revised pay applications due to errors or missing documentation. There were times that multiple revised were required before an acceptable application was received. Requested schedules, reports and testing results were not received in a timely manner or were submitted in an unacceptable format. As of 1/22/2020 Midsouth has yet to request the retainage on the contract.

Coordination: Midsouth was repeatedly asked to coordinate work with the County inspector, provide a schedule and follow the provided schedule so that staff could oversee the work being performed. This coordination did not happen. It would last for a day or so every time it was requested and then revert back to no notifications. Midsouth was asked on multiple occasions to notify residents of upcoming work to be performed in their neighborhoods, but this did not happen either. There was an appearance that work began to get scheduled over weekends, holidays, etc. There were several instances where staff would return to work on Monday to have multiple complaints from the paving crews over the weekend with no notification of work to be performed.

Damages: Midsouth and their sub contracts inflicted frequent damages to adjacent properties throughout the paving areas. Dump trucks would utilize residents' yards to turn around, resulting in ruts and damages to lawns and landscaping. Midsouth would reportedly cast rocks and debris into residents yards, leave trash on the ground and even utilize residents' water faucets with no prior approval.

MIDSOUTH PAVING INC.
A CRH COMPANY

May 21, 2019

To: Mr. Cooper Saunders, Program Manager

Contract Number: 17-18.059
Project Description: 2017-2018 Escambia County Group Resurfacing

Mr. Saunders:

MidSouth Paving Inc. will accept a pay deduction of 15% for Line Item 7 (1.5" County Spec 2500 Type SP 12.5 Asphalt Concrete Surface) for Groveland Road and the East bound lane of Hernandez Street plus extend the warranty for an additional one year.

The warranty period for the areas identified above shall be three (3) years after substantial completion and acceptance.

Sincerely,

Edward Miller
Project Manager

AGREEMENT BETWEEN ESCAMBIA COUNTY, FLORIDA AND Roads, Inc. of North West Florida FOR STANDARD ROAD/DRAINAGE CONSTRUCTION CONTRACT DOCUMENTS.

THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, ("County"), hereby contracts with Roads, Inc. of North West Florida, a corporation for profit, to perform all work ("Work") in connection with Project PD 19-20.033 19-20 Resurfacing Contact , as detailed in the attached Plans and Specifications and other Contract Documents hereafter specified.

SECTION 1. CONTRACT DOCUMENTS

A. The Contract Documents include this Agreement, including Amendments and Exhibits, the Exhibits described in Section 6, Change Orders, Work Directive Changes, Field Orders and the solicitation documents, including addenda. These Contract Documents are incorporated by reference and made a part of this Agreement. A copy of all Contract Documents shall be maintained by Contractor at the Project site at all times during the performance of the Work.

B. In case of any inconsistency or conflict among the provisions of the agreement and any other terms and conditions of any documents comprising the Contract Documents, the provisions of the Agreement shall control. Concerning the Contract Documents, the order of precedence shall be as follows: 1) the Agreement, including Amendments and Exhibits; 2) Change Orders; 3) Work Directive Changes; 4) Field Orders; 5) the Solicitation Documents, including addenda. The Contract Documents listed above represent the entire and integrated agreement between the parties hereto, and supersede prior negotiations, representations, or agreements, either written or oral.

C. County shall furnish to the Contractor up to four (4) sets of the Contract Documents for execution of the Work. Additional copies of the Contract Documents are available at the cost of reproduction.

SECTION 2. SCOPE OF WORK

Contractor agrees to furnish and pay for all management, supervision, financing, labor, materials, tools, fuel, supplies, utilities, equipment and services of every kind and type necessary to diligently, timely, and fully perform and complete in a good workmanlike manner the Work required by the Contract Documents.

SECTION 3. CONTRACT AMOUNT

For satisfactory completion of the Work the County agrees to pay the Contractor the following amount **Three Million two hundred forty-five thousand six hundred and sixty-four dollars and ninety-nine cents($ 3,245,664.99) herein "Contract Amount",** in accordance with the terms of this Agreement:

SECTION 4. BONDS

A. Contractor shall provide at his expense Performance and Payment Bonds, in the form prescribed in **Exhibit B**, in the amount of 100% of the Contract Amount. The Performance and Payment Bonds shall be underwritten by a surety authorized to do business in the State of Florida and otherwise acceptable to County; provided; however, the surety shall be rated as "A-" (excellent) or better as to general policy holders rating and Class V or higher rating as to financial size category and the amount required shall not exceed 5% of the reported policy holder's surplus, all as reported in the most current Best Key Rating Guide, published by A.M. Best Company, Inc. of 75 Fulton Street, New York, New York 10038.

B. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Document, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the County's approval. Failure by Contractor to maintain its bonds in full force and effect at all times, including the warranty period, shall be grounds for termination of this Contract.

C. As per Florida Statutes, Section 255.05, the Contractor shall be required to execute and record the Performance and Payment bonds. The bonds must state the name and principal business address of both the Principal and the Surety and a description of the project sufficient to identify it. (The filing costs are $10.00 for the first page and $8.50 for each remaining page).

SECTION 5. CONTRACT TIME AND LIQUIDATED DAMAGES.

A. Time is of the essence in the performance of the Work under this Agreement. Contractor shall commence the Work within ten (10) calendar days from the Commencement Date, established in the Notice to Proceed. No Work shall be performed at the Project site prior to the Commencement Date. Contractor shall provide 48 hours' notice prior to beginning the Work. The Work shall be substantially completed within **Three Hundred Thirty (330)** consecutive calendar days from the Commencement Date. The Work shall be fully completed and deemed ready by the County for final completion within **Three Hundred Sixty (360)** consecutive calendar days from the Substantial Completion Date. The Contract Time shall be the time period from the Commencement Date to the date of final completion totaling Three Hundred Sixty (360) consecutive calendar days (herein "Contract Time"). No work under this contract shall commence until certificates of insurance have been received and acknowledged by the Purchasing Manager.

B. County and Contractor recognize that, since time is of the essence for this Agreement, the County will suffer financial loss if the Work is not substantially completed within the time specified. Should Contractor fail to substantially complete the Work within the time period noted above, County shall be entitled to assess, as liquidated damages, but not as a penalty, One Thousand Dollars **($**1,000.00) for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed by the County on the date that the County's Architect certifies in writing that the construction of the project, or specified part thereof, is sufficiently completed in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it is intended. Along with such certification, the Architect

shall compile a “punch list” of any remaining exceptions that do not adversely affect the use of the Project. Completion of these items will be required prior to final payment.

C. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the County's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

D. When any period of time is referenced to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

SECTION 6. EXHIBITS INCORPORATED

The following documents are expressly agreed to be incorporated by reference and made a part of this Agreement.

Exhibit A: General Terms and Conditions
Exhibit B: Form of Performance and Payment Bonds
Exhibit C: Insurance and Safety Requirements
Exhibit D: Form of Release and Affidavit
Exhibit E: Form of Contractor Application for Payment
Exhibit F: Form of Change Order
Exhibit G: Payment Adjustment - Bituminous Material
Exhibit H: Technical Specifications
Exhibit I: Plans & Standard Details prepared by or for County and Identified as follows:

TITLE SHEET NO. DATE

Exhibit K: Federal Documents (if applicable)
Exhibit L: Sollicitation Documents Index

SECTION 7. NOTICES

A. All notices required or made pursuant to this Agreement by the Contractor to the County shall be in writing. All correspondence with the County should be addressed as follows:

Central Office Complex
3363 W. Fairfield Drive
Pensacola Fl. 32505
Attention: Cooper Saunders

B. All correspondence with the Contractor will be addressed to the following:

Roads, Inc. of North West Florida
106 Stone Boulevard
Cantonment FL 32533
Attention: Cody Rawson, President

C. Either party may change its above noted address by giving written notice to the other party in accordance with the requirements of this Section.

SECTION 8. MODIFICATION

No modification or change to the Agreement shall be valid or binding upon the parties unless in writing and executed by the party or parties intended to be bound by it.

SECTION 9. SUCCESSORS AND ASSIGNS

Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the parties to the Agreement.

SECTION 10. GOVERNING LAW

The Agreement shall be interpreted under and its performance governed by the laws of the State of Florida and the parties agree that venue shall be in Escambia County, Florida for any matter which is the subject of this Contract.

SECTION 11. NO WAIVER

The failure of the County to enforce at any time or for any period of time any one or more of the provisions of the Agreement shall not be construed to be and shall not be a waiver of any such provision or provisions or of its right thereafter to enforce each and every such provision.

SECTION 12. ENTIRE AGREEMENT

Each of the parties hereto agrees and represents that the Agreement comprises the full and entire agreement between the parties affecting the Work contemplated, and no other agreement or understanding of any nature concerning the same has been entered into or will be recognized, and that all negotiations, acts, work performed, or payments made prior to the execution hereof shall be deemed merged in, integrated and superseded by the Agreement.

SECTION 13. SEVERABILITY

Should any provision of the Agreement be determined by a court to be unenforceable, such a determination shall not affect the validity or enforceability of any other section or part thereof.

SECTION 14. PUBLIC RECORDS.

The Contractor acknowledges that this Agreement and any related financial records, audits, reports, plans correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. Contractor shall maintain all such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. Contractor shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Contractor agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Contractor fails to abide by the provisions of Chapter 119, Florida Statutes, the County

may, without prejudice to any other right or remedy and after giving the Contractor and surety, if any, seven days written notice, during which period the Contractor still fails to allow access to such documents, terminate the contract. In such case, the Contractor shall not be entitled to receive any further payment. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontractor work).

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Escambia County
Office of the County Administrator
221 Palafox Place, Suite 420
Pensacola, Florida 32502

EXHIBIT A
GENERAL TERMS AND CONDITIONS

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents, as being required to produce the intended result shall be supplied whether or not specifically called for. When words, which have a well-known technical or trade meaning, are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2. If, during the performance of the Work, Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to County and before proceeding with the Work affected thereby shall obtain an interpretation or clarification from the County. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the County. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

1.4. "Engineer", where referenced on the drawings or in the specifications or in other related documents, shall mean the Escambia County Engineer or the designated representative thereof.

Section 2. INVESTIGATION AND UTILITIES

2.1. Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for

additional time or compensation.

2.2. Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Where Utilities block construction, Contractor shall aggressively pursue relocation by the Utility owners. Contractor shall immediately notify the County of any delays due to Utilities blockage and document all attempts to resolve such blockage. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 3. SCHEDULE

3.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to County, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work and shall include dates of Shop Drawing Submittals.

3.2. The Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the County's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The County's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the County's obligation to pay Contractor.

Section 4. PROGRESS PAYMENTS

4.1. Prior to submitting its first Application for Payment, Contractor shall submit to County, for its review and approval, a schedule of values based upon the Contract Price, listing the major elements of the Work and the dollar value for each element. After its approval by the County, this schedule of values shall be used as the basis for the Contractor's Applications for Payment. This schedule shall be updated and submitted along with a completed and notarized copy of the Application for Payment form attached to the Agreement as **Exhibit E.**

4.2. Prior to submitting its first Monthly Application for Payment, Contractor shall submit to County a complete list of all its proposed subcontractors and material men, showing the work and materials involved. The first Application for Payment shall be submitted no earlier than thirty (30) days after Commencement Date.

4.3. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the County in writing, the Application for Payment will subdivide the work into component parts in sufficient detail to serve as the basis for a progress payment and shall also be accompanied by a bill of sale, invoice or other documentation warranting that upon payment by County, the County shall receive the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect County's interest therein, all of which shall be subject to the County's prior written approval.

4.4. Contractor shall submit **FOUR (4)** copies of its applications for Payment to the County on or about the 25th day of each month for work performed during that month. Contractor shall submit no more than one application for payment each month. Within ten (10) calendar days after receipt of each Application for Payment, the County shall either: (1) indicate approval of the requested payment; (2) indicate approval of only a portion of the requested payment, stating in writing the reasons therefore; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. In the event of a total or partial denial of the Application for Payment, the Contractor may make the necessary corrections and resubmit the Application for Payment for reconsideration within ten (10) calendar days of receiving notice of refusal.

If re-submittal of the Application for Payment is refused, in whole or in part, the Contractor may submit a written request to the County Administrator for an administrative decision within two (2) business days of receiving notice of refusal. Upon receiving a timely request, an administrative decision shall be rendered within ten (10) calendar days with written notification provided to the Contractor.

If the administrative decision is disputed, the Contractor may submit a written request to the County Administrator for an administrative hearing before the Dispute Resolution Committee (DRC) within two (2) business days of receiving said decision. A hearing shall be scheduled within ten (10) business days from the date the request is received, and the Contractor will receive written notice of the hearing date. The DRC may, within its discretion, render a final decision at the hearing or may elect to mail a written decision within a period not to exceed ten (10) calendar days from the hearing date. The DRC's written decision shall be considered administratively final.

The County shall, within twenty (20) business days after County approval of an Application for Payment, pay the Contractor the amounts so approved. Provided, however, in no event shall the County be obligated to pay an amount greater than that portion of the Application for Payment approved by the County.

4.5 County shall retain ten percent (10%) of the gross amount of each monthly payment request or ten percent (10%) of the portion thereof approved by the County for payment whichever is less. The retained sum shall be accumulated and not released to Contractor until final payment is due. Any interim interest on such sums shall accrue to County.

At the County's sole discretion, a percentage of the amount retained from the gross amount of each monthly payment may be reduced prior to final completion of the Project and said percentage released to the Contractor upon receiving a certificate of substantial completion and approval from the Architect/Engineer.

Release of any portion or percentage of sums retained prior to final completion of the Project shall in no way imply approval or acceptance of Contractor's work.

4.6 Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

4.7 Each Application for Payment shall be accompanied by Release and Affidavit, in the form attached as **Exhibit D**, showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested or have been paid in full. The County shall not be required to make payment until and unless these affidavits are furnished by Contractor.

4.8 Applications for Payment will not be approved unless all submittals required by the Contract documents, up to that point, are provided and "As-Built" record documents are maintained as required by Section 8.2.

Section 5. PAYMENTS WITHHELD

5.1. The County may decline to approve any Application for Payment, or portions thereof, because of subsequently discovered evidence or subsequent inspections. The County may nullify the whole or any part of any approval for payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after three (3) days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

Section 6. FINAL PAYMENT

6.1. County shall make final payment to Contractor within forty- five (45) calendar days after the Work is finally inspected and accepted by County in accordance with Section 20.1 herein, provided that Contractor first, and as an explicit condition precedent to the accrual of Contractor's right to final payment, shall have furnished County with a properly executed and notarized copy of the Release and Affidavit attached as Exhibit D, as well as, a duly executed copy of the Surety's consent to final payment and such other documentation that may be required by the Contract Documents or the County.

6.2. Contractor's acceptance of final payment shall constitute a full waiver of any and all claims by Contractor against County arising out of this Agreement or otherwise relating to the Project, except those previously made in writing and identified by Contractor as unsettled at the time of the final Application for Payment. Neither the acceptance of the Work nor payment by County shall be deemed to be a waiver of County's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the County at the time of final inspection.

Section 7. SUBMITTALS AND SUBSTITUTIONS

7.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. When submitted for the Engineer's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked, and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Documents. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

7.2. Prior to submitting its first Application for Payment, Contractor shall provide to County a DVD

format showing the pre-existing conditions located within the limits of construction.

7.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by County from anyone other than Contractor and all such requests must be submitted by Contractor to County within thirty (30) calendar days after Notice to Proceed is received by Contractor.

7.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the County for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the County in evaluating the proposed substitute. The County may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

7.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the County, if Contractor submits sufficient information to allow the County to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the County shall be the same as those provided herein for substitute materials and equipment.

7.6. The County shall be allowed a reasonable time within which to evaluate each proposed substitute. The County shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the County's prior written acceptance, which shall be evidenced by either a Change Order or an approved Shop Drawing. The County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 8. DAILY REPORTS, AS-BUILTS, AND MEETINGS

8.1. Unless waived in writing by County, Contractor shall complete and submit, along with its Application for Payment, to the County on a monthly basis a daily log of the Contractor's work for the preceding month in a format approved by the County. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

8.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions which adversely affect the Work;

8.1.2. Soil conditions which adversely affect the Work;

8.1.3. The hours of operation by Contractor's personnel and subcontractor's personnel;

8.1.4. The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontract and trade;

8.1.5. All equipment present at the Project site, description of equipment use and designation of time equipment was used (specifically indicating any down time);

8.1.6. Description of Work being performed at the Project site;

8.1.7. Any unusual or special occurrences at the Project site;

8.1.8. Materials received at the Project site

The daily log shall not constitute nor take the place of any notice required to be given by Contractor to County pursuant to the Contract Documents.

8.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the County, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean, and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to County for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to County by Contractor.

8.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. County, or any duly authorized agents or representatives of County, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 9. CONTRACT TIME AND TIME EXTENSIONS

9.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and material men, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be

delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as coordination of all portions of the Work under the Contract Documents.

9.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the County in writing within forty-eight (48) hours after the commencement of such delay. Written supporting data with specific details of Contractor operations, which were delayed, shall be submitted to the County within fifteen (15) calendar days after the occurrence of the delay, unless the County grants additional time in writing for such submittals, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension.

9.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which County may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from County. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against County will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damages For Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

9.4. Requests for delays due to adverse weather conditions shall meet all of the following conditions:

9.4.1. Contractor notified the County in writing within forty-eight (48) hours of the delay.

9.4.2. The weather was unusual as documented by supporting data.

9.4.3. The weather did have an adverse impact on the contractor’s schedule (critical path only).

9.4.4. The Contractor and inspector’s daily logs corroborate the adverse impact. Where a conflict exists between the weather data and the daily reports, the daily reports will take precedence.

Section 10. CHANGES IN THE WORK

10.1. County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost and/or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of County, and County shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of County is authorized to direct any extra or changed work orally.

10.2. A Construction Change Order, in the form attached as **Exhibit F** to this Agreement, shall be issued and executed promptly after an agreement is reached between Contractor and County concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount shall be adjusted in the Change Order in the manner as County and Contractor shall mutually agree.

10.3. If County and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by County in a written Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by County. If Contractor disagrees with the County's adjustment determination, Contractor must make a claim pursuant to Section 11 of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

10.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

10.5. County shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

10.6. The County shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 11. CLAIMS AND DISPUTES

11.1. A Claim is a demand or assertion by one of the parties seeking an adjustment or interpretation of the terms of the Contract Documents, payment of money, extension of time or other relief with respect to the terms of the Contract Documents. The term "Claim" also includes other disputes and matters in question between County and Contractor arising out of or relating to the Contract Documents. The responsibility to substantiate a Claim shall rest with the party making the Claim.

11.2. Claims by the Contractor shall be made in writing to the County within forty-eight (48) hours after the first day of the event giving rise to such Claim or else the Contractor shall be deemed to have waived the Claim. Written supporting data shall be submitted to the County within fifteen (15) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the Claim. All claims shall be priced in accordance with the provisions of Subsection 10.4.

11.3. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending Claim, action, suit or administrative proceeding, unless otherwise agreed to by the County in writing. County shall continue to make payments in accordance

with the Contract Documents pending Claim.

Section 12. OTHER WORK

12.1. County may perform other work related to the Project at the site by County's own forces, have other work performed by utility owners or let other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact with specific details of anticipated costs and delays to County within forty-eight (48) hours of being notified of the other work. Written supporting data of actual need for additional time or additional expense, shall be submitted to the County within fifteen (15) calendar days after completion of other work, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension or adjustment to the Contract Amount.

12.2. Contractor shall afford each utility owner and other contractor (or County, if County is performing the additional work with County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the County and the others whose work will be affected.

12.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or County), Contractor shall inspect and promptly report to County in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 13. INDEMNIFICATION AND INSURANCE

13.1 Contractor shall pay on behalf of or indemnify and hold harmless County and its agents, officers and employees from and against all liabilities, damages, losses, and costs, including attorney's and paralegal fees, incurred by County to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by anyone for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. Contractor's obligation as provided herein shall be limited to its proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor, and Contractor shall not be required to pay on behalf of or indemnify and hold harmless County where County's negligence, recklessness, or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's fees and paralegal fees.

County and Contractor agree one percent (1%) of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement.

Contractor agrees that such indemnification by Contractor relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any applicable statutes of limitations thereafter. Contractor's obligation to indemnify shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

13.2 Contractor shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in Exhibit C to the Agreement. All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and/or responsible risk retention group insurance companies, which are registered with the State of Florida. All commercial insurance carriers providing the Contractor with required insurance shall be a minimum financial size category of VII according to the AM Best Rating Guide, latest edition. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Within ten (10) calendar days after Notice of Award is received by Contractor and prior to the commencement of work, Contractor shall provide County with properly executed Certificates of Insurance to evidence Contractor's compliance with the insurance requirements of the Contract Documents. Said Certificates of Insurance shall be on forms approved by County, such as "Acord Form 25". The Certificates of Insurance shall be personally, manually signed by the authorized representatives of the insurance company/companies shown on the Certificates of Insurance, with proof that they are authorized representatives thereof. Certificates of Insurance shall be mailed to Escambia County in care of: Purchasing Manager, Purchasing Division, P.O. Box 1591, Pensacola, Florida 32597-1591. In addition, certified, true and exact copies of all insurance policies required hereunder shall be provided to County, on a timely basis, when requested by County.

13.3 The Certificates of Insurance and required insurance policies shall contain provisions that thirty (30) days' prior written notice by registered or certified mail shall be given County of any cancellation, intent not to renew, or reduction in the policies or coverages, except in the application of the aggregate limits provisions. In the event of a reduction in the aggregate limit of any policy, Contractor shall immediately take steps to have the aggregate limit reinstated to the full extent permitted under such policy.

13.4 All insurance coverages of the Contractor shall be primary to any insurance or self-insurance program carried by the County applicable to this Project. The acceptance by County of any Certificate of Insurance does not constitute approval or agreement by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the requirements of the Contract Documents. No work shall commence at the Project site unless and until the required Certificates of Insurance are received by the County.

13.5 Contractor shall require each of its subcontractors to procure and maintain, until the completion of the subcontractor's work, insurance of the types and to the limits specified in **Exhibit C**, unless such insurance requirements for the subcontractor is expressly waived in writing by the County. All liability insurance policies, other than professional liability, worker's compensation and employer's liability policies, obtained by Contractor to meet the requirements of the Contract Documents shall name Escambia County as an additional insured and shall contain Severability of Interest provisions. Escambia County shall also be designated as certificate holder with the

address of P. O. Box 1591, Pensacola, Florida 32597-1591. If any insurance provided pursuant to the Contract Documents expires prior to the completion of the Work, renewal Certificates of Insurance and, if requested by County, certified, true copies of the renewal policies shall be furnished by Contractor within thirty (30) days prior to the date of expiration.

13.6 All liability policies shall be underwritten on the "occurrence" basis, unless otherwise approved in writing by the County Division of Risk Management. "Claims made" policies, if approved by the Risk Manager, and subsequent insurance certificates shall provide a "retro-date" which shall include the effective date of the contract. "Claims-made" renewals or carrier and policy replacements shall reflect the original "retro-date."

13.7 Should at any time the Contractor not maintain the insurance coverages required herein, the County may terminate the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge the Contractor for such coverages purchased. The County shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance coverages shall in no way be construed to be a waiver of any of its rights under the Contract Documents.

13.8 Contractor shall submit to County a copy of all accident reports arising out of any injuries to its employees or those of any firm or individual to whom it may have subcontracted a portion of the Work, or any personal injuries or property damages arising or alleged to have arisen on account of any work by Contractor under the Contract Documents.

13.9 Duty to Provide Legal Defense. Contractor shall pay for and provide a legal defense for the County, which shall include attorneys' fees and costs, both of which will be done only if and when requested by the County, for all liabilities, damages, losses, and costs as described in paragraph 13.1 above. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Section 14. COMPLIANCE WITH LAWS

14.1 Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify County in writing. Compliance with the above laws shall include but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Section 102, Standard Specifications for Road and Bridge Construction, Florida Department of Transportation.

14.2 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY): In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States,

except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Section 15. CLEANUP AND PROTECTIONS

15.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by County. Non-compliance with directives of this section may serve as a basis of rejection of Application for Payment.

15.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work.

Section 16. ASSIGNMENT

16.1. Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of County. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward County.

Section 17. PERMITS, LICENSES AND TAXES

17.1. Except as noted in paragraph 17.2 below, all permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to County have been disclosed to Contractor in the bidding documents or other request for proposal at the time the Project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising there from. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

17.2. Permits required for the Work from FDOT, FDEP, the Army Corps of Engineers, and any archeological permitting agency will be paid for and obtained by the County.

17.3. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 18. TERMINATION FOR DEFAULT

18.1. Contractor shall be considered in material default of the Agreement and such default shall be considered cause for County to terminate the Agreement, in whole or in part, as further set forth in this Section, if Contractor: (1) fails to begin the Work under the Contract Documents within the time specified herein; or (2) fails to properly and timely perform the Work as directed by the

County or as provided for in the approved Progress Schedule; or (3) performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or (4) discontinues the prosecution of the Work; or (5) fails to resume Work which has been suspended within a reasonable time after being notified to do so; or (6) becomes insolvent or is declared bankrupt, or commits any act of bankruptcy; or (7) allows any final judgment to stand against it unsatisfied for more than ten (10) days; or (8) makes an assignment for the benefit of creditors; or (9) fails to obey any applicable codes, laws, ordinances, rules or regulations with respect to the Work; or (10) materially breaches any other provision of the Contract Documents.

18.2. County shall notify Contractor in writing of Contractor's default(s). If County determines that Contractor has not remedied and cured the default(s) within seven (7) calendar days following receipt by Contractor of said written notice, then County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate Contractor's right to proceed under the Agreement, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of Contractor, take assignments of any of Contractor's subcontracts and purchase orders, and complete all or any portion of Contractor's Work by whatever means, method or agency which County, in its sole discretion, may choose.

18.3. If County deems any of the foregoing remedies necessary, Contractor agrees that is shall not be entitled to receive any further payments hereunder until after the Project is completed. All monies expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses (including attorneys' fees) or damages incurred by County incident to such completion, shall be deducted from the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, Contractor agrees to pay promptly to County on demand the full amount of such excess, including costs of collection, attorney's fees (including appeals) and interest thereon at the maximum legal rate of interest until paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures and damages incurred by the County to complete the Work, such excess shall be paid to the Contractor. The amount to be paid to the Contractor or County, as the case may be, and this obligation for payment shall survive termination of the Agreement.

18.4. The liability of Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained, and obligations assumed by County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, in settlement, discharge or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder.

18.5. If, after notice of termination of Contractor's right to proceed pursuant to this Section, it is determined for any reason that Contractor was not in default, or that its default was excusable, or that County is not entitled to the remedies against Contractor provided herein, then Contractor's remedies against County shall be the same as and limited to those afforded Contractor below under Subsection 19.1, Termination for Convenience.

18.6. If the Contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Contractor in conjunction with this Agreement then the County may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven (7) days' written notice, during which period Contractor still fails to allow access, terminate the employment of

the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Contractor, and may finish the project by whatever method it may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the Project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontract work).

Section 19. TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

19.1. County shall have the right to terminate this Agreement without cause upon seven (7) calendar days written notice to Contractor. In the event of such termination for convenience, Contractor's recovery against County shall be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but Contractor shall not be entitled to any other or further recovery against County, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

19.2. County shall have the right to suspend all or any portions of the Work upon giving Contractor two (2) calendar days' prior written notice of such suspension. If all or any portion of the Work is so suspended, Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the Contract Documents. In no event shall the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds three (3) months, the Contractor shall have the right to terminate the Agreement with respect to that portion of the Work which is subject to the ordered suspension.

Section 20. COMPLETION

20.1. Upon receipt of written notice, the County will ascertain whether the work or designated portions thereof are ready for the Engineer's substantial completion inspection. From the Engineer's list of incomplete or unsatisfactory items, a schedule for the County's review will be prepared for their completion indicating such completion dates. The County will issue a Certificate of Substantial Completion when the work on the punch list has been accomplished.

20.2. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the County shall promptly make such inspection and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a Certificate of Final Completion and Recommendation for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit in the form attached as **Exhibit D**, (2) consent of surety to final payment, (3) if required by County, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by County, and (4) a published copy of the Notice of Completion as provided for in this section. County reserves the right to inspect the Work and make an independent determination as to the Work's acceptability. Unless and until the County is completely satisfied, the final payment shall not become due and payable.

20.3. After the Work is ready for final inspection and acceptance by the County, a legal advertisement must be published by the Contractor in a local newspaper of a general countywide circulation at least thirty (30) days before final payment shall be made. Example of such publication is as follows:

Legal Notice of Completion

Notice is hereby given that the undersigned Contractor has completed and has ready for acceptance by the Board of County Commissioners of Escambia County, Florida, the following construction project:

_____

(Project Name and Address)

_____

(Legal Name and Address - entity of the Contractor)

Subcontractors, material men, and other persons having payment claims against the Contractor relating to this project should govern themselves accordingly.

Section 21. WARRANTY

21.1. Contractor shall obtain and assign to County all express warranties given to Contractor or any subcontractors by any material men supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to County that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within two (2) years after substantial completion and acceptance, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work, which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which County is entitled as a matter of law. The Performance Bond shall remain in full force and effect throughout the two (2) year Warranty Period.

Section 22. PROJECT LAYOUT AND CONTROL

22.1. Engineer will provide survey control, referencing beginning and ending stations, P.C.'s, P.T.'s and intermediate stations at 500-foot intervals. Staking is to be set along control line (base line or centerline of right-of-way, as indicated on plans) or at an offset determined by the Engineer. Benchmarks will be provided at intervals no greater than 1000 feet. The Engineer at the Contractor’s expense shall replace any of these points, which are disturbed or destroyed by the Contractor.

22.2. Contractor shall employ a competent Engineer or Land Surveyor licensed in the State of Florida familiar with construction control procedures to lay out all other parts of the work, and to establish all points, grades and levels necessary to locate the work. The Contractor shall be held responsible for all mistakes that may be caused by his incorrect layout and grade spotting work, or caused by the loss or disturbance of the Engineer's layout work.

22.3. Should the Contractor in the course of the work find that the points, grades, and levels which are shown upon the Drawings are not conformable to the physical conditions of the locality at the proposed work or structure, he shall immediately inform the Engineer of the discrepancy between the actual physical conditions of the locality of the proposed work, and the points, grades and levels which are shown on the Drawings. No claim shall be made by the Contractor against the Owner for compensation or damage by reasons for failure of the Engineer to represent upon said Drawings, points, grades and levels conformable to the actual physical conditions of the locality of the proposed work.

Section 23. TESTS AND INSPECTIONS

23.1. County, its respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide County with timely notice of readiness of the Work for all required inspections, tests or approvals.

23.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish County the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.

23.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the County, such work must, if requested by County, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given County timely notice of Contractor's intention to cover the same and County has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from County, such Work must, if requested by County, be uncovered for County's observation and be replaced at Contractor's sole expense.

23.4. Neither observations by the County nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with the Contract Documents.

23.5. Prior to payment for any Work for which testing is specified, Contractor shall provide the County a copy of reasonably acceptable test results relating to such work as required by the technical specifications of the solicitation.

Section 24. DEFECTIVE WORK

24.1. Work not conforming to the requirements of the Contract Documents shall be deemed defective Work. If required by County, Contractor shall, as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by County, remove it from the site and replace it with acceptable Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold County harmless for same.

24.2. If the County considers it necessary or advisable that covered Work be observed by County or inspected or tested by others, Contractor, at County's request, shall uncover, expose or otherwise make available for observation, inspection or tests as County may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and County shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

24.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, County may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of County to stop the Work shall not give rise to any duty on the part of County to exercise this right for the benefit of Contractor or any other party.

24.4. Should the County determine, at its sole opinion, it is in the County's best interest to accept defective Work, the County may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the County's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the County accepts such defective Work after final payment, Contractor at the discretion of the County shall promptly pay County an appropriate amount to adequately compensate County for its acceptance of the defective Work or shall increase in the Work's warranty period beyond two (2) years.

24.5. If Contractor fails, within a reasonable time after the written notice from County, to correct defective Work or to remove and replace rejected defective Work as required by County, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, County may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, County may exclude Contractor from any or all of the Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which County has paid Contractor but which are stored elsewhere. Contractor shall allow County, and their respective representatives, agents, and employees such access to the Project site as may be necessary to enable County to exercise the rights and remedies under this Subsection. All direct, indirect

and consequential costs of County in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by County of County's rights and remedies hereunder.

Section 25. SUPERVISION AND SUPERINTENDENTS

25.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent acceptable to the County, who shall not be replaced without prior written notice to County except under extraordinary circumstances. The resident superintendent shall possess Florida Department of Transportation approved training and certifications applicable to the Work, including but not limited to National Pollutant Discharge Elimination System (NPDES) Stormwater Management and Maintenance of Traffic Control Devices. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. County shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 26. PROTECTION OF WORK

26.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

26.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 27. EMERGENCIES

27.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from County is obligated to act to prevent threatened damage, injury or loss. Contractor shall give County written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the County determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

Section 28. USE OF PREMISES

28.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

28.2. Contractor shall provide and maintain in a neat, sanitary condition such accommodation for the use of his employees as may be necessary to comply with the regulations of the State Board of Health or other bodies having jurisdiction. He shall commit no public nuisance.

Section 29. SAFETY

29.1. The Contractor shall designate in writing the individual responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

29.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

29.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

29.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

29.2. The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by County has occurred.

29.3 The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.

29.4 The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in **Exhibit C** of this Agreement.

Section 30. PROJECT MEETINGS

Prior to the commencement of Work, the Contractor shall attend a pre-construction conference

with the County to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the County with respect to the Project, when directed to do so by County. Contractor shall have its subcontractors and suppliers attend all such meetings (including the pre-construction conference) as may be directed by the County.

EXHIBIT B
PERFORMANCE AND PAYMENT BOND

BOND NO. _____

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That

_____

_____

(Insert name, address, and phone number of contractor), as Principal, and

_____

_____

_____, (Insert full name, home office address and phone number of surety) as Surety, are held and firmly bound unto the Board of County Commissioners for Escambia County, Florida, 221 Palafox Place, Pensacola, Florida 32597-1591, (850) 595-4900, as Obligee in the sum of

_____

____ Dollars ($_____), for the payment whereof we bind ourselves, our heirs, executors, personal representatives, successors and assigns, jointly and severally, firmly by these present.

WHEREAS, Principal has entered into a contract dated as of the _____ day of_____, 20____, with Obligee for Contract No._____,_____

_____

_____

(Insert name of project, including legal description, street address of property and general description of improvement) in accordance with drawings and specifications, which contract is by reference made a part hereof, and is hereinafter referred to as the Contract.

THE CONDITION OF THIS BOND is that if Principal:

1. Performs the Contract at the times and in the manner prescribed in the Contract; and

2. Pays Obligee any and all losses, damages, costs and attorneys' fees that Obligee sustains because of any default by Principal under the Contract; and

3. Performs the guarantee of all work and materials furnished under the Contract applicable to the work and materials, then this bond is void; otherwise it remains in full force; and

4. Principal understands and agrees that this bond shall remain in full force and effect throughout the two (2) year warranty period after substantial completion of the work.

The Surety, for value received, hereby stipulates and agrees that no changes, extensions of time, alterations or additions to the terms of the Contract or other work to be performed hereunder, or the specifications referred to therein shall in anywise affect its obligation under this bond, and it does hereby waive notice of any such changes, extensions of time, alterations or additions to the terms of the Contract or to work or to the specifications.

This instrument shall be construed in all respects as a common law bond.

In no event will the Surety be liable in the aggregate to Obligee for more than the penalty sum of this Performance Bond, regardless of the number of suits that may be filed by Obligee.

IN WITNESS WHEREOF, the above parties have executed this instrument this _____ day of _____, 20____, the name and corporate seal of each corporate party being hereto affixed and these premises duly signed by its undersigned representative, pursuant to authority of its governing body.

_____

said Contract being made a part of this Bond by this reference.

NOW, THEREFORE, THE CONDITION OF THIS BOND IS THAT IF THE PRINCIPAL:

1. Performs the contract dated _____, _____, between Principal and County for construction of _____, the contract being made a part of this bond by reference, at the times and in the manner prescribed in the contract; and

2. Promptly makes payments to all claimants, as defined in Section 255.05(1), Florida Statutes, supplying Principal with labor, materials, or supplies, used directly or indirectly by Principal in the prosecution of the work provided for in the contract; and

3. Pays County all loses, damages, expenses, costs, and attorney's fees, including appellate proceedings, that the County sustains because of a default by Principal under the contract; and

4. Performs the guarantee of all work and materials furnished under the contract for the time specified in the contract, then this bond is void; otherwise it remains in full force.

Any action instituted by a claimant under this bond for payment must be in accordance with the

notice and time limitation provisions in Section 255.05(2), Florida Statutes.

BE IT FURTHER KNOWN:

1. Any changes in or under the Contract and compliance or noncompliance with any formalities connected with the said Contract or alterations which may be made in the terms of the said Contract, or in the work to be done under it, or the giving by the County of any extension of time for the performance of the said Contract, or any other forbearance on the part of the County or Principal to the other, shall not in any way release the Principal and the Surety, or either of them, their heirs, personal representatives, successors or assigns from liability hereunder, notice to the Surety of any such changes, alterations, extensions or forbearance being hereby waived.

2. Certain claimants seeking the protection of this Bond must timely comply with the strict requirements set forth in Section 255.05, Florida Statutes, and as otherwise provided by law.

3. As concerns payment for labor, materials and supplies, as affects certain claimants, no legal action shall be instituted against the Principal or Surety on this Bond after one (1) year from the performance of labor or the completion of delivery of the materials or supplies as is specifically mandated pursuant to Section 255.05, Florida Statutes.

THIS BOND DATED THE _____ DAY OF _____, 20____ (the date of issue by the Surety or by the Surety's agent and the date of such agents power-of-attorney).

EXHIBIT C
INSURANCE AND SAFETY

INSURANCE - BASIC COVERAGES REQUIRED

The Contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such on policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the Contract Documents, whether such services, work and operations be by the Contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The Contractor shall require, and shall be responsible for assuring throughout the time the Agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the Contractor. The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the Contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the Contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The Contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The Contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The Contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid

certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile And Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.
Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage
Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be

considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability policy.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of $1,000.
4. Designate Escambia County as the certificate holder as follows:
   Escambia County
   Attention: Paul R. Nobles, CPPO, CPPB, Purchasing Coordinator
   Office of Purchasing
   P.O. Box 1591
   Pensacola, FL 32597-1591
   Fax (850) 595-4805
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

MINIMUM PROJECT SAFETY REQUIREMENTS

The following safety requirements represent the minimum condition, which shall be met by all Contractors and subcontractors performing work for Escambia County: Reported or observed violations of Federal and State laws and regulations, or County ordinances shall be brought to the attention of the County project manager and County's Department of Safety and Risk Services and shall be immediately corrected by the Contractor. Additionally, the County may order work to be stopped if conditions exist that present immediate danger to persons or property. The Contractor acknowledges that any such stoppage will not shift responsibility for any damages from the Contractor to the County. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the County's Department of Safety and Risk Services for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

(1) Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the County a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

(2) The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including County and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

(3) The Contractor shall provide all necessary safety equipment for County staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

(4) Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of County staff, visitors, and the general public while operating work vehicles at a "controlled" construction site. Where conditions warrant, or at the request of the County, temporary barriers shall also be established for these traffic areas.

(5) The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to County staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE; ANYONE TRESPASSING ON THIS PROPERTY SHALL, UPON CONVICTION, BE GUILTY OF A FELONY; "A DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY," and other general safety warning signs, i.e., "HARD HAT AREA," as are deemed necessary by the Contractor and project manager.

(6) In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the County safety Office. Alternative measures may include, but are not limited to, working during "off 'hours such as nights, weekends, or holidays, or the

providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the County).

(7) The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the County's Department of Safety and Risk Services and the appropriate life safety code inspector), shall the life safety code components of an occupied facility be reduced or otherwise compromised.

A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor and County's Department of Safety and Risk Services as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

- When a project alters a building's fire protection compartment features, such as fire barriers, smoke barriers, or corridor walls, exits must provide free and unobstructed egress. Employees shall receive notice if any alternative exits have been designated. Buildings or areas under construction must maintain escape egress for construction workers at all times. These means of egress shall be inspected daily by the Contractor.

- When a project affects fire alarms, fire detection, or fire suppression systems, of a building that is occupied, the Contractor must ensure that such systems are not functionally impaired. Any temporary systems, which are installed, must be inspected and tested monthly by the Contractor. Employees must be notified when such temporary systems are in place.

- When any sources of ignition are present, such as welding torches, smoking by all persons shall be prohibited on any construction site and in any County facility.

(8) Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

(a) The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the County's Department of Safety and Risk Services. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

(b) Material Safety Data Sheets (MSDS) shall be provided to the County's Department of Safety and Risk Services for all hazardous substances used on the project or

brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

(c) Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

(d) The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

(9) The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing County 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

(10) The Contractor agrees and understands that all County construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or County regulatory agencies.

(11) The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

(12) Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

(13) Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior written approval from the County's Department of Safety and Risk Services shall be obtained before their use.

(14) The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic, cadmium, mercury, selenium), on the work site shall be avoided. Prior written approval for use of these metals shall be obtained by the Contractor from the County's Department of Safety and Risk Services.

(15) The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and County's Department of Safety and Risk Services for review.

(16) The County contracts out the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager and the County's Department of Safety and Risk Services.

(17) The above-cited guidelines represent minimum expectations and actions, which shall be taken by Contractors while under contract for County construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager and County's Department of Safety and Risk Services.

EXHIBIT D
RELEASE AND AFFIDAVIT

COUNTY OF ESCAMBIA
STATE OF FLORIDA

Before me, the undersigned authority, personally appeared _____, who after being duly sworn, deposes and says:

(1) In accordance with the Contract Documents and in consideration of $_____ paid, _____ ("Contractor") releases and waives for itself and its subcontractors, material men, successors and assigns, all claims demands, costs and expenses, whether in contract or in tort, against the Board of County Commissioners of Escambia County, Florida, ("County") relating in any way to the performance of the Agreement between Contractor and County dated _____, 20____, for the period from _____ to _____.

(2) Contractor certifies for itself and its subcontractors, material men, successors and assigns, that all charges for labor, materials, supplies, lands, licenses and other expenses for which County might be sued or for which a lien or a demand against any payment bond might be filed, have been fully satisfied and paid.

(3) Contractor agrees to indemnify, defend and save harmless County from all demands or suits, actions, claims of liens or other charges filed or asserted against the County arising out of the performance by Contractor of the Work covered by this Release and Affidavit.

(4) This Release and Affidavit is given in connection with Contractor's (monthly/final) Application for Payment No. _____.

EXHIBIT G
PAYMENT ADJUSTMENT - BITUMINOUS MATERIALS.

1. The bid unit price for Bituminous Material will be adjusted to reflect changes, both increases and decreases, in the Asphalt Index price of bituminous material from that in effect during the month in which bids were received for this contract. The Contractor will not be given the option to reject this cost adjustment of Bituminous Materials. This adjustment will be made in accordance with the following criteria:

1.1. Price adjustments will apply only to the price of bituminous material F. O. B. manufacturer's asphalt terminal and will not reflect variations in the cost of transportation from the terminal to the job site.

1.2. Price adjustments will be made for all bituminous material incorporated into asphalt pavement whether paid for under a separate bid item or under other items, which include the cost of bituminous material.

1.3. Price adjustments will not be made until the semi-final or final payment is made on the contract. The bid unit price for bituminous material will be used in preparing monthly progress payments.

1.4. No price adjustment reflecting any further increases in the cost of bituminous material will be made for any month after expiration of the allowable contract time, including any extensions that may be granted.

1.5. The adjusted unit price shall be calculated for the month during which the material was incorporated into the project in accordance with the following formula:

Pa ' PbX(Id-Ib) where:

Pa ' Adjusted unit price for Bituminous Material. (To be calculated separately for each month during which bituminous material is used and will reflect an increased or decreased price.)

Pb ' Bid unit price for Bituminous Material.

Id ' Asphalt Price Index during the month in which the material is incorporated into the project.

Ib ' Asphalt Price Index during the month in which bids were received for this contract.

1.6. The County will determine the Asphalt Price Index for each month. The Index shall be determined by averaging quotations in effect on the first day of the month at all terminals, which could reasonably be expected to furnish bituminous material to projects in the State of Florida.

1.7. A price adjustment will be made only when the current Asphalt Price Index varies by 5% or more from the Index that was applicable when bids were received or 5% or more from when the last previous adjustment was made.

The Asphalt Price Index to be used by the County will be that used by the Florida Department of Transportation, as available from them after the 15th of each month.

Evaluation Comments:

During the 17-18 Resurfacing contract there were several issues that arose; Scheduling, Workmanship, Documentation, Coordination with County staff, and damages to adjacent properties.

Scheduling: Midsouth was issued a NTP on 9/6/2018 with a duration of 320 days. This placed the substantial date as 7/23/2019. Midsouth did not begin work on the contract for 82 days. Midsouth fell behind on the SOW in regards to all three schedules that were submitted. On 8/9/2019 staff notified Midsouth that the remaining SOW that had not begun would be deducted from their contract and rebid. The deductive CO was processed.

Workmanship: Throughout the contract the overall workmanship of the paving was sub-par. Midsouth left roller marks, hand work marks, depressions, bumps and debris in final asphalt layers. With the numerous defects staff were noticing, a third party testing firm were contracted to perform verification tests on the asphalt placed. At this time in the contract there were sixteen roads where resurfacing had been performed. Of those sixteen Midsouth was required to rework all or at least portions of fifteen due to density failures. They were placed on hold till a corrective action plan could be established and approved by County staff. Once approved, Midsouth was allow to proceed with remaining work with the understanding that the quantity of paving and workmanship must remain at an acceptable level. It was agreed that Midsouth would incorporate the rework into the remaining SOW as they proceeded forward.

Documentation: Staff repeatedly had to ask for revised pay applications due to errors or missing documentation. There were times that multiple revised were required before an acceptable application was received. Requested schedules, reports and testing results were not received in a timely manner or were submitted in an unacceptable format. As of 1/22/2020 Midsouth has yet to request the retainage on the contract.

Coordination: Midsouth was repeatedly asked to coordinate work with the County inspector, provide a schedule and follow the provided schedule so that staff could oversee the work being performed. This coordination did not happen. It would last for a day or so every time it was requested and then revert back to no notifications. Midsouth was asked on multiple occasions to notify residents of upcoming work to be performed in their neighborhoods, but this did not happen either. There was an appearance that work began to get scheduled over weekends, holidays, etc. There were several instances where staff would return to work on Monday to have multiple complaints from the paving crews over the weekend with no notification of work to be performed.

Damages: Midsouth and their sub contracts inflicted frequent damages to adjacent properties throughout the paving areas. Dump trucks would utilize residents' yards to turn around, resulting in ruts and damages to lawns and landscaping. Midsouth would reportedly cast rocks and debris into residents yards, leave trash on the ground and even utilize residents' water faucets with no prior approval.

MIDSOUTH PAVING INC.
A CRH COMPANY

May 21, 2019

To: Mr. Cooper Saunders, Program Manager

Contract Number: 17-18.059
Project Description: 2017-2018 Escambia County Group Resurfacing

Mr. Saunders:

MidSouth Paving Inc. will accept a pay deduction of 15% for Line Item 7 (1.5" County Spec 2500 Type SP 12.5 Asphalt Concrete Surface) for Groveland Road and the East bound lane of Hernandez Street plus extend the warranty for an additional one year.

The warranty period for the areas identified above shall be three (3) years after substantial completion and acceptance.

Sincerely,

Edward Miller
Project Manager

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17823 **County Administrator's Report 12. 47.**
BCC Regular Meeting **Budget & Finance Consent**
Meeting Date: 05/07/2020
Issue: Floridian Ditch Restoration and Godwin Lane Regional Pond
From: PAUL NOBLES, Purchasing Manager
Organization: Asst County Administrator
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Contract Award for PD 19-20.039, Floridian Ditch Restoration and Godwin Lane Pond - Joy Jones, P.E., Engineering Department Director and Paul Nobles, Purchasing Manager, Office of Purchasing

That the Board approve and authorize the County Administrator to sign the Agreement between Escambia County, Florida, and Site and Utility, LLC, per the terms and conditions of PD 19-20.039, Godwin Lane Pond, in the amount of $ 587,806.

Request for Proposals for PD 19-20.039, Godwin Lane Pond was publicly noticed on March 16, 2020, to 86 unique firms, downloaded by 47 unique firms via Vendor Registry on April 15, 2020. Five firms submitted responses. All five firms were deemed responsive and compliant.

Funding Breakdown
Floridian Ditch Restoration and Godwin Lane Pond

Fund	Description	Cost Center	Object Code	Project Number	Amount
352	Local Option Sales Tax III	210107	56301	19EN0431	$507,903
353	Local Option Sales Tax IV	210106	56301	19EN0431	$ 79,903
				Total	$587,806

BACKGROUND:

This project involves drainage improvements along Godwin Lane and converting the existing borrow pit on the north side of Godwin Lane into a Regional Stormwater Pond. Improvements consist of approximately 2,422 linear feet of stormwater pipe on Godwin Lane with associated drainage structures along with the relocation of an Emerald Coast Utilities Authority (ECUA) force main.

The project will also reduce the stormwater flow behind the Sarasota Street homes in Floridian Subdivision.

Request for Proposals for PD 19-20.039, Godwin Lane Regional Pond was publicly noticed on March 16, 2020, to 86 unique firms, downloaded by 47 unique firms via Vendor Registry on April 15, 2020. Five firms submitted responses. All five firms were deemed responsive and compliant.

BUDGETARY IMPACT:

SPECIAL ACCOMMODATIONS:

Any person requiring special accommodations to attend or participate, pursuant to the Americans with Disabilities Act, should call the Office of Purchasing, (850) 595-4980 at least five (5) working days prior to the solicitation opening.

NOTICE

It is the specific legislative intent of the Board of County Commissioners that NO CONTRACT under this solicitation shall be formed between Escambia County and the awardee vendor until such time as the contract is executed by the last party to the transaction.

NOTICE

In accordance with Sec. 46-110(e) of the Escambia Code of Ordinances, all bid solicitation documents shall include the following notice to vendors of the local vendor preference policy:

Sec. 46-110.-Local Preference in Bidding

(a) Legislative Intent:

The Escambia County Board of County Commissioners finds that local businesses are often at a disadvantage when competing with other non-local businesses in that the cost of doing business in Escambia County is higher than other areas of the state and giving local businesses a preference in the procurement of goods and services serves a compelling public purpose for the benefit of the taxpayer and residents of Escambia County as such preference encourages local industry, employment opportunities, and increases the County's overall tax base.

(b) "Local Business" Defined:

For the purposes of this section, "local Business" shall mean a business which meets all of the following criteria:

(1) Has had a fixed office or distribution point located in and having a street address with Escambia County or Santa Rosa County for at least one year immediately prior to the issuance of the request for competitive bids by the County. The fixed office or distribution point must be staffed by at least one (1) employee. Post office boxes are not verifiable and shall not be used for the purpose of establishing a physical address.

(2) Holds any business license required by Escambia County or Santa Rosa County; and

(3) Is the principal offeror who is a single offeror; a business which is the prime contractor and not a subcontractor; or a partner or joint venture submitting an offer in conjunction with other businesses.

(c) **Certification:**

Any vendor claiming to be a local business as defined above shall so certify in writing to the Escambia County Office of Purchasing. The certification shall provide all necessary information to meet the requirements provided herein. The purchasing agent shall not be required to verify the accuracy of any such certifications, and shall have the sole discretion to determine if a vendor meets the definition of a "local business."

(d) **Preference in purchase of commodities and services by means of competitive bid:**

Except where federal or state law, or any other funding source, mandates to the contrary, Escambia County may give preference to local businesses in the following manner:

Competitive bid (local price match option): Each formal competitive bid solicitation (i.e. sealed bids) shall clearly identify how the price order of the bids received will be evaluated and determined.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.00, and the bid submitted by one or more qualified and responsive local businesses is within **five (5) percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **Community Redevelopment Area (CRA)** is within **seven percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.00, and the bid submitted by one or more qualified and responsive local businesses is within **three percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **five (5) percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses is within **two percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **four (4) percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

In such instances, staff shall first verify whether the lowest non-local bidder and the lowest local bidder are in fact qualified and responsive bidders. Next, the purchasing department shall invite the lowest local bidder in writing to submit a matching offer which shall be submitted in writing to the office of purchasing within five business days thereafter.

If the lowest local bidder does not respond or otherwise submits a written offer that does not fully match the lowest bid from the lowest non-local bidder tendered previously then award shall be made to the lowest overall qualified and responsive non-local bidder.

In the event a local bidder is awarded a contract pursuant to this section, any requests for change orders increasing the cost of the project must be approved by the board of county commissioners.

(e) **Notice:**

All bid solicitation documents shall include notice to vendors of the local preference policy.

(f) **Waiver of the application of local preference:**

The application of local preference to a particular purchase or contract for which the board of county commissioners is the awarding authority may be waived upon approval of the board of county commissioners.

(g) **Limitations:**

(1) The provisions of this section shall apply only to procurements which are above the formal bid threshold as set forth in the Escambia County Purchasing Code.

(2) The provisions of this section shall not apply where prohibited by federal or Florida law or where prohibited under the conditions of any grant.

(3) The provisions of this section shall not apply to any purchase exempted from the provisions of the Escambia County Purchasing Code.

(4) The provisions of this section shall not apply to contracts made under the Consultants Competitive Negotiation Act (CCNA), F.S. § 287.055.

(h) **Penalties:**

(1) Misrepresentation:

A vendor who misrepresents the local preference status of its firm in a bid or proposal submitted to the county will lose the privilege to claim local preference status for a period of up to one (1) year from the date of the award of the contract or upon completion of the contract, whichever is greater.

(2) Failure to Maintain Local Business Preference Qualifications:

Any vendor that does not maintain its local preference status resulted in the awarded contract shall be in breach of contract and will be subject to termination of the contract, suspension of payments under the contract, and loss of the local preference status on the contract awarded.

(3) Lack of Good Faith:

The contractor or firm may show that it attempted through reasonable and objective means and in good faith to comply with the terms of the contract relating to local businesses but was unable to comply. If the County determines that the contractor or firm did not act in good faith, all amounts paid to the contractor or firm under the County contract intended for expenditure with the local business shall be forfeited and recoverable by the County. In addition, the contract may be rescinded and the County may return all or a portion of the goods received and recover all amounts paid under the contract for the goods which were returned.

Effective July 1, 2015, the County **may not** use a local preference "for a competitive solicitation for **construction services** in which **50 percent or more** of the cost will be paid from state appropriated funds which have been appropriated at the time of the competitive solicitation. For any such solicitation, the County must disclose in the bid package that "any applicable local ordinance or regulation does not include any local preference…" See §255.0991, Florida Statutes.

ESCAMBIA COUNTY FLORIDA
INVITATION TO BID
BIDDER'S CHECKLIST
Godwin Lane Regional Pond
SPECIFICATION PD 19-20.039

HOW TO SUBMIT YOUR BID:

- Please review this document carefully. Offers that are accepted by the county are binding contracts. **Incomplete bids are not acceptable.** All documents and submittals shall be received by the office of purchasing on or before date and hour specified for receipt. Late bids will be returned unopened.

** Documents submitted with Bids are to be on the forms provided in the Invitation to Bid and photocopies of other required documents*

THE FOLLOWING DOCUMENTS SHALL BE RETURNED WITH BID:

- Solicitation, Offer, and Bid Form, with Original Signature. Photocopies of this form will not be accepted.
- Excel Spreadsheet Bid Tabulation Form
- Bid Surety (Bond, Check, Etc.)

THE FOLLOWING DOCUMENTS SHOULD BE RETURNED WITH BID:

- Letter from Insurance Carrier as Specified in the "Insurance Requirements."
- Sworn Statement Pursuant to Section 287.133(3)(A), Florida Statutes, On Entity Crimes
- Drug-Free Workplace Form
- Information Sheet for Transactions and Conveyances Corporate Identification
- Certificate of Authority to Do Business from The State of Florida
- Occupational License
- Florida Department of Business and Professional Regulation – License(S), Certification(S) and/or Registration(S)

BEFORE YOU SUBMIT YOUR BID, HAVE YOU:

- Placed your bid with all required submittal items in a sealed envelope clearly marked for specification number, project name, name of bidder, and due date and time of bid receipt?

THE FOLLOWING SUBMITTALS ARE REQUIRED UPON NOTICE OF AWARD:

- Certificate of Insurance
- Payment and Performance Bonds

HOW TO SUBMIT A NO BID

If you do not wish to bid at this time, please remove the bidder Solicitation, Offer and Bid Form from the bid solicitation package and enter No Bid in the **"Reason for No Bid"** block, your company's name, address, signature, and return the bidder Solicitation, Offer and Bid Form in a sealed envelope. This will ensure your company's active status in our bidder's list.

This form is for your convenience to assist in filling out your bid only.

DO NOT RETURN THIS FORM WITH YOUR BID.

Attached to bid you shall find a bid bond, cashier's check or certified check (circle one that applies) in the amount of **5%** of bid. The work shall be substantially completed within **One Hundred & Fifty (150) Calendar Days** from the Commencement Date. The Bidder agrees to fully complete all work included above within One Hundred **Eighty (180) Consecutive Calendar Days** from the date of Notice to Proceed. **Liquidated damages of $1000.00 each day will be assessed for each day that completion of the project is delayed.** All work to be accomplished under this bid shall be the responsibility of Bidder and failure of subcontractors to perform shall not relieve Bidder of any liquidated damages. A Bid Bond in the amount of 5% of base bid is to be furnished by each Bidder. Bidder further acknowledges that all of the work outlined above may not be required at the discretion of Escambia County. The total will be subject to total funds available during the course of the work. However, it is the intent of Escambia County at this time to substantially complete the listed work.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to _____
(print name of the public entity)

by_____
(print individual's name and title)

for_____
(print name of entity submitting sworn statement)

whose business address is

_____

_____

and (if applicable) its Federal Employer Identification Number (FEIN) is:
_____

(If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision or any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

   c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise

transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **(indicate which statement applies.)**

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **(attach a copy of the final order)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Drug-Free Workplace Form

The undersigned vendor, in accordance with Florida Statute 287.087 hereby certifies that _____does:
Name of Business

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in Paragraph 1.

4. In the statement specified in Paragraph 1, notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Paragraphs 1 through 5.

SPECIAL TERMS AND CONDITIONS

The Board of County Commissioners, Escambia County, Florida, invites your company to submit a sealed offer on the item(s) as listed in this solicitation request.

All terms and conditions below are a part of this request, and no offer will be accepted unless all these conditions have been complied with. The County reserves the right to waive informalities in any offer; to reject any or all offers, in whole or in part, and/or to accept the offer(s) that in its judgment is from the lowest and most responsible and responsive offeror(s).

Instructions to Offerors

1. **General Information**

All offers to be considered shall be in the possession of the Office of Purchasing prior to the time of the solicitation closing. Offers may be mailed to 213 Palafox Place, Room 11.101, Pensacola, Florida 32502 or delivered to the Office of Purchasing, 2nd floor, Room 11.101, Matt Langley Bell, III Bldg., 213 Palafox Place, Pensacola, Florida 32502, in a sealed envelope clearly marked:

Specification Number PD 19-20.039, " Godwin Lane Regional Pond ", Name of Submitting Firm, Time and Date due.
Note: If you are using a courier service; Federal Express, Airborne, UPS, etc., you must mark air bill and envelope or box with Specification Number and Project Name.

Regardless of the method of delivery, each offeror shall be responsible for his offer(s) being delivered on time as the County assumes no responsibility for same. Offers offered or received after the time set for solicitation closing will be rejected and returned unopened to the offeror(s).

The following policy will apply to all methods of source selection:

Conduct of Participants

After the issuance of any solicitation, all bidders/proposers/protestors or individuals acting on their behalf are hereby prohibited from **lobbying** as defined herein or otherwise attempting to persuade or influence any elected County officials, their agents or employees or any member of the relevant selection committee at any time during the **blackout period** as defined herein; provided, however, nothing herein shall prohibit bidders/proposers/protestors or individuals acting on their behalf from communicating with the purchasing staff concerning a pending solicitation unless otherwise provided for in the solicitation or unless otherwise directed by the purchasing manager.

Definitions

Blackout period means the period between the time the bids are received at the Escambia County Office of Purchasing and the time the Board awards the contract and any resulting bid protest is resolved or the solicitation is otherwise canceled.

Lobbying means the attempt to influence the thinking of elected County officials, their agents or employees or any member of the relevant Selection Committee for or against a specific cause related to a pending solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication.

Sanctions

The Board may impose any one or more of the following sanctions on a non-employee for violations of the policy set forth herein:

(a) Rejection/disqualification of submittal
(b) Termination of contracts; or
(c) Suspension or debarment as provided in Sec. 46-102 of the Escambia County Code of Ordinances.

This policy is not intended to alter the procedure for Protested Solicitations and Awards as set forth in the Sec. 46-101 of the Escambia County Code of Ordinances.

"Scope of Work" Summary (Godwin Lane Regional Pond)

This project involves drainage improvements along Godwin Lane and converting the existing borrow pit on the North side of Godwin Lane into a Regional Stormwater Pond. Improvements consist of approximately 2,422 linear feet of stormwater pipe with associated drainage structures along with the relocation of an ECUA force main.
The project will be partially constructed by a private developer that is currently constructing the Embers Ridge Subdivision on the south side of Godwin Lane. The proposed drainage system and ECUA force main will tie into the Embers Ridge Subdivision portion that is labeled "BY OTHERS" on the plans. In the event the improvements are not completed by the Embers Ridge Subdivision project, the "BY OTHERS" items have been included in the bid tab as Additive Alternative Bid Items to be constructed by the contractor.
The project is required to be installed from west to east to ensure uninterrupted gas and sewer service to neighboring residents and to reduce conflicts with active utility lines.
This project shall be substantially complete within **150 calendar days** from the issuance of a Notice to Proceed. The bidder agrees to complete all work within **30 consecutive days** from the date of substantial completion for a total project time of **180 days. Liquidated damages of $1,000.00 each day will be assessed for each day that completion of the project is delayed.**

Related Documents:

All Construction shall comply with:

- The Escambia County Technical Specifications, latest edition, and all interim standards that apply to these additions.
- The latest version of the Florida Department of Transportation Design Standards and Specifications.
- All sanitary sewer work shall be done in accordance with the latest edition of ECUA's Engineering Manual.

Licenses/Certifications:

- General Contractors License
- Underground Utilities License
- Work Zone Safety Traffic Supervisor Certifications
- Certified Stormwater Management Inspector

Contract Time & Liquidated Damages:

The Work shall be substantially completed within **One Hundred Fifty (150) Calendar Days** from the Commencement Date. The Bidder agrees to fully complete all work included within **Thirty (30) Consecutive Calendar Days** from the date of Substantial Completion. **Liquidated damages of $1000.00 each day will be assessed for each day that completion of the project is delayed.**

2. **Bid Surety**

Each offer shall be accompanied by a bid bond, cashier's check or certified check in the amount of **5%** of the total offer.

Checks or bonds are to be made payable to Escambia County, Florida. The amount of the bond or check is the amount of liquidated damages agreed upon should the offeror fail or refuse to enter into a contract with the County.

A County warrant in the amount of the bid check(s) of the successful offeror(s) will be returned immediately after the offeror and the County are mutually bound by contract as evidenced by signatures thereto by an authorized representative of both the offeror and the County, and/or the offeror accepts the purchase order by signing the solicitation, offer and bid form/acceptance copy of same and returning to the County Purchasing department. Any unsuccessful offeror(s) will have the amounts of his cashier's or certified check returned via county warrant promptly after award.

All offerors agree that any interest earned on any bid surety while in possession of the County, or its agents, shall be retained by the County.

3. **Bonds**

Performance and Payment Bonds

The County **shall** require the successful offeror(s) to furnish **separate performance and payment bonds**, under pledge of adequate surety and covering up **100% of the dollar value of award** on the forms provided by the County. Such bonds shall be issued by sureties authorized to act as a surety by the State of Florida. Bonds of the successful offeror(s) shall be reviewed by the Office of Purchasing to assure compliance, then recorded in the Office of the Clerk of the Circuit Court Recording Office, 1st Floor, 221 Palafox Place, Pensacola, Florida, by the successful offeror at his expense before the contract is executed. The cost of recording is $10.00 for the first page and $8.50 for each additional page.

4. **Questions**

Questions may be directed to Lawrence A. Gordon, Purchasing Specialist, E-mail: Lagordon@myescambia.com. Last day for questions will be 4/6/2020 at 5:00 P.M., CDT.

5. **Bid Forms**

This Solicitation contains a Solicitation, Offer and Bid Form and Excel Spreadsheet, which shall be submitted in a sealed envelope, with Original signatures in indelible ink signed in the proper spaces. Responses on vendor forms will not be accepted.

The Offerors Checklist included in this solicitation provides instructions to the offeror on the documentation to be submitted during the procurement process.

6. **Pre-Solicitation Conference**

A Pre-Solicitation Conference will be held at the COC (3363 W. Fairfield Drive, Pensacola Fl. 32505) on 4/2/2020 at 9:00 A.M. CST.

7. **Liquidated Damages**

Should the awarded vendor fail to complete the required services or make delivery of the commodities or equipment within the time(s) specified in the contract, or within such additional time(s) as may be granted by Escambia County, the County will suffer damage, the amount of which is difficult, if not impossible to ascertain therefore, the vendor shall pay to the County, as liquidated damages, the sum of **$1000.00** for each calendar day of delay that actual completion extends beyond the time limit specified until such reasonable time as may be required for final completion of the work. Such sum is mutually agreed upon as a reasonable and proper amount of damages the County will sustain per diem by failure of the vendor to complete the services or make delivery within the specified time. The costs for liquidated damages shall not be construed as a penalty on the vendor.

8. **Safety Regulations**

Equipment shall meet all state and federal safety regulations for grounding of electrical equipment.

9. **Codes and Regulations**

The awarded vendor shall strictly comply with all federal, state and local building and safety codes.

10. **Payment**

Partial payments in the full amount for the value of items received and accepted may be requested by the submission of a properly executed **original** invoice, with supporting documents if required. Payment for accepted equipment/supplies/services will be accomplished by submission of an **original** invoice, in duplicate, to:

Clerk of the Circuit Court
Attention: Accounts Payable
221 Palafox Place
Pensacola, FL 32502

11. **Warranty**

The awarded vendor shall fully warrant all equipment furnished hereunder against defect in materials and/or workmanship for a period of two (2) years from date of delivery/acceptance by Escambia County.

Should any defect in materials or workmanship, except ordinary wear and tear, appear during the above stated warranty period, the awarded vendor shall repair or replace same at no cost to the County, immediately upon written notice from the Purchasing Manager.

12. **Debris**

Awarded vendor shall be responsible for the prompt removal of all debris, which is a result of this contractual service.

13. **Protection of Property/Security**

The awarded vendor shall provide all barricades and take all necessary precautions to protect buildings and personnel.

All work shall be completed in every respect and accomplished in a professional manner and awarded vendor shall provide for removal of all debris from county property.

The awarded vendor shall at all times guard against damage or loss to property of Escambia County, or of other vendors or contractors, and shall be held responsible for replacing or repairing any such loss or damage.

The County may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the awarded offeror or his agent.

The awarded vendor shall at all times guard against injury to Escambia County employees. The vendor shall properly fence and secure the construction site(s) at all times, including evenings and weekends.

The awarded vendor must, at all times, comply with State of Florida and Occupational Safety and Health Administration (OSHA) safety regulations.

14. **Permits**

The county and/or its contracted consultant(s) have conducted a review of required permits and fees required to be purchased by the contractor from the county permitting agencies for this specific project and they are listed on the bid/proposal form(s) to the best of our knowledge.

15. **Term of Offer**

An offer shall constitute an irrevocable offer for a period of ninety (90) days from the solicitation opening date or until the date of award, whichever is earlier, without forfeiting bid bond or check. In the event that an award is not made by the county within ninety (90) days from the solicitation opening date, the offeror may withdraw his offer or provide a written extension of his offer.

16. **Award**

Award shall be made on an "all-or-none total" basis.

The offeror or contractor will be required to fully comply with all applicable federal, state, and local regulations. The offeror should carefully review these requirements which are detailed in this solicitation.

17. **Termination**

The purchase order or contract will be subject to immediate termination if either product or service does not comply with specifications as stated herein or fails to meet the county's performance standards. In the event that any of the provisions of the contract are violated by awarded vendor, Escambia County may serve written notice upon the awarded vendor of its intention to terminate the contract. Such notice is to state the reason(s) for such intention to terminate contract. The liability of the vendor for any and all such violation(s) shall not be affected by any such termination and his surety, if any, shall be forfeited.

18. **Termination (Services)**

The Contract Administrator shall notify the Office of Purchasing of unsatisfactory performance and/or deficiencies in service that remain unresolved or recurring. The Office of Purchasing shall notify the contractor, in writing, of such unresolved or recurring deficiencies within five (5) working days of notification by the Contract Administrator.

Upon the third such written notification of unsatisfactory performance and/or deficiencies to the contractor by the Office of Purchasing within a four (4) month period; or the sixth such notification within any contract term, shall result in issuance of written notice of immediate contract termination to the contractor by the Office of Purchasing. Such termination may also result in suspension or debarment of the contractor.

19. **Termination (Public Records Request)**

If the contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the contractor in conjunction with this agreement then the county may, without prejudice to any right or remedy and after giving the contractor and his surety, if any, seven (7) days written notice, during which period contractor still fails to allow access, terminate the employment of the contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the contractor, and may finish the project by whatever method it may deem expedient. In such case, the contractor shall not be entitled to receive any further payment until the project is finished. Reasonable terminal expenses incurred by the county may be deducted from any payments left owing the contractor (excluding monies owed the contractor for subcontract work.)

20. **As Specified**

All items delivered shall meet the specifications herein. Items delivered not as specified will be returned at no expense by Escambia County. The County may return, for full credit, any unused items received which fail to meet the County's performance standards.

Insurance Requirements

21. **Standard Insurance Requirements and Certificates**

This offer contains an extensive insurance requirement. Offerors are encouraged to review these requirements with their insurance agents before submitting offers.

It is not necessary to have this level of insurance in effect at the time of submitting the offer.

A letter from the offeror's insurance carrier will be required as evidence that the offeror will be able to obtain the levels of insurance as required by the contract and indicated on the Sample Certificate of Insurance should your firm be awarded the contract.

County Insurance Required

The contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the contract documents, whether such services, work and operations be by the contractor, its employees, or by

subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The contractor shall require, and shall be responsible for assuring throughout the time the agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the contractor.

The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the contractor or any other insurance of the contractor shall be considered primary, and insurance of the county, if any, shall be considered excess, as may be applicable to claims obligations which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile and Excess or Umbrella Liability Coverage
The contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the commercial general liability and business auto policies of the insurance services office.

Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the workers compensation coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage

resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business auto liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

The General Liability and Business Auto Liability policies shall be endorsed to include Escambia County as an additional insured and provide for 30 day notification of cancellation.

Excess or Umbrella Liability Coverage (If utilized to achieve required policy limits)
Umbrella liability insurance is preferred, but an excess liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in certificates of insurance. If and when required by the County, certificates of insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the certificate of insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverage(s) indicated on each certificate of insurance.

New certificates of insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information:

1. Indicate that Escambia County is an additional insured on the liability and business auto policies.

2. Include a reference to the project and the Office of Purchasing number.

3. Disclose any self-insured retentions in excess of $1,000.

4. Designate Escambia County as the certificate holder as follows:

   Escambia County
   Attention: Lawrence Gordon , Purchasing Specialist
   Office of Purchasing
   Pensacola, FL 32591-1591

5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the

county, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the contractor shall furnish complete copies of the contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For commercial general liability coverage, the contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

23. **Indemnification**

Contractor agrees to save harmless, indemnify, and defend County and Architect/Engineer and their, agents, officers and employees from any and all claims, losses, penalties, interest, demands, judgments, and costs of suit, including attorneys' fees and paralegals' fees, for any expense, damage or liability incurred by any of them, whether for personal injury, death, property damage, direct or consequential damages, or economic loss, including environmental impairment, arising directly or indirectly on account of or in connection with the Work done by Contractor under this Agreement or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by any one for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. County and Contractor agree the first $100.00 of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims made. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

AGREEMENT BETWEEN ESCAMBIA COUNTY, FLORIDA AND SITE AND UTILITY ,LLC FOR STANDARD ROAD/DRAINAGE CONSTRUCTION CONTRACT DOCUMENTS.

THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, ("County"), hereby contracts with **SITE and UTILITY,LLC**, a Limited Liability Corporation for profit, to perform all work ("Work") in connection with PD 19-20.039 (Godwin Lane Regional Pond), as detailed in the attached Plans and Specifications and other Contract Documents hereafter specified.

SECTION 1. CONTRACT DOCUMENTS

A. The Contract Documents include this Agreement, including Amendments and Exhibits, the Exhibits described in Section 6, Change Orders, Work Directive Changes, Field Orders and the solicitation documents, including addenda. These Contract Documents are incorporated by reference and made a part of this Agreement. A copy of all Contract Documents shall be maintained by Contractor at the Project site at all times during the performance of the Work.

B. In case of any inconsistency or conflict among the provisions of the agreement and any other terms and conditions of any documents comprising the Contract Documents, the provisions of the Agreement shall control. Concerning the Contract Documents, the order of precedence shall be as follows: 1) the Agreement, including Amendments and Exhibits; 2) Change Orders; 3) Work Directive Changes; 4) Field Orders; 5) the Solicitation Documents, including addenda. The Contract Documents listed above represent the entire and integrated agreement between the parties hereto, and supersede prior negotiations, representations, or agreements, either written or oral.

C. County shall furnish to the Contractor up to four (4) sets of the Contract Documents for execution of the Work. Additional copies of the Contract Documents are available at the cost of reproduction.

SECTION 2. SCOPE OF WORK

Contractor agrees to furnish and pay for all management, supervision, financing, labor, materials, tools, fuel, supplies, utilities, equipment and services of every kind and type necessary to diligently, timely, and fully perform and complete in a good workmanlike manner the Work required by the Contract Documents.

SECTION 3. CONTRACT AMOUNT

For satisfactory completion of the Work the County agrees to pay the Contractor the following amount (herein "Contract Amount"), in accordance with the terms of this Agreement.

CONTRACT AMOUNT = $ 587,806.00 (per April 15, 2020 submittal)

SECTION 4. BONDS

A. Contractor shall provide at his expense Performance and Payment Bonds, in the form prescribed in **Exhibit B**, in the amount of 100% of the Contract Amount. The Performance and Payment Bonds shall be underwritten by a surety authorized to do business in the State of Florida and otherwise acceptable to County; provided; however, the surety shall be rated as "A-" (excellent) or better as to general policy holders rating and Class V or higher rating as to financial size category and the amount required shall not exceed 5% of the reported policy holder's surplus, all as reported in the most current Best Key Rating Guide, published by A.M. Best Company, Inc. of 75 Fulton Street, New York, New York 10038.

B. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Document, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the County's approval. Failure by Contractor to maintain its bonds in full force and effect at all times, including the warranty period, shall be grounds for termination of this Contract.

C. As per Florida Statutes, Section 255.05, the Contractor shall be required to execute and record the Performance and Payment bonds. The bonds must state the name and principal business address of both the Principal and the Surety and a description of the project sufficient to identify it. (The filing costs are $10.00 for the first page and $8.50 for each remaining page).

SECTION 5. CONTRACT TIME AND LIQUIDATED DAMAGES.

A. Time is of the essence in the performance of the Work under this Agreement. Contractor shall commence the Work within **ten (10)** calendar days from the Commencement Date, established in the Notice to Proceed. No Work shall be performed at the Project site prior to the Commencement Date. Contractor shall provide 48 hours' notice prior to beginning the Work. The Work shall be substantially completed within **ONE HUNDRED FIFITY(150)** calendar days from the Commencement Date. The Work shall be fully completed and deemed ready by the County for final completion within **THIRTY (30)** calendar days from the Substantial Completion Date. The Contract Time shall be the time period from the Commencement Date to the date of final completion totaling **ONE HUNDRED EIGHTY(180)** calendar days (herein "Contract Time"). No work under this contract shall commence until certificates of insurance have been received and acknowledged by the Purchasing Manager.

B. County and Contractor recognize that, since time is of the essence for this Agreement, the County will suffer financial loss if the Work is not substantially completed within the time specified. Should Contractor fail to substantially complete the Work within the time period noted above, County shall be entitled to assess, as liquidated damages, but not as a penalty, **$ 1,000.00** for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed by the County on the date that the County's Architect certifies in writing that the construction of the project, or specified part thereof, is sufficiently completed in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it is intended. Along with such certification, the Architect shall compile a "punch list" of

any remaining exceptions that do not adversely affect the use of the Project. Completion of these items will be required prior to final payment.

C. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the County's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

D. When any period of time is referenced to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

SECTION 6. EXHIBITS INCORPORATED

The following documents are expressly agreed to be incorporated by reference and made a part of this Agreement.

Exhibit A: General Terms and Conditions
Exhibit B: Form of Performance and Payment Bonds
Exhibit C: Insurance and Safety Requirements
Exhibit D: Form of Release and Affidavit
Exhibit E: Form of Contractor Application for Payment
Exhibit F: Form of Change Order
Exhibit G: Payment Adjustment - Bituminous Material
Exhibit H: Technical Specifications
Exhibit I: Plans & Standard Details prepared by or for County and Identified as follows:

TITLE SHEET NO. DATE

Exhibit K: Federal Documents (if applicable)
Exhibit L: Sollicitation Documents Index

SECTION 7. NOTICES

A. All notices required or made pursuant to this Agreement by the Contractor to the County shall be in writing. All correspondence with the County should be addressed as follows:

ENGINEERING / PUBLIC WORKS
3363 WEST PARK PALCE
PENSACOLA FLORIDA 32505
Attention: JOHN ROSENAU / ENGINEERING PROJECT MANAGER

B. All correspondence with the Contractor will be addressed to the following:

SITE UTILITY , LLC
403 CAROLINA DRIVE
PENSACOLA, FLORIDA 32534
ATTENTION: BOBBY GODFREY / VICE-PRESIDENT

C. Either party may change its above noted address by giving written notice to the other party in accordance with the requirements of this Section.

SECTION 8. MODIFICATION

No modification or change to the Agreement shall be valid or binding upon the parties unless in writing and executed by the party or parties intended to be bound by it.

SECTION 9. SUCCESSORS AND ASSIGNS

Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the parties to the Agreement.

SECTION 10. GOVERNING LAW

The Agreement shall be interpreted under and its performance governed by the laws of the State of Florida and the parties agree that venue shall be in Escambia County, Florida for any matter which is the subject of this Contract.

SECTION 11. NO WAIVER

The failure of the County to enforce at any time or for any period of time any one or more of the provisions of the Agreement shall not be construed to be and shall not be a waiver of any such provision or provisions or of its right thereafter to enforce each and every such provision.

SECTION 12. ENTIRE AGREEMENT

Each of the parties hereto agrees and represents that the Agreement comprises the full and entire agreement between the parties affecting the Work contemplated, and no other agreement or understanding of any nature concerning the same has been entered into or will be recognized, and that all negotiations, acts, work performed, or payments made prior to the execution hereof shall be deemed merged in, integrated and superseded by the Agreement.

SECTION 13. SEVERABILITY

Should any provision of the Agreement be determined by a court to be unenforceable, such a determination shall not affect the validity or enforceability of any other section or part thereof.

SECTION 14. PUBLIC RECORDS.

The Contractor acknowledges that this Agreement and any related financial records, audits, reports, plans correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. Contractor shall maintain all such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. Contractor shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Contractor agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Contractor fails to abide by the provisions of Chapter 119, Florida Statutes, the County

may, without prejudice to any other right or remedy and after giving the Contractor and surety, if any, seven days written notice, during which period the Contractor still fails to allow access to such documents, terminate the contract. In such case, the Contractor shall not be entitled to receive any further payment. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontractor work).

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Escambia County
Office of the County Administrator

EXHIBIT A
GENERAL TERMS AND CONDITIONS

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents, as being required to produce the intended result shall be supplied whether or not specifically called for. When words, which have a well-known technical or trade meaning, are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2. If, during the performance of the Work, Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to County and before proceeding with the Work affected thereby shall obtain an interpretation or clarification from the County. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the County. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

1.4. "Engineer", where referenced on the drawings or in the specifications or in other related documents, shall mean the Escambia County Engineer or the designated representative thereof.

Section 2. INVESTIGATION AND UTILITIES

2.1. Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or

compensation.

2.2. Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Where Utilities block construction, Contractor shall aggressively pursue relocation by the Utility owners. Contractor shall immediately notify the County of any delays due to Utilities blockage and document all attempts to resolve such blockage. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 3. SCHEDULE

3.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to County, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work and shall include dates of Shop Drawing Submittals.

3.2. The Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the County's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The County's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the County's obligation to pay Contractor.

Section 4. PROGRESS PAYMENTS

4.1. Prior to submitting its first Application for Payment, Contractor shall submit to County, for its review and approval, a schedule of values based upon the Contract Price, listing the major elements of the Work and the dollar value for each element. After its approval by the County, this schedule of values shall be used as the basis for the Contractor's Applications for Payment. This schedule shall be updated and submitted along with a completed and notarized copy of the Application for Payment form attached to the Agreement as **Exhibit E.**

4.2. Prior to submitting its first Monthly Application for Payment, Contractor shall submit to County a complete list of all its proposed subcontractors and material men, showing the work and materials involved. The first Application for Payment shall be submitted no earlier than thirty (30) days after Commencement Date.

4.3. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the County in writing, the Application for Payment will subdivide the work into component parts in sufficient detail to serve as the basis for a progress payment and shall also be accompanied by a bill of sale, invoice or other documentation warranting that upon payment by County, the County shall receive the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect County's interest therein, all of which shall be subject to the County's prior written approval.

4.4. Contractor shall submit _____ (__) copies of its applications for Payment to the County on or about the 25th day of each month for work performed during that month. Contractor shall submit no more than one application for payment each month. Within ten (10) calendar days after receipt of each Application for Payment, the County shall either: (1) indicate approval of the requested payment; (2) indicate approval of only a portion of the requested payment, stating in writing the reasons therefore; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. In the event of a total or partial denial of the Application for Payment, the Contractor may make the necessary corrections and resubmit the Application for Payment for reconsideration within ten (10) calendar days of receiving notice of refusal.

If re-submittal of the Application for Payment is refused, in whole or in part, the Contractor may submit a written request to the County Administrator for an administrative decision within two (2) business days of receiving notice of refusal. Upon receiving a timely request, an administrative decision shall be rendered within ten (10) calendar days with written notification provided to the Contractor.

If the administrative decision is disputed, the Contractor may submit a written request to the County Administrator for an administrative hearing before the Dispute Resolution Committee (DRC) within two (2) business days of receiving said decision. A hearing shall be scheduled within ten (10) business days from the date the request is received, and the Contractor will receive written notice of the hearing date. The DRC may, within its discretion, render a final decision at the hearing or may elect to mail a written decision within a period not to exceed ten (10) calendar days from the hearing date. The DRC's written decision shall be considered administratively final.

The County shall, within twenty (20) business days after County approval of an Application for Payment, pay the Contractor the amounts so approved. Provided, however, in no event shall the County be obligated to pay an amount greater than that portion of the Application for Payment approved by the County.

4.5 County shall retain ten percent (10%) of the gross amount of each monthly payment request or ten percent (10%) of the portion thereof approved by the County for payment whichever is less. The retained sum shall be accumulated and not released to Contractor until final payment is due. Any interim interest on such sums shall accrue to County.

At the County's sole discretion, a percentage of the amount retained from the gross amount of each monthly payment may be reduced prior to final completion of the Project and said percentage released to the Contractor upon receiving a certificate of substantial completion and approval from the Architect/Engineer.

Release of any portion or percentage of sums retained prior to final completion of the Project shall in no way imply approval or acceptance of Contractor's work.

4.6 Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

4.7 Each Application for Payment shall be accompanied by Release and Affidavit, in the form attached as **Exhibit D**, showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested or have been paid in full. The County shall not be required to make payment until and unless these affidavits are furnished by Contractor.

4.8 Applications for Payment will not be approved unless all submittals required by the Contract documents, up to that point, are provided and "As-Built" record documents are maintained as required by Section 8.2.

Section 5. PAYMENTS WITHHELD

5.1. The County may decline to approve any Application for Payment, or portions thereof, because of subsequently discovered evidence or subsequent inspections. The County may nullify the whole or any part of any approval for payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after three (3) days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

Section 6. FINAL PAYMENT

6.1. County shall make final payment to Contractor within forty- five (45) calendar days after the Work is finally inspected and accepted by County in accordance with Section 20.1 herein, provided that Contractor first, and as an explicit condition precedent to the accrual of Contractor's right to final payment, shall have furnished County with a properly executed and notarized copy of the Release and Affidavit attached as Exhibit D, as well as, a duly executed copy of the Surety's consent to final payment and such other documentation that may be required by the Contract Documents or the County.

6.2. Contractor's acceptance of final payment shall constitute a full waiver of any and all claims by Contractor against County arising out of this Agreement or otherwise relating to the Project, except those previously made in writing and identified by Contractor as unsettled at the time of the final Application for Payment. Neither the acceptance of the Work nor payment by County shall be deemed to be a waiver of County's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the County at the time of final inspection.

Section 7. SUBMITTALS AND SUBSTITUTIONS

7.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. When submitted for the Engineer's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked, and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Documents. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

7.2. Prior to submitting its first Application for Payment, Contractor shall provide to County a DVD format showing the pre-existing conditions located within the limits of construction.

7.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by County from anyone other than Contractor and all such requests must be submitted by Contractor to County within thirty (30) calendar days after Notice to Proceed is received by Contractor.

7.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the County for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the County in evaluating the proposed substitute. The County may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

7.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the County, if Contractor submits sufficient information to allow the County to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the County shall be the same as those provided herein for substitute materials and equipment.

7.6. The County shall be allowed a reasonable time within which to evaluate each proposed substitute. The County shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the County's prior written acceptance, which shall be evidenced by either a Change Order or an approved Shop Drawing. The County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 8. DAILY REPORTS, AS-BUILTS, AND MEETINGS

8.1. Unless waived in writing by County, Contractor shall complete and submit, along with its Application for Payment, to the County on a monthly basis a daily log of the Contractor's work for the preceding month in a format approved by the County. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

8.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions

which adversely affect the Work;

8.1.2. Soil conditions which adversely affect the Work;

8.1.3. The hours of operation by Contractor's personnel and subcontractor's personnel;

8.1.4. The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontract and trade;

8.1.5. All equipment present at the Project site, description of equipment use and designation of time equipment was used (specifically indicating any down time);

8.1.6. Description of Work being performed at the Project site;

8.1.7. Any unusual or special occurrences at the Project site;

8.1.8. Materials received at the Project site

The daily log shall not constitute nor take the place of any notice required to be given by Contractor to County pursuant to the Contract Documents.

8.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the County, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to County for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to County by Contractor.

8.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. County, or any duly authorized agents or representatives of County, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 9. CONTRACT TIME AND TIME EXTENSIONS

9.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and material men, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as

coordination of all portions of the Work under the Contract Documents.

9.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the County in writing within forty-eight (48) hours after the commencement of such delay. Written supporting data with specific details of Contractor operations, which were delayed, shall be submitted to the County within fifteen (15) calendar days after the occurrence of the delay, unless the County grants additional time in writing for such submittals, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension.

9.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which County may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from County. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against County will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damages For Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

9.4. Requests for delays due to adverse weather conditions shall meet all of the following conditions:

9.4.1. Contractor notified the County in writing within forty-eight (48) hours of the delay.

9.4.2. The weather was unusual as documented by supporting data.

9.4.3. The weather did have an adverse impact on the contractor’s schedule (critical path only).

9.4.4. The Contractor and inspector’s daily logs corroborate the adverse impact. Where a conflict exists between the weather data and the daily reports, the daily reports will take precedence.

Section 10. CHANGES IN THE WORK

10.1. County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost and/or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of County, and County shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of County is authorized to direct any extra or changed work orally.

10.2. A Construction Change Order, in the form attached as **Exhibit F** to this Agreement, shall be issued and executed promptly after an agreement is reached between Contractor and County concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount shall be adjusted in the Change Order in the manner as County and Contractor shall mutually agree.

10.3. If County and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by County in a written

Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by County. If Contractor disagrees with the County's adjustment determination, Contractor must make a claim pursuant to Section 11 of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

10.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

10.5. County shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

10.6. The County shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 11. CLAIMS AND DISPUTES

11.1. A Claim is a demand or assertion by one of the parties seeking an adjustment or interpretation of the terms of the Contract Documents, payment of money, extension of time or other relief with respect to the terms of the Contract Documents. The term "Claim" also includes other disputes and matters in question between County and Contractor arising out of or relating to the Contract Documents. The responsibility to substantiate a Claim shall rest with the party making the Claim.

11.2. Claims by the Contractor shall be made in writing to the County within forty-eight (48) hours after the first day of the event giving rise to such Claim or else the Contractor shall be deemed to have waived the Claim. Written supporting data shall be submitted to the County within fifteen (15) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the Claim. All claims shall be priced in accordance with the provisions of Subsection 10.4.

11.3. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending Claim, action, suit or administrative proceeding, unless otherwise agreed to by the County in writing. County shall continue to make payments in accordance with the Contract Documents pending Claim.

Section 12. OTHER WORK

12.1. County may perform other work related to the Project at the site by County's own forces, have other work performed by utility owners or let other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact with specific details of anticipated costs and delays to County within forty-eight (48) hours of being notified of

the other work. Written supporting data of actual need for additional time or additional expense, shall be submitted to the County within fifteen (15) calendar days after completion of other work, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension or adjustment to the Contract Amount.

12.2. Contractor shall afford each utility owner and other contractor (or County, if County is performing the additional work with County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the County and the others whose work will be affected.

12.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or County), Contractor shall inspect and promptly report to County in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 13. INDEMNIFICATION AND INSURANCE

13.1 Contractor shall pay on behalf of or indemnify and hold harmless County and its agents, officers and employees from and against all liabilities, damages, losses, and costs, including attorney's and paralegal fees, incurred by County to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by anyone for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. Contractor's obligation as provided herein shall be limited to its proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor, and Contractor shall not be required to pay on behalf of or indemnify and hold harmless County where County's negligence, recklessness, or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's fees and paralegal fees.

County and Contractor agree one percent (1%) of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement.

Contractor agrees that such indemnification by Contractor relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any applicable statutes of limitations thereafter. Contractor's obligation to indemnify shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

13.2 Contractor shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in Exhibit C to the Agreement.

All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and/or responsible risk retention group insurance companies, which are registered with the State of Florida. All commercial insurance carriers providing the Contractor with required insurance shall be a minimum financial size category of VII according to the AM Best Rating Guide, latest edition. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Within ten (10) calendar days after Notice of Award is received by Contractor and prior to the commencement of work, Contractor shall provide County with properly executed Certificates of Insurance to evidence Contractor's compliance with the insurance requirements of the Contract Documents. Said Certificates of Insurance shall be on forms approved by County, such as "Acord Form 25". The Certificates of Insurance shall be personally, manually signed by the authorized representatives of the insurance company/companies shown on the Certificates of Insurance, with proof that they are authorized representatives thereof. Certificates of Insurance shall be mailed to Escambia County in care of: Purchasing Manager, Purchasing Division, P.O. Box 1591, Pensacola, Florida 32597-1591. In addition, certified, true and exact copies of all insurance policies required hereunder shall be provided to County, on a timely basis, when requested by County.

13.3 The Certificates of Insurance and required insurance policies shall contain provisions that thirty (30) days' prior written notice by registered or certified mail shall be given County of any cancellation, intent not to renew, or reduction in the policies or coverages, except in the application of the aggregate limits provisions. In the event of a reduction in the aggregate limit of any policy, Contractor shall immediately take steps to have the aggregate limit reinstated to the full extent permitted under such policy.

13.4 All insurance coverages of the Contractor shall be primary to any insurance or self-insurance program carried by the County applicable to this Project. The acceptance by County of any Certificate of Insurance does not constitute approval or agreement by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the requirements of the Contract Documents. No work shall commence at the Project site unless and until the required Certificates of Insurance are received by the County.

13.5 Contractor shall require each of its subcontractors to procure and maintain, until the completion of the subcontractor's work, insurance of the types and to the limits specified in **Exhibit C**, unless such insurance requirements for the subcontractor is expressly waived in writing by the County. All liability insurance policies, other than professional liability, worker's compensation and employer's liability policies, obtained by Contractor to meet the requirements of the Contract Documents shall name Escambia County as an additional insured and shall contain Severability of Interest provisions. Escambia County shall also be designated as certificate holder with the address of P. O. Box 1591, Pensacola, Florida 32597-1591. If any insurance provided pursuant to the Contract Documents expires prior to the completion of the Work, renewal Certificates of Insurance and, if requested by County, certified, true copies of the renewal policies shall be furnished by Contractor within thirty (30) days prior to the date of expiration.

13.6 All liability policies shall be underwritten on the "occurrence" basis, unless otherwise approved in writing by the County Division of Risk Management. "Claims made" policies, if approved by the Risk Manager, and subsequent insurance certificates shall provide a "retro-date" which shall include the effective date of the contract. "Claims-made" renewals or carrier and policy replacements shall reflect the original "retro-date."

13.7 Should at any time the Contractor not maintain the insurance coverages required herein, the County may terminate the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge the Contractor for such coverages purchased. The County shall be

under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance coverages shall in no way be construed to be a waiver of any of its rights under the Contract Documents.

13.8 Contractor shall submit to County a copy of all accident reports arising out of any injuries to its employees or those of any firm or individual to whom it may have subcontracted a portion of the Work, or any personal injuries or property damages arising or alleged to have arisen on account of any work by Contractor under the Contract Documents.

13.9 Duty to Provide Legal Defense. Contractor shall pay for and provide a legal defense for the County, which shall include attorneys' fees and costs, both of which will be done only if and when requested by the County, for all liabilities, damages, losses, and costs as described in paragraph 13.1 above. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Section 14. COMPLIANCE WITH LAWS

14.1 Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify County in writing. Compliance with the above laws shall include but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Section 102, Standard Specifications for Road and Bridge Construction, Florida Department of Transportation.

14.2 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY): In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States, except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Section 15. CLEANUP AND PROTECTIONS

15.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by County. Non-compliance with directives of this section may serve as a basis of rejection of Application for Payment.

15.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work.

Section 16. ASSIGNMENT

16.1. Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of County. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward County.

Section 17. PERMITS, LICENSES AND TAXES

17.1. Except as noted in paragraph 17.2 below, all permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to County have been disclosed to Contractor in the bidding documents or other request for proposal at the time the Project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising there from. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

17.2. Permits required for the Work from FDOT, FDEP, the Army Corps of Engineers, and any archeological permitting agency will be paid for and obtained by the County.

17.3. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 18. TERMINATION FOR DEFAULT

18.1. Contractor shall be considered in material default of the Agreement and such default shall be considered cause for County to terminate the Agreement, in whole or in part, as further set forth in this Section, if Contractor: (1) fails to begin the Work under the Contract Documents within the time specified herein; or (2) fails to properly and timely perform the Work as directed by the County or as provided for in the approved Progress Schedule; or (3) performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or (4) discontinues the prosecution of the Work; or (5) fails to resume Work which has been suspended within a reasonable time after being notified to do so; or (6) becomes insolvent or is declared bankrupt, or commits any act of bankruptcy; or (7) allows any final judgment to stand against it unsatisfied for more than ten (10) days; or (8) makes an assignment for the benefit of creditors; or (9) fails to obey any applicable codes, laws,

ordinances, rules or regulations with respect to the Work; or (10) materially breaches any other provision of the Contract Documents.

18.2. County shall notify Contractor in writing of Contractor's default(s). If County determines that Contractor has not remedied and cured the default(s) within seven (7) calendar days following receipt by Contractor of said written notice, then County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate Contractor's right to proceed under the Agreement, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of Contractor, take assignments of any of Contractor's subcontracts and purchase orders, and complete all or any portion of Contractor's Work by whatever means, method or agency which County, in its sole discretion, may choose.

18.3. If County deems any of the foregoing remedies necessary, Contractor agrees that is shall not be entitled to receive any further payments hereunder until after the Project is completed. All monies expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses (including attorneys' fees) or damages incurred by County incident to such completion, shall be deducted from the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, Contractor agrees to pay promptly to County on demand the full amount of such excess, including costs of collection, attorney's fees (including appeals) and interest thereon at the maximum legal rate of interest until paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures and damages incurred by the County to complete the Work, such excess shall be paid to the Contractor. The amount to be paid to the Contractor or County, as the case may be, and this obligation for payment shall survive termination of the Agreement.

18.4. The liability of Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained, and obligations assumed by County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, in settlement, discharge or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder.

18.5. If, after notice of termination of Contractor's right to proceed pursuant to this Section, it is determined for any reason that Contractor was not in default, or that its default was excusable, or that County is not entitled to the remedies against Contractor provided herein, then Contractor's remedies against County shall be the same as and limited to those afforded Contractor below under Subsection 19.1, Termination for Convenience.

18.6. If the Contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Contractor in conjunction with this Agreement then the County may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven (7) days' written notice, during which period Contractor still fails to allow access, terminate the employment of the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Contractor, and may finish the project by whatever method it may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the Project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontract work).

Section 19. TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

19.1. County shall have the right to terminate this Agreement without cause upon seven (7) calendar days written notice to Contractor. In the event of such termination for convenience, Contractor's recovery against County shall be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but Contractor shall not be entitled to any other or further recovery against County, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

19.2. County shall have the right to suspend all or any portions of the Work upon giving Contractor two (2) calendar days' prior written notice of such suspension. If all or any portion of the Work is so suspended, Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the Contract Documents. In no event shall the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds three (3) months, the Contractor shall have the right to terminate the Agreement with respect to that portion of the Work which is subject to the ordered suspension.

Section 20. COMPLETION

20.1. Upon receipt of written notice, the County will ascertain whether the work or designated portions thereof are ready for the Engineer's substantial completion inspection. From the Engineer's list of incomplete or unsatisfactory items, a schedule for the County's review will be prepared for their completion indicating such completion dates. The County will issue a Certificate of Substantial Completion when the work on the punch list has been accomplished.

20.2. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the County shall promptly make such inspection and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a Certificate of Final Completion and Recommendation for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit in the form attached as **Exhibit D**, (2) consent of surety to final payment, (3) if required by County, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by County, and (4) a published copy of the Notice of Completion as provided for in this section. County reserves the right to inspect the Work and make an independent determination as to the Work's acceptability. Unless and until the County is completely satisfied, the final payment shall not become due and payable.

20.3. After the Work is ready for final inspection and acceptance by the County, a legal advertisement must be published by the Contractor in a local newspaper of a general countywide circulation at least thirty (30) days before final payment shall be made. Example of such publication is as follows:

Legal Notice of Completion

Notice is hereby given that the undersigned Contractor has completed and has ready for acceptance by the Board of County Commissioners of Escambia County, Florida, the following construction project:

_____

(Project Name and Address)

_____

(Legal Name and Address - entity of the Contractor)

Subcontractors, material men, and other persons having payment claims against the Contractor relating to this project should govern themselves accordingly.

Section 21. WARRANTY

21.1. Contractor shall obtain and assign to County all express warranties given to Contractor or any subcontractors by any material men supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to County that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within two (2) years after substantial completion and acceptance, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work, which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which County is entitled as a matter of law. The Performance Bond shall remain in full force and effect throughout the two (2) year Warranty Period.

Section 22. PROJECT LAYOUT AND CONTROL

22.1. Engineer will provide survey control, referencing beginning and ending stations, P.C.'s, P.T.'s and intermediate stations at 500 foot intervals. Staking is to be set along control line (base line or centerline of right-of-way, as indicated on plans) or at an offset determined by the Engineer. Bench Marks will be provided at intervals no greater than 1000 feet. The Engineer at the Contractor’s expense shall replace any of these points, which are disturbed or destroyed by the Contractor.

22.2. Contractor shall employ a competent Engineer or Land Surveyor licensed in the State of Florida familiar with construction control procedures to lay out all other parts of the work, and to establish all points, grades and levels necessary to locate the work. The Contractor shall be held responsible for all mistakes that may be caused by his incorrect layout and grade spotting work, or caused by the loss or disturbance of the Engineer's layout work.

22.3. Should the Contractor in the course of the work find that the points, grades, and levels which are shown upon the Drawings are not conformable to the physical conditions of the locality at the proposed work or structure, he shall immediately inform the Engineer of the discrepancy between the actual physical conditions of the locality of the proposed work, and the points, grades and levels which are shown on the Drawings. No claim shall be made by the Contractor against the Owner for compensation or damage by reasons for failure of the Engineer to represent upon said Drawings, points, grades and levels conformable to the actual physical conditions of the locality of the proposed work.

Section 23. TESTS AND INSPECTIONS

23.1. County, its respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide County with timely notice of readiness of the Work for all required inspections, tests or approvals.

23.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish County the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.

23.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the County, such work must, if requested by County, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given County timely notice of Contractor's intention to cover the same and County has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from County, such Work must, if requested by County, be uncovered for County's observation and be replaced at Contractor's sole expense.

23.4. Neither observations by the County nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with the Contract Documents.

23.5. Prior to payment for any Work for which testing is specified, Contractor shall provide the County a copy of reasonably acceptable test results relating to such work as required by the technical specifications of the solicitation.

Section 24. DEFECTIVE WORK

24.1. Work not conforming to the requirements of the Contract Documents shall be deemed defective Work. If required by County, Contractor shall, as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by County, remove it from the site and replace it with acceptable Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold County harmless for same.

24.2. If the County considers it necessary or advisable that covered Work be observed by County or inspected or tested by others, Contractor, at County's request, shall uncover, expose or otherwise make available for observation, inspection or tests as County may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and County shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

24.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, County may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of County to stop the Work shall not give rise to any duty on the part of County to exercise this right for the benefit of Contractor or any other party.

24.4. Should the County determine, at its sole opinion, it is in the County's best interest to accept defective Work, the County may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the County's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the County accepts such defective Work after final payment, Contractor at the discretion of the County shall promptly pay County an appropriate amount to adequately compensate County for its acceptance of the defective Work or shall increase in the Work's warranty period beyond two (2) years.

24.5. If Contractor fails, within a reasonable time after the written notice from County, to correct defective Work or to remove and replace rejected defective Work as required by County, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, County may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, County may exclude Contractor from any or all of the Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which County has paid Contractor but which are stored elsewhere. Contractor shall allow County, and their respective representatives, agents, and employees such access to the Project site as may be necessary to enable County to exercise the rights and remedies under this Subsection. All direct, indirect and consequential costs of

County in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by County of County's rights and remedies hereunder.

Section 25. SUPERVISION AND SUPERINTENDENTS

25.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent acceptable to the County, who shall not be replaced without prior written notice to County except under extraordinary circumstances. The resident superintendent shall possess Florida Department of Transportation approved training and certifications applicable to the Work, including but not limited to National Pollutant Discharge Elimination System (NPDES) Stormwater Management and Maintenance of Traffic Control Devices. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. County shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 26. PROTECTION OF WORK

26.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

26.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 27. EMERGENCIES

27.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from County is obligated to act to prevent threatened damage, injury or loss. Contractor shall give County written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the County determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

Section 28. USE OF PREMISES

28.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

28.2. Contractor shall provide and maintain in a neat, sanitary condition such accommodation for the use of his employees as may be necessary to comply with the regulations of the State Board of Health or other bodies having jurisdiction. He shall commit no public nuisance.

Section 29. SAFETY

29.1. The Contractor shall designate in writing the individual responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

29.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

29.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

29.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

29.2. The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by County has occurred.

29.3 The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.

29.4 The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in **Exhibit C** of this Agreement.

Section 30. PROJECT MEETINGS

Prior to the commencement of Work, the Contractor shall attend a pre-construction conference

with the County to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the County with respect to the Project, when directed to do so by County. Contractor shall have its subcontractors and suppliers attend all such meetings (including the pre-construction conference) as may be directed by the County.

EXHIBIT B
PERFORMANCE AND PAYMENT BOND

BOND NO. _____

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That

_____

_____

(Insert name, address, and phone number of contractor), as Principal, and

_____

_____

_____, (Insert full name, home office address and phone number of surety) as Surety, are held and firmly bound unto the Board of County Commissioners for Escambia County, Florida, 221 Palafox Place, Pensacola, Florida 32597-1591, (850) 595-4900, as Obligee in the sum of

_____

____ Dollars ($_____), for the payment whereof we bind ourselves, our heirs, executors, personal representatives, successors and assigns, jointly and severally, firmly by these present.

WHEREAS, Principal has entered into a contract dated as of the _____ day of_____, 20____, with Obligee for Contract No._____,_____

_____

_____

(Insert name of project, including legal description, street address of property and general description of improvement) in accordance with drawings and specifications, which contract is by reference made a part hereof, and is hereinafter referred to as the Contract.

THE CONDITION OF THIS BOND is that if Principal:

1. Performs the Contract at the times and in the manner prescribed in the Contract; and

2. Pays Obligee any and all losses, damages, costs and attorneys' fees that Obligee sustains because of any default by Principal under the Contract; and

3. Performs the guarantee of all work and materials furnished under the Contract applicable to the work and materials, then this bond is void; otherwise it remains in full force; and

4. Principal understands and agrees that this bond shall remain in full force and effect throughout the two (2) year warranty period after substantial completion of the work.

The Surety, for value received, hereby stipulates and agrees that no changes, extensions of time, alterations or additions to the terms of the Contract or other work to be performed hereunder, or the specifications referred to therein shall in anywise affect its obligation under this bond, and it does hereby waive notice of any such changes, extensions of time, alterations or additions to the terms of the Contract or to work or to the specifications.

This instrument shall be construed in all respects as a common law bond.

In no event will the Surety be liable in the aggregate to Obligee for more than the penalty sum of this Performance Bond, regardless of the number of suits that may be filed by Obligee.

IN WITNESS WHEREOF, the above parties have executed this instrument this _____ day of _____, 20____, the name and corporate seal of each corporate party being hereto affixed and these premises duly signed by its undersigned representative, pursuant to authority of its governing body.

PAYMENT BOND

BY THIS BOND, We, _____
(Insert name, address and phone number of contractor)
_____ (hereinafter called the "Principal") and

_____ (hereinafter called the "Surety"),
(Insert name)
located at _____, a surety insurer
(Insert address and phone number)
chartered and existing under the laws of the State of _____ and authorized to do business

in the State of Florida, are held and firmly bound unto the Board of County Commissioners for Escambia

County, Florida, 221 Palafox Place, Pensacola, Florida 32597-1591, (850) 595-4900, (hereinafter called

the "County") in the sum of _____ ($_____) for

payment of which we bind ourselves, our heirs, our personal representatives, our successors and our assignees, jointly and severally.

WHEREAS, Principal and County have reached a mutual agreement relating to Contract No._____

(hereinafter referred to as the "Contract") as of _____ (the bid award date for projects thereto)

for the purpose of _____

(Insert name of project, including legal description, street address of property and general description of improvement.)
_____

_____

_____

said Contract being made a part of this Bond by this reference.

NOW, THEREFORE, THE CONDITION OF THIS BOND IS THAT IF THE PRINCIPAL:

1. Performs the contract dated _____, _____, between Principal and County for construction of _____, the contract being made a part of this bond by reference, at the times and in the manner prescribed in the contract; and

2. Promptly makes payments to all claimants, as defined in Section 255.05(1), Florida Statutes, supplying Principal with labor, materials, or supplies, used directly or indirectly by Principal in the prosecution of the work provided for in the contract; and

3. Pays County all loses, damages, expenses, costs, and attorney's fees, including appellate proceedings, that the County sustains because of a default by Principal under the contract; and

4. Performs the guarantee of all work and materials furnished under the contract for the time specified in the contract, then this bond is void; otherwise it remains in full force.

Any action instituted by a claimant under this bond for payment must be in accordance with the

notice and time limitation provisions in Section 255.05(2), Florida Statutes.

BE IT FURTHER KNOWN:

1. Any changes in or under the Contract and compliance or noncompliance with any formalities connected with the said Contract or alterations which may be made in the terms of the said Contract, or in the work to be done under it, or the giving by the County of any extension of time for the performance of the said Contract, or any other forbearance on the part of the County or Principal to the other, shall not in any way release the Principal and the Surety, or either of them, their heirs, personal representatives, successors or assigns from liability hereunder, notice to the Surety of any such changes, alterations, extensions or forbearance being hereby waived.

2. Certain claimants seeking the protection of this Bond must timely comply with the strict requirements set forth in Section 255.05, Florida Statutes, and as otherwise provided by law.

3. As concerns payment for labor, materials and supplies, as affects certain claimants, no legal action shall be instituted against the Principal or Surety on this Bond after one (1) year from the performance of labor or the completion of delivery of the materials or supplies as is specifically mandated pursuant to Section 255.05, Florida Statutes.

THIS BOND DATED THE _____ DAY OF _____, 20____ (the date of issue by the Surety or by the Surety's agent and the date of such agents power-of-attorney).

EXHIBIT C
INSURANCE AND SAFETY

INSURANCE - BASIC COVERAGES REQUIRED

The Contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such on policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the Contract Documents, whether such services, work and operations be by the Contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The Contractor shall require, and shall be responsible for assuring throughout the time the Agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the Contractor. The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the Contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the Contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The Contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The Contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The Contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid

certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile And Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.
Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage
Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be

considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability policy.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of $1,000.
4. Designate Escambia County as the certificate holder as follows:
Escambia County
Attention: Paul R. Nobles, CPPO, CPPB, Purchasing Coordinator
Office of Purchasing
P.O. Box 1591
Pensacola, FL 32597-1591
Fax (850) 595-4805
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

MINIMUM PROJECT SAFETY REQUIREMENTS

The following safety requirements represent the minimum condition, which shall be met by all Contractors and subcontractors performing work for Escambia County: Reported or observed violations of Federal and State laws and regulations, or County ordinances shall be brought to the attention of the County project manager and County's Department of Safety and Risk Services and shall be immediately corrected by the Contractor. Additionally, the County may order work to be stopped if conditions exist that present immediate danger to persons or property. The Contractor acknowledges that any such stoppage will not shift responsibility for any damages from the Contractor to the County. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the County's Department of Safety and Risk Services for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

(1) Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the County a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

(2) The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including County and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

(3) The Contractor shall provide all necessary safety equipment for County staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

(4) Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of County staff, visitors, and the general public while operating work vehicles at a "controlled" construction site. Where conditions warrant, or at the request of the County, temporary barriers shall also be established for these traffic areas.

(5) The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to County staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE; ANYONE TRESPASSING ON THIS PROPERTY SHALL, UPON CONVICTION, BE GUILTY OF A FELONY; "A DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY," and other general safety warning signs, i.e., "HARD HAT AREA," as are deemed necessary by the Contractor and project manager.

(6) In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the County safety Office. Alternative measures may include, but are not limited to, working during "off 'hours such as nights, weekends, or holidays, or the

providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the County).

(7) The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the County's Department of Safety and Risk Services and the appropriate life safety code inspector), shall the life safety code components of an occupied facility be reduced or otherwise compromised.

A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor and County's Department of Safety and Risk Services as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

- When a project alters a building's fire protection compartment features, such as fire barriers, smoke barriers, or corridor walls, exits must provide free and unobstructed egress. Employees shall receive notice if any alternative exits have been designated. Buildings or areas under construction must maintain escape egress for construction workers at all times. These means of egress shall be inspected daily by the Contractor.

- When a project affects fire alarms, fire detection, or fire suppression systems, of a building that is occupied, the Contractor must ensure that such systems are not functionally impaired. Any temporary systems, which are installed, must be inspected and tested monthly by the Contractor. Employees must be notified when such temporary systems are in place.

- When any sources of ignition are present, such as welding torches, smoking by all persons shall be prohibited on any construction site and in any County facility.

(8) Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

(a) The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the County's Department of Safety and Risk Services. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

(b) Material Safety Data Sheets (MSDS) shall be provided to the County's Department of Safety and Risk Services for all hazardous substances used on the project or

brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

(c) Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

(d) The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

(9) The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing County 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

(10) The Contractor agrees and understands that all County construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or County regulatory agencies.

(11) The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

(12) Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

(13) Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior written approval from the County's Department of Safety and Risk Services shall be obtained before their use.

(14) The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic, cadmium, mercury, selenium), on the work site shall be avoided. Prior written approval for use of these metals shall be obtained by the Contractor from the County's Department of Safety and Risk Services.

(15) The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and County's Department of Safety and Risk Services for review.

(16) The County contracts out the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager and the County's Department of Safety and Risk Services.

(17) The above-cited guidelines represent minimum expectations and actions, which shall be taken by Contractors while under contract for County construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager and County's Department of Safety and Risk Services.

EXHIBIT D
RELEASE AND AFFIDAVIT

COUNTY OF ESCAMBIA
STATE OF FLORIDA

Before me, the undersigned authority, personally appeared _____, who after being duly sworn, deposes and says:

(1) In accordance with the Contract Documents and in consideration of $_____ paid, _____ ("Contractor") releases and waives for itself and its subcontractors, material men, successors and assigns, all claims demands, costs and expenses, whether in contract or in tort, against the Board of County Commissioners of Escambia County, Florida, ("County") relating in any way to the performance of the Agreement between Contractor and County dated _____, 20____, for the period from _____ to _____.

(2) Contractor certifies for itself and its subcontractors, material men, successors and assigns, that all charges for labor, materials, supplies, lands, licenses and other expenses for which County might be sued or for which a lien or a demand against any payment bond might be filed, have been fully satisfied and paid.

(3) Contractor agrees to indemnify, defend and save harmless County from all demands or suits, actions, claims of liens or other charges filed or asserted against the County arising out of the performance by Contractor of the Work covered by this Release and Affidavit.

(4) This Release and Affidavit is given in connection with Contractor's (monthly/final) Application for Payment No. _____.

To: _____
_____
_____
_____

Project Name: _____
You hereby are authorized and directed to make the following changes in accordance with terms and conditions of the Agreement:
Describe changes here;

	Dollars	Time in Calendar Days
Original Contract Amount	**$**_____	_____
Sum of Previous Changes	**$**_____	_____
This Change Order	**$**_____	_____

Adjusted Agreement Amount	**$**_____	_____

The contract substantial completion date will be **increased/decreased** by ___ calendar days due to this Change Order. The new contract substantial completion date is _____. Your acceptance of this Change Order shall constitute a modification to our Agreement and will be performed subject to all the same terms and conditions in our Agreement indicated above, as fully as if the same were repeated in this acceptance.

The adjustment, if any, to this Agreement shall constitute a full and final settlement of any and all claims arising out of or related to the change set forth herein, including claims for impact and delay cost.

The Contract Administrator has directed the Contractor to increase the penal sum of the existing Performance and Payment Bonds or to obtain additional bonds on the basis of a $25,000.00 or greater value Change Order.

□ Check if applicable and provide written confirmation from the bonding company/agent (attorney-in-fact) that the amount of the Performance and Payment bonds have been adjusted to 100% of the new contract amount.

EXHIBIT G
PAYMENT ADJUSTMENT - BITUMINOUS MATERIALS.

1. The bid unit price for Bituminous Material will be adjusted to reflect changes, both increases and decreases, in the Asphalt Index price of bituminous material from that in effect during the month in which bids were received for this contract. The Contractor will not be given the option to reject this cost adjustment of Bituminous Materials. This adjustment will be made in accordance with the following criteria:

1.1. Price adjustments will apply only to the price of bituminous material F. O. B. manufacturer's asphalt terminal and will not reflect variations in the cost of transportation from the terminal to the job site.

1.2. Price adjustments will be made for all bituminous material incorporated into asphalt pavement whether paid for under a separate bid item or under other items, which include the cost of bituminous material.

1.3. Price adjustments will not be made until the semi-final or final payment is made on the contract. The bid unit price for bituminous material will be used in preparing monthly progress payments.

1.4. No price adjustment reflecting any further increases in the cost of bituminous material will be made for any month after expiration of the allowable contract time, including any extensions that may be granted.

1.5. The adjusted unit price shall be calculated for the month during which the material was incorporated into the project in accordance with the following formula:

Pa ' PbX(Id-Ib) where:

Pa ' Adjusted unit price for Bituminous Material. (To be calculated separately for each month during which bituminous material is used and will reflect an increased or decreased price.)

Pb ' Bid unit price for Bituminous Material.

Id ' Asphalt Price Index during the month in which the material is incorporated into the project.

Ib ' Asphalt Price Index during the month in which bids were received for this contract.

1.6. The County will determine the Asphalt Price Index for each month. The Index shall be determined by averaging quotations in effect on the first day of the month at all terminals, which could reasonably be expected to furnish bituminous material to projects in the State of Florida.

1.7. A price adjustment will be made only when the current Asphalt Price Index varies by 5% or more from the Index that was applicable when bids were received or 5% or more from when the last previous adjustment was made.

The Asphalt Price Index to be used by the County will be that used by the Florida Department of Transportation, as available from them after the 15th of each month.

GENERAL NOTES:

1. THE CONTRACTORS SHALL NOTIFY THE COUNTY DESIGN ENGINEER OR DESIGNEE 48 HOURS PRIOR TO CONSTRUCTION.
2. ALL CONDITIONS AND STIPULATIONS OF THE CONSTRUCTION PERMITS AND THE APPROVALS ISSUED BY THE ESCAMBIA COUNTY ENGINEER SHALL BE COMPLIED WITH IN EVERY DETAIL.
3. ALL ROADS DAMAGED BY CONSTRUCTION OPERATIONS ARE TO BE PATCHED OR RECONSTRUCTED AS DIRECTED BY THE COUNTY ENGINEER OR DESIGNEE.
4. THE CONTRACTOR SHALL TAKE STEPS NECESSARY TO PREVENT EROSION AND ANY OFF SITE SEDIMENT TRANSPORT RESULTING FROM INCREASED RUNOFF DURING CONSTRUCTION BY PROVIDING SILT FENCE AND/OR STAKED HAY BALES AS REQUIRED BY FDOT INDEX 102, THE FLORIDA STORMWATER, EROSION, AND SEDIMENT CONTROL INSPECTOR'S MANUAL, 2000 EDITION, OR AS INDICATED ON THE PLANS. ALL EROSION CONTROL MEASURES SHALL REMAIN IN PLACE UNTIL ASSOCIATED DISTURBED AREAS ARE STABILIZED AS TO REDUCE SEDIMENT RUNOFF, UNLESS OTHERWISE DIRECTED BY THE ENGINEER OR DESIGNEE.
5. ANY NECESSARY PERMITS WILL BE THE RESPONSIBILITY OF THE CONTRACTOR. ESCAMBIA COUNTY OR ITS DESIGNEE WILL ASSIST CONTRACTOR WITH REQUIRED PERMITS.
6. THE CONTRACTOR IS CAUTIONED TO VISIT THE SITE AND FAMILIARIZE HIMSELF WITH THE PROJECT PRIOR TO BIDDING AND/OR CONSTRUCTION.
7. IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO PRESERVE OR RELOCATE ALL BENCHMARKS (VERTICAL CONTROL) AS NEEDED DURING CONSTRUCTION. ALL PUBLIC OR PRIVATE CORNER MONUMENTATION SHALL BE PROTECTED. IF A PUBLIC OR PRIVATE CORNER MONUMENTATION IS IN DANGER OF BEING DESTROYED AND HAS NOT BEEN PROPERLY REFERENCED, THE CONTRACTOR SHALL NOTIFY THE ENGINEER OR DESIGNEE IMMEDIATELY. ANY ESCAMBIA COUNTY HARN/GPS NETWORK MONUMENTS OR BUREAU OF SURVEY AND MAPPING GPS NETWORK MONUMENTS WITHIN THE LIMITS OF CONSTRUCTION SHALL BE PROTECTED. IF A HARN/GPS NETWORK MONUMENTS OR BUREAU OF SURVEY AND MAPPING GPS NETWORK MONUMENTS ARE DISTURBED OR DESTROYED THE CONTRACTOR SHALL BE RESPONSIBLE FOR RELACEMENT OF THE MONUMENTS AND HAVE THE MONUMENTS POSITION DETERMINED BY A FLORIDA LICENSED PROFESSIONAL SURVEYOR AND MAPPER USING GUIDELINES AS ESTABLISHED BY NATIONAL GEODETIC SURVEY FOR BLUE BOOKING AND APPROVAL.
8. EXISTING DRAINAGE FEATURES WITHIN CONSTRUCTION LIMITS SHALL REMAIN UNLESS OTHERWISE NOTED.
9. THE CONTRACTOR SHALL MATCH EXISTING CONDITIONS AT THE BEGINNING AND END OF CONSTRUCTION AS DIRECTED BY THE COUNTY ENGINEER OR DESIGNEE.
10. EXISTING STREETS AND DRIVES SHALL BE MAINTAINED TO LOCAL TRAFFIC AND PROPERTY OWNERS.
11. ALL ROADWAY CONSTRUCTION SHALL COMPLY WITH THE ESCAMBIA COUNTY TECHNICAL SPECIFICATIONS, LATEST EDITION.
12. ALL MATERIALS, TESTING AND CONSTRUCTION METHODS SHALL CONFORM TO THE ESCAMBIA COUNTY TECHNICAL SPECIFICATIONS, LATEST EDITION.
13. ANY REFERENCE TO FDOT STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION, DIVISION 1, GENERAL REQUIREMENTS AND COVENANTS, SHALL BE EXCLUDED AND NOT APPLICABLE TO ANY SPECIFICATION REFERRED HEREIN OR OTHERWISE LISTED IN THESE PLANS OR RELATED DOCUMENTS OR THE ESCAMBIA COUNTY TECHNICAL SPECIFICATIONS.
14. EXISTING STREET AND ROAD NAME SIGNS ON THE PROJECT SHALL BE KEPT VISIBLE AT ALL TIMES FOR THE FACILITATION OF ACCESS BY EMERGENCY VEHICLES. ALL OTHER EXISTING SIGNS THAT CONFLICT WITH CONSTRUCTION OPERATIONS SHALL BE TAKEN DOWN AND STOCKPILED WITHIN THE R/W LIMITS BY THE CONTRACTOR AS DIRECTED BY THE COUNTY ENGINEER OR DESIGNEE. ANY EXISTING SIGNS THAT ARE TO BE RELOCATED AND ARE DAMAGED BEYOND USE BY THE CONTRACTOR SHALL BE REPLACED BY THE CONTRACTOR AT HIS EXPENSE.
15. THE CONTRACTOR SHALL MAINTAIN AT LEAST ONE 10' OPEN LANE AT ALL TIMES. NO OPEN EXCAVATION SHALL REMAIN OVER NIGHT. CONTRACTOR SHALL RESTORE ROAD TO TWO LANES OF TRAFFIC AT THE END OF EACH WORK DAY.
16. CONTRACTOR SHALL COMPLY WITH ALL F.D.E.P. AND ARMY CORP. OF ENGINEERS REQUIREMENTS.
17. ONLY ACCESS TO THE ROAD R/W AS SHOWN IS GUARANTEED BY THE COUNTY. PRIVATE R/W REQUIRED BY THE CONTRACTOR TO FACILITATE CONSTRUCTION SHALL BE ACQUIRED BY THE CONTRACTOR WITH NO ADDITIONAL COMPENSATION OR ASSISTANCE FROM THE COUNTY.
18. IN THE EVENT THAT SURVEY MONUMENTATION OR REFERENCE POINTS ARE MISSING OR HAVE BEEN DESTROYED, PLEASE CONTACT:

    JOSEPH BARRETT
    PROFESSIONAL SURVEYOR & MAPPER
    ESCAMBIA COUNTY ENGINEERING
    3363 WEST PARK PLACE
    PENSACOLA, FLORIDA 32505
    PH (850) 595-3472

19. VEGETATION ON R/W AND EASEMENTS SHALL BE RESTORED TO ORIGINAL CONDITION UNLESS OTHERWISE NOTED ON THE PLAN SHEETS. COST OF SAID RESTORATION SHALL BE CONSIDERED INCIDENTAL TO OTHER PAY ITEMS.
20. GRADED AGGREGATE BASE SHALL BE REQUIRED WHERE THE SEASONAL HIGH GROUND WATER ENCROACHES WITHIN TWO (2) FEET OF THE BOTTOM OF BASE.
21. ALL TREES WITHIN LIMITS OF CONSTRUCTION SHALL BE REMOVED UNLESS OTHERWISE NOTED IN PLANS.
22. ALL COMPACTED FILL SHALL BE PLACED IN 4" LIFTS FOR HAND POWERED TAMPERS AND 8" LIFTS FOR HEAVY EQUIPMENT OPERATED TAMPERS.
23. MAINTENANCE OF TRAFFIC AS PER FDOT INDEX 600.
24. ALL SPEED BUMPS THAT ARE DISTURBED DURING CONSTRUCTION SHALL BE REPLACED TO THE LATEST ESCAMBIA COUNTY DESIGN SPECIFICATIONS. ALL COSTS FOR REPLACEMENT OF SAID SPEED BUMPS SHALL BE INCIDENTAL TO OTHER ITEMS AND NO ADDITIONAL COMPENSATION SHALL BE CONSIDERED.
25. ALL EXISTING MAILBOXES INTERFERING WITH NEW CONSTRUCTION SHALL BE RELOCATED OR REPLACED BY THE CONTRACTOR IN ACCORDANCE WITH POSTAL REQUIREMENTS AND IN ACCORDANCE WITH ESCAMBIA COUNTY TECHNICAL SPECIFICATION, FDOT DESIGN STANDARDS AND UNITED POSTAL REQUIREMENTS. ALL EXISTING BRICK MAILBOXES WITHIN LIMITS OF CONSTRUCTION OR COUNTY RIGHT OF WAY SHALL BE REMOVED AND PLACED ON THE PROPERTY LINE OF THE OWNER. CONTRACTOR SHALL REPLACE EXISTING BRICK MAILBOX WITH APPROVED PLASTIC BREAK AWAY MAILBOX.
26. THE CONTRACTOR SHALL, AT A MINIMUM, MATCH EXISTING SIGNING AND PAVEMENT MARKINGS. ALL SIGNING AND PAVEMENT MARKINGS SHALL BE PLACED IN ACCORDANCE WITH THE LATEST FDOT DESIGN STANDARDS. THE CONTRACTOR SHALL CONTACT THE COUNTY TRAFFIC DEPARTMENT PRIOR TO INSTALLATION OF ANY SIGNING AND PAVEMENT MARKINGS.
27. WHERE UNSUITABLE MATERIAL, AS DEFINED BY THE COUNTY SPECIFICATIONS SECTION 02300, 1.3(I), IS ENCOUNTERED IN THE AREAS PROPOSED FOR PAVING, THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE COUNTY ENGINEER OR DESIGNEE PRIOR TO ANY EXCAVATION.
28. PIPE LENGTHS SHOWN IN THE PLANS DO NOT INCLUDE THE LENGTH OF PIPE THAT MUST BE INSTALLED WITH THE MITERED END SECTION. THEREFORE, ALL PIPES LENGTHS ASSOCIATED WITH MITERED END SECTIONS SHALL BE PAID FOR IN THE UNIT COST OF THE MITERED END SECTION.
29. IF ARCHAEOLOGICAL MATERIAL/PREHISTORIC ARTIFACTS SUCH AS POTTERY OR CERAMICS, STONE TOOLS OR METAL IMPLEMENTS, OR ANY OTHER PHYSICAL REMAINS THAT COULD BE ASSOCIATED WITH NATIVE AMERICAN CULTURES, OR EARLY COLONIAL OR AMERICAN SETTLEMENT ARE ENCOUNTERED AT ANY TIME, THE PROJECT SHOULD CEASE ALL ACTIVITIES INVOLVING SUBSURFACE DISTURBANCE IN THE IMMEDIATE VICINITY OF SUCH DISCOVERIES. THE APPLICANT/RECIPIENT, OR OTHER DESIGNEE, SHOULD CONTACT THE FLORIDA DEPARTMENT OF STATE, DIVISION OF HISTORICAL RESOURCES, THE STATE HISTORIC PRESERVATION OFFICER (SHPO) AND THE DSH/FEMA REGION IV ENVIRONMENTAL OFFICER AND FDEM STATE ENVIRONMENTAL LIAISON OFFICER FOR FURTHER GUIDANCE. PROJECT ACTIVITIES SHOULD NOT RESUME WITHOUT WERBAL AND/OR WRITTEN AUTHORIZATION FROM THE DIVISION OF HISTORICAL RESOURCES.
30. IN THE EVENT THAT UNMARKED HUMAN REMIANS ARE ENCOUNTERED DURING PERMITTED ACTIVITIES, ALL WORK MUST STOP IMMEDIATELY AND THE PROPER AUTHORITIES NOTIFIED IN ACCORDANCE WITH F.S. 872.05.

UTILITY NOTES:

1. THE LOCATION SHOWN FOR EXISTING UNDERGROUND UTILITIES IS APPROXIMATE. THE CONTRACTOR SHALL DETERMINE THE EXACT LOCATION OF ALL EXISTING UTILITIES BEFORE COMMENCING WORK IN EACH AREA. THE CONTRACTOR AGREES TO BE COMPLETELY RESPONSIBLE FOR ALL DAMAGES WHICH MIGHT OCCUR BY HIS FAILURE TO EXACTLY LOCATE AND PRESERVE ALL UTILITIES.
2. UTILITY OWNERS SHALL BE NOTIFIED AT LEAST 48 HOURS PRIOR TO ANY CONSTRUCTION SO THAT THE UTILITY OWNER CAN SPOT VERIFY AND/OR EXPOSE THEIR UTILITIES.
   KNOWN UTILITIES OWNERS INCLUDE:

UTILITY CONTACTS

3. AT&T FLORIDA WILL COMPLETE ALL WORK DURING THE HOURS OF 7:30 AM - 4:30 PM, MONDAY THRU FRIDAY. NO NIGHT OR WEEKEND WORK.
4. ALL CABLE DAMAGE MUST BE REPORTED TO THE ATT FLORIDA REPAIR SERVICE DEPARTMENT AT 611 FROM A LAND LINE OR 877-737-2478 IF USING A CELL PHONE.
5. ALL LOOP DETECTOR INSTALLATION SHALL BE DONE AS PER FDOT INDEX 17781.
6. CONTRACTOR IS TO USE CAUTION WHEN WORKING IN OR AROUND AREAS OF OVERHEAD TRANSMISSION LINES AND UNDERGROUND UTILITIES.
7. UTILITIES TO REMAIN AND BE PROTECTED DURING CONSTRUCTION. NECESSARY REPAIRS SHALL BE CONSIDERED INCIDENTAL TO OTHER PAY ITEMS AND SHALL BE TO THE SATISFACTION OF UTILITY OWNERS.

PROJECT SPECIFIC NOTES:

1. STORMWATER PIPE SYSTEM TO BE INSTALLED FROM WEST TO EAST TO ALLOW FOR SIMULTANEOUS INSTALLATION OF SANITARY SEWER FORCEMAIN AND GAS MAIN INSTALLATIONS. TANGLEWOOD SUBDIVISION & BUCKLAND DRIVE ARE TO REMAIN IN SERVICE THROUGHOUT CONSTRUCTION.
2. WHEN BACKFILLING, STORMWATER PIPE CONTRACTOR TO LEAVE A COMMON TRENCH 36" BELOW FINISHED GRADE. UTILITY CONTRACTORS TO COMPLETE BACKFILL ONCE ALL UTILITIES ARE IN PLACE.
3. CONTRACTOR TO COORDINATE WITH PENSACOLA ENERGY FOR COMMON TRENCH TIMING.
4. STORMWATER POLLUTION PREVENTION PLAN TO BE IMPLEMENTED PRIOR TO ANY WORK IN THE R/W IN ACCORDANCE WITH THE LATEST FDOT DESIGN STANDARDS.
5. ALL CONCRETE IS TO BE 3000 PSI UNLESS OTHERWISE NOTED ON PLAN.
6. ALL DISTURBED AREAS ARE TO BE STABILIZED WITH SOLID SOD.
7. CONTRACTOR TO COORDINATE WITH GULF POWER FOR POLE SHORING TIMING.

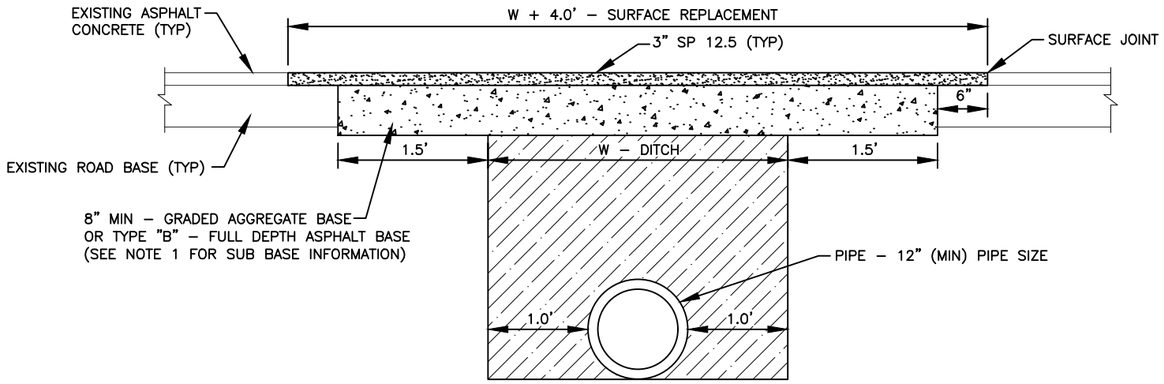
CUT & PATCH NOTES:

1. PATCH WORK SUB BASE MATERIAL TO BE PLACED IN 8" LAYERS (MAX). EACH LAYER TO BE TAMPED TO A MINIMUM OF 40 LBR

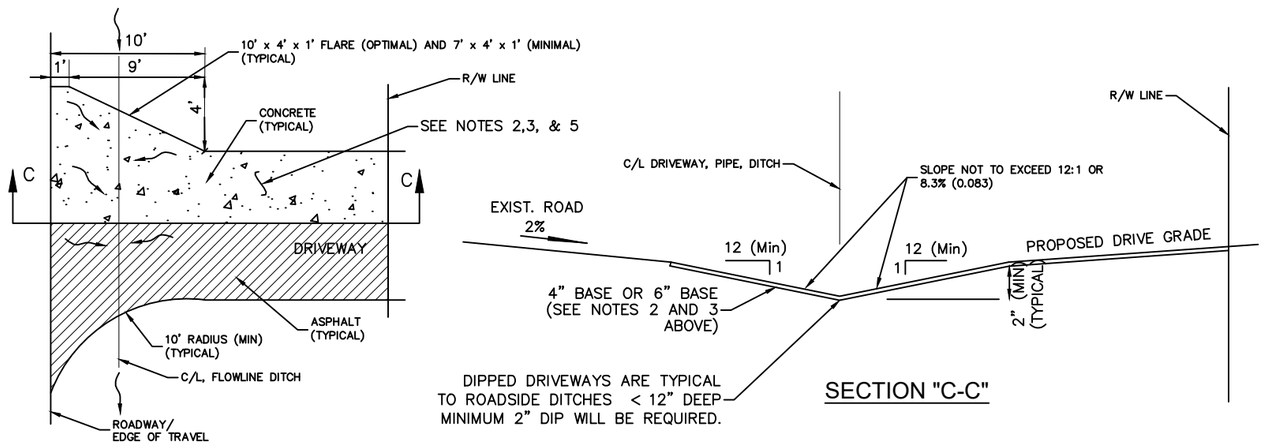
2. ROAD CUTS SHALL BE MECHANICALLY SAW CUT TO FORM A SURFACE PAVEMENT JOINT AND TACK COATED ALONG THE FACE OF CUT JOINTS PRIOR TO ASPHALT PLACEMENT

3. LONGITUDINAL ROAD CUTS OF LESS THAN ONE–HALF PAVEMENT WIDTH TO BE PATCHED SAME AS LATERAL PATCH. LONGITUDINAL ROAD CUTS ONE–HALF OR GREATER TO BE PATCHED WITH SAME BASE MATERIAL AND ENTIRE ROAD WIDTH RESURFACED.

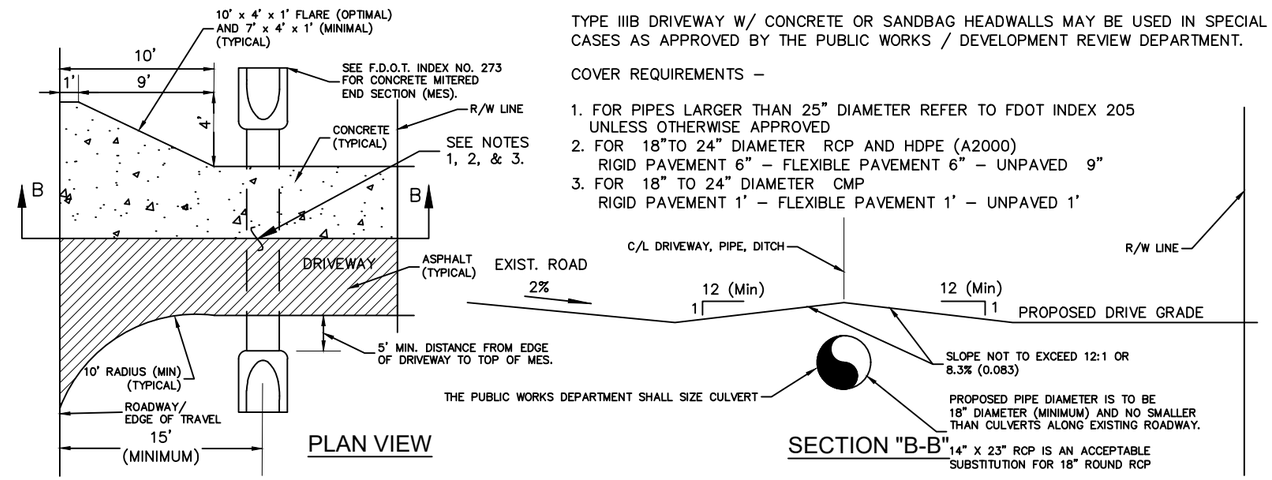


ASPHALT CUT & PATCH DETAIL
FOR LATERAL CUTS
N.T.S.

TYPE II DIPPED DRIVEWAY WITHOUT CROSS PIPE (CULVERT)



TYPE III-A CROSS PIPE (CULVERT) DRIVEWAY



NOTES:

TYPE IIIB DRIVEWAY W/ CONCRETE OR SANDBAG HEADWALLS MAY BE USED IN SPECIAL CASES AS APPROVED BY THE PUBLIC WORKS / DEVELOPMENT REVIEW DEPARTMENT.

COVER REQUIREMENTS –

1. FOR PIPES LARGER THAN 25" DIAMETER REFER TO FDOT INDEX 205 UNLESS OTHERWISE APPROVED
2. FOR 18"TO 24" DIAMETER RCP AND HDPE (A2000) RIGID PAVEMENT 6" – FLEXIBLE PAVEMENT 6" – UNPAVED 9"
3. FOR 18" TO 24" DIAMETER CMP RIGID PAVEMENT 1' – FLEXIBLE PAVEMENT 1' – UNPAVED 1'

DRIVEWAY NOTES:

1) ALL MATERIALS AND LABOR FOR INSTALLATION WILL BE THE RESPONSIBILITY OF THE PROPERTY OWNER/CONTRACTOR.

2) DRIVEWAYS ABUTTING PAVED ROADS SHALL BE 4" TO 6" CONCRETE WITH 4" STABILIZED SUB GRADE – 95% COMPACTION (MODIFIED PROCTOR) WITH LBR 40 BETWEEN EDGE OF ROADWAY AND R/W LINE. COMPACTION AND TESTING IF NECESSARY, THIS WILL BE THE RESPONSIBILITY OF THE OWNER/CONTRACTOR.

3) IF NECESSARY, REFER TO FDOT INDEX DETAILS AS REFERENCED BELOW.

4) RADIUS OR FLARE IS REQUIRED FOR TYPE II OR TYPE III CONNECTIONS. SEE DETAIL.

5) TYPICAL DRIVEWAY SECTIONS ARE TO BE 12' WIDE MINIMUM.

50 mph or greater	500	500

*Midway between signs.

SYMBOLS

Work Area

Channelizing Device (See Index 102-600)

Work Zone Sign

Lane Identification + Direction of Traffic

GENERAL NOTES

1. When four or more work vehicles enter the through traffic lanes in a one hour period or less (excluding establishing and terminating the work area), the advanced FLAGGER sign shall be substituted for the WORKERS sign. For location of flaggers and FLAGGER signs, see Index 102-603.
2. SHOULDER WORK sign may be used as an alternate to the WORKER symbol sign only on the side where the shoulder work is being performed.
3. When a side road intersects the highway within the TTC zone, additional TTC devices shall be placed in accordance with other applicable TCZ Indexes.
4. For general TCZ requirements and additional information, refer to Index 102-600.

DURATION NOTES

1. Signs and channelizing devices may be omitted if all of the following conditions are met:
   a. Work operations are 60 minutes or less.
   b. Vehicles in the work area have high-intensity, rotating, flashing, oscillating, or strobe lights operating.

CONDITIONS

WHERE ANY VEHICLE, EQUIPMENT, WORKERS OR THEIR ACTIVITIES ENCROACH THE AREA CLOSER THAN 15' BUT NOT CLOSER THAN 2' TO THE EDGE OF TRAVEL WAY.

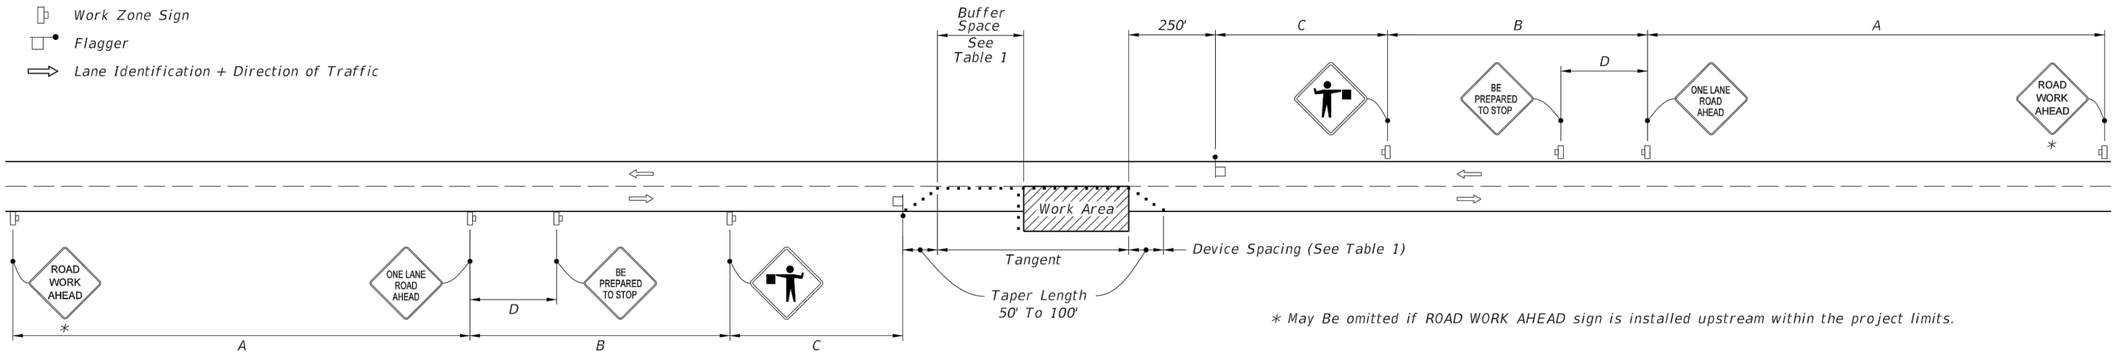
SYMBOLS:

- *Work Area*
- *Channelizing Device (See Index 102-600)*
- *Work Zone Sign*
- *Flagger*
- *Lane Identification + Direction of Traffic*



* May Be omitted if ROAD WORK AHEAD sign is installed upstream within the project limits.

WITHOUT TEMPORARY RAISED RUMBLE STRIPS

GENERAL NOTES:

1. Special Conditions may be required in accordance with these notes and the following sheets:

   A. Railroad Crossings:
      a. If an active railroad crossing is located closer to the Work Area than the queue length plus 300 feet, extend the Buffer Space as shown on Sheet 3.
      b. If the queuing of vehicles across an active railroad crossing cannot be avoided, provide a uniformed traffic control officer or flagger at the highway-rail grade crossing to prevent vehicles from stopping within the highway-rail grade crossing, even if automatic train warning devices are in place.
   B. If the Work Area encroaches on the Centerline, use the Layout for Temporary Lane Shift to Shoulder on Sheet 3 only if the Existing Paved Shoulder width is sufficient to provide for an 11' lane between the Work Area and the Edge of Existing Paved Shoulder. Reduce the posted speed when appropriate.

2. Temporary Raised Rumble Strips:

   A. Use when both of the following conditions are met concurrently:
      a. Existing Posted Speed is 55 mph or greater;
      b. Work duration is greater than 60 minutes.
   B. Use a consistent Strip color throughout the work zone.
   C. Place each Rumble Strip Set transversely across the lane at locations shown.
   D. Use Option 1 or Option 2 as shown on Sheet 2. Use only one option throughout work zone.

3. Additional one-way control may be provided by the following means:
   A. Flag-carrying vehicle;
   B. Official vehicle;
   C. Pilot vehicles;
   D. Traffic signals.

   When flaggers are the sole means of one-way control, the flaggers must be in sight of each other or in direct communication at all times.

4. When a side road intersects the highway within the TTC zone, place additional TTC devices in accordance with other applicable TCZ Indexes.

5. The two channelizing devices directly in front of the work area may be omitted provided vehicles in the work area have high-intensity rotating, flashing, oscillating, or strobe lights operating.

6. When Buffer Space cannot be attained due to geometric constraints, use the greatest attainable length, not less than 200 ft, for posted speeds greater than 25 mph.

7. ROAD WORK AHEAD and the BE PREPARED TO STOP signs may be omitted if all of the following conditions are met:

   A. Work operations are 60 minutes or less.
   B. Speed limit is 45 mph or less.
   C. There are no sight obstructions to vehicles approaching the work area for a distance equal to the Buffer Space shown in Table 1.
   D. Vehicles in the work area have high-intensity, rotating, flashing, oscillating, or strobe lights operating.
   E. Volume and complexity of the roadway has been considered.
   F. If a railroad crossing is present, vehicles will not queue across rail tracks.
   G. AFADs are not in use.

8. See Index 102-600 for general TCZ requirements and additional information.

9. Automated Flagger Assistance Devices (AFADs) may be used in accordance with Specifications Section 102, 990 and the APL vendor drawings.

SECTION 01000 – DEFINITIONS

PART 1 - GENERAL

The following terms, when used in the Contract Documents, have the meaning described

Advertisement
The public announcement, as required by law, inviting bids for work to be performed or materials to be furnished, usually issued as “Notice to Contractors,” or “Notice to Bidders.”

Bidder
An individual, firm, or corporation submitting a proposal for the proposed work.

Bridge
A structure, including supports, erected over a depression or over an obstruction such as water, highway or railway, or for elevated roadway, for carrying traffic or other moving loads, and having a length, measured along the center of the roadway, of more than 20 feet between the inside faces of end supports. A multiple-span box culvert is considered a bridge, where the length between the extreme ends of the openings exceeds 20 feet.

Calendar day
Every day shown on the calendar, ending and beginning at midnight.

Contract
The term “Contract” means the entire and integrated agreement between the parties there under and supersedes all prior negotiations, representations, or agreements, either written or oral. The Contract Documents form the Contract between the County and the Contractor setting forth the obligations of the parties thereunder, including, but not limited to, the performance of the Work and the basis of payment.

Contract Documents
The term “Contract Documents” includes: Advertisement for Proposal, Proposal, Certification as to Publication and Notice of Advertisement for Proposal, Appointment of Agent by Nonresident Contractors, Noncollusion Affidavit, Warranty Concerning Solicitation of the Contract by Others, Resolution of Award of Contract, Executed Form of Contract, Performance Bond and Payment Bond, Specifications, plans (including revisions thereto issued during construction), Addenda, or other information mailed or otherwise transmitted to the prospective bidders prior to the receipt of bids, work orders and supplemental agreements, all of which are to be treated as one instrument whether or not set forth at length in the form of contract.

Contract Bond
The security furnished by the Contractor and the surety as a guaranty that the Contractor shall fulfill the terms of the Contract and pay all legal debts pertaining to the construction of the project.

Contract Letting
The date that the County opened the bid proposals.

Contract Time
The number of calendar days allowed for completion of the Contract work, including authorized time extensions.

Contractor
The individual, firm, joint venture, or company contracting with the County to perform the work.

Contractor's Engineer of Record
A Professional Engineer registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, who undertakes the design and drawing of components of the permanent structure as part of a redesign or Cost Savings Initiative Proposal, or for repair designs and details of the permanent work. The Contractor's Engineer of Record may also serve as the Specialty Engineer. The Contractor's Engineer of Record must be an employee of a pre-qualified firm. Any Corporation or Partnership offering engineering services must hold a Certificate of Authorization from the Florida Department of Business and Professional Regulation.

As an alternate to being an employee of a pre-qualified firm, the Contractor's Engineer of Record may be a pre-qualified Specialty Engineer. For items of the permanent work declared by the State Construction Office to be "major" or "structural", the work performed by a prequalified Specialty Engineer must be checked by another pre-qualified Specialty Engineer. An individual Engineer may become pre-qualified in the work groups listed in the Rules of the Department of Transportation, Chapter 14-75, if the requirements for the Professional Engineer are met for the individual work groups. Pre-qualified Specialty Engineers are listed on the State Construction Website. Pre-qualified Specialty Engineers will not be authorized to perform redesigns or Cost Savings Initiative Proposal designs of items fully detailed in the plans.

Controlling Work Items
The activity or work item on the critical path having the least amount of total float. The controlling item of work will also be referred to as a Critical Activity.

County
Escambia County Public Works Department

Culverts
Any structure not classified as a bridge that provides an opening under the roadway.

Delay
Any unanticipated event, action, force or factor which extends the Contractor's time of performance of any controlling work item under the Contract. The term "delay" is intended to cover all such events, actions, forces or factors, whether styled "delay", "disruption", "interference", "impedance", "hindrance", or otherwise, which are beyond the control of and not caused by the Contractor, or the Contractor's subcontractors, materialmen, suppliers or other agents. This term does not include "extra work".

Department
Escambia County.

Developmental Specification See definition for Specifications.

Engineer
The Professional Engineer, registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, acting as the project's Construction Engineering Inspection Manager. The Engineer may be County in-house staff or a consultant retained by the County

Engineer of Record
The Professional Engineer or Engineering Firm registered in the State of Florida that develops the criteria and concept for the project, performs the analysis, and is responsible for the preparation of the Plans and Specifications. The Engineer of Record may be County in-house staff or a consultant retained by the County.

The Contractor shall not employ the Engineer of Record as the Contractor’s Engineer of Record or as a Specialty Engineer.

Equipment
The machinery and equipment, together with the necessary supplies for upkeep and maintenance thereof, and all other tools and apparatus necessary for the construction and acceptable completion of the work.

Extra Work
Any “work” which is required by the Engineer to be performed and which is not otherwise covered or included in the project by the existing Contract Documents, whether it be in the nature of additional work, altered work, deleted work, work due to differing site conditions, or otherwise. This term does not include a “delay”.

Highway, Street, or Road
A general term denoting a public way for purposes of vehicular travel, including the entire area within the right-of-way.

Holidays
Days designated by the Board of County Commissioners as holidays, which include, but are not limited to, New Year’s Day, Martin Luther King’s Birthday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and the following Friday, and Christmas Day.

Inspector
An authorized representative of the County, assigned to make official inspections of the materials furnished and of the work performed by the Contractor.

Laboratory
The testing laboratory used by the Contractor.

Major Item of Work

Any item of work having an original Contract value in excess of 5% of the original Contract amount.

Materials
Any substances to be incorporated in the work under the Contract.

Median
The portion of a divided highway or street separating the traveled ways for traffic moving in opposite directions.

Plans
The approved plans, including reproductions thereof, showing the location, character, dimensions, and details of the work.

Proposal (Bid, Bid Proposal)
The offer of a bidder, on the prescribed form, to perform the work and to furnish the labor and materials at the prices quoted.

Proposal Form
The official form or the expedite program generated bid item sheets on which the County requires formal bids to be prepared and submitted for the work.

Proposal Guaranty
The security furnished by the bidder as guaranty that the bidder will enter into the Contract for the work if the County accepts the proposal.

Right-of-Way
The land that the County has title to, or right of use, for the road and its structures and appurtenances, and for material pits furnished by the County.

Roadbed
The portion of the roadway occupied by the subgrade and shoulders.

Roadway
The portion of a highway within the limits of construction.

Section
A numbered prime division of these Specifications.

Special Provisions
See definition for Specifications.

Specialty Engineer
A Professional Engineer registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, who undertakes the design and drawing preparation of components, systems, or installation methods and equipment for specific temporary portions of the project work or for special items of the permanent works not fully detailed in the plans and required to be furnished by the Contractor such as but not limited to pot bearing designs, nonstandard expansion joints, MSE wall designs and

other specialty items. The Specialty Engineer may also provide designs and details for items of the permanent work declared by the State Construction Office to be “minor” or “non-structural”. The Specialty Engineer may be an employee or officer of the Contractor or a fabricator, an employee or officer of an entity providing components to a fabricator, or an independent consultant. For items of work not specifically covered by the Rules of the Department of Transportation, a Specialty Engineer is qualified if he has the following qualifications:

Registration as a Professional Engineer in the State of Florida.
The education and experience necessary to perform the submitted design as required by the Florida Department of Business and Professional Regulation.

Specifications
The directions, provisions, and requirements contained herein, together with all stipulations contained in the Contract Documents, setting out or relating to the method and manner of performing the work, or to the quantities and qualities of materials and labor to be furnished under the Contract.

Standard Specifications: “Standard Specifications for Road and Bridge Construction” a bound book, applicable to all FDOT Contracts containing adopted requirements, setting out or relating to the method or manner of performing work, or to the quantities and qualities of materials and labor.

Supplemental Specifications: Approved additions and revisions to the Standard Specifications, applicable to all Department Contracts.

Special Provisions: Specific clauses adopted by the Department that add to or revise the Standard Specifications or supplemental specifications, setting forth conditions varying from or additional to the Standard Specifications applicable to a specific project.

Technical Special Provisions: Specifications, of a technical nature, prepared, signed, and sealed by an Engineer registered in the State of Florida other than the State Specifications Engineer or his designee, that are made part of the Contract as an attachment to the Contract Documents.

Developmental Specification: A specification developed around a new process, procedure, or material.

Standard Specifications
See definition for Specifications.

State
State of Florida.

Subarticle
A headed and numbered subdivision of an Article of a Section of these Specifications.

Subgrade
The portion of the roadbed immediately below the base course or pavement, including

below the curb and gutter, valley gutter, shoulder and driveway pavement. The subgrade limits ordinarily include those portions of the roadbed shown in the plans to be constructed to a design bearing value or to be otherwise specially treated. Where no limits are shown in the plans, the subgrade section extends to a depth of 12 inches below the bottom of the base or pavement and outward to 6 inches beyond the base, pavement, or curb and gutter.

Substructure
All of that part of a bridge structure below the bridge seats, including the parapets, backwalls, and wingwalls of abutments.

Superintendent
The Contractor's authorized representative in responsible charge of the work.

Superstructure
The entire bridge structure above the substructure, including anchorage and anchor bolts, but excluding the parapets, backwalls, and wingwalls of abutments.

Supplemental Agreement
A written agreement between the Contractor and theCounty, and signed by the surety, modifying the Contract within the limitations set forth in these Specifications.

Supplemental Specifications See definition for Specifications.

Surety
The corporate body that is bound by the Contract Bond with and for the Contractor and responsible for the performance of the Contract and for payment of all legal debts pertaining thereto.

Technical Special Provisions See definition for Specifications.

Traveled Way
The portion of the roadway providing for the movement of vehicles, exclusive of shoulders and auxiliary lanes.

Unilateral Payment
A payment of money made to the Contractor by the Department pursuant to Section 337.11(12), Florida Statutes (2009), for sums the Department determines to be due to the Contractor for work performed on the project, and whereby the Contractor by acceptance of such payment does not waive any rights the Contractor may otherwise have against the Department for payment of any additional sums the Contractor claims are due for the work.

Work
All labor, materials and incidentals required to execute and complete the requirements of the Contract including superintendence, use of equipment and tools, and all services and responsibilities prescribed or implied.

Work Order
A written agreement between the Contractor and the County modifying the Contract within the limitations set forth in these Specifications. Funds for this agreement are drawn against the Initial Contingency Pay Item or a Contingency Supplemental Agreement.

Working Day
Any calendar day on which the Contractor works or is expected to work in accordance with the approved work progress schedule.

END OF SECTION 01000

SECTION 01300 - SUBMITTALS

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

Drawings and General and Supplemental Provisions of the Contract, apply to this Section.

1.2 SUMMARY

A. This Section includes administrative and procedural requirements for submittals required for performance of the Work, including, but not limited to the following:

1. Submittal Procedures
2. Contractor's Construction Schedule
3. Daily Construction Reports
4. Shop Drawings
5. Product Data
6. Samples
7. Quality Assurance Submittals
8. Licenses
9. Pictures, Video of Pre-Construction Conditions

B. Administrative Submittals: Refer to other Sections and other Contract Documents for requirements for administrative submittals. Such submittals include, but are not limited to, the following:

1. Permits
2. Applications for Payment
3. Performance and Payment Bonds
4. Insurance Certificates
5. List of Subcontractors
6. Licenses

1.3 SUBMITTAL PROCEDURES

A. Coordination: Coordinate preparation and processing of submittals with performance of construction activities. Transmit each submittal sufficiently in advance of performance of related construction activities to avoid delay.

1. Coordinate each submittal with fabrication, purchasing, testing, delivery, other submittals, inspections, and related activities that require sequential activity.

2. Coordinate transmittal of different types of submittals for related elements of the Work so processing will not be delayed by the need

to review submittals concurrently for coordination. The County reserves the right to withhold action on a submittal requiring coordination with other submittals until all related submittals are received.

3. Processing: To avoid the need to delay construction as a result of the time required to process submittals, allow sufficient time for submittal review, including time for re-submittals. Allow 2 weeks for initial review. Allow additional time if the County must delay processing to permit coordination with subsequent submittals.

    a. If an intermediate submittal is necessary, process the same as the initial submittal.
    b. Allow 2 weeks for reprocessing each submittal.
    c. No extension of Contract Time will be authorized because of failure to transmit submittals to the County sufficiently in advance of the Work to permit processing.

B. Submittal Preparation: Place a permanent label or title block on each submittal for identification. Indicate the name of the entity that prepared each submittal on the label or title block.

1. Provide a space approximately 4 by 5 inches on the label or beside the title block on Shop Drawings to record the Contractor's review and approval markings and the action taken.

2. Include the following information on the label for processing and recording action taken.

    a. Project Name.
    b. Date.
    c. Name and Address of the Engineer.
    d. Name and Address of the Contractor.

C. Submittal Transmittal: Package each submittal appropriately for transmittal and handling. Four copies of each submittal (three hard copy and one digital) shall be transmitted. Transmit each submittal from the Contractor to the County, (copy Engineer) using a transmittal form. The County will not accept submittals received from sources other than the Contractor. Submittals must be approved by Contractor prior to review by County. On the transmittal, record relevant information and requests for data. On the form or on a separate sheet, record deviations from Contract Document requirements, including variations and limitations. Include Contractor's certification that the information complies with Contract Document requirements on each submittal.

1.4 CONSTRUCTION SCHEDULE/DOCUMENTATION

A. Bar-Chart Schedule: Prepare a fully developed, horizontal bar-chart-type, contractor's construction schedule. Submit within 10 days of the issuance of the Notice to Proceed. The contractor shall submit an updated schedule at least once per month, showing any schedule changes. This may be requested up to three times per month by the County. Include dates of shop drawing submittals.

B. Cost Correlation: At the head of the schedule, provide a cost correlation line, indicating planned and actual costs. On the line, show dollar volume of Work performed as of the dates used for preparation of payment requests.

C. Pre-Construction Site Conditions Photos/Video: Contractor shall submit a DVD of photos and video of the site conditions prior to the performance of any work.

D. Licenses: All required licenses to perform work shall be submitted prior to the commencement of construction.

1.5 DAILY CONSTRUCTION REPORTS

Prepare a daily construction report recording the following information concerning events at the site, and submit duplicate copies to the County at weekly intervals including, but not limited to:

1. Work performed.
2. Approximate count of personnel at the site.
3. Count and type of major equipment at the site.
4. High and low temperatures, general weather conditions, including daily rainfall amount from gauge installed on site jointly recorded by contractor and county representative.
5. Accidents and unusual events.
6. Meetings and significant decisions.
7. Stoppages, delays, shortages, and losses.
8. Emergency procedures.
9. Orders and requests of governing authorities.
10. Change Orders received, implemented.
11. Material Expenditures.

1.6 SHOP DRAWINGS

A. Submit shop drawings for structures unless FDOT approved structures are used.

B. Shop Drawings – Including, but not limited to the following information:

1. Dimensions.
2. Identification of products and materials included by sheet and detail number.
3. Compliance with specified standards.

1.7 PRODUCT DATA

Product Data - Include the following information:

1. Manufacturer's printed recommendations.
2. Compliance with trade association standards.
3. Compliance with recognized testing agency standards.
4. Application of testing agency labels and seals.

1.8 SAMPLES

Submit samples as specified in the technical specifications.

1.9 QUALITY CONTROL (QC) / QUALITY ASSURANCE (QA) SUBMITTALS

A. Submit the QC Plan to the County for approval within 21 calendar days after the Notice to Proceed. The County will review the QC Plan and respond to the Contractor within 21 calendar days of receipt.

If at any time the Contractor is not in compliance with the approved QC Plan, or a part thereof, affected portions of the plan will be disapproved. The contractor shall cease work in the affected operation(s) and submit a revision to the County. If the QC Plan, or a part thereof, must be revised, submit the revision to the County. The County will review the revision and respond within seven calendar days of receipt.

Continue to work on operations that are still in compliance with the approved sections of the QC Plan.

B. Certifications: Where other Sections of the Specifications require certification that a product, material, or installation complies with specified requirements, submit to the County a certification from the manufacturer certifying compliance with specified requirements.

C. Inspection and Test Reports: Requirements for specific testing are included in the technical specifications.

1. Submit to the County: Two (2) copies (one hard copy and one digital) of the inspection and test reports from a qualified, independent, geotechnical engineering testing agency, under the direction of a Professional Engineer, licensed in the State of Florida.

2. All testing required by the specifications or the County shall be at the contractors expense.

3. No additional work within/upon the tested area shall proceed until submitted test results confirm compliance with specification requirements.

4. Areas where submitted test results indicate non-compliance shall be removed, replaced, and retested. Extents of area out of compliance shall be determined by testing at 25’ increments, in each direction within the construction area, until passing results are achieved.

5. Variations from testing requirements and frequency of testing may be authorized by the County and will be documented in writing.

1.10 ENGINEER'S ACTION

Except for submittals for the record or information, where action and return is required, the County will review each submittal, mark to indicate action taken, return to contractor within the timeframe allotted herein. Compliance with specified characteristics is the Contractor's responsibility.

PART 2 - PRODUCTS (Not Applicable)

PART 3 - EXECUTION (Not Applicable)

END OF SECTION 01300

SECTION 02230 - CLEARING & GRUBBING

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions shall apply to this Section.

B. Florida Department of Transportation*, Standard Specifications for Road and Bridge Construction, Section 110, Latest Edition.*

C. Emerald Coast Utility Authority (ECUA) *Engineering Manual*, *Latest Edition.*

1.2 SUMMARY

A. This Section includes, but is not limited to, the following:

1. Protection of existing trees indicated to remain.
2. Removal of trees and other vegetation.
3. Clearing and grubbing.
4. Removing above-grade improvements.
5. Removing below-grade improvements.

B. Extent of clearing & grubbing shall remain in County right-of-way, easements (temporary or permanent), or approved written work agreement areas, unless otherwise noted or instructed.

1.3 PROJECT CONDITIONS

Provide protection for all public land corners and monuments within the limits of construction. Any Monuments disturbed while performing the work will be replaced at the contractor's expense.

PART 2 - PRODUCTS (Not Applicable)

PART 3 - EXECUTION

3.1 SITE CLEARING

A. General: Remove trees, shrubs, grass, and other vegetation, improvements, or obstructions, as required, to permit installation of new construction. Remove similar items elsewhere on site or premises as specifically indicated. Removal includes digging out and off-site disposal of stumps and roots.

Carefully and cleanly cut minor roots and branches of trees indicated to

remain in a manner where such roots and branches obstruct installation of new construction.

B. Clearing and Grubbing: Clear site of trees, shrubs, and other vegetation, except for those indicated to remain.

1. Completely remove all stumps within the roadway. Remove roots and other debris to a depth of 12” below the ground surface or finished grade, whichever is lower.

2. Use only hand methods for grubbing inside drip line of trees Indicated to remain.

3. Fill depressions caused by clearing and grubbing operations with satisfactory soil material, unless further excavation or earthwork is indicated in accordance with Section 2300.

C. Removal of Improvements: Remove existing above grade and below grade improvements as indicated and as necessary to facilitate new construction, and other work as indicated.

3.2 DISPOSAL OF WASTE MATERIALS

A. Burning: Burning is not permitted on County property. Requests to burn will be considered on a case by case basis. If approved, Contractor is to acquire permits and provide copies to the County.

B. Removal from County Property: Remove waste materials and unsuitable or excess topsoil from County property, and dispose of off site in a legal manner.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

A. Lump Sum Payment: When direct payment is provided in the Contract for the quantity to be paid for as the lump sum quantity cleared and grubbed, no additional measurements will be made.

B. Payment By The Acre/Square Yard: For areas of Clearing and Grubbing that are designated to be paid for separately by the acre or square yard, the quantity to be paid for will be determined by measurement of the areas shown on the plans or authorized by the County to be cleared and grubbed, and acceptably completed.

4.2 BASIS OF PAYMENT

A. General: Price and payment will be full compensation for all Clearing and Grubbing required for the roadway right-of-way and for lateral ditches, channel changes, or other outfall areas, and any other Clearing and Grubbing indicated, or required for the construction of the entire project, except for any areas designated to be paid for separately or to be specifically included in the costs of other work under the contract. Price and payment, either lump sum or by the acre/square yard will be full compensation for all the work specified in this Section, including all necessary hauling, furnishing equipment, equipment operation, furnishing any areas required for disposal of debris, leveling of terrain and the landscaping work of trimming, etc., as specified herein.

B. Lump Sum Payment: Payment shall be made at the lump sum contract price for Clearing and Grubbing, lump sum.

C. Payment: Payment shall be made at the per unit contract price for Clearing and Grubbing, per acre or square yard.

END OF SECTION 02230

SECTION 02300 - EARTHWORK

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions, apply to this Section.

B. Florida Department of Transportation*, Standard Specifications for Road and Bridge Construction, Latest Edition*.

1.2 SUMMARY

A. This Section includes preparing and grading for pavement, curb, subgrades, drainage features, and general site work.

B. Related Sections: The following Sections contain requirements that relate to this Section.

1. Section 2230 "Clearing & Grubbing" for clearing, grubbing, and tree protection.

2. Section 2600 “Stormwater System” for installation of stormwater systems.

1.3 DEFINITIONS

A. Excavation consists of the removal of material encountered to subgrade elevations and the reuse or disposal of materials removed.

B. Subgrade: The uppermost surface of an excavation or the top surface of a fill or backfill immediately below subbase, base, drainage fill, or topsoil materials.

C. Borrow: Soil material obtained off-site when sufficient approved soil material is not available from on-site excavations.

D. Subbase Course: The layer placed between the subgrade and base course in a paving system.

E. Base Course: The layer placed immediately beneath the surface pavement in a paving system.

F. Unauthorized excavation consists of removing materials beyond indicated subgrade elevations or dimensions without direction by the County. Unauthorized excavation, as well as remedial work directed by the Engineer, shall be at the Contractor's expense.

G. Structures: Buildings, footings, foundations, retaining walls, slabs, tanks, curbs, mechanical and electrical appurtenances, or other man-made stationary features constructed above or below ground surface.

H. Utilities include on-site above ground utilities, overhead utilities and underground utilities including: pipes, conduits, ducts, and cables, as well as related appurtenances and underground services within building lines.

I. Unsuitable Material: Any material such as muck, wood, rock, peat, garbage, non-compactable soils in dry condition, and any other material that is considered by the County Engineer to be unsuitable.

J. Topsoil: Topsoil is defined as the surface layer of soil found normally to a depth of at least 4 to 8 inches that typically contains organic materials. Satisfactory topsoil is reasonably free of roots, clay lumps, stones, other objects over 2 inches in diameter, and any other objectionable or deleterious material.

1.4 SUBMITTALS

A. General: Submit the following in accordance with Section 1300, "Submittals."

B. Product Data and Samples of the following:

1. 1-lb representative samples of each proposed fill and backfill soil material from borrow sources as selected by the County.

2. 12-by-12-inch sample of filter fabric.

3. Representative samples of the proposed base and sub-base materials.

C. Test Reports: In addition to test reports required under field quality control, submit the original directly to the County from the testing services, with a copy to the Contractor:

1. Laboratory analysis as specified in 1.1 (Related Documents) of each soil material proposed for fill and backfill from borrow sources.

2. One optimum moisture-maximum density curve for each soil material.

3. Report of actual unconfined compressive strength and/or results of bearing tests of each stratum tested.

1.5 QUALITY CONTROL / QUALITY ASSURANCE

A. Codes and Standards: Perform earthwork complying with all requirements of authorities having jurisdiction.

B. Testing and Inspection Service: A qualified independent geotechnical engineering testing agency, under the direction of a Professional Engineer, licensed in the State of Florida to classify, perform soil tests, and provide inspection services for quality control. All proposed borrow soils will require the testing agency to verify that soils comply with specified requirements and to perform required field and laboratory testing. Contractor shall replace materials removed for testing purposes. Should any work or materials fail to meet the requirements set forth in the plans and specifications, contractor shall reimburse for additional and re-testing.

1.6 PROJECT CONDITIONS

A. Site Information: Data in the subsurface investigation Report, if available, is used for the basis of the design and is available to the contractor for information only. Conditions are not intended as representations or warranties of accuracy or continuity between soil borings. The County will not be responsible for interpretations or conclusions drawn from this data by the Contractor.

B. Existing Utilities: After location of utilities by the appropriate utility company, it is the Contractor's responsibility to protect all such utility lines, including service lines and appurtenances, and to replace at his own expense any that may be damaged by the Contractor's equipment or forces during construction of the Project.

1. Provide a minimum of 48-hours notice to the County and receive written notice to proceed before interrupting any utility.

2. The contractor is responsible for contacting all utility companies to verify locations of all existing utilities, utility-related obstructions, or utility relocations that he may encounter during construction.

3. Adequate provision shall be made for the flow of existing sewers, drains, and water courses encountered during construction, and structures which may be disturbed shall be satisfactorily restored by the Contractor at his expense.

C. Should uncharted, or incorrectly charted, piping or other utilities be encountered during the course of the work, consult the County immediately for directions. Cooperate with the County and utility companies in keeping respective services and facilities in operation.

PART 2 - PRODUCTS

2.1 SOIL MATERIALS

A. General: Soils used as fill shall be clean sands, similar to existing site soil, with less than 5% passing the number 200 sieve when existing subgrade conditions are considered wet as per the County. Soils as described above with less than 15% passing the number 200 sieve and meeting the requirements of Section 902-6 of the FDOT Specifications may be used when existing subgrade conditions are considered dry as per the County. The sand shall have a maximum dry density of at least 100 pounds per cubic foot, according to the Standard Proctor compaction test, AASHTO T-99, ASTM D698. Provide approved borrow soil materials from off-site when sufficient satisfactory soil materials are not available from on-site excavations.

If the Contractor elects to import any materials, then he will do so only with the approval of the County and at his own expense, unless separate payments for such items are called for in these specifications. Provide laboratory certification that soils meet requirements of specifications.

B. Sub-Base Material: Naturally or artificially graded mixture of natural or crushed gravel, crushed stone, or sand. The material shall be stabilized in accordance with FDOT Standard Specification Section 160-5.4. ASTM D 2940, with at least 95 percent passing a 1-1/2-inch sieve, and not more than 8 percent passing a No. 200 sieve.

PART 3 - EXECUTION

3.1 DEWATERING

A. Prevent surface water and subsurface or groundwater from entering excavations, from ponding on sub-grades in work areas, and from flooding project site and surrounding area.

B. Protect subgrades and foundation soils from softening and damage by rain or water accumulation.

C. The Contractor shall prevent the accumulation of water in excavated areas, and shall remove, by pumping or other means, any water that accumulates in the excavation. The Contractor shall prevent the accumulation of water in both structural and trench excavations and shall remove, by well point system or by other means, water which accumulates. The Contractor shall provide, install and operate a suitable and satisfactory dewatering system, when needed to dry sub-grades or other work areas. The Contractor shall comply with the latest testing requirements as set forth by the applicable regulatory agency. At a minimum, the contractor shall test once prior to dewatering, once within

the first week of dewatering, and once every thirty (30) days while dewatering.

D. Establish and maintain temporary drainage ditches and other diversions outside excavation limits to convey rainwater and water removed from excavations to collection or runoff areas. Do not use trench excavations as temporary drainage ditches. Discharged water shall be clean, not silt or sediment laden, prior to discharge to untreated system and/or waters of the State.

3.2 EXCAVATION

A. Explosives: Not permitted.

B. Strip topsoil and significant root systems to whatever depths encountered in a manner to prevent intermingling with underlying subsoil or other objectionable material. Remove heavy growths of grass from areas before stripping. Where existing trees are indicated to remain, leave existing topsoil in place within drip lines to prevent damage to root systems.

3.3 STABILITY OF EXCAVATIONS

A. Comply with local codes, ordinances, and requirements of authorities having jurisdiction to maintain stable excavations.

B. All excavation work shall conform to all applicable OSHA Publications, Latest Editions. The Contractor's method of providing protective support to prevent cave-ins shall conform to OSHA requirements. Slope excavations, shoring, and trench box usage in the field must be based on tabulated data and designed by the Contractor. The contractor is solely responsible for job site safety and shall not be compensated for required safety equipment/devices.

3.4 EXCAVATION FOR STRUCTURES

Excavate to indicated elevations and dimensions within a tolerance of plus or minus 0.10 foot. Extend excavations a sufficient distance from structures for placing and removing concrete formwork, maintaining a safe slope, installing services and other construction, and for inspections.

A. Footings and Foundations: Excavate by hand to final grade just before placing concrete reinforcement. Trim bottoms to required lines and grades to leave solid base to receive other work.

B. Pile Foundations: After piles have been installed, remove loose and displaced material. Excavate to final grade, leaving solid base to receive concrete pile caps.

C. Excavation for Underground Tanks, Basins, and Mechanical or Electrical Appurtenances: Excavate to elevations and dimensions indicated within a tolerance of plus or minus 0.10 foot.

3.5 EXCAVATION FOR WALKS AND PAVEMENTS

Excavate surfaces under walks and pavements to indicated cross sections, elevations, and grades. Consider Dewatering and other sections as applicable.

3.6 EXCAVATION FOR STORMWATER SYSTEMS

Excavate and compact the backfill of trenches to the densities specified for embankment or subgrade, as applicable, and in accordance with the requirements of Section 2600. Consider Dewatering and other sections as applicable.

3.7 STORAGE OF SOIL MATERIALS

Stockpile excavated materials acceptable for backfill, fill soil, and topsoil materials, including acceptable borrow materials. Stockpile soil materials without intermixing. Stockpiles shall be placed, graded, and shaped to drain surface water and prevent erosion. Cover to prevent wind-blown dust and/or erosion. Stockpile soil materials away from edge of excavations. Do not store within drip line of remaining trees.

3.8 BACKFILL

A. Backfill excavations promptly, but not before completing the following:

1. Acceptance of construction below finish grade including, where applicable, filter fabric installation and gravel bedding.

2. Surveying locations of underground utilities for record documents.

3. Testing, inspecting, and approval of underground utilities.

4. Removal of trash and debris from excavation.

5. Removal of temporary shoring, bracing, and sheeting unless specified to remain.

B. No backfill material shall be placed, spread or rolled during unfavorable weather conditions. When the work is interrupted by heavy rain, backfill operations shall not be resumed until the moisture content of the fill is as previously specified to achieve proper compaction.

3.9 FILL

A. Preparation: Remove vegetation, topsoil, debris, wet and unsatisfactory soil materials, obstructions, and deleterious materials from ground surface prior to placing fills. Plow strip, or break up sloped surfaces steeper than 1 vertical to 4 horizontal so fill material will bond with existing surface. In order to insure proper bond and prevent slipping between the original ground and fill, the surface of the original ground shall be scarified to a depth of at least three inches. Each layer of fill material shall be compacted until the required density is achieved, and the density achieved should be verified in accordance with specifications using in-place density testing.

B. When subgrade or existing ground surface is to receive fill and has a density less than that required for fill, break up ground surface to depth required, pulverize, moisture condition or aerate soil and re-compact to required density.

C. Place fill material in layers to required elevations for each location listed below.

1. Under grass, subbase or base material, use satisfactory excavated or borrow soil material.

2. Under walks and pavements, curbs, steps, ramps, building slabs, footings and foundations use subbase and/or base material.

3.10 MOISTURE CONTROL

A. Uniformly moisten or aerate subgrade and each subsequent fill or backfill layer before compaction to within 2 percent of optimum moisture content.

B. Do not place backfill or fill material on surfaces that contain excessive moisture.

C. Remove and replace, or scarify and air-dry satisfactory soil material that is too wet to compact to specified density. Stockpile or spread and dry removed wet satisfactory soil material.

3.11 COMPACTION

A. Place backfill and fill materials in layers or lifts not more than 12 inches in loose depth for material compacted by heavy compaction equipment, and not more than 8 inches in loose depth for material compacted by hand-operated tampers.

B. Place backfill and fill materials evenly on all sides of structures to required elevations. Place backfill and fill uniformly along the full length of each structure.

C. Percentage of Maximum Dry Density Requirements: Compact soil to not less than the following percentages of maximum dry density according to ASTM Modified Proctor):

1. Under structures, building slabs, steps, and pavements, compact each layer of backfill or fill material at a minimum of 98% Modified Proctor of the material's maximum dry density.

2. Under lawn or unpaved areas, compact each layer of backfill or fill material at 95% Modified Proctor maximum dry density.

3.12 GRADING

A. General: Uniformly grade areas to a smooth surface, free from irregular surface changes. Comply with compaction requirements and grade to cross sections, lines, and elevations indicated.

1. Provide a smooth transition between existing adjacent grades and new grades.

2. Cut out soft spots, fill low spots, and trim high spots to conform to required surface tolerances.

B. Site Grading: Slope grades to direct water away from buildings and to prevent ponding. Finish subgrades to required elevations within the following tolerances:

1. Lawn or Unpaved Areas: Plus or minus 0.10 foot.

2. Walks: Plus or minus 0.10 foot.

3. Pavements: Plus or minus ½ inch.

3.13 STABILIZED SUBGRADE

A. For stabilized subgrade the type of materials, commercial or local, is at the Contractor's option and no separate payment for stabilizing materials will be made (other than as may be paid for as borrow).

B. When stabilizing is designated as Type B, compliance with the bearing value requirements will be determined by the Limerock Bearing Ratio Method. Minimum LBR shall be 40.

C. It is the Contractor's responsibility that the finished roadbed section meets the bearing value requirements, regardless of the quantity of stabilizing materials necessary to be added. Also, full payment will be made for any areas where the existing subgrade materials meet the design bearing value requirements without the addition of stabilizing additives, as well as areas where the Contractor may elect to place select high-bearing

materials from other sources, within the limits of the stabilizing.

D. After the roadbed grading operations have been substantially completed, the Contractor shall make his own determination as to the quantity (if any) of stabilizing material, of the type selected by him, necessary for compliance with the bearing value requirements. The contractor shall notify the Engineer of the approximate quantity to be added, and the spreading and mixing-in of such quantity of materials shall meet the approval of the County as to uniformity and effectiveness.

3.14 FIELD QUALITY CONTROL

A. Testing Agency Services: Allow testing agency to inspect and test each subgrade and each fill or backfill layer. Do not proceed until test results for previously completed work verify compliance with requirements.

1. Perform field in-place density tests according to ASTM D 1556 (sand cone method), ASTM D 2167 (rubber balloon method), ASTM D 293 (drive cylinder method), or ASTM D 2922 (nuclear method), as applicable.

a. Field in-place density tests may also be performed by the nuclear method according to ASTM D 2922, provided that calibration curves are periodically checked and adjusted to correlate to tests performed using ASTM D 1556. With each density calibration check, check the calibration curves furnished with the speedy moisture meter according to ASTM D 3017.

b. When field in-place density tests are performed using nuclear methods, make calibration checks of both density and speedy moisture meter at beginning of work, on each different type of material encountered, and at intervals as directed by the Engineer.

2. Paved Areas: Make at least one field density test of subgrade, base, and each compacted fill layer for every 300 linear feet of roadway or equivalent area, but in no case less than two tests. Tests shall be staggered to ensure representative sampling.

3. Unpaved Areas: Make at least one field density test of each compacted fill layer or subgrade for every 1000 square yards of area, but in no case less than two tests.

4. Other tests may be required at County’s discretion.

B. If, in the opinion of the County, based on testing service reports and

inspection or the Engineer's observations, subgrades, fills, or backfills are below specified density, scarify and moisten or aerate as needed, or remove and replace soil to the depth required, re-compact, and re-test until required density is obtained at no additional expense.

3.15 REPAIR & CORRECTIONS

A. Protecting Graded Areas: Protect newly graded areas from traffic and erosion. Keep free of trash and debris. Repair and re-establish grades to specified tolerances where completed or partially completed surfaces become eroded, rutted, settled, or lose compaction due to subsequent construction operations or weather conditions. Scarify or remove and replace material to depth directed by the Engineer; reshape and re-compact at optimum moisture content to the required density.

B. Settling: Where settling occurs, remove finished surfacing, backfill with additional approved material, compact, and reconstruct surfacing. Restore appearance, quality, and condition of finished surfacing to match adjacent work, and eliminate evidence of restoration to the greatest extent possible.

C. When traffic must cross open trenches, the contractor shall provide suitable bridge of graded aggregate base or temporary asphalt paving as directed by County at no additional expense. (See Section 4060 for additional requirements.)

D. Erosion Control: The Contractor shall be responsible for the prevention of erosion from the site and for maintaining filled and graded surfaces for the duration of the project. This includes, but is not limited to, the erection of a silt fence and hay bale barricade as per Florida Stormwater Erosion and Sedimentation Control Inspector's Manual and/or as shown in the construction plans. The Contractor shall take whatever steps necessary to prevent erosion and sedimentation, and will be responsible for any damages which might occur to down-land properties as a result of run-off from the site during sitework construction at no additional cost. Provide erosion control measures to prevent erosion or displacement of soils and discharge of soil-bearing water runoff or airborne dust to adjacent properties and walkways.

3.16 DISPOSAL OF SURPLUS AND WASTE MATERIALS

Surplus excavated material becomes the property of the Contractor unless otherwise noted. Waste materials, including unsatisfactory soils, trash and debris shall be removed and legally disposed of, off the Owner's property.

3.17 CLEAN-UP AND FINAL INSPECTION

Before final inspection and acceptance the Contractor shall clean ditches, shape

shoulders and restore all disturbed areas, including street crossings, grass plots, re-grassing if necessary, to as good a condition as existed before work started.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

A. Excavation: When payment for excavation is on a volumetric basis, the quantity to be paid for will be the volume, in cubic yards, calculated by the method of average end areas according to the survey and plans. If actual quantities vary in field, contractor shall communicate with Engineer and/or County to request additional payment. The measurement will include the net volume of material between the original ground surface and the surface of completed earthwork according to the survey and plans. If actual quantities vary in field, contractor shall communicate with the County to request additional payment. Excavation for swales and channels will be included in the total quantity for Excavation. Subsoil Excavation will be measured to the lines and grades indicated on the plans or as approved by the County. Backfill material shall either include normal excavation material from within project limits or borrow material supplied by the Contractor.

B. Embankment: Quantities for Embankment will be calculated by the method of average end or square yard areas, and will include material placed above the original ground line, within the lines and grades indicated on the plans or as directed by the County.

C. Calcium Chloride for Dust Control: The quantity to be paid for will be the weight, in tons, of calcium chloride authorized and acceptably spread on the road, within the limits specified by the County. The quantity will be determined from scales, certified freight bills, or other sources, the accuracy of which can be authenticated.

4.2 BASIS OF PAYMENT

A. General: Prices and payments for the various work items included in this section will be full compensation for all work described herein, including excavating, dewatering, dredging, hauling, placing, and compacting. Separate pay items will be provided for all devices required to maintain control of erosion according to plans and NPDES permit. Additional devices shall be no additional cost.

B. Excavation: Unit prices will be established for required cubic yard volumes of Regular Excavation, Subsoil Excavation, and Borrow Excavation as necessary. When subsoil excavation is required to a depth greater than plans and specifications require, and additional excavation is not due to unsuitable, a change order will be required to establish a new quantity utilizing the current unit price.

C. Embankment: Payment shall be made at the unit contract price for Embankment, cubic yard or square yard, in place, according to plans.

D. Calcium Chloride for Dust Control: Price and payment will be full compensation for all work and materials specified for this item, including specifically all required shaping and maintenance of the treated area and all water furnished and applied to the area.

E. Dewatering: The contractor shall include the cost of dewatering in the unit price bid for the stormwater pipe if there is not a specific line item used in the contract.

END OF SECTION 02300

SECTION 02320 - UNDERDRAIN AND EXFILTRATION TRENCH

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawing and general provisions of Contract, including General and Supplementary Conditions and other Specification Sections, apply to work of this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, *Section 440, and Design Standards, Latest Edition*.

1.2 DESCRIPTION OF WORK

This section shall cover the work of furnishing pipe for underdrain and exfiltration trenches, the type and size shown on the plans or in the proposal in accordance with the requirements of these specifications, and installing such pipe at the locations shown on the plans or designed by the County in substantial conformity with the established lines, trench widths, filter media, and grades. The work shall include furnishing and construction of such joints and connections to other pipes as may be required to complete the work, as shown on the plans or directed, together with the specified trench, filter media, and filter fabric materials. Filter media may be sand, gravel, gravel pack, and/or a combination thereof.

PART 2 - PRODUCTS

A. Underdrain Pipe: Underdrain pipe shall conform to the requirements of Florida Department of Transportation Standard Specification 948-2, Latest Edition. The perforations shall meet the requirements for perforations as specified in AASHTO M294. Pipe shall be perforated polyethylene ADS N-12 or approved equal.

B. Filter Aggregate shall be clean, washed gravel free of organic material and fines with minimum 33% percent voids. Aggregate shall be at least FDOT stone or equivalent.

C. Filter Fabric shall be Terratex EP (Woven) or approved equal meeting the requirements of FDOT Specification Section 985.

D. Filter sand shall be clean sand, free of organic materials and fines, with an effective grains size of 0.20 to 0.55 mm, uniformity coefficient of 1.5 to 4.0, a K value (recommended design permeability) not to exceed 2.5 ft/hr, and the contractor shall provide a grain-size analysis to the County for the project.

PART 3 - EXECUTION

3.1 STANDARD INSTALLATION:

A. Trenches shall be excavated to the dimensions shown on the plans or as directed. A bedding layer of filter aggregate or filter sand of the size shown on the plans shall be placed in the bottom of the filter fabric lined trench for its full width and length and compacted as directed.

B. Subdrainage pipe of the type and size specified shall be embedded firmly in the bedding material. All pipe sections shall be securely joined with the appropriate coupling fittings or bands as per manufacturer's specifications.

C. After the pipe installation has been inspected and approved, the specified filter aggregate, gravel pack, and/or filter sand shall be placed as shown on the drawings and filter fabric wrapped around the filter media with a minimum overlap (as required) on top. Install wire mesh at opening/outfall. Care shall be taken not to displace the pipe.

D. The Contractor shall take every precaution to prevent the entrance of soil and sediments into the filter bed during construction, which would sacrifice the integrity of the filter fabric and aggregate installed. Stormwater runoff and sedimentation controls to be provided so as to protect the underdrain or exfiltration trench system.

E. Installation of the corrugated polyethylene pipe shall be in accordance with the ASTM D-2321 Latest Revision.

F. Gravel packs shall be installed around the filter-drain underdrain pipe an average thickness of at least six inches from the underdrain pipe for all underdrain systems located within pond bottoms and pond banks. The minimum separation between the gravel pack and the top of the filter bed shall be two feet. A permeable filter fabric shall be wrapped around the gravel pack.

G. Cleanouts or inspection boxes shall be installed, at minimum, every 400 feet or as specified by plan, at every directional change or bend, and at the beginning (upstream) and at the terminus (downstream) of the underdrain pipes or exfiltration trench systems.

H. Cleanouts shall have vertical portions non-perforated, include water-tight caps, and shall incorporate fittings (wye fittings or elbow bends) that have an angle no less than 45 degrees.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be the length, in feet, of underdrain, which include trench filter fabric, measured in place, along the centerline and gradient of the underdrain, completed and accepted. The quantities to be paid for will be the length, in feet, of outlet pipe measured in place, along the centerline and gradient of the outlet pipe, completed and accepted. The quantity of underdrain inspection boxes and cleanouts to be paid for will be the number completed and accepted. When payment for gravel or sand filter media is on a volumetric basis, the quantity to be paid for will be the volume, in cubic yards, calculated based upon the length, width, and depth of the underdrain or exfiltration trench dimensions, minus the pipe volume, as shown on the plans, unless the filter media is specified as a bid item included in the costs of the underdrain or exfiltration system.

4.2 BASIS OF PAYMENT

Prices and payment for this item shall include all labor, equipment and materials necessary to complete the work in accordance with the plans and specifications. Materials covered under this pay item include but are not limited to: pipe including fittings, filter fabric, filter media, filter sand, filter aggregate, cleanout structures and inspections boxes. Payment shall be made for the underdrain or exfiltration pipe based upon the length of pipe. Unit prices will be established for the number of cleanouts structures and inspection boxes, unless otherwise specified as a bid item included in the under underdrain or exfiltration trench system. Unit prices will also be established for required cubic yard volume of gravel or sand filter media based upon the length, width, and depth of the underdrain or exfiltration trench, minus the pipe volume, as shown on the plans, unless otherwise specified as a lump sum bid item included in the costs of the underdrain or exfiltration trench system. No additional payment will be made for filter media overages larger than the specified plan volume. No additional payment will be made for excavation of the trench or lining the trench with filter fabric. No additional payment will be made for underdrain pipe with a sock filter fabric.

END OF SECTION 02320

SECTION 02340 - RIPRAP

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of Contract, including General and Supplementary Conditions and other Specification Sections, apply to work of this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, *Section 530*, and *Design Standards 281*, *Latest Edition*.

1.2 DESCRIPTION OF WORK

This section shall cover the work of furnishing and constructing the Riprap which shall consist of a protective course of stone or other approved materials on embankment slopes, in channels, or other work as shown on the plans or directed, with or without a Filter Blanket, all in accordance with these Specifications and in conformity with the lines and grades noted in the plan details.

PART 2 - PRODUCTS

2.1 MATERIALS

Rubble\Stone Riprap shall comply with Florida Department of Transportation *Standard Specification 530-2.2*

A. Banks and shore protection shall comply with Florida Department of Transportation *Standard Specification 530-2.2.1*.

B. Ditch lining shall comply with Florida Department of Transportation *Standard Specification 530-2.2.2*.

C. Broken stone and broken concrete shall comply with Florida Department of Transportation *Standard Specification 530-2.2.3*.

D. Geotextile fabric shall comply with Florida Department of Transportation *Standard Specification 514* and Florida Department of Transportation *Design Standards 104* according to its application.

E. Bedding stone shall comply with Florida Department of Transportation *Standard Specification 530-2.3*.

F. Sand/Cement Riprap: Materials and placement shall comply with Florida Department of Transportation *Standard Specification 530-2.1*.

PART 3 - EXECUTION

3.1 EXECUTION

A. Construction Requirements:

General: All slopes to be treated with riprap shall be trimmed to the lines and grades indicated by the plans or directed, such that the plan grades are the top of the placed riprap, unless otherwise noted. Loose material shall be compacted by methods approved by the Engineer or removed.

Slopes which require a filter blanket under the riprap shall, in addition to the above, be prepared as noted below.

1. Placement of any riprap on a filter blanket shall be by such means that will not damage or destroy the blanket. Any damage to the blanket shall be repaired without additional compensation.

2. Unless directed otherwise by the Engineer or shown by plan details, all outer edges and the top of riprap where the riprap terminates shall be formed so that the surface of the riprap will be embedded and even with the surface of the ground and/or slope.

3. All riprap construction shall begin at the bottom of the slope and progress upward.

4. Filter Blanket: Unless otherwise specified by the plans or ordered in writing, a fabric blanket will not be allowed for soils with 85% by weight passing the No. 200 sieve (U.S. Std.)

5. The bedding stone shall be constructed in accordance with Florida Department of Transportation Specification 530-3.3.

6. Foundation Preparation: Areas on which filter fabrics are to be placed shall be uniformly trimmed and dressed to conform to cross-sections shown by the plans.

B. Plastic Filter Fabric (Geotextile):

Plastic filter fabric shall be placed in the manner and at the locations shown in the plans or as directed by the Engineer. At the time of installation, fabric shall be rejected if it has defects, rips, holes, flaws, deterioration or damage incurred during manufacturer, transportation or storage. The fabric shall be placed with the long dimension parallel to the centerline of the channel or shoreline unless otherwise directed by the Engineer, and shall be laid smooth and free of tension, stress, folds, wrinkles or creases. The strips shall be placed to provide a minimum

width of 24 inches of overlap for each joint with the upstream strip of fabric overlapping the downstream strip. Overlap joints and seams shall be measured as a single layer of cloth. Securing pins with washers shall be inserted through both strips of overlapped cloth as recommended by the manufacturer, but no greater than the following intervals along a line through the midpoint of the overlap.

Pin Spacing	Slope
2 ft.	Steeper than 3:1
3 ft.	3:1 to 4:1
5 ft.	Flatter than 4:1

The fabric shall be turned down and buried two feet at all exterior limits except where a stone-filled key is provided below natural ground.

Additional pins regardless of location shall be installed as necessary to prevent any slippage of the filter fabric. Overlaps in the fabric shall be placed so that any upstream strip of fabric will overlap the downstream strip. Should the Engineer direct that the fabric be placed with the long dimension perpendicular to the centerline of the channel or shoreline, the lower strip of fabric shall underlap the next higher strip. Each securing pin shall be pushed through the fabric until the washer bears against the fabric and secures it firmly to the foundation. The fabric shall be protected at all times during construction from contamination by surface runoff and any fabric so contaminated shall be removed and replaced with uncontaminated fabric. Any damage to the fabric during its installation or during placement of riprap shall be replaced by the Contractor. The work shall be scheduled so that the manufacturer's recommendation for UV exposure is not exceeded or 5 days does not expire between placement of the fabric and the covering of the fabric with riprap, whichever is less.

3.2 STONE AND CONCRETE RUBBLE RIPRAP

General: Unless otherwise shown by plan details or directed, stone or concrete shall not be placed on slopes steeper than the natural angle of repose of the riprap material.

Placement of stone or concrete may, unless otherwise noted hereinafter, be placed by methods and equipment suitable for the purpose of placing the riprap in accordance with the requirements for the class riprap involved without damaging any existing facility or construction material.

The stone or concrete shall be placed in such a manner as to produce a reasonably well graded mass of rock with the minimum practical percentage of voids. Stone or concrete shall be laid with close broken joints and resting on the embankment slope. The top of the riprap shall be constructed to the lines, grades and thickness shown by the plans or as directed. Riprap shall be placed

to its full course thickness in one operation and in such a manner as to avoid displacing or damaging the filter blanket material. The larger stone or concrete shall be well distributed and the entire mass of stone or concrete, in their final position, shall conform to a reasonable uniform gradation. The finished riprap shall be free from objectionable pockets of small stone or concrete and clusters of larger stone or concrete. Open joints shall be filled with spalls, or small stone or concrete in such manner that all stone or concrete are tightly wedged or keyed. Placing riprap by dumping into chutes or by other methods likely to cause segregation of sizes will not be permitted. The desired distribution of the various sizes of stone or concrete throughout the mass shall be obtained by selective loading of the material at the source, by controlled dumping of successive loads during final placing, or by other methods of placement which will produce the specified results. The individual pieces of stone or concrete in each horizontal course shall be laid so that they will not break away from embankment. Rearranging of individual stone or concrete by mechanical equipment, or by hand, will be required to the extent necessary to obtain a reasonably well graded distribution of stone or concrete as specified above.

3.3 SAND/CEMENT RIPRAP

A. Placing: Immediately following mixing, the mixture shall be placed in the bags, tied (so that when laid in position, they will flatten out and give a thickness of not less than six inches) and placed flat on the area designed. Use only one type of bag per structure. Bags shall be layered and wedged against each other to form closed joints, with tied ends of sacks all laid in the same direction. Sacks ripped or torn in placing shall be removed and replaced with sound, unbroken sacks. When required to be placed under water, special care shall be taken to see that bags are closely jointed to give the same tight joints as required on dry slopes. After the riprap is placed, it shall be sprinkled with water as directed and kept damp for not less than three days. No sand/cement riprap shall be mixed in freezing weather.

B. Grouting: Immediately after watering, all openings between sacks shall be filled with dry grout composed of one part Portland cement and five parts sand.

C. Pinned/Staked Bags: Bags shall be pinned/staked when called for on drawings.

3.4 CLEAN UP

Before final inspection and acceptance, the Contractor shall remove all excess material from site and restore all disturbed areas to as good a condition as existed before work started.

3.5 MAINTENANCE

The Contractor shall maintain all riprap until the contract work is accepted, and shall replace, without additional compensation, any damaged or missing riprap.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

A. Sand-Cement: The quantity to be paid for will be the volume, in cubic yards, of sand actually used in the sand cement mixture and grout, satisfactorily placed and accepted. If sand is proportioned by volume, the sand will be measured loose in an approved measure prior to mixing with cement. If sand cement is proportioned by weight, approved scales will be used for this purpose and the volume will be calculated using a standard conversion factor for sand of 85lbs. /cubic feet. No adjustment of batch weights to allow for varying moisture content of the sand will be made.

B. Stone/Concrete Rubble and Bedding Stone: The quantities to be paid for will be, as per plans/bid schedule, and either by the weight in tons in surface dry natural state; by railroad scales, truck scales, or barge displacement, or by square yards (according to plan thickness.) The Contractor shall determine the weights as follows:

1. Railroad Weights: The Contractor shall weight railroad cars on railroad scales, before and after loading or before and after unloading. If weighed by other than the Engineer, a certified statement of weights will be required. Certificates of weight, furnished by the railroad company, will be accepted without further certification.

2. Truck Weights: The Contractor shall weigh trucks on certified scales, loaded and empty, as prescribed above for railroad weights. The Contractor shall weigh trucks in presence of the Engineer, or furnish certificates of weights.

3. Barge Displacement: The Engineer will measure each barge. The Contractor shall fit each barge with gauges graduated in tenths of a foot increment. The Contractor shall locate a gauge at each corner of the barge near the lower end of the rake. The Contractor shall furnish additional gauges amidships, if the Engineer deems necessary. The Engineer will review and check all computed weights. Weight certificates may be submitted.

4. In Place Measurement: The Contractor shall measure surface area (in square yards) of area riprap has been placed.

4.2 BASIS OF PAYMENT

A. Sand-Cement: Price and payment will be full compensation for all work specified in this Section, including all materials, labor, hauling, excavation, and backfill. The Contractor shall include the cost of dressing and shaping the existing fills (or subgrade) for placing riprap in the Contract unit price for Riprap (Sand-Cement.)

B. Stone/Rubble: Price and payment will be full compensation for all work specified in this Section, including all materials, hauling, excavation, and backfill. The Contractor shall include the cost of dressing and shaping the existing fill (or subgrade) for placing riprap in the Contract unit price for Riprap (Stone/Rubble). As an exception to the above, concrete that is shown to be removed from the project site and subsequently disposed of by being crushed and used in the embankment as riprap will not be paid for under this section. Include the cost of such work order under Removal of Existing Structures.

C. Bedding Stone: Price and payment will be full compensation for all work specified in this Section, including all materials and hauling. The Contractor shall include the cost of dressing and shaping the existing fills (or subgrade) for placing bedding stone in the Contract unit price for Riprap (Stone/Rubble).

END OF SECTION 02340

SECTION 02400 - GRADED AGGREGATE BASE

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of contract, including General and Supplementary Conditions and other Specification Sections, apply to the work of this section.

1.2 DESCRIPTION OF WORK

This item shall consist of a base course of graded aggregate constructed on a subgrade prepared in accordance with the specifications and in conformity with the line, grades and typical cross-section as shown on the drawings.

PART 2 - PRODUCTS

2.1 MATERIALS

Use graded aggregate material which yields a satisfactory mixture meeting all the requirements of these Specifications after it has been crushed and processed as a part of the mining operations.

The Contractor may furnish the material in two sizes of such gradation that, when combined in a central mix plant pugmill, the resultant mixture meets the required specifications.

Use graded aggregate base material of uniform quality throughout, substantially free f rom organic matter, shale, lumps and clay balls, and having a Limerock Bearing Ratio value of not less than 98. Use material retained on the No.10 sieve composed of aggregate meeting the following requirements:

Soundness Loss, Sodium, Sulfate: AASHTO T 104.....15%
Percent Wear: AASHTO T 96 (Grading A)
Group 1 Aggregates..... 45%
Group 2 Aggregates..... 65%
Group 1 : This group of aggregates is composed of limestone, marble, or dolomite.
Group 2: This group of aggregates is composed of granite, gneiss, or quartzite.
Use graded aggregate base material meeting the following gradation:

Sieve Size	Percent by Weight Passing
2 inch	100
1 1/2 inch	95 to 100
3/4 inch	65 to 90
3/8 inch	45 to 75
No. 4	35 to 60

No. 10	25 to 45
No. 50	5 to 25
No. 200	0 to 10

For Group 1 aggregates, ensure that the fraction passing the No. 40 sieve has a Plasticity I ndex (AASHTO T 90) of not more than 4.0 and a Liquid Limit (AASHTO T 89) of not more than 25, and contains not more than 67% of the weight passing the No. 200 sieve.

For Group 2 aggregates, ensure that the material passing the No. 10 sieve has a sand equivalent (AASHTO T 176) value of not less than 28.

The Contractor may use graded aggregate of either Group 1 or Group 2, but only use one group on any Contract. (Graded aggregate may be referred to hereinafter as “aggregate”.)

2.2 EQUIPMENT

The aggregate shall be spread by mechanical rock spreaders, equipped with a device which strikes off the aggregate uniformly to laying thickness, and capable of producing an even distribution of the aggregate. For crossovers, intersections and ramp areas; for roadway widths of 20 feet or less; for the main roadway area when forms are used and for any other areas where the use of a mechanical spreader is not practicable; spreading may be done by bulldozers or blade graders. All equipment for proper construction of this project shall be in first-class working condition.

PART 3 - EXECUTION

3.1 TRANSPORTING GRADED AGGREGATE

The graded aggregate shall be transported to the point where it is to be used, over aggregate previously placed if practical, and dumped on the end of the preceding spread. Hauling over the subgrade and dumping on the subgrade will be permitted when, in the County’s opinion, these operations will not be detrimental to the subgrade.

3.2 SPREADING GRADED AGGREGATE

A. Method of Spreading: The graded aggregate shall be spread uniformly. All segregated areas of fine or coarse aggregate shall be removed and replaced with properly graded aggregate.

B. Number of Courses: When the specified compacted thickness of the base is greater than six inches, the base shall be constructed in two courses. The thickness of the first course shall be a pproximately one-half the total thickness of the finished base, or enough addi tional material added to bear the weight of the construction equipment without disturbing the

subgrade. When compacted thickness is six inches or less, graded aggregate shall be placed in one lift.

3.3 COMPACTING AND FINISHING BASE

A. Single-Course Base: For single-course base, after the spreading is completed, the entire surface shall be scarified and then shaped so as to produce the required grade and cross-section, free of scabs and laminations, after compaction.

B. Multiple-Course Base: For multiple-course base, the first course shall be cleaned of foreign material and bladed and brought to a surface cross-section approximately parallel to that of the finished base. Prior to the spreading of any material for the upper course, the density tests for the lower course shall be made, and the County shall have proof that the required compaction has been obtained. After the spreading of the material for the second course is completed, its surface shall be finished and shaped so as to produce the required grade and cross-section after compaction, and free of scabs and laminations.

C. Moisture Content: When the material does not have the proper moisture content to ensure the required density, wetting or drying will be required. When water is added, it shall be uniformly mixed-in by disking to the full depth of the course which is being compacted. Water shall be added before beginning compaction operations. Wetting or drying operations shall involve manipulation, as a unit, of the entire width and depth of the course which is being compacted. This shall be performed utilizing the speedy moisture meter.

3.4 DENSITY REQUIREMENTS

As soon as proper conditions of moisture are attained, the material shall be compacted to a density of not less than 98% of the modified proctor maximum density as determined by AASHTO T-180 (Modified Proctor.)

3.5.1 TESTING SURFACE, PROTECTION, AND MAINTENANCE

A. Density Tests: A minimum of at least one field density test on each course of compacted base shall be performed for every 500 square yards, or every 300 linear feet of road pavement, or as directed by the Engineer. Additional tests may be made if deemed necessary by the Engineer and/or County/CEI.

B. During final compacting operations, if blading of any areas is necessary to obtain the true grade and cross-section, the compacting operations for such areas shall be completed prior to making the density tests on the finished base.

C. Correction of Defects: Contamination of Base Material: If, at any time, the subgrade material should become mixed with the base course materials, the Contractor shall, without additional compensation, dig out and remove the mixture, reshape and compact the subgrade and replace the materials removed with clean base material, which shall be shaped and compacted as specified above.

D. Cracks and Checks: If cracks or checks appear in the base, either before or after priming, which in the opinion of the County, would impair the structural efficiency of the base, the Contractor shall remove the cracks or checks by re-scarifying, reshaping, adding base material where necessary, and re-compacting, without additional compensation.

E. Compaction of Widening Strips: Where base construction consists of widening strips and the trench width is not sufficient to permit use of standard base compaction equipment, compaction shall be accomplished by use of vibratory compactors, trench rollers, mechanical plate tampers, or other special equipment which will achieve the density requirements specified herein. When multiple-course base construction is required by the plans or specifications, the required compaction shall be achieved in each course prior to spreading material for the overlaying course.

F. Testing Surface: The finished surface of the base course shall be checked from the required crown and ensure longitudinally a smooth, consistent surface for the placement of the asphalt course(s). All irregularities, greater than 1/4 inch per 15' straight edge test, shall be corrected, after which the entire area shall be re-compacted and tested as specified herein before. In the testing of the surface, the measurements will not be taken in small holes caused by individual pieces of rock having been pulled out by the grader.

G. Priming and Maintaining:

Priming: The prime coat shall be applied only when the base meets the specified density requirements and the moisture content in the top half of the base does not exceed 90% of the optimum moisture of the base material. At the time of priming, the base shall be firm, unyielding and in such condition that no undue distortion will occur. See FDOT Prime Coat Specification.

Maintaining: The Contractor will be responsible for assuring that the true crown and template are maintained, with no rutting or other distortions, and that the base meets all the requirements, at the time the surface course is applied.

H. Thickness Requirements:

Measurements: Thickness of the base shall be measured at intervals in

such a manner that each test represents 500 square yards, or every 300 linear feet of road pavement, or as otherwise directed by the County. Measurements shall be taken at various points on the cross-section, through holes not less than three inches in diameter.

Areas Requiring Correction: Where the compacted base is deficient by more than ½ inch from the thickness called for in the plans, the Contractor shall correct such areas. The affected areas shall then be brought to the required state of compaction and to the required thickness and cross-section.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT:

The quantity to be paid for will be the area, in square yards, completed and accepted.

4.2 BASIS OF PAYMENT:

Price and payment will be full compensation for all work specified in this section, including dust abatement, correcting all defective surfaces and deficient thickness, removing cracks and checks, the additional aggregate required for such crack elimination, and the prime coat.

END OF SECTION 02400

SECTION 02410 – RECYCLED CONCRETE AGGREGATE BASE
(CRUSHED CONCRETE)

PART 1 – GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of contract, including General and Supplementary Conditions and other Specification Sections, apply to the work of this section.

1.2 The County recognizes the beneficial reuse of construction materials where said materials can be used in a manner that provides a construction product meeting specifications adopted by state and/or federal agencies. As such, the County shall allow, as noted below, the use of Recycled Concrete Aggregate (RCA) for the purpose of constructing an aggregate base course for the placement of an asphaltic concrete surface course in accordance with this section.

1.3 This section shall conform to section 2400 G.A.B. except as noted.

1.4 SPECIFIC CONSENT REQUIRED

Recycled Concrete Aggregate may only be used on projects with specific written consent of the County Engineer, or designee, subject to the conditions outlined herein. No such permission shall be given until the requirements of Items 2.1 through 3.1.A-D have been affirmatively addressed by the Engineer of Record for the project. Additionally, construction may not proceed until the requirements of Item 3.2.B have been addressed. Should construction commence more than six months after the date of the geotechnical report and/or roadway locations and/or elevations change, a geotechnical addendum shall be submitted confirming groundwater elevations. Should County staff observe differing construction or material conditions after approval; additional testing or re-evaluation of existing conditions for use may be required. RCA installations not in compliance with these specifications shall be subject to removal and replacement.

PART 2 - PRODUCTS

2.1 MATERIALS

The material requirements of Recycled Concrete Aggregate shall be in accordance with the Florida Department of Transportation Special Provisions Specification Section 204, “Graded Aggregate Base.”

A. Recycled Concrete Aggregate used shall not be required to comply with FDEP source approval requirements specified in FAC 62-701.730 or be qualified as a clean debris source under FDEP rules, as outlined in Florida Department of Transportation Special Provisions Specification Section 204-2.2, “ Graded Aggregate Base.” The aggregate supplied shall be

capable of meeting the requirements outlined in this item. NO material shall be used that has been obtained from potentially contaminated sources that may contain asbestos or other hazardous materials.

PART 3 - EXECUTION

3.1 SPECIFIC USE & LOCATION REQUIREMENTS

A. The use of Recycled Concrete Aggregate shall be in accordance with the Florida Department of Transportation *Special Provisions Specification Section 204, "Graded Aggregate Base."* It should be noted RCA may not be used on FHWA funded projects.

B. Unless the Engineer of Record can demonstrate that the grading plan provides a minimum vertical separation of 18 inches between the bottom of the base and the seasonal high water table provided in the geotechnical report, permanent groundwater control measures shall be incorporated in the roadway design (i.e. under drains with positive out falls, etc.). If the subsurface conditions encountered in the geotechnical study indicate the presence of, or the potential for, perched groundwater, the geotechnical engineer shall address the appropriate measures to remedy perched groundwater in the geotechnical report or addendum.

C. The Engineer of Record shall as part of the original construction plans approved by the County or by addendum approved by the County provide construction details and specifications for the road section(s) to be used with RCA. The section shall include material types, thickness requirements, and compaction requirements for all materials required for the flexible pavement section. The plan and profiles shall detail groundwater levels (apparent or perched) and the use of under drains with positive out falls, where applicable/appropriate. Where under drains are required, they shall be detailed in cross section relative to the road section. The Engineer of Record shall also provide calculations which detail the calculated capacity of all components of the underdrain section, transmission pipes and receiving system.

D. If, during the time period of construction, water is observed bleeding thru the pavement, new or additional permanent groundwater control measures to a positive, approved, out fall shall be installed. Such measures shall be submitted to the County for review and approval per Item C above.

3.2 TESTING & CERTIFICATION REQUIREMENTS

A. The installation of Recycled Concrete Aggregae shall be in accordance with the Florida Department of Transportation *Special Provisions Specification Section 204, "Graded Aggregate Base."*

B. Upon delivery of RCA to the project site, the contractor, NOT the supplier, shall provide to the County a report from an independent FDOT certified testing laboratory certifying that the material meets the gradation and Limerock Bearing Ratio requirements of Florida Department of Transportation *Special Provisions Specification Section 204, "Graded Aggregate Base."*

C. During the course of construction, quality control samples of RCA delivered to the project site shall be selected under the supervision of the County, or its representative, for gradation testing. Sampling shall be at a minimum frequency of one sample for every 3,600 square yards of in-place base material.

D. All testing shall be in accordance with Florida Department of Transportation *Special Provisions Specification Section 204, "Graded Aggregate Base,"* and/or the County requirements, whichever is more stringent.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT:

The quantity to be paid for will be the area, in square yards, completed and accepted.

4.2 BASIS OF PAYMENT:

Price and payment will be full compensation for all work specified in this section, including dust abatement, correcting all defective surfaces and deficient thickness, removing cracks and checks, the additional aggregate required for such crack elimination, and the prime coat.

END OF SECTION 02410

SECTION 02440 – SUPERPAVE ASPHALT BASE

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of Contract, including General and Supplementary Conditions and other Specifications sections, apply to work of this section.

1.2 SUBMITTALS

Submit certification of compliance with applicable specifications in accordance with *Section 01300, "Submittals".*

1.3 ENVIRONMENTAL CONDITIONS

Construct bituminous courses when underlying course is dry, and when atmospheric temperature is 40°F and rising for courses 1½" or greater, and 45°F and rising for courses less than 1½".

1.4 CONSTRUCTION EQUIPMENT

A. Spreading Equipment: Self-propelled electronically controlled type, unless other equipment is authorized. Spreading equipment shall be capable of spreading hot bituminous mixtures without tearing, shoving, or gouging and to produce a finished surface of specified grade and smoothness. The use of a spreader that leaves indented areas or other objectionable irregularities in the fresh laid mix during operations will not be permitted.

B. Rolling Equipment: Self-propelled pneumatic-tired rollers supplemented by three-wheel and tandem type steel wheel rollers. The number, type and weight of rollers shall be sufficient to compact the mixture to the required density without detrimentally affecting the compacted material. All rollers shall be suitable for rolling hot-mix bituminous pavements and capable of reversing without backlash. Pneumatic-tired rollers shall be capable of being operated both forward and backward without turning on the mat, and without loosening the surface being rolled. Equip rollers with suitable devices and apparatus to keep the rolling surfaces wet and prevent adherence of bituminous mixture.

At the Contractor's option, vibratory rollers especially designed for bituminous concrete compaction may be used, provided rollers do not impair stability of pavement structure and any underlying layers. Repair depressions in pavement surfaces resulting from use of vibratory rollers at no cost to the Owner. Rollers shall be self-propelled, single or dual vibrating drums, and steel drive wheels, as applicable; equipped with variable amplitude and separate controls for energy and propulsion.

C. Hand Tampers: Hand tampers shall weigh not less than 25 pounds and have a tamping face of not more than 50 square inches.

D. Mechanical Hand Tampers: Commercial type, operated by pneumatic pressure or by internal combustion.

PART 2 - PRODUCTS

2.1 MATERIALS

All materials shall conform to the requirements of these Specifications for the pavement sections as shown on the drawings.

PART 3 - EXECUTION

3.1 TRANSPORTATION OF BITUMINOUS MIXTURES

Deliver mixture to the area to be paved in such a manner that the temperature, at the time of dumping into the spreader, shall be not less than 285°F or greater than 34 5°F or that temperature required to obtain the specified compaction. Reject any load that has become wet prior to placing or falls outside of the above temperature ranges.

3.2 PLACING

Provide line and grade stakes as necessary for control. Place grade stakes in lanes parallel to centerline of area to be paved, and suitably space for string lines. Place and compact bituminous courses in such thicknesses as to achieve density and smoothness requirements. Maximum lift of bituminous base course shall not exceed 3 inches. Prior to laying the base course, clean underlying course of foreign and objectionable matter with power blowers, power brooms, or hand brooms in places inaccessible to power equipment, and inspect for compaction and smoothness requirements. The range of temperatures of the mixtures at the time of spreading shall be between 285°F and 345°F. Reject bituminous mixture having a temperature outside these limits when dumped into the hopper of the spreader. Adjust mechanical spreader and regulate speed so that the surface of the course is smooth, and when compacted conforms to depth, cross sections, grades and contours indicated. When irregularities of surface or deficiency in depth is more than specified tolerances, remove defective work and replace with new material. Whenever possible, place the mixture in strips not less than 10 feet wide. Overlap rolling to previously placed strip and extend to overlap first strip. Place mixture as continuously as possible. Shovelers and rakers shall follow spreading equipment, adding hot mixture and raking as required to produce a course that, when completed, shall conform to requirements specified. In areas where the use of machine spreading is impractical, mixture may be spread by hand. Distribute mixture into place from dump boards by means of hot shovels and spread with hot rakes in a uniformly

loose layer of such thickness that, when completed, it conforms to required grade and thickness. Do not dump loads any faster than they can be handled by shovelers and rakers. Paint contact surfaces of previously constructed curbs, manholes, and similar structures with a thin coat of emulsion or other approved bituminous material prior to placing the bituminous mixture.

3.3 COMPACTION OF MIXTURE

A. Affect compaction by rolling. Begin rolling as soon after placing as the mixture will bear the roller without undue displacement. Delays in rolling freshly spread mixture will not be tolerated. Start rolling longitudinally at extreme sides of lanes and proceed toward center of pavement, overlapping on successive strips by at least one-half the width of rear wheel of roller. Alternate trips of roller shall be slightly different lengths. Affect initial longitudinal rolling by the use of steel roller. Make tests for conformity with specified crown, grade and smoothness immediately after initial compression. Before continuing rolling, correct any variations by removing or adding materials, then roll course using pneumatic-tired rollers or tandem rollers, while mixture is hot and in condition suitable for proper compaction. Speed of rollers shall not exceed 3 miles per hour and at all times be slow enough to avoid displacement of hot mixture. Correct any displacement of mixture at once by use of rakes and apply fresh mixture or remove mixture as required. Continue rolling until all roller marks are eliminated. During rolling, moisten rollers to prevent adhesion of mixture to rolling surfaces, but do not permit an excess of water. Provide sufficient rollers for each spreading machine in operation on the job and to handle plant output. In places not accessible to rollers, compact mixture with hot pneumatic or manual hand tampers. Skin patching of an area that has been rolled is not permitted. Remove any mixture that becomes mixed with foreign material or is defective, replace with fresh mixture, and compact to density of surrounding area. Roller shall not pass over unprotected edge until asphalt has cooled to at least 120°F. Contractor shall provide workmen who are capable of performing work incidental to correction of pavement irregularities. After final rolling, permit no traffic of any kind on the pavement until the surface temperature has cooled to at least 120°F. Surface temperature shall be measured with surface thermometers or other satisfactory methods.

B. Testing Base Course:

1. Density: Within the entire limits of the width and depth of the base, obtain a minimum density in all areas of the roadway of 98% of modified Proctor maximum density as determined by AASHTO FM 1-T 180, Method D. Compact the base of any LOT of shoulder pavement to not less than 95% of the modified Proctor maximum density as determined by FM 1-T 180, Method D. Additional tests and cores may be required at the County's discretion.

2. Thickness: Measure thickness throughout the placement of any and all courses. In addition, perform periodic check on the yield during the placement of any and all courses. The maximum allowable deficiency at any point shall not be more than 1/4 inch less than the indicated thickness for the course. The average thickness of the course shall not be less than the indicated thickness. Where he deficiency is more than the specified tolerances, the contractor shall correct each such representative area or areas by removing the pavement in question and replacing with new pavement.

3. Smoothness: Straightedge the compacted surface of the course, utilizing a 15' rolling straightedge, as deemed necessary by the County. Apply a rolling straightedge parallel with the centerline of the road and a non-rolling straightedge at right angles to the centerline of the road after final rolling. Unevenness of the course shall not vary more than plus or minus 3/16 inch in 15 feet. Correct any portion of the pavement showing irregularities greater than that specified.

4. Thicknesses and Density Requirements: The thickness and density shall e checked at intervals not to exceed one per 300 linear feet of roadway, but in any case, should not be less than three tests. Tests shall be staggered to ensure representative sampling.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

ASPHALT BASE COURSE:
The uantity to be paid for will be the area, in square yards, of asphalt base course after adjustment to the equivalent area of specified thickness.

4.2 BASIS OF PAYMENT

ASPHALT BASE COURSE:
Prices and payments will be full compensation for all work specified in this Section.

END OF SECTION 02440

SECTION 02460 - SAND-CLAY BASE

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions apply to this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction* (FDOT 2000 Specs), *Sections 240 and 912*, *Latest Edition.*

1.2 DESCRIPTION OF WORK

This item shall consist of a base course composed of sand-clay mixtures constructed on a subgrade prepared in accordance with the specifications and in conformity with the line and grades shown on the drawings.

1.3 USE

Sand-clay base may only be ued on projects with specific written consent from the County Engineer, or designee, subject to the conditions outlined herein.

Graded aggregate base shall be utilized in unsuitable soils, moisture sensitive areas, where g oundwater fluctuates to within two feet of average grade, adjacent to wetlands/surface waters where the subgrade soils have a low permeability, and for roadways that will be dedicated to the County for maintenance.

PART 2 - PRODUCTS

2.1 MATERIALS

A. All materials shall be secured from sources approved by the County and shall be furnished by the Contractor.

B. Sand-Clay shall consist of natural or artificial mixtures of clay or soil binder and gravel, sand or other aggregates. The materials shall be free from organic matter and trash and shall not contain any aggregate particles that will not pass a one-inch (1") sieve. It shall be uniform and shall not contain lumps or aggregate in sufficient quantity to prevent securing a smooth surface free from pits or pockets.

C. The material passing the 10-mesh sieve shall meet the following requirements:

1. Clay (material smaller than 0.005mm) 8-21%

2. Silt (material from 0.05 to 0.005mm) 0-10%

3. Combined Clay and Silt 8-25%

D. It shall have a plasticity index of not more than 6 and have a liquid limit of not more than 25. The material shall have the minimum limerock bearing ratio (LBR) of 75.

PART 3 - EXECUTION

3.1 PLACING AND MIXING MATERIALS

A. Sand-Clay Base; minimum 6-inch compacted thickness. At least 98 percent of the modified proctor maximum dry density must be achieved throughout the full material thickness. The proposed sand-clay base material must be checked by a registered geotechnical engineer or by using hydrometer testing to determine clay content.

B. The material may be dumped directly on the subgrade, but shall be uniformly distributed. The loose thickness will be checked continuously by the Contractor to insure that the finished base course will have the thickness and shape required by the typical section.

3.2 COMPACTING AND FINISHING SAND-CLAY BASE

A. General: After spreading is completed, the base shall be compacted with water being added as required, until the required density has been obtained.

B. Density Requirements: As soon as the proper condition of moisture is attained, the material shall be compacted to a density not less than 98 percent of maximum density as determined by modified proctor test ASTM 1557.

C. Finishing: Upon completion of the initial compaction, the entire surface shall be scarified and then shaped to exact crown and cross-section. The base shall be re-watered, if needed, before final compaction. Final compaction shall be done with any type compacting equipment, in conjunction with traffic rollers, which will obtain the required density. Compaction shall continue until the required density has been obtained and until free water disappears from the surface.

D. Correction of Defects: If at any time, the sub-grade material should become mixed with the base course material, the Contractor shall, without additional compensation, dig out and remove the mixture, reshape and compact the sub-grade and replace the materials removed with base material, which shall be watered, if needed, and rolled until the

required density is obtained.

E. Priming: Allow base to cure until moisture does not exceed 90 percent of optimum moisture content for the base course material. Priming shall meet the requirements of Section 300 of FDOT *Standard Specifications, Latest Edition.*

3.3 TESTING SURFACE, PROTECTION AND MAINTENANCE

A. Testing Surfaces: The finished surface of the base course shall be true to the grades shown on drawings. All i regularities greater than 3/ 8-inch shall be corrected by scarifying and removing or adding base material as may be required, after which the entire area shall be re-compacted to meet the specified density requirements.

B. Thickness of Base: A three-eighths inch (3/8") under tolerance in the base will be allowed. All areas where the thickness of the completed base is less than the thickness required after such tolerance shall be corrected by scarifying, adding base material and re-compacting.

C. Protection, Priming and Maintaining: The base shall be kept well drained at all times. Wherever ruts or low spots are found, the areas affected shall be brought to grade and, if necessary, shall be kept moist until the prime coat is applied, so as to prevent dusting and raveling.

D. Thicknesses and Density Requirements: The thickness and density shall be checked at intervals not to exceed one per 300 linear feet of roadway. In no case shall less than three t sts be performed. Tests shall be staggered to ensure representative sampling.

E. Paved Areas: Make at least one field density test of each compacted fill layer (subgrade, base, etcetera) for every 300 l inear feet of roadway or equivalent area, but in no case less than three tests. Tests shall be staggered to ensure representative sampling.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

Sand-clay Base to be paid for will be the plan quantity, in square yards.

4.2 BASIS OF PAYMENT

Price and Payment will be full compensation for all work specified in this Section, including all materials; all clearing and grubbing of material pits; all stripping of overburden from the pits, if required; all hauling of material, application of prime and all incidentals necessary to complete the work.

END OF SECTION 02460

SECTION 02500 – SUPERPAVE ASPHALT CONCRETE

PART 1 - GENERAL

1.1 GENERAL

A. Construct a Type SP Asphalt pavement for local agencies using the type of mixture specified in the Contract, or when offered as alternates, as approved.

B. For this Section only, all references to the Department shall mean the County. All references to the Engineer shall mean the Engineer of Record, designated Engineer of Escambia County and/or CEI.

C. The County will accept the work based on one of the following methods as described in Part 5: 1) Certification, 2) Certification and process control testing by the Contractor, 3) acceptance testing by the County, or 4) other method(s) as determined by the Contract.

1.2 LAYER THICKNESSES

A. Use only fine graded Type SP asphalt mixes. Fine graded mixes are defined as having a gradation that passes above the restricted zone when plotted on an FHWA 0.45 Power Gradation Chart.

B. FINE MIXES: The allowable structural layer thicknesses for fine Type SP Asphalt Concrete mixtures are as follows:

Type SP 9.5	1-1 ½ inches
Type SP 12.5	1 ½ - 2 ½ inches
Type SP 19.0	2-3 inches

In addition to the minimum and maximum thickness requirements, the following restrictions are placed on fine mixes when used as a structural course:

Type SP 9.5 - Limited to the final (top) structural layer, one layer only

Type SP 12.5 - May not be used in the first layer of courses over 3 1/ 2 inches thick, nor in the first layer of courses over 2 3/4 inches thick on limited access facilities.

The thickness of the new pavement may be checked by core samples, as determined by the Engineer. The Contractor shall be required to correct any deficiency either by replacing the full thickness; or overlaying the area as directed by the Engineer. County inspection shall be performed and all base failures shall be corrected prior to asphalt installation.

Type SP 19.0 - May not be used in the final (top) structural layer.

C. ADDITIONAL REQUIREMENTS: The following requirements also apply to fine Type SP Asphalt Concrete mixtures:

1. A minimum 1 1/2 inch initial lift is required over an Asphalt Rubber Membrane Interlayer (ARMI).

2. When construction includes the paving of adjacent shoulders (5 feet wide or less), the layer thickness for the upper pavement layer and shoulder shall be the same and paved in a single pass, unless shown differently in the plans.

3. Use the minimum and maximum layer thicknesses as specified in 1.2 B above unless shown differently in the plans. On variable thickness overbuild layers, the minimum allowable thickness may be reduced by 1/2 inch, and the maximum allowable thickness may be increased 1/2 inch, unless shown differently in the plans.

PART 2 - PRODUCTS

2.1 GENERAL REQUIREMENTS

Meet the material requirements specified in F DOT Standard Specifications Division III. Specific references are as follows:

Superpave PG Asphalt Binder or Recycling Agent – Sections 916-1, 916-2
Coarse Aggregate, Stone, Slag or Crushed Gravel – Section 901
Fine Aggregate – Section 902

Aggregates utilized on Escambia County projects must be in accordance with FDOT Qualified Products List

2.2 GRADATION REQUIREMENTS

Combine the coarse and fine aggregate in proportions that will produce an asphalt mixture meeting all of the requirements defined in this Specification and conform to the gradation requirements at d sign as defined in Table 1 bel ow. Aggregates from various sources may be combined.

Table 1
Aggregate Gradation Control Points
(Gradation Design Ranges)

	Type SP Asphalt Mixture (Percent Passing)					
	SP 9.5		SP 12.5		SP 19.0	
Sieve Size	Min.	Max.	Min.	Max.	Min.	Max
1 inch	-	-	-	-	100	-

3/4 inch	-	-	100	-	90	100
1/2 inch	100	-	90	100	-	90

For additional information, refer to AASHTO M-323-04, Table 4						

2.4 AGGREGATE CONSENSUS PROPERTIES

A. Meet the following consensus properties at design for the aggregate blend:

1. Coarse A ggregate A ngularity: When tested in accordance with ASTM D 5821, meet the coarse aggregate angularity requirement defined in Table 3 below.

Table 3
Coarse Aggregate Angularity Criteria
(Minimum Percent Fractured Faces)

	Depth of Top of Pavement Layer From Surface			
	≤4 inches		>4 inches	
	1 or More Fractured Faces (%)	2 or More Fractured Faces (%)	1 or More Fractured Faces (%)	2 or More Fractured Faces (%)
	85	80	60	-
For additional information, refer to AASHTO M-323-04, Table 5				

2. Fine Aggregate Angularity: When tested in accordance with AASHTO T-304, meet the fine aggregate angularity requirement defined in Table 4 below.

Table 4 Fine Aggregate Angularity Criteria		
	Depth of Top of Pavement Layer From Surface	
	≤4 inches	>4 inches
	Minimum Uncompacted Void Content (%)	Minimum Uncompacted Void Content (%)
	45	40
For additional information, refer to AASHTO M-323-04, Table 5		

3. Flat and Elongated Particles: When tested in accordance with ASTM D 4791, use a ratio of maximum to minimum dimensions of 5:1 and do not exceed 10% as the maximum amount of flat and elongated particles.

2.5 USE OF RECLAIMED (MILLED) ASPHALT PAVEMENT

A. General Requirements: Reclaimed Asphalt Pavement (RAP) may be used as a component material of the asphalt mixture subject to the following:

1. The Contractor assumes responsibility for the design of asphalt mixes which incorporate RAP as a component material.

2. For design purposes, the Contractor assumes responsibility for establishing accurate specific gravity values for the RAP material. This may be accomplished by one of the following methods:

   a. Calculation of the bulk specific gravity value based upon the effective specific gravity of the RAP, determined on the basis of the asphalt binder content and maximum specific gravity. The Engineer and/or Engineer of Record will approve the estimated asphalt binder absorption value used in the calculation.

   b. Testing of the extracted aggregate obtained through a vacuum extraction or ignition oven extraction.

3. The amount of RAP material used in the mix is not to exceed 50% by weight of total aggregate.

4. Use a grizzly or grid over the RAP cold bin, in-line roller crusher, screen, or other suitable means to prevent oversized RAP material from showing up in the completed recycled mixture.

If oversized RAP material appears in the completed recycled mix, take the appropriate corrective action immediately. If the appropriate corrective actions are not taken immediately, plant operations should be stopped.

5. Provide stockpiled RAP material that is reasonably consistent in characteristics and contains no aggregate particles that are soft or conglomerates of fines.

6. Provide RAP, having minimum average asphalt content of 4.0% by weight of total mix. The Engineer may sample the stockpile to verify that this requirement is met.

B. Binder for Mixes with RAP: Select the appropriate binder based on the table below. The Engineer and/or Engineer of Record reserves the right to change binder type and grade at design based on the characteristics of the RAP binder, and reserves the right to make changes during production. Maintain the viscosity of the recycled mixture within the range of 4,000 to 12,000 poises. Obtain a sample of the mixture for the Engineer within the first 1,000 tons and at a frequency of approximately one per 4,000 tons of mix.

Binder Grade for Mixes Containing RAP	
% RAP	Asphalt Binder Grade
<20	PG 67-22
20-29	PG 64-22
≥ 30	Recycling Agent
Note: When a PG 76-22 Asphalt Binder is called for in the Contract, limit the amount of RAP material used in the mix to a maximum of 15%.	

PART 3 - GENERAL COMPOSITION OF MIXTURE

3.1 GENERAL

Compose the asphalt mixture using a combination of aggregate (coarse, fine or mixtures thereof), mineral filler, if required, and asphalt binder material. Size, grade and combine the aggregate fractions to meet the grading and physical properties of the approved mix design. Aggregates from various sources may be combined.

3.2 MIX DESIGN

A. Design the Type SP asphalt mixture in accordance with AASHTO PP-28, except as noted herein, to meet the requirements of this Specification. Use only previously approved designs. Prior to the production of any Type SP asphalt mixture, submit the proposed mix design with supporting

test data indicating compliance with all Type SP asphalt mix design criteria.

The Engineer and/or Engineer of Record will consider any marked variations from original test data for a mix design or any evidence of inadequate field performance of a mix design as sufficient evidence that the properties of the mix design have changed, and the Engineer and/or Engineer of Record will no longer allow the use of the mix design.

1. Grading Requirements: Meet Gradation Design Ranges in PART 2.

2. Gyratory Compaction: Compact the design mixture in accordance with AASHTO TP-4. Use the number of gyrations as defined in the table below.

Type SP Design Gyratory Compactive Effort			
	$N_{initial}$	N_{design}	$N_{maximum}$
SP Mixes	7	75	115

3. Volumetric Criteria: Use an air void content of the mixture at design of 4.0% at the design number of gyrations (N_{design}). Meet the requirements of the table below.

Mixture Densification Criteria			
	% G_{mm}		
	$N_{initial}$	N_{design}	$N_{maximum}$
SP Mixes	$\geq$ 89.0	96.0	$\leq$ 98.0

4. VMA Criteria: Meet the requirements of the table below for Voids in the Mineral Aggregate (VMA) of the mixture at the design number of gyrations.

VMA Criteria	
Type Mix	Minimum VMA (%)
SP 9.5	15.0
SP 12.5	14.0
SP 19.0	13.0

5. VFA Criteria: Meet the requirements of the table below for voids filled with asphalt (VFA) of the mixture at the design number of gyrations.

VFA Criteria	
	Design VFA (%)
SP Mixes	65 - 75

6. Dust Proportion: Use an effective dust-to-binder ratio as efined in FDOT Section 334-3.2.5.

7. Moisture Susceptibility: Provide a mixture (4 inch s pecimens) having a retained tensile strength ratio of at least 0. 80 and a minimum tensile strength (dry and unconditioned) of 100 psi.

8. Additional Information: In addition to the requirements listed above, provide t he following information with each proposed mix design submitted for use:

    a. The design number of gyrations (N_{design}).

    b. The source and description of the materials to be used.

    c. The FDOT source number product code of the aggregate components furnished from an FDOT approved source.

    d. The gradation and proportions of the raw materials as intended to be combined in the paving mixture. The gradation of the component materials shall be representative of the material at the time of use. Compensate for any change in aggregate gradation in handling and processing as necessary.

    e. A single percentage of the combined mineral aggregate passing each specified sieve. Degradation of the aggregate due to processing (particularly -No. 200 [-75 µm]) should be accounted for and identified for the applicable sieves.

    f. The bulk specific gravity value for each individual aggregate (and RAP) component as identified in the FDOT aggregate control program.

    g. A single percentage of asphalt binder by weight of total mix intended to be incorporated in the completed mixture, shown to the nearest 0.1%.

    h. A target temperature at which the mixture is to be discharged from the plant and a target roadway temperature (per 30 -6.3). Do not exceed a target temperature of 340°F for modified asphalts and 315°F for unmodified asphalts.

    i. Evidence that the completed mixture conforms to all specified physical requirements.

    j. The name, seal, and/or certification of the Mix Designer.

3.3 REVISION OF MIX DESIGN

During production, the Contractor may request a t arget value revision to a mix design, subject to: (1) the target change falls within the limits defined in the table below, (2) ap propriate data exists demonstrating that the mix complies with production air voids specification criteria, and (3) the mixture gradation meets the basic gradation requirements defined in 2.2 and 2.3.

Limits for Potential Adjustments to Mix Design Target Values	
Characteristic	Limit from Original Mix Design
No. 8 sieve and Coarser	± 5.0%
No. 16 sieve	± 4.0%
No. 30 sieve	± 4.0%
No. 50 sieve	± 3.0%
No. 100 sieve	± 3.0%
No. 200 sieve	± 1.0%
Asphalt Binder Content (1)	± 0.3%
(1) R eductions to t he as phalt bi nder c ontent w ill not be permitted i f the VMA during production is lower than 1.0% below the design criteria.	

Submit all requests for revisions to mix designs, along with supporting documentation, to the Engineer. In order to expedite the revision process, the request for revision or discussions on the possibility of a revision may be made verbally, but must be followed up by a written request. The initial mix design will remain in effect until a change is authorized by the Engineer and/or Engineer of Record. In no case may the effective date of the revision be established earlier than the date of the first communication between the Contractor and the Engineer regarding the revision.

A new design mix will be required for any substitution of an aggregate product with a different aggregate code, unless approved by the Engineer and/or Engineer of Record.

3.4 PAVING EQUIPMENT

A. Mechanical Spreading and Screeding Equipment:

1. General: Provide mechanical spreading and screeding equipment of an approved type that is self-propelled and can be steered. Equip it with a receiving and distribution hopper and a mechanical screed. Use a mechanical screed capable of adjustment to regulate the depth of material spread and to produce the desired cross-section.

2. Automatic Screed Control: For all asphalt courses, placed with mechanical spreading and finishing equipment, equip the paving

machine with automatic longitudinal screed controls of either the skid type, traveling stringline type, or non-contact averaging ski type. Ensure that the length of the skid, traveling stringline, or non-contact averaging ski is at least 25 feet. On the final layer of base, overbuild, structural, and friction courses, use the joint matcher in lieu of the skid, traveling stringline, or non-contact averaging ski on all passes after the initial pass. Furnish a paving machine equipped with electronic transverse screed controls when required by the Contract Documents.

3. Inflation of Tires: When using paving machines equipped with pneumatic tires, the Engineer may require that the tires be ballasted.

4. Screed Width: Provide paving machines on full width lanes that have a screed width greater than 8 feet. Does not use extendable screed strike-off devices that do not provide preliminary compaction of the mat in place of fixed screed extensions. The Contractor may use a strike-off device on irregular areas that would normally be done by hand and on shoulders 4 feet or less in width. When using the strike-off device on shoulders in lieu of an adjustable screed extension, the Contractor must demonstrate the ability to obtain an acceptable texture, density, and thickness. When using an extendable screed device to extend the screed's width on the full width lane or shoulder by 24 inches or greater, an auger extension, paddle, or kicker device is required unless the Contractor provides written documentation from the manufacturer that these are not necessary.

5. Motor Graders: Provide two motor graders for spreading widening courses with prior approval from the Engineer only. Use motor graders that are rated at not less than 6 tons and are self-propelled and power-controlled. Mount them on smooth tread or rib-type tires (no lug types allowed) with a wheel base of at least 15 feet. Equip the front motor grader with a spreader box capable of spreading the mix at the required rate.

6. Rollers:

   a. Steel-Wheeled Rollers: Provide compaction equipment capable of meeting the density requirements described in these Specifications. Provide a tandem steel-wheeled roller weighing a minimum of 8 tons for seal rolling, and for the final rolling, use a separate roller with a minimum weight of 8 tons. Variations from these equirements shall be approved by the Engineer.

b. Traffic Rollers: Provide compaction equipment capable of meeting the density requirements described in these specifications. Provide a self-propelled, pneumatic-tired traffic roller equipped with at least seven smooth-tread, low pressure tires, equipped with pads or scrapers on each tire. Maintain the tire pressure between 50 and 55 psi or as specified by the manufacturer. Use rollers with a minimum weight of 6 tons. Do not use wobble-wheeled rollers. Variations from these requirements shall be approved by the Engineer.

c. Prevention of Adhesion: Do not allow the mixture to adhere to the wheels of any rollers. Do not use fuel oil or other petroleum distillates to prevent adhesion. Do not use any method which results in water being sprinkled directly onto the mixture.

7. Trucks: Transport the mix in trucks of tight construction, which prevents the loss of material and the excessive loss of heat. Provide each truck with a tarpaulin or other waterproof cover mounted in such a manner that it can cover the entire load when required. When in place, overlap the waterproof cover on all sides so that it can be tied down.

8. Coring Equipment: Furnish a suitable saw or drill for obtaining the required density cores.

9. Hand Tools: Provide the necessary hand tools such as rakes, shovels, etc., and a suitable means for keeping them clean.

PART 4 - CONTRACTOR'S PROCESS CONTROL

4.1 GENERAL

A. Personnel: Provide qualified personnel (certified technician) for sampling, testing (by certified lab), and/or sign-off by P.E., and inspection of materials and construction activities. Ensure that qualifications are maintained during the course of sampling, testing and inspection.

Construction operations that require a qualified technician must not begin until the Department verifies that the technician is on the CTQP (Construction Training Qualification Program) list of qualified technicians. The CTQP lists are subject to satisfactory results from periodic Independent Assurance evaluations.

B. Calibration of the Gyratory Compactor: Calibrate the Gyratory Compactor in accordance with the manufacturer's recommendations prior to

producing the mixture for any project. Check the height calibration, the speed of rotation; ram pressure and angle of gyration.

C. Plant Testing Requirements: During the initial production of a mix design, test mix to ensure proper performance and provide results to the department.

D. Roadway Testing Requirements: Areas that demonstrate concerns of the mix design quality or poor/improper compaction efforts may be subject to additional coring and testing as seen fit by the Engineer.

E. Extraction Gradation Analysis: Sample the asphalt mixture at the plant and perform extraction test prior to asphalt being delivered to project. The percent asphalt binder content of the mixture will be determined in accordance with FM 5-563 (ignition oven). The gradation of the extracted mixture will be determined in accordance with FM 1-T 030. All test results will be shown to the nearest 0.01. All calculations will be carried to the nearest 0.001 and rounded to the nearest 0.01. All results shall be provided to the department prior to placement of asphalt on any project.

Run an extraction gradation analysis on the mixture at a minimum frequency of once per 1,000 tons or a maximum of four consecutive days of paving, which ever comes first.

The target gradation and asphalt content will be as shown on the mix design. Any changes in target will require a change in the mix design.

If the percentage of asphalt binder deviates from the optimum asphalt binder content by more than 0.55%, or the percentage passing any sieve falls outside the limits in the table below, immediately resample the mix and test to validate the previous test result, and if needed, make the necessary correction. If the results for two consecutive tests deviate from the optimum asphalt binder content by more than 0.55%, or exceed the limits in the table for any sieve, notify the Engineer and take immediate steps to identify and correct the problem, then resample the mix. If the results from this test deviate from the optimum asphalt binder content by more than 0.55%, or exceed the limits in the table for any sieve, stop plant operations until the problem has been corrected.

Tolerances for Quality Control Tests (Extraction Gradation Analysis)	
Size	Percent Passing
1 inch	7.0
3/4 inch	7.0
1/2 inch	7.0
3/8 inch	7.0
No. 4	7.0
No. 8	5.5
No. 16	5.0
No. 30	4.5
No. 50	4.5
No. 100	3.0
No. 200	2.0

F. Volumetric Control: During poduction of the mix, monitor the volumetric properties of the Type SP asphalt mix with a Type SP Gyratory Compactor to determine the air voids, VMA, VFA, and dust-to-effective asphalt binder ratio (dust proportion) at N_{design}.

Take appropriate corrective actions in order to maintain an air void content at N_{design} between 3.0 and 5.0% during production. When the air void content at N_{design} drops below 2.5 or exceeds 5.5%, stop plant operations until the appropriate corrective actions are made and the problem is resolved to the satisfaction of the Engineer and/or Engineer of Record. Evaluate any failing material in accordance with Part 6.

Determine the volumetric properties of the mixture at a minimum frequency of once per production day when the daily production is less than 1,000 tons. If the daily production exceeds 1,000 tons, monitor the volumetric properties two times per production day.

During normal production, volumetric properties of the mixture will not be required on days when mix production is less than 100 tons. However, when mix production is less than 100 tons per day on successive days, run the test when the accumulative tonnage on such days exceeds 100 tons.

Testing required for volumetric property determination includes AASHTO TP-4, FM 1-T 209, FM 5-563 and FM 1-T 030. Prior to testing samples in accordance with AASHTO TP-4 and FM 1-T 209, condition the test-sized sample for one hour at the compaction temperature in a covered container.

G. Plant Calibration: At or before the start of mix production, perform an extraction gradation analysis of the mix to verify calibration of the plant.

The sample t sted at the start of any project may be utilized for this requirement.

H. Process Control of In-Place Compaction: Develop and implement a method to control the compaction of the pavement and ensure its compliance with the minimum specified density requirements. The department may require the use of a nuclear gauge to test areas suspected of not having proper compaction. Other density measuring devices may be used in lieu of the nuclear density gauge, provided that it is demonstrated to the satisfaction of the Engineer and/or Engineer of Record that the device can accurately measure the relative level of density in the pavement on a consistent basis.

PART 5 - ACCEPTANCE OF THE MIXTURE

5.1 GENERAL

The asphalt mixture will be ac cepted based on one of the following methods as determined by the Engineer and/or Contract Documents:

1. Certification by the Contractor
2. Certification and Process Control Testing by the Contractor
3. Acceptance testing by the Engineer
4. Other method(s) as determined by the Contract

5.2 CERTIFICATION BY THE CONTRACTOR

Submit a Notarized Certification of pecification Compliance letter on company letterhead to the Engineer that all material produced and placed on the project was in substantial compliance with these specifications.

5.3 CERTIFICATION AND PROCESS CONTROL TESTING BY THE CONTRACTOR

Submit a N tarized Certification of Specification Compliance letter on company letterhead to the ngineer that all material produced and placed on the project was in substantial compliance with these specifications, along with supporting test data documenting all process control testing. Utilize an Independent Laboratory as approved by the Engineer for the Process Control testing.

5.4 ACCEPTANCE TESTING BY THE ENGINEER

A. Acceptance at the Plant:

1. The asphalt mixture will be accepted, with respect to gradation and asphalt binder content, based on the results from the start up test. However, any load or loads of mixture which, in the opinion of the Engineer and/or Engineer of Record, are unacceptable for reasons of excessive segregation, aggregates improperly coated, or of excessively high or low temperature will be rejected for use in the work.

2. Acceptance Procedures: Control all operations in the handling, preparation, and production of the asphalt mix so that the percent asphalt binder content and the percents passing the No. 8 and No. 200 sieves will meet the targets from the mix design within the tolerances shown in the table below.

Tolerances for Acceptance Tests	
Characteristic	Tolerance*
Asphalt Binder Content	±0.55%
Passing No. 8 Sieve	±5.50%
Passing No. 200 Sieve	±2.00%
*Tolerances for sample size of n=1.	

Calculations for the acceptance test results for asphalt binder content and gradation (percentages passing the No. 8 and No. 200 sieves) will be shown to the nearest 0.01. Calculations for arithmetic averages will be carried to the 0.001 and rounded to the nearest 0.01.

Payment will be based on the acceptance of the project by the Engineer.

B. Acceptance of the Roadway:

1. Density Control: The in-place density of any questionable section of a course of asphalt mix will be ev aluated by the use of a nuclear gauge and/or by the testing of 6 inch diameter roadway cores.

The Engineer will not perform dnsity testing on leveling courses, open-graded friction courses, or any course which does not show signs of poor /improper compaction efforts. In addition, density testing will not be per formed on t he following areas when they are less than 1 ,000 feet in length: crossovers, intersections, turning lanes, acceleration lanes or deceleration lanes. Compact these courses (with the exception of open-graded friction courses) in accordance w ith t he appropriate rolling pr ocedure a s specified i n these specifications or as approved by the Engineer.

2. Acceptance**:** The completed pavement will be accepted with respect to overall ride, overall appearance, and overall yield as determined by the Engineer or Engineer of Record.

   Areas of question may be tested with a nuclear gauge or by the testing of the density of the cores, as determined by the engineer.

3. Additional Density Requirement: On shoulders with a width of 5 feet or less, compact the pavement in accordance with the rolling procedure (equipment and pattern) as specified herein or as approved by the Engineer. Stop the production of the mix if the rolling procedure deviates from the approved procedure.

4. Surface Tolerance: The asphalt mixture will be accepted on the roadway with respect to surface tolerance by the use of a 15 ft rolling straight edge. The department will determine if the use of a straight edge test is warranted. Unevenness of the course shall not vary more than plus or minus 3/16 inch in 15 feet.

5.5 ADDITIONAL TESTS

The Department reserves the right to run any test at any time for informational purposes and for determining the effectiveness of the Contractor's quality control.

PART 6 - DISPOSITION OF FAILING MATERIAL

Any material that is represented by failing test results will be evaluated to determine if removal and replacement is necessary. Remove and replace any material, if required, at no cost to the Department. The evaluation will be conducted by the Engineer and/or Engineer of Record. If so directed, obtain an engineering analysis, as directed by the Engineer, by the independent laboratory (as approved by the Engineer) to determine if the material can (a) remain in place, for this case the appropriate pay factor will be applied, or (b) be removed and replaced at no cost to the Department. The analysis will be a signed and sealed report by a Professional Engineer licensed in the State of Florida.

PART 7 – MEASUREMENT/PAYMENT

7.1 METHOD OF MEASUREMENT

For the work specified under this Section the quantity to be paid for will be the in-place measurement of the area in square yards unless otherwise stated in the project plan details.

The bid price for the asphalt mix will include the cost of the liquid asphalt or the asphalt recycling agent. There will be no separate payment or unit price adjustment for the asphalt binder material in the asphalt mix.

7.2 BASIS OF PAYMENT

Price and payment will be full compensation for all the work specified under this section.

END OF SECTION 02500

SECTION 02510 – ASPHALT RUBBER MEMBRANE INTERLAYER
(ARMI) CRACK RELIEF

PART 1 – GENERAL

1.1 RELATED DOCUMENTS

A. Drawing and general provisions of Contract, including General and Supplementary Conditions and other Specification Sections, apply to work of this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, *Section 440, and Design Standards, Latest Edition*.

1.2 DESCRIPTION OF WORK

A. Construct an asphalt rubber membrane interlayer composed of a separate application of asphalt rubber binder covered with a single application of aggregate.

PART 2 - MATERIALS

A. Asphalt Rubber Binder: Use ARB-20, or approved equal, meeting the **r**equirements of FDOT *Standard Specification Section 336*.

B. Cover Material: Use Size No. 6 stone, slag, or gravel meeting the requirements of FDOT *Standard Specification Section 901*.

PART 3 - EQUIPMENT

A. Power Broom: Provide a power broom, for cleaning the existing pavement, capable of removing all loose material from the surface.

B. Spreading Equipment: Provide a self-propelled aggregate spreader that can be adjusted to accurately apply the cover material at the specified rate and that spreads the material uniformly.

C. Rollers: Provide self-propelled, pneumatic-tired traffic type rollers equipped with at least 7 smooth tread, low-pressure tires, and capable of carrying a gross load of at least 8 tons. Maintain a minimum tire inflation pressure of 90 psi, or as specified by the manufacturer, such that the air pressure in no two tires varies more than 5 psi. Load the traffic roller as directed by the Engineer.

D. Mixing Equipment: Use mixing equipment for asphalt rubber binder designed for that purpose and capable of producing and maintaining a

homogeneous mixture of rubber and asphalt cement at the specified temperature.

E. Pressure Distributor: Use a pressure type distributor to apply asphalt rubber binder capable of maintaining a homogeneous mixture of rubber and asphalt cement at the specified temperature and consistently apply the material in a uniform manner.

PART 4 - CONTRACTOR'S QUALITY CONTROL (QC) PLAN

Provide the necessary quality control of the asphalt rubber binder and construction in accordance with the Contract requirements. Provide in the QC Plan procedures for monitoring and controlling of rate of application. If the rate of application varies by more than 5% from the rate set by the County, in accordance with 4.6 herein, immediately make all corrections necessary to bring the spread rate into the acceptable range. The County may take additional measurements at any time. The County will randomly check the Contractor's measurement to verify the spread rate.

PART 5 - PREPARATION OF ASPHALT RUBBER BINDER

Combine the materials as rapidly as possible for such a time and at such a temperature that the consistency of the binder approaches that of a semi-fluid material. Use the time and temperature for blending of the asphalt rubber binder as specified in FDOT Standard Specifications Table 336-1. The manufacturer must ensure the material has reached application consistency. If not, the manufacturer will determine if an extender oil or diluents is needed. After reaching the proper consistency, proceed with application immediately. Never hold the mixture at temperatures over 350ºF for more than six hours after reaching that temperature.

PART 6 - CONSTRUCTION PROCEDURE

A. Preparation of Surface: Prior to application of the asphalt rubber binder, clean the existing pavement as specified in FDOT Standard Specifications 300-5.

B. Application of Asphalt Rubber Binder: Apply the asphalt rubber binder only under the following conditions:

1. The air temperature is above 50ºF and rising.

2. The pavement is absolutely dry.

3. The wind conditions are such that cooling of the asphalt rubber binder will not be so rapid as to prevent good bonding of the aggregate.

Uniformly apply the asphalt rubber binder, at the rate of 0.6 to 0.8 gal/yd^2 or as directed by the manufacturer. Use an application rate based on the unit weight as shown in FDOT Standard Specifications, Table 336-1. For conversions to standard 60ºF, refer to FDOT Standard Specifications 300-9. Determine the rate of application after each application operation.

C. Application of Cover Material: Immediately after application of the asphalt rubber binder, uniformly spread the cover material at a rate of 0.26 and 0.33 ft^3/yd^2 or as directed by the County. Determine the application rate at the beginning of each day's production, and as needed to control the operation, a minimum of twice per day. Maintain an application rate such that the pavement is covered uniformly with aggregate, and is one aggregate layer thick. For the cover material, use aggregate that is reasonably free of any adherent coatings and that does not contain excessive moisture. Immediately after the application of cover material, check the surface to ensure a uniform distribution of cover material and a smooth surface.

Do not separate the application of the asphalt rubber binder and the application of the cover material by more than 300 feet, unless approved by the County.

D. Rolling: In order to ensure maximum embedment of the aggregate, cover the entire width of the mat immediately by traffic rollers. For the first coverage, provide a minimum of three traffic rollers in order to accomplish simultaneous rolling in echelon of the entire width of the spread.

After initial rolling, immediately correct all portions of the completed surface that the County deem are defective (not properly covered by aggregates, fat spots, excessive free aggregate, etc.)

Following the first coverage, make additional coverages with traffic rollers as directed by the County.

E. Traffic Control: For the normal sequence of construction operations, place the first course of asphalt concrete overlay over the membrane prior to opening to traffic.

PART 7 - UNACCEPTABLE ASPHALT RUBBER MEMBRANE INTERLAYER

If the asphalt rubber membrane interlayer is unacceptable due to incorrect blending, application rate, or not meeting the requirements of this Section, or damaged prior to placement of the asphalt concrete layer, remove and replace it as directed by the County, at no additional cost to the County. Do not apply excessive amounts of asphalt rubber binder.

PART 8 - PLACEMENT OF ASPHALT CONCRETE OVERLAY

Ensure that the thickness and temperature of the initial layer of asphalt concrete placed on top of the asphalt rubber membrane interlayer are such that the overlay bonds to the interlayer and the underlying layer without voids or excessive binder. Core the asphalt overlay as directed by the County to evaluate the binder and aggregate spread rates, as well as the effectiveness of the asphalt concrete overlay in producing a well-bonded interlayer.

PART 9 – MEASUREMENT/PAYMENT

9.1 METHOD OF MEASUREMENT

A. Asphalt Rubber Membrane Interlayer: The quantity to be paid for will be plan quantity, in square yards, completed and accepted.

B. Bituminous Material (Asphalt Rubber Binder-Interlayer): The quantity will be the volume, in gallons, determined as provided in FDOT Standard Specifications 300-8.

9.2 BASIS OF PAYMENT

A. Asphalt Rubber Membrane Interlayer: Price and payment will be full compensation for all work specified in this Section, including furnishing cover materials, handling, spreading, rolling, bituminous material, and other incidental work necessary to complete this item.

B. Bituminous Material (Asphalt Rubber Binder-Interlayer): Payment will be included in the price of the asphalt rubber membrane interlayer and will be full compensation for furnishing asphalt cement, ground tire rubber, blending and handling.

C. Payment Items: Payment will be made determined by the square yards of in-place product accepted.

END OF SECTION 02510

SECTION 02580 – HOT IN-PLACE RECLAIMED ASPHALT AND RESURFACING

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the contract, including general and supplementary conditions ad other specification sections, apply to work of this section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction Section 327*, *Latest Edition*.

1.2 DESCRIPTION OF WORK

This work consists of rehabilitating the surface layer of the existing asphalt roadway to a depth of one inch and placing a layer of new Hot Mix Asphalt Concrete (HMAC) material over the rehabilitated surface. This will be accomplished with a specially designed machine in a simultaneous process of heating, scarifying, applying an asphalt rejuvenating agent (emulsifier), thoroughly re-mixing and reshaping the existing surface, and application of the final overlay. The overlay of the new HMAC placed over the rejuvenated layer of existing asphalt, shall be in compliance with the lines, grades, thickness and typical cross section established by the County.

The machine that heats, scarifies, rejuvenates, and remixes must also lay the recycled asphalt material, as well as lay the new HMAC material. The County will provide the list of streets and surface selected for this application. Additional pre-heaters may be required to achieve the specified depth, as directed by the County.

PART 2 - MATERIALS

A. Asphalt Recycling Agent (Emulsifier): The County will appove the asphalt-recycling agent. The recycling agent used to restore the plasticity of the existing asphaltic pavement shall be an emulsified agent. The recycling agent shall meet the requirements of ECR 1 or equal. A manufacturer's certification shall be submitted to the County for the recycling agent.

B. Hot Mix Aphaltic Concrete (HMAC): The delivery of the new HMAC will be coordinated with the HMAC supplier by the selected recycling contractor.

PART 3 - JOB CONDITIONS

A. Weather limitation for this work shall be a minimum of 50° F and rising.

B. Prior to the repaving operation, the pavement shall be cleaned so as to be reasonably free from sand, dirt and other deleterious substances that would affect the quality of the recycled mix. No separate payment shall be made for this requirement.

C. Existing manholes, water valves boxes, junction boxes, etc. that do not conform to the finished pavement grades shall be adjusted to finish grade.

D. The Contractor shall be responsible for protecting the areas adjacent to the work from damage. (Heat, etc.)

PART 4 - EQUIPMENT

A. All tools, equipment, and machinery shall be maintained in satisfactory working condition and shall be subject to the approval of the County Engineer.

B. Repaving Machine: The machine shall be an approved, self-contained, self propelled, automated unit that heats, scarifies (or mills), automatically applies recycling agent at a uniform rate, thoroughly mixes, redistributes and levels the existing asphalt to the specified depth, and lays the new HMAC material overlay. The new HMAC must be laid within 30 seconds after the scarification begins to ensure a hot monolithic bond with the recycled asphalt pavement. The machine shall also be capable of reworking the material around manholes and other obstacles; the machine shall be capable of adding and mixing the recycling agent evenly and shall be equipped with a leveling blade and screed for re-grading of the existing asphaltic concrete surface.

C. Pre-heater: This unit shall be hooded to prevent damage to adjacent property, including trees shrubs and landscaping. The heating hood shall be capable of heating the pavement surface to a minimum temperature of 225 degrees F, not to exceed 325 degrees F. This will allow for scarification to the required depth without breaking the aggregate particles or charring the pavement surface.

D. Scarifying and Milling units shall be automatically controlled units in order to control the depth of penetration and to clear utility manholes and other obstructions. The depth of scarification shall be directed by the County. Note: Scarifying depth may vary in range form 3/4 of one inch to 1 ½ inches.

E. Recycling Agent Applicator: This system shall be automatically controlled; the recycling agent must be applied to the scarified material at a uniform rate. The application rate shall be synchronized with the machine's forward speed to maintain a tolerance within ± *5%* of the specified rate.

F. Receiving hopper and Conveying System: The machine shall consist of a

hopper and conveyor system to collect and transport the new HMAC to the finishing unit without segregation of the new material.

G. Recycling Unit: The machine shall consist of a system that mixes and redistributes and levels the scarified material over the width being processed to produce a uniform cross-section of recycled material. The recycling screed shall be heated and have crown control, and be capable of redistributing the recycled material to the desired longitudinal grade and transverse cross section.

H. Finishing unit: The machine shall have an automatic controlled screed to produce a surface conforming to the surface thickness as required by the County. The thickness of the surface course lift shall not exceed 2 inches. This unit shall be capable of a plying the new HMAC to a uniform longitudinal profile and cross slope of 1/4 inch per foot. The finishing screed must be heated and capable of electronically controlling the cross slope, and applying he n ew HMAC to produce a uniform surface and texture.

I. Rollers: Rolling equipment shall be of sufficient type and weight to compact the new HMAC and the recycled material to the required density as specified in Section 2500. Sufficient numbers of rollers (2 minimum) shall be furnished to keep up with the operation. All rolling should be completed before the temperature of the new HMAC drops below 190 F.

PART 5 - TRAFFIC CONTROL

A. Pavement markings shall conform to the requirements of *Section 04040*.

B. Maintenance of Traffic: Suitable methods shall be used by the contractor to protect the new asphalt surface from all types of vehicular traffic without damage. Opening to traffic does not constitute acceptance of work. Conform to requirements of *Section 04060*.

C. The Contractor will maintain at least one-way traffic and shall provide effective Traffic Control at all times. Two-Lane traffic shall be maintained wherever possible.

D. No interruption of access to property shall be made unless prior arrangements acceptable to the occupant or owner of the affected property have been made and approved by the County.

E. Submit a Traffic Control Plan forapproval in accordance with *Section 04060.*

PART 6 - EXECUTION

A. Notify the County at least 48 hours prior to commencement of any paving operation.

B. The heating unit shall produce sufficient heat to soften the pavement uniformly without burning or charring the existing asphalt pavement.

C. The process shall produce a welded, longitudinal joint, the standing edge of the ajoining asphalt pavement shall be fully heated to a width of t least 2 inches beyond the width to be scarified and recycled.

D. Immediately following heating of the pavement, the existing surface shall be scarified (milled) to the specified depth. The machine shall have the capability of maintaining a recycled mat with a minimum temperature of 190°F and a maximum temperature of 2 25°F throughout the repaving operation.

E. Due to the varying locations and properties of the existing asphalt pavement, the following adjustments may be made, if directed by the County.

1. Depth of scarification may be varied to correct existing cross slopes and grades.

2. Application rate for the recycling agent may be adjusted as necessary to maintain a uniform mixture.

3. Spot leveling may be necessary.

4. Variable Message Boards may be required. No additional compensation will be made for these traffic control devices after contract is awarded.

F. CLEANUP

The Contractor will keep the work site free from accumulations of waste material, rubbish and debris from the Contractor's performance of the scope of work resulting from the use of all tools, construction equipment, and machinery, and surplus materials, and will leave the site clean and ready for use. The Contractor will restore to their original condition those portions of the work site, such as staging and stockpile areas, not designed for alteration as contained in the Contract Documents. This will include returning the area to the proper grade and slope, as well as replacing sod, if so required by the County.

PART 7 - QUALITY CONTROL

The County has the option of testing to ensure the surface is in compliance with thickness, smoothness, etc. and meets requirements of the specifications as directed by the County and as outlined in *Section 2500*.

Contractor will assign a Quality Control (QC) Supervisor to the project. The QC Supervisor will work in conjunction with the County.

PART 8 - MEASUREMENT/PAYMENT

8.1 METHOD OF MEASUREMENT

A. The accepted quantities of asphalt pavement surface recycled will be measured and paid by the square yard. Pay item, Hot In-Place Recycling, Square Yard.

B. Asphalt recycling agent will be measured by the gallon, used in place, as determined by the County and the Contractor Supervisor. Pay item, Emulsifier, Gallon.

C. New HMAC will be measured by the tons used in place. Pay item, HMAC, Tons.

8.2 BASIS OF PAYMENT

A. Price and payment will be full compensation for all work specified in this Section.

B. No separate payment for traffic control will be made.

C. Spot leveling will be paid for by the measured square yards under the unit price for Hot-In-Place Recycling.

END OF SECTION 02580

SECTION 02600 - STORMWATER SYSTEM

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of Contract, including General and Supplementary Conditions and other Specification Sections, specifically 2300, 3300, and Florida Department of Transportation *Design Standards*, apply to this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction, Sections 425, 430 and 530*, *Latest Edition*.

1.2 SUMMARY

This Section includes stormwater system piping and appurtenances. All labor, material, equipment, appurtenances, services, and other work or costs necessary to construct the facilities and place them into operation shall be furnished by the Contractor.

1.3 SUBMITTALS

A. General: Submit the following in accordance with Conditions of Contract.

B. Shop drawings for drainage pipe, pre-cast concrete storm drainage manholes and catch basins, including frames, covers, and grates.

C. Shop drawings for cast-in-place concrete or field-erected masonry storm drainage manholes and catch basins, including frames and covers.

1.4 QUALITY ASSURANCE

A. Environmental Compliance: Comply with applicable portions of local, state, and federal environmental agency regulations pertaining to stormwater systems impacts.

B. Utility Compliance: Comply with local utility regulations and standards pertaining to relocation, clearances, etc. related to installation of stormwater systems.

C. Quality control to adhere to QA/QL Plan.

1.5 PROJECT CONDITIONS

Site Information: Perform site inspection, research public utility records, and verify existing utility locations. Verify that stormwater system piping may be installed in compliance with design plans and referenced standards. Locate existing stormwater system piping and structures that are out of service and

closed as per 3.8 this section.

1.6 SEQUENCING AND SCHEDULING

A. Notify the County Inspector assigned to the subdivision or Project Coordinator assigned to project prior to pouring backfilling or form work.

B. Coordinate connection to existing private and public drainage system with Owner and/or County.

C. Coordinate with adjacent utilities work.

PART 2 - PRODUCTS

2.1 MATERIALS

2.1.1 PIPE

Meet the following requirements of *FDOT Specifications*, *Latest Edition*:

Reinforced Concrete Pipe	Section 449
Round Rubber Gaskets	Section 942
Corrugated Steel Pipe & Pipe Arch	Section 943
Corrugated Aluminum Pipe & Pipe Arch	Section 945
Corrugated Polyethylene Pipe	Section 948
Polyvinyl Chloride (PVC)	Section 948

2.1.2 MANHOLES

A. Precast Concrete Manholes: Per FDOT Standard Specification 425-5 and ASTM C 478, precast reinforced concrete, of depth indicated with provision for rubber gasket joints.

B. Cast-in-Place Manholes: Per FDOT Standard Specification 425 Cast reinforced concrete of dimensions and with appurtenances indicated.

C. Manhole Frames and Covers: Construct Per FDOT Standard Specification 42 5-3.2 and FDOT Design Standards. All units shall bear the lettering "STORM SEWER" cast into cover. All proposed substitutes must have equal or greater opening sizes and weights.

2.1.3 INLETS

A. Precast Concrete Catch Basins Inlets: Construct per FDOT Standard Specification 425-5.

B. Cast-in-Place Inlets: Construct per FDOT Standard Specification 425 to dimensions and with appurtenances indicated.

1. Bottom, Walls, and Top: Reinforced concrete.
2. Channel and Bench: Concrete.

C. Inlet Frames and Grates: Per FDOT Standard Specification 425-3.2 & FDOT Design Standards. All units shall bear the lettering "STORM SEWER" cast into cover.

2.1.4 END TREATMENT

General: Head wall, apron, and mitered ends, per FDOT Standard Specification 430-4.6.

2.2 CONCRETE AND REINFORCEMENT

A. Concrete: Portland cement mix, 3,000 psi; shall be in accordance with Section 03300.

1. Cement: ASTM C 150, Type II.
2. Fine Aggregate: ASTM C 33, sand.
3. Coarse Aggregate: ASTM C 33, crushed gravel.
4. Water: Potable.

B. Reinforcement: Steel conforming to the following:

1. Fabric: ASTM A 185, welded wire fabric, plain.
2. Reinforcement Bars: ASTM A 615, Grade 60, deformed.

C. Forms:

1. Form Materials: Plywood, metal, metal-framed plywood, or other acceptable panel-type materials to provide full-depth, continuous, straight, smooth exposed surfaces without distortion or defects. Material shall be of size and strength to resist movement during concrete placement and to retain horizontal and vertical alignment until removal.

2. Form Release Agent: Provide commercial formulation form-release agent with a maximum of 350 mg/l volatile organic compounds (VOCs) that will not bond with, stain, or adversely affect concrete surfaces and will not impair subsequent treatments of concrete surfaces. Release agent to be within allowable volatile limits according to applicable local, state and federal codes.

2.3 MASONRY

Materials for accessories shall be per FDOT Standard Specification 949. Mortar shall be one part Portland cement and three parts masonry sand to which shall

be added lime putty in the amount of 50% of the volume of cement. Special commercial mortar mixes may be used if approved by the Engineer. All masonry materials shall conform to the latest applicable ASTM specifications. Set all masonry units in full beds of mortar, with full joints and strike all joints flush. Masonry reinforcements shall be galvanized Dur-O-Wal, or approved equal, and shall be installed at every other bed joint. Hollow block shall be poured solid with re-bar as designed.

2.4 CURING MATERIALS

Conform to FDOT Standard Specification 520-8.

2.5 BEDDING STONE

Subbase or base materials shall meet requirements of FDOT Standard Specification 530-2.3.

PART 3 - EXECUTION

3.1 EXCAVATIONS FOR MANHOLES, INLETS, AND PIPE

Excavation shall be sufficient enough to leave at least 12 inches in the clear between their outer surfaces and the embankment. Excavation for all structures shall be made to the dimensions and elevations indicated on the drawings. Where the excavation is made below the indicated elevations, the excavation shall be restored to the proper elevation with compacted suitable material without extra compensation.

3.2 PREPARATION OF FOUNDATION FOR BURIED STORMWATER SYSTEMS

A. Grade trench bottom to provide a smooth, firm, stable, and rock-free foundation, throughout the length of the pipe.

B. Remove unstable, soft, and unsuitable materials at the surface upon which pipes are to be laid, and backfill with bedding stone per FDOT Standard Specification 530-2.3 to indicated level.

C. Shape bottom of trench to fit bottom of pipe. Fill unevenness with tamped sand backfill. Dig bell holes at each pipe joint to relieve the bells of all loads and to ensure continuous bearing of the pipe barrel on the foundation.

3.3 PIPE INSTALLATION

A. Drawings (plans and details) indicate the general location and arrangement of the underground stormwater system piping. Location and arrangement of piping layout takes into account many design considerations. Install the piping as indicated, to the extent practical.

Deviations shall be approved by the County.

B. Install piping beginning at low point of systems, true to grades and alignment indicated with unbroken continuity of invert. Place bell ends of piping facing upstream. When installing gaskets, seals, sleeves, and couplings, follow manufacturer's recommendations for use of lubricants, cements, and other installation requirements. Maintain swab or drag in line and pull past each joint as it is completed.

The pipe shall be carefully examined for defects and the inside cleaned. After placing pipe in the ditch, the ends shall be wiped free from all dirt, sand and foreign material. All pipe and joints shall be made, handled, and installed in strict accordance with the manufacturer's recommendations and instructions. Install pipe in accordance with FDOT Standard Specification 430.

C. Install piping pitched down in direction of flow, at minimum slope per plans and in accordance with manufacturer's recommendations, specifications, and design plans.

D. Boring: Install pipe under streets or other obstructions that cannot be disturbed, by boring, jacking, or a combination of both. These methods of installation are not allowed for newly paved roadways. Utility conduit should be installed prior to paving.

E. All RCP joints shall be sock/filter wrapped prior to backfilling unless a manufacturer recommended coupling is used.

F. Field repairs of pipeline shall be in strict accordance with manufacturer's recommendations and specifications.

G. Only conventional concrete pipe shall be allowed under dedicated County roads.

H. Pipe Cover: Cover shall be a minimum of 12", unless approved by the County.

I. Pipe Size: Minimum Pipe size shall be 18" diameter or equivalent, unless approved by the County.

3.4 MANHOLES

A. General: Install manholes complete with accessories as indicated. Form continuous concrete or split pipe section channel and benches between inlets and outlet. Set tops of frames and covers flush with finish surface where manholes occur in pavements. Elsewhere, set tops 3 inches above finished grade, unless otherwise indicated.

B. Place precast concrete manhole sections as indicated, and install in accordance with ASTM C 891.

C. Construct cast-in-place manholes as indicated.

D. Provide rubber joint gasket complying with ASTM C443 at joints of sections; or apply bituminous mastic coating at joints of sections.

3.5 INLETS

A. Construct inlets to sizes and shapes indicated per FDOT Standard Specification 425-6, or as modified in the plans.

B. Set frames and grates to elevations indicated.

C. Inlet throat openings larger than 7" in height must be equipped with horizontal trash bar(s). Trash bar(s) shall be 1” diameter galvanized rod installed in the center of the opening, or evenly spaced if more than one is used.

3.6 OUTFALL STRUCTURES

A. Pipe systems shall be utilized for primary out fall of retention/detention areas.

B. Weirs and flumes will not be acceptable for use as primary pond outfall structures or to primarily route stormwater to retention/detention areas at the end of down-gradient roadways.

3.7 END TREATMENT

Construct End Treatment per FDOT Standard Specification 430-4.6.

3.8 STORMWATER SYSTEM BACKFILL

Place and compact backfill material in accordance with Section 02300 and FDOT Specification 125-8.

3.9 CLOSING OUT-OF-SERVICE STORMWATER SYSTEMS

A. Out-of-Service Piping: Close open ends of out of service underground piping that is indicated to remain in place. Provide sufficiently strong closures to withstand hydrostatic or earth pressure that may result after pipe ends have been closed and grout filled with non-shrink grout.

1. Close open ends of concrete pipe or structures with not less than 8-inch-thick brick masonry bulkheads and grout fill.

2. Close open ends of other piping with plastic plugs, or other acceptable methods suitable for size and type of material being closed. Wood plugs are not acceptable.

B. Out-of-Service Structures: Remove structure and close open ends of the remaining piping or remove top of structure down to not less than 3 feet below final grade; fill structure with stone, rubble, gravel, compacted dirt, or flowable fill to within 1 foot of top of structure remaining, and fill with concrete.

3.10 FIELD QUALITY CONTROL

A. Refer to Section 03300 for Concrete Testing and 02300 for Earthwork Testing.

B. Cleaning: Interior of piping and structures shall be cleared of dirt and other superfluous material as work progresses. Maintain swab or drag in piping and pull past each joint as it is completed.

1. In large, accessible piping, brushes and brooms may be used for cleaning.

2. Place plugs in ends of uncompleted pipe at end of day or whenever work stops.

3. Flush piping between manholes, to remove collected debris.

C. Interior Inspection: Inspect piping to determine whether line displacement or other damage has occurred.

1. Make inspections after pipe between manholes has been installed, cleaned and approximately 2 feet of backfill is in place, and again at completion of project. Each section of pipe between structures is to show from either end on examination, a full circle of light. Each appurtenance to the system shall be of the specified size and form, to be neatly and substantially constructed, with the top set permanently to exact position and grade.

2. If inspection indicates poor alignment, debris, displaced pipe, infiltration, or other defects, correct such defects and re-inspect. All repairs shown necessary by the inspections are to be made, broken, cracked, or punctured pipe replaced, all deposits removed and the pipe left true to line and grade as herein specified, or shown on the plans, entirely clean and free from abnormalities and ready for use at no additional expense to the County.

3. All stormwater pipes will be subject to video camera inspection by County staff.

D. Trench Backfill Around and Above Pipe:

1. In each compacted backfill layer, perform density test as specified in Section 02300.

2. Other tests may be required at County's discretion.

E. Clean Up: Before final inspection and acceptance, the Contractor shall clean ditches, shape shoulders and restore all disturbed areas, including street crossings, grass plots, to as good as condition as existed before work started. All trenches shall be leveled and loose material removed from pavement gutters, sidewalks, pipelines, and inlet sediment traps, employing hand labor, if necessary.

F. Pipe Inspection: The County may elect for the contractor to perform pipe inspection according to the following.

For pipes installed under the roadway, inspection is to be conducted when backfill reaches 3 feet above the pipe crown or upon completion of placement of the stabilized subgrade. For pipe installed within fills, including embankments confined by walls, inspection is to be conducted when compacted embankment reaches 3 feet above the pipe crown or the finished earthwork grade as specified in the Plans. Prior to conducting the inspection, submit to the Engineer a video recording schedule for videoing, dewater installed pipe, and remove all silt, debris and obstructions. Submit pipe videoing and reports to the County for review prior to the continuation of paving.

For pipe 48 inches or less in diameter, submit to the Engineer a video DVD. For all pipe types, provide a Pipe Observation Summary Report for each pipe run that includes:

1. Actual recorded length and width measurements of all cracks within the pipe.
2. Actual recorded separation measurement of all rigid pipe joints.
3. Detailed written observations of leaks, debris, or other damage or defects.

For flexible pipe types, submit a Pipe Quality Report for each pipe run that includes:

1. Representative diameter of the pipe.
2. Pipe deformation/deflections measurements with the 5% deflection limit clearly delineated.

Reports submitted in electronic media are preferred. The Engineer may waive this requirement for side drains and cross drains which are short enough to inspect from each end of the pipe.

G. Video Report: Provide a high-quality DVD in a MPEG2 format video with a standard resolution of 720 x 480. Use a camera with lighting suitable to allow a clear picture of the entire periphery of the pipe. Center the camera in the pipe both vertically and horizontally and be able to pan and tilt to a 90 degree angle with the axis of the pipe and rotating 360 degrees. Use equipment to move the camera through the pipe that will not obstruct the camera's view or interfere with proper documentation of the pipe's condition.

The video image shall be clear, focused, and relatively free from roll, static, or other image distortion qualities that would prevent the reviewer from evaluating the condition of the pipe. The video will include identification before each section of pipe filmed. The identification will include the project number, the structure number corresponding to the structure number in the Plans for the project, size of pipe, the date and time, and indicate which pipe is being filmed if multiple pipes are connected to the structure. Notes should be taken during the video recording process. Submit these notes along with the video.

Move the camera through the pipe at a speed not greater than 30 feet per minute. Mark the video with the distance down the pipe. The distance shall have an accuracy of one foot per 100 feet. Film the entire circumference at each joint. Stop the camera and pan when necessary to document and measure defects. Position the camera head perpendicular to all defects requiring measurement by the video micrometer.

H. Reinspection: At any time after reviewing the submitted pipe inspection reports, the Engineer may direct additional inspections. If no defects are observed during the reinspection, the County will pay for the cost of the reinspections. If defects are observed, the reinspection and all work performed to correct the defects will be done at no cost to the County. Acceptance of all replacements or repairs will be based on video documentation of the completed work prior to Final Completion.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be (1) the number of inlets, manholes, end walls, mitered end sections, flared end sections, junction boxes, and yard drains, including fittings and appurtenances, completed and accepted; (2) length of pipe to the nearest foot of type specified; and (3) the number of structures of these types (including also valve boxes and monument boxes) satisfactorily adjusted.

4.2 BASIS OF PAYMENT

Price and payment will be full compensation for finishing all materials and completing all work described herein or shown in the plans, including all clearing and grubbing outside the limits of clearing and grubbing as shown in the plans, all excavation except the volume included in the measurement designated to be paid for under the items for the grading work on the project, all backfilling around the structures, the disposal of surplus material, and the furnishing and placing of all the gratings, frames, covers, and any other necessary fittings.

If the County elects for the contractor to perform pipe inspection, payment shall be made under a separate line item and be based upon linear foot of pipe videoing. No additional payment will be made for cleaning new stormwater pipe systems.

END OF SECTION 02600

SECTION 02800 - FENCING

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions, apply to this Section.

B. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, *Section 550 and* Florida Department of Transportation *Design Standards Index 800, Latest Editions*

1.2 SUMMARY

A. This Section includes, but is not limited to, the following:

1. Chain link fence

2. Farm Fence

3. Wood privacy fence

B. Where existing fences are to be relocated, but existing materials are deteriorated or damaged, fencing shall be replaced in kind or as specified by the County.

1.3 PROJECT CONDITIONS

A. Traffic: Conduct fencing operations to ensure minimum interference with roads, streets, walks, and other adjacent occupied or used facilities and to minimize disturbance of the activities of adjacent property owners. Do not close or obstruct streets, walks, or other occupied or used facilities without prior approval.

B. Security: Do not leave any fence unfinished or incomplete which might allow the escape of livestock or household pets, access to a private/public pool or pond, etc without temporary measures in place during construction.

1.4 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Deliver material in manufacturer's original packaging with all tags and labels intact and legible.

B. Handle and store material in such a manner as to avoid damage.

PART 2 - PRODUCTS

2.1 CHAIN LINK FENCING:

Chain link fence shall meet the requirements of FDOT *Design Standards Index 802*.

2.2 GATES

A. Swing Gates: Per FDOT Design Standards Index 802, as modified herein, construct of 1.625" o.d. steel pipe galvanized in accord with ASTM A-53 and weighing 2.27 pounds per lineal foot. Provide gates more than 8 feet wide with either intermediate members or diagonal truss rods. Provide gates less than 8 feet wide with truss rods or intermediate braces. Arrange latches for padlocking to provide accessibility from both sides of the gate. Where a double swing gate is called out, Construct Concrete Anchor rod Base 8” in diameter a nd 4” deep flush with top of ground. Opening in base for rod shall accommodate standard size in accordance with manufacturer and shall be PVC or galvanized steel pipe.

B. Slide Gates: shall be constructed per FDOT Design Standards Index 803.

2.3 ACCESSORIES

Post Tops: pressed steel, or malleable iron. Where top rail is used, provide post tops to permit passage of top rail.

2.4 FARM FENCING

Farm Fencing shall meet the requirements of FDOT Design Standards Index 801.

2.5 WOOD PRIVACY FENCE

A. Where existing fences are to be relocated, but existing materials are deteriorated or damaged, fencing shall be replaced in kind or as specified by the County.

B. Shall be constructed as per industry standard with proper clearance below fence so as not to impede stormwater flow.

PART 3 - EXECUTION

3.1 CHAIN LINK FENCING

Chain link fence shall meet the requirements of FDOT Design Standards Index 802.

A. Drill holes for post footings in firm, undisturbed or compacted soil.

B. Place concrete around posts in a continuous pour, tamp for

consolidation. Check each post for vertical and top alignment.

C. Set Keepers, stops, sleeves and other accessories into concrete as required.

D. Topping of the fence with barbed wire shall not be included unless specifically shown on the plans.

3.2 INSTALLATION

A. Brace Assemblies: install braces so posts are plumb when diagonal rod is under proper tension.

B. Tension Wire: install tension wires before stretching fabric and tie to each post with ties or clips.

C. Fabric: pull fabric taut 2 inches above grade level and tie to posts, rails, and tension wires. Attach fabric to terminal or gateposts by a stretcher bar and clip to other framework so that fabric remains in tension after pulling force is released.

D. Hinge gates to swing through 180 degrees from closed to open.

3.3 FARM FENCING

A. General installation shall be in accordance with FDOT Design Standards Index 801, as modified herein.

B. Fence shall be installed with wire side to the private property side.

C. Topping of the fence with barbed wire shall not be included unless existing farm fence includes barbed wire topping.

3.4 WOOD PRIVACY FENCING:

Shall be constructed as per industry standard with proper clearance below fence so as not to impede stormwater flow.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

A. GENERAL

The quantities to be paid for will be either the number of gates, the length of each type of fence, the number of corner post assemblies, constructed and accepted for the length of each type of fence with all other items necessary for construction as incidental. In addition, extra payment will be

made, for additional lengths of post approved by the County.

B. MEASUREMENT OF FENCE LENGTH

The length of fence to be paid for will be measured along the bottom of the fabric, out-to-out of end posts, in the completed and accepted fence. Measurement for Resetting Fence will be the actual length of existing fence reset, including gates when applicable.

C. CORNER POST ASSEMBLIES, PULL, AND END POST ASSEMBLIES

The number of corner post assemblies and of pull and end post assemblies to be paid for will be the number of such post as semblies constructed and accepted.

4.2 BASIS OF PAYMENT

A. BASIC ITEMS OF FENCING

The contract unit price will be full compensation for all work and materials necessary for the complete installation, including line posts, but not including the corner, end, and pull posts and the assemblies thereof.

B. ITEMS OF POST ASSEMBLIES

The Contract unit prices for the items of Corner Post Assemblies and Pull and End Post Assemblies will include the posts and the complete assemblies therewith for each such item. Approach posts and brace posts will be considered as part of the assembly of the corner, end, or pull post serves as a brace in more than one horizontal line.

C. PAYMENT RATES FOR EXTRA-LENGTH POSTS

For any length of posts in excess of the standard length for each particular type of post, approved by the Engineer as provided above, payment will be made for each foot in excess of the standard length at the percentage of the Contract unit price per foot for the item of Fencing, as shown in the following schedule:

Total Post Length	Steel and Aluminum Posts	Recycled Plastic & Timber Posts
Standard up to 14’	50%	60%
Between 14’ – 20’	60%	80%
Over 20’ *	*	*

*When the length of post exceeds 20 feet, the work of finishing and installing such posts and the costs incidental thereto will be paid for as unforeseeable through a change order.

The standard length of steel, recycled plastic and aluminum posts will be the required length as indicated in the plans for each type and case. The above provisions for extra length payment will apply to end, corner and pull posts.

The payment for additional length of post will include the cost of additional concrete to extend concrete bases, as applicable.

D. GATE PAYMENT

The quantities to be paid for will be full compensation for all labor, materials, posts and associated hardware for the complete installation of the type gate specified in the plans, and accepted by the County.

END OF SECTION 02800

SECTION 02900 - GRASSING

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of Contract, including General and Supplementary Conditions and other Specifications Sections apply to this Section.

B. Florida Department o f Transportation*, Standard Specifications for Road and Bridge Construction,* Section 570 and Section 981, *Latest Edition*

1.2 SUMMARY

Extent of grassing work is as specified or shown on the construction plans. Sodded areas disturbed during construction shall be re-sodded to match existing. Areas disturbed beyond specified construction area shall be sodded, at no additional expense, either to match existing or as per County direction.

1.3 SUBMITTALS

See par agraph 1. 9 A *Quality Control/Quality Assurance Submittals*, Section 1300.

1.4 DELIVERY AND STORAGE

A. General: Seed, fertilizer, sod and other grassing materials shall be stored under cover and protected from damaged which would make them unacceptable for use.

B. Seed: All seed shall be labeled in accordance with U.S. Department of Agriculture Rules and Regulations under the Federal Seed Act in effect on the date of invitation for bids. All seed shall be furnished in sealed standard containers, unless exception is granted in writing. Seed, which has become wet, moldy, or otherwise damaged in transit or in storage, shall not be used.

C. Fertilizer: Fertilizer shall be delivered to the site in the original, unopened containers, each b earing the manufacturer's guaranteed analysis. Any fertilizer, which becomes caked or otherwise damaged, making it unsuitable for use, shall not be used.

D. Sod: Do not use sod which has been cut (stripped) for more than 48 hours. Stack all sod that is not planted 24 hours after cutting and maintain proper moist condition.

PART 2 - PRODUCTS

2.1 MATERIALS

A. Lime: Lime shall be ground limestone (Dolomite) containing not less than 85 percent of total carbonates, and shall be ground to such a fineness that 50-percent will pass a 100-mesh sieve and 90-percent will pass a 20-mesh sieve.

B. Fertilizer: Apply fertilizer at the following rates:
10-10-10 1000 lbs/acre=0.2 lbs/sq yd
13-13-13 770 lbs/acre=0.16 lbs/sq yd

C. Seed: Apply seed at the rate as specified:

GRASS SEEDING RATES (Lbs/Ac)

TYPE OF SEED	**ZONE I**				**ZONE II**			
	COASTAL*		**INLAND**		**COASTAL***		**INLAND**	
	Mar.-Nov.	Nov.-Mar.	Mar.-Nov.	Nov.-Mar.	Mar.-Nov.	Nov.-Mar	Mar.-Nov.	Nov.-Mar.
PERMANENT GRASSES								
Unhulled Bermuda**		90		20		90		20
Hulled Bermuda**	60		15		60		15	
Bahia (Argentine or Pensacola)			180	180			180	180
QUICK GROWING GRASS								
Annual Rye Grass		90		90		90		90
TOTAL POUNDS PER ACRE	60	180	195	290	60	180	195	290

* Locations where salt sensitive plants may be adversely affected by high concentrations of salt in soils, water, or air. This may include seaside locations, low-lying areas subjected to periodic saltwater inundation from storms or high tides, or where salt intrusion into groundwater supply has occurred.

** Bermuda shall not be used in areas adjacent to existing or proposed landscaping.

NOTE: All seeding shall be performed meeting the requirements of Section 570 of the Standard Specifications

Activities such as clearing, grading, and excavating that will disturb one or more acres of land require coverage under the Generic Permit for Stormwater Discharge from Large and Small Construction Activities from the Florida Department of Environmental Protection, and implementation

of appropriate pollution prevention measures to minimize erosion and sedimentation. Please refer to the National Pollutant Discharge Elimination System (NPDES) Permit.

E. Mulch: The mulch material shall be dry straw or hay, consisting of oat, rye, or wheat straw, or of pangola, peanut, coastal Bermuda or Bahia grass, hay or compost; and shall be free from noxious weeds and plants. Any plant officially listed, as being noxious or undesirable by any Federal Agency, any agency of the State of Florida or any local jurisdiction in which the project is being constructed shall not be used. Furnish to the engineer, prior to incorporation onto the project, a certification from the Florida Department of Agriculture and Consumer Services, Division of Plant Industry, stating that the Mulch materials are free of noxious weeds. Any such noxious plant or plant part found to be delivered shall be removed by the Contractor at his expense. Only undeteriorated mulch, which can readily be cut into the soil, shall be used. The “air-dry” weight (as defined by the Technical Association of the Pulp and Paper Industry, for wood cellulose) shall be marked on each package by the producer. Apply mulch at a rate of 2 ton/acre or 1 lb/sq yd.

E. Sod: All sod shall be healthy Centipede Sod unless otherwise required. Sod shall be strongly rooted, free of weeds and undesirable grasses and capable of providing vigorous growth and development when planted. Sod shall match existing species where restoration is required as a result of the Contractor's work.

PART 3 - EXECUTION

3.1 REQUIREMENTS

All areas disturbed by the Contractor's operations, shall be grassed, unless otherwise noted.

3.2 PLANTING SEED

A. Grading: Areas to be grassed shall be graded to remove depressions, undulations, and irregularities in the surface before grassing. Adhere to grades as shown on plans.

B. Tillage: The area to be grassed shall be thoroughly tilled to a depth of four inches using a plow and disc harrow or rotary tilling machinery until a suitable bed has been prepared and no clods or clumps remain larger than 1½ inches in diameter. Remove sticks, roots, and rubbish.

C. Applying Lime: The pH of the soil shall be determined. If the pH is below 5.0, sufficient lime shall be added to provide a pH between 5.5 and 6.5. The lime shall be thoroughly incorporated into the top three to four inches

of the soil. Lime and fertilizer may be applied in one operation.

D. Applying Fertilizer: Fertilizer shall be applied in accordance with the rates specified in Part 2, and shall be thoroughly incorporated into the top three to four inches of soil before sod is installed. FDOT Section 982.

E. Seed and Mulch: Apply in accordance with the rates specified in Part 2.

F. Maintenance: Maintenance shall begin immediately following the last operation of grassing and continue until final acceptance. Maintenance shall include watering, mowing, replanting, and all other work necessary to produce a uniform stand of grass, all at the contractor's expense.

3.3 PLACING SOD

A. Use Centipede sod (Eremochloa ophiuroides) unless otherwise required. The sod shall have a thick mat of roots (minimum 2") with enough adhering soil to assure growth. Apply sod within 48 hours of stripping. Protect sod against drying and breaking of rolled strips.

B. Placement: Prepare the g ound by loosening the soil. Place sod perpendicular to the slope. Place sod on the prepared soil to form a solid mass with tightly fitted joints. Ensure the butt ends and sides of sod strips do not overlap. The seam should have a flush tight transition from new to existing sod with no overlap. Stagger strips to avoid a continuous downhill seam. Tamp or roll lightly to ensure contact with subgrade. Tamp the outer edges of the sodded area to produce a s mooth contour. Work sifted soil into minor cracks between pieces of sod; remove excess to avoid smothering o f adjacent g rass. Water sod thoroughly with a fine spray immediately after planting.

C. Pinning: All sod placed on a slope steeper than 3:1 shall be pinned, at the top of the sod, at a rate listed in the table below:

Sod Size	Pins Required
Square Sod	2 pins per sod square
Mini Roll	3 pins per roll
Standard Rolls	1 pin per linear foot

C. Watering: Keep sod continuously moist to a depth below the root zone for three weeks after placement. If there is no water available to the site, the Contractor shall provide the water. Do not water in excess of 1" (one inch) per square yard per week for establishment.

D. Clean-Up: All excess soil, excess grass materials, stones, pallets and other waste shall be removed from the site daily and not allowed to accumulate. All paved areas shall be kept clean at all times.

E. Maintenance: Maintain sod by watering, fertilizing, weeding, mowing, trimming and other operations such as rolling, re-grading, and re-planting as required to establish a lawn free of eroded or bare areas and acceptable to the County. Where inspected work and materials do not comply with requirements, replace rejected work and continue maintenance until re-inspected by County and found to be acceptable. Remove rejected materials promptly from the project site. FDOT Section 570-4.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be for the following items, completed and accepted: square yards of seeding, square yards of seeding and mulching, and square yards of sodding.

4.2 BASIS OF PAYMENT

Prices and payments will be full compensation for all work and materials specified in this Section.

END OF SECTION 02900

SECTION 03300 – PORTLAND CEMENT CONCRETE

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specification Sections, apply to this Section.

B. Florida Department of Transportation (FDOT), *FDOT Material's Manual, Chapter 9.2, Volume II, FDOT Standard Specifications for Road and Bridge Construction, Section 346, 347, 350, 400, 522, & 925, Latest Edition.*

1.2 SUMMARY

This Section includes concrete work for the following:

1. Roadways
2. Parking lots
3. Curbs and gutters
4. Walkways
5. Pads
6. Flumes
7. Curb Ramps
8. Cast in Place Structures

1.3 SUBMITTALS

A. Product data for proprietary materials and items, including reinforcement and forming accessories, admixtures, joint systems, curing compounds, dry-shake finish materials, and others if requested by the County.

B. Design mixes for each class of concrete. Include revised mix proportions when characteristics of materials, project conditions, weather, test results, or other circumstances warrant adjustments.

C. Material certificates in lieu of material laboratory test reports when permitted by the County. Material certificates shall be signed by manufacturer and Contractor certifying that each material item complies with or exceeds requirements. Provide certification from admixture manufacturers that chloride content complies with requirements.

1.4 PROJECT CONDITIONS

A. Traffic Control: Comply with requirements of Escambia County Specification, Section 04060, "Maintenance of Traffic."

B. Utilize flagmen, barricades, warning signs and warning lights as required, as shown on plans, or as directed by the County.

PART 2 - PRODUCTS

2.1 GENERAL REQUIREMENTS

A. Concrete shall conform to requirements of FDOT Standard Specification, Sections 346, 347, & 522 for curbs, gutters, sidewalks, structures and miscellaneous concrete.

B. Concrete for pavement shall conform to requirements of FDOT Standard Specification, Section 350.

C. Curb Ramps shall conform to FDOT Design Standards Index 304.

2.2 REINFORCING MATERIALS

A. Reinforcing Bars and Tie Bars: ASTM A 615, Grade 60, deformed.

B. Welded Steel Wire Fabric: ASTM A 185.

1. Furnish in flat sheets, not rolls.

C. Deformed-Steel Welded Wire Fabric: ASTM A 497.

D. Fabricated Bar Mats: Welded or clip-assembled steel bar mats, ASTM A184. Use ASTM A615, Grade 60 steel bars, unless otherwise indicated.

E. Joint Dowel Bars: Plain steel bars, ASTM A615, Grade 60. Cut bars true to length with ends square and free of burrs.

F. Hook Bolts: ASTM A307, Grade A bolts, internally and externally threaded. Design hook bolt joint assembly to hold coupling against pavement form and in position during concreting operations, and to permit removal without damage to concrete or hook bolt.

G. Supports for Reinforcement: Chairs, spacers, dowel bar supports and other devices for spacing, supporting, and fastening reinforcing bars, welded wire fabric, and dowels in place. Use wire bar-type supports complying with CRSI specifications. Use supports with sand plates or horizontal runners where base material will not support chair legs.

2.3 CONCRETE MATERIALS

A. Portland Cement: Type I, Type IP, Type IS, Type IP (MS), Type II, or Type III.

1. Use one brand of cement throughout Project.

2. All concrete shall develop a 28-day compressive strength of 3000 psi for non -structural (NS). If any concrete should fail to meet the strength requirement the structure shall be removed as necessary to remove the defective concrete and shall then be rebuilt at the Contractor's expense.

B. Fly Ash: ASTM C618, Class C or Class F.

C. Normal-Weight Aggregates: ASTM C33, Class 4, and as follows. Provide aggregates from a single source.

1. Maximum Aggregate Size: 1-1/2 inches.

2. Do not use fine or coarse aggregates that contain substances that cause spalling.

3. Local aggregates not complying with ASTM C33 that have been shown to produce concrete of adequate strength and durability by special tests or actual service may be used when acceptable to Engineer.

D. Water: Potable.

E. Fiber Reinforcement: Synthetic fibers engineered and designed for secondary reinforcement of concrete slabs, complying with ASTM C1116, Type III.

2.4 ADMIXTURES

A. Provide concrete admixtures that contain not more than 0. 01 percent chloride ions.

B. Air-Entraining Admixture: ASTM C260, certified by manufacturer to be compatible with other required admixtures.

C. Water-Reducing Admixture: ASTM C494, Type A.

D. High-Range Water-Reducing Admixture: ASTM C494, Type F or Type G.

E. Water-Reducing and Accelerating Admixture: ASTM C494, Type E.

F. Water-Reducing and Retarding Admixture: ASTM C494, Type D.

2.5 CONCRETE MIX

A. Prepare design mixes for each type and strength of normal-weight concrete

per FDOT Standard Specification, Section 346-6.2 and FDOT Material's Manual, Chapter 9. 2, Volume II. Use a qualified independent testing laboratory for preparing and reporting proposed mix designs. Do not use the Owner's field quality-control testing laboratory as the independent testing laboratory.

B. Fiber Reinforcement: Add to mix at rate of 1. 5 l b per cu. yd., unless manufacturer recommends otherwise.

C. Adjustment to Concrete Mixes: Mix design adjustments may be requested by Contractor when characteristics of materials, project conditions, weather, test results, or other circumstances warrant.

2.6 CONCRETE MIXING

Ready-Mixed Concrete: Comply with requirements of FDOT Standard Specification, Section 346-7 and FDOT Material's Manual, Chapter 9.2, Volume II.

PART 3 - EXECUTION

3.1 SURFACE PREPARATION FOR CONCRETE PAVEMENT

A. Proof-roll prepared base or subgrade surface to check for unstable areas and verify need for additional compaction. Do not begin concrete work until such conditions have been corrected and are ready to receive paving.

B. Remove loose material from compacted subbase surface immediately before placing concrete.

3.2 EDGE FORMS AND SCREED CONSTRUCTION

A. Set, brace, and secure edge forms, bulkheads, and intermediate screed guides to required lines, grades, and elevations. Install sufficient forms to allow continuous progress of work and so that forms can remain in place at least 24 hours after concrete placement.

B. Check completed formwork and screeds for grade and alignment to following tolerances:

1. Top of Forms: Not more than 1/8 inch in 10 feet.

2. Vertical Face on Longitudinal Axis: Not more than 1/4 inch in 10 feet.

C. Clean forms after each use and coat with form release agent as required ensuring separation from concrete without damage.

3.3 PLACING REINFORCEMENT

A. General: Comply with Concrete Reinforcing Steel Institute's recommended practice for " Placing Reinforcing Bars" for placing and supporting reinforcement. Comply with FDOT Standard Specification, Section 350-7.

B. Clean reinforcement of loose rust and mill scale, earth, ice, or other bond-reducing materials.

C. Arrange, space, and securely tie bars and bar supports to hold reinforcement in position during concrete placement. Secure reinforcemen einforcement against displacement by formwork, construction, or concrete placement operations. Locate and support reinforcing by metal chairs, runners, bolsters, spacers and hangers, as required. Set wire ties so ends are directed into concrete, not toward exposed concrete surfaces. Maintain minimum cover to reinforcement.

D. Install welded wire fabric in lengths as long as practicable. Lap adjoining pieces at least one full mesh and lace splices with wire. Offset laps of adjoining widths to prevent continuous laps in either direction. Use of chairs is required. Welded wire fabric shall not be “pulled” to center of slab.

E. Install fabricated bar mats in lengths as long as practicable. Handle units to keep them flat and free of distortions. Straighten bends, kinks, and other irregularities or replace units as required before placement. Set mats for a minimum 2-inch overlap to adjacent mats.

3.4 JOINTS

A. General: Construct control (contraction) joints, construction, and isolation joints true to line with faces perpendicular to surface plane of concrete. Construct transverse joints at right angles to the centerline, unless indicated otherwise. When joining existing paving, place transverse joints to align with previously placed joints, unless indicated otherwise.

B. Control (Contraction) Joints: Control joints are grooved, formed, or sawed into sidewalks, driveways and concrete pavements so that cracking will occur in these joints randomly. If not specified on drawings, intervals shall be not greater than 10 feet or less than 5 feet. Construct control joints for a depth equal to at least 1/4 of the concrete thickness, as follows:

1. Tooled Joints: Form contraction joints in fresh concrete by grooving and finishing each edge of joint with a radiused jointer tool.

2. Sawed Joints: Form contraction joints with power saws equipped with shatterproof abrasive or diamond-rimmed blades. Cut 1/8-inch-wide joints into hardened concrete when cutting action will not tear, abrade, spawl or ot herwise dam age s urface and before development of

random contraction cracks.

3. Inserts: Form contraction joints by inserting premolded plastic, hardboard, or fiberboard strips into fresh concrete until top surface of strip is flush with paving surface. Radius each joint edge with a jointer tool. Carefully remove strips or caps of two-piece assemblies after concrete has hardened. Clean groove of loose debris.

C. Construction Joints: Set construction joints at side and end terminations of paving and at locations where paving operations are stopped for more than ½ hour, unless paving terminates at isolation joints.

1. Provide preformed galvanized steel or plastic keyway-section forms or bulkhead forms with keys, unless indicated otherwise. Embed keys at least 1-1/2 inches into concrete.

2. Continue reinforcement across construction joints unless indicated otherwise.

D. Expansion Joints: Form expansion joints of preformed joint filler strips abutting concrete curbs, catch basins, manholes, inlets, structures, walks, other fixed objects, and where indicated.

1. Locate expansion joints at intervals of 30 feet, unless indicated otherwise or directed by County.

2. Extend joint fillers full width and depth of joint, not less than ½ inch or more than 1 inch below finished surface where joint sealant is indicated. Place top of joint filler flush with finished concrete surface when no joint sealant is required.

3. Furnish joint fillers in one-piece lengths for full width being placed wherever possible. Where more than one length is required, lace or clip joint filler sections together.

4. Protect top edge of joint filler during concrete placement with a metal, plastic, or other temporary preformed cap. Remove protective cap after concrete has been placed on both sides of joint.

E. Filler and Sealants: Submit specifications to Engineer for approval.

F. Install dowel bars and support assemblies at joints where indicated. Lubricate or asphalt-coat one half of dowel length to prevent concrete bonding to one side of joint.

3.5 CONCRETE PLACEMENT

A. Comply with requirements of FDOT Standard Specification, Sections 350-8

and 400-7 for placing concrete.

B. Deposit and spread concrete in a continuous operation between transverse joints. Do not push or drag concrete into place or use vibrators to move concrete into place. No concrete will be placed on concrete which has hardened sufficiently to cause the formation of seams or planes of weakness. Deposit concrete as nearly as practical to its final location to avoid segregation. When concrete placing is interrupted for more than ½ hour, place a construction joint.

C. Use a bonding agent at locations where fresh concrete is placed against hardened or partially hardened concrete surfaces.

D. Consolidate concrete by mechanical vibrating equipment supplemented by hand-spading, rodding, floating, or tamping. Use equipment and procedures to consolidate concrete complying with FDOT Standard Specification, Section 350-9.

E. Screed paved surfaces with a straightedge and strike off. Use bull floats or darbies to form a smooth surface plane before excess moisture or bleed water appears on the surface. Do not further disturb concrete surfaces prior to beginning finishing operations.

F. Place concrete in two operations; strike off initial pour for entire width of placement and to the required depth below finish surface. Lay welded wire fabric or fabricated bar mats immediately in final position. Place top layer of concrete, strike off, and screed. Remove and replace portions of bottom layer of concrete that have been placed more than 15 minutes without being covered by top layer or use bonding agent if acceptable to County.

G. Curbs and Gutters: Shall be constructed in accordance with FDOT Specs. When automatic machine placement is used for curb and gutter placement, submit revised mix design and laboratory test results that meet or exceed requirements. Produce curbs and gutters to required cross section, lines, grades, finish, and jointing as specified for formed concrete. If results are not acceptable, remove and replace with formed concrete.

H. Slip-Form Pavers: When automatic machine placement is used for paving, submit revised mix design and laboratory test results that meet or exceed requirements. Produce paving to required thickness, lines, grades, finish, and jointing as required for formed paving. Compact subgrade of sufficient width to prevent displacement of paver machine during operations.

I. When adjoining pavement lanes are placed in separate pours, do not operate equipment on concrete until pavement has attained 85 percent of its 28-day compressive strength, or sufficient strength to carry loads without damage or injury. Maturity Method Testing, as outlined in FDOT Standard Specification, Section 353-10.2, should be used to determine

concrete strength.

J. Cold-Weather Placement: Comply with provisions of FDOT Standard Specification, Sections 346-7.4 and 400-7.1.1. Protect concrete work from physical damage or reduced strength that could be caused by frost, freezing actions, or low temperatures.

K. Hot-Weather Placement: Place concrete complying with FDOT Standard Specification, Sections 346-7.5 and 400-7.1.2, and as specified when hot weather conditions exist.

3.6 CONCRETE FINISHING

A. Float Finish: Begin floating when bleed-water sheen has disappeared and the concrete surface has stiffened sufficiently to permit operations. Float surface with power-driven floats or by hand -floating if area is small or inaccessible to power units. Finish surfaces to true planes within a tolerance of 1/8 inch in 10 feet as determined by a 10-foot-long straight-edge placed anywhere on the surface in any direction. Cut down high spots and fill low spots. Refloat surface immediately to a uniform granular texture.

1. Medium-to-Fine-Textured Broom Finish: Draw a soft bristle broom across concrete surface perpendicular to line of traffic to provide a uniform fine line texture finish.

2. Tine Finishes: Apply to curb cut ramps and other areas as noted on the drawings. Finish shall be applied by an approved hand method and shall consist of transverse grooves which are 0.03 to 0.12 inch in width and 0.10 to 0.15 inch in depth, spaced at approximately ½ inch center to center.

B. Final Tooling: Tool edges of paving, gutters, curbs, and joints formed in fresh concrete with a jointing tool to the following radius. Repeat tooling of edges and joints after applying surface finishes. Eliminate tool marks on concrete surfaces. Radius: ½ inch.

3.7 CONCRETE PROTECTION AND CURING

General: Protect freshly placed concrete from premature drying and excessive cold or hot temperatures. Comply with the recommendations of FDOT Standard Specification, Sections 350-11 and 925.

3.8 QUALITY CONTROL TESTING

A. A qualified, accredited testing and inspection laboratory, under the direction of a Professional Engineer, licensed in the State of Florida, shall sample materials, perform tests, and submit test reports during concrete placement as follows:

1. Sampling Fresh Concrete: ASTM C172, except modified for slump to comply with ASTM C94. All concrete should be sampled by ACI certified technicians.

    a. Slump: ASTM C143; one test at point of placement for each compressive-strength test but no less than one test for each day's pour of each type of concrete. Additional tests will be required when concrete consistency changes.

    b. Air Content: ASTM C231, pressure method; one test for each compressive-strength test but no less than one test for each day's pour of each type of air-entrained concrete.

    c. Concrete Temperature: ASTM C1064; one test hourly when air temperature is 40 deg F (4 deg C) and below and when 80 deg F (27 deg C) and above, and one test for each set of compressive-strength specimens.

    d. Compression Test Specimens: ASTM C31; one set of four standard cylinders for each compressive- strength test, unless directed otherwise. Mold and store cylinders for laboratory-cured test specimens except when field-cured test specimens are required.

    e. Compressive-Strength Tests: ASTM C39; one set for each day's pour of each concrete class, plus one set for each additional 50 cu. yd. Test one specimen at 7 days, two specimens at 28 days, and retain one specimen in reserve for earlier or later testing if required. Class I Concrete NS compression test specimens cylinders are not required, except as directed by County.

    f. Contractor shall repair the area to the satisfaction of the Engineer where material was removed for testing purposes. Should any work or materials fail to meet the requirements set forth in the plans and specifications, contractor shall pay for retesting of same.

2. Basis for acceptance of concrete will be per FDOT Standard Specification, Sections 346-8 through 346-11.

B. Test results will be reported in writing to the County, within 24 hours of testing. Reports of compressive strength tests shall contain the Project identification name and number, date and location of concrete placement, name of concrete testing laboratory, concrete type and class, design compressive strength at 28 days, concrete mix proportions and materials, compressive breaking strength, and type of break for both 7-day and 28-day tests.

C. Nondestructive Testing: Non-destructive test methods may be used with approval of the Engineer, but shall not be used as the sole basis for acceptance or rejection.

D. Additional Tests: The testing laboratory will make additional tests of the concrete when test results indicate slump, air entrainment, concrete strengths, or other requirements have not been met, as directed by Engineer. Testing laboratory may conduct tests to determine adequacy of concrete by cored cylinders complying with ASTM C 42, or by other methods as directed.

3.9 REPAIRS AND PROTECTION

A. Remove and replace concrete work that is broken, damaged, or defective, or does not meet the requirements of this Section.

B. Drill test cores where directed by the County when necessary to determine magnitude of cracks or defective areas. Fill drilled core holes in satisfactory concrete areas with Portland cement concrete bonded to paving with epoxy adhesive.

C. Protect concrete from damage. Exclude traffic from concrete pavement for at least 14 days after placement. When construction traffic is permitted, maintain concrete as clean as possible by removing surface stains and spillage of materials as they occur.

D. Maintain concrete work free of stains, discoloration, dirt, and other foreign material. Sweep concrete paving not more than 2 days prior to date scheduled for Substantial Completion inspections.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be the plan quantity, in square yards, of Plain Cement Concrete Pavement, Reinforced Cement Concrete Pavement, square yards of sidewalk, and linear feet of curb and/or gutter.

4.2 JOINTS AND CRACKS

The Contractor shall include the cost for Cleaning and Sealing Joints in the cost of the newly constructed pavement for: (1) transverse and longitudinal joint construction for new pavement; and (2) abutting joints between existing pavement and new pavement.

For replacing joint seals and sealing random cracks in existing Portland cement concrete pavement, the quantity to be paid for will be as specified below:

A. The length of pavement joint that has been satisfactorily cleaned and sealed in existing Portland cement concrete pav ement, as determined by field measurement along the joints, will be paid for at the Contract unit price per foot for Cleaning and Resealing Joints.

B. The length of random cracks in existing Portland cement concrete pavement that have been satisfactorily cut, cleaned, and sealed, as determined by field measurement along the joints, will be paid for at the Contract unit price per foot for Cleaning and Sealing Random Cracks.

4.3 BASIS OF PAYMENT

Prices and payment will be full compensation for all work specified in this Section, including any preparation of the subgrade not included in the work to be paid for under another Contract item; all transverse and longitudinal joint construction, including tie-bars and dowel bars; the furnishing of test specimens; repair of core holes; and all incidentals necessary to complete the work.

END OF SECTION 03300

SECTION 03310 – TIED CONCRETE BLOCK

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specification Sections, apply to this Section.

1.2 SCOPE OF WORK

A. Scope of Work The Contractor shall furnish all labor, materials, equipment, and incidentals required and perform all operations in connection with the installation of tied concrete erosion control mats in accordance with the lines, grades, design and di mensions shown on the Contract Drawings and as specified herein.

1.3 SUBMITTALS

A. The Contractor shall submit to the Engineer all manufacturer's performance research results and calculations in support of the tied concrete block mat system. Calculations and shop drawings shall be provided by the manufacturer for the means and methods necessary to place the mats in accordance with PART 2.A and in accordance with the plans. The shop drawings shall indicate the size and location of mats and placement along with providing the details and how the mats are tied together and are to be moved.

B. The Contractor shall furnish to the Engineer all manufacturers' specifications, literature, shop drawings for the installation of the mats, and any recommendations, if applicable, that are specifically related to this project.

PART 2 – PRODUCTS

2.1 PROJECTS

A. General Tied concrete block mats shall be manufactured or field fabricated from individual concrete blocks tied together with a high strength geogrid.

Each block shall be tapered, beveled and interlocked. Each block shall incorporate interlocking surfaces or connections that prevent lateral displacement of the blocks within the mats when they are lifted for placement.

B. Tied Concrete Block Mat

1. Scope: This specification covers concrete blocks for erosion control

mats used for stabilizing channels.

2. Materials Cementitious Materials - Materials shall conform to the following applicable ASTM specifications:

   a. Portland Cements -Specification C 150, for Portland Cement.
   b. Blended Cements -Specification C 595, for Blended Hydraulic Cements.
   c. Hydrated Lime Types -Specification C 207, for Hydrated Lime Types.
   d. Pozzolans -Specification C 618, for Fly Ash and Raw or Calcined Natural Pozzolans for use in Portland Cement Concrete.

   Aggregates shall conform to the following ASTM specifications, except that grading requirements shall not necessarily apply: Normal Weight -Specification C 33, for Concrete Aggregates.

3. Physical Requirements Durability. The manufacturer shall satisfy the purchaser by proven field performance that the concrete units have adequate durability even if they are to be subjected to a freeze-thaw environment.

TABLE 1. PHYSICAL REQUIREMENTS			
Compressive Strength Net Area Min. psi (mPa)		Water Absorption Max., lb/ft3 (kg/m3)	
Avg. of 3 units	Individual Unit	Avg. of 3 units	Individual Unit
4,000 (27.6)	3,500 (24.)	10 (160)	12 (192)

4. Visual Inspection: All units shall be sound and free of defects that would interfere with the proper placing of the unit or impair the strength or permanence of the construction. Surface cracks incidental to the usual methods of manufacture, or surface chipping resulting from customary methods of handling in shipment and delivery, shall not be deemed grounds for rejection.

5. Sampling and Testing: The purchaser or his authorized representative shall inspect the units upon delivery. Units missing more than 4 blocks per 80 square feet section shall be deemed grounds for rejection.

6. The tied concrete block mats shall have one or more of the following nominal characteristics: Minimum open area of 10%

   The tied concrete block mat shall exhibit resistance to mild concentrations of acids, alkalis, and solvents.

   Polypropylene Geogrid Revetment mat shall be constructed of high tenacity, low elongating, and continuous filament polypropylene fibers.

Interlocking geogrid shall have the following physical characteristics:
Mass/Unit Area: ASTM D-5261 7.0 oz/yd2 240 g/m2
Aperture Size: Measured 1.6 x 1.6 inch 40 x 40 mm
Wide Width Tensile Strength:
Machine Direction (MD) ASTM D-6637 2,055 lb/ft 30 kN/m Cross
Machine Direction (CMD) ASTM D-6637 2,055 lb/ft 30 kN/m
Elongation at Break: ASTM D-6637 6% 6%
Tensile Strength @ 2% :
Machine Direction (MD) ASTM D-6637 822 lb/ft 12 kN/m
Cross Machine Direction (CMD) ASTM D-6637 822 lb/ft 12 kN/m
Tensile Strength @ 5% :
Machine Direction (MD) ASTM D-6637 1,640 lb/ft 24 kN/m Cross
Machine Direction (CMD) ASTM D-6637 1,640 lb/ft 24 kN/m
Tensile Modulus @ 2%:
Machine Direction (MD) ASTM D-6637 41,100 lb/ft 600 kN/m Cross
Machine Direction (CMD) ASTM D-6637 41,100 lb/ft 600 kN/m
Tensile Modulus @ 5%:
Machine Direction (MD) ASTM D-6637 32,900 lb/ft 480 kN/m Cross
Machine Direction (CMD) ASTM D-6637 32,900 lb/ft 480 kN/m

NOTE: Polypropylene geogrid shall be determined by the manufacturer.

Tied concrete block mats are packaged in rolls. These are packaged with high strength lifting straps for moving material into place with an excavator.

PART 3 – CONSTRUCTION

A. Prior to placing the tied concrete block mats, prepare the sub grade as detailed on the plans. All subgrade surfaces prepared for placement of mats shall be smooth and free of all rocks, stones, sticks, roots, other protrusions, or debris of any kind.

B. The prepared surface shall provide a firm unyielding foundation for the mats with no sharp or abrupt changes or breaks in the grade.

C. Apply seed directly to the prepared soil prior to installation of the Tied Concrete Block Mat. Use seed per project specifications.

D. Install mats to the line and grade shown on the plans and according to the manufacturer's installation guidelines.

E. The manufacturer will provide technical assistance during the slope preparation and installation of the tied concrete block mats as needed.

C. Clean forms after each use and coat with form release agent as required ensuring separation from concrete without damage.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The completed work as described shall be measured and paid for at the contract unit price per square yard.

4.2 BASIS OF PAYMENT

Prices and payment for Tied Concrete Block Material will be full compensation for all work (including but not limited to labor, equipment, and materials) specified in this Section, including any preparation of the Subgrade not included in the work to be paid for under another Contract item, and all incidentals necessary to complete the work.

END OF SECTION 03310

SECTION 03350 – PERVIOUS CONCRETE PAVING

PART 1 - GENERAL

1.1 SCOPE OF WORK

A. The work to be completed under this contract includes the furnishing of all labor, materials and equipment necessary for the construction of the dual-use system in accordance with the plans and these specifications.

1.3 QUALITY ASSURANCE

A. Prior to the award of contract, the proposed contractor must submit evidence of having the appropriate tools, and experience, to accomplish the work. Experience will be based on at least one person, in charge of the crew, being NRMCA Certified as a Pervious Concrete "Craftsman",

plus two crew members being Certified by the NRMCA as Pervious Concrete Technicians.

1.4 SPECIAL EQUIPMENT

A. Contractor must show evidence of having the specialized equipment required for the installation of Pervious Concrete Pavements. Pervious Concrete is finished and jointed using three classes of specialized rollers. These rollers consist of form-to-form, steel-pipe rollers which are 8-inches to 12-inches in diameter, and smaller cross-rollers, with tapered edges. A special flanged-roller is used to place control joints in the pervious concrete before the pavement is covered to moist-cure.

B. Project may require the use of vibratory screeds. These screeds must provide an adjustment for the frequency of vibration.

C. Project may require the use of a power-sprayer with a "fogging-nozzle" attachment.

1.5 SUBMITTALS

A. All submittals shall be approved prior to construction.

B. Plans shall be submitted to the County Engineer's Representative, by the Contractor indicating:

1. Proposed Start Date, sequence of construction, and time of completion, for the scope of work.

2. Proposed locations for all construction-joints, and control joints, in the pavement.

3. Sections and Details showing depths, and types of materials, for all locations in the scope of work.

C. A one-square-foot section of the proposed filter fabric shall be submitted to the County Engineer's Representative. Information regarding the properties of the material, manufacturer, suggested method of placement and guarantees shall also be submitted with the fabric.

D. A one-quarter-cubic-foot sample of the proposed washed, crushed-stone/gravel-fill for the infiltration basin (pavement base) shall be submitted to the County Engineer's Representative.

E. A Mix-Design, showing the weights of all materials, for the proposed pervious concrete pavement shall be submitted to the County Engineer's Representative. It shall be the Contractor's responsibility to become familiar with the properties, and workability, of the proposed mix-design.

F. Evidence of qualifications of the Contractor, as per the "Quality Assurance" section shall be submitted to the County Engineer's Representative.

1.6 TEST PANELS

A test panel shall be constructed by the Contractor, and approved by the County Engineer's Representative. The test panel shall become the "standard" by which the Contractor's work is judged for completion of work and payment schedules.

A. The test panel shall be constructed in accordance with the plans and specifications, and shall be a minimum of 225 square-feet. Construction of the test panel shall be accomplished by the same crew, equipment and materials as submitted for approval. The depth of all materials shall be the same as shown on the plans.

B. The cost of constructing, and removing (if necessary), the test panel shall be included in the contract bid.

PART 2 - MATERIALS

2.1 Filter Fabric: The filter fabric shall be a non-woven geotextile fabric suitable for the application, and installed as per the manufacturer's directions.

2.2 Infiltration Basin Gravel-Fill: The Infiltration Basin shall be filled with clean (washed) gravel or crushed stone. The stone material shall be a single-size, and have a diameter of from 3/4-inch to 2-inches, and shall comply with ASTM C33. The total depth of the gravel-fill shall be indicated on the plans.

2.3 Pervious Concrete: The permeable pavement section shall consist of portland-cement based pervious concrete. Pervious concrete has no ACI or ASTM Specifications. It is therefore recommended that the guidelines for Ready-Mixed Concrete, ASTM C94, be used as a general guideline for the manufacturing and delivery of the pervious concrete. It is the responsibility of the Contractor to work with the local Ready-Mix suppliers to finalize a mix-design that will be acceptable for this project. If the mix-design is new to the local supplier, then at least three trial-batches shall be made before the decision is made to use that particular mix design. Both the Contractor, and the Supplier, must agree on any particular mix design before it is submitted to the County Engineer's Representative.

PART 3 - EXECUTION

3.1 Subgrade: The subgrade is defined as the native soil, or finished grade, of any cut-and-fill operation that may be required to bring the soil elevation to proper grade. The top of subgrade is also the bottom of the clean-gravel. The final grade of the top of subgrade shall be <u>flat</u> (no slope), and at the proper elevation to allow for the thickness of the layer of gravel and the pervious concrete pavement. Final compaction of the subgrade shall take into effect the type of soil and permeability requirements, and requirements for pavement support. Compaction should be uniform, and not greater than 95%

3.2 Filter Fabric: The filter fabric shall be placed on top of the final grade by the Contractor following the Manufacturer's directions.

3.3 Infiltration Basin Gravel-Fill: The placement of the gravel should be done to

minimize destruction of the filter fabric, and over-compaction of the subgrade. Compaction of the gravel is unnecessary.

3.4 Pervious Concrete: The Pervious Concrete, including any formwork requirements, placement, jointing and curing, shall be done in accordance with the NRMCA "Pervious Concrete Contractor Certification" guidelines. It is the responsibility of the Contractor to become familiar with the NRMCA document to gain the knowledge required to properly place and finish pervious concrete pavements. The inclusion of the requirements, as set forth in the NRMCA document, becomes an integral part of these specifications.

3.5 Testing: The testing requirements for pervious concrete are generally for permeability and durability. Testing of the fresh pervious concrete is a visual test. The Contractor must have the basic knowledge of what constitutes a proper mix by a visual inspection when the material arrives on the jobsite. Traditional tests for fresh concrete, such as slump and air content, and making cylinders & beams for strength tests are not required for pervious concrete.

3.6 Maintenance: Maintenance of the paving during construction is the Contractor's responsibility. The pervious concrete pavement should be checked periodically for buildup of trash and debris. Trash and debris should be removed from the pavement by hard-vacuum systems as required. The pavement should be pressure-washed with the residue being removed by wet-vacuuming within seven (7) days of requesting final acceptance by the County Engineer.

END OF SECTION 03350

SECTION 04000 - TRAFFIC CONTROL SIGNS

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specifications Sections, apply to work of this section.

B. Unless otherwise specified on the work orders, plan sheets, or in other sections of this contract, all materials and work shall conform to the applicable requirements in the following document:

1. USDOT, Federal Highway Administration, *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Latest Edition*.

2. USDOT, Federal Highway Administration, *Standard Alphabets for Highway Signs and Pavement Markings*, *Latest Edition.*

3. Florida Department of Transportation, *Design Standards for Design, Construction, Maintenance and Utility Operations on the State Highway System*, *Latest Edition*.

4. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, section 700, *Latest Edition*.

1.2 DESCRIPTION OF WORK

The work under this section includes the fabrication and installation of standard and special traffic control signs (warning, regulatory, and guide). The Contractor shall furnish all labor, materials, tools, supplies, equipment, and machinery necessary to fully complete the work shown in the plans and in these specifications.

PART 2 - PRODUCTS

2.1 MATERIALS

All materials shall be new and of good quality unless otherwise specified. The Contractor, at his own expense and if requested by the County, shall furnish samples of material and/or shall certify that the material meets all FDOT requirements. All material or work that has been rejected shall be remedied by the Contractor at his own expense and without delay. If the Contractor fails to promptly remove and/or dispose of rejected material and replace the same, the County may remove and replace the same and deduct the cost of the work from the contract amount.

If the Contractor chooses to use material other than specified herein, a sample of the material with supporting manufacturer's literature and specifications must be submitted to the County for prior approval.

PART 3 - EXECUTION

3.1 UTILITY SPOTS

All street name signs shall be fabricated and installed in accordance with the plans and related documents. Contractor shall contact Sunshine State One Call of Florida (811 or 800-432-4770) at least 48 hours prior to digging or driving posts.

3.2 SIGN INSTALLATION

A. Signs shall be placed at the locations illustrated and/or specified in the plans or related documents. The soil around the post shall be solidly tamped so that the sign will stand vertically.

B. If a sign cannot be placed where indicated due to a conflict, the Contractor shall immediately notify the County for an alternate location.

C. The date when each sign is installed shall be marked in permanent ink on the rear side of each sign.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantity to be paid for will be plan quantity, unless otherwise provided.

4.2 BASIS OF PAYMENT

Price and payment will constitute full compensation for all work specified in this section. Payment for all items relating to traffic control signs will be included in the lump sum Maintenance of Traffic pay item.

END OF SECTION 04000

SECTION 04020 - POST MOUNTED STREET NAME SIGNS

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specifications Sections, apply to work of this section.

B. Unless otherwise specified on the plan sheets or in other sections of this contract, all materials and work shall conform to the applicable requirements in the following document:

1. USDOT, Federal Highway Administration *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Latest Edition*.

2. USDOT, Federal Highway Administration *Standard Alphabets for Highway Signs and Pavement Markings*, *Latest Edition*.

3. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction, Section 700*, *Latest Edition*.

4. FDOT *Design Standards for design, Construction, Maintenance, and utility operations on the State Highway System*, *Latest Edition*.

5. Escambia County *Standard Details for Street Name Signs, Latest Edition.*

1.2 DESCRIPTION OF WORK

The work under this section includes the fabrication and installation of post mounted street name signs as shown or noted on plans. The Contractor shall furnish all labor, materials, tools, supplies, equipment, and machinery necessary to fully complete the work shown in the work order and in these specifications.

PART 2 - PRODUCTS

2.1 MATERIALS

All materials shall be new and of good quality unless otherwise specified. The Contractor, at his own expense, shall, if requested by the County, furnish samples of material and/or shall certify that the material meets all FDOT requirements. All material or work that has been rejected shall be remedied by the Contractor at his own expense and without delay. If the Contractor fails to promptly remove and/or dispose of rejected material and replace the same, the County may remove and replace the same and deduct the cost of the work from the contract amount.

If the Contractor chooses to use material other than specified herein, a sample of the material with supporting manufacturer's literature and specifications must be submitted to the County Contract Administrator for prior approval.

Sign-blades reflective sheeting and posts shall conform to the details for street name signs.

PART 3 - EXECUTION

3.1 UTILITY SPOTS

All street name signs shall be fabricated and installed in accordance with the plans and related documents. Contractor shall contact Sunshine State One Call of Florida (811 or 800-432-4770) at least 48 hours prior to digging or driving posts.

3.2 SIGN LAYOUT AND LEGEND

Letter shape and width of stroke shall comply with FHWA & MUTCD standards. For street name signs, lettering, border and blade dimensions shall be consistent with the County's standard detail for street name signs.

3.3 SIGN INSTALLATION

A. Signs shall be placed at the typical locations shown in the plans. The soil around the post shall be solidly tamped so that the sign will stand vertically.

B. If a sign cannot be placed where indicated due to a conflict, the Contractor shall immediately notify the County for an alternate location.

C. The Contractor shall submit a *Fabricate, Install, and Removal Daily Report Sheet* (Exhibit D) of each sign installation placed for inspection by the County. Contractor shall repair or replace signs deemed unacceptable by the County, at no expense to the County.

3.4 REMOVAL OF SIGNS AND MARKERS

A. Existing metal street name signs and painted concrete street name markers specified for removal shall be removed from the site, delivered, and unloaded, as directed by the County.

B. Holes created by the removal of the signs and markers shall be filled with clean soil, which shall be firmly hand tamped to match the level of the surrounding ground.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be:

1. The num ber and type of street name sign assemblies plus the number and type of auxiliary signs of each designated class complete.

2. The number of existing metal street name signs and concrete markers removed, relocated, modified, and placed on specified supports, of each designated class of assembly complete.

3. The number of each existing sign panel removed, complete.

4.2 BASIS OF PAYMENT

Price and payment will be f ull compensation for furnishing and i nstallation of all materials necessary to complete the signs in accordance with the details shown in the plans; including sign panels complete with sheeting, painting, and message; sign posts and supports, footings, excavation, etc.; and all other work specified in this Section, including all incidentals necessary for the complete item.

END OF SECTION 04020

SECTION 04030 – SPAN MOUNTED STREET NAME SIGNS

PART 1 – GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specifications Sections, apply to work of this section.

B. Unless otherwise specified on the plan sheets or in other sections of this contract, all materials and work shall conform to the applicable requirements in the following document.

1. USDOT, Federal Highway Administration *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Latest Edition*.

2. USDOT, Federal Highway Administration *Standard Alphabets for Highway Signs and Pavement Markings*, *Latest Edition*.

3. Florida Department of Transportation, *Standard Specifications for Road and Bridge Construction*, *Section 700, Latest Edition*.

4. FDOT *Design Standards for Design, Construction, Maintenance, and Utility Operations on the State Highway System*, *Latest Edition*.

1.2 DESCRIPTION OF WORK

The work under this section includes the fabrication of span mounted signs. The Contractor shall furnish all labor, materials, tools, supplies, equipment, and machinery necessary to fully complete the work shown in the work order and in these specifications.

PART 2 – PRODUCTS

2.1 MATERIALS

All materials shall be new and of good quality unless otherwise specified. The Contractor, at his own expense and if requested by the County Contract, shall furnish samples of material and/or shall certify that the material meets all FDOT requirements except as defined herein. All material or work that has been rejected shall be remedied by the Contractor at his own expense and without delay. If the Contractor fails to promptly remove and/or dispose of rejected material, the County may remove and replace the same and deduct the cost of the work from the contract amount.

If the Contractor chooses to use material other than specified herein, a sample of the material with supporting manufacturer's literature and specifications must be submitted to the County for prior approval.

2.2 SIGN BLADES

1. 0.125 gauge, 5052-H38 domestic aluminum alloy, 18" in height by various lengths.

2. 0.50' radius rounded corners free of sharp edges.

3. Color and corrosion resistance per Alodine 1200 F treatment or approved equivalent.

2.3 SIGN FACING

The sign facing and legend may be fabricated by any of the following methods and materials:

A. Green retro-reflectivity ink silk-screened onto white Diamond grade material.

B. Green electronic cuttable prismatic sheeting film over white Diamond grade material.

PART 3 – EXECUTION

3.1 GENERAL

All street name signs shall be fabricated in accordance with the plans and related documents.

3.2 SIGN LAYOUT & LEGEND

Letter shape and width of stroke shall comply with FHWA & MUTCD standards except as modified below for street names:

A. SIGN LAYOUT

1. Left and right margins shall be at least 2 inches.

2. Border width shall be 1" with 2" radius at all corners.

3. Arrows shall be 4" in height and 8" in length and placed 2" above the lower border.

4. Prefixes and suffixes shall be placed 3" below the upper border.

5. Sign lengths shall be in 6” increments as determined by the legend. Minimum length shall be 48 inches.

B. LETTERS

1. Letters shall be FHWA Series “C”, upper and lower case. However, Clearview font should be available upon request.

2. Street Names: Initial letters shall be 12” upper case and subsequent letters shall be 9” lower case. Names shall be centered between the upper and lower borders.

3. Prefixes and suffixes: Initial letters shall be 4” upper case and subsequent letters shall be 3” lower case.

4. Suffixes “nd”,"rd”. “st”, and “th” associated with numbered street names shall be 4” in height and positioned in the upper portion of the primary street name field.

3.3 SIGN INSTALLATION

A. Signs shall be placed at the typical locations shown in the plans.

B. If a sign cannot be placed where indicated on the plans due to a conflict, the Contractor shall immediately notify the County for an alternate location.

3.4 REMOVAL OF SIGNS

Existing metal street name signs specified for removal shall be removed from the site, delivered, and unloaded, as directed by the Engineer.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The quantities to be paid for will be the number of square- feet of overhead signs span wire mounted, complete.

4.2 BASIS OF PAYMENT

Price and payment will be full compensation for furnishing and installation of all materials necessary to complete the signs in accordance with the details shown in the plans; including sign panels complete with sheeting, painting, and message; and all other work specified in this Section, including all incidentals necessary for the complete item.

END OF SECTION 04030

SECTION 04040 – PAVEMENT MARKINGS

PART 1 – GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and General Provisions of the Contract, including General and Supplementary Conditions and other Specifications Sections, apply to work of this section.

B. Unless otherwise specified on the plan sheets or in other sections of this contract, all materials and work shall conform to the applicable requirements in the following documents:

1. Florida Department of Transportation *Roadway and Traffic Design Standards*, Indices 17344 through 17359, *Latest Edition*.

2. Florida Department of Transportation *Standard Specifications for Road and Bridge Construction*, Sections 701, 705, 706, 710, 711, 970, 971, and 993, *Latest Edition*.

3. USDOT, Federal Highway Administration *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Latest Edition*.

1.2 DESCRIPTION OF WORK

The work under this section includes the installation and removal of temporary and permanent pavement markings, textured pavement, reflective markers, galvanized posts, flex posts, delineators, wheel stops, and audible and vibratory pavement markings. The Contractor shall furnish all labor, materials, tools, supplies, equipment, and machinery necessary to fully complete the work shown in the plans and in these specifications. Pavement marking notes on plan sheets shall take precedence over and modify conflicting Technical Specifications.

PART 2 – PRODUCTS

2.1 MATERIALS

All materials shall be new and of good quality unless otherwise specified. The Contractor, at his own expense and if requested by the County, shall furnish samples of material and/or shall certify that the material meets all FDOT requirements. All material or work that has been rejected shall be remedied by the Contractor at his own expense and without delay. If the Contractor fails to promptly remove and/or dispose of rejected material and replace the same, the County may remove and replace the same and deduct the cost of the work from the contract amount.

2.2 TEMPORARY PAVEMENT MARKINGS

Materials for temporary pavement marking shall meet all requirements of FDOT Specs, Section 710, *Latest Edition.*

2.3 PERMANENT PAVEMENT MARKINGS

Materials for permanent pavement markings shall meet all requirements of FDOT Specs, Section 711, *Latest Edition*.

2.4 REFLECTIVE PAVEMENT MARKERS

Materials for reflective pavement markers shall meet all requirements of FDOT Specifications, Sections 706, *Latest Edition*.

2.5 OBJECT MARKERS AND DELINEATORS

Materials for object markers shall meet all requirements of FDOT Specifications, Sections 705, *Latest Edition*.

2.6 AUDIBLE AND VIBRATORY PAVEMENT MARKINGS

Materials for audible and vibratory pavement markings shall meet all requirements of FDOT Specifications, Sections 701, *Latest Edition*.

PART 3 – EXECUTION

3.1 GENERAL

All pavement markings shall be applied in accordance with FDOT requirements.

3.2 TEMPORARY PAVEMENT MARKINGS

Temporary pavement markings shall be installed at the end of each day on new pavement surfaces and shall be maintained until permanent markings are installed.

3.3 PERMANENT PAVEMENT MARKINGS

Permanent pavement markings, including painted stripes, thermoplastic stripes, and reflective pavement markers, shall be installed as shown in the plans. Materials and installation shall conform to applicable standards in the documents referenced in Section 1.1. Installation of permanent markings on all final asphaltic concrete surfaces shall not be accomplished prior to 14 calendar days, nor later than 30 calendar days, after placement of the final surfaces.

3.4 RETROREFLECTIVITY

The Contractor shall, within thirty days of completion, furnish retroreflectivity

readings certifying the materials meet all FDOT requirements as per Part I, 1.1.B.2, Sections 710 and 711.

PART 4 – MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

The engineer or project manager may specify a lump sum or measurement of quantities.

The quantities to be paid for under this Section will be the length in feet or gross mile of Skip Traffic Stripes, the length in feet or gross mile of Solid Traffic Stripes, the number of directional arrows and pavement messages, painted, the area in square feet or of Reflective Paint (Island Nose), and the area in square feet or the length in feet to Remove Existing Markings. Measurement will be taken as the distance from the beginning of the first painted stripe to the end of the last painted stripe with proper deductions made for unpainted intervals will not be included in pay quantity.

4.2 BASIS OF PAYMENT

Prices and payment will be full compensation for all work specified in this Section, including, all cleaning and preparing of surfaces, furnishing all materials, application, curing and protection of all items, protection of traffic, furnishing of all tools, machines and equipment, and all incidentals necessary to complete the work. Final payment will be withheld until all deficiencies are corrected.

END OF SECTION - 04040

SECTION 04060 - MAINTENANCE OF TRAFFIC

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

A. Drawings and general provisions of the Contract, including General and Supplementary Conditions and other Specifications Sections, apply to work of this section.

B. Unless otherwise specified on the plan sheets or in other sections of the specifications, all materials and work shall conform to the applicable requirements in the following documents:

1. *Florida Department of Transportation Design Standards*, *Latest Edition*.

2. *Florida Department of Transportation Standard Specifications for Road and Bridge Construction*, Section 102, *Latest Edition*.

3. USDOT, Federal Highway Administration *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Latest Edition*, Part 6 Temporary Traffic Controls.

4. *FDOT Minimum Specifications for Traffic control and Devices*, *Latest Edition*.

1.2 SUMMARY OF WORK

The work under this section includes the maintenance of traffic within the limits of the project for the duration of construction.

PART 2 – PRODUCTS - Not Used.

PART 3 - EXECUTION

3.1 RESPONSIBILITIES OF CONTRACTOR

A. Control and maintain traffic and provide for the safety of the work area in accordance with Maintenance of Traffic (MOT) Plan included in the contract documents. Contractor shall comply with all aspects of said plan. Conduct operations in a manner that will not interrupt pedestrian and vehicle traffic except as approved by the County Engineer/Traffic Division. Confine the work area to the smallest area practical to allow the maximum use of the street and sidewalk and to reduce any hazard to vehicles and pedestrians to a minimum.

B. Maintain access to properties that adjoin the work. Contact property owners

and assure that access is coordinated prior to commencing work that may block access.

C. Furnish all labor, materials, tools, supplies, equipment, and machinery needed to fully comply with the specifications described on the plan sheets and in this Section. At all times, the Contractor shall use workers and traffic control devices necessary to comply with all applicable provisions contained in the reference documents listed in Section 1.1.

D. The Contractor shall notify the agencies and media listed below in writing, 48 hours in advance, of any work within the road right-of-way that may interfere with vehicle and/or pedestrian traffic.

1. WCOA Radio – Tel: 478-6011; Fax: 478-3971

2. Pensacola News Journal Tel: 435-8500; Fax: 435-8633; Email: news@pensacolanewsjournal.com

3. Escambia County Emergency Management Tel: 471-6315; Fax: 471-6322; Email: bob_boschen@co.escambia.fl.us

4. Escambia County Engineering Tel: 595-3440

5. Escambia County Sheriff Tel: 436-9630; Fax: 436-9128; Email: traffic@escambiaso.com

6. Florida Highway Patrol Tel: 484-5000; Fax: 393-3405; Email: stevepreston@flhsmv.gov

7. Escambia County School District Tel: 469-5591; Fax: 469-5661; Email: transportation@escambia.k12.fl.us and rdoss@escambia.k12.fl.us

8. Escambia County Administration Tel: 595-4900; Fax: 595-4908; Email: Cheryl_Lively@co.escambia.fl.us

9. Escambia County Area Transit Tel: 595-3228; Fax: 595-3222; Email: Ted_Woolcock@co.escambia.fl.us

3.2 PENALTIES AND SUSPENSION OF WORK

The County may verbally direct the Contractor to immediately suspend work if appearance of violation of safety regulations is found. In such an event, Contractor shall immediately stop work and secure any potential hazards from the public until the potential violation is confirmed and/or corrected to satisfaction of the County. Law enforcement officers may be called to assist the County in suspending work if the Contractor is not responsive. Suspension of work for violation of safety

or additional payment.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

A. Maintenance of Traffic: Where the plans require the use of trucks and truck mounted impact attenuators, these items will not be paid for separately but shall be included in the cost of Maintenance of Traffic. Only use those attenuators that have been tested by a facility approved by the Engineer and certified as meeting the requirements as specified in NCHRP 350 and that have been properly maintained.

B. Law Enforcement Services: The quantity to be paid for will be at the Contract unit price per hour for the actual number of officers on the project site. Payment will be made only for those off-duty law enforcement officers specified in the MOT and authorized by the County.

C. When the plans show more than one detour facility is included in the proposal, payment will be made under Maintenance of Traffic.

D. Materials for Driveway Maintenance: The quantity to be paid for will be, in square yards, of all materials authorized by the County, acceptably placed and maintained for driveway maintenance. The quantity will be determined by in place measurement.

4.2 BASIS OF PAYMENT

A. MAINTENANCE OF TRAFFIC (GENERAL WORK): Price and payment will be full compensation for all work and costs specified under this Section except as may be specifically covered for payment under other items.

B. LAW ENFORECEMENT: Prices and payment will be considered full compensation for the services of the off-duty law enforcement officer, including a marked law enforcement vehicle and all other direct and indirect costs.

C. SPECIAL DETOURS: Price and payment will be full compensation for providing all detour facilities shown on the plans and all costs incurred in carrying our all requirements of this Section for general maintenance of traffic within the limits of the detour, as shown on the plans.

END OF SECTION 04060

SECTION 04090 – CONSTRUCTION OF TRAFFIC SIGNALS

PART 1 – GENERAL

1.1 RELATED DOCUMENTS

A. Unless otherwise specified by the County, or in other sections of this specification, all work shall conform with the applicable requirements in the following documents:

1. Florida Department of Transportation, *Design Standards for Design, Construction,* Maintenance and Utility Operations on the State Highway System, *Latest Edition*.

2. FDOT, *Standard Specifications for Road and Bridge Construction*, *Latest Edition*.

3. FDOT, *Minimum Specifications for Traffic Control Signals and Devices, Latest Edition.*

4. United States Department of Transportation (USDOT), Federal Highway Administration, *Manual on Uniform Traffic Control Devices for Streets and Highways*, *Millennium Edition*.

5. *National Electric Code*, including latest revisions.

1.2 DESCRIPTION OF WORK

The work under this section involves the installation and modification of traffic signal equipment. Work will be initiated through the issuance of Work Orders that will identify a specific scope and location.

PART 2 - PRODUCTS

2.1 CONTRACTOR-FURNISHED PARTS AND EQUIPMENT

A. The Contractor shall furnish all transportation, plant, labor, materials, safety signs, supplies, equipment, and other facilities and things necessary to fully complete the work described in this specification.

B. The requirements and procedure described in Sections 603-2, 603-3, 603-5, 603-6, 603-7, and 603-8 of the FDOT *Standard Specifications for Road and Bridge Construction, Latest Edition* shall apply.

2.2 COUNTY-FURNISHED EQUIPMENT INSTALLED BY CONTRACTOR

Where the plans include installation of County-furnished equipment, the County will turn over such equipment to the Contractor when the construction progress allows or as designated in the plans. The County will bear the costs of correcting any defects in the equipment found by the Contractor. The Contractor will maintain the equipment in proper operational condition after pick-up at no cost to the County until either final acceptance or the equipment is returned to the County.

2.3 REMOVED PARTS AND EQUIPMENT

A. Equipment that is removed and suitable for reuse shall be delivered to the County as indicated on the construction plans. Such equipment shall be tagged as to the location from which it was removed.

B. Parts and equipment that are removed and not suitable for reuse, but have salvage value, shall be delivered to the Road Department facility, 601 North Hwy 297A, Cantonment.

C. Parts and equipment that are removed, not suitable for reuse, and without salvage value, shall be properly disposed by the Contractor, at his expense.

PART 3 - EXECUTION

3.1 QUALIFICATIONS

A. The Contractor shall have a sufficient amount of prior satisfactory experience in the construction of all traffic signal components including closed-loop systems and video detection systems.

B. All persons operating and maintaining signal equipment shall be fully trained and qualified. The Contractor shall have all work performed under the direct, on-site, supervision of a person certified at the “Traffic Signal, Level II” level, or higher, by the International Municipal Signal Association (I.M.S.A.). The Contractor shall furnish a copy of the certificate issued by the I.M.S.A. for each technician to the Contract Manager before execution of the contract.

3.2 OPERATIONS

A. The Contractor shall replace entire sidewalk slabs and driveway slabs, at the Contractor’s expense, if they are damaged.

B. All public land corners and monuments encountered shall be protected by the Contractor. Corners and monuments which conflict with the work and in danger of disturbance shall be properly referenced by a Florida registered surveyor prior to beginning work at the site. The Contractor

shall assume all costs associated with restoration of corners and monuments.

C. The Contractor shall coordinate and perform service transfers and adjustments with Gulf Power Company.

D. The Contractor shall remove all surplus materials from the right-of-way within 24 hours.

3.3 REPORTS

A. The Contractor shall test each new ground rod and ground rod assembly in accordance with FDOT standards. Record test results and certify accuracy on a Traffic Signal Resistance Data Sheet (re: Appendix "A"). Furnish the original certified data sheet to the Contract Manager.

B. Contractor shall test each new loop assembly in accordance with FDOT standards. Record test results and certify accuracy on a Traffic Signal Resistance Data Sheet (re: Appendix "A"). Furnish the original certified data sheet to the Contract Manager.

3.4 COMPLETION TIME

The Contractor shall complete work according to the schedule specified in the Work Order. Typically, completion time will be specified according to the representative schedule provided below.

A. Construct school zone flashing beacon assembly (pedestal-mount): complete within 60 days.

B. Construct new multi-phase traffic signal: Order equipment from vendors within 10 business days from date of Work Order. Complete installation within 30 days upon receipt of all equipment from vendors.

C. Install signal head and/or cable to create a left-turn phase: complete within 30 days.

D. Install new controller assembly: Order equipment from vendor within 5 business days from date of Work Order. Complete installation within 30 days upon receipt from vendor.

E. Install pedestrian detector station with or without signals: complete within 30 days.

F. Install new loop assembly: complete within 10 business days.

3.5 INSPECTION AND ACCEPTANCE OF WORK

Acceptance procedures described in Sections 611-2, 611-3, and 611-4 of the FDOT *Standard Specifications for Road and Bridge Construction, Latest Edition*, shall apply unless otherwise specified in the Work Order.

PART 4 - MEASUREMENT/PAYMENT

4.1 METHOD OF MEASUREMENT

Measurement and payment of all items will be made in accordance with the current Construction and Response Maintenance Contract on file with the Escambia County Office of Purchasing.

LAP DIVISION 1 SPECIFICATIONS.

(REV 11-1-16) (1-17)

Construction Checklist Specifications
from
Department of Transportation
Standard Specifications for Road and Bridge Construction

The following excerpts from the Standard Specifications and Special Provisions are provided for use in LAP Specifications as needed in accordance with the Local Agency Program Checklist for Construction Contracts (Phase 58) – Federal and State Requirements (525-070-44)

FROM SECTION 1 – DEFINITIONS AND TERMS:

Contractor's Engineer of Record.

A Professional Engineer registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, who undertakes the design and drawing of components of the permanent structure as part of a redesign or Cost Savings Initiative Proposal, or for repair designs and details of the permanent work. The Contractor's Engineer of Record may also serve as the Specialty Engineer.

The Contractor's Engineer of Record must be an employee of a pre-qualified firm. The firm shall be pre-qualified in accordance with the Rules of the Department of Transportation, Chapter 14-75. Any Corporation or Partnership offering engineering services must hold a Certificate of Authorization from the Florida Department of Business and Professional Regulation.

As an alternate to being an employee of a pre-qualified firm, the Contractor's Engineer of Record may be a pre-qualified Specialty Engineer. For items of the permanent work declared by the State Construction Office to be "major" or "structural", the work performed by a pre-qualified Specialty Engineer must be checked by another pre-qualified Specialty Engineer. An individual Engineer may become pre-qualified in the work groups listed in the Rules of the Department of Transportation, Chapter 14-75, if the requirements for the Professional Engineer are met for the individual work groups. Pre-qualified Specialty Engineers are listed on the State Construction Website. Pre-qualified Specialty Engineers will not be authorized to perform redesigns or Cost Savings Initiative Proposal designs of items fully detailed in the plans.

Specialty Engineer.

A Professional Engineer registered in the State of Florida, other than the Engineer of Record or his subcontracted consultant, who undertakes the design and drawing preparation of components, systems, or installation methods and equipment for specific temporary portions of the project work or for special items of the permanent works not fully detailed in the plans and required to be furnished by the Contractor such as but not limited to pot bearing designs, non-standard expansion joints, MSE wall designs and other specialty items. The Specialty Engineer may also provide designs and details for items of the permanent work declared by the State Construction Office to be "minor" or "non-structural". The Specialty Engineer may be an employee or officer of the Contractor or a fabricator, an employee or officer of an entity providing components to a fabricator, or an independent consultant.

For items of work not specifically covered by the Rules of the Department of Transportation, a Specialty Engineer is qualified if he has the following qualifications:

(1) Registration as a Professional Engineer in the State of Florida.

(2) The education and experience necessary to perform the submitted design as required by the Florida Department of Business and Professional Regulation.

FROM SECTION 4 (ALTERATION OF WORK).

4-3 Alteration of Plans or of Character of Work.

4-3.1 General: The Engineer reserves the right to make, at any time prior to or during the progress of the work, such increases or decreases in quantities, whether a significant change or not, and such alterations in the details of construction, whether a substantial change or not, including but not limited to alterations in the grade or alignment of the road or structure or both, as may be found necessary or desirable by the Engineer. Such increases, decreases or alterations shall not constitute a breach of Contract, shall not invalidate the Contract, nor release the Surety from any liability arising out of this Contract or the Surety bond. The Contractor agrees to perform the work, as altered, the same as if it had been a part of the original Contract.

The term "significant change" applies only when:

1. The Engineer determines that the character of the work as altered differs materially in kind or nature from that involved or included in the original proposed construction, or

2. A major item of work, as defined in 1-3, is increased in excess of 125% or decreased below 75% of the original Contract quantity. The Department will apply any price adjustment for an increase in quantity only to that portion in excess of 125% of the original Contract item quantity in accordance with 4-3.2 below. In the case of a decrease below 75% the Department will only apply a price adjustment for the additional costs that are a direct result of the reduction in quantity.

In (1) above, the determination by the Engineer shall be conclusive. If the determination is challenged by the Contractor in any proceeding, the Contractor must establish by clear and convincing proof that the determination by the Engineer was without any reasonable basis.

4-3.2 Increase, Decrease or Alteration in the Work: The Engineer reserves the right to make alterations in the character of the work which involve a substantial change in the nature of the design or in the type of construction or which materially increases or decreases the cost or time of performance. Such alteration shall not constitute a breach of Contract, shall not invalidate the Contract or release the Surety.

Notwithstanding that the Contractor shall have no formal right whatsoever to any extra compensation or time extension deemed due by the Contractor for any cause unless and until the Contractor follows the procedures set forth in 5-12.2 for preservation, presentation and resolution of the claim, the Contractor may at any time, after having otherwise timely submitted a notice of intent to claim or preliminary time extension request pursuant to 5-12.2 and 8-7.3.2, submit to the Department a request for equitable adjustment of compensation or time or other dispute resolution proposal. The Contractor shall in any request for equitable adjustment of compensation, time, or other dispute resolution proposal certify under oath and in writing, in accordance with the formalities required by Florida law, that the request is made in good faith, that any supportive data submitted is accurate and complete to the Contractor's best knowledge and belief, and that the amount of the request accurately reflects what the Contractor in good faith believes to be the Department's responsibility. Such certification must be made by an officer or director of the Contractor with the authority to bind the Contractor. Any such certified statements of entitlement and costs shall be subject to the audit provisions set forth in 5-12.14. While the submittal or review of a duly certified request for equitable adjustment shall neither create, modify, nor activate any legal rights or obligations as to the Contractor or the Department, the Department will review the content of any duly certified request for equitable

adjustment or other dispute resolution proposal, with any further action or inaction by the Department thereafter being in its sole discretion. Any request for equitable adjustment that fails to fully comply with the certification requirements will not be reviewed by the Department.

The monetary compensation provided for below constitutes full and complete payment for such additional work and the Contractor shall have no right to any additional monetary compensation for any direct or indirect costs or profit for any such additional work beyond that expressly provided below. The Contractor shall be entitled to a time extension only to the extent that the performance of any portion of the additional work is a controlling work item and the performance of such controlling work item actually extends completion of the project due to no fault of the Contractor. All time related costs for actual performance of such additional work are included in the compensation already provided below and any time extension entitlement hereunder will be without additional monetary compensation. The Contractor shall have no right to any monetary compensation or damages whatsoever for any direct or indirect delay to a controlling work item arising out of or in any way related to the circumstances leading up to or resulting from additional work (but not relating to the actual performance of the additional work, which is paid for as otherwise provided herein), except only as provided for under 5-12.6.2.1.

4-3.2.1 Allowable Costs for Extra Work: The Engineer may direct in writing that extra work be done and, at the Engineer's sole discretion, the Contractor will be paid pursuant to an agreed Supplemental Agreement or in the following manner:

1. Labor and Burden: The Contractor will receive payment for actual costs of direct labor and burden for the additional or unforeseen work. Labor includes foremen actually engaged in the work; and will not include project supervisory personnel nor necessary on-site clerical staff, except when the additional or unforeseen work is a controlling work item and the performance of such controlling work item actually extends completion of the project due to no fault of the Contractor. Compensation for project supervisory personnel, but in no case higher than a Project Manager's position, shall only be for the pro-rata time such supervisory personnel spent on the contract. In no case shall an officer or director of the Company, nor those persons who own more than 1% of the Company, be considered as project supervisory personnel, direct labor or foremen hereunder.

Payment for burden shall be limited solely to the following:

Table 4-3.2.1	
Item	Rate
FICA	Rate established by Law
FUTA/SUTA	Rate established by Law
Medical Insurance	Actual
Holidays, Sick & Vacation benefits	Actual
Retirement benefits	Actual
Workers Compensation	Rates based on the National Council on Compensation Insurance basic rate tables adjusted by Contractor's actual experience modification factor in effect at the time of the additional work or unforeseen work.
Per Diem	Actual but not to exceed State of Florida's rate
Insurance*	Actual

Table 4-3.2.1	
Item	Rate
*Compensation for Insurance is limited solely to General Liability Coverage and does not include any other insurance coverage (such as, but not limited to, Umbrella Coverage, Automobile Insurance, etc.).	

At the Pre-construction conference, certify to the Engineer the following:

a. A listing of on-site clerical staff, supervisory personnel and their pro-rated time assigned to the contract,

b. Actual Rate for items listed in Table 4-3.2.1,

c. Existence of employee benefit plan for Holiday, Sick and Vacation benefits and a Retirement Plan, and,

d. Payment of Per Diem is a company practice for instances when compensation for Per Diem is requested.

Such certification must be made by an officer or director of the Contractor with authority to bind the Contractor. Timely certification is a condition precedent to any right of the Contractor to recover compensations for such costs, and failure to timely submit the certification will constitute a full, complete, absolute and irrevocable waiver by the Contractor of any right to recover such costs. Any subsequent changes shall be certified to the Engineer as part of the cost proposal or seven calendar days in advance of performing such extra work.

2. Materials and Supplies: For materials accepted by the Engineer and used on the project, the Contractor will receive the actual cost of such materials incorporated into the work, including Contractor paid transportation charges (exclusive of equipment as hereinafter set forth). For supplies reasonably needed for performing the work, the Contractor will receive the actual cost of such supplies.

3. Equipment: For any machinery or special equipment (other than small tools), including fuel and lubricant, the Contractor will receive 100% of the "Rental Rate Blue Book" for the actual time that such equipment is in operation on the work, and 50% of the "Rental Rate Blue Book" for the time the equipment is directed to standby and remain on the project site, to be calculated as indicated below. The equipment rates will be based on the latest edition (as of the date the work to be performed begins) of the "Rental Rate Blue Book for Construction Equipment" or the "Rental Rate Blue Book for Older Construction Equipment," whichever is applicable, as published by Machinery Information Division of PRIMEDIA Information, Inc. (version current at the time of bid), using all instructions and adjustments contained therein and as modified below. On all projects, the Engineer will adjust the rates using regional adjustments and Rate Adjustment Tables according to the instructions in the Blue Book.

Allowable Equipment Rates will be established as set out below:

a. Allowable Hourly Equipment Rate = Monthly Rate/176 x Adjustment Factors x 100%.

b. Allowable Hourly Operating Cost = Hourly Operating Cost x 100%.

c. Allowable Rate Per Hour = Allowable Hourly Equipment Rate + Allowable Hourly Operating Cost.

d. Standby Rate = Allowable Hourly Equipment Rate x 50%.

The Monthly Rate is The Basic Machine Rate Plus Any Attachments. Standby rates will apply when equipment is not in operation and is directed by the Engineer to standby at the project site when needed again to complete work and the cost of moving the equipment will exceed the accumulated standby cost. Standby rates will not apply on any day the equipment operates for eight or more hours. Standby payment will be limited to only that number of hours which, when added to the operating time for that day equals eight hours. Standby payment will not be made on days that are not normally considered work days on the project.

The Department will allow for the cost of transporting the equipment to and from the location at which it will be used. If the equipment requires assembly or disassembly for transport, the Department will pay for the time to perform this work at the rate for standby equipment.

Equipment may include vehicles utilized only by Labor, as defined above.

4. Indirect Costs, Expenses, and Profit: Compensation for all indirect costs, expenses, and profit of the Contractor, including but not limited to overhead of any kind, whether jobsite, field office, division office, regional office, home office, or otherwise, is expressly limited to the greater of either (a) or (b) below:

a. Solely a mark-up of 17.5% on the payments in (1) through (3), above.

1. Bond: The Contractor will receive compensation for any premium for acquiring a bond for such additional or unforeseen work at the original Contract bond rate paid by the Contractor. No compensation for bond premium will be allowed for additional or unforeseen work paid by the Department via initial contingency pay item.

2. The Contractor will be allowed a markup of 10% on the first $50,000 and a markup of 5% on any amount over $50,000 on any subcontract directly related to the additional or unforeseen work. Any such subcontractor mark-up will be allowed only by the prime Contractor and a first tier subcontractor, and the Contractor must elect the markup for any eligible first tier subcontractor to do so.

b. Solely the formula set forth below and only as applied solely as to such number of calendar days of entitlement that are in excess of ten cumulative calendar days as defined below.

$$D = \frac{A \times C}{B}$$

Where A = Original Contract Amount
B = Original Contract Time
C = 8%
D = Average Overhead Per Day

Cumulative Calendar Days is defined as the combined total number of calendar days granted as time extensions due to either extra work, excluding overruns to existing contract items, that extend the duration of the project or delay of a controlling work item caused solely by the Department, or the combined total number of calendar days for which

a claim of entitlement to a time extension due to delay of a controlling work item caused solely by the Department is otherwise ultimately determined to be in favor of the Contractor.

Further, in the event there are concurrent delays to one or more controlling work items, one or more being caused by the Department and one or more being caused by the Contractor, the Contractor shall be entitled to a time extension for each day that a controlling work item is delayed by the Department but shall have no right to nor receive any monetary compensation for any indirect costs for any days of concurrent delay. No compensation, whatsoever, will be paid to the Contractor for any jobsite overhead and other indirect impacts when the total number of calendar days granted for time extension due to delay of a controlling work item caused solely by the Department is, or the total number of calendar days for which entitlement to a time extension due to delay of a controlling work item caused solely by the Department is otherwise ultimately determined in favor of the Contractor to be, equal to or less than ten calendar days and the Contractor also fully assumes all monetary risk of any and all partial or single calendar day delay periods, due to delay of a controlling work item caused solely by the Department, that when combined together are equal to or less than ten calendar days and regardless of whether monetary compensation is otherwise provided for hereunder for one or more calendar days of time extension entitlement for each calendar day exceeding ten calendar days. All calculations under this provision shall exclude weather days, Holidays, and Special Events.

4-3.2.2 Subcontracted Work: Compensation for the additional or unforeseen work performed by a subcontractor shall be limited solely to that provided for in 4-3.2.1 (1), (2), (3) and (4)(a). In addition, the Contractor compensation is expressly limited to the greater of the total provided in either 4-3.2.1(4)(a) or (4)(b), except that the Average Overhead Per-Day calculation is as follows:

$$Ds = \frac{As \times C}{B}$$

Where As = Original Contract Amount minus Original Subcontract amounts(s)*

B = Original Contract Time
C = 8%
Ds = Average Overhead Per-Day

* deduct Original Subcontract Amount(s) of subcontractor(s) performing the work

The subcontractor may receive compensation for any premium for acquiring a bond for the additional or unforeseen work; provided, however, that such payment for additional subcontractor bond will only be paid upon presentment to the Department of clear and convincing proof that the subcontractor has actually submitted and paid for separate bond premiums for such additional or unforeseen work in such amount and that the subcontractor was required by the Contractor to acquire a bond.

The Contractor shall require the subcontractor to submit a certification, in accordance with 4-3.2.1 (1), as part of the cost proposal and submit such to the Engineer. Such certification must be made by an officer or director of the subcontractor with authority to bind

the subcontractor. Timely certification is a condition precedent to any right of the Contractor to recover compensation for such subcontractor costs, and failure to timely submit the certification will constitute a full, complete, absolute and irrevocable waiver by the Contractor of any right to recover such subcontractor costs.

4-3.3 No Waiver of Contract: Changes made by the Engineer will not be considered to waive any of the provisions of the Contract, nor may the Contractor make any claim for loss of anticipated profits because of the changes, or by reason of any variation between the approximate quantities and the quantities of work actually performed. All work shall be performed as directed by the Engineer and in accordance with the Contract Documents.

4-3.4 Conditions Requiring a Supplemental Agreement or Unilateral Payment: A Supplemental Agreement or Unilateral Payment will be used to clarify the Plans and Specifications of the Contract; to provide for unforeseen work, grade changes, or alterations in the Plans which could not reasonably have been contemplated or foreseen in the original Plans and Specifications; to change the limits of construction to meet field conditions; to provide a safe and functional connection to an existing pavement; to settle documented Contract claims; to make the project functionally operational in accordance with the intent of the original Contract and subsequent amendments thereto.

A Supplemental Agreement or Unilateral Payment may be used to expand the physical limits of the project only to the extent necessary to make the project functionally operational in accordance with the intent of the original Contract. The cost of any such agreement extending the physical limits of the project shall not exceed $100,000 or 10% of the original Contract price, whichever is greater.

Perform no work to be covered by a Supplemental Agreement or Unilateral Payment before written authorization is received from the Engineer. The Engineer's written authorization will set forth sufficient work information to allow the work to begin. The work activities, terms and conditions will be reduced to written Supplemental Agreement or Unilateral Payment form promptly thereafter. No payment will be made on a Supplemental Agreement or Unilateral Payment prior to the Department's approval of the document.

4-3.5 Extra Work: Extra work authorized in writing by the Engineer will be paid in accordance with the formula in 4-3.2. Such payment will be the full extent of all monetary compensation entitlement due to the Contractor for such extra work. Any entitlement to a time extension due to extra work will be limited solely to that provided for in 4-3.2 for additional work.

4-3.6 Connections to Existing Pavement, Drives and Walks: Generally adhere to the limits of construction at the beginning and end of the project as detailed in the Plans. However, if the Engineer determines that it is necessary to extend the construction in order to make suitable connections to existing pavement, the Engineer will authorize such a change in writing.

For necessary connections to existing walks and drives that are not indicated in the Plans, the Engineer will submit direction regarding the proper connections in accordance with the Design Standards.

4-3.7 Differing Site Conditions: During the progress of the work, if subsurface or latent physical conditions are encountered at the site differing materially from those indicated in the Contract, or if unknown physical conditions of an unusual nature differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the Contract are encountered at the site, the party discovering such conditions shall promptly notify

the other party in writing of the specific differing conditions before the Contractor disturbs the conditions or performs the affected work.

Upon receipt of written notification of differing site conditions from the Contractor, the Engineer will investigate the conditions, and if it is determined that the conditions materially differ and cause an increase or decrease in the cost or time required for the performance of any work under the Contract, an adjustment will be made, excluding loss of anticipated profits, and the Contract will be modified in writing accordingly. The Engineer will notify the Contractor whether or not an adjustment of the Contract is warranted.

The Engineer will not allow a Contract adjustment for a differing site condition unless the Contractor has submitted the required written notice.

The Engineer will not allow a Contract adjustment under this clause for any effects caused to any other Department or non-Department projects on which the Contractor may be working.

4-3.8 Changes Affecting Utilities: The Contractor shall be responsible for identifying and assessing any potential impacts to a utility that may be caused by the changes proposed by the Contractor, and the Contractor shall at the time of making the request for a change notify the Department in writing of any such potential impacts to utilities.

Department approval of a Contractor proposed change does not relieve the Contractor of sole responsibility for all utility impacts, costs, delays or damages, whether direct or indirect, resulting from Contractor initiated changes in the design or construction activities from those in the original Contract Specifications, Design Plans (including Traffic Control Plans) or other Contract Documents and which effect a change in utility work different from that shown in the Utility Plans, joint project agreements or utility relocation schedules.

4-3.9 Cost Savings Initiative Proposal:

4-3.9.1 Intent and Objective:

1. This Subarticle applies to any cost reduction proposal (hereinafter referred to as a Proposal) that the Contractor initiates and develops for the purpose of refining the Contract to increase cost effectiveness or significantly improve the quality of the end result. A mandatory Cost Savings Initiative Workshop will be held prior to Contract Time beginning for the Contractor and Department to discuss potential Proposals. This Subarticle does not, however, apply to any such proposal unless the Contractor identifies it at the time of its submission to the Department as a proposal submitted pursuant to this Subarticle.

2. The Department will consider Proposals that would result in net savings to the Department by providing a decrease in the cost of the Contract. Proposals must result in savings without impairing essential functions and characteristics such as safety, service, life, reliability, economy of operation, ease of maintenance, aesthetics and necessary standard design features. However, nothing herein prohibits the Contractor from submitting Proposals when the required functions and characteristics can be combined, reduced or eliminated because they are nonessential or excessive. The Department will not recognize the Contractor's correction of plan errors that result in a cost reduction, as a Proposal.

3. The Department reserves the right to reject at its discretion any Proposal submitted that proposes a change in the design of the pavement system or that would require additional right-of-way. Pending the Department's execution of a formal supplemental agreement implementing an approved Proposal, the Contractor shall remain obligated to perform the work in accordance with the terms of the existing Contract. The Department may grant time extensions to allow for the time required to develop and review a Proposal.

4. For potential Proposals not discussed at the Cost Savings Initiative Workshop, a mandatory concept meeting will be held for the Contractor and Department to discuss the potential Proposal prior to development of the Proposal.

4-3.9.2 Subcontractors: The Department encourages the Contractor to include the provisions of this Subarticle in Contracts with subcontractors and to encourage submission of Proposals from subcontractors. However, it is not mandatory to submit Proposals to the Department or to accept or transmit subcontractor proposed Proposals to the Department.

4-3.9.3 Data Requirements: As a minimum, submit the following information with each Proposal:

1. a description of the difference between the existing Contract requirement, including any time extension request, and the proposed change, and the comparative advantages and disadvantages.

2. separate detailed cost estimates for both the existing Contract requirement and the proposed change. Break down the cost estimates by pay item numbers indicating quantity increases or decreases and deleted pay items. Identify additional proposed work not covered by pay items within the Contract, by using pay item numbers in the Basis of Estimates Manual. In preparing the estimates, include overhead, profit, and bond within pay items in the Contract. Separate pay item(s) for the cost of overhead, profit, and bond will not be allowed.

3. an itemization of the changes, deletions or additions to plan details, plan sheets, design standards and Specifications that are required to implement the Proposal if the Department adopts it. Submit preliminary plan drawings sufficient to describe the proposed changes.

4. engineering or other analysis in sufficient detail to identify and describe specific features of the Contract that must be changed if the Department accepts the Proposal with a proposal as to how these changes can be accomplished and an assessment of their effect on other project elements. The Department may require that engineering analyses be performed by a prequalified consultant in the applicable class of work. Support all design changes that result from the Proposal with drawings and computations signed and sealed by the Contractor's Engineer of Record. Written documentation or drawings will be submitted clearly delineating the responsibility of the Contractor's Engineer of Record.

5. the date by which the Department must approve the Proposal to obtain the total estimated cost reduction during the remainder of the Contract, noting any effect on the Contract completion time or delivery schedule.

6. a revised project schedule that would be followed upon approval of the Proposal. This schedule would include submittal dates and review time for the Department and Peer reviews.

4-3.9.4 Processing Procedures: Submit Proposals to the Engineer or his duly authorized representative. The Department will process Proposals expeditiously; however, the Department is not liable for any delay in acting upon a Proposal submitted pursuant to this Subarticle. The Contractor may withdraw, in whole or in part, a Proposal not accepted by the Department within the period specified in the Proposal. The Department is not liable for any Proposal development cost in the case where the Department rejects or the Contractor withdraws a Proposal.

The Engineer is the sole judge of the acceptability of a Proposal and of the estimated net savings in construction costs from the adoption of all or any part of such proposal.

In determining the estimated net savings, the Department reserves the right to disregard the Contract bid prices if, in the judgment of the Engineer, such prices do not represent a fair measure of the value of work to be performed or to be deleted.

Prior to approval, the Engineer may modify a Proposal, with the concurrence of the Contractor, to make it acceptable. If any modification increases or decreases the net savings resulting from the Proposal, the Department will determine the Contractor's fair share upon the basis of the Proposal as modified and upon the final quantities. The Department will compute the net savings by subtracting the revised total cost of all bid items affected by the Proposal from the total cost of the same bid items as represented in the original Contract.

Prior to approval of the Proposal that initiates the supplemental agreement, submit acceptable Contract-quality plan sheets revised to show all details consistent with the Proposal design.

4-3.9.5 Computations for Change in Contract Cost of Performance: If the Proposal is adopted, the Contractor's share of the net savings as defined hereinafter represents full compensation to the Contractor for the Proposal.

The Department will not include its costs to process and implement a Proposal in the estimate. However, the Department reserves the right, where it deems such action appropriate, to require the Contractor to pay the Department's cost of investigating and implementing a Proposal as a condition of considering such proposal. When the Department imposes such a condition, the Contractor shall accept this condition in writing, authorizing the Department to deduct amounts payable to the Department from any monies due or that may become due to the Contractor under the Contract.

4-3.9.6 Conditions of Acceptance for Major Design Modifications of Category 2 Bridges: A Proposal that proposes major design modifications of a category 2 bridge, as determined by the Engineer, shall have the following conditions of acceptance:

All bridge Plans relating to the Proposal shall undergo an independent peer review conducted by a single independent engineering firm referred to for the purposes of this article as the Independent Review Engineer who is not the originator of the Proposal design, and is pre-qualified by the Department in accordance with Rule 14-75, Florida Administrative Code. The independent peer review is intended to be a comprehensive, thorough verification of the original work, giving assurance that the design is in compliance with all Department requirements. The Independent Review Engineer's comments, along with the resolution of each comment, shall be submitted to the Department. The Independent Review Engineer shall sign and seal the submittal cover letter stating that all comments have been adequately addressed and the design is in compliance with the Department requirements. If there are any unresolved comments the Independent Review Engineer shall specifically list all unresolved issues in the signed and sealed cover letter.

The Contractor shall designate a primary engineer responsible for the Proposal design and as such will be designated as the Contractors Engineer of Record for the Proposal design. The Department reserves the right to require the Contractor's Engineer of Record to assume responsibility for design of the entire structure.

New designs and independent peer reviews shall be in compliance with all applicable Department, FHWA and AASHTO criteria requirements including bridge load ratings.

4-3.9.7 Sharing Arrangements: If the Department approves a Proposal, the Contractor shall receive 50% of the net reduction in the cost of performance of the Contract as

determined by the final negotiated agreement between the Contractor and the Department. The net reduction will be determined by subtracting from the savings of the construction costs the reasonable documented engineering costs incurred by the contractor to design and develop a Proposal. The reasonable documented engineering costs will be paid by the Department. Engineering costs will be based on the consultant's certified invoice and may include the costs of the Independent Review Engineer in 4-3.9.6. The total engineering costs to be subtracted from the savings to determine the net reduction will be limited to 25% of the construction savings and shall not include any markup by the Contractor or the costs for engineering services performed by the Contractor.

4-3.9.8 Notice of Intellectual Property Interests and Department's Future Rights to a Proposal:

4-3.9.8.1 Notice of Intellectual Property Interests: The Contractor's Proposal submittal shall identify with specificity any and all forms of intellectual property rights that either the Contractor or any officer, shareholder, employee, consultant, or affiliate, of the Contractor, or any other entity who contributed in any measure to the substance of the Contractor's Proposal development, have or may have that are in whole or in part implicated in the Proposal. Such required intellectual property rights notice includes, but is not limited to, disclosure of any issued patents, copyrights, or licenses; pending patent, copyright or license applications; and any intellectual property rights that though not yet issued, applied for or intended to be pursued, could nevertheless otherwise be subsequently the subject of patent, copyright or license protection by the Contractor or others in the future. This notice requirement does not extend to intellectual property rights as to stand-alone or integral components of the Proposal that are already on the Department's Approved Product List (APL) or Design Standards Index, or are otherwise generally known in the industry as being subject to patent or copyright protection.

4-3.9.8.2 Department's Future Rights to a Proposal: Notwithstanding 7-3 nor any other provision of the Standard Specifications, upon acceptance of a Proposal, the Contractor hereby grants to the Department and its contractors (such grant being expressly limited solely to any and all existing or future Department construction projects and any other Department projects that are partially or wholly funded by or for the Department) a royalty-free and perpetual license under all forms of intellectual property rights to manufacture, to use, to design, to construct, to disclose, to reproduce, to prepare and fully utilize derivative works, to distribute, display and publish, in whole or in part, and to permit others to do any of the above, and to otherwise in any manner and for any purpose whatsoever do anything reasonably necessary to fully utilize any and all aspects of such Proposal on any and all existing and future construction projects and any other Department projects.

Contractor shall hold harmless, indemnify and defend the Department and its contractors and others in privity therewith from and against any and all claims, liabilities, other obligations or losses, and reasonable expenses related thereto (including reasonable attorneys' fees), which are incurred or are suffered by any breach of the foregoing grants, and regardless of whether such intellectual property rights were or were not disclosed by the Contractor pursuant to 4-3.9.8.1, unless the Department has by express written exception in the Proposal acceptance process specifically released the Contractor from such obligation to hold harmless, indemnify and defend as to one or more disclosed intellectual property rights.

FROM SECTION 5 – CONTROL OF THE WORK (CLAIMS).

5-12 Claims by Contractor.

5-12.1 General: When the Contractor deems that extra compensation or a time extension is due beyond that agreed to by the Engineer, whether due to delay, additional work, altered work, differing site conditions, breach of Contract, or for any other cause, the Contractor shall follow the procedures set forth herein for preservation, presentation and resolution of the claim.

Submission of timely notice of intent to file a claim, preliminary time extension request, time extension request, and the certified written claim, together with full and complete claim documentation, are each a condition precedent to the Contractor bringing any circuit court, arbitration, or other formal claims resolution proceeding against the Department for the items and for the sums or time set forth in the Contractor's certified written claim. The failure to provide such notice of intent, preliminary time extension request, time extension request, certified written claim and full and complete claim documentation within the time required shall constitute a full, complete, absolute and irrevocable waiver by the Contractor of any right to additional compensation or a time extension for such claim.

5-12.2 Notice of Claim:

5-12.2.1 Claims For Extra Work: Where the Contractor deems that additional compensation or a time extension is due for work or materials not expressly provided for in the Contract or which is by written directive expressly ordered by the Engineer pursuant to 4-3, the Contractor shall submit written notification to the Engineer of the intention to make a claim for additional compensation before beginning the work on which the claim is based, and if seeking a time extension, the Contractor shall also submit a preliminary request for time extension pursuant to 8-7.3.2 within ten calendar days after commencement of a delay and a request for Contract Time extension pursuant to 8-7.3.2 within thirty calendar days after the elimination of the delay. If such written notification is not submitted and the Engineer is not afforded the opportunity for keeping strict account of actual labor, material, equipment, and time, the Contractor waives the claim for additional compensation or a time extension. Such notice by the Contractor, and the fact that the Engineer has kept account of the labor, materials and equipment, and time, shall not in any way be construed as establishing the validity of the claim or method for computing any compensation or time extension for such claim. On projects with an original Contract amount of $3,000,000 or less within 90 calendar days after final acceptance of the project in accordance with 5-11, and on projects with an original Contract amount greater than $3,000,000 within 180 calendar days after final acceptance of the project in accordance with 5-11, the Contractor shall submit full and complete claim documentation as described in 5-12.3 and duly certified pursuant to 5-12.9. However, for any claim or part of a claim that pertains solely to final estimate quantities disputes the Contractor shall submit full and complete claim documentation as described in 5-12.3 and duly certified pursuant to 5-12.9, as to such final estimate claim dispute issues, within 90 or 180 calendar days, respectively, of the Contractor's receipt of the Department's final estimate.

If the Contractor fails to submit a certificate of claim as described in 5-12.9, the Department will so notify the Contractor in writing. The Contractor shall have ten calendar days from receipt of the notice to resubmit the claim documentation, without change, with a certificate of claim as described in 5-12.9, without regard to whether the resubmission is within the applicable 90 or 180 calendar day deadline for submission of full and complete claim documentation. Failure by the Contractor to comply with the ten calendar day notice shall constitute a waiver of the claim.

5-12.2.2 Claims For Delay: Where the Contractor deems that additional compensation or a time extension is due on account of delay, differing site conditions, breach of Contract, or any other cause other than for work or materials not expressly provided for in the Contract (Extra Work) or which is by written directive of the Engineer expressly ordered by the Engineer pursuant to 4-3, the Contractor shall submit a written notice of intent to the Engineer within ten days after commencement of a delay to a controlling work item expressly notifying the Engineer that the Contractor intends to seek additional compensation, and if seeking a time extension, the Contractor shall also submit a preliminary request for time extension pursuant to 8-7.3.2 within ten calendar days after commencement of a delay to a controlling work item, as to such delay and providing a reasonably complete description as to the cause and nature of the delay and the possible impacts to the Contractor's work by such delay, and a request for Contract Time extension pursuant to 8-7.3.2 within thirty calendar days after the elimination of the delay. On projects with an original Contract amount of $3,000,000 or less within 90 calendar days after final acceptance of the project in accordance with 5-11, and on projects with an original Contract amount greater than $3,000,000 within 180 calendar days after final acceptance of the project in accordance with 5-11, the Contractor shall submit full and complete documentation as described in 5-12.3 and duly certified pursuant to 5-12.9.

If the Contractor fails to submit a certificate of claim as described in 5-12.9, the Department will so notify the Contractor in writing. The Contractor shall have ten calendar days from receipt of the notice to resubmit the claim documentation, without change, with a certificate of claim as described in 5-12.9, without regard to whether the resubmission is within the applicable 90 or 180 calendar day deadline for submission of full and complete claim documentation. Failure by the Contractor to comply with the ten calendar day notice shall constitute a waiver of the claim.

There shall be no Contractor entitlement to any monetary compensation or time extension for any delays or delay impacts, whatsoever, that are not to a controlling work item, and then as to any such delay to a controlling work item entitlement to any monetary compensation or time extension shall only be to the extent such is otherwise provided for expressly under 4-3 or 5-12, except that in the instance of delay to a non-controlling item of work the Contractor may be compensated for the direct costs of idle labor or equipment only, at the rates set forth in 4-3.2.1(1) and (3), and then only to the extent the Contractor could not reasonably mitigate such idleness.

5-12.3 Content of Written Claim: As a condition precedent to the Contractor being entitled to additional compensation or a time extension under the Contract, for any claim, the Contractor shall submit a certified written claim to the Department which will include for each individual claim, at a minimum, the following information:

1. A detailed factual statement of the claim providing all necessary dates, locations, and items of work affected and included in each claim;

2. The date or dates on which actions resulting in the claim occurred or conditions resulting in the claim became evident;

3. Identification of all pertinent documents and the substance of any material oral communications relating to such claim and the name of the persons making such material oral communications;

4. Identification of the provisions of the Contract which support the claim and a statement of the reasons why such provisions support the claim, or alternatively, the provisions of the Contract which allegedly have been breached and the actions constituting such breach;

5. A detailed compilation of the amount of additional compensation sought and a breakdown of the amount sought as follows:

a. documented additional job site labor expenses;

b. documented additional cost of materials and supplies;

c. a list of additional equipment costs claimed, including each piece of equipment and the rental rate claimed for each;

d. any other additional direct costs or damages and the documents in support thereof;

e. any additional indirect costs or damages and all documentation in support thereof.

6. A detailed compilation of the specific dates and the exact number of calendar days sought for a time extension, the basis for entitlement to time for each day, all documentation of the delay, and a breakout of the number of days claimed for each identified event, circumstance or occurrence.

Further, the Contractor shall be prohibited from amending either the bases of entitlement or the amount of any compensation or time stated for any and all issues claimed in the Contractor's written claim submitted hereunder, and any circuit court, arbitration, or other formal claims resolution proceeding shall be limited solely to the bases of entitlement and the amount of any compensation or time stated for any and all issues claimed in the Contractor's written claim submitted hereunder. This shall not, however, preclude a Contractor from withdrawing or reducing any of the bases of entitlement and the amount of any compensation or time stated for any and all issues claimed in the Contractor's written claim submitted hereunder at any time.

5-12.4 Action on Claim: The Engineer will respond in writing on projects with an original Contract amount of $3,000,000 or less within 90 calendar days of receipt of a complete claim submitted by a Contractor in compliance with 5-12.3, and on projects with an original Contract amount greater than $3,000,000 within 120 calendar days of receipt of a complete claim submitted by a Contractor in compliance with 5-12.3. Failure by the Engineer to respond to a claim in writing within 90 or 120 days, respectively, after receipt of a complete claim submitted by the Contractor in compliance with 5-12.3 constitutes a denial of the claim by the Engineer. If the Engineer finds the claim or any part thereof to be valid, such partial or whole claim will be allowed and paid for to the extent deemed valid and any time extension granted, if applicable, as provided in the Contract. No circuit court or arbitration proceedings on any claim, or a part thereof, may be filed until after final acceptance per 5-11 of all Contract work by the Department or denial hereunder, whichever occurs last.

5-12.5 Pre-Settlement and Pre-Judgment Interest: Entitlement to any pre-settlement or pre-judgment interest on any claim amount determined to be valid subsequent to the Department's receipt of a certified written claim in full compliance with 5-12.3, whether determined by a settlement or a final ruling in formal proceedings, the Department shall pay to the Contractor simple interest calculated at the Prime Rate (as reported by the Wall Street Journal as the base rate on corporate loans posted by at least 75% of the nations 30 largest banks) as of the 60th calendar day following the Department's receipt of a certified written claim in full compliance with 5-12.3, such interest to accrue beginning 60 calendar days following the Department's receipt of a certified written claim in full compliance with 5-12.3 and ending on the date of final settlement or formal ruling.

5-12.6 Compensation for Extra Work or Delay:

5-12.6.1 Compensation for Extra Work: Notwithstanding anything to the contrary contained in the Contract Documents, the Contractor shall not be entitled to any compensation beyond that provided for in 4-3.2.

5-12.6.2 Compensation for Delay: Notwithstanding anything to the contrary contained in the Contract Documents, the additional compensation set forth in 5-12.6.2.1 shall be the Contractor's sole monetary remedy for any delay other than to perform extra work caused by the Department unless the delay shall have been caused by acts constituting willful or intentional interference by the Department with the Contractor's performance of the work and then only where such acts continue after Contractor's written notice to the Department of such interference. The parties anticipate that delays may be caused by or arise from any number of events during the term of the Contract, including, but not limited to, work performed, work deleted, supplemental agreements, work orders, disruptions, differing site conditions, utility conflicts, design changes or defects, time extensions, extra work, right-of-way issues, permitting issues, actions of suppliers, subcontractors or other contractors, actions by third parties, suspensions of work by the Engineer pursuant to 8-6.1, shop drawing approval process delays, expansion of the physical limits of the project to make it functional, weather, weekends, holidays, special events, suspension of Contract Time, or other events, forces or factors sometimes experienced in construction work. Such delays or events and their potential impacts on the performance by the Contractor are specifically contemplated and acknowledged by the parties in entering into this Contract, and shall not be deemed to constitute willful or intentional interference with the Contractor's performance of the work without clear and convincing proof that they were the result of a deliberate act, without reasonable and good-faith basis, and specifically intended to disrupt the Contractor's performance.

5-12.6.2.1 Compensation for Direct Costs, Indirect Costs, Expenses, and Profit thereon, of or from Delay: For any delay claim, the Contractor shall be entitled to monetary compensation for the actual idle labor and equipment, and indirect costs, expenses, and profit thereon, as provided for in 4-3.2.1(4) and solely for costs incurred beyond what reasonable mitigation thereof the Contractor could have undertaken.

5-12.7 Mandatory Claim Records: After submitting to the Engineer a notice of intent to file a claim for extra work or delay, the Contractor must keep daily records of all labor, material and equipment costs incurred for operations affected by the extra work or delay. These daily records must identify each operation affected by the extra work or delay and the specific locations where work is affected by the extra work or delay, as nearly as possible. The Engineer may also keep records of all labor, material and equipment used on the operations affected by the extra work or delay. The Contractor shall, once a notice of intent to claim has been timely filed, and not less than weekly thereafter as long as appropriate, submit the Contractor's daily records to the Engineer and be likewise entitled to receive the Department's daily records. The daily records to be submitted hereunder shall be done at no cost to the recipient.

5-12.8 Claims For Acceleration: The Department shall have no liability for any constructive acceleration of the work, nor shall the Contractor have any right to make any claim for constructive acceleration nor include the same as an element of any claim the Contractor may otherwise submit under this Contract. If the Engineer gives express written direction for the Contractor to accelerate its efforts, such written direction will set forth the prices and other pertinent information and will be reduced to a written Contract Document promptly. No payment will be made on a Supplemental Agreement for acceleration prior to the Department's approval of the documents.

5-12.9 Certificate of Claim: When submitting any claim, the Contractor shall certify under oath and in writing, in accordance with the formalities required by Florida law, that the claim is made in good faith, that the supportive data are accurate and complete to the Contractor's best knowledge and belief, and that the amount of the claim accurately reflects what the Contractor in good faith believes to be the Department's liability. Such certification must be made by an officer or director of the Contractor with the authority to bind the Contractor.

5-12.10 Non-Recoverable Items: The parties agree that for any claim the Department will not have liability for the following items of damages or expense:

1. Loss of profit, incentives or bonuses;
2. Any claim for other than extra work or delay;
3. Consequential damages, including, but not limited to, loss of bonding capacity, loss of bidding opportunities, loss of credit standing, cost of financing, interest paid, loss of other work or insolvency;
4. Acceleration costs and expenses, except where the Department has expressly and specifically directed the Contractor in writing "to accelerate at the Department's expense"; nor
5. Attorney fees, claims preparation expenses and costs of litigation.

5-12.11 Exclusive Remedies: Notwithstanding any other provision of this Contract, the parties agree that the Department shall have no liability to the Contractor for expenses, costs, or items of damages other than those which are specifically identified as payable under 5-12. In the event any legal action for additional compensation, whether on account of delay, acceleration, breach of contract, or otherwise, the Contractor agrees that the Department's liability will be limited to those items which are specifically identified as payable in 5-12.

5-12.12 Settlement Discussions: The content of any discussions or meetings held between the Department and the Contractor to settle or resolve any claims submitted by the Contractor against the Department shall be inadmissible in any legal, equitable, arbitration or administrative proceedings brought by the Contractor against the Department for payment of such claim. Dispute Resolution Board, State Arbitration Board and Claim Review Committee proceedings are not settlement discussions, for purposes of this provision.

5-12.13 Personal Liability of Public Officials: In carrying out any of the provisions of the Contract or in exercising any power or authority granted to the Secretary of Transportation, Engineer or any of their respective employees or agents, there shall be no liability on behalf of any employee, officer or official of the Department for which such individual is responsible, either personally or as officials or representatives of the Department. It is understood that in all such matters such individuals act solely as agents and representatives of the Department.

5-12.14 Auditing of Claims: All claims filed against the Department shall be subject to audit at any time following the filing of the claim, whether or not such claim is part of a suit pending in the Courts of this State. The audit may be performed, at the Department's sole discretion, by employees of the Department or by any independent auditor appointed by the Department, or both. The audit may begin after ten days written notice to the Contractor, subcontractor, or supplier. The Contractor, subcontractor, or supplier shall make a good faith effort to cooperate with the auditors. As a condition precedent to recovery on any claim, the Contractor, subcontractor, or supplier must retain sufficient records, and provide full and reasonable access to such records, to allow the Department's auditors to verify the claim and failure to retain sufficient records of the claim or failure to provide full and reasonable access to such records shall constitute a waiver of that portion of such claim that cannot be verified and

shall bar recovery thereunder. Further, and in addition to such audit access, upon the Contractor submitting a written claim, the Department shall have the right to request and receive, and the Contractor shall have the affirmative obligation to submit to the Department any and all documents in the possession of the Contractor or its subcontractors, materialmen or suppliers as may be deemed relevant by the Department in its review of the basis, validity or value of the Contractor's claim.

Without limiting the generality of the foregoing, the Contractor shall upon written request of the Department make available to the Department's auditors, or upon the Department's written request, submit at the Department's expense, any or all of the following documents:

1. Daily time sheets and foreman's daily reports and diaries;
2. Insurance, welfare and benefits records;
3. Payroll register;
4. Earnings records;
5. Payroll tax return;
6. Material invoices, purchase orders, and all material and supply acquisition contracts;
7. Material cost distribution worksheet;
8. Equipment records (list of company owned, rented or other equipment used);
9. Vendor rental agreements and subcontractor invoices;
10. Subcontractor payment certificates;
11. Canceled checks for the project, including, payroll and vendors;
12. Job cost report;
13. Job payroll ledger;
14. General ledger, general journal, (if used) and all subsidiary ledgers and journals together with all supporting documentation pertinent to entries made in these ledgers and journals;
15. Cash disbursements journal;
16. Financial statements for all years reflecting the operations on this project;
17. Income tax returns for all years reflecting the operations on this project;
18. All documents which reflect the Contractor's actual profit and overhead during the years this Contract was being performed and for each of the five years prior to the commencement of this Contract;
19. All documents related to the preparation of the Contractor's bid including the final calculations on which the bid was based;
20. All documents which relate to each and every claim together with all documents which support the amount of damages as to each claim;
21. Worksheets used to prepare the claim establishing the cost components for items of the claim including, but not limited to, labor, benefits and insurance, materials, equipment, subcontractors, and all documents that establish which time periods and individuals were involved, and the hours and rates for such individuals.

FROM SECTION 6 – CONTROL OF MATERIALS (CONVICT LABOR AND BUY AMERICA).

6-5 Products and Source of Supply.

6-5.1 Source of Supply–Convict Labor (Federal-Aid Contracts Only): Do not use materials that were produced after July 1, 1991, by convict labor for Federal-aid highway construction projects unless the prison facility has been producing convict-made materials for Federal-aid highway construction projects before July 1, 1987.

Use materials that were produced prior to July 2, 1991, by convicts on Federal-aid highway construction projects free from the restrictions placed on the use of these materials by 23 U.S.C. 114. The Department will limit the use of materials produced by convict labor for use in Federal-aid highway construction projects to:

1. Materials produced by convicts on parole, supervised release, or probation from a prison or,

2. Materials produced in a qualified prison facility.

The amount of such materials produced for Federal-aid highway construction during any 12-month period shall not exceed the amount produced in such facility for use in such construction during the 12-month period ending July 1, 1987.

6-5.2 Source of Supply-Steel: Use steel and iron manufactured in the United States, in accordance with the Buy America provisions of 23 CFR 635.410, as amended. Ensure that all manufacturing processes for this material occur in the United States. As used in this specification, a manufacturing process is any process that modifies the chemical content, physical shape or size, or final finish of a product, beginning with the initial melting and continuing through the final shaping and coating. If a steel or iron product is taken outside the United States for any manufacturing process, it becomes foreign source material. When using steel or iron materials as a component of any manufactured product (e.g., concrete pipe, prestressed beams, corrugated steel pipe, etc.), these same provisions apply. Foreign steel and iron may be used when the total actual cost of such foreign materials does not exceed 0.1% of the total Contract amount or $2,500, whichever is greater. These requirements are applicable to all steel and iron materials incorporated into the finished work, but are not applicable to steel and iron items that the Contractor uses but does not incorporate into the finished work. Submit a certification from the manufacturer of steel or iron, or any product containing steel or iron, stating that all steel or iron furnished or incorporated into the furnished product was produced and manufactured in the United States or a statement that the product was produced within the United States except for minimal quantities of foreign steel and iron valued at $ (actual cost). Submit each such certification to the Engineer prior to incorporating the material or product into the project. Prior to the use of foreign steel or iron materials on a project, submit invoices to document the actual cost of such material, and obtain the Engineer’s written approval prior to incorporating the material into the project

FROM SECTION 7 – LEGAL REQUIREMENTS AND RESPONSIBILITIES TO THE PUBLIC (FHWA 1273, WAGE RATES, E-VERIFY, TITLE VI, DBE, AND ON-THE-JOB TRAINING).

Compliance with FHWA 1273: The FHWA-1273 Electronic version, dated May 1, 2012 is posted on the Department's website at the following URL address http://www.dot.state.fl.us/programmanagement/Implemented/URLinSpecs/Files/FHWA1273.pdf . Take responsibility to obtain this information and comply with all requirements posted on this website up through five calendar days before the opening of bids.

Comply with the provisions contained in FHWA-1273.

If the Department's website cannot be accessed, contact the Department's Specifications Office Web Coordinator at (850) 414-4101.

7-1.4 Compliance with Federal Endangered Species Act and other Wildlife Regulations: The Federal Endangered Species Act requires that the Department investigate the potential impact to a threatened or endangered species prior to initiating an activity performed in conjunction with a highway construction project. If the Department's investigation determines that there is a potential impact to a protected, threatened or an endangered species, the Department will conduct an evaluation to determine what measures may be necessary to mitigate such impact. When mitigation measures and/or special conditions are necessary, these measures and conditions will be addressed in the Contract Documents or in permits as identified in 7-2.1.

In addition, in cases where certain protected, threatened or endangered species are found or appear within close proximity to the project boundaries, the Department has established guidelines that will apply when interaction with certain species occurs, absent of any special mitigation measures or permit conditions otherwise identified for the project.

These guidelines are posted at the following URL address: http://www.dot.state.fl.us/programmanagement/Implemented/URLinSpecs/files/endangeredwildlifeguidelines.pdf .

Take responsibility to obtain this information and take all actions and precautions necessary to comply with the conditions of these guidelines during all project activities.

Prior to establishing any off-project activity in conjunction with a project, notify the Engineer of the proposed activity. Covered activities include but are not necessarily limited to borrow pits, concrete or asphalt plant sites, disposal sites, field offices, and material or equipment storage sites. Include in the notification the Financial Project ID, a description of the activity, the location of the site by township, range, section, county, and city, a site location map including the access route, the name of the property owner, and a person to contact to arrange a site inspection. Submit this notification sufficiently in advance of planned commencement of the off-site activity, to allow a reasonable period of time for the Engineer to conduct an investigation without delaying job progress.

Do not perform any off-project activity without obtaining written clearance from the Engineer. In the event the Department's investigation determines a potential impact to a protected, threatened or endangered species and mitigation measures or permits are necessary, coordinate with the appropriate resource agencies for clearance, obtain permits and perform mitigation measures as necessary. Immediately notify the Engineer in writing of the results of this coordination with the appropriate resource agencies. Additional compensation or time will not be allowed for permitting or mitigation, associated with Contractor initiated off-project activities.

7-1.8 Compliance with Section 4(f) of the USDOT Act: Section 4(f) of the USDOT Act prohibits the U. S. Secretary of Transportation from approving a project which requires the use

of publicly owned land of a public park, recreation area or a wildlife and waterfowl refuge, or of any historic site of national, state, or local significance unless there is no prudent or feasible alternative to using that land and the program or project includes all possible planning to minimize the harm to the site resulting from the use.

Before undertaking any off-project activity associated with any federally assisted undertaking, ensure that the proposed site does not represent a public park, recreation area, wildlife or waterfowl refuge, or a historic site (according to the results of the Cultural Resources Survey discussed in 120-6.2). If such a site is proposed, notify the Engineer and provide a description of the proposed off-site activity, the Financial Project ID, the location of the site by township, range, section, a county or city map showing the site location, including the access route and the name of the property. It is the Contractor's responsibility to submit justification for use of Section 4(f) property that is sufficient for the Florida Department of Transportation and the Federal Highway Administration to make a Section 4(f) determination. Submit this notification sufficiently in advance of planned commencement of the off-site activity to allow a reasonable time for the Engineer to conduct an investigation without delaying job progress. Do not begin any off-project activity without obtaining written clearance from the Engineer.**7-16 Wage Rates for Federal-Aid Projects.**

For this Contract, payment of predetermined minimum wages applies.

The U.S. Department of Labor (USDOL) Wage Rates applicable to this Contract are listed in table below, as modified up through ten days prior to the opening of bids.

Wage Rate Decision Number	Associated Work
_____	_____
_____	_____

Obtain the applicable General Decision(s) (Wage Tables) through the Department's Office of Construction website and ensure that employees receive the minimum compensation applicable. Review the General Decisions for all classifications necessary to complete the project. Request additional classifications through the Engineer's office when needed.

For guidance on the requirements for the payment of wages and benefits and the submittal of certified payrolls, and for general guidance and examples of multiple wage rates when assigned to a Contract, refer to the Department's Office of Construction website. Questions regarding wage rates and the applicability of wage tables should be submitted in accordance with 2-4.

Contact the Department's Prevailing Wage Rate Coordinator at (850) 414-4688 if the Department's website cannot be accessed or there are questions.

7-24 Disadvantaged Business Enterprise Program.

7-24.1 Disadvantaged Business Enterprise Affirmative Action Plan: Prior to award of the Contract, have an approved Disadvantaged Business Enterprise (DBE) Affirmative Action Program Plan filed with the Equal Opportunity Office. Update and resubmit the plan every three years. No Contract will be awarded until the Department approves the Plan. The DBE Affirmative Action Program Plan is incorporated into and made a part of the Contract.

7-24.2 Required Contract and Subcontract DBE Assurance Language: In accordance with 49 CFR 26.13 (b), the Contract FDOT signs with the Contractor (and each subcontract the prime contractor signs with a subcontractor) must include the following assurance: "The Contractor, sub-recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted Contracts. Failure by the Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to,

1. Withholding monthly progress payments;
2. Assessing sanctions;
3. Liquidated damages; and/or
4. Disqualifying the Contractor from future bidding as non-responsible."

7-24.3 Plan Requirements: Include the following in the DBE Affirmative Action Program Plan:

1. A policy statement, signed by an authorized representative (president, chief executive officer, or chairman of the contractor), expressing a commitment to use DBEs in all aspects of contracting to the maximum extent feasible, outlining the various levels of responsibility, and stating the objectives of the program. Circulate the policy statement throughout the Contractor's organization.

2. The designation of a Liaison Officer within the Contractor's organization, as well as support staff, necessary and proper to administer the program, and a description of the authority, responsibility, and duties of the Liaison Officer and support staff. The Liaison Officer and staff are responsible for developing, managing, and implementing the program on a day-to-day basis for carrying out technical assistance activities for DBEs and for disseminating information on available business opportunities so that DBEs are provided an equitable opportunity to participate in Contracts let by the Department.

3. Utilization of techniques to facilitate DBE participation in contracting activities which include, but are not limited to:

a. Soliciting price quotations and arranging a time for the review of Plans, quantities, specifications, and delivery schedules, and for the preparation and presentation of quotations.

b. Providing assistance to DBEs in overcoming barriers such as the inability to obtain bonding, financing, or technical assistance.

c. Carrying out information and communication programs or workshops on contracting procedures and specific contracting opportunities in a timely manner, with such programs being bilingual where appropriate.

d. Encouraging eligible DBEs to apply for certification with the Department.

e. Contacting Minority Contractor Associations and city and county agencies with programs for disadvantaged individuals for assistance in recruiting and encouraging eligible DBE contractors to apply for certification with the Department.

7-24.4 DBE Records and Reports: Submit the following through the Equal Opportunity Compliance System:

1. DBE Commitments - at or before the Pre-Construction Conference.
2. Report monthly, through the Equal Opportunity Compliance System on the

Department's Website, actual payments (including retainage) made to DBEs for work performed with their own workforce and equipment in the area in which they are certified. Report payments made to all DBE and Minority Business Enterprise (MBE) subcontractors and DBE and MBE construction material and major suppliers.

The Equal Opportunity Office will provide instructions on accessing this system. Develop a record keeping system to monitor DBE affirmative action efforts which include the following:

1. the procedures adopted to comply with these Specifications;

2. the number of subordinated Contracts on Department projects awarded to DBEs;

3. the dollar value of the Contracts awarded to DBEs;

4. the percentage of the dollar value of all subordinated Contracts awarded to DBEs as a percentage of the total Contract amount;

5. a description of the general categories of Contracts awarded to DBEs; and

6. the specific efforts employed to identify and award Contracts to DBEs.

Upon request, provide the records to the Department for review.

Maintain all such records for a period of five years following acceptance of final payment and have them available for inspection by the Department and the Federal Highway Administration.

7-24.5 Counting DBE Participation and Commercially Useful Functions:

49 CFR Part 26.55 specifies when DBE credit shall be awarded for work performed by a DBE. DBE credit can only be awarded for work actually performed by DBEs themselves for the types of work for which they are certified. When reporting DBE Commitments, only include the dollars that a DBE is expected to earn for work they perform with their own workforce and equipment. Update DBE Commitments to reflect changes to the initial amount that was previously reported or to add DBEs not initially reported.

When a DBE participates in a contract, the value of the work is determined in accordance with 49 CFR Part 26.55, for example:

1. The Department will count only the value of the work performed by the DBE toward DBE goals. The entire amount of the contract that is performed by the DBE's own forces (including the cost of supplies, equipment and materials obtained by the DBE for the contract work) will be counted as DBE credit.

2. The Department will count the entire amount of fees or commissions charged by the DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services or for providing bonds or insurance specifically required for the performance of a Department-assisted contract, toward DBE goals, provided that the Department determines the fees to be reasonable and not excessive as compared with fees customarily followed for similar services.

3. When the DBE subcontracts part of the work of its contract to another firm, the Department will count the value of the subcontracted work only if the DBE's subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not count toward DBE goals.

4. When a DBE performs as a participant in a joint venture, the Department will count the portion of the dollar value of the contract equal to the distinct, clearly defined portion of the work the DBE performs with its own forces toward DBE goals.

5. The Contractors shall ensure that only expenditures to DBEs that perform a commercially useful function (CUF) in the work of a contract may be counted toward the voluntary DBE goal.

6. A DBE performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself.

7. Contractors wishing to use joint checks involving DBE credit must provide written notice to the District Contract Compliance Office prior to issuance of the joint check. The Contractor must also provide a copy of the notice to the DBE subcontractor and maintain a copy with the project records.

8. To determine whether a DBE is performing a commercially useful function, the Department will evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the DBE credit claimed for its performance of the work, and other relevant factors.

9. A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation.

10. If a DBE does not perform or exercise responsibility for at least 30% of the total cost of its contract with its own workforce, or if the DBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, the DBE has not performed a commercially useful function.

7-24.6 Prompt Payments: Meet the requirements of 9-5 for payments to all DBE subcontractors.

7-25 On-The-Job Training Requirements.

As part of the Contractor's equal employment opportunity affirmative action program, training shall be provided as follows:

The Contractor shall provide On-The-Job Training aimed at developing full journeymen in the type of trade or job classification involved in the work. In the event the Contractor subcontracts a portion of the contract work, it shall determine how many, if any, of the trainees are to be trained by the subcontractor provided, that the Contractor shall retain the primary responsibility for meeting the training requirements imposed by this Section. Ensure that, when feasible, 25% of trainees in each occupation are in their first year of training. The Contractor shall incorporate the requirements of this Section into such subcontract.

The number of trainees will be estimated on the number of calendar days of the contract, the dollar value, and the scope of work to be performed. The trainee goal will be finalized at a Post-Preconstruction Trainee Evaluation Meeting and the goal will be distributed among the work classifications based on the following criteria:

1. Determine the number of trainees on Federal Aid Contract:

a. No trainees will be required for contracts with a Contract Time allowance of less than 275 calendar days.

b. If the Contract Time allowance is 275 calendar days or more, the number of trainees shall be established in accordance with the following chart:

Estimated Contract Amount	Trainees Required
$2,000,000 or less	0
Over $2,000,000 to $4,000,000	2
Over $4,000,000 to $6,000,000	3
Over $6,000,000 to $12,000,000	5
Over $12,000,000 to $18,000,000	7
Over $18,000,000 to $24,000,000	9
Over $24,000,000 to $31,000,000	12
Over $31,000,000 to $37,000,000	13
Over $37,000,000 to $43,000,000	14
Over $43,000,000 to $49,000,000	15
Over $49,000,000 to $55,000,000	16
Over $55,000,000 to $62,000,000	17
Over $62,000,000 to $68,000,000	18
Over $68,000,000 to $74,000,000	19
Over $74,000,000 to $81,000,000	20
Over $81,000,000 to $87,000,000	21
Over $87,000,000 to $93,000,000	22
Over $93,000,000 to $99,000,000	23
Over $99,000,000 to $105,000,000	24
Over $105,000,000 to $112,000,000	25
Over $112,000,000 to $118,000,000	26
Over $118,000,000 to $124,000,000	27
Over $124,000,000 to $130,000,000	28
Over $130,000,000 to *	
*One additional trainee per $6,000,000 of estimated Construction Contract amount over $130,000,000	

Further, if the Contractor or subcontractor requests to utilize banked trainees as discussed later in this Section, a Banking Certificate will be validated at this meeting allowing credit to the Contractor for previously banked trainees. Banked credits of prime Contractors working as Subcontractors may be accepted for credit. The Contractor's Project Manager, the Construction Project Engineer and the Department's District Contract Compliance Manager will attend this meeting. Within ten days after the Post-Preconstruction Training Evaluation Meeting, the Contractor shall submit to the Department for approval an On-The-Job Training Schedule indicating the number of trainees to be trained in each selected classification and the portion of the Contract Time during which training of each trainee is to take place. This schedule may be subject to change if any of the following occur:

1. When a start date on the approved On-The-Job Training Schedule has been missed by 14 or more days;

2. When there is a change in previously approved classifications;

3. When replacement trainees are added due to voluntary or involuntary termination

The revised schedule will be resubmitted to and approved by the Department's District Contract Compliance Manager.

The following criteria will be used in determining whether or not the Contractor has complied with this Section as it relates to the number of trainees to be trained:

1. Credit will be allowed for each trainee that is both enrolled and satisfactorily completes training on this Contract. Credit for trainees, over the established number for this Contract, will be carried in a "bank" for the Contractor and credit will be allowed for those surplus trainees in subsequent, applicable projects. A "banked" trainee is described as an employee who has been trained on a project, over and above the established goal, and for which the Contractor desires to preserve credit for utilization on a subsequent project.

2. Credit will be allowed for each trainee that has been previously enrolled in the Department's approved training program on another contract and continues training in the same job classification and completes their training on a different contract.

3. Credit will be allowed for each trainee who, due to the amount of work available in their classification, is given the greatest practical amount of training on the contract regardless of whether or not the trainee completes training.

4. Credit will be allowed for any training position indicated in the approved On-The-Job Training Schedule, if the Contractor can demonstrate that made a good faith effort to provide training in that classification was made.

5. No credit will be allowed for a trainee whose employment by the Contractor is involuntarily terminated unless the Contractor can clearly demonstrate good cause for this action.

Training and upgrading of minorities, women and economically disadvantaged persons toward journeyman status is a primary objective of this Section. Accordingly, the Contractor shall make every effort to enroll minority trainees and women (e.g., by conducting systematic and direct recruitment through public and private sources likely to yield minority and women trainees) to the extent such persons are available within a reasonable area of recruitment. If a non-minority male is enrolled into the On-The-Job Training Program, the On-The-Job Training Notification of Personnel Action Form notifying the District Contract Compliance Manager of such action shall be accompanied by a disadvantaged certification or a justification for such action acceptable to the Department's District Contract Compliance Manager. The Contractor will be given an opportunity and will be responsible for demonstrating the steps that it has taken in pursuance thereof, prior to a determination as to whether the Contractor is in compliance with this Section. This training is not intended, and shall not be used, to discriminate against any applicant for training, whether a minority, woman or disadvantaged person.

No employee shall be employed as a trainee in any classification in which they have successfully completed a training course leading to journeyman status, or have been employed as a journeyman. The Contractor may satisfy this requirement by including appropriate questions in the employee application or by other suitable means. Regardless of the method used, the Contractor's records should document the findings in each case.

The minimum length and type of training for each classification will be as established at the Post-Preconstruction Trainee Evaluation Meeting and approved by the Department. Graduation to journeyman status will be based upon satisfactory completion of a Proficiency Demonstration set up at the completion of training and established for the specific training classification, completion of the minimum hours in a training classification range, and the employer's satisfaction that the trainee does meet journeyman status in the classification of

training. Upon reaching journeyman status, the following documentation must be forwarded to the District Contract Compliance Office:

1. Trainee Enrollment and Personnel Action Form

2. Proficiency Demonstration Verification Form indicating completion of each standard established for the classification signed by representatives of both the Contractor and the Department.

The Department and the Contractor shall establish a program that is tied to the scope of the work in the project and the length of operations providing it is reasonably calculated to meet the equal employment opportunity obligations of the Contractor and to qualify the average trainee for journeyman status in the classifications concerned, by at least, the minimum hours prescribed for a training classification. Furthermore, apprenticeship programs registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, or with a State apprenticeship agency recognized by the Bureau and training programs approved but not necessarily sponsored by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training shall also be considered acceptable provided it is being administered in a manner consistent with the equal employment obligations of Federal Aid highway construction contract. Approval or acceptance of a training schedule shall be obtained from the Department prior to commencing work on the classifications covered by the program.

A voluntary On-The-Job Training Program is available to a Contractor which has been awarded a state funded project. Through this program, the Contractor will have the option to train employees on state funded projects for "banked credit" as discussed previously in this provision, to be utilized on subsequent Federal Aid Projects where training is required. Those Contractors availing themselves of this opportunity to train personnel on state funded projects and bank trainee hours for credit shall comply with all training criteria set forth in this Section for Federal Aid Projects; voluntary banking may be denied by the Department if staff is not available to monitor compliance with the training criteria.

It is the intention of these provisions that training is to be provided in the construction crafts rather than clerk-typists or secretarial type positions. Training is permissible in lower level management positions such as office engineers, estimators, etc., where the training is oriented toward construction applications. Training in the laborer classifications, except Common/General Laborer, may be permitted provided that significant and meaningful training is provided and approved by the District Contract Compliance Office.

When approved in advance by the District Contract Compliance Manager, credit will be given for training of persons in excess of the number specified herein under the current contract or a Contractor will be allowed to bank trainees who have successfully completed a training program and may apply those trainees to a training requirement in subsequent project(s) upon approval of the Department's District Contract Compliance Manager. This credit will be given even though the Contractor may receive training program funds from other sources, provided such other source do not specifically prohibit the Contractor from receiving other form of compensation. Offsite training is permissible as long as the training is an integral part of an approved training program and does not compromise a significant part of the overall training. Credit for offsite training indicated above may only be made to the Contractor when it does one or more of the following and the trainees are concurrently employed on a Federal Aid Project:

1. Contributes to the cost of the training,
2. Provides the instruction to the trainee,
3. Pays the trainee's wages during the offsite training period.

The Contractor shall compensate the trainee at no less than the laborer rate established in the Contract at the onset of training. The compensation rate will be increased to the journeyman's wage upon graduation from the training program for the remainder of the time the trainee works in the classification in which they were trained.

The Contractor shall furnish the trainee a copy of the program they will follow in providing the training. The Contractor shall provide each trainee with a certification showing the type and length of training satisfactorily completed. The Contractor shall enroll a trainee in one training classification at a time to completion before the trainee can be enrolled in another classification on the same project.

The Contractor shall maintain records to document the actual hours each trainee is engaged in training on work being performed as a part of this Contract.

The Contractor shall submit to the District Contract Compliance Manager a copy of an On-The-Job Training Notification of Personnel Action form no later than seven days after the effective date of the action when the following actions occur: a trainee is transferred on the project, transferred from the project to continue training on another contract, completes training, is upgraded to journeyman status or voluntary terminates or is involuntary terminated from the project.

The Contractor shall furnish to the District Contract Compliance Manager a copy of a Monthly Time Report for each trainee. The Monthly Time Report for each month shall be submitted no later than the tenth day of the subsequent month. The Monthly Time Report shall indicate the phases and sub-phases of the number of hours devoted to each proficiency.

Highway or Bridge Carpenter Helper, Mechanic Helper, Rodman/Chainman, and Timekeeper classifications will not be approved for the On-The-Job Training Program.

The number of trainees may be distributed among the work classifications on the basis of the Contractor's needs and the availability of journeymen in the various classifications within a reasonable area of recruitment.

The Contractor will have fulfilled the responsibilities of this Specification when acceptable training has been provided to the trainee as specified above.

7-26 Cargo Preference Act – Use of United States-Flag Vessels.

Pursuant to Title 46 CFR 381, the Contractor agrees

1. To utilize privately owned United States-flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to this Contract, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels.

2. To furnish within 20 days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, 'on-board' commercial ocean bill-of-lading in English for each shipment of cargo described in paragraph 1 of this Article to both the Contracting Officer (through the prime contractor in the case of subcontractor bills-of-lading) and to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590.

3. To insert the substance of the provisions of this clause in all subcontracts issued pursuant to this Contract.

7-29 E-Verify.

The Contractor shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any subcontractors performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term.

7-31 Title VI Assurance – DOT 1050.2A, Appendix A and Appendix E.

7-31.1 Appendix A: During the performance of this Contract, the Contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "Contractor") agrees as follows:

1. Compliance with Regulations: The Contractor shall comply with the Regulations relative to nondiscrimination in Federally-assisted programs of the US Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Contract.

2. Nondiscrimination: The Contractor, with regard to the work performed by it during the Contract, shall not discriminate on the basis of race, color, national origin or sex in the selection and retention of sub-contractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the Contract covers a program set forth in Appendix B of the Regulations.

3. Solicitations for subcontractors, including procurements of materials and equipment: In all solicitations either by competitive bidding or negotiation made by the Contractor for work to be performed under subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, or sex.

4. Information and Reports: The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the Florida Department of Transportation or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, order and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the Florida Department of Transportation, or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance: In the event of the Contractor's noncompliance with the nondiscrimination provisions of this Contract, the Florida Department of Transportation shall impose such Contract sanctions as it or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to:

a. withholding of payments to the Contractor under the Contract until the Contractor complies, or

b. cancellation, termination or suspension of the Contract, in whole or in part.

6. Incorporation of Provisions: The Contractor shall include the provisions of the 7-30.1 through 7-30.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the Florida Department of Transportation or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, or Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions including sanctions for noncompliance, provided, however, that, in the event a Contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Contractor may request the Florida Department of Transportation to enter into such litigation to protect the interests of the Florida Department of Transportation, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

7-31.2 Appendix E: During the performance of this Contract, the Contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Contractor" agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

1. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21;

2. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired of Federal or Federal-aid programs and projects);

3. Federal-Aid Highway Act of 1973, (23 U.S.C § 324 et seq.), (prohibits discrimination on the basis of sex);

4. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;

5. The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age);

6. Airport and Airway Improvement Act of 1982, (49 U.S.C. 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color national origins or sex);

7. The Civil Rights Restoration Act of 1987 (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

8. Titles II and III of the Americans with Disabilities Act, which prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38;

FROM SECTION 8 (SUBLETTING, CONTRACT TIME EXTENSIONS, AND LIQUIDATED DAMAGES).

8-1 Subletting or Assigning of Contracts.

Do not, sell, transfer, assign or otherwise dispose of the Contract or Contracts or any portion thereof, or of the right, title, or interest therein, without written consent of the Department. If the Contractor chooses to sublet any portion of the Contract, the Contractor must provide a written request to sublet work on the Certification of Sublet Work form developed by the Department for this purpose. With the Engineer's acceptance of the request, the Contractor may sublet a portion of the work, but shall perform with its own organization work amounting to not less than 40% of the total Contract amount. The Certification of Sublet Work request will be deemed acceptable by the Department, for purposes of the Department's consent, unless the Engineer notifies the Contractor within 5 business days of receipt of the Certification of Sublet Work that the Department is not consenting to the requested subletting.

Include in the total Contract amount the cost of materials and manufactured component products, and their transportation to the project site. For the purpose of meeting this requirement the Department will not consider off-site commercial production of materials and manufactured component products that the Contractor purchases, or their transportation to the project, as subcontracted work.

If the Contractor sublets a part of a Contract item, the Department will use only the sublet proportional cost in determining the percentage of subcontracted normal work.

Execute all agreements to sublet work in writing and include all pertinent provisions and requirements of the Contract. All other agreements must be in writing and reference all applicable Contract provisions. Upon request, furnish the Department with a copy of the subcontract and agreement. The subletting of work does not relieve the Contractor or the surety of their respective liabilities under the Contract.

The Department recognizes a subcontractor only in the capacity of an employee or agent of the Contractor, and the Engineer may require the Contractor to remove the subcontractor as in the case of an employee.

8-7.3.2 Contract Time Extensions: The Department may grant an extension of Contract Time when a controlling item of work is delayed by factors not reasonably anticipated or foreseeable at the time of bid. The Department may allow such extension of time only for delays occurring during the Contract Time period or authorized extensions of the Contract Time period. When failure by the Department to fulfill an obligation under the Contract results in delays to the controlling items of work, the Department will consider such delays as a basis for granting a time extension to the Contract.

Whenever the Engineer suspends the Contractor's operations, as provided in 8-6, for reasons other than the fault of the Contractor, the Engineer will grant a time extension for any delay to a controlling item of work due to such suspension. The Department will not grant time extensions to the Contract for delays due to the fault or negligence of the Contractor.

The Department does not include an allowance for delays caused by the effects of inclement weather or suspension of Contractor's operations as defined in 8-6.4, in establishing Contract Time. The Engineer will continually monitor the effects of weather and,

when found justified, grant time extensions on either a bimonthly or monthly basis. The Engineer will not require the Contractor to submit a request for additional time due to the effects of weather.

The Department will grant time extensions, on a day for day basis, for delays caused by the effects of rains or other inclement weather conditions, related adverse soil conditions or suspension of operations as defined in 8-6.4 that prevent the Contractor from productively performing controlling items of work resulting in:

1. The Contractor being unable to work at least 50% of the normal work day on pre-determined controlling work items; or

2. The Contractor must make major repairs to work damaged by weather, provided that the damage is not attributable to the Contractor's failure to perform or neglect; and provided that the Contractor was unable to work at least 50% of the normal workday on pre-determined controlling work items.

No additional compensation will be made for delays caused by the effects of inclement weather.

The Department will consider the delays in delivery of materials or component equipment that affect progress on a controlling item of work as a basis for granting a time extension if such delays are beyond the control of the Contractor or supplier. Such delays may include an area-wide shortage, an industry-wide strike, or a natural disaster that affects all feasible sources of supply. In such cases, the Contractor shall furnish substantiating letters from a representative number of manufacturers of such materials or equipment clearly confirming that the delays in delivery were the result of an area-wide shortage, an industry-wide strike, etc. No additional compensation will be made for delays caused by delivery of materials or component equipment.

The Department will not consider requests for time extension due to delay in the delivery of custom manufactured equipment such as traffic signal equipment, highway lighting equipment, etc., unless the Contractor furnishes documentation that he placed the order for such equipment in a timely manner, the delay was caused by factors beyond the manufacturer's control, and the lack of such equipment caused a delay in progress on a controlling item of work. No additional compensation will be paid for delays caused by delivery of custom manufactured equipment.

The Department will consider the affect of utility relocation and adjustment work on job progress as the basis for granting a time extension only if all the following criteria are met:

1. Delays are the result of either utility work that was not detailed in the Plans, or utility work that was detailed in the Plans but was not accomplished in reasonably close accordance with the schedule included in the Contract Documents.

2. Utility work actually affected progress toward completion of controlling work items.

3. The Contractor took all reasonable measures to minimize the effect of utility work on job progress, including cooperative scheduling of the Contractor's operations with the scheduled utility work at the preconstruction conference and providing adequate advance notification to utility companies as to the dates to coordinate their operations with the Contractor's operations to avoid delays.

As a condition precedent to an extension of Contract Time the Contractor must submit to the Engineer:

A preliminary request for an extension of Contract Time must be made in writing to the Engineer within ten calendar days after the commencement of a delay to a controlling item of work. If the Contractor fails to submit this required preliminary request for an extension of Contract Time, the Contractor fully, completely, absolutely and irrevocably waives any entitlement to an extension of Contract Time for that delay. In the case of a continuing delay only a single preliminary request for an extension of Contract Time will be required. Each such preliminary request for an extension of Contract Time shall include as a minimum the commencement date of the delay, the cause of the delay, and the controlling item of work affected by the delay.

Furthermore, the Contractor must submit to the Engineer a request for a Contract Time extension in writing within 30 days after the elimination of the delay to the controlling item of work identified in the preliminary request for an extension of Contract Time. Each request for a Contract Time extension shall include as a minimum all documentation that the Contractor wishes the Department to consider related to the delay, and the exact number of days requested to be added to Contract Time. If the Contractor contends that the delay is compensable, then the Contractor shall also be required to submit with the request for a Contract Time extension a detailed cost analysis of the requested additional compensation. If the Contractor fails to submit this required request for a Contract Time extension, with or without a detailed cost analysis, depriving the Engineer of the timely opportunity to verify the delay and the costs of the delay, the Contractor waives any entitlement to an extension of Contract Time or additional compensation for the delay.

Upon timely receipt of the preliminary request of Contract Time from the Contractor, the Engineer will investigate the conditions, and if it is determined that a controlling item of work is being delayed for reasons beyond the control of the Contractor the Engineer will take appropriate action to mitigate the delay and the costs of the delay. Upon timely receipt of the request for a Contract Time extension the Engineer will further investigate the conditions, and if it is determined that there was an increase in the time or the cost of performance of the controlling item of work beyond the control of the Contractor, then an adjustment of Contract Time will be made, and a monetary adjustment will be made, excluding loss of anticipated profits, and the Contract will be modified in writing accordingly.

The existence of an accepted schedule, including any required update(s), as stated in 8-3.2, is a condition precedent to the Contractor having any right to the granting of an extension of Contract Time or any monetary compensation arising out of any delay. Contractor failure to have an accepted schedule, including any required update(s), for the period of potential impact, or in the event the currently accepted schedule and applicable updates do not accurately reflect the actual status of the project or fail to accurately show the true controlling or non-controlling work activities for the period of potential impact, will result in any entitlement determination as to time or money for such period of potential impact being limited solely to the Department's analysis and identification of the actual controlling or non-controlling work activities. Further, in such instances, the Department's determination as to entitlement as to either time or compensability will be final, unless the Contractor can prove by clear and convincing evidence to a Disputes Review Board that the Department's determination was without any reasonable factual basis.

8-10 Liquidated Damages for Failure to Complete the Work.

8-10.2 Amount of Liquidated Damages: Applicable liquidated damages are the amounts established in the following schedule:

Original Contract Amount	Daily Charge Per Calendar Day
$50,000 and under	$763
Over $50,000 but less than $250,000	$958
$250,000 but less than $500,000	$1,099
$500,000 but less than $2,500,000	$1,584
$2,500,000 but less than $5,000,000	$2,811
$5,000,000 but less than $10,000,000	$3,645
$10,000,000 but less than $15,000,000	$4,217
$15,000,000 but less than $20,000,000	$4,698
$20,000,000 and over	$6,323 plus 0.00005 of any amount over $20 million (Round to nearest whole dollar)

FROM SECTION 9 (PARTIAL PAYMENTS).

9-5 Partial Payments.

9-5.1 General: The Engineer will make partial payments on monthly estimates based on the amount of work that the Contractor completes during the month (including delivery of certain materials, as specified herein below). The Engineer will make approximate monthly payments, and the Department will correct all partial estimates and payments in the subsequent estimates and in the final estimate and payment.

The Department will base the amount of such payments on the total value of the work that the Contractor has performed to the date of the estimate, based on the quantities completed and the Contract prices, less payments previously made and less any retainage withheld.

Retainage will not be withheld until the percent of Contract Time used exceeds 75%. From that time forward, the Department will withhold retainage of 10% of the amount due on the current estimate as retainage when the percent of Contract Time used exceeds the percent of Contract amount earned by more than 15%.

Contract amount is defined as the original Contract amount adjusted by approved supplemental agreements.

Retainage will be determined for each job on multiple job Contracts. The Department will not accept Securities, Certificates of Deposit or letters of credit as a replacement for retainage. Amounts withheld will not be released until payment of the final estimate.

9-5.2 Unsatisfactory Payment Record: In accordance with Sections 255.05 and 337.16 of the Florida Statutes, and the rules of the Department, the Department may disqualify the Contractor from bidding on future Department contracts if the Contractor's payment record in connection with contract work becomes unsatisfactory.

9-5.3 Withholding Payment:

9-5.3.1 Withholding Payment for Defective Work: If the Department discovers any defective work or material prior to the final acceptance, or if the Department has a reasonable doubt as to the integrity of any part of the completed work prior to final acceptance, then the Department will not allow payment for such defective or questioned work until the Contractor has remedied the defect and removed any causes of doubt.

9-5.3.2 Withholding Payment for Failure to Comply: The Department will withhold progress payments from the Contractor if he fails to comply with any or all of the following within 60 days after beginning work:

1. comply with and submit required paperwork relating to prevailing wage rate provisions, Equal Employment Opportunity, On-The-Job Training, and Affirmative Action;

2. comply with the requirement to all necessary information, including actual payments to DBEs, all other subcontractors and major suppliers, through the Internet based Equal Opportunity Reporting System;

3. comply with or make a good faith effort to ensure employment opportunity for minorities and females in accordance with the required contract provisions for Federal Aid Construction Contracts, and

4. comply with or make a good faith effort to meet On-The-Job Training goals.

The Department will withhold progress payments until the Contractor has satisfied the above conditions.

9-5.4 Release of Retainage After Acceptance: When the Contractor has furnished the Department with all submittals required by the Contract, such as invoices, EEO reports, materials certifications, certification of materials procured, etc., (excluding Contractor's letter of acceptance of final amount due and Form 21-A release) and the Engineer has determined that the measurement and computation of pay quantities is correct, the Department may reduce the retainage to $1,000 plus any amount that the Department elects to deduct for defective work as provided in 9-5.3.

The Department will not allow a semifinal estimate under the provisions of the above paragraphs unless the time elapsing between (1) acceptance of the project and receipt of all test reports, invoices, etc., and (2) submission of the final estimate to the Contractor for acceptance, exceeds or is expected to exceed ten days.

The Department may deduct from payment estimates any sums that the Contractor owes to the Department on any account. Where more than one project or job (separate job number) is included in the Contract, the Department will distribute the reduced retainage as provided in the first paragraph of this Subarticle to each separate project or job in the ratio that the Contract value of the work for the particular job bears to the total Contract amount.

9-5.5 Partial Payments for Delivery of Certain Materials:

9-5.5.1 General: The Department will allow partial payments for new materials that will be permanently incorporated into the project and are stockpiled in approved locations in the project vicinity. Stockpile materials so that they will not be damaged by the elements and in a manner that identifies the project on which they are to be used.

The following conditions apply to all payments for stockpiled materials:

1. There must be reasonable assurance that the stockpiled material will be incorporated into the specific project on which partial payment is made.

2. The stockpiled material must be approved as meeting applicable specifications.

3. The total quantity for which partial payment is made shall not exceed the estimated total quantity required to complete the project.

4. The Contractor shall furnish the Engineer with copies of certified invoices to document the value of the materials received. The amount of the partial payment will be determined from invoices for the material up to the unit price in the Contract.

5. Delivery charges for materials delivered to the jobsite will be included in partial payments if properly documented.

6. Partial payments will not be made for materials which were stockpiled prior to award of the Contract for a project.

9-5.5.2 Partial Payment Amounts: The following partial payment restrictions apply:

1. Partial payments less than $5,000 for any one month will not be processed.

2. Partial payments for structural steel and precast prestressed items will not exceed 85% of the bid price for the item. Partial payments for all other items will not exceed 75% of the bid price of the item in which the material is to be used.

3. Partial payment will not be made for aggregate and base course material received after paving or base construction operations begin except when a construction sequence designated by the Department requires suspension of paving and base construction after the initial paving operations, partial payments will be reinstated until the paving and base construction resumes.

9-5.5.3 Off Site Storage: If the conditions of 9-5.5.1 are satisfied, partial payments will be allowed for materials stockpiled in approved in-state locations. Additionally, partial payments for materials stockpiled in approved out-of-state locations will be allowed if the conditions of 9-5.5.1 and the following conditions are met:

1. Furnish the Department a Materials Bond stating the supplier guarantees to furnish the material described in the Contract to the Contractor and Department. Under this bond, the Obligor shall be the material supplier and the Obligees shall be the Contractor and the Florida Department of Transportation. The bond shall be in the full dollar amount of the bid price for the materials described in the contract.

2. The following clauses must be added to the construction Contract between the Contractor and the supplier of the stockpiled materials:

"Notwithstanding anything to the contrary, <supplier> will be liable to the Contractor and the Florida Department of Transportation should <supplier> default in the performance of this agreement."

"Notwithstanding anything to the contrary, this agreement, and the performance bond issued pursuant to this agreement, does not alter, modify, or otherwise change the Contractor's obligation to furnish the materials described in this agreement to the Florida Department of Transportation."

3. The agreement between the Contractor and the supplier of the stockpiled materials must include provisions that the supplier will store the materials and that such materials are the property of the Contractor.

9-5.6 Certification of Payment to Subcontractors: The term "subcontractor," as used herein, includes persons or firms furnishing materials or equipment incorporated into the work or stockpiled for which the Department has made partial payment and firms working under equipment-rental agreements. The Contractor is required to pay all subcontractors for satisfactory performance of their Contracts before the Department will make a further progress (partial) payment. The Contractor shall also return all retainage withheld to the subcontractors within 30 days after the subcontractor's work is satisfactorily complete, as determined by the Department. Prior to receipt of any progress (partial) payment, the prime contractor shall certify that all subcontractors having an interest in the Contract were paid for satisfactory performance

of their Contracts and that the retainage is returned to subcontractors within 30 days after satisfactory completion of the subcontractor's work. Provide this certification in the form designated by the Department.

Within 30 days of the Contractor's receipt of the final progress payment or any other payments thereafter, except the final payment, the Contractor shall pay all subcontractors and suppliers having an interest in the Contract for all work completed and materials furnished. The Department will honor an exception to the above when the Contractor demonstrates good cause for not making any required payment and furnishes written notification of any such good cause to both the Department and the affected subcontractors or suppliers within said 30 day period.

The Contractor shall indemnify and provide defense for the Department when called upon to do so for all claims or suits against the Department, by third parties, pertaining to Contractor payment or performance issues arising out of the Contract. It is expressly understood that the monetary limitation on the extent of the indemnification shall be the approved Contract amount, which shall be the original Contract amount as may be increased by subsequent Supplemental Agreements.

Section II. Geotechnical Report

April 3, 2019

DAVID W, FITZPATRICK, P.E., P.A.
10250 North Palafox Street
Pensacola, Florida 32534

Subject: Report of Subsurface Exploration and Geotechnical Engineering Services
GODWIN LANE PIT REGIONAL POND
Escambia County, Florida
NOVA Project Number 10116-2019046

Mr. Fitzpatrick:

This letter forwards the results of our exploration for the stormwater management system (SMS) improvements to be constructed at the subject property. The project site consists of an existing borrow pit located on the north side of Godwin Lane, approximately 0.3 miles west of Mobile Highway in Escambia County, Florida. The primary objective of this study was to provide a geotechnical exploration of the near surface soils within the area of the proposed SMS improvements and to provide geotechnical parameters for use in the SMS design. The work was performed in general accordance with NOVA Proposal Number 016-20199050, dated February 27, 2019. This report briefly discusses our understanding of the project at the time of the subsurface exploration, describes the geotechnical consulting services provided by NOVA, and presents our findings, conclusions, and recommendations.

Subsurface Conditions

Our field exploration at the subject site included performing two (2) Standard Penetration Test (SPT) borings along the perimeter of the existing borrow pit and three (3) auger borings within the bottom of the existing pit. Drilling, testing and sampling operations were performed in general accordance with ASTM designations and other industry standards.

The SPT borings generally encountered very loose to medium dense fine-grained silty to clayey sands (USCS classifications of SM and SC, respectively) from the existing ground surface elevation to a depth of about 13 feet below existing grade (BEG) underlain by loose to medium dense fine-grained slightly silty to relatively clean sands (SP-SM, SP) to the maximum depth explored of roughly 35 feet BEG. We note that boring B-1 encountered refusal after several offsets due to the presence of buried concrete debris at an approximate depth of 13 feet.

The test borings performed in the bottom of the pit encountered mixed strata of fine-grained silty sands, clayey sands, and slightly silty sands (SM, SC, SP-SM) with inter-bedded seams of low plasticity clay (CL) to depths of about 4½ feet to 9 feet BEG where the boreholes collapsed due to the presence of groundwater.

The Test Boring Records as well as a summary of laboratory soil testing results are provided in the attached Appendix.

Groundwater was encountered in SPT boring B-2 (performed at the upper elevation ground surface around the perimeter of the pit) at a depth of about 23 feet BEG, and at depths varying between roughly 2½ feet to 7½ feet BEG in the pit bottom borings at the time of our field exploration, which occurred during a period of relatively above-normal seasonal rainfall. We note that discrepancies in groundwater levels are due to surface topography and that correlations with the boring locations on the provided site survey (titled *Godwin Lane Pit Drainage Project* provided by Escambia County Engineering Department dated January 23, 2019) established the groundwater elevation at approximately EL+73 feet NAVD88, which corresponds with the surveyed waterline surveyed on January 7, 2019. We further note that if increased accuracy is desired then we recommend that our boring locations and elevations be surveyed.

Based on this information, we estimate that the normal permanent seasonal high groundwater (SHGW) table for this project site will occur at an elevation of approximately EL+75 feet NAVD88, during the wet season.

Hydraulic Conductivity

Based on conversations with the client, we understand that the project will consist of a hybrid-designed wet detention basin to treat and dispose of stormwater runoff. The highly permeable sands encountered in the side banks of the existing basin will be used to provide a means of discharge from the basin during and shortly following significant rain events.

Based on the results of the SMS test borings, the subsurface conditions encountered on the project site appear to be adaptable for the planned improvements. We recommend utilizing the SMS design parameters provided below in Table 1 below for the SMS design.

Table 1 – SMS Soil Design Parameters	
Corresponding Soil Boring Test Locations	B-2, R-1, R-2, R-3
Approximate Elevation of Confining Layer	EL+73 ft. NAD88
Measured Average Vertical Hydraulic Conductivity (Kv)	0.2 feet/day
Calculated Horizontal Hydraulic Conductivity (Kh)	49 feet/day
Estimated Fillable Porosity of Soil	25%
Estimated Elevation of Normal Permanent SHGW table	EL+75 ft. NAD88
Estimated Elevation of Normal Permanent SLGW table	EL+71 ft. NAD88

The estimated normal permanent seasonal high groundwater level provided in Table 1 on the previous page is based on our experience with projects in this locale; the soil strata encountered in the test borings; the groundwater levels measured at the site; and the published information by the "Web Soil Survey" National database, NRCS division of the United States Department of Agriculture (USDA).

We appreciate your selection of NOVA and the opportunity to be of service on this project. If you have any questions, or if we may be of further assistance, please do not hesitate to contact us.

Sincerely,
NOVA Engineering and Environmental LLC

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Escambia County, Florida
Survey Area Data: Version 18, Sep 17, 2018

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Jan 31, 2015—Mar 7, 2015

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

KEY TO BORING LOGS

SYMBOLS AND ABBREVIATIONS

SYMBOL	DESCRIPTION
N-Value	No. of Blows of a 140-lb. Weight Falling 30 Inches Required to Drive a Standard Spoon 1 Foot
WOR	Weight of Drill Rods
WOH	Weight of Drill Rods and Hammer
	Sample from Auger Cuttings
	Standard Penetration Test Sample
	Thin-wall Shelby Tube Sample (Undisturbed Sampler Used)
% REC	Percent Core Recovery from Rock Core Drilling
RQD	Rock Quality Designation
	Stabilized Groundwater Level
	Seasonal High Groundwater Level (also referred to as the W.S.W.T.)
NE	Not Encountered
GNE	Groundwater Not Encountered
BT	Boring Terminated
-200 (%)	Fines Content or % Passing No. 200 Sieve
MC (%)	Moisture Content
LL	Liquid Limit (Atterberg Limits Test)
PI	Plasticity Index (Atterberg Limits Test)
K	Coefficient of Permeability
Org. Cont.	Organic Content
G.S. Elevation	Ground Surface Elevation

UNIFIED SOIL CLASSIFICATION SYSTEM

MAJOR DIVISIONS			GROUP SYMBOLS	TYPICAL NAMES
COARSE-GRAINED SOILS More than 50% retained on the No. 200 sieve*	GRAVELS 50% or more of coarse fraction retained on No. 4 sieve	CLEAN GRAVELS	GW	Well-graded gravels and gravel-sand mixtures, little or no fines
			GP	Poorly graded gravels and gravel-sand mixtures, little or no fines
		GRAVELS WITH FINES	GM	Silty gravels and gravel-sand-silt mixtures
			GC	Clayey gravels and gravel-sand-clay mixtures
	SANDS More than 50% of coarse fraction passes No. 4 sieve	CLEAN SANDS 5% or less passing No. 200 sieve	SW**	Well-graded sands and gravelly sands, little or no fines
			SP**	Poorly graded sands and gravelly sands, little or no fines
		SANDS with 12% or more passing No. 200 sieve	SM**	Silty sands, sand-silt mixtures
			SC**	Clayey sands, sand-clay mixtures
FINE-GRAINED SOILS 50% or more passes the No. 200 sieve*	SILTS AND CLAYS Liquid limit 50% or less		ML	Inorganic silts, very fine sands, rock flour, silty or clayey fine sands
			CL	Inorganic clays of low to medium plasticity, gravelly clays, sandy clays, lean clays
			OL	Organic silts and organic silty clays of low plasticity
	SILTS AND CLAYS Liquid limit greater than 50%		MH	Inorganic silts, micaceous or diamicaceous fine sands or silts, elastic silts
			CH	Inorganic clays or clays of high plasticity, fat clays
			OH	Organic clays of medium to high plasticity
			PT	Peat, muck and other highly organic soils

*Based on the material passing the 3-inch (75 mm) sieve
** Use dual symbol (such as SP-SM and SP-SC) for soils with more than 5% but less than 12% passing the No. 200 sieve

RELATIVE DENSITY
(Sands and Gravels)
Very loose – Less than 4 Blow/Foot
Loose – 4 to 10 Blows/Foot
Medium Dense – 11 to 30 Blows/Foot
Dense – 31 to 50 Blows/Foot
Very Dense – More than 50 Blows/Foot

CONSISTENCY
(Silts and Clays)
Very Soft – Less than 2 Blows/Foot
Soft – 2 to 4 Blows/Foot
Medium Stiff – 5 to 8 Blows/Foot
Stiff – 9 to 15 Blows/Foot
Very Stiff – 16 to 30 Blows/Foot
Hard – More than 30 Blows/Foot

RELATIVE HARDNESS
(Limestone)
Soft – 100 Blows for more than 2 Inches
Hard – 100 Blows for less than 2 Inches

MODIFIERS

These modifiers Provide Our Estimate of the Amount of Minor Constituents (Silt or Clay Size Particles) in the Soil Sample
Trace – 5% or less
With Silt or With Clay – 6% to 11%
Silty or Clayey – 12% to 30%
Very Silty or Very Clayey – 31% to 50%

These Modifiers Provide Our Estimate of the Amount of Organic Components in the Soil Sample
Trace – Less than 3%
Few – 3% to 4%
Some – 5% to 8%
Many – Greater than 8%

These Modifiers Provide Our Estimate of the Amount of Other Components (Shell, Gravel, Etc.) in the Soil Sample
Trace – 5% or less
Few – 6% to 12%
Some – 13% to 30%
Many – 31% to 50%

APPENDIX D
Qualifications of Recommendations

QUALIFICATIONS OF RECOMMENDATIONS

The findings, conclusions and recommendations presented in this report represent our professional opinions concerning subsurface conditions at the site. The opinions presented are relative to the dates of our site work and should not be relied on to represent conditions at later dates or at locations not explored. The opinions included herein are based on information provided to us, the data obtained at specific locations during the study, and our previous experience. If additional information becomes available which might impact our geotechnical opinions, it will be necessary for NOVA to review the information, re-assess the potential concerns, and re-evaluate our conclusions and recommendations.

Regardless of the thoroughness of a geotechnical exploration, there is the possibility that conditions between borings may differ from those encountered at specific boring locations, that conditions are not as anticipated by the designers and/or the contractors, or that either natural events or the construction process has altered the subsurface conditions. These variations are an inherent risk associated with subsurface conditions in this region and the approximate methods used to obtain the data. These variations may not be apparent until construction.

The professional opinions presented in this report are not final. Field observations and foundation installation monitoring by the geotechnical engineer, as well as soil density testing and other quality assurance functions associated with site earthwork and foundation construction, are an extension of this report. Therefore, NOVA should be retained by the owner to observe all earthwork and foundation construction to confirm that the conditions anticipated in this study actually exist, and to finalize or amend our conclusions and recommendations. NOVA is not responsible or liable for the conclusions and recommendations presented in this report if NOVA does not perform these observations and testing services.

This report is intended for the sole use of **David Fitzpatrick P.E., P.A.** only. The scope of work performed during this study was developed for purposes specifically intended for **David Fitzpatrick P.E., P.A.** only, and may not satisfy other users' requirements. Use of this report or the findings, conclusions or recommendations by others will be at the sole risk of the user. NOVA is not responsible or liable for the interpretation by others of the data in this report, nor their conclusions, recommendations or opinions.

Our professional services have been performed, our findings obtained, our conclusions derived and our recommendations prepared in accordance with generally accepted geotechnical engineering principles and practices in the State of Florida. This warranty is in lieu of all other statements or warranties, either expressed or implied.

Important Information about This

Geotechnical-Engineering Report

Subsurface problems are a principal cause of construction delays, cost overruns, claims, and disputes.

While you cannot eliminate all such risks, you can manage them. The following information is provided to help.

Geotechnical Services Are Performed for Specific Purposes, Persons, and Projects

Geotechnical engineers structure their services to meet the specific needs of their clients. A geotechnical-engineering study conducted for a civil engineer may not fulfill the needs of a constructor — a construction contractor — or even another civil engineer. Because each geotechnical- engineering study is unique, each geotechnical-engineering report is unique, prepared *solely* for the client. No one except you should rely on this geotechnical-engineering report without first conferring with the geotechnical engineer who prepared it. *And no one — not even you* — should apply this report for any purpose or project except the one originally contemplated.

Read the Full Report

Serious problems have occurred because those relying on a geotechnical-engineering report did not read it all. Do not rely on an executive summary. Do not read selected elements only.

Geotechnical Engineers Base Each Report on a Unique Set of Project-Specific Factors

Geotechnical engineers consider many unique, project-specific factors when establishing the scope of a study. Typical factors include: the client's goals, objectives, and risk-management preferences; the general nature of the structure involved, its size, and configuration; the location of the structure on the site; and other planned or existing site improvements, such as access roads, parking lots, and underground utilities. Unless the geotechnical engineer who conducted the study specifically indicates otherwise, do not rely on a geotechnical-engineering report that was:

- not prepared for you;
- not prepared for your project;
- not prepared for the specific site explored; or
- completed before important project changes were made.

Typical changes that can erode the reliability of an existing geotechnical-engineering report include those that affect:

- the function of the proposed structure, as when it's changed from a parking garage to an office building, or from a light-industrial plant to a refrigerated warehouse;
- the elevation, configuration, location, orientation, or weight of the proposed structure;
- the composition of the design team; or
- project ownership.

As a general rule, *always* inform your geotechnical engineer of project changes—even minor ones—and request an assessment of their impact. *Geotechnical engineers cannot accept responsibility or liability for problems that occur because their reports do not consider developments of which they were not informed.*

Subsurface Conditions Can Change

A geotechnical-engineering report is based on conditions that existed at the time the geotechnical engineer performed the study. *Do not rely on a geotechnical-engineering report whose adequacy may have been affected by*: the passage of time; man-made events, such as construction on or adjacent to the site; or natural events, such as floods, droughts, earthquakes, or groundwater fluctuations. *Contact the geotechnical engineer before applying this report to determine if it is still reliable.* A minor amount of additional testing or analysis could prevent major problems.

Most Geotechnical Findings Are Professional Opinions

Site exploration identifies subsurface conditions only at those points where subsurface tests are conducted or samples are taken. Geotechnical engineers review field and laboratory data and then apply their professional judgment to render an opinion about subsurface conditions throughout the site. Actual subsurface conditions may differ — sometimes significantly — from those indicated in your report. Retaining the geotechnical engineer who developed your report to provide geotechnical-construction observation is the most effective method of managing the risks associated with unanticipated conditions.

A Report's Recommendations Are Not Final

Do not overrely on the confirmation-dependent recommendations included in your report. *Confirmation-dependent recommendations are not final,* because geotechnical engineers develop them principally from judgment and opinion. Geotechnical engineers can finalize their recommendations *only* by observing actual subsurface conditions revealed during construction. *The geotechnical engineer who developed your report cannot assume responsibility or liability for the report's confirmation-dependent recommendations if that engineer does not perform the geotechnical-construction observation required to confirm the recommendations' applicability.*

A Geotechnical-Engineering Report Is Subject to Misinterpretation

Other design-team members' misinterpretation of geotechnical-engineering reports has resulted in costly

problems. Confront that risk by having your geotechnical engineer confer with appropriate members of the design team after submitting the report. Also retain your geotechnical engineer to review pertinent elements of the design team's plans and specifications. Constructors can also misinterpret a geotechnical-engineering report. Confront that risk by having your geotechnical engineer participate in prebid and preconstruction conferences, and by providing geotechnical construction observation.

Do Not Redraw the Engineer's Logs

Geotechnical engineers prepare final boring and testing logs based upon their interpretation of field logs and laboratory data. To prevent errors or omissions, the logs included in a geotechnical-engineering report should *never* be redrawn for inclusion in architectural or other design drawings. Only photographic or electronic reproduction is acceptable, *but recognize that separating logs from the report can elevate risk.*

Give Constructors a Complete Report and Guidance

Some owners and design professionals mistakenly believe they can make constructors liable for unanticipated subsurface conditions by limiting what they provide for bid preparation. To help prevent costly problems, give constructors the complete geotechnical-engineering report, *but* preface it with a clearly written letter of transmittal. In that letter, advise constructors that the report was not prepared for purposes of bid development and that the report's accuracy is limited; encourage them to confer with the geotechnical engineer who prepared the report (a modest fee may be required) and/or to conduct additional study to obtain the specific types of information they need or prefer. A prebid conference can also be valuable. *Be sure constructors have sufficient time* to perform additional study. Only then might you be in a position to give constructors the best information available to you, while requiring them to at least share some of the financial responsibilities stemming from unanticipated conditions.

Read Responsibility Provisions Closely

Some clients, design professionals, and constructors fail to recognize that geotechnical engineering is far less exact than other engineering disciplines. This lack of understanding has created unrealistic expectations that have led to disappointments, claims, and disputes. To help reduce the risk of such outcomes, geotechnical engineers commonly include a variety of explanatory provisions in their reports. Sometimes labeled "limitations," many of these provisions indicate where geotechnical engineers' responsibilities begin and end, to help others recognize their own responsibilities and risks. *Read these provisions closely.* Ask questions. Your geotechnical engineer should respond fully and frankly.

Environmental Concerns Are Not Covered

The equipment, techniques, and personnel used to perform an *environmental* study differ significantly from those used to perform a *geotechnical* study. For that reason, a geotechnical-engineering report does not usually relate any environmental findings, conclusions, or recommendations; e.g., about the likelihood of encountering underground storage tanks or regulated contaminants. *Unanticipated environmental problems have led to numerous project failures.* If you have not yet obtained your own environmental information, ask your geotechnical consultant for risk-management guidance. *Do not rely on an environmental report prepared for someone else.*

Obtain Professional Assistance To Deal with Mold

Diverse strategies can be applied during building design, construction, operation, and maintenance to prevent significant amounts of mold from growing on indoor surfaces. To be effective, all such strategies should be devised for the *express purpose* of mold prevention, integrated into a comprehensive plan, and executed with diligent oversight by a professional mold-prevention consultant. Because just a small amount of water or moisture can lead to the development of severe mold infestations, many mold- prevention strategies focus on keeping building surfaces dry. While groundwater, water infiltration, and similar issues may have been addressed as part of the geotechnical- engineering study whose findings are conveyed in this report, the geotechnical engineer in charge of this project is not a mold prevention consultant; *none of the services performed in connection with the geotechnical engineer's study were designed or conducted for the purpose of mold prevention. Proper implementation of the recommendations conveyed in this report will not of itself be sufficient to prevent mold from growing in or on the structure involved.*

Rely, on Your GBC-Member Geotechnical Engineer for Additional Assistance

Membership in the Geotechnical Business Council of the Geoprofessional Business Association exposes geotechnical engineers to a wide array of risk-confrontation techniques that can be of genuine benefit for everyone involved with a construction project. Confer with you GBC-Member geotechnical engineer for more information.

RE: Notice of Final Agency Action - Approval
Individual Environmental Resource Permit
Project Number: IND-033-287604-1
Permit Name: Godwin Lane Regional Pond

Dear Sir/Madam:

Enclosed is the approved individual Environmental Resource Permit (ERP) for the above referenced project as authorized on August 15, 2019 by the Northwest Florida Water Management District.

Please be sure to read the enclosed permit and all exhibits in their entirety, paying close attention to the permit conditions in Exhibit A that require you to perform maintenance activities on your stormwater system and to have inspections performed by a Registered Professional at specified times throughout the life of the stormwater system.

Please be advised that you are required to fully execute and submit the following documents:

- "Construction Commencement Notice" [Form 62-330.350(1)] - Submitted to the District no later than 48 hours prior to commencement of any part of the activity authorized by the enclosed permit.

- "As-Built Certification and Request for Conversion to Operational Phase" [Form 62-330.310(1)] Submitted to the District no later than 30 days after the activity has been completed.

Copies of these and other ERP forms are attached and are also available for download on the District website at
http://www.nwfwater.com/Permits/Environmental-Resource-Permits/Application-Forms

Please be advised that the District ***has not*** published a notice in the newspaper of local circulation advising the public that a permit has been issued for this activity. Publication, using the District form, notifies the public of their rights to challenge the issuance of this permit. If proper notice is given by publication, third parties have a 21-day time limit to file a petition opposing the issuance of the permit. If you do not publish, a party's right to challenge the issuance of the permit may extend indefinitely. If you wish to have certainty that the period for

GEORGE ROBERTS, Chair, Panama City
JERRY PATE, Vice Chair, Pensacola
JOHN W. ALTER, Secretary-Treasurer, Malone
GUS ANDREWS, DeFuniak Springs
JON COSTELLO, Tallahassee
TED EVERETT, Chipley
NICK PATRONIS, Panama City Beach
BO SPRING, Port St. Joe

filing such a challenge is closed, then you may publish, at your expense, such a notice in a newspaper of general circulation. A sample notice form is attached for your information. If you choose to publish such a notice, please submit a copy to the District for our records.

The issuance of an Environmental Resource Permit for this activity does not eliminate the need to obtain all necessary permits or approvals from other agencies.

Should you have any questions regarding your permit or its conditions, please contact your permit reviewer, Dana Palermo, P.E., at (850) 951-4660 or by e-mail: Dana.Palermo@nwfwater.com and Ted Reese, at (850) 951-4660 or by e-mail: Ted.Reese@nwfwater.com

Sincerely,

Andrew Joslyn
ERP Bureau Chief

NORTHWEST FLORIDA WATER MANAGEMENT DISTRICT
INDIVIDUAL ENVIRONMENTAL RESOURCE PERMIT

PERMIT NO: IND-033-287604-1 **DATE ISSUED:** August 15, 2019
PROJECT NAME: Godwin Lane Regional Pond
CONSTRUCTION PHASE EXPIRATION DATE: August 15, 2024

A PERMIT AUTHORIZING:
The establishment of Godwin Lane Pond (approximately 9.45 acres) as a regional stormwater management system to provide treatment and rate control / attenuation for an approximately 146.22-acre master drainage basin, located along the northern side of Godwin Lane, to the east of the intersection of Bedford Lane, in western Pensacola, (Escambia County). Approximately 2,864,108 square feet of new, future, impervious surface (approximately 50 percent of the undeveloped areas) has been allotted within the master drainage basin. Currently there is approximately 320,473 square feet of existing impervious surface that has also been included within the master drainage basin. All future development within the master drainage basin will be required to obtain a separate ERP Individual Permit to utilize the regional stormwater management system. The separate Individual Permit shall include supporting information to address stormwater conveyance to the regional stormwater management system as well as water quality and water quantity required for that site. Supporting information should be consistent with requirements listed under Part 3 of Form 62-330.311(2). Please refer to Page 13 of the Stormwater Management Report prepared by David Fitzpatrick, P.E. for the master drainage basin map. This permit authorizes the construction of approximately 1.1 acres of a conveyance system located within the existing rights-of-way of Godwin Lane. Details of the proposed construction and limits of the regional stormwater management system can be found within the approved plans prepared by David Fitzpatrick, P.E. This permit does not authorize impacts to wetlands.

LOCATION:
Section(s): 25 Township(s): 1S Range(s): 31
Escambia County

ISSUED TO:
Escambia County
3363 West Park Place
Pensacola, FL 32505

Permittee agrees to hold and save the Northwest Florida Water Management District and its successors harmless from any and all damages, claims, or liabilities which may arise from permit issuance. Said application, including all plans and specifications attached thereto, is by reference made a part hereof.

This permit does not convey to any permittee any property rights nor any rights or privileges other than those specified herein, nor relieve the permittee from complying with any law, regulation or requirement affecting the rights of other bodies or agencies. All structures and works installed by permittee hereunder shall remain the property of the permittee.

This permit is issued pursuant to Part IV of Chapter 373, Florida Statute (F.S.), and Chapter 62-330, Florida Administrative Code, (F.A.C.), and may be revoked, modified or transferred at any time pursuant to the appropriate provisions of Chapter 373, Florida Statutes.

This permit also constitutes certification compliance with water quality standards under Section 401 of the Clean Water Act, 33 U.S. Code 1341.

PERMIT IS CONDITIONED UPON:

See conditions on attached "Exhibit A", dated August 15, 2019

AUTHORIZED BY: Northwest Florida Water Management District
Division of Resource Regulation

By:

Andrew Joslyn
ERP Bureau Chief

"EXHIBIT A"
CONDITIONS FOR ISSUANCE OF PERMIT NUMBER IND-033-287604-1
Godwin Lane Regional Pond
DATED August 15, 2019

1. All activities shall be implemented following the plans, specifications and performance criteria approved by this permit. Any deviations must be authorized in a permit modification in accordance with Rule 62-330.315, F.A.C. Any deviations that are not so authorized may subject the permittee to enforcement action and revocation of the permit under Chapter 373, F.S.

2. A complete copy of this permit shall be kept at the work site of the permitted activity during the construction phase, and shall be available for review at the work site upon request by the Agency staff. The permittee shall require the contractor to review the complete permit prior to beginning construction.

3. Activities shall be conducted in a manner that does not cause or contribute to violations of state water quality standards. Performance-based erosion and sediment control best management practices shall be installed immediately prior to, and be maintained during and after construction as needed, to prevent adverse impacts to the water resources and adjacent lands. Such practices shall be in accordance with the *State of Florida Erosion and Sediment Control Designer and Reviewer Manual (Florida Department of Environmental Protection and Florida Department of Transportation June 2007)*, and the *Florida Stormwater Erosion and Sedimentation Control Inspector's Manual (Florida Department of Environmental Protection, Nonpoint Source Management Section, Tallahassee, Florida, July 2008)*, which are both incorporated by reference in subparagraph 62-330.050(9)(b)5., F.A.C., unless a project-specific erosion and sediment control plan is approved or other water quality control measures are required as part of the permit.

4. At least 48 hours prior to beginning the authorized activities, the permittee shall submit to the Agency a fully executed Form 62-330.350(1), "Construction Commencement Notice," [October 1, 2013], incorporated by reference herein (http://www.flrules.org/Gateway/reference.asp?No=Ref-02505), indicating the expected start and completion dates.A copy of this form may be obtained from the Agency, as described in subsection 62-330.010(5), F.A.C. If available, an Agency website that fulfills this notification requirement may be used in lieu of the form.

5. Unless the permit is transferred under Rule 62-330.340, F.A.C., or transferred to an operating entity under Rule 62-330.310, F.A.C., the permittee is liable to comply with the plans, terms and conditions of the permit for the life of the project or activity.

6. Within 30 days after completing construction of the entire project, or any independent portion of the project, the permittee shall provide the following to the Agency, as applicable:
    1. For an individual, private single-family residential dwelling unit, duplex, triplex, or quadruplex "Construction Completion and Inspection Certification for Activities Associated With a Private Single-Family Dwelling Unit" [Form 62-330.310(3)]; or
    2. For all other activities "As-Built Certification and Request for Conversion to Operational Phase" [Form 62-330.310(1)].

3. If available, an Agency website that fulfills this certification requirement may be used in lieu of the form.

7. If the final operation and maintenance entity is a third party:
    1. Prior to sales of any lot or unit served by the activity and within one year of permit issuance, or within 30 days of as- built certification, whichever comes first, the permittee shall submit, as applicable, a copy of the operation and maintenance documents (see sections 12.3 thru 12.3.3 of Volume I) as filed with the Department of State, Division of Corporations and a copy of any easement, plat, or deed restriction needed to operate or maintain the project, as recorded with the Clerk of the Court in the County in which the activity is located.
    2. Within 30 days of submittal of the as- built certification, the permittee shall submit "Request for Transfer of Environmental Resource Permit to the Perpetual Operation Entity" [Form 62-330.310(2)] to transfer the permit to the operation and maintenance entity, along with the documentation requested in the form. If available, an Agency website that fulfills this transfer requirement may be used in lieu of the form.

8. The permittee shall notify the Agency in writing of changes required by any other regulatory agency that require changes to the permitted activity, and any required modification of this permit must be obtained prior to implementing the changes.

9. This permit does not:
    1. Convey to the permittee any property rights or privileges, or any other rights or privileges other than those specified herein or in Chapter 62-330, F.A.C.;
    2. Convey to the permittee or create in the permittee any interest in real property;
    3. Relieve the permittee from the need to obtain and comply with any other required federal, state, and local authorization, law, rule, or ordinance; or
    4. Authorize any entrance upon or work on property that is not owned, held in easement, or controlled by the permittee

10. Prior to conducting any activities on state-owned submerged lands or other lands of the state, title to which is vested in the Board of Trustees of the Internal Improvement Trust Fund, the permittee must receive all necessary approvals and authorizations under Chapters 253 and 258, F.S. Written authorization that requires formal execution by the Board of Trustees of the Internal Improvement Trust Fund shall not be considered received until it has been fully executed.

11. The permittee shall hold and save the Agency harmless from any and all damages, claims, or liabilities that may arise by reason of the construction, alteration, operation, maintenance, removal, abandonment or use of any project authorized by the permit.

12. The permittee shall notify the Agency in writing:
    1. Immediately if any previously submitted information is discovered to be inaccurate; and
    2. Within 30 days of any conveyance or division of ownership or control of the property or the system, other than conveyance via a long-term lease, and the new owner shall request transfer of the permit in accordance with Rule 62-330.340, F.A.C. This does not apply to the sale of lots or units in residential or commercial subdivisions or condominiums where the stormwater management system has been completed and converted to the operation phase

13. Upon reasonable notice to the permittee, Agency staff with proper identification shall have permission to enter, inspect, sample and test the project or activities to ensure conformity with the plans and specifications authorized in the permit.

14. If any prehistoric or historic artifacts, such as pottery or ceramics, stone tools or metal implements, dugout canoes, or any other physical remains that could be associated with Native American cultures, or early colonial or American settlement are encountered at any time within the project site area, work involving subsurface disturbance in the immediate vicinity of such discoveries shall cease. The permittee or other designee shall contact the Florida Department of State, Division of Historical Resources, Compliance and Review Section, at (850) 245-6333 or (800) 847-7278, as well as the appropriate permitting agency office. Such subsurface work shall not resume without verbal or written authorization from the Division of Historical Resources. If unmarked human remains are encountered, all work shall stop immediately and notification shall be provided in accordance with Section 872.05, F.S.

15. Any delineation of the extent of a wetland or other surface water submitted as part of the permit application, including plans or other supporting documentation, shall not be considered binding unless a specific condition of this permit or a formal determination under Rule 62-330.201, F.A.C., provides otherwise.

16. The permittee shall provide routine maintenance of all components of the stormwater management system to remove trapped sediments and debris. Removed materials shall be disposed of in a landfill or other uplands in a manner that does not require a permit under Chapter 62-330, F.A.C., or cause violations of state water quality standards.

17. This permit is issued based on the applicant’s submitted information that reasonably demonstrates that adverse water resource-related impacts will not be caused by the completed permit activity. If any adverse impacts result, the Agency will require the permittee to eliminate the cause, obtain any necessary permit modification, and take any necessary corrective actions to resolve the adverse impacts.

18. A Recorded Notice of Environmental Resource Permit may be recorded in the county public records in accordance with subsection 62-330.090(7), F.A.C. Such notice is not an encumbrance upon the property.

19. **Record-keeping.** The permittee shall be responsible for keeping records documenting that relevant permit conditions are met. This documentation shall include, at a minimum, the date of each inspection, the name and qualifications of the inspector, any maintenance actions taken, and a determination by the inspector as to whether the system is operating as intended. Inspection documentation must be readily available and shall be provided at the District's request. Submittal of the inspection documentation to the District is not required.

20. Once project construction has been deemed complete, including the re-stabilization of all side slopes, embankments, and other disturbed areas, and before the transfer to the Operation and Maintenance phase, all obsolete erosion control materials shall be removed.

21. Grassed areas of the retention system shall be fertilized only as needed to maintain vegetation, and shall be mowed regularly in order to be kept at a manageable length as required for system functionality, maintenance, and safety.

22. Percolation performance shall be evaluated within the pond at least every third year. If there is evidence of inadequate percolation, the pond bottom must be re-scarified or deep-raked to restore percolation characteristics. If reworking the pond bottom fails to restore adequate percolation, additional retention area restoration shall be performed as follows:
    a. Remove the top layer of the retention area bottom material to a depth of 2 to 3 inches and scarify or deep-rake the excavated bottom.
    b. Replace excavated bottom material with suitably permeable material and restore the pond bottom to design grade.

23. **Inspections by the Permittee.**
    - The stormwater system shall be inspected periodically for accumulation of debris and trash. Accumulations of debris and trash that negatively affect the function of the system shall be removed upon discovery.
    - The stormwater system shall be inspected periodically for silt accumulation. Accumulations of silt that negatively affect the function of the system shall be removed.
    - The overflow weir and skimmer, if applicable, shall be inspected annually to confirm that it is free-flowing and clear of debris.

24. **Inspections by a Registered Professional.** The stormwater management system shall be inspected by a registered professional to evaluate whether the system is functioning as designed and permitted. Percolation performance should specifically be addressed. The Registered Professional may record his inspection on Form No 62-330.311(1), Operation and Maintenance Inspection Certification or may provide his evaluation in any other format; however any report must be signed and sealed by the Registered Professional. Submittal of the inspection report to the District shall occur within 30 days of the inspection. Inspections shall be made by the Registered Professional in accordance with this schedule:
    - On the first anniversary of the date of conversion to Operation and Maintenance Phase.
    - Every fifth year on the anniversary of conversion to Operation and Maintenance phase, after the first year of successful operation.

25. During the operation and maintenance of the regional stormwater management system, the pond side slopes are to be monitored for any additional erosion. If erosion within the side slopes occurs, these areas are to be appropriately stabilized upon discovery.

26. **Reporting by a Registered Professional.** Within 30 days of any failure of a stormwater management system or deviation from the permit, a report shall be submitted to the District on Form 62-330.311(1), Operation and Maintenance Inspection Certification, describing the remedial actions taken to resolve the failure or deviation. This report shall be signed and sealed by a Registered Professional.

27. In accordance with Subsection 62-330.311(3), F.A.C., the operation and maintenance entity of the regional stormwater management facility must complete the information on Form 62-330.311(2) and submit it to the Agency on an annual basis, starting one year

from the anniversary date of the system being converted to Operation and Maintenance in accordance with Section 62-330.310, F.A.C. This information shall include all new systems and their associated stormwater volumes that have been allowed to discharge stormwater into the regional facility, and must confirm that the maximum allowable treatment volume of stormwater authorized to be accepted by the regional facility has not been exceeded.

28. If it has been determined that the treatment volume of stormwater authorized for the regional facility has been exceeded, a major modification of this permit is required.

29. The regional stormwater management system will be required to be converted to operation and maintenance prior to developments within the master drainage basin utilizing the system.

NOTICE OF RIGHTS

Northwest Florida Water Management District
152 Water Management Drive, Havana, FL 32333-4712
(850) 539-5999 Fax (850) 539-2693
www.nwfwater.com

The following information addresses procedures to be followed if you desire an administrative hearing or other review of agency action.

PETITION FOR FORMAL ADMINISTRATIVE PROCEEDINGS

Any person whose substantial interests are or may be affected by the action described in the enclosed Notice of Agency Action, may petition for an administrative hearing in accordance with the requirements of section 28-106.201, Florida Administrative Code, or may choose to pursue mediation as an alternative remedy under section 120.573, Florida Statutes, before the deadline for filing a petition. Pursuit of mediation will not adversely affect the right to administrative proceedings in the event mediation does not result in a settlement. Petitions for an administrative hearing must be filed with the Agency Clerk of the Northwest Florida Water Management District, 81 Water Management Drive, Havana, Florida 32333-9700 by the deadline specified in the attached cover letter. Failure to file a petition within this time period shall constitute a waiver of any rights such person may have to request an administrative determination (hearing) under section 120.57, Florida Statutes, concerning the subject permit application. Petitions which are not filed in accordance with the above provisions are subject to dismissal.

DISTRICT COURT OF APPEAL

A party who is adversely affected by final agency action on the permit application and who has exhausted available administrative remedies is entitled to judicial review in the District Court of Appeal pursuant to section 120.68, Florida Statutes. Review under section 120.68, Florida Statutes, is initiated by filing a Notice of Appeal in the appropriate District Court of Appeal in accordance with Florida Rule of Appellate Procedure 9.110.

SECTION 28-106.201, FLORIDA ADMINISTRATIVE CODE, INITIATION OF PROCEEDINGS

(1) Unless otherwise provided by statute, and except for agency enforcement and disciplinary actions that shall be initiated under Rule 28-106.2015, F.A.C., initiation of proceedings shall be made by written petition to the agency responsible for rendering final agency action. The term "petition" includes any document that requests an evidentiary proceeding and asserts the existence of a disputed issue of material fact. Each petition shall be legible and on 8 1/2 by 11 inch white paper. Unless printed, the impression shall be on one side of the paper only and lines shall be double-spaced.

(2) All petitions filed under these rules shall contain:

(a) The name and address of each agency affected and each agency's file or identification number, if known;

(b) The name, address, any e-mail address, any facsimile number, and telephone number of the petitioner, if the petitioner is not represented by an attorney or a qualified representative; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;

(c) A statement of when and how the petitioner received notice of the agency decision;

(d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;

(e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;

(f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and

(g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

(3) Upon receipt of a petition involving disputed issues of material fact, the agency shall grant or deny the petition, and if granted shall, unless otherwise provided by law, refer the matter to the Division of Administrative Hearings with a request that an administrative law judge be assigned to conduct the hearing. The request shall be accompanied by a copy of the petition and a copy of the notice of agency action.

Rulemaking Authority 14.202, 120.54(3), (5) FS. Law Implemented 120.54(3) FS. History–New 4-1-97, Amended 9-17-98, 1-15-07, 2-5-13.

NOTICING PUBLICATION INFORMATION

The District's action regarding the issuance or denial of a permit, a petition or qualification for an exemption only becomes closed to future legal challenges from members of the public ("third parties"), if 1) "third parties" have been properly notified of the District's action regarding the permit or exemption, and 2) no "third party" objects to the District's action within a specific period of time following the notification.

Notification of "third parties" is provided through publication of certain information in a newspaper of general circulation in the county where the proposed activities are to occur. Publication of notice informs "third parties" of their right to have a 21-day time limit in which to file a petition opposing the District's action. However, if no notice to "third parties" is published, there is no time limit to a party's right to challenge the District's action. The District has not published a notice to "third parties" that it has taken final action on your application. If you want to ensure that the period of time in which a petition opposing the District's action regarding your application is limited to the time frame state above, you may publish, at your own expense, a notice in a newspaper of general circulation. A copy of the Notice of Agency Action the District uses for publication is attached. You may use this format or create your own, as long as the essential information is included.

If you do decide to publish a Notice of Final Agency Action, please provide the District a copy of the Proof of Publication when you receive it. That will provide us notice that action on this permit application is closed after the 21 days following publication.

Notice of Final Agency Action Taken by the
Northwest Florida Water Management District

Notice is given that Environmental Resource permit number IND-033-287604-1 was issued on August 15, 2019 to Joy Jones
Escambia County for the construction of a new surface water management system designed to serve a regional system at an existing, inactive, borrow pit, located on the northern side of Godwin Lane, in Pensacola, (Escambia County). This permit will include the establishment of the Godwin Lane Regional Pond to provide treatment and attenuation for an approximately 146.22-acre master drainage basin. Approximately 2,864,108 square feet of new impervious surface has been allotted within the submitted water quality and quantity calculations. All future phases within the approximately ####-acre master drainage basin are required to obtain a separate ERP Individual Permit to address onsite collection and conveyance, prior to discharging to Godwin Lane Regional Pond. Please refer to Page 13 of the Stormwater Management Report for the master drainage basin map. No wetlands are authorized for impacts within this project. The project is located at Godwin Lane, Escambia County.

The file containing the application for this permit is available for inspection Monday through Friday (except for legal holidays), 8:00 a.m. to 5:00 p.m. at the Northwest Florida Water Management District's ERP Office, 700 U.S. Highway 331 South, DeFuniak Springs, FL 32435

A person whose substantial interests are affected by the District permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57 F.S., or may choose to pursue mediation as an alternative remedy under Section 120.573, Florida Statutes, and Rules 28-106.111 and 28-106.401-404, Florida Administrative Code. Petitions must comply with the requirements of Florida Administrative Code, Chapter 28-106 and be filed with (received by) the District Clerk located at District Headquarters, 81 Water Management Drive, Havana, FL 32333-4712. Petitions for administrative hearing on the above application must be filed within twenty-one (21) days of publication of this notice or within twenty-six (26) days of the District depositing notice of this intent in the mail for those persons to whom the District mails actual notice. Failure to file a petition within this time period shall constitute a waiver of any right(s) such person(s) may have to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., concerning the subject permit. Petitions which are not filed in accordance with the above provisions are subject to dismissal.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the District's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the District on the application have the right to petition to become a party to the proceedings, in accordance with the requirements set forth above.

MERCHANTS BONDING COMPANY™

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Benjamin H French; K Wayne Walker; L Dale Waldorff; Pamela L Jarman; Paul A Locascio; Rebekah G Wolf

their true and lawful Attorney(s)-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-In-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 9th day of April 2020.

ADDENDUM NO. # 4

Godwin Lane Regional Pond

PD19 – 20.39

4/9/2020

Clarifications:

Question/Responses:

The 42" RCP crossing between inlet #2 and inlet #1 is roughly 16' deep. A road closure would improve safety and ensure quality during pipe installation, backfill and compaction/density reports. Can Godwin Lane be closed during this crossing for at least a week? All driveways would remain accessible on Godwin Lane from Mobile Hwy or Blue Angel Pkwy.

Response: Godwin Lane can be closed with a written MOT plan approved by County Engineering.

The project specific notes #1 on sheet C2 mention installing storm drainage from west to east. Installing gravity pipe from high to low is not ideal and discovery of unexpected utilities or conflicts could hinder our ability to install per plan elevations. Conveyance of existing groundwater could prove difficult as well since we have nowhere to send water during construction. Can the contractor have the option to start at the pond outfall and install east to west?

Response: The intent to construct the system from West to East is to minimize the interruption of sewer service to the residents in Tanglewood subdivision. The sewer from Apple Ridge Drive currently runs to the East. Connecting the 4" sewer force main at Embers Ridge Subdivision and constructing the force main from Embers Ridge to Tanglewood would lessen the interruption and reduce conflicts. The storm system constructed by others to the West of the project limits, will accept storm water and discharge into the system draining to the West side of Blue Angel, until such time as the weir is added to the smart box structure #11.

The project specific notes #2 on sheet C2 have contractor leaving a 36" deep common trench for other utility contractors. Who is responsible for maintaining this trench during installation of other utilities?

Response: The trench is to allow Pensacola Energy time to install new service lines. Contractor is expected to coordinate with Pensacola Energy and will

maintain the trench during construction.

The project specific notes #7 has contractor coordinating with Gulf Power for pole shoring. Who is responsible for the cost associated with shoring of poles?

Response: Gulf Power is responsible for the cost of shoring the utility poles.

Are speed tables being replaced entirely or only if damaged? Can a detail of these be included for bidding purposes?

Response: The intent is to cut and patch asphalt as necessary; no more than half the roadway. It is preferred the pipe be installed without damage to the asphalt. However, due to the depth and roadway proximity, asphalt cut/path was included to accommodate any construction damages. The entire speed table(s) will be replaced per county standards if damaged during construction; please see attached standard detail.

Attached to bid you shall find a bid bond, cashier's check or certified check (circle one that applies) in the amount of **5%** of bid. The work shall be substantially completed within **One Hundred & Fifty (150) Calendar Days** from the Commencement Date. The Bidder agrees to fully complete all work included above within One Hundred **Eighty (180) Consecutive Calendar Days** from the date of Notice to Proceed. **Liquidated damages of $1000.00 each day will be assessed for each day that completion of the project is delayed.** All work to be accomplished under this bid shall be the responsibility of Bidder and failure of subcontractors to perform shall not relieve Bidder of any liquidated damages. A Bid Bond in the amount of 5% of base bid is to be furnished by each Bidder. Bidder further acknowledges that all of the work outlined above may not be required at the discretion of Escambia County. The total will be subject to total funds available during the course of the work. However, it is the intent of Escambia County at this time to substantially complete the listed work.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to Escambia County
(print name of the public entity)

by Bobby Godfrey, Vice- President
(print individual's name and title)

for Site and Utility, LLC
(print name of entity submitting sworn statement)

whose business address is

403 Carolina Drive, Pensacola, FL 32534

and (if applicable) its Federal Employer Identification Number (FEIN) is:
47-1364319

(If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision or any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

   c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise

transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **(indicate which statement applies.)**

__x__ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **(attach a copy of the final order)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

SPECIAL ACCOMMODATIONS:

Any person requiring special accommodations to attend or participate, pursuant to the Americans with Disabilities Act, should call the Office of Purchasing, (850) 595-4980 at least five (5) working days prior to the solicitation opening.

NOTICE

It is the specific legislative intent of the Board of County Commissioners that NO CONTRACT under this solicitation shall be formed between Escambia County and the awardee vendor until such time as the contract is executed by the last party to the transaction.

NOTICE

In accordance with Sec. 46-110(e) of the Escambia Code of Ordinances, all bid solicitation documents shall include the following notice to vendors of the local vendor preference policy:

Sec. 46-110.-Local Preference in Bidding

(a) Legislative Intent:

The Escambia County Board of County Commissioners finds that local businesses are often at a disadvantage when competing with other non-local businesses in that the cost of doing business in Escambia County is higher than other areas of the state and giving local businesses a preference in the procurement of goods and services serves a compelling public purpose for the benefit of the taxpayer and residents of Escambia County as such preference encourages local industry, employment opportunities, and increases the County's overall tax base.

(b) "Local Business" Defined:

For the purposes of this section, "local Business" shall mean a business which meets all of the following criteria:

(1) Has had a fixed office or distribution point located in and having a street address with Escambia County or Santa Rosa County for at least one year immediately prior to the issuance of the request for competitive bids by the County. The fixed office or distribution point must be staffed by at least one (1) employee. Post office boxes are not verifiable and shall not be used for the purpose of establishing a physical address.

(2) Holds any business license required by Escambia County or Santa Rosa County; and

(3) Is the principal offeror who is a single offeror; a business which is the prime contractor and not a subcontractor; or a partner or joint venture submitting an offer in conjunction with other businesses.

(c) **Certification:**

Any vendor claiming to be a local business as defined above shall so certify in writing to the Escambia County Office of Purchasing. The certification shall provide all necessary information to meet the requirements provided herein. The purchasing agent shall not be required to verify the accuracy of any such certifications, and shall have the sole discretion to determine if a vendor meets the definition of a "local business."

(d) **Preference in purchase of commodities and services by means of competitive bid:**

Except where federal or state law, or any other funding source, mandates to the contrary, Escambia County may give preference to local businesses in the following manner:

Competitive bid (local price match option): Each formal competitive bid solicitation (i.e. sealed bids) shall clearly identify how the price order of the bids received will be evaluated and determined.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.00, and the bid submitted by one or more qualified and responsive local businesses is within **five (5) percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **Community Redevelopment Area (CRA)** is within **seven percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.00, and the bid submitted by one or more qualified and responsive local businesses is within **three percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **five (5) percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses is within **two percent** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **four (4) percent** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

In such instances, staff shall first verify whether the lowest non-local bidder and the lowest local bidder are in fact qualified and responsive bidders. Next, the purchasing department shall invite the lowest local bidder in writing to submit a matching offer which shall be submitted in writing to the office of purchasing within five business days thereafter.

If the lowest local bidder does not respond or otherwise submits a written offer that does not fully match the lowest bid from the lowest non-local bidder tendered previously then award shall be made to the lowest overall qualified and responsive non-local bidder.

In the event a local bidder is awarded a contract pursuant to this section, any requests for change orders increasing the cost of the project must be approved by the board of county commissioners.

(e) **Notice:**

All bid solicitation documents shall include notice to vendors of the local preference policy.

(f) **Waiver of the application of local preference:**

The application of local preference to a particular purchase or contract for which the board of county commissioners is the awarding authority may be waived upon approval of the board of county commissioners.

(g) **Limitations:**

(1) The provisions of this section shall apply only to procurements which are above the formal bid threshold as set forth in the Escambia County Purchasing Code.

(2) The provisions of this section shall not apply where prohibited by federal or Florida law or where prohibited under the conditions of any grant.

(3) The provisions of this section shall not apply to any purchase exempted from the provisions of the Escambia County Purchasing Code.

(4) The provisions of this section shall not apply to contracts made under the Consultants Competitive Negotiation Act (CCNA), F.S. § 287.055.

(h) **Penalties:**

(1) Misrepresentation:

A vendor who misrepresents the local preference status of its firm in a bid or proposal submitted to the county will lose the privilege to claim local preference status for a period of up to one (1) year from the date of the award of the contract or upon completion of the contract, whichever is greater.

(2) Failure to Maintain Local Business Preference Qualifications:

Any vendor that does not maintain its local preference status resulted in the awarded contract shall be in breach of contract and will be subject to termination of the contract, suspension of payments under the contract, and loss of the local preference status on the contract awarded.

(3) Lack of Good Faith:

The contractor or firm may show that it attempted through reasonable and objective means and in good faith to comply with the terms of the contract relating to local businesses but was unable to comply. If the County determines that the contractor or firm did not act in good faith, all amounts paid to the contractor or firm under the County contract intended for expenditure with the local business shall be forfeited and recoverable by the County. In addition, the contract may be rescinded and the County may return all or a portion of the goods received and recover all amounts paid under the contract for the goods which were returned.

Effective July 1, 2015, the County **may not** use a local preference "for a competitive solicitation for **construction services** in which **50 percent or more** of the cost will be paid from state appropriated funds which have been appropriated at the time of the competitive solicitation. For any such solicitation, the County must disclose in the bid package that "any applicable local ordinance or regulation does not include any local preference…" See §255.0991, Florida Statutes.

ESCAMBIA COUNTY FLORIDA
INVITATION TO BID
BIDDER'S CHECKLIST
Godwin Lane Regional Pond
SPECIFICATION PD 19-20.039

HOW TO SUBMIT YOUR BID:

- Please review this document carefully. Offers that are accepted by the county are binding contracts. **Incomplete bids are not acceptable.** All documents and submittals shall be received by the office of purchasing on or before date and hour specified for receipt. Late bids will be returned unopened.

** Documents submitted with Bids are to be on the forms provided in the Invitation to Bid and photocopies of other required documents*

THE FOLLOWING DOCUMENTS SHALL BE RETURNED WITH BID:

- Solicitation, Offer, and Bid Form, with Original Signature. Photocopies of this form will not be accepted.
- Excel Spreadsheet Bid Tabulation Form
- Bid Surety (Bond, Check, Etc.)

THE FOLLOWING DOCUMENTS SHOULD BE RETURNED WITH BID:

- Letter from Insurance Carrier as Specified in the "Insurance Requirements."
- Sworn Statement Pursuant to Section 287.133(3)(A), Florida Statutes, On Entity Crimes
- Drug-Free Workplace Form
- Information Sheet for Transactions and Conveyances Corporate Identification
- Certificate of Authority to Do Business from The State of Florida
- Occupational License
- Florida Department of Business and Professional Regulation – License(S), Certification(S) and/or Registration(S)

Attached to bid you shall find a bid bond, cashier's check or certified check (circle one that applies) in the amount of **5%** of bid. The work shall be substantially completed within **One Hundred & Fifty (150) Calendar Days** from the Commencement Date. The Bidder agrees to fully complete all work included above within One Hundred **Eighty (180) Consecutive Calendar Days** from the date of Notice to Proceed. **Liquidated damages of $1000.00 each day will be assessed for each day that completion of the project is delayed.** All work to be accomplished under this bid shall be the responsibility of Bidder and failure of subcontractors to perform shall not relieve Bidder of any liquidated damages. A Bid Bond in the amount of 5% of base bid is to be furnished by each Bidder. Bidder further acknowledges that all of the work outlined above may not be required at the discretion of Escambia County. The total will be subject to total funds available during the course of the work. However, it is the intent of Escambia County at this time to substantially complete the listed work.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to _____
(print name of the public entity)

by_____
(print individual's name and title)

for_____
(print name of entity submitting sworn statement)

whose business address is

_____

_____

and (if applicable) its Federal Employer Identification Number (FEIN) is:
_____

(If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision or any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or

   b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

   c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise

transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **(indicate which statement applies.)**

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **(attach a copy of the final order)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Drug-Free Workplace Form

The undersigned vendor, in accordance with Florida Statute 287.087 hereby certifies that _____does:
Name of Business

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in Paragraph 1.

4. In the statement specified in Paragraph 1, notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Paragraphs 1 through 5.

SPECIAL TERMS AND CONDITIONS

The Board of County Commissioners, Escambia County, Florida, invites your company to submit a sealed offer on the item(s) as listed in this solicitation request.

All terms and conditions below are a part of this request, and no offer will be accepted unless all these conditions have been complied with. The County reserves the right to waive informalities in any offer; to reject any or all offers, in whole or in part, and/or to accept the offer(s) that in its judgment is from the lowest and most responsible and responsive offeror(s).

Instructions to Offerors

1. **General Information**

All offers to be considered shall be in the possession of the Office of Purchasing prior to the time of the solicitation closing. Offers may be mailed to 213 Palafox Place, Room 11.101, Pensacola, Florida 32502 or delivered to the Office of Purchasing, 2nd floor, Room 11.101, Matt Langley Bell, III Bldg., 213 Palafox Place, Pensacola, Florida 32502, in a sealed envelope clearly marked:

Specification Number PD 19-20.039, " Godwin Lane Regional Pond ", Name of Submitting Firm, Time and Date due.
Note: If you are using a courier service; Federal Express, Airborne, UPS, etc., you must mark air bill and envelope or box with Specification Number and Project Name.

Regardless of the method of delivery, each offeror shall be responsible for his offer(s) being delivered on time as the County assumes no responsibility for same. Offers offered or received after the time set for solicitation closing will be rejected and returned unopened to the offeror(s).

The following policy will apply to all methods of source selection:

Conduct of Participants

After the issuance of any solicitation, all bidders/proposers/protestors or individuals acting on their behalf are hereby prohibited from **lobbying** as defined herein or otherwise attempting to persuade or influence any elected County officials, their agents or employees or any member of the relevant selection committee at any time during the **blackout period** as defined herein; provided, however, nothing herein shall prohibit bidders/proposers/protestors or individuals acting on their behalf from communicating with the purchasing staff concerning a pending solicitation unless otherwise provided for in the solicitation or unless otherwise directed by the purchasing manager.

Definitions

Blackout period means the period between the time the bids are received at the Escambia County Office of Purchasing and the time the Board awards the contract and any resulting bid protest is resolved or the solicitation is otherwise canceled.

Lobbying means the attempt to influence the thinking of elected County officials, their agents or employees or any member of the relevant Selection Committee for or against a specific cause related to a pending solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication.

Sanctions

The Board may impose any one or more of the following sanctions on a non-employee for violations of the policy set forth herein:

(a) Rejection/disqualification of submittal
(b) Termination of contracts; or
(c) Suspension or debarment as provided in Sec. 46-102 of the Escambia County Code of Ordinances.

This policy is not intended to alter the procedure for Protested Solicitations and Awards as set forth in the Sec. 46-101 of the Escambia County Code of Ordinances.

"Scope of Work" Summary (Godwin Lane Regional Pond)

This project involves drainage improvements along Godwin Lane and converting the existing borrow pit on the North side of Godwin Lane into a Regional Stormwater Pond. Improvements consist of approximately 2,422 linear feet of stormwater pipe with associated drainage structures along with the relocation of an ECUA force main.
The project will be partially constructed by a private developer that is currently constructing the Embers Ridge Subdivision on the south side of Godwin Lane. The proposed drainage system and ECUA force main will tie into the Embers Ridge Subdivision portion that is labeled "BY OTHERS" on the plans. In the event the improvements are not completed by the Embers Ridge Subdivision project, the "BY OTHERS" items have been included in the bid tab as Additive Alternative Bid Items to be constructed by the contractor.
The project is required to be installed from west to east to ensure uninterrupted gas and sewer service to neighboring residents and to reduce conflicts with active utility lines.
This project shall be substantially complete within **150 calendar days** from the issuance of a Notice to Proceed. The bidder agrees to complete all work within **30 consecutive days** from the date of substantial completion for a total project time of **180 days. Liquidated damages of $1,000.00 each day will be assessed for each day that completion of the project is delayed.**

Related Documents:

All Construction shall comply with:

- The Escambia County Technical Specifications, latest edition, and all interim standards that apply to these additions.
- The latest version of the Florida Department of Transportation Design Standards and Specifications.
- All sanitary sewer work shall be done in accordance with the latest edition of ECUA's Engineering Manual.

Licenses/Certifications:

- General Contractors License
- Underground Utilities License
- Work Zone Safety Traffic Supervisor Certifications
- Certified Stormwater Management Inspector

Contract Time & Liquidated Damages:

The Work shall be substantially completed within **One Hundred Fifty (150) Calendar Days** from the Commencement Date. The Bidder agrees to fully complete all work included within **Thirty (30) Consecutive Calendar Days** from the date of Substantial Completion. **Liquidated damages of $1000.00 each day will be assessed for each day that completion of the project is delayed.**

2. **Bid Surety**

Each offer shall be accompanied by a bid bond, cashier's check or certified check in the amount of **5%** of the total offer.

Checks or bonds are to be made payable to Escambia County, Florida. The amount of the bond or check is the amount of liquidated damages agreed upon should the offeror fail or refuse to enter into a contract with the County.

A County warrant in the amount of the bid check(s) of the successful offeror(s) will be returned immediately after the offeror and the County are mutually bound by contract as evidenced by signatures thereto by an authorized representative of both the offeror and the County, and/or the offeror accepts the purchase order by signing the solicitation, offer and bid form/acceptance copy of same and returning to the County Purchasing department. Any unsuccessful offeror(s) will have the amounts of his cashier's or certified check returned via county warrant promptly after award.

All offerors agree that any interest earned on any bid surety while in possession of the County, or its agents, shall be retained by the County.

3. **Bonds**

Performance and Payment Bonds

The County **shall** require the successful offeror(s) to furnish **separate performance and payment bonds**, under pledge of adequate surety and covering up **100% of the dollar value of award** on the forms provided by the County. Such bonds shall be issued by sureties authorized to act as a surety by the State of Florida. Bonds of the successful offeror(s) shall be reviewed by the Office of Purchasing to assure compliance, then recorded in the Office of the Clerk of the Circuit Court Recording Office, 1st Floor, 221 Palafox Place, Pensacola, Florida, by the successful offeror at his expense before the contract is executed. The cost of recording is $10.00 for the first page and $8.50 for each additional page.

4. **Questions**

Questions may be directed to Lawrence A. Gordon, Purchasing Specialist, E-mail: Lagordon@myescambia.com. Last day for questions will be 4/6/2020 at 5:00 P.M., CDT.

5. **Bid Forms**

This Solicitation contains a Solicitation, Offer and Bid Form and Excel Spreadsheet, which shall be submitted in a sealed envelope, with Original signatures in indelible ink signed in the proper spaces. Responses on vendor forms will not be accepted.

The Offerors Checklist included in this solicitation provides instructions to the offeror on the documentation to be submitted during the procurement process.

6. **Pre-Solicitation Conference**

A Pre-Solicitation Conference will be held at the COC (3363 W. Fairfield Drive, Pensacola Fl. 32505) on 4/2/2020 at 9:00 A.M. CST.

7. **Liquidated Damages**

Should the awarded vendor fail to complete the required services or make delivery of the commodities or equipment within the time(s) specified in the contract, or within such additional time(s) as may be granted by Escambia County, the County will suffer damage, the amount of which is difficult, if not impossible to ascertain therefore, the vendor shall pay to the County, as liquidated damages, the sum of **$1000.00** for each calendar day of delay that actual completion extends beyond the time limit specified until such reasonable time as may be required for final completion of the work. Such sum is mutually agreed upon as a reasonable and proper amount of damages the County will sustain per diem by failure of the vendor to complete the services or make delivery within the specified time. The costs for liquidated damages shall not be construed as a penalty on the vendor.

8. **Safety Regulations**

Equipment shall meet all state and federal safety regulations for grounding of electrical equipment.

9. **Codes and Regulations**

The awarded vendor shall strictly comply with all federal, state and local building and safety codes.

10. **Payment**

Partial payments in the full amount for the value of items received and accepted may be requested by the submission of a properly executed **original** invoice, with supporting documents if required. Payment for accepted equipment/supplies/services will be accomplished by submission of an **original** invoice, in duplicate, to:

Clerk of the Circuit Court
Attention: Accounts Payable
221 Palafox Place
Pensacola, FL 32502

11. **Warranty**

The awarded vendor shall fully warrant all equipment furnished hereunder against defect in materials and/or workmanship for a period of two (2) years from date of delivery/acceptance by Escambia County.

Should any defect in materials or workmanship, except ordinary wear and tear, appear during the above stated warranty period, the awarded vendor shall repair or replace same at no cost to the County, immediately upon written notice from the Purchasing Manager.

12. **Debris**

Awarded vendor shall be responsible for the prompt removal of all debris, which is a result of this contractual service.

13. **Protection of Property/Security**

The awarded vendor shall provide all barricades and take all necessary precautions to protect buildings and personnel.

All work shall be completed in every respect and accomplished in a professional manner and awarded vendor shall provide for removal of all debris from county property.

The awarded vendor shall at all times guard against damage or loss to property of Escambia County, or of other vendors or contractors, and shall be held responsible for replacing or repairing any such loss or damage.

The County may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the awarded offeror or his agent.

The awarded vendor shall at all times guard against injury to Escambia County employees. The vendor shall properly fence and secure the construction site(s) at all times, including evenings and weekends.

The awarded vendor must, at all times, comply with State of Florida and Occupational Safety and Health Administration (OSHA) safety regulations.

14. **Permits**

The county and/or its contracted consultant(s) have conducted a review of required permits and fees required to be purchased by the contractor from the county permitting agencies for this specific project and they are listed on the bid/proposal form(s) to the best of our knowledge.

15. **Term of Offer**

An offer shall constitute an irrevocable offer for a period of ninety (90) days from the solicitation opening date or until the date of award, whichever is earlier, without forfeiting bid bond or check. In the event that an award is not made by the county within ninety (90) days from the solicitation opening date, the offeror may withdraw his offer or provide a written extension of his offer.

16. **Award**

Award shall be made on an "all-or-none total" basis.

The offeror or contractor will be required to fully comply with all applicable federal, state, and local regulations. The offeror should carefully review these requirements which are detailed in this solicitation.

17. **Termination**

The purchase order or contract will be subject to immediate termination if either product or service does not comply with specifications as stated herein or fails to meet the county's performance standards. In the event that any of the provisions of the contract are violated by awarded vendor, Escambia County may serve written notice upon the awarded vendor of its intention to terminate the contract. Such notice is to state the reason(s) for such intention to terminate contract. The liability of the vendor for any and all such violation(s) shall not be affected by any such termination and his surety, if any, shall be forfeited.

18. **Termination (Services)**

The Contract Administrator shall notify the Office of Purchasing of unsatisfactory performance and/or deficiencies in service that remain unresolved or recurring. The Office of Purchasing shall notify the contractor, in writing, of such unresolved or recurring deficiencies within five (5) working days of notification by the Contract Administrator.

Upon the third such written notification of unsatisfactory performance and/or deficiencies to the contractor by the Office of Purchasing within a four (4) month period; or the sixth such notification within any contract term, shall result in issuance of written notice of immediate contract termination to the contractor by the Office of Purchasing. Such termination may also result in suspension or debarment of the contractor.

19. **Termination (Public Records Request)**

If the contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the contractor in conjunction with this agreement then the county may, without prejudice to any right or remedy and after giving the contractor and his surety, if any, seven (7) days written notice, during which period contractor still fails to allow access, terminate the employment of the contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the contractor, and may finish the project by whatever method it may deem expedient. In such case, the contractor shall not be entitled to receive any further payment until the project is finished. Reasonable terminal expenses incurred by the county may be deducted from any payments left owing the contractor (excluding monies owed the contractor for subcontract work.)

20. **As Specified**

All items delivered shall meet the specifications herein. Items delivered not as specified will be returned at no expense by Escambia County. The County may return, for full credit, any unused items received which fail to meet the County's performance standards.

Insurance Requirements

21. **Standard Insurance Requirements and Certificates**

This offer contains an extensive insurance requirement. Offerors are encouraged to review these requirements with their insurance agents before submitting offers.

It is not necessary to have this level of insurance in effect at the time of submitting the offer.

A letter from the offeror's insurance carrier will be required as evidence that the offeror will be able to obtain the levels of insurance as required by the contract and indicated on the Sample Certificate of Insurance should your firm be awarded the contract.

County Insurance Required

The contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the contract documents, whether such services, work and operations be by the contractor, its employees, or by

subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The contractor shall require, and shall be responsible for assuring throughout the time the agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the contractor.

The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the contractor or any other insurance of the contractor shall be considered primary, and insurance of the county, if any, shall be considered excess, as may be applicable to claims obligations which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile and Excess or Umbrella Liability Coverage
The contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the commercial general liability and business auto policies of the insurance services office.

Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the workers compensation coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage

resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business auto liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

The General Liability and Business Auto Liability policies shall be endorsed to include Escambia County as an additional insured and provide for 30 day notification of cancellation.

Excess or Umbrella Liability Coverage (If utilized to achieve required policy limits)
Umbrella liability insurance is preferred, but an excess liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in certificates of insurance. If and when required by the County, certificates of insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the certificate of insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverage(s) indicated on each certificate of insurance.

New certificates of insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information:

1. Indicate that Escambia County is an additional insured on the liability and business auto policies.

2. Include a reference to the project and the Office of Purchasing number.

3. Disclose any self-insured retentions in excess of $1,000.

4. Designate Escambia County as the certificate holder as follows:

   Escambia County
   Attention: Lawrence Gordon , Purchasing Specialist
   Office of Purchasing
   Pensacola, FL 32591-1591

5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the

county, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the contractor shall furnish complete copies of the contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For commercial general liability coverage, the contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

23. **Indemnification**

Contractor agrees to save harmless, indemnify, and defend County and Architect/Engineer and their, agents, officers and employees from any and all claims, losses, penalties, interest, demands, judgments, and costs of suit, including attorneys' fees and paralegals' fees, for any expense, damage or liability incurred by any of them, whether for personal injury, death, property damage, direct or consequential damages, or economic loss, including environmental impairment, arising directly or indirectly on account of or in connection with the Work done by Contractor under this Agreement or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by any one for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. County and Contractor agree the first $100.00 of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims made. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17826 **County Administrator's Report 12. 48.**
BCC Regular Meeting **Budget & Finance Consent**
Meeting Date: 05/07/2020
Issue: Contract Award for Low Income Direct Emergency Assistance Program (LIDEAP)
From: PAUL NOBLES, Purchasing Manager
Organization: Asst County Administrator
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Contract Award for Low Income Emergency Assistance Program - Clara Long, Interim Neighborhood & Human Services Director, and Paul Nobles, Purchasing Manager, Office of Purchasing

That the Board approve and authorize the County Administrator to sign the Agreement between Escambia County, Florida, and Opening Doors NWFL, Inc., per the terms and conditions of PD 19-20.012, Low Income Direct Emergency Assistance Program (LIDEAP), providing $55,000 for Fiscal Year 2019-2020.

Vendor/Contractor	Funding	Amount	Contract Number
Opening Doors NWFL, Inc.	Fund 001 General Fund, Cost Center 370102, Object Code 58201	$55,000	PD 19-20.012

Non-ADA COMPLIANT DOCUMENT TO BE DISTRIBUTED UNDER SEPARATE COVER:

- Opening Doors NWFL, Inc. Bid Response

BACKGROUND:

Administering the Low Income Direct Emergency Assistance Program (LIDEAP) will require the Provider to provide case management services; determination of eligibility criteria for program participation; tracking of distribution of funds expended for payment; tracking of funds disseminated for the payment of rent, mortgage, utility/fuel, food assistance or prescription medication to the vendor. This is a program of last resort, not first choice and available for a one-time event to an individual or family during the existence of the program.

Requests for Proposals, PD 19-20.012, Low Income Direct Emergency Assistance Program (LIDEAP), was publicly noticed on Vendor Registry on February 2, 2020, and sent to 116 firms. The Solicitation was viewed by 16 firms and downloaded by 10 firms. Two proposals were received on February 27, 2020. Opening Doors NWFL, Inc. (the incumbent firm), has agreed to distribute the funds without any administrative costs.

BUDGETARY IMPACT:

Vendor/Contractor	Funding	Amount	Contract Number
Opening Doors NWFL, Inc.	Fund 001 General Fund, Cost Center 370102, Object Code 58201	$55,000	PD 19-20.012

LEGAL CONSIDERATIONS/SIGN-OFF:

The Agreement was prepared by Kristin Hual, Senior Assistant County Attorney.

PERSONNEL:

N/A

POLICY/REQUIREMENT FOR BOARD ACTION:

This Recommendation is in compliance with the Code of Ordinances of Escambia County, FL 1999, Chapter 46, Finance, Article II Purchases and Contracts.

IMPLEMENTATION/COORDINATION:

The Office of Purchasing will issue the County Attorney's prepared Agreement and Purchase Order.

PD 19-20.012 Not to Award

AGREEMENT FOR LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (P.D. 19-20.012)

THIS AGREEMENT is made and entered into by and between Escambia County, Florida, a political subdivision of the State of Florida (hereinafter referred to as "County**"**), whose mailing address is 221 Palafox Place, Suite 420, Pensacola, Florida 32502, and Opening Doors Northwest Florida (NWFL), Inc. (hereinafter referred to as "Contractor"), a not-for-profit corporation authorized to conduct business in the State of Florida, FEI/EIN 59-2909065, whose principal address is 1020 West New Warrington Road, Pensacola, FL 32506.

WITNESSETH:

WHEREAS, the County issued a Request for Proposals seeking a qualified non-profit organization to administer a Low Income Direct Emergency Assistance Program (LIDEAP) for qualified citizens of Escambia County, Florida; and

WHEREAS, in response to the solicitation, the Contractor submitted a proposal demonstrating that the Contractor is willing and able to provide such services; and

WHEREAS, the County desires to enter into an agreement with the Contractor for the provision of compensating Contractor for such services as set forth herein.

NOW, THEREFORE, in consideration of the mutual terms and conditions, promises, covenants and payments hereinafter set forth, the County and the Contractor agree as follows:

1. Recitals. The recitals contained in the preamble of this Agreement are declared to be true and correct and are hereby incorporated into this Agreement.

2. Term. This Agreement shall commence on the date last executed and continue for a term of twelve (12) months. Upon mutual agreement of the parties, the Agreement may be renewed for two additional twelve (12) month terms, up to a maximum of thirty-sixty (36) months.

3. Scope. Contractor agrees to perform in accordance with the terms and conditions as outlined in the Scope of Work provided as part of Escambia County's Request for Proposals for Low Income Direct Emergency Assistance Program, attached hereto as **Exhibit A**. In the event of a conflict between the terms of the Exhibits referenced herein and this Agreement, the terms of this Agreement shall prevail.

4. Program Funding. For the first twelve (12) month term and any subsequent term, the County agrees to pay Contractor the sum of **$55,000.00** for authorized Program expenses as provided in the Contractor's LIDEAP Budget, attached hereto as **Exhibit B**. Contractor shall not receive an administration fee for administering the Program. Any changes to the LIDEAP Budget that would affect the expenditure of funds, must be approved in writing by the County Administrator or designee; provided that nothing herein will authorize or allow any expenditure or obligation of funds in excess of the total sum authorized in this Agreement.

The Contractor shall return to the County any Program Funds expended for disallowed expenditures. The Contractor shall return to the County all Program Funds paid to it upon the County's finding that the Contractor violated the provisions of any applicable laws or ordinances appropriating such funds or otherwise breached the terms of this Agreement.

5. Residual Program Funds. Any residual Program Funds provided by the County which remain unspent or unencumbered by any existing (not contingent) legal obligations will be returned to the County in the form of a negotiable instrument not later than ninety (90) days after the expiration of the twelve (12) month term. If the Agreement is renewed for a subsequent twelve (12) month term then a limited amount of residual funds may be carried forward, which will not exceed ten percent (10%) of the current appropriation to the Contractor or $500.00, whichever is greater; however, the County's allocation of Program Funding for the subsequent twelve (12) month term will be reduced by the amount of such unencumbered residual funds carried forward. Any additional unencumbered funds will be returned as provided above.

6. Method of Payment. Following execution of the agreement, payment shall be provided to the Contractor in a single lump sum payment upon Contractor providing a fully completed W-9 form and a fully executed original Agreement to Escambia County.

7. Reporting Requirements. The Contractor shall submit a written report to the County on a monthly basis detailing all disbursements of LIDEAP funds. The report shall include the date and amount of disbursement, number of citizens assisted, and to whom the monies were paid. The report shall be provided no later than the 15th of each month.

8. Records Retention. The Contractor shall retain all pertinent records, statistical, financial, audit, and participant files related to the performance of this Agreement for a period of five (5) years from the date of receiving final payment from the County or resolution of any audits.

9. County Audit. Upon providing reasonable notice to Contractor, the County may inspect all pertinent records, statistical, financial, audit, and participant files related to the Contractor's performance of this Agreement and conduct monitoring reviews to ensure compliance with Program goals and the terms of this Agreement.

10. Termination. This Agreement may be terminated for cause or convenience by either party upon providing thirty (30) days prior written notice of such termination. In the event of termination by either party as provided herein, the Contractor shall be paid for services provided through the date of termination.

11. Indemnification. Contractor shall indemnify, defend, and hold harmless Escambia County, and its officers, directors, employees, and affiliates, from and against any and all liability, loss, cost, or expense including, without limitation, reasonable attorney's fees, arising out of or in connection with the negligence, recklessness, or wrongful misconduct of Contractor in the performance of its duties and obligations pursuant to this Agreement. The parties understand and agree that such indemnification by the Contractor relating to any matter, which is the subject of this Agreement, shall extend throughout the term of this Agreement and any statutes of limitation thereafter. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims relating to this Agreement. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

12. Insurance. The Contractor is required to carry the following insurance:

(a) Commercial General Liability, Form CG1, with $1,000,000 per occurrence. Excess or umbrella insurance may be purchased to make up the difference, if any, between the policy limits of the underlying policies.

(b) Business Automobile Liability with $1,000,000 per occurrence minimum combined single limits for all hired, owned, and non-owned vehicles.

(c) Florida statutory Workers' Compensation if applicable.

(d) It is understood and agreed by the parties that in the event that the Contractor consists of a joint venture, partnership, or other association of professional or business firms, each such firm shall be required to individually carry the above cited coverages.

(e) Contractor agrees all liability coverage shall be through carriers admitted to do business in the State of Florida. Carriers shall be "A" or other Secure Best Rating with a minimum financial size of "VII", according to the A.M. Best Key Rating Guide Latest Edition. The insurance policies shall be endorsed to provide at least 30 days advance notice of cancellation, nonrenewal or adverse change. Such notices shall be mailed to Escambia County, Office of Purchasing, Post Office Box 1591, Pensacola, Florida 32597.

(f) The Board of County Commissioners and Escambia County shall be endorsed as "additional insureds" on all liability policies (except Workers' Compensation and professional liability). Certificates of Insurance shall be provided to Office of Purchasing, Post Office Box 1591, Pensacola, Florida 32597 prior to commencement of work hereunder. Certificates shall reflect the additional insured status of Escambia County. The Board of County Commissioners and Escambia County shall also be the certificate holders.

13. Independent Contractor Status. In the performance of this Agreement hereunder, Contractor is an independent contractor. Contractor shall not hold itself out as an employee, agent or servant of the County; and Contractor shall not have the power or authority to bind the County in any promise, agreement or representation, other than as specifically provided in this Agreement or as may be expressly provided hereafter in writing by an authorized official of the County.

14. Notice. Any notice, payment or other communication under this Agreement required hereunder or desired by the party giving such notice shall be given in writing and delivered by hand or through the instrumentality of certified mail of the United States Postal Service or private courier service, such as Federal Express. Unless otherwise notified in writing of a new address, notice shall be made to each party as follows:

To: Opening Doors Northwest Florida (NWFL), Inc.	To: Escambia County
Attention: Executive Director	Attention: County Administrator
1020 West New Warrington Road	221 Palafox Place, Suite 420
Pensacola, Florida 32506	Pensacola, Florida 32502

Rejection, or other refusal by the addressee to accept, or the inability of the courier service or the United States Postal Service to deliver because of a changed address of which no notice was given, shall be deemed to be receipt of the notice sent. Any party shall have the right, from time

to time, to change the address to which notices shall be sent by giving the other party at least ten (10) days prior notice of the address change.

15 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida, and the parties stipulate that venue shall be in the County of Escambia.

16. Public Records. The Contractor acknowledges that this Agreement and any related financial records, audits, reports, plans correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. Contractor shall maintain all such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. Contractor shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Contractor agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Contractor fails to abide by the provisions of Chapter 119, Florida Statutes, the County may, without prejudice to any other right or remedy and after giving the Contractor and surety, if any, seven days written notice, during which period the Contractor still fails to allow access to such documents, terminate the contract.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Escambia County
Office of the County Administrator
221 Palafox Place, Suite 420
Pensacola, Florida 32502
(850) 595-4947

17. Entire Agreement. This Agreement contains the entire agreement between the parties and supersedes all prior oral or written agreements. Contractor acknowledges that it has not relied upon any statement, representation, prior or contemporaneous written or oral promises, agreements or warranties, except such as are expressed herein. The terms and conditions of this Agreement can only be amended in writing upon mutual agreement of the parties.

18. Compliance with Laws. Contractor agrees to comply with all federal, state and local laws, rules, policies, or guidelines related to the performance of this Agreement.

19. Assignment of Agreement. This Agreement, or any interest herein, shall not be assigned, transferred, or otherwise encumbered, under any circumstances, by Contractor without the prior written consent of the County. However, the Agreement shall run with the Escambia County Board of County Commissioners and its successors.

20. Miscellaneous. If any term or condition of this Agreement shall be invalid or unenforceable, the remainder of the terms and conditions of this Agreement shall remain in full force and effect. This Agreement shall not be more strictly construed against either party hereto by reason of the fact that one party may have drafted or prepared any or all of the terms and provisions hereof.

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the respective dates under each signature:

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(a), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to _____
(print name of the public entity)

by_____
(print individual's name and title)

for_____
(print name of entity submitting sworn statement)

whose business address is

_____

_____

and (if applicable) its Federal Employer Identification Number (FEIN) is:

_____

(If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision or any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **FloridaStatutes**, means:

   a. A predecessor or successor of a person convicted of a public entity crime; or
   b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.
   c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or

applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement. **(indicate which statement applies.)**

_____Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list. **(attach a copy of the final order).**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY IDENTIFIED IN PARAGRAPH 1 (ONE) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THOROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Drug-Free Workplace Form

The undersigned vendor, in accordance with Florida Statute 287.087 hereby certifies that _____ does:
Name of Business

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, employee assistance programs and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in Paragraph 1.

4. In the statement specified in Paragraph 1, notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Paragraphs 1 through 5.

PD 19-20.012, LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (LIDEAP)

SPECIAL TERMS AND CONDITIONS

The Board of County Commissioners, Escambia County, Florida, invites your company to submit a sealed offer on the item(s) as listed in this solicitation request.

All terms and conditions below are a part of this request, and no offer will be accepted unless all these conditions have been complied with. The County reserves the right to waive informalities in any offer; to reject any or all offers, in whole or in part, and/or to accept the offer(s) that in its judgment is from the lowest and most responsible and responsive offeror(s)

Instructions to Offerors

General Information

All offers to be considered shall be in the possession of the Office of Purchasing prior to the time of the solicitation closing. Offers may be mailed to 213 Palafox Place, Room 11.101, Pensacola, Florida 32502 or delivered to the Office of Purchasing, 2nd floor, Room 11.101, Matt Langley Bell, III Bldg., 213 Palafox Place, Pensacola, Florida 32502, in a sealed envelope clearly marked:

Specification Number PD 19-20.012, Low Income Direct Emergency Assistance Program (LIDEAP), Name of Submitting Firm, Time and Date due.

Note: If you are using a courier service; Federal Express, Airborne, UPS, etc., you must mark outside of airbill and/or envelope or box with Specification Number and Project Name.

Regardless of the method of delivery, each offeror shall be responsible for his offer(s) being delivered on time as the County assumes no responsibility for same. Offers offered or received after the time set for solicitation closing will be rejected and returned unopened to the offeror(s).

The following policy will apply to all methods of source selection:

CONDUCT OF PARTICIPANTS

After the issuance of any solicitation, all bidders/proposers/protestors or individuals acting on their behalf are hereby prohibited from **lobbying** as defined herein or otherwise attempting to persuade or influence any elected County officials, their agents or employees or any member of the relevant selection committee at any time during the **blackout period** as defined herein; provided, however, nothing herein shall prohibit bidders/proposers/protestors or individuals acting on their behalf from communicating with the purchasing staff concerning a pending solicitation unless otherwise provided for in the solicitation or unless otherwise directed by the purchasing manager.

PD 19-20.012, LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (LIDEAP)

Definitions

Blackout period means the period between the time the bids/proposals for invitations for bid or the request for proposal, or qualifications, or information, or requests for letters of interest, or the invitation to negotiate, as applicable, are received at the Escambia County Office of Purchasing and the time the Board awards the contract and any resulting bid protest is resolved or the solicitation is otherwise canceled.

Lobbying means the attempt to influence the thinking of elected County officials, their agents or employees or any member of the relevant Selection Committee for or against a specific cause related to a pending solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication.

Sanctions

The Board may impose any one or more of the following sanctions on a nonemployee for violations of the policy set forth herein:

(a) Rejection/disqualification of submittal
(b) Termination of contracts; or
(c) Suspension or debarment as provided in Sec. 46-102 of the Escambia County Code of Ordinances.

This policy is not intended to alter the procedure for Protested Solicitations and Awards as set forth in the Sec. 46-101 of the Escambia County Code of Ordinances.

IDENTIFICATION OF SUBCONSULTANTS/CHANGES AFTER THE FACT

After delivering an initial proposal in response to this solicitation, all submitters are prohibited from substituting, modifying, or amending those subconsultants identified in the initial written submittal at any time during the course of the solicitation process up to the final award of contract and including question and answer sessions, presentations or technical clarifications and submittals as may be required by the Review/Selection Committee. A substitution or addition of subconsultants or any other material changes to the submittal after the initial response will cause the submittal to be invalid for review and selection purposes.

FLORIDA EXECUTIVE ORDER 11-116 COMPLIANCE

PD 19-20.012, LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (LIDEAP)

CONTRACT INFORMATION

NOTICE

It is the specific legislative intent of the Board of County Commissioners that NO CONTRACT under this solicitation shall be formed between Escambia County and the awardee vendor until such time as the contract is executed by the last party to the transaction.

AWARD

Award shall be made on an "all-or-none total" basis.

CONTRACT TERM/RENEWAL/TERMINATION

A. The contract resulting from this Solicitation shall commence effective upon execution by both parties and extend for a period of twelve (12) months. The contract may be renewed for additional twelve (12) months periods, up to a maximum thirty-six (36) months upon mutual agreement of both parties. If any such renewal results in changes in the terms or conditions, such changes shall be reduced to writing as an addendum to this contract and such addendum shall be executed by both parties and approved by the Board of County Commissioners.

   Renewal of the contract shall be subject to appropriation of funds by the Board of County Commissioners.

B. The initiation County department(s) shall issue release (purchase) orders against the term contract on an "as needed" basis.
C. The contract may be canceled by the awarded vendor, for good cause, upon ninety (90) days prior written notice.
D. The County retains the right to terminate the contract, with or without good cause, upon thirty (30) days prior written notice.
E. In the event of termination by either party as provided herein, the awarded vendor shall be paid for services performed through the date of termination.

CONTRACT TERM/RENEWAL

The contract resulting from this solicitation shall commence effective upon execution by both parties and extend for a period of twelve (12) months. The County may unilaterally renew the contract for the periods specified on the bid/proposal form for thirty-six (36) months. An additional six (6) months extension may also be unilaterally exercised at the County's discretion.

INTERIM EXTENSION OF PERFORMANCE

After all options have been exercised, and it is determined that interim performance is required to allow for the solicitation and award of a new contract, the County may unilaterally extend the contract for a maximum period of six months. Pricing, delivery and all other terms and conditions of the contract shall apply during this period.

TERMINATION (SERVICES)

The Contract Administrator shall notify the Office of Purchasing of unsatisfactory performance and/or deficiencies in service that remain unresolved or recurring. The Office of Purchasing shall notify the contractor, in writing, of such unresolved or recurring deficiencies within five (5) working days of notification by the Contract Administrator.

Upon the third such written notification of unsatisfactory performance and/or deficiencies to the contractor by the Office of Purchasing within a four (4) month period; or the sixth such notification within any contract term, shall result in issuance of written notice of immediate contract termination to the contractor by the Office of Purchasing. Such termination may also result in suspension or debarment of the contractor.

TERMINATION (PUBLIC RECORDS REQUEST)

If the contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the contractor in conjunction with this agreement then the county may, without prejudice to any right or remedy and after giving the contractor and his surety, if any, seven (7) days written notice, during which period contractor still fails to allow access, terminate the employment of the contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the contractor, and may finish the project by whatever method it may deem expedient. In such case, the contractor shall not be entitled to receive any further payment until the project is finished. Reasonable terminal expenses incurred by the county may be deducted from any payments left owing the contractor (excluding monies owed the contractor for subcontract work.)

COUNTY INSURANCE REQUIRED

The contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the contract documents, whether such services, work and operations be by the contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

PD 19-20.012, LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (LIDEAP)

The contractor shall require, and shall be responsible for assuring throughout the time the agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the contractor.

The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the contractor or any other insurance of the contractor shall be considered primary, and insurance of the county, if any, shall be considered excess, as may be applicable to claims obligations which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile and Excess or Umbrella Liability Coverage
The contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the commercial general liability and business auto policies of the insurance services office.

Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the workers compensation coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business auto liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, nonowner and hired automobiles and employee nonowner ship use.

Excess or Umbrella Liability Coverage
Umbrella liability insurance is preferred, but an excess liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in certificates of insurance. If and when required by the County, certificates of insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the certificate of insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each certificate of insurance.

New certificates of insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information:

1. Indicate that Escambia County is an additional insured on the general liability policy.

2. Include a reference to the project and the Office of Purchasing number.

3. Disclose any self-insured retentions in excess of $1,000.

4. Designate Escambia County as the certificate holder as follows:
   Escambia County
   Attention: Buzz Roggenbuck
   Sr. Purchasing Coordinator
   Office of Purchasing, 2nd FL, Room 11.101
   213 S. Palafox Place
   Pensacola, FL 32502
   Fax (850) 595-4805

5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the county, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the contractor shall furnish complete copies of the contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For commercial general liability coverage the contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

INDEMNIFICATION

Contractor agrees to save harmless, indemnify, and defend County and their agents, officers and employees from any and all claims, losses, penalties, interest, demands, judgments, and costs of suit, including attorneys' fees and paralegals' fees, for any expense, damage or liability incurred by any of them, whether for personal injury, death, property damage, direct or consequential damages, or economic loss, including environmental impairment, arising directly or indirectly on account of or in connection with the Work done by Contractor under this Agreement or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by any one for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. County and Contractor agree the first $100.00 of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any

policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims made. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

PD 19-20.012, LOW INCOME DIRECT EMERGENCY ASSISTANCE PROGRAM (LIDEAP)

ELIGIBLE APPLICANTS: Nonprofit Organizations with IRS 501(c) (3) Status. Proof of 501(c) (3) status should be included as an attachment to the application. Applicants must also be located within Escambia County, FL. Must be an active member with the Escarosa Coalition on the Homeless (ESOH) Continuum of Care and Planning Process. Recipients will be required to have access to the Centralized Coordinated Access System (CCAS).

PART A SUMMARY

The Escambia County Board of County Commissioners/Neighborhood & Human Services Department, hereafter is known as The Department, is soliciting proposals from non-profit organizations to administer and operate a Low Income Direct Emergency Assistance Program (LIDEAP) for qualified citizens of Escambia County, FL. The program shall be designed to provide financial assistance with rent/mortgage payments, or utilities/fuel, or food or prescription medication. This will be a program of last resort and available for a one-time event during the existence of the program.

PART I GENERAL INFORMATION

1-1 PURPOSE

The Low-Income Direct Emergency Assistance Program (LIDEAP) is designed to meet the emergency needs of residents of Escambia County, FL by providing financial assistance with rent/mortgage, or utilities/fuel, or food or prescription medication. When there is a significant crisis within a household such as, loss of employment, health issues, loss of wage earner or an individual, a family may find that they are temporarily unable to provide themselves with one of the following: food, gas, water, electricity, medicine. The Low-Income Direct Emergency Assistance Program (LIDEAP) shall assist individuals or families from going without a critical necessity. This program shall be a program of last resort and available for a one-time event to an individual or family during the existence of the program.

Eligible applicants must provide documentation showing that they have insufficient resources to meet their need and the household income must meet the 200% Poverty Guideline.

Projected Project Outcomes:

a. To provide linkages through data systems to streamline participant referrals to community services agencies.

b. To provide a temporary solution to a barrier that may impede the quality of life for an individual or family.

c. To build effective community partnerships that will leverage public and private resources for the betterment of living conditions for the citizens of Escambia County, FL.

d. To improve the coordination and collaboration efforts among area local social service programs to increase the chances of successful solutions to the various challenges faced during an economic crisis.

1-2 OBJECTIVE

The Primary objective of The RFP is the selection of the most qualified and experienced Contractor to provide Low Income Direct Emergency Assistance Program (LIDEAP) that is most advantageous to the County.

1-3 ISSUING OFFICER

The project Director shall be Janice Gilley, County Administrator. The liaison officer shall be Clara Long, Director, Neighborhood & Human Services. The contracting agency shall be the Escambia County Board of Commissioners, c/o the Office of Purchasing, 213 S. Palafox Place, Pensacola, Florida, 32502.

1-4 CONTRACT CONSIDERATION

It is expected that the contract shall be a Continuing Contract after negotiation.

1-5 REJECTION

The right is reserved by the Board of County Commissioners to accept or reject any or all proposals or to waive any informality, existing in any proposal, or to accept the proposal which best serves the interest and intent of this project and is from the most responsive and responsible proposer.

1-6 INQUIRIES

Questions regarding this Request for Proposal shall be directed to Buzz Roggenbuck, Senior Purchasing Coordinator, Office of Purchasing, Telephone (850) 595-4878, email abroggenbuck@myescambia.com .

1-7 ADDENDA

Any changes made in the Request for Proposal shall be brought to the attention of all of those who have provided the proper notices of interest in performing the services.

1-8 SCHEDULE

The following schedule shall be adhered to in so far as practical in all actions related to this procurement:

Mailing date of proposals	Monday, February 29, 2016
Receipt of proposals	1:00 p.m. CDT, Thursday, March 24, 2016
Proposal Review Meeting	2:30 p.m. CDT, Monday, April 4, 2016
Discussions / Selection Meeting	2:00 p.m. CDT, Monday, April 18, 2016
1st Negotiations	3:30 p.m. CDT, Wednesday, April 20, 2016
2nd Negotiations, if required	2:30 p.m. CDT, Monday, April 25, 2016
Board of County Commissioners approval	Thursday, May 19, 2016

1-9 PROPOSAL CONTENT AND SIGNATURE

One (1) original hard copy and one (1) electronic copy of the proposal shall be required, having been signed by a company official with the power to bind the company in its proposal, and shall be completely responsive to the RFP for consideration.

1-10 NEGOTIATIONS

The contents of the proposal of the successful firm shall become a basis for contractual negotiations.

The Escambia County Board of County Commissioners will negotiate contract terms upon the effective date and will expire effective the 30th day of September 2016, unless cancelled sooner with or without cause by either party by providing thirty (30) days prior written notice of such cancellation to the other party. The Department reserves the right to negotiate to extend and/or increase a contract award as a result of this RFP.

1-11 RECOMMENDED PROPOSAL PREPARATION GUIDELINES

All contractors shall provide a straight forward and concise description of their ability to meet the RFP requirements. There shall be avoidance of fancy bindings and promotional material within. The proposal shall clearly show the technical approach to include work tasks, estimated time phasing and the proposed approach rational. The County discourages overly lengthy or costly proposals.

1-12 PRIME CONTRACT RESPONSIBILITIES

The selected contractor shall be required to assume responsibility for all services offered in his proposal. The selected contractor shall be the sole point of contact with regard to contractual matters including payments of any and all changes resulting from the contract.

1-13 DISCLOSURE

All information submitted in response to this RFP shall become a matter of public record, subject to Florida Statutes regarding public disclosure.

1-14 DELAYS

The Project Director reserves the right to delay scheduled due dates if it is to the advantage of the project.

1-15 WORK PLAN CONTROL

Control of the work plan to be developed under the RFP shall remain totally with the Escambia County Board of Commissioners.

1-16 METHOD OF PAYMENT

Payment schedule and basis of payment shall be negotiated.

1-17 PROJECT TIMELINE

Awards will be made to non-profit organizations that have documented experience in the administering of programs of the like, a strong fiscal accountability record and established controls, and a proven record of integrity in the community.

The initial contract period will be from the effective date of contract award.

The selection decision for the winning bidder will be made no later than as indicated in the previously identified schedule in paragraph 1-8.

Notifications to bidders who were not selected will be as indicated in the previously identified schedule in paragraph 1-8.

1-18 BUDGET

The Department shall award a maximum of $55,000.00 in LIDEAP funds during the Fiscal Year 2020. A line item budget must be provided, including a budget narrative, for proposed services (See Solicitation and Offer Form).

The Provider shall submit a monthly, written report detailing the LIDEAP disbursement of funds. This report shall include the date of approval and disbursement, amount of disbursement, number of recipients assisted and a list of vendors funds were disbursed to. The report shall be provided, to the Department, no later than the 15th of each month.

1-19 AUDIT REQUIREMENT

The Department requires a copy of the provider's most current Financial Audit Report and Single Audit Report (if available) to be included in the proposal package.

The Department may conduct monitoring reviews of activities, both fiscal and programmatic to ensure compliance with goals, laws and other provisions of the contract.

1-20 RECORD RETENTION

All pertinent records, statistical, financial, audit, and participant files shall be retained for a period of five (5) years from the date of final payment or the resolution of any audits. The Department must have access to any and all records for monitoring purposes.

PART II INFORMATION REQUIRED FROM CONTRACTORS

ALL PROPOSALS SHALL INCLUDE THE FOLLOWING: TECHNICAL AND COST PROPOSAL

2-1 PROPOSAL FORMAT AND CONTENT

The County discourages overly lengthy and costly proposals, however, in order for the County to evaluate proposals fairly and completely, proposers should follow the format set out herein and provide all of the information requested.

2-2 INTRODUCTION

Proposals shall include the complete name and address of their firm and the name, mailing address, and telephone number of the person the County should contact regarding the proposal.

Proposals shall confirm that the firm will comply with all of the provisions in this RFP; and, if applicable, provide notice that the firm qualifies as a County proposer. Proposals shall be signed by a company officer empowered to bind the company. A proposer's failure to include these items in their proposals may cause their proposal to be determined to be non-responsive and the proposal may be rejected.

2-3 UNDERSTANDING OF THE PROJECT

Proposers shall provide a comprehensive narrative statement that illustrates their understanding of the requirements of the project and the project schedule.

2-4 METHODOLOGY USED FOR THE PROJECT

Proposers shall provide a comprehensive narrative statement that sets out the methodology they intend to employ and that illustrates how their methodology will serve to accomplish the work and meet the County's project schedule.

2-5 MANAGEMENT PLAN FOR THE PROJECT

Proposers shall provide a comprehensive narrative statement that sets out the management plan they intend to follow and illustrates how their plan will serve to accomplish the work and meet the County's project schedule.

2-6 EXPERIENCE AND QUALIFICATIONS

Provide reference names and phone numbers for similar projects your firm has completed

STATEMENT OF QUALIFICATIONS NARRATIVE

a. The Provider must provide an overview of the organization/business background (list of governing body, terms of office), qualifications, staffing and organizational chart.

   Provide a narrative description of the organization of the project team.

   Provide a personnel roster that identifies each person who will actually work on the contract and provide the following information about each person listed;

   1) title,
   2) resume,
   3) location(s) where work will be performed,
   4) itemize the total cost and the number of estimated hours for each individual named above.

b. The Provider must describe the organizations history working with diverse individuals and families who are experiencing a significant life changing event.

c. Provide any pertinent experience with administering case management services, determining eligibility guidelines for program participation and tracking participation.

d. The Provider must describe how the organization will maintain fiscally responsible controls of funds.

e. The Provider must have the established capability to interface with specified data base systems as required for monitoring and tracking information purposes.

f. The Provider must implement an educational program module to provide information to the approved applicant on how to set-up and maintain an effective household budget to decrease the chances of their finances reaching a critical state.

2-7 COST PROPOSAL

Proposer's cost proposals shall include an itemized list of all direct and indirect costs associated with the performance of this contract, including, but not limited to, total number of hours at various hourly rates, direct expenses, payroll, supplies, overhead assigned to each person working on the project, percentage of each person's time devoted to the project, and profit.

PART III CRITERIA FOR SELECTION

	Points Available
The scope of work requirements,	20
Comprehensive narrative of organizations qualifications,	15
Prior experience with implementation of similar case management services,	8
Staff qualification(s) that show capability to perform program services,	10
Demonstrated experience of sound fiscal responsibilities with similar projects,	10
The ability necessary to undertake this project,	9
Provide a strategic plan of action on how the project outcomes will be achieved,	8
Budget and budget narrative,	10
Organization's procurement guidelines	10
Administrative Cost Points	
There is $5000 available for Administrative Cost and $50,000 for the program for a total of $55,000.00.	
No Administrative Cost	25
50% of available Administrative Cost	15
100% of available Administrative Cost	0

PART IV SCOPE OF WORK

The applicant(s) must currently reside at the address listed on the bill if requesting assistance for housing payment or utility bill. If the applicant is requesting prescription medication or food assistance, they must produce a bona fide

prescription from a licensed physician with the exact cost from a pharmacy or must document that they are currently **not** certified to receive food assistance from Department of Children & Families.

Administering LIDEAP will require the Provider to provide case management services; determination of eligibility criteria for program participation; tracking of distribution of funds expended for payment; tracking of funds disseminated for the payment of rent, mortgage, utility/fuel, food assistance or prescription medication to the vendor.

The Provider shall be responsible for vetting all applicants and confirming legitimate need for service(s).

The Provider shall require the following:

a. Applicant must appear before Provider with a complete application;

b. Applicant must submit most current bill/payment (lease or mortgage statement)/food assistance documentation or prescription;

c. Applicant(s) must be the person or persons listed on the bill and currently residing at that residence, if applicable;

d. Applicant must provide a valid photo identification card and a valid photo identification card for all persons who reside in the household, ages 18 years of age or older, if applicable;

e. Applicant must provide Social Security cards for all household members, if applicable;

f. Applicant must provide documentation to verify income of all household members age 18 years and older, for the preceding thirty (30) days (Wage earnings, Social Security Benefits, Child Support Payments, Veteran Administration Benefits, Retirement Benefits, Annuities, Temporary Assistance to Needy Families (TANF), Unemployment Compensation (UC), etc.);

g. Applicant must provide documentation of income, if not employed, or lack of income for all household members over the age of 18 years old;

h. Household income may not to exceed 200% of the Federal Poverty Guideline; and

i. If approved, applicants may receive assistance only one-time for the existence of the program.

The applicant may be approved for the exact amount of bill/request, not to exceed the maximum amount to be paid directly to the vendor for the following:

a. Rent payment up to a maximum of $700.00

b. Mortgage payment up to a maximum of $700.00

c. Utility payment up to a maximum of $500.00 (electricity, water, gas, fuel)

d. Prescription medication up to a maximum of $300.00 (must submit bona fide prescription from a licensed physician)

e. Food assistance up to a maximum of $300.00 (cannot be currently certified for food assistance via Department of Children & Families)

This program does not pay for deposits of a new residence or any charges resulting from illegal activities, such as meter tampering, returned check fees or fraud of any type.

Approved payments are to be made directly to the vendor by the Provider and not to the applicant.

This is a program of last resort, not first choice, therefore applicants must have made the attempt(s) to apply for assisted service through one or more of the various organizations or agencies that provide these types of services within Escambia County, FL and must attest to the receipt of past services, denial of services or failed efforts to apply for services (i.e., not being able to make contact or qualify with an agency via their specified guidelines).

The Provider shall provide staff for case management services, in support of the following:

a. Maintaining a case file record for each applicant (approved or denied).

b. Ensure collection and maintenance of data to prohibit duplication or additional services are not provided to the same individual(s).

c. Identify needs for specialized assessments and refer to local community agencies or organizations that may assist with providing avenues to help promote the road to recovery from financial dependency on programs of this type.

d. Document via counseling notes on applicant contacts, issues or problems encountered.

The Provider should develop a financial literacy educational module for approved applicants to complete that will provide them with the necessary tools to set-up and maintain a household budget to decrease the probability of compromising their household finances.

- Case file records are confidential, and information should not be disseminated to sources outside of service vendors unless otherwise authorized. The Provider must submit their protocol or process to ensure privacy included in the bid narrative.

AGREEMENT BETWEEN ESCAMBIA COUNTY, FLORIDA AND ROADS INC. OF NWF FOR STANDARD ROAD/DRAINAGE CONSTRUCTION CONTRACT DOCUMENTS.

THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, ("County"), hereby contracts with Roads Inc. of NWF, a Florida corporation for profit, to perform all work ("Work") in connection with PD 19-20.042, Muscogee Road Resurfacing Jacks Branch to Nowak ("Project"), as detailed in the attached Plans and Specifications and other Contract Documents hereafter specified.

SECTION 1. CONTRACT DOCUMENTS

A. The Contract Documents include this Agreement, including Amendments and Exhibits, the Exhibits described in Section 6, Change Orders, Work Directive Changes, Field Orders and the solicitation documents, including addenda. These Contract Documents are incorporated by reference and made a part of this Agreement. A copy of all Contract Documents shall be maintained by Contractor at the Project site at all times during the performance of the Work.

B. In case of any inconsistency or conflict among the provisions of the agreement and any other terms and conditions of any documents comprising the Contract Documents, the provisions of the Agreement shall control. Concerning the Contract Documents, the order of precedence shall be as follows: 1) the Agreement, including Amendments and Exhibits; 2) Change Orders; 3) Work Directive Changes; 4) Field Orders; 5) the Solicitation Documents, including addenda. The Contract Documents listed above represent the entire and integrated agreement between the parties hereto, and supersede prior negotiations, representations, or agreements, either written or oral.

C. County shall furnish to the Contractor up to four (4) sets of the Contract Documents for execution of the Work. Additional copies of the Contract Documents are available at the cost of reproduction.

SECTION 2. SCOPE OF WORK

Contractor agrees to furnish and pay for all management, supervision, financing, labor, materials, tools, fuel, supplies, utilities, equipment and services of every kind and type necessary to diligently, timely, and fully perform and complete in a good workmanlike manner the Work required by the Contract Documents.

SECTION 3. CONTRACT AMOUNT

For satisfactory completion of the Work the County agrees to pay the Contractor the following amount (herein "Contract Amount"), in accordance with the terms of this Agreement:

Four Hundred Fifty-Eight Thousand Six Hundred Eighty-Nine Dollars and Ninety-Seven Cents

($458,689.97)

SECTION 4. BONDS

A. Contractor shall provide at his expense Performance and Payment Bonds, in the form prescribed in **Exhibit B**, in the amount of 100% of the Contract Amount. The Performance and Payment Bonds shall be underwritten by a surety authorized to do business in the State of Florida and otherwise acceptable to County; provided; however, the surety shall be rated as "A-" (excellent) or better as to general policy holders rating and Class V or higher rating as to financial size category and the amount required shall not exceed 5% of the reported policy holder's surplus, all as reported in the most current Best Key Rating Guide, published by A.M. Best Company, Inc. of 75 Fulton Street, New York, New York 10038.

B. If the surety for any bond furnished by Contractor is declared bankrupt, becomes insolvent, its right to do business is terminated in the State of Florida, or it ceases to meet the requirements imposed by the Contract Document, the Contractor shall, within five (5) calendar days thereafter, substitute another bond and surety, both of which shall be subject to the County's approval. Failure by Contractor to maintain its bonds in full force and effect at all times, including the warranty period, shall be grounds for termination of this Contract.

C. As per Florida Statutes, Section 255.05, the Contractor shall be required to execute and record the Performance and Payment bonds. The bonds must state the name and principal business address of both the Principal and the Surety and a description of the project sufficient to identify it. (The filing costs are $10.00 for the first page and $8.50 for each remaining page).

SECTION 5. CONTRACT TIME AND LIQUIDATED DAMAGES.

A. Time is of the essence in the performance of the Work under this Agreement. Contractor shall commence the Work within ten (10) calendar days from the Commencement Date, established in the Notice to Proceed. No Work shall be performed at the Project site prior to the Commencement Date. Contractor shall provide 48 hours' notice prior to beginning the Work. The Work shall be substantially completed within One Hundred Fifty (150) calendar days from the Commencement Date. The Work shall be fully completed and deemed ready by the County for final completion within Thirty (30) calendar days from the Substantial Completion Date. The Contract Time shall be the time period from the Commencement Date to the date of final completion totaling One Hundred Eighty (180) calendar days (herein "Contract Time"). No work under this contract shall commence until certificates of insurance have been received and acknowledged by the Purchasing Manager.

B. County and Contractor recognize that, since time is of the essence for this Agreement, the County will suffer financial loss if the Work is not substantially completed within the time specified. Should Contractor fail to substantially complete the Work within the time period noted above, County shall be entitled to assess, as liquidated damages, but not as a penalty, $1,000 for each calendar day thereafter until substantial completion is achieved. The Project shall be deemed to be substantially completed by the County on the date that the County's Architect certifies in writing that the construction of the project, or specified part thereof, is sufficiently completed in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it is intended. Along with such certification, the Architect shall compile a "punch list" of any remaining

exceptions that do not adversely affect the use of the Project. Completion of these items will be required prior to final payment.

C. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of the County's actual damages at the time of contracting if Contractor fails to substantially complete the Work in accordance with the progress schedule.

D. When any period of time is referenced to by days herein, it shall be computed to exclude the first day and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day shall be omitted from the computation, and the last day shall become the next succeeding day which is not a Saturday, Sunday or legal holiday.

SECTION 6. EXHIBITS INCORPORATED

The following documents are expressly agreed to be incorporated by reference and made a part of this Agreement.

Exhibit A:	General Terms and Conditions
Exhibit B:	Form of Performance and Payment Bonds
Exhibit C:	Insurance and Safety Requirements
Exhibit D:	Form of Release and Affidavit
Exhibit E:	Form of Contractor Application for Payment
Exhibit F:	Form of Change Order
Exhibit G:	Payment Adjustment - Bituminous Material
Exhibit H:	Technical Specifications **Escambia County Technical Specifications dated May 17, 2017**
Exhibit I:	Plans & Standard Details prepared by or for County and Identified as follows: **Cross Section-Layout1** **Project Area Map**
Exhibit K:	Federal Documents (if applicable)
Exhibit L:	Solicitation Documents Index

SECTION 7. NOTICES

A. All notices required or made pursuant to this Agreement by the Contractor to the County shall be in writing. All correspondence with the County should be addressed as follows:

Public Works/Engineering
3363 West Park Place
Pensacola, Florida 32505
Attention: Cooper Saunders, Project Manager

B. All correspondence with the Contractor will be addressed to the following:

Roads, Inc. of NWF
106 Stone Blvd
Cantonment, FL 32533
Attention: Cody Rawson

C. Either party may change its above noted address by giving written notice to the other party in accordance with the requirements of this Section.

SECTION 8. MODIFICATION

No modification or change to the Agreement shall be valid or binding upon the parties unless in writing and executed by the party or parties intended to be bound by it.

SECTION 9. SUCCESSORS AND ASSIGNS

Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and assigns of the parties to the Agreement.

SECTION 10. GOVERNING LAW

The Agreement shall be interpreted under and its performance governed by the laws of the State of Florida and the parties agree that venue shall be in Escambia County, Florida for any matter which is the subject of this Contract.

SECTION 11. NO WAIVER

The failure of the County to enforce at any time or for any period of time any one or more of the provisions of the Agreement shall not be construed to be and shall not be a waiver of any such provision or provisions or of its right thereafter to enforce each and every such provision.

SECTION 12. ENTIRE AGREEMENT

Each of the parties hereto agrees and represents that the Agreement comprises the full and entire agreement between the parties affecting the Work contemplated, and no other agreement or understanding of any nature concerning the same has been entered into or will be recognized, and that all negotiations, acts, work performed, or payments made prior to the execution hereof shall be deemed merged in, integrated and superseded by the Agreement.

SECTION 13. SEVERABILITY

Should any provision of the Agreement be determined by a court to be unenforceable, such a determination shall not affect the validity or enforceability of any other section or part thereof.

SECTION 14. PUBLIC RECORDS.

The Contractor acknowledges that this Agreement and any related financial records, audits, reports, plans correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes. Contractor shall maintain all

such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. Contractor shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Contractor agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Contractor fails to abide by the provisions of Chapter 119, Florida Statutes, the County may, without prejudice to any other right or remedy and after giving the Contractor and surety, if any, seven days written notice, during which period the Contractor still fails to allow access to such documents, terminate the contract. In such case, the Contractor shall not be entitled to receive any further payment. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontractor work).

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Escambia County
Office of the County Administrator
221 Palafox Place, Suite 420
Pensacola, Florida 32502
(850) 595-4947

IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the respective dates under each signature: the parties hereto have made and executed this Agreement on the respective dates under each signature: Escambia County, Florida through its Board of County Commissioners, signing by its County Administrator, duly authorized to execute this Agreement, and Roads Inc. of NWF signing by and through its President, duly authorized to execute same.

EXHIBIT A
GENERAL TERMS AND CONDITIONS

Section 1. INTENT OF CONTRACT DOCUMENTS

1.1. It is the intent of the Contract Documents to describe a functionally complete project (or portion thereof) to be constructed in accordance with the Contract Documents. Any work, materials or equipment that may reasonably be inferred from the Contract Documents, as being required to produce the intended result shall be supplied whether or not specifically called for. When words, which have a well-known technical or trade meaning, are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association or to the laws or regulations of any governmental authority having jurisdiction over the Project, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in affect at the time the Work is performed, except as may be otherwise specifically stated herein.

1.2. If, during the performance of the Work, Contractor discovers a conflict, error or discrepancy in the Contract Document, Contractor immediately shall report same to County and before proceeding with the Work affected thereby shall obtain an interpretation or clarification from the County. Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents before commencing any portion of the Work.

1.3. Drawings are intended to show general arrangements, design and extent of Work and are not intended to serve as shop drawings. Specifications are separated into divisions for convenience of reference only and shall not be interpreted as establishing divisions for the Work, trades, subcontracts, or extent of any part of the Work. In the event of a discrepancy between or among the drawings, specifications of other Contract Document provisions, Contractor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the Contractor, as determined by the County. Unless otherwise specifically mentioned, all anchors, bolts, screws, fittings, fillers, hardware, accessories, trim and other parts required in connection with any portion of the Work to make a complete, serviceable, finished and first quality installation shall be furnished and installed as part of the Work, whether or not called for by the Contract Documents.

1.4. "Engineer", where referenced on the drawings or in the specifications or in other related documents, shall mean the Escambia County Engineer or the designated representative thereof.

Section 2. INVESTIGATION AND UTILITIES

2.1. Contractor shall have the sole responsibility of satisfying itself concerning the nature and location of the Work and the general and local conditions, and particularly, but without limitation, with respect to the following: those affecting transportation, access, disposal, handling and storage of materials; availability and quality of labor; water and electric power; availability and condition of roads; work area; living facilities; climatic conditions and seasons; physical conditions at the work-site and the Project area as a whole; topography and ground surface conditions; nature and quality of the surface materials to be encountered; subsurface conditions; equipment and facilities needed preliminary to and during performance of the Work; and all other costs associated with such performance. The failure of Contractor to acquaint itself with any applicable conditions shall not relieve Contractor from any of its responsibilities to perform under the Contract Documents, nor shall it be considered the basis for any claim for additional time or

compensation.

2.2. Contractor shall locate all existing roadways, railways, drainage facilities and utility services above, upon, or under the Project site, said roadways, railways, drainage facilities and utilities being referred to in this Section 2 as the "Utilities". Contractor shall contact the owners of all Utilities to determine the necessity for relocating or temporarily interrupting any Utilities during the construction of the Project. Contractor shall schedule and coordinate its Work around any such relocation or temporary service interruption. Where Utilities block construction, Contractor shall aggressively pursue relocation by the Utility owners. Contractor shall immediately notify the County of any delays due to Utilities blockage and document all attempts to resolve such blockage. Contractor shall be responsible for properly shoring, supporting and protecting all Utilities at all times during the course of the Work.

Section 3. SCHEDULE

3.1. The Contractor, within ten (10) calendar days after receipt of the Notice of Award, shall prepare and submit to County, for review and approval, a progress schedule for the Project (herein "Progress Schedule"). The Progress schedule may be provided in an electronic format. The Progress Schedule shall relate to all Work required by the Contract Documents and shall provide for expeditious and practicable execution of the Work within the Contract Time. The Progress Schedule shall indicate the dates for starting and completing the various stages of the Work and shall include dates of Shop Drawing Submittals.

3.2. The Progress Schedule shall be updated monthly by the Contractor. All monthly updates to the Progress Schedule shall be subject to the County's review and approval. Contractor shall submit the updates to the Progress Schedule with its Applications for Payment noted below. The County's review and approval of the submitted Progress Schedule updates shall be a condition precedent to the County's obligation to pay Contractor.

Section 4. PROGRESS PAYMENTS

4.1. Prior to submitting its first Application for Payment, Contractor shall submit to County, for its review and approval, a schedule of values based upon the Contract Price, listing the major elements of the Work and the dollar value for each element. After its approval by the County, this schedule of values shall be used as the basis for the Contractor's Applications for Payment. This schedule shall be updated and submitted along with a completed and notarized copy of the Application for Payment form attached to the Agreement as **Exhibit E.**

4.2. Prior to submitting its first Monthly Application for Payment, Contractor shall submit to County a complete list of all its proposed subcontractors and material men, showing the work and materials involved. The first Application for Payment shall be submitted no earlier than thirty (30) days after Commencement Date.

4.3. If payment is requested on the basis of materials and equipment not incorporated into the Project, but delivered and suitably stored at the site or at another location agreed to by the County in writing, the Application for Payment will subdivide the work into component parts in sufficient detail to serve as the basis for a progress payment and shall also be accompanied by a bill of sale, invoice or other documentation warranting that upon payment by County, the County shall receive the materials and equipment free and clear of all liens, charges, security interests and encumbrances, together with evidence that the materials and equipment are covered by appropriate property insurance and other arrangements to protect County's interest therein, all of which shall be subject to the County's prior written approval.

4.4. Contractor shall submit four (4) copies of its applications for Payment to the County on or about the 25th day of each month for work performed during that month. Contractor shall submit no more than one application for payment each month. Within ten (10) calendar days after receipt of each Application for Payment, the County shall either: (1) indicate approval of the requested payment; (2) indicate approval of only a portion of the requested payment, stating in writing the reasons therefore; or (3) return the Application for Payment to the Contractor indicating, in writing, the reason for refusing to approve payment. In the event of a total or partial denial of the Application for Payment, the Contractor may make the necessary corrections and resubmit the Application for Payment for reconsideration within ten (10) calendar days of receiving notice of refusal.

If re-submittal of the Application for Payment is refused, in whole or in part, the Contractor may submit a written request to the County Administrator for an administrative decision within two (2) business days of receiving notice of refusal. Upon receiving a timely request, an administrative decision shall be rendered within ten (10) calendar days with written notification provided to the Contractor.

If the administrative decision is disputed, the Contractor may submit a written request to the County Administrator for an administrative hearing before the Dispute Resolution Committee (DRC) within two (2) business days of receiving said decision. A hearing shall be scheduled within ten (10) business days from the date the request is received, and the Contractor will receive written notice of the hearing date. The DRC may, within its discretion, render a final decision at the hearing or may elect to mail a written decision within a period not to exceed ten (10) calendar days from the hearing date. The DRC's written decision shall be considered administratively final.

The County shall, within twenty (20) business days after County approval of an Application for Payment, pay the Contractor the amounts so approved. Provided, however, in no event shall the County be obligated to pay an amount greater than that portion of the Application for Payment approved by the County.

4.5 County shall retain ten percent (10%) of the gross amount of each monthly payment request or ten percent (10%) of the portion thereof approved by the County for payment whichever is less. The retained sum shall be accumulated and not released to Contractor until final payment is due. Any interim interest on such sums shall accrue to County.

At the County's sole discretion, a percentage of the amount retained from the gross amount of each monthly payment may be reduced prior to final completion of the Project and said percentage released to the Contractor upon receiving a certificate of substantial completion and approval from the Architect/Engineer.

Release of any portion or percentage of sums retained prior to final completion of the Project shall in no way imply approval or acceptance of Contractor's work.

4.6 Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

4.7 Each Application for Payment shall be accompanied by Release and Affidavit, in the form attached as **Exhibit D**, showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested or have been paid in full. The County shall not be required to make payment until and unless these affidavits are furnished by Contractor.

4.8 Applications for Payment will not be approved unless all submittals required by the Contract documents, up to that point, are provided and "As-Built" record documents are maintained as required by Section 8.2.

Section 5. PAYMENTS WITHHELD

5.1. The County may decline to approve any Application for Payment, or portions thereof, because of subsequently discovered evidence or subsequent inspections. The County may nullify the whole or any part of any approval for payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after three (3) days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

Section 6. FINAL PAYMENT

6.1. County shall make final payment to Contractor within forty- five (45) calendar days after the Work is finally inspected and accepted by County in accordance with Section 20.1 herein, provided that Contractor first, and as an explicit condition precedent to the accrual of Contractor's right to final payment, shall have furnished County with a properly executed and notarized copy of the Release and Affidavit attached as Exhibit D, as well as, a duly executed copy of the Surety's consent to final payment and such other documentation that may be required by the Contract Documents or the County.

6.2. Contractor's acceptance of final payment shall constitute a full waiver of any and all claims by Contractor against County arising out of this Agreement or otherwise relating to the Project, except those previously made in writing and identified by Contractor as unsettled at the time of the final Application for Payment. Neither the acceptance of the Work nor payment by County shall be deemed to be a waiver of County's right to enforce any obligations of Contractor hereunder or to the recovery of damages for defective Work not discovered by the County at the time of final inspection.

Section 7. SUBMITTALS AND SUBSTITUTIONS

7.1. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. When submitted for the Engineer's review, Shop Drawings shall bear the Contractor's certification that the Contractor has reviewed, checked, and approved the Shop Drawings and that they are in conformance with the requirements of the Contract Documents. Contractor shall submit all such materials at its own expense and in such form as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof.

7.2. Prior to submitting its first Application for Payment, Contractor shall provide to County a DVD format showing the pre-existing conditions located within the limits of construction.

7.3. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by County if sufficient information is submitted by Contractor to allow the County to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by County from anyone other than Contractor and all such requests must be submitted by Contractor to County within thirty (30) calendar days after Notice to Proceed is received by Contractor.

7.4. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to the County for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the County in evaluating the proposed substitute. The County may require Contractor to furnish at Contractor's expense additional data about the proposed substitute.

7.5. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the County, if Contractor submits sufficient information to allow the County to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the County shall be the same as those provided herein for substitute materials and equipment.

7.6. The County shall be allowed a reasonable time within which to evaluate each proposed substitute. The County shall be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the County's prior written acceptance, which shall be evidenced by either a Change Order or an approved Shop Drawing. The County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute.

Section 8. DAILY REPORTS, AS-BUILTS, AND MEETINGS

8.1. Unless waived in writing by County, Contractor shall complete and submit, along with its Application for Payment, to the County on a monthly basis a daily log of the Contractor's work for the preceding month in a format approved by the County. The daily log shall document all activities of Contractor at the Project site including, but not limited to, the following:

8.1.1. Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions

which adversely affect the Work;

8.1.2. Soil conditions which adversely affect the Work;

8.1.3. The hours of operation by Contractor's personnel and subcontractor's personnel;

8.1.4. The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontract and trade;

8.1.5. All equipment present at the Project site, description of equipment use and designation of time equipment was used (specifically indicating any down time);

8.1.6. Description of Work being performed at the Project site;

8.1.7. Any unusual or special occurrences at the Project site;

8.1.8. Materials received at the Project site

The daily log shall not constitute nor take the place of any notice required to be given by Contractor to County pursuant to the Contract Documents.

8.2. Contractor shall maintain in a safe place at the Project site one record copy of the Contract Documents, as well as all shop drawings and other Contractor submittals and all written interpretations and clarifications issued by the County, in good order and annotated to show all changes made during construction. The annotated drawings shall be continuously updated by the Contractor throughout the prosecution of the Work to accurately reflect all field changes that are made to adapt the Work to field conditions, changes resulting from Change Orders, Work Directive Changes and Field Orders, and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the Project site, shall be accurately located on the annotated drawings as to depth and in relationship to not less than two (2) permanent features (e.g. interior or exterior wall faces). The annotated drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. The "As-Built" record documents, together with all approved samples and a counterpart of all approved shop drawings shall be available to County for reference. Upon completion of the Work, and as a condition precedent to Contractor's entitlement to final payment, these "As-Built" record documents, samples and shop drawings shall be delivered to County by Contractor.

8.3. Contractor shall keep all records and supporting documentation which concern or relate to the Work hereunder for a minimum of five (5) years from the date of termination of this Agreement or the date the Project is completed, whichever is later. County, or any duly authorized agents or representatives of County, shall have the right to audit, inspect and copy all such records and documentation as often as they deem necessary during the period of this Agreement and during the five (5) year period noted above; provided, however, such activity shall be conducted only during normal business hours.

Section 9. CONTRACT TIME AND TIME EXTENSIONS

9.1. Contractor shall diligently pursue the completion of the Work and coordinate the Work being done on the Project by its subcontractors and material men, as well as coordinating its Work with all work of others at the Project Site, so that its Work or the work of others shall not be delayed or impaired by any act or omission of Contractor. Contractor shall be solely responsible for all construction means, methods, techniques, sequences, and procedures, as well as

coordination of all portions of the Work under the Contract Documents.

9.2. Should Contractor be obstructed or delayed in the prosecution of or completion of the Work as a result of unforeseeable causes beyond the control of Contractor, and not due to its fault or neglect, including but not restricted to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine regulations, strikes or lockouts, Contractor shall notify the County in writing within forty-eight (48) hours after the commencement of such delay. Written supporting data with specific details of Contractor operations, which were delayed, shall be submitted to the County within fifteen (15) calendar days after the occurrence of the delay, unless the County grants additional time in writing for such submittals, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension.

9.3. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatever, including those for which County may be responsible, in whole or in part, shall relieve Contractor of his duty to perform or give rise to any right to damages or additional compensation from County. Contractor expressly acknowledges and agrees that it shall receive no damages for delay. Contractor's sole remedy, if any, against County will be the right to seek an extension to the Contract Time; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damages For Delay" provision. This paragraph shall expressly apply to claims for early completion, as well as to claims based on late completion.

9.4. Requests for delays due to adverse weather conditions shall meet all of the following conditions:

9.4.1. Contractor notified the County in writing within forty-eight (48) hours of the delay.

9.4.2. The weather was unusual as documented by supporting data.

9.4.3. The weather did have an adverse impact on the contractor’s schedule (critical path only).

9.4.4. The Contractor and inspector’s daily logs corroborate the adverse impact. Where a conflict exists between the weather data and the daily reports, the daily reports will take precedence.

Section 10. CHANGES IN THE WORK

10.1. County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an itemized estimate of any cost and/or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order of County, and County shall not be liable to the Contractor for any increased compensation without such written order. No officer, employee or agent of County is authorized to direct any extra or changed work orally.

10.2. A Construction Change Order, in the form attached as **Exhibit F** to this Agreement, shall be issued and executed promptly after an agreement is reached between Contractor and County concerning the requested changes. Contractor shall promptly perform changes authorized by duly executed Change Orders. The Contract Amount shall be adjusted in the Change Order in the manner as County and Contractor shall mutually agree.

10.3. If County and Contractor are unable to agree on a Change Order for the requested change, Contractor shall, nevertheless, promptly perform the change as directed by County in a written

Work Directive Change. In that event, the Contract Amount and Contract Time shall be adjusted as directed by County. If Contractor disagrees with the County's adjustment determination, Contractor must make a claim pursuant to Section 11 of these General Conditions or else be deemed to have waived any claim on this matter it might otherwise have had.

10.4. In the event a requested change results in an increase to the Contract Amount, the amount of the increase shall be limited to the Contractor's reasonable direct labor and material costs and reasonable actual equipment costs as a result of the change (including allowance for labor burden costs) plus a maximum ten percent (10%) markup for all overhead and profit. In the event such change Work is performed by a Subcontractor, a maximum ten percent (10%) markup for all overhead and profit for all Subcontractors' and sub-subcontractors' direct labor and material costs and actual equipment costs shall be permitted, with a maximum five percent (5%) markup thereon by the Contractor for all of its overhead and profit, for a total maximum markup of fifteen percent (15%). All compensation due Contractor and any Subcontractor or sub-subcontractor for field and home office overhead is included in the markups noted above.

10.5. County shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Change Order.

10.6. The County shall have authority to order minor changes in the Work not involving an adjustment to the Contract Amount and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the Contractor.

Section 11. CLAIMS AND DISPUTES

11.1. A Claim is a demand or assertion by one of the parties seeking an adjustment or interpretation of the terms of the Contract Documents, payment of money, extension of time or other relief with respect to the terms of the Contract Documents. The term "Claim" also includes other disputes and matters in question between County and Contractor arising out of or relating to the Contract Documents. The responsibility to substantiate a Claim shall rest with the party making the Claim.

11.2. Claims by the Contractor shall be made in writing to the County within forty-eight (48) hours after the first day of the event giving rise to such Claim or else the Contractor shall be deemed to have waived the Claim. Written supporting data shall be submitted to the County within fifteen (15) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived the Claim. All claims shall be priced in accordance with the provisions of Subsection 10.4.

11.3. The Contractor shall proceed diligently with its performance as directed by the County, regardless of any pending Claim, action, suit or administrative proceeding, unless otherwise agreed to by the County in writing. County shall continue to make payments in accordance with the Contract Documents pending Claim.

Section 12. OTHER WORK

12.1. County may perform other work related to the Project at the site by County's own forces, have other work performed by utility owners or let other direct contracts. If the fact that such other work is to be performed is not noted in the Contract Documents, notice thereof will be given to Contractor. If Contractor believes that such performance will involve additional expense to Contractor or require additional time, Contractor shall send written notice of that fact with specific details of anticipated costs and delays to County within forty-eight (48) hours of being notified of

the other work. Written supporting data of actual need for additional time or additional expense, shall be submitted to the County within fifteen (15) calendar days after completion of other work, unless the County grants additional time in writing, or else the Contractor shall be deemed to have waived any right which Contractor may have had to request a time extension or adjustment to the Contract Amount.

12.2. Contractor shall afford each utility owner and other contractor (or County, if County is performing the additional work with County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its Work with theirs. Contractor shall do all cutting, fitting and patching of the Work that may be required to make its several parts come together properly and integrate with such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the County and the others whose work will be affected.

12.3. If any part of Contractor's Work depends for proper execution or results upon the work of any other contractor or utility owner (or County), Contractor shall inspect and promptly report to County in writing any delays, defects or deficiencies in such work that render it unavailable or unsuitable for such proper execution and results. Contractor's failure to report will constitute an acceptance of the other work as fit and proper for integration with Contractor's Work.

Section 13. INDEMNIFICATION AND INSURANCE

13.1 Contractor shall pay on behalf of or indemnify and hold harmless County and its agents, officers and employees from and against all liabilities, damages, losses, and costs, including attorney's and paralegal fees, incurred by County to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by anyone for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. Contractor's obligation as provided herein shall be limited to its proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Contractor or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor, and Contractor shall not be required to pay on behalf of or indemnify and hold harmless County where County's negligence, recklessness, or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's fees and paralegal fees.

County and Contractor agree one percent (1%) of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement.

Contractor agrees that such indemnification by Contractor relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any applicable statutes of limitations thereafter. Contractor's obligation to indemnify shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

13.2 Contractor shall obtain and carry, at all times during its performance under the Contract Documents, insurance of the types and in the amounts set forth in Exhibit C to the Agreement.

All insurance policies shall be from responsible companies duly authorized to do business in the State of Florida and/or responsible risk retention group insurance companies, which are registered with the State of Florida. All commercial insurance carriers providing the Contractor with required insurance shall be a minimum financial size category of VII according to the AM Best Rating Guide, latest edition. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Within ten (10) calendar days after Notice of Award is received by Contractor and prior to the commencement of work, Contractor shall provide County with properly executed Certificates of Insurance to evidence Contractor's compliance with the insurance requirements of the Contract Documents. Said Certificates of Insurance shall be on forms approved by County, such as "Acord Form 25". The Certificates of Insurance shall be personally, manually signed by the authorized representatives of the insurance company/companies shown on the Certificates of Insurance, with proof that they are authorized representatives thereof. Certificates of Insurance shall be mailed to Escambia County in care of: Purchasing Manager, Purchasing Division, P.O. Box 1591, Pensacola, Florida 32597-1591. In addition, certified, true and exact copies of all insurance policies required hereunder shall be provided to County, on a timely basis, when requested by County.

13.3 The Certificates of Insurance and required insurance policies shall contain provisions that thirty (30) days' prior written notice by registered or certified mail shall be given County of any cancellation, intent not to renew, or reduction in the policies or coverages, except in the application of the aggregate limits provisions. In the event of a reduction in the aggregate limit of any policy, Contractor shall immediately take steps to have the aggregate limit reinstated to the full extent permitted under such policy.

13.4 All insurance coverages of the Contractor shall be primary to any insurance or self-insurance program carried by the County applicable to this Project. The acceptance by County of any Certificate of Insurance does not constitute approval or agreement by the County that the insurance requirements have been satisfied or that the insurance policy shown on the Certificate of Insurance is in compliance with the requirements of the Contract Documents. No work shall commence at the Project site unless and until the required Certificates of Insurance are received by the County.

13.5 Contractor shall require each of its subcontractors to procure and maintain, until the completion of the subcontractor's work, insurance of the types and to the limits specified in **Exhibit C**, unless such insurance requirements for the subcontractor is expressly waived in writing by the County. All liability insurance policies, other than professional liability, worker's compensation and employer's liability policies, obtained by Contractor to meet the requirements of the Contract Documents shall name Escambia County as an additional insured and shall contain Severability of Interest provisions. Escambia County shall also be designated as certificate holder with the address of P. O. Box 1591, Pensacola, Florida 32597-1591. If any insurance provided pursuant to the Contract Documents expires prior to the completion of the Work, renewal Certificates of Insurance and, if requested by County, certified, true copies of the renewal policies shall be furnished by Contractor within thirty (30) days prior to the date of expiration.

13.6 All liability policies shall be underwritten on the "occurrence" basis, unless otherwise approved in writing by the County Division of Risk Management. "Claims made" policies, if approved by the Risk Manager, and subsequent insurance certificates shall provide a "retro-date" which shall include the effective date of the contract. "Claims-made" renewals or carrier and policy replacements shall reflect the original "retro-date."

13.7 Should at any time the Contractor not maintain the insurance coverages required herein, the County may terminate the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge the Contractor for such coverages purchased. The County shall be

under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the County to purchase such insurance coverages shall in no way be construed to be a waiver of any of its rights under the Contract Documents.

13.8 Contractor shall submit to County a copy of all accident reports arising out of any injuries to its employees or those of any firm or individual to whom it may have subcontracted a portion of the Work, or any personal injuries or property damages arising or alleged to have arisen on account of any work by Contractor under the Contract Documents.

13.9 Duty to Provide Legal Defense. Contractor shall pay for and provide a legal defense for the County, which shall include attorneys' fees and costs, both of which will be done only if and when requested by the County, for all liabilities, damages, losses, and costs as described in paragraph 13.1 above. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

Section 14. COMPLIANCE WITH LAWS

14.1 Contractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, regulations and requirements applicable to the Project, including but not limited to those dealing with taxation, worker's compensation, equal employment and safety. If Contractor observes that the Contract Documents are at variance therewith, it shall promptly notify County in writing. Compliance with the above laws shall include but is not limited to: (1) the Occupational Safety and Health Act, 29 CFR 1910 and 1926, respectively, General Industry Standards and Construction Industry Standards, including regulations regarding Trenching and Shoring; (2) the Florida Workers' Compensation Law, Chapter 440, Florida Statutes; (3) Rules 38F and 38I, Florida Administrative Code; and (4) Section 102, Standard Specifications for Road and Bridge Construction, Florida Department of Transportation.

14.2 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY): In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States, except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

Section 15. CLEANUP AND PROTECTIONS

15.1. Contractor agrees to keep the Project site clean at all times of debris, rubbish and waste materials arising out of the Work. At the completion of the Work, Contractor shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surface materials, and shall leave the Project site clean and ready for occupancy by County. Non-compliance with directives of this section may serve as a basis of rejection of Application for Payment.

15.2. Any existing surface or subsurface improvements, including, but not limited to, pavements, curbs, sidewalks, pipes, utilities, footings, structures, trees and shrubbery, not indicated in the Contract Documents to be removed or altered, shall be protected by Contractor from damage during the prosecution of the Work. Any such improvements so damaged shall be restored by Contractor to the condition equal to that existing at the time of Contractor's commencement of the Work.

Section 16. ASSIGNMENT

16.1. Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of County. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward County.

Section 17. PERMITS, LICENSES AND TAXES

17.1. Except as noted in paragraph 17.2 below, all permits and licenses necessary for the prosecution of the Work shall be procured and paid for by Contractor. All permits or fees, including but not limited to, all license fees, permit fees, impact fees or inspection fees payable by Contractor to County have been disclosed to Contractor in the bidding documents or other request for proposal at the time the Project was let for bid. If Contractor performs any Work without obtaining, or contrary to, such permits or licenses, Contractor shall bear all costs arising there from. Contractor shall pay all governmental charges and inspection fees necessary for the prosecution of the Work.

17.2. Permits required for the Work from FDOT, FDEP, the Army Corps of Engineers, and any archeological permitting agency will be paid for and obtained by the County.

17.3. Contractor shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

Section 18. TERMINATION FOR DEFAULT

18.1. Contractor shall be considered in material default of the Agreement and such default shall be considered cause for County to terminate the Agreement, in whole or in part, as further set forth in this Section, if Contractor: (1) fails to begin the Work under the Contract Documents within the time specified herein; or (2) fails to properly and timely perform the Work as directed by the County or as provided for in the approved Progress Schedule; or (3) performs the Work unsuitably or neglects or refuses to remove materials or to correct or replace such Work as may be rejected as unacceptable or unsuitable; or (4) discontinues the prosecution of the Work; or (5) fails to resume Work which has been suspended within a reasonable time after being notified to do so; or (6) becomes insolvent or is declared bankrupt, or commits any act of bankruptcy; or (7) allows any final judgment to stand against it unsatisfied for more than ten (10) days; or (8) makes an assignment for the benefit of creditors; or (9) fails to obey any applicable codes, laws,

ordinances, rules or regulations with respect to the Work; or (10) materially breaches any other provision of the Contract Documents.

18.2. County shall notify Contractor in writing of Contractor's default(s). If County determines that Contractor has not remedied and cured the default(s) within seven (7) calendar days following receipt by Contractor of said written notice, then County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties and without prejudice to any other right or remedy it may be entitled to hereunder or by law, may terminate Contractor's right to proceed under the Agreement, in whole or in part, and take possession of all or any portion of the Work and any materials, tools, equipment, and appliances of Contractor, take assignments of any of Contractor's subcontracts and purchase orders, and complete all or any portion of Contractor's Work by whatever means, method or agency which County, in its sole discretion, may choose.

18.3. If County deems any of the foregoing remedies necessary, Contractor agrees that is shall not be entitled to receive any further payments hereunder until after the Project is completed. All monies expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses (including attorneys' fees) or damages incurred by County incident to such completion, shall be deducted from the Contract Amount, and if such expenditures exceed the unpaid balance of the Contract Amount, Contractor agrees to pay promptly to County on demand the full amount of such excess, including costs of collection, attorney's fees (including appeals) and interest thereon at the maximum legal rate of interest until paid. If the unpaid balance of the Contract Amount exceeds all such costs, expenditures and damages incurred by the County to complete the Work, such excess shall be paid to the Contractor. The amount to be paid to the Contractor or County, as the case may be, and this obligation for payment shall survive termination of the Agreement.

18.4. The liability of Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained, and obligations assumed by County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or re-letting the Work, in settlement, discharge or compromise of any claims, demands, suits, and judgments pertaining to or arising out of the Work hereunder.

18.5. If, after notice of termination of Contractor's right to proceed pursuant to this Section, it is determined for any reason that Contractor was not in default, or that its default was excusable, or that County is not entitled to the remedies against Contractor provided herein, then Contractor's remedies against County shall be the same as and limited to those afforded Contractor below under Subsection 19.1, Termination for Convenience.

18.6. If the Contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Contractor in conjunction with this Agreement then the County may, without prejudice to any right or remedy and after giving the Contractor and his surety, if any, seven (7) days' written notice, during which period Contractor still fails to allow access, terminate the employment of the Contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Contractor, and may finish the project by whatever method it may deem expedient. In such case, the Contractor shall not be entitled to receive any further payment until the Project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Contractor (excluding monies owed the Contractor for subcontract work).

Section 19. TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

19.1. County shall have the right to terminate this Agreement without cause upon seven (7) calendar days written notice to Contractor. In the event of such termination for convenience, Contractor's recovery against County shall be limited to that portion of the Contract Amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred, but Contractor shall not be entitled to any other or further recovery against County, including, but not limited to, damages or any anticipated profit on portions of the Work not performed.

19.2. County shall have the right to suspend all or any portions of the Work upon giving Contractor two (2) calendar days' prior written notice of such suspension. If all or any portion of the Work is so suspended, Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the Contract Documents. In no event shall the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds three (3) months, the Contractor shall have the right to terminate the Agreement with respect to that portion of the Work which is subject to the ordered suspension.

Section 20. COMPLETION

20.1. Upon receipt of written notice, the County will ascertain whether the work or designated portions thereof are ready for the Engineer's substantial completion inspection. From the Engineer's list of incomplete or unsatisfactory items, a schedule for the County's review will be prepared for their completion indicating such completion dates. The County will issue a Certificate of Substantial Completion when the work on the punch list has been accomplished.

20.2. Upon receipt of written notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the County shall promptly make such inspection and, if it finds the work acceptable and fully performed under the Contract Documents, shall promptly issue a Certificate of Final Completion and Recommendation for Payment, stating that, on the basis of observations and inspections, the Work has been completed in accordance with the terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor is due and payable. The final payment shall not become due and payable until Contractor submits: (1) the Release and Affidavit in the form attached as **Exhibit D**, (2) consent of surety to final payment, (3) if required by County, other data establishing payment or satisfaction of all obligations, such as receipts, releases and waivers of liens, arising out of the Contract Documents, to the extent and in such form as may be designated by County, and (4) a published copy of the Notice of Completion as provided for in this section. County reserves the right to inspect the Work and make an independent determination as to the Work's acceptability. Unless and until the County is completely satisfied, the final payment shall not become due and payable.

20.3. After the Work is ready for final inspection and acceptance by the County, a legal advertisement must be published by the Contractor in a local newspaper of a general countywide circulation at least thirty (30) days before final payment shall be made. Example of such publication is as follows:

Legal Notice of Completion

Notice is hereby given that the undersigned Contractor has completed and has ready for acceptance by the Board of County Commissioners of Escambia County, Florida, the following construction project:

_____
(Project Name and Address)

_____
(Legal Name and Address - entity of the Contractor)

Subcontractors, material men, and other persons having payment claims against the Contractor relating to this project should govern themselves accordingly.

Section 21. WARRANTY

21.1. Contractor shall obtain and assign to County all express warranties given to Contractor or any subcontractors by any material men supplying materials, equipment or fixtures to be incorporated into the Project. Contractor warrants to County that any materials and equipment furnished under the Contract Documents shall be new unless otherwise specified, and that all Work shall be of good quality, free from all defects and in conformance with the Contract Documents. Contractor further warrants to County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents. If, within two (2) years after substantial completion and acceptance, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work, which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which County is entitled as a matter of law. The Performance Bond shall remain in full force and effect throughout the two (2) year Warranty Period.

Section 22. PROJECT LAYOUT AND CONTROL

22.1. Engineer will provide survey control, referencing beginning and ending stations, P.C.'s, P.T.'s and intermediate stations at 500 foot intervals. Staking is to be set along control line (base line or centerline of right-of-way, as indicated on plans) or at an offset determined by the Engineer. Bench Marks will be provided at intervals no greater than 1000 feet. The Engineer at the Contractor’s expense shall replace any of these points, which are disturbed or destroyed by the Contractor.

22.2. Contractor shall employ a competent Engineer or Land Surveyor licensed in the State of Florida familiar with construction control procedures to lay out all other parts of the work, and to establish all points, grades and levels necessary to locate the work. The Contractor shall be held responsible for all mistakes that may be caused by his incorrect layout and grade spotting work, or caused by the loss or disturbance of the Engineer's layout work.

22.3. Should the Contractor in the course of the work find that the points, grades, and levels which are shown upon the Drawings are not conformable to the physical conditions of the locality at the proposed work or structure, he shall immediately inform the Engineer of the discrepancy between the actual physical conditions of the locality of the proposed work, and the points, grades and levels which are shown on the Drawings. No claim shall be made by the Contractor against the Owner for compensation or damage by reasons for failure of the Engineer to represent upon said Drawings, points, grades and levels conformable to the actual physical conditions of the locality of the proposed work.

Section 23. TESTS AND INSPECTIONS

23.1. County, its respective representatives, agents and employees, and any governmental agencies with jurisdiction over the Project shall have access at all times to the Work, whether the Work is being performed on or off of the Project site, for their observation, inspection and testing. Contractor shall provide proper, safe conditions for such access. Contractor shall provide County with timely notice of readiness of the Work for all required inspections, tests or approvals.

23.2. If the Contract Documents or any codes, laws, ordinances, rules or regulations of any public authority having jurisdiction over the Project requires any portion of the Work to be specifically inspected, tested or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish County the required certificates of inspection, testing or approval. All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.

23.3. If any Work that is to be inspected, tested or approved is covered without written concurrence from the County, such work must, if requested by County, be uncovered for observation. Such uncovering shall be at Contractor's expense unless Contractor has given County timely notice of Contractor's intention to cover the same and County has not acted with reasonable promptness to respond to such notice. If any Work is covered contrary to written directions from County, such Work must, if requested by County, be uncovered for County's observation and be replaced at Contractor's sole expense.

23.4. Neither observations by the County nor inspections, tests or approvals by others shall relieve Contractor from Contractor's obligations to perform the Work in accordance with the Contract Documents.

23.5. Prior to payment for any Work for which testing is specified, Contractor shall provide the County a copy of reasonably acceptable test results relating to such work as required by the technical specifications of the solicitation.

Section 24. DEFECTIVE WORK

24.1. Work not conforming to the requirements of the Contract Documents shall be deemed defective Work. If required by County, Contractor shall, as directed, either correct all defective Work, whether or not fabricated, installed or completed, or, if the defective Work has been rejected by County, remove it from the site and replace it with acceptable Work. Contractor shall bear all direct, indirect and consequential costs of such correction or removal (including, but not limited to fees and charges of engineers, architects, attorneys and other professionals) made necessary thereby, and shall hold County harmless for same.

24.2. If the County considers it necessary or advisable that covered Work be observed by County or inspected or tested by others, Contractor, at County's request, shall uncover, expose or otherwise make available for observation, inspection or tests as County may require, that portion of the Work in question, furnishing all necessary labor, material and equipment. If it is found that such Work is defective, Contractor shall bear all direct, indirect and consequential costs of such uncovering, exposure, observation, inspection and testing and of satisfactory reconstruction (including, but not limited to, fees and charges of engineers, architects, attorneys and other professionals), and County shall be entitled to an appropriate decrease in the Contract Amount. If, however, such Work is not found to be defective, Contractor shall be allowed an increase in the Contract Amount and/or an extension of the Contract Time, directly attributable to such uncovering, exposure, observation, inspection, testing and reconstruction.

24.3. If any portion of the Work is defective, or Contractor fails to supply sufficient skilled workers with suitable materials or equipment, or fails to finish or perform the Work in such a way that the completed Work will conform to the Contract Documents, County may order Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of County to stop the Work shall not give rise to any duty on the part of County to exercise this right for the benefit of Contractor or any other party.

24.4. Should the County determine, at its sole opinion, it is in the County's best interest to accept defective Work, the County may do so. Contractor shall bear all direct, indirect and consequential costs attributable to the County's evaluation of and determination to accept defective Work. If such determination is rendered prior to final payment, a Change Order shall be executed evidencing such acceptance of such defective Work, incorporating the necessary revisions in the Contract Documents and reflecting an appropriate decrease in the Contract Amount. If the County accepts such defective Work after final payment, Contractor at the discretion of the County shall promptly pay County an appropriate amount to adequately compensate County for its acceptance of the defective Work or shall increase in the Work's warranty period beyond two (2) years.

24.5. If Contractor fails, within a reasonable time after the written notice from County, to correct defective Work or to remove and replace rejected defective Work as required by County, or if Contractor fails to perform the Work in accordance with the Contract Documents, or if Contractor fails to comply with any of the provisions of the Contract Documents, County may, after seven (7) days' written notice to Contractor, correct and remedy any such deficiency. To the extent necessary to complete corrective and remedial action, County may exclude Contractor from any or all of the Project site, take possession of all or any part of the Work, and suspend Contractor's services related thereto, take possessions of Contractor's tools, appliances, construction equipment and machinery at the Project site and incorporate in the Work all materials and equipment stored at the Project site or for which County has paid Contractor but which are stored elsewhere. Contractor shall allow County, and their respective representatives, agents, and employees such access to the Project site as may be necessary to enable County to exercise the rights and remedies under this Subsection. All direct, indirect and consequential costs of

County in exercising such rights and remedies shall be charged against Contractor, and a Change Order shall be issued, incorporating the necessary revisions to the Contract Documents, including an appropriate decrease to the Contract Amount. Such direct, indirect and consequential costs shall include, but not be limited to, fees and charges of engineers, architects, attorneys and other professionals, all court and arbitration costs and all costs of repair and replacement of work or others destroyed or damaged by correction, removal or replacement of Contractor's defective Work. Contractor shall not be allowed an extension of the Contract Time because of any delay in performance of the Work attributable to the exercise by County of County's rights and remedies hereunder.

Section 25. SUPERVISION AND SUPERINTENDENTS

25.1. Contractor shall supervise and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents. Contractor shall be responsible to see that the finished Work complies accurately with the Contract Documents. Contractor shall keep on the Work at all times during its progress a competent resident superintendent acceptable to the County, who shall not be replaced without prior written notice to County except under extraordinary circumstances. The resident superintendent shall possess Florida Department of Transportation approved training and certifications applicable to the Work, including but not limited to National Pollutant Discharge Elimination System (NPDES) Stormwater Management and Maintenance of Traffic Control Devices. The superintendent shall be Contractor's representative at the Project site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. County shall have the right to direct Contractor to remove and replace its Project superintendent, with or without cause.

Section 26. PROTECTION OF WORK

26.1. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor, or any one for whom Contractor is legally liable, is responsible for any loss or damage to the Work, or other work or materials of County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

26.2. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

Section 27. EMERGENCIES

27.1. In the event of an emergency affecting the safety or protection of persons or the Work or property at the Project site or adjacent thereto, Contractor, without special instruction or authorization from County is obligated to act to prevent threatened damage, injury or loss. Contractor shall give County written notice within forty-eight (48) hours after the occurrence of the emergency, if Contractor believes that any significant changes in the Work or variations from the Contract Document have been caused thereby. If the County determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order shall be issued to document the consequences of the changes or variations. If Contractor fails to provide the forty-eight (48) hour written notice noted above, the Contractor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time.

Section 28. USE OF PREMISES

28.1. Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and other lands and areas permitted by law, rights of way, permits and easements, and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. Contractor shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

28.2. Contractor shall provide and maintain in a neat, sanitary condition such accommodation for the use of his employees as may be necessary to comply with the regulations of the State Board of Health or other bodies having jurisdiction. He shall commit no public nuisance.

Section 29. SAFETY

29.1. The Contractor shall designate in writing the individual responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. The Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

29.1.1. All employees of the Work and other persons and/or organizations who may be affected thereby;

29.1.2. All the Work and materials and equipment to be incorporated therein, whether in storage on or off the Project site; and

29.1.3. Other property on Project site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities and any underground structures or improvements not designated for removal, relocation or replacement in the contract documents.

29.2. The Contractor shall comply with all applicable codes, laws, ordinances, rules and regulations of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. The Contractor shall erect and maintain all necessary safeguards for such safety and protection. The Contractor shall notify owners of adjacent property and of underground structures and improvements and utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation or replacement of their property. Contractor's duties and responsibilities for the safety and protection of the Work shall continue until such time as the Work is completed and final acceptance of same by County has occurred.

29.3 The Contractor shall designate a responsible representative at the Project site whose duty shall be the prevention of accidents. This person shall be Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.

29.4 The Contractor shall adhere at all times to the minimum safety guidelines for construction and renovation projects as set out in **Exhibit C** of this Agreement.

Section 30. PROJECT MEETINGS

Prior to the commencement of Work, the Contractor shall attend a pre-construction conference

with the County to discuss the Progress Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, the Contractor shall attend any and all meetings convened by the County with respect to the Project, when directed to do so by County. Contractor shall have its subcontractors and suppliers attend all such meetings (including the pre-construction conference) as may be directed by the County.

EXHIBIT B
PERFORMANCE AND PAYMENT BOND

BOND NO. _____

PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS: That

_____

_____

(Insert name, address, and phone number of contractor), as Principal, and

_____

_____

_____, (Insert full name, home office address and phone number of surety) as Surety, are held and firmly bound unto the Board of County Commissioners for Escambia County, Florida, 221 Palafox Place, Pensacola, Florida 32597-1591, (850) 595-4900, as Obligee in the sum of

_____

____ Dollars ($_____), for the payment whereof we bind ourselves, our heirs, executors, personal representatives, successors and assigns, jointly and severally, firmly by these present.

WHEREAS, Principal has entered into a contract dated as of the _____ day of_____, 20____, with Obligee for Contract No._____,_____

_____

_____

(Insert name of project, including legal description, street address of property and general description of improvement) in accordance with drawings and specifications, which contract is by reference made a part hereof, and is hereinafter referred to as the Contract.

THE CONDITION OF THIS BOND is that if Principal:

1. Performs the Contract at the times and in the manner prescribed in the Contract; and

2. Pays Obligee any and all losses, damages, costs and attorneys' fees that Obligee sustains because of any default by Principal under the Contract; and

3. Performs the guarantee of all work and materials furnished under the Contract applicable to the work and materials, then this bond is void; otherwise it remains in full force; and

4. Principal understands and agrees that this bond shall remain in full force and effect throughout the two (2) year warranty period after substantial completion of the work.

The Surety, for value received, hereby stipulates and agrees that no changes, extensions of time, alterations or additions to the terms of the Contract or other work to be performed hereunder, or the specifications referred to therein shall in anywise affect its obligation under this bond, and it does hereby waive notice of any such changes, extensions of time, alterations or additions to the terms of the Contract or to work or to the specifications.

This instrument shall be construed in all respects as a common law bond.

In no event will the Surety be liable in the aggregate to Obligee for more than the penalty sum of this Performance Bond, regardless of the number of suits that may be filed by Obligee.

IN WITNESS WHEREOF, the above parties have executed this instrument this _____ day of _____, 20____, the name and corporate seal of each corporate party being hereto affixed and these premises duly signed by its undersigned representative, pursuant to authority of its governing body.

_____

said Contract being made a part of this Bond by this reference.

NOW, THEREFORE, THE CONDITION OF THIS BOND IS THAT IF THE PRINCIPAL:

1. Performs the contract dated _____, _____, between Principal and County for construction of _____, the contract being made a part of this bond by reference, at the times and in the manner prescribed in the contract; and

2. Promptly makes payments to all claimants, as defined in Section 255.05(1), Florida Statutes, supplying Principal with labor, materials, or supplies, used directly or indirectly by Principal in the prosecution of the work provided for in the contract; and

3. Pays County all loses, damages, expenses, costs, and attorney's fees, including appellate proceedings, that the County sustains because of a default by Principal under the contract; and

4. Performs the guarantee of all work and materials furnished under the contract for the time specified in the contract, then this bond is void; otherwise it remains in full force.

Any action instituted by a claimant under this bond for payment must be in accordance with the

notice and time limitation provisions in Section 255.05(2), Florida Statutes.

BE IT FURTHER KNOWN:

1. Any changes in or under the Contract and compliance or noncompliance with any formalities connected with the said Contract or alterations which may be made in the terms of the said Contract, or in the work to be done under it, or the giving by the County of any extension of time for the performance of the said Contract, or any other forbearance on the part of the County or Principal to the other, shall not in any way release the Principal and the Surety, or either of them, their heirs, personal representatives, successors or assigns from liability hereunder, notice to the Surety of any such changes, alterations, extensions or forbearance being hereby waived.

2. Certain claimants seeking the protection of this Bond must timely comply with the strict requirements set forth in Section 255.05, Florida Statutes, and as otherwise provided by law.

3. As concerns payment for labor, materials and supplies, as affects certain claimants, no legal action shall be instituted against the Principal or Surety on this Bond after one (1) year from the performance of labor or the completion of delivery of the materials or supplies as is specifically mandated pursuant to Section 255.05, Florida Statutes.

THIS BOND DATED THE _____ DAY OF _____, 20____ (the date of issue by the Surety or by the Surety's agent and the date of such agents power-of-attorney).

EXHIBIT C
INSURANCE AND SAFETY

INSURANCE - BASIC COVERAGES REQUIRED

The Contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such on policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the Contract Documents, whether such services, work and operations be by the Contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The Contractor shall require, and shall be responsible for assuring throughout the time the Agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the Contractor. The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the Contractor's interests or liabilities, but are merely minimums.

Except for workers compensation and professional liability, the Contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The Contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The Contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The Contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the Contractor or any other insurance of the Contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations, which arise out of this agreement, contract or lease.

Workers Compensation Coverage
The Contractor shall purchase and maintain workers compensation insurance for all workers compensation obligations imposed by state law and with employers liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid

certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

General, Automobile And Excess Or Umbrella Liability Coverage

The Contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the Commercial General Liability and Business Auto policies of the Insurance Services Office.
Minimum limits of $1,000,000 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employers liability required in the Workers Compensation Coverage section) and the total amount of coverage required.

General Liability Coverage - Occurrence Form Required
Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The Contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

Business Auto Liability Coverage
Business Auto Liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

Excess or Umbrella Liability Coverage
Umbrella Liability insurance is preferred, but an Excess Liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

Evidence/Certificates of Insurance
Required insurance shall be documented in Certificates of Insurance. If and when required by the County, Certificates of Insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the Certificate of Insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverages(s) indicated on each Certificate of Insurance.

New Certificates of Insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the Contractor to provide the County with such renewal certificates may be

considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information.

1. Indicate that Escambia County is an additional insured on the general liability policy.
2. Include a reference to the project and the Office of Purchasing number.
3. Disclose any self-insured retentions in excess of $1,000.
4. Designate Escambia County as the certificate holder as follows:
   Escambia County
   Attention: Paul R. Nobles, Purchasing Manager
   Office of Purchasing
   P.O. Box 1591
   Pensacola, FL 32597-1591
   Fax (850) 595-4805
5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the Contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the Contractor shall furnish complete copies of the Contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For Commercial General Liability coverage the Contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

MINIMUM PROJECT SAFETY REQUIREMENTS

The following safety requirements represent the minimum condition, which shall be met by all Contractors and subcontractors performing work for Escambia County: Reported or observed violations of Federal and State laws and regulations, or County ordinances shall be brought to the attention of the County project manager and County's Department of Safety and Risk Services and shall be immediately corrected by the Contractor. Additionally, the County may order work to be stopped if conditions exist that present immediate danger to persons or property. The Contractor acknowledges that any such stoppage will not shift responsibility for any damages from the Contractor to the County. Failure to comply with required safety procedures shall result in the suspension of the Work of the Contractor until such time as his operations are brought into compliance. Items which are not corrected or that are disputed by the Contractor may be referred by the County's Department of Safety and Risk Services for inspection or interpretation. The Contractor shall take reasonable precautions for work place safety and shall provide reasonable protection to prevent damage, injury, or loss to employees on the work site and to other persons who may be affected by the Work.

(1) Prior to the commencement of the project, the Contractor and all subcontractors shall provide to the County a written copy of their respective safety and health plans for review as part of the pre-submittal bid package.

(2) The Contractor shall establish and maintain an access control system at the work site, including a daily sign-in log, for all visitors, including County and regulatory personnel. Prior to commencement of construction, the project manager may designate specific individuals for routine access so that their duties are not impeded. All visitors that are not pre-approved for admittance shall be escorted through the project by either a Contractor representative or by the project manager or designee.

(3) The Contractor shall provide all necessary safety equipment for County staff, employees, and visitors to enter the work site. This equipment may include hard hats, hearing protection, safety glasses, or any other safety items deemed necessary by the Contractor or required by State or Federal safety regulations.

(4) Construction vehicles on the work site shall always be operated in a safe manner. The Contractor shall take appropriate action to ensure the safety of County staff, visitors, and the general public while operating work vehicles at a "controlled" construction site. Where conditions warrant, or at the request of the County, temporary barriers shall also be established for these traffic areas.

(5) The Contractor shall prominently mark the work site and ensure its security. Site security shall include appropriate fencing, barricades, warning tape, covered walkways and warning signs. In no instance shall a work site be accessible, without obvious warning, to County staff, visitors, or the general public. At a minimum, the project site shall be posted with the appropriate trespass warning signs as specified in Section 810.09(2)(d), Florida Statutes: THIS AREA IS A DESIGNATED CONSTRUCTION SITE; ANYONE TRESPASSING ON THIS PROPERTY SHALL, UPON CONVICTION, BE GUILTY OF A FELONY; "A DANGER, CONSTRUCTION SITE. AUTHORIZED PERSONNEL ONLY," and other general safety warning signs, i.e., "HARD HAT AREA," as are deemed necessary by the Contractor and project manager.

(6) In the event barricading of a work site is not feasible, alternative measures may be used upon prior approval by the County safety Office. Alternative measures may include, but are not limited to, working during "off 'hours such as nights, weekends, or holidays, or the

providing of temporary accommodations for building occupants (to be prearranged, if necessary, at the discretion of the County).

(7) The Contractor shall ensure compliance with all fire safety codes at the work site, especially as to egress, during the construction phase of an occupied facility. In no instance, (except where impractical and with the prior approval of the County's Department of Safety and Risk Services and the appropriate life safety code inspector), shall the life safety code components of an occupied facility be reduced or otherwise compromised.

A set of these construction plans, with a signature of approval by the appropriate life safety code inspector, shall be kept at each construction site and available for routine inspection. The Contractor shall communicate with each subcontractor and County's Department of Safety and Risk Services as to scheduling of events that may pose hazards or inconveniences to building occupants. The Contractor shall also ensure that appropriate scheduling information is also conveyed to the project manager.

- When a project alters a building's fire protection compartment features, such as fire barriers, smoke barriers, or corridor walls, exits must provide free and unobstructed egress. Employees shall receive notice if any alternative exits have been designated. Buildings or areas under construction must maintain escape egress for construction workers at all times. These means of egress shall be inspected daily by the Contractor.

- When a project affects fire alarms, fire detection, or fire suppression systems, of a building that is occupied, the Contractor must ensure that such systems are not functionally impaired. Any temporary systems, which are installed, must be inspected and tested monthly by the Contractor. Employees must be notified when such temporary systems are in place.

- When any sources of ignition are present, such as welding torches, smoking by all persons shall be prohibited on any construction site and in any County facility.

(8) Noise, dust, and the use of chemical products may create inside health hazards at the work site to building occupants requiring that the Contractor to adhere to the following guidelines at a minimum:

(a) The Contractor shall initiate construction and engineering safety controls to minimize exposure of dusts, noise, and chemical odors to building occupants. These controls may involve the construction or use of temporary walls, plastic barriers, mechanical ventilation, elimination of make-up air returns from work areas, pressurizing occupied areas, or a combination of several methods. The Contractor shall coordinate all such engineering efforts with the project manager, and these control measures shall require prior approval by the County's Department of Safety and Risk Services. In cases where these efforts may not be feasible, alternative work schedules on evenings and weekends may be instituted as a part of this process.

(b) Material Safety Data Sheets (MSDS) shall be provided to the County's Department of Safety and Risk Services for all hazardous substances used on the project or

brought on the job site. These products include, but are not limited to, paints, solvents, roofing compounds, and cleaning compounds.

(c) Appropriate precautions shall be taken to prevent occupant exposure to hazardous respirable dusts, contaminants, and fumes from welding, cutting, or drilling of concrete and masonry, or the operation of internal combustion engines. The Contractor shall also determine whether respirable crystalline silica, which is a potential carcinogen contained in many building products, is present at the work site. Control of dusts from these types of products and operations shall be an essential safety requirement for the Contractor.

(d) The Contractor should be aware of other buildings adjacent to his work areas and shall be prepared to take necessary actions to prevent the spread of dusts and fumes to those facilities.

(9) The Contractor shall ensure that all emergency notifications, including those for fires and medical needs, shall be promptly made by dialing County 911 dispatchers. The Caller should state the exact location of the work site emergency, the nature of the emergency, and specifically indicate if medical or fire services are needed.

(10) The Contractor agrees and understands that all County construction/renovation sites shall be subject to periodic inspection by life safety code inspectors, Florida Department of Labor and Employment Security, Division of Safety, Occupational Safety and Health Administration, Florida Department of Environmental Protection, Environmental Protection Agency, and other Federal, State, or County regulatory agencies.

(11) The Contractor shall provide adequate refuse containers for the disposal of construction debris. Refuse shall not be allowed to accumulate on the project site grounds, and the Contractor shall ensure that these containers are subsequently emptied on a regular basis.

(12) Water runoff and soil erosion from the project site shall be controlled by the Contractor pursuant to the regulations of the Florida Department of Environmental Protection.

(13) Water-based paint and stain products shall be used by the Contractor in the place of solvent-based products where the application so permits. Use of organic solvent-based products shall be used only where absolutely necessary and with the prior approval of the project manager. Lead-containing paints shall not be normally used or specified for any application. If the use of lead-containing paint is essential for a specific application, prior written approval from the County's Department of Safety and Risk Services shall be obtained before their use.

(14) The use of any products containing toxic metals, especially those regulated by Resource Conservation and Recovery Act (RCRA), (i.e. lead, chromium, barium, silver, arsenic, cadmium, mercury, selenium), on the work site shall be avoided. Prior written approval for use of these metals shall be obtained by the Contractor from the County's Department of Safety and Risk Services.

(15) The use of any radioactive materials by the Contractor on project sites shall require pre-approval. Copies of appropriate certifications, licenses, testing, and inspection records shall be provided by the Contractor to the project manager and County's Department of Safety and Risk Services for review.

(16) The County contracts out the identification and abatement of asbestos containing building materials. Asbestos abatement can only be performed by state licensed asbestos abatement contractors. General contractors, therefore, shall not be authorized to remove or disturb any asbestos containing materials. Although efforts are made to identify or remove such asbestos containing materials prior to renovations, the possibility exists that asbestos materials may be encountered at a work site. If so, Contractors who encounter such materials shall immediately stop work and notify the project manager and the County's Department of Safety and Risk Services.

(17) The above-cited guidelines represent minimum expectations and actions, which shall be taken by Contractors while under contract for County construction and renovation projects. These guidelines are not all inclusive and will be revised as necessary. In the event these guidelines conflict with other contract documents, the most stringent application shall apply. Any questions or disputes should be brought to the immediate attention of the project manager and County's Department of Safety and Risk Services.

EXHIBIT D
RELEASE AND AFFIDAVIT

COUNTY OF ESCAMBIA
STATE OF FLORIDA

Before me, the undersigned authority, personally appeared _____, who after being duly sworn, deposes and says:

(1) In accordance with the Contract Documents and in consideration of $_____ paid, _____ ("Contractor") releases and waives for itself and its subcontractors, material men, successors and assigns, all claims demands, costs and expenses, whether in contract or in tort, against the Board of County Commissioners of Escambia County, Florida, ("County") relating in any way to the performance of the Agreement between Contractor and County dated _____, 20____, for the period from _____ to _____.

(2) Contractor certifies for itself and its subcontractors, material men, successors and assigns, that all charges for labor, materials, supplies, lands, licenses and other expenses for which County might be sued or for which a lien or a demand against any payment bond might be filed, have been fully satisfied and paid.

(3) Contractor agrees to indemnify, defend and save harmless County from all demands or suits, actions, claims of liens or other charges filed or asserted against the County arising out of the performance by Contractor of the Work covered by this Release and Affidavit.

(4) This Release and Affidavit is given in connection with Contractor's (monthly/final) Application for Payment No. _____.

EXHIBIT G
PAYMENT ADJUSTMENT - BITUMINOUS MATERIALS.

1. The bid unit price for Bituminous Material will be adjusted to reflect changes, both increases and decreases, in the Asphalt Index price of bituminous material from that in effect during the month in which bids were received for this contract. The Contractor will not be given the option to reject this cost adjustment of Bituminous Materials. This adjustment will be made in accordance with the following criteria:

1.1. Price adjustments will apply only to the price of bituminous material F. O. B. manufacturer's asphalt terminal and will not reflect variations in the cost of transportation from the terminal to the job site.

1.2. Price adjustments will be made for all bituminous material incorporated into asphalt pavement whether paid for under a separate bid item or under other items, which include the cost of bituminous material.

1.3. Price adjustments will not be made until the semi-final or final payment is made on the contract. The bid unit price for bituminous material will be used in preparing monthly progress payments.

1.4. No price adjustment reflecting any further increases in the cost of bituminous material will be made for any month after expiration of the allowable contract time, including any extensions that may be granted.

1.5. The adjusted unit price shall be calculated for the month during which the material was incorporated into the project in accordance with the following formula:

Pa ' PbX(Id-Ib) where:

Pa ' Adjusted unit price for Bituminous Material. (To be calculated separately for each month during which bituminous material is used and will reflect an increased or decreased price.)

Pb ' Bid unit price for Bituminous Material.

Id ' Asphalt Price Index during the month in which the material is incorporated into the project.

Ib ' Asphalt Price Index during the month in which bids were received for this contract.

1.6. The County will determine the Asphalt Price Index for each month. The Index shall be determined by averaging quotations in effect on the first day of the month at all terminals, which could reasonably be expected to furnish bituminous material to projects in the State of Florida.

1.7. A price adjustment will be made only when the current Asphalt Price Index varies by 5% or more from the Index that was applicable when bids were received or 5% or more from when the last previous adjustment was made.

The Asphalt Price Index to be used by the County will be that used by the Florida Department of Transportation, as available from them after the 15th of each month.

ESCAMBIA COUNTY
FLORIDA

213 Palafox Place
Pensacola, FL 32502
Telephone: 850-595-4918
E-Mail: PRNobles@myescambia.com

SPECIAL ACCOMMODATIONS:
Any person requiring special accommodations to attend or participate, pursuant to the Americans with Disabilities Act, should call the Office of Purchasing (850-595-4980) at least five (5) working days prior to the solicitation opening.

Notice

It is the specific legislative intent of the Board of County Commissioners that NO CONTRACT under this solicitation shall be formed between Escambia County and the awardee Vendor until such time as the contract is executed by the last party to the transaction.

NOTICE

In accordance with Sec. 46-110(e) of the Escambia Code of Ordinances, all bid solicitation documents shall include the following notice to Vendors of the local Vendor preference policy:

Sec. 46-110.-Local Preference in Bidding

a) Legislative Intent:

The Escambia County Board of County Commissioners finds that local businesses are often at a disadvantage when competing with other non-local businesses in that the cost of doing business in Escambia County is higher than other areas of the state and giving local businesses a preference in the procurement of goods and services serves a compelling public purpose for the benefit of the taxpayer and residents of Escambia County as such preference encourages local industry, employment opportunities, and increases the County's overall tax base.

b) "Local Business" Defined:

For the purposes of this section, "Local Business" shall mean a business which meets all of the following criteria:

1. Has had a fixed office or distribution point located in and having a street address within Escambia County of Santa Rosa County for at least one (1) year immediately prior to the issuance of the request for competitive bids by the County. The fixed office or distribution point must be staffed by at least one (1) employee. Post Office boxes are not verifiable and shall not be used for the purpose of establishing a physical address, and

2. Holds any business license required by Escambia County or Santa Rosa County, and

3. Is the principal Offeror who is a single Offeror; a business which is the prime Contractor and not a Sub-Contractor, or a partner, or joint venture submitting an offer in conjunction with other businesses.

c) Certification:

Any Vendor claiming to be a local business as defined above shall so certify in writing to the Escambia County Office of Purchasing. The certification shall provide all necessary information to meet the requirements provided herein. The purchasing agent shall not be required to verify the accuracy of any such certification and shall have the sole discretion to determine if a Vendor meets the definition of a "Local Business."

d) Preference in Purchase of Commodities and Services by Means of Competitive Bid:

Except where federal or state law, or any other funding source, mandates to the contrary, Escambia County may give preference to local businesses in the following manner:

Competitive Bid (Local Price Match Option): Each formal competitive bid solicitation (i.e. sealed bids) shall clearly identify how the price order of the bids received will be evaluated and determined.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.99, and the bid submitted by one or more qualified and responsive local businesses is within **five percent (5%)** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $50,000.00 and $249,999.99, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **Community Redevelopment Area (CRA)** is within **seven percent (7%)** of the price submitted by the non-local business, then the local business located in a designated CRA with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualifies and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.99, and the bid submitted by one or more qualified and responsive local businesses is within **three percent (3%)** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount between $250,000.00 and $999,999.99, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **five percent (5%)** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses is within **two percent (2%)** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

When a qualified and responsive, non-local business submits the lowest price bid amount in excess of $1,000,000.00, and the bid submitted by one or more qualified and responsive local businesses with a fixed office or distribution point located in a designated **CRA** is within **four percent (4%)** of the price submitted by the non-local business, then the local business with the apparent lowest bid offer (i.e., the lowest local bidder) shall have the opportunity to submit an offer to match the price(s) offered by the overall lowest, qualified and responsive non-local bidder.

In such instances, staff shall first verify whether the lowest non-local bidder and the lowest local bidder are in fact qualified and responsive bidders. Next, the purchasing department shall invite the lowest local bidder in writing to submit a matching offer which shall be submitted in writing to the Escambia County Office of Purchasing within five (5) business days thereafter.

If the lowest local bidder does not respond or otherwise submits a written offer that does not

fully match the lowest bid from the lowest non-local bidder tendered previously then award shall be made to the lowest overall qualified and responsive non-local bidder.

In the event a local bidder is awarded a contract pursuant to this section, any requests for change orders increasing the cost of the project must be approved by the Escambia County Board of County Commissioners.

e) Notice:

All bid solicitation documents shall include notice to Vendors of the local preference policy.

f) Waiver of the Application of Local Preference:

The application of local preference to a particular purchase or contract for which the Board of County Commissioners is the awarding authority may be waived upon approval of the Board of County Commissioners.

g) Limitations:

1. The provisions of this section shall apply only to procurements which are above the formal bid threshold as set forth in the Escambia County Purchasing Code.

2. The provisions of this section shall not apply where prohibited by federal or Florida law, or where prohibited under the conditions of any grant.

3. The provisions of this section shall not apply to any purchase exempted from the provisions of the Escambia County Purchasing Code.

4. The provisions of this section shall not apply to contracts made under the Consultants Competitive Negotiation Act (CCNA), F.S. § 287.055.

h) Penalties:

1. Misrepresentation:

A Vendor who misrepresents the local preference status of its firm in a bid or proposal submitted to the County will lose the privilege to claim local preference status for a period of up to one (1) year from the date of the award of the contract or upon completion of the contract, whichever is greater.

2. Failure to Maintain Local Business Preference Qualifications:

Any Vendor that does not maintain its local preference status resulted in the awarded contract shall be in breach of contract and will be subject to termination of the contract, suspension of payments under the contract, and loss of the local preference status on the contract awarded.

3. Lack of Good Faith:

The Contractor or firm may show that it attempted through reasonable and objective means and in good faith to comply with the terms of the contract relating to local businesses but was unable to comply. If the County determines that the Contractor or firm did not act in good faith, all amounts paid to the Contractor or firm under the

County contract intended for expenditure with the local business shall be forfeited and recoverable by the County. In addition, the contract may be rescinded, and the County may return all or a portion of the goods received and recover all amounts paid under the contract for the goods which were returned.

Effective July 1, 2015, the County **may not** use a local preference for a "competitive solicitation for **construction services** in which **fifty percent (50%) or more** of the cost will be paid from state appropriated funds which have been appropriated at the time of the competitive solicitation." For any such solicitation, the County must disclose in the bid package that "any applicable local ordinance or regulation does not include any local preference…" See §255.0991, Florida Statutes.

ESCAMBIA COUNTY, FLORIDA
INVITATION TO BID
BIDDER'S CHECKLIST
Muscogee Road Resurfacing Jacks Branch to Nowak
SPECIFICATION PD 19-20.042

HOW TO SUBMIT YOUR BID:
Please review this document carefully. Offers that are accepted by the County are binding contracts. **Incomplete bids are not acceptable.** All documents and submittals shall be received by the Office of Purchasing on or before the date and hour specified for receipt. Late bids will be returned unopened.

* *Documents submitted with Bids are to be on the forms provided in the Invitation to Bid and photocopies of other required documents.*

THE FOLLOWING DOCUMENTS SHALL BE RETURNED WITH THE BID:
- Solicitation, Offer, and Bid Form. The Bid Form must contain an original signature in indelible ink. Bids with photocopies or scanned signatures will not be accepted.
- Bid Surety (bond, check, etc.)

THE FOLLOWING DOCUMENTS SHOULD BE RETURNED WITH THE BID:
- Sworn Statement Pursuant to Section 287.133(3)(A), Florida Statutes on Entity Crimes.
- Drug-Free Workplace Form.
- Information Sheet for Transactions and Conveyances Corporate Identification.
- Certificate of Authority to do Business from the State of Florida.
- Occupational License.
- Florida Department of Business and Professional Regulation – License(s), Certification(s), and/or Registration(s).

BEFORE YOU SUBMIT YOUR BID, HAVE YOU:
Placed your bid with all required submittal items in a sealed envelope, clearly marked for specification number, project name, name of bidder, and due date and time of bid receipt?

THE FOLLOWING DOCUMENTS ARE REQUIRED UPON NOTICE OF AWARD:
- Certificate of Insurance
- Payment and Performance Bonds

HOW TO SUBMIT A NO BID:
If you do not wish to bid at this time, please remove the Solicitation, Offer, and Bid Form from the Bid Package and enter No Bid in the "Reason for No Offer" block, your company's name, address, signature, and return the Solicitation, Offer, and Bid Form in a sealed envelope. This will ensure your company's active status in our Bidder's list.

This form is for your convenience to assist in filling out your bid.
Do not return this form with your bid.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to _____
(Print Name of Public Entity)

By _____
(Print Individual's Name and Title)

For _____
(Print Name of Entity Submitting Sworn Statement)

Whose business address is:

_____

_____

And (if applicable) its Federal Employer Identification Number (FEIN) is:

_____

If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding thirty-six (36) months shall be considered an affiliate.

c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **Indicate which statement applies.**

_____ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with a convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that is not in the public interest to place the entity submitting this sworn statement on the convicted Vendor list. **(Attach a copy of the final order.)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY INDENTIFIED IN PARAGRAPH ONE (1) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

Drug-Free Workplace Form

The undersigned Vendor, in accordance with Florida Statue 287.087 hereby certifies that _____ does:

(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business' policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in Paragraph One (1).

4. In the statement specified in Paragraph One (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or please of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of Paragraphs 1 through 5.

SPECIAL TERMS AND CONDITIONS

The Board of County Commissioners, Escambia County, Florida, invites your company to submit a sealed offer on the item(s) as listed in this solicitation request.

All terms and conditions below are a part of this request, and no offer will be accepted unless all these conditions have been complied with. The County reserves the right to waive informalities in any offer; to reject any or all offers, in whole or in part, and/or to accept the offer(s) that in its judgement is from the lowest, most responsible, and responsive Offeror(s).

Instructions to Offerors

1. General Information

All offers to be considered shall be in the possession of the Office of Purchasing prior to the time of the solicitation closing. Offers may be mailed or delivered to the Office of Purchasing, 2nd Floor, Room 11.101, Matt Langley Bell, III Bldg., 213 Palafox Place, Pensacola, FL 32502, in a sealed envelope clearly marked:

Specification Number PD 19-20.042, "Muscogee Road Resurfacing Jacks Branch to Nowak", Name of Submitting Firm, Time and Date due.
Note: If you are using a courier service (FedEx, Airborne, UPS, etc.) you must mark the air-bill and envelope or box with the Specification number and project name.

Regardless of the method of delivery, each Offeror shall be responsible for his offer(s) being delivered on time as the County assumes no responsibility for same. Offers offered or received after the time set for solicitation closing will be rejected and returned unopened to the Offeror(s).

The Following Policy will apply to all methods of source selection:

A. Conduct of Participants

After the issuance of any solicitation, all bidders/proposers/protestors or individuals acting on their behalf are hereby prohibited from **lobbying** as defined herein or otherwise attempting to persuade or influence any elected County officials, their agents or employees or any member of the relevant selection committee at any time during the **blackout period** as defined herein; provided, however, nothing herein shall prohibit bidders/proposers/protestors or individuals acting on their behalf from communicating with the purchasing staff concerning a pending solicitation unless otherwise provided for in the solicitation or unless otherwise directed by the Purchasing Manager.

B. Definitions

Blackout Period means the period between the time the «BidProposal»s for invitations for bid or the request for proposal, or qualifications, or information, or requests for letters of interest, or the invitation to negotiate, as applicable, are received at the Escambia County Office of Purchasing and the time the Board awards the contract and any resulting bid protest is resolved or the solicitation is otherwise cancelled.

Lobbying means the attempt to influence the thinking of elected County officials, their agents or employees or any member of the relevant Selection Committee for or against a specific cause related to a pending solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication.

C. <u>Sanctions</u>

The Board may impose any one or more of the following sanctions on a non-employee for violations of the policy set forth herein:

1) Rejection/Disqualification of Submittal,

2) Termination of Contract; or

3) Suspension or Debarment as Provided in Sec. 46-102 of the Escambia County Code of Ordinances.

This policy is not intended to alter the procedure for Protested Solicitations and Awards as set forth in the Sec. 46-101 of the Escambia County Code of Ordinances.

2. Scope of Work

This project consists of roadway resurfacing improvements along Muscogee Rd. beginning at Jacks Branch Rd (CR97N) and ending at Nowak Rd. (1.15 miles). This project will consist of the 2" milling of the existing asphalt, the installation of 2.5" County Spec Type SP 12.5 Asphalt Structure Course and 2" of FDOT SP 12.5 76-22 wearing course, temporary striping after each day of production and thermoplastic striping once the paving has been completed. Right of way restoration with appropriate fill material, grading (To allow water to sheet flow of asphalt), sodding, erosion and sediment control, and all other incidental work is included in this project.
Fifty percent (50%) of milling will be retained by the Escambia County Road Department. This work shall be coordinated by the contractor and Escambia County will provide the required trucks to obtain the 50% of milling
International Paper receives approximately 300 log trucks per day, all of which come through this section from Alabama. Due to the number of trips and their loaded weight, a detour is not possible. Therefore, traffic shall remain open during the duration of this project.

Related Documents:
All roadway improvements shall comply with the Escambia County Technical Specifications, latest edition, and all interim standards that apply.
Any reference to FDOT Standard Specifications for Road and Bridge Construction, latest edition, Division 1, General Requirements and Covenants, shall be excluded and not applicable to any specification referred herein or otherwise listed in these documents or in the Escambia County Technical Specifications.

Licenses/Certifications:
Underground Utilities License
Work Zone Safety Traffic Supervisor Certifications
Certified Stormwater Management Inspector

3. Bid Surety

Each offer shall be accompanied by a bid bond, cashier's check or certified check in the amount of **5%** of the total offer.

Checks or bonds are to be made payable to Escambia County, Florida. The amount of the bond or check is the amount of liquidated damages agreed upon should the Offeror fail or refuse to enter into a contract with the County.

A County warrant in the amount of the bid check(s) of the successful Offeror(s) will be returned immediately after the Offeror and the County are mutually bound by contract as evidenced by signatures thereto by an authorized representative of both the Offeror and the County, and/or the Offeror accepts the purchase order by signing the Solicitation, Offer and Bid Form/acceptance copy of same and returning to the County Purchasing department. Any unsuccessful Offeror(s) will have the amounts of his cashier's or certified check returned via County warrant promptly after award.

All Offerors agree that any interest earned on any bid surety while in possession of the County, or its agents, shall be retained by the County.

4. Bonds

Performance and Payment Bonds
The County **shall** require the successful Offeror(s) to furnish **separate performance and payment bonds** under pledge of adequate surety and covering up to **100% of the dollar value of award** on the forms provided by the County. Such bonds shall be issued by sureties authorized to act as a surety by the State of Florida. Bonds of the successful Offeror(s) shall be reviewed by the Office of Purchasing to assure compliance, then recorded in the Office of the Clerk of the Circuit Court Recording Office, 1st Floor, 221 Palafox Place, Pensacola, Florida, by the successful Offeror at his expense before the contract is executed. The cost of recording is $10.00 for the first page and $8.50 for each additional page.

5. Procurement Questions

Questions shall be directed to Paul Nobles, Purchasing Manager, at prnobles@myescambia.com. Last day for questions will be March 30, 2020 at 5:00 p.m. CDT.

6. Bid Forms

This Solicitation contains a Solicitation, Offer, and Bid Form which shall be submitted in a sealed envelope, in duplicate with Original signatures in indelible ink signed in the proper spaces. Responses on Vendor forms will not be accepted.

The Offeror's Checklist included in this Solicitation provides instructions to the Offeror on the documentation to be submitted during the procurement process.

7. Pre-Solicitation Conference

A non-mandatory Pre-Solicitation Conference will be held at the Escambia County Office of Purchasing, 213 Palafox Place, Pensacola, FL 32502 in Conference Room #11.407 on March 24, 2020 at 1:00 PM CDT.

8. Liquidated Damages

Should the awarded Vendor fail to complete the required services or make delivery of the commodities or equipment within the time(s) specified in the contract, or within such additional time(s) as may be granted by Escambia County, the County will suffer damage, the amount of which is difficult, if not impossible to ascertain therefore, the Vendor shall pay to the County, as liquidated damages, the sum of **$1000** for each calendar day of delay that actual completion extends beyond the time limit specified until such reasonable time as may be required for final completion of the work. Such sum is mutually agreed upon as a reasonable and proper amount of damages the County will sustain per diem by failure of the Vendor to complete the services or make delivery within the specified time. The costs for liquidated damages shall not be construed as a penalty on the Vendor.

9. Safety Regulations

Equipment shall meet all state and federal safety regulations for grounding of electrical equipment.

10. Codes and Regulations

The awarded Vendor shall strictly comply with all federal, state and local building and safety codes.

11. Payment

Partial payments in the full amount for the value of items received and accepted may be requested by the submission of a properly executed **original** invoice, with supporting documents if required. Payment for accepted equipment/supplies/services will be accomplished by submission of an **original** invoice, in duplicate, to:

Clerk of the Circuit Court
Attention: Accounts Payable
221 Palafox Place
Pensacola, FL 32502

12. Warranty

The awarded Vendor shall fully warrant all equipment furnished hereunder against defect in materials and/or workmanship for a period of two (2) years from date of delivery/acceptance by Escambia County.

Should any defect in materials or workmanship, except ordinary wear and tear, appear during the above stated warranty period, the awarded Vendor shall repair or replace same at no cost to the County, immediately upon written notice from the Purchasing Chief.

13. Debris

Awarded Vendor shall be responsible for the prompt removal of all debris, which is a result of this contractual service.

14. Protection of Property/Security

The awarded Vendor shall provide all barricades and take all necessary precautions to protect buildings and personnel.

All work shall be completed in every respect and accomplished in a professional manner and awarded Vendor shall provide for removal of all debris from County property.

The awarded Vendor shall at all times guard against damage or loss to property of Escambia County, or of other Vendors or contractors, and shall be held responsible for replacing or repairing any such loss or damage.

The County may withhold payment or make such deductions as deemed necessary to insure reimbursement or replacement for loss or damage to property through negligence of the awarded Offeror or his agent.

The awarded Vendor shall at all times guard against injury to Escambia County employees. The Vendor shall properly fence and secure the construction site(s) at all times, including evenings and weekends.

The awarded Vendor must, at all times, comply with State of Florida and Occupational Safety and Health Administration (OSHA) safety regulations.

15. Permits

The County and/or its contracted consultant(s) have conducted a review of required permits and fees required to be purchased by the contractor from the County permitting agencies for this specific project and they are listed on the «BidProposal» form(s) to the best of our knowledge.

16. Term of Offer

An offer shall constitute an irrevocable offer for a period of ninety (90) days from the solicitation opening date or until the date of award, whichever is earlier, without forfeiting bid bond or check. In the event that an award is not made by the County within ninety (90) days from the solicitation opening date, the Offeror may withdraw his offer or provide a written extension of his offer.

17. Award

Award shall be made on an "all-or-none total" basis.

The offeror or contractor will be required to fully comply with all applicable federal, state, and local regulations. The offeror should carefully review these requirements which are detailed in this solicitation.

18. Termination

The purchase order or contract will be subject to immediate termination if either product or service does not comply with specifications as stated herein or fails to meet the County's performance standards. In the event that any of the provisions of the contract are violated by awarded Vendor, Escambia County may serve written notice upon the awarded Vendor of its intention to terminate the contract. Such notice is to state the reason(s) for such intention to terminate contract. The liability of the Vendor for any and all such violation(s) shall not be affected by any such termination and his surety, if any, shall be forfeited.

19. Termination (Services)

The Contract Administrator shall notify the Office of Purchasing of unsatisfactory performance and/or deficiencies in service that remain unresolved or recurring. The Office of Purchasing shall notify the contractor, in writing, of such unresolved or recurring

deficiencies within five (5) working days of notification by the Contract Administrator.

Upon the third such written notification of unsatisfactory performance and/or deficiencies to the contractor by the Office of Purchasing within a four (4) month period; or the sixth such notification within any contract term, shall result in issuance of written notice of immediate contract termination to the contractor by the Office of Purchasing. Such termination may also result in suspension or debarment of the contractor.

20. Termination (Public Records Request)

If the contractor refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the contractor in conjunction with this agreement then the County may, without prejudice to any right or remedy and after giving the contractor and his surety, if any, seven (7) days written notice,

during which period contractor still fails to allow access, terminate the employment of the contractor and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the contractor, and may finish the project by whatever method it may deem expedient. In such case, the contractor shall not be entitled to receive any further payment until the project is finished. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the contractor (excluding monies owed the contractor for subcontract work.)

21. As Specified

All items delivered shall meet the specifications herein. Items delivered not as specified will be returned at no expense by Escambia County. The County may return, for full credit, any unused items received which fail to meet the County's performance standards.

Non-Contract Insurance Requirements

22. Standard Insurance Requirements and Certificates

This offer contains an extensive insurance requirement. Offerors are encouraged to review these requirements with their insurance agents before submitting offers.

It is not necessary to have this level of insurance in effect at the time of submitting the offer.

A letter from the Offeror's insurance carrier will be required as evidence that the Offeror will be able to obtain the levels of insurance as required by the contract and indicated on the Sample Certificate of Insurance should your firm be awarded the contract.

A. County Insurance Required

The contractor shall procure and maintain the following described insurance, except for coverages specifically waived by the County. Such policies shall be from insurers with a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Such policies shall provide coverages for any or all claims which may arise out of, or result from, the services, work and operations carried out pursuant to and under the requirements of the contract documents, whether such services, work and operations be by the contractor, its employees, or by subcontractor(s), or anyone employed by or under the supervision of any of them, or for whose acts any of them may be legally liable.

The contractor shall require and shall be responsible for assuring throughout the time the agreement is in effect, that any and all of its subcontractors obtain and maintain until the completion of that subcontractor's work, such of the insurance coverages described herein as are required by law to be provided on behalf of their employees and others.

The required insurance shall be obtained and written for not less than the limits of liability specified hereinafter, or as required by law, whichever is greater.

These insurance requirements shall not limit the liability of the contractor.

The County does not represent these types or amounts of insurance to be sufficient or adequate to protect the contractor's interests or liabilities but are merely minimums.

Except for worker's compensation and professional liability, the contractor's insurance policies shall be endorsed to name Escambia County as an additional insured to the extent of its interests arising from this agreement, contract or lease.

The contractor waives its right of recovery against the County, to the extent permitted by its insurance policies.

The contractor's deductibles/self-insured retentions shall be disclosed to the County and may be disapproved by the County. They shall be reduced or eliminated at the option of the County. The contractor is responsible for the amount of any deductible or self-insured retention.

Insurance required of the contractor or any other insurance of the contractor shall be considered primary, and insurance of the County, if any, shall be considered excess, as may be applicable to claims obligations which arise out of this agreement, contract or lease.

B. <u>Workers Compensation Coverage</u>

The contractor shall purchase and maintain worker's compensation insurance for all worker's compensation obligations imposed by state law and with employer's liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease, or a valid certificate of exemption issued by the state of Florida, or an affidavit in accordance with the provisions of Florida Workers Compensation law.

Contractor shall also purchase any other coverages required by law for the benefit of employees.

C. <u>General, Automobile and Excess or Umbrella Liability Coverage</u>

The contractor shall purchase and maintain coverage on forms no more restrictive than the latest editions of the commercial general liability and business auto policies of the insurance services office.

Minimum limits of $1,000,000.00 per occurrence for all liability must be provided, with excess or umbrella insurance making up the difference, if any, between the policy limits of underlying policies (including employer's liability required in the worker's compensation coverage section) and the total amount of coverage required.

D. **General Liability Coverage - Occurrence Form Required**

Coverage A shall include bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, contractual liability covering this agreement, contract or lease, broad form property damage coverages, and property damage resulting from explosion, collapse or underground (x,c,u) exposures.

Coverage B shall include personal injury.

Coverage C, medical payments, is not required.

The contractor is required to continue to purchase products and completed operations coverage, at least to satisfy this agreement, contract or lease, for a minimum of three years beyond the County's acceptance of renovation or construction projects.

E. **Business Auto Liability Coverage**

Business auto liability coverage is to include bodily injury and property damage arising out of ownership, maintenance or use of any auto, including owned, non-owned and hired automobiles and employee non-ownership use.

The General Liability and Business Auto Liability policies shall be endorsed to include Escambia County as an additional insured and provide for 30-day notification of cancellation.

F. **Excess or Umbrella Liability Coverage** (If utilized to achieve required policy limits)

Umbrella liability insurance is preferred, but an excess liability equivalent may be allowed. Whichever type of coverage is provided, it shall not be more restrictive than the underlying insurance policy coverages. Umbrella coverage shall drop down to provide coverage where the underlying limits are exhausted.

G. **Evidence/Certificates of Insurance**

Required insurance shall be documented in certificates of insurance. If and when required by the County, certificates of insurance shall be accompanied by documentation that is acceptable to the County establishing that the insurance agent and/or agency issuing the certificate of insurance has been duly authorized, in writing, to do so by and on behalf of each insurance company underwriting the insurance coverage(s) indicated on each certificate of insurance.

New certificates of insurance are to be provided to the County at least 30 days prior to coverage renewals. Failure of the contractor to provide the County with such renewal certificates may be considered justification for the County to terminate this agreement, contract or lease.

Certificates should contain the following additional information:

1. Indicate that Escambia County is an additional insured on the general liability and business auto liability policies.

2. Include a reference to the project and the Office of Purchasing number.

3. Disclose any self-insured retentions in excess of $1,000.

4. Designate Escambia County as the certificate holder as follows:

   Escambia County
   Attention: Paul Nobles, Purchasing Manager
   Office of Purchasing, Room 11.101
   213 S. Palafox Place, 2nd Floor
   Pensacola, FL 32502
   Fax (850) 595-4806

5. Indicate that the County shall be notified at least 30 days in advance of cancellation.

Receipt of certificates or other documentation of insurance or policies or copies of policies by the County, or by any of its representatives, which indicate less coverage than required does not constitute a waiver of the contractor's obligation to fulfill the insurance requirements herein.

If requested by the County, the contractor shall furnish complete copies of the contractor's insurance policies, forms and endorsements, and/or such additional information with respect to its insurance as may be requested.

For commercial general liability coverage, the contractor shall, at the option of the County, provide an indication of the amount of claims payments or reserves chargeable to the aggregate amount of liability coverage.

23. Indemnification

Contractor agrees to save harmless, indemnify, and defend County and Architect/Engineer and their agents, officers and employees from any and all claims, losses, penalties, interest, demands, judgments, and costs of suit, including attorneys' fees and paralegals' fees, for any expense, damage or liability incurred by any of them, whether for personal injury, death, property damage, direct or consequential damages, or economic loss, including environmental impairment, arising directly or indirectly on account of or in connection with the Work done by Contractor under this Agreement or by any person, firm or corporation to whom any portion of the Work is subcontracted by Contractor or resulting from the use by Contractor, or by any one for whom Contractor is legally liable, of any materials, tools, machinery or other property of County. County and Contractor agree the first $100.00 of the Contract Amount paid by County to Contractor shall be given as separate consideration for this indemnification, and any other indemnification of County by Contractor provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Contractor by Contractor's acceptance and execution of the Agreement. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance. The Contractor agrees to pay on behalf of Escambia County, as well as provide a legal defense for the County, both of which will be done only if and when requested by the County, for all claims made. Such payment on the behalf of the County shall be in addition to any and all other legal remedies available to the County and shall not be considered to be the County's exclusive remedy.

POWER OF ATTORNEY APPOINTING INDIVIDUAL ATTORNEY-IN-FACT

Know All Men By These Presents, That WESTERN SURETY COMPANY, a South Dakota corporation, is a duly organized and existing corporation having its principal office in the City of Sioux Falls, and State of South Dakota, and that it does by virtue of the signature and seal herein affixed hereby make, constitute and appoint

Robert Corley McLendon , Individually

of Pensacola, FL its true and lawful Attorney(s)-in-Fact with full power and authority hereby conferred to sign, seal and execute for and on its behalf bonds, undertakings and other obligatory instruments of similar nature

- In Unlimited Amounts -

Surety Bond No.: Bid Bond
Principal: Roads, Inc. of NWF
Obligee: Escambia County, FL Board of County Commissioners

and to bind it thereby as fully and to the same extent as if such instruments were signed by a duly authorized officer of the corporation and all the acts of said Attorney, pursuant to the authority hereby given, are hereby ratified and confirmed.

This Power of Attorney is made and executed pursuant to and by authority of the By-Law printed on the reverse hereof, duly adopted, as indicated, by the shareholders of the corporation.

In Witness Whereof, WESTERN SURETY COMPANY has caused these presents to be signed by its Vice President and its corporate seal to be hereto affixed on this 27th day of February, 2018.

WESTERN SURETY COMPANY

Paul T. Bruflat, Vice President

State of South Dakota
County of Minnehaha } ss

On this 27th day of February, 2018, before me personally came Paul T. Bruflat, to me known, who, being by me duly sworn, did depose and say: that he resides in the City of Sioux Falls, State of South Dakota; that he is the Vice President of WESTERN SURETY COMPANY described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to the said instrument is such corporate seal; that it was so affixed pursuant to authority given by the Board of Directors of said corporation and that he signed his name thereto pursuant to like authority, and acknowledges same to be the act and deed of said corporation.

My commission expires
June 23, 2021

Authorizing By-Law

ADOPTED BY THE SHAREHOLDERS OF WESTERN SURETY COMPANY

This Power of Attorney is made and executed pursuant to and by authority of the following By-Law duly adopted by the shareholders of the Company.

Section 7. All bonds, policies, undertakings, Powers of Attorney, or other obligations of the corporation shall be executed in the corporate name of the Company by the President, Secretary, and Assistant Secretary, Treasurer, or any Vice President, or by such other officers as the Board of Directors may authorize. The President, any Vice President, Secretary, any Assistant Secretary, or the Treasurer may appoint Attorneys in Fact or agents who shall have authority to issue bonds, policies, or undertakings in the name of the Company. The corporate seal is not necessary for the validity of any bonds, policies, undertakings, Powers of Attorney or other obligations of the corporation. The signature of any such officer and the corporate seal may be printed by facsimile.

SWORN STATEMENT PURSUANT TO SECTION 287.133(3)(A), FLORIDA STATUTES, ON ENTITY CRIMES

1. This sworn statement is submitted to Escambia County, Florida - Board of County Commissioners
(Print Name of Public Entity)

By Cody Rawson, President
(Print Individual's Name and Title)

For Roads, Inc. of NWF
(Print Name of Entity Submitting Sworn Statement)

Whose business address is:

106 Stone Boulevard

Cantonment,FL 32533

And (if applicable) its Federal Employer Identification Number (FEIN) is:
59-3598732

If the entity has no FEIN, include the Social Security Number of the Individual signing this sworn statement: _____

2. I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), **Florida Statutes**, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

3. I understand that "convicted" or "conviction" as defined in paragraph 287.133(1)(b), **Florida Statutes**, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

4. I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), **Florida Statutes**, means:

    a. A predecessor or successor of a person convicted of a public entity crime; or

    b. An entity under the control any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding thirty-six (36) months shall be considered an affiliate.

c. I understand that a "person" as defined in Paragraph 287.133(1)(e), **Florida Statutes**, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

d. Based on information and belief, the statement which I have marked below is true in relation to the entity submitting this sworn statement. **Indicate which statement applies.**

__X__ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

_____ The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with a convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida, Division of Administrative Hearings and the Final Order entered by the Hearing Officer determined that is not in the public interest to place the entity submitting this sworn statement on the convicted Vendor list. **(Attach a copy of the final order.)**

I UNDERSTAND THAT THE SUBMISSION OF THIS FORM TO THE CONTRACTING OFFICER FOR THE PUBLIC ENTITY INDENTIFIED IN PARAGRAPH ONE (1) ABOVE IS FOR THAT PUBLIC ENTITY ONLY AND, THAT THIS FORM IS VALID THROUGH DECEMBER 31 OF THE CALENDAR YEAR IN WHICH IT IS FILED. I ALSO UNDERSTAND THAT I AM REQUIRED TO INFORM THE PUBLIC ENTITY PRIOR TO ENTERING INTO A CONTRACT IN EXCESS OF THE THRESHOLD AMOUNT PROVIDED IN SECTION 287.017, FLORIDA STATUTES FOR CATEGORY TWO OF ANY CHANGE IN THE INFORMATION CONTAINED IN THIS FORM.

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☑ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
106 Stone Blvd.

Requester's name and address (optional)

6 City, state, and ZIP code
Cantonment, FL 32533

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
			–			–				

or

Employer identification number
5	9	–	3	5	9	8	7	3	2

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ _____ Date ▶ 1-13-2020

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

ROADS, INC. OF NWF
106 STONE BLVD.
CANTONMENT, FLORIDA 32533

RE: CERTIFICATE OF QUALIFICATION

Dear Sir/Madam:

The Department of Transportation has qualified your company for the type of work indicated below. Unless your company is notified otherwise, this Certificate of Qualification will expire 6/30/2020. However, the new application is due **4/30/2020**.

In accordance with S.337.14 (1) F.S. your next application must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If your company's maximum capacity has been revised, you can access it by logging into the Contractor Prequalification Application System via the following link: HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification/

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

FDOT APPROVED WORK CLASSES:
DEBRIS REMOVAL (EMERGENCY), DRAINAGE, FLEXIBLE PAVING, GRADING, GRASSING, SEEDING AND SODDING, HOT PLANT-MIXED BITUM. COURSES, MINOR BRIDGES, SIDEWALK

You may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing your most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that your company has done such work with your own forces and equipment or that experience was gained with another contractor and that you have the necessary equipment for each additional class of work requested.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

Alan Autry, Manager
Contracts Administration Office

AA:cj

State of Florida
Department of State

I certify from the records of this office that ROADS, INC. OF NWF is a corporation organized under the laws of the State of Florida, filed on September 23, 1999.

The document number of this corporation is P99000085237.

I further certify that said corporation has paid all fees due this office through December 31, 2020, that its most recent annual report/uniform business report was filed on February 24, 2020, and that its status is active.

I further certify that said corporation has not filed Articles of Dissolution.

Given under my hand and the Great Seal of the State of Florida at Tallahassee, the Capital, this the Twenty-fourth day of February, 2020

Secretary of State

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17820 **County Administrator's Report 12. 50.**
BCC Regular Meeting **Budget & Finance Consent**
Meeting Date: 05/07/2020
Issue: Contract Award, PD 02-03.79, Professional Services as Governed by Florida Statute 287.055
From: PAUL NOBLES, Purchasing Manager
Organization: Asst County Administrator
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Professional Services as Governed by Florida Statute 287.055 - Paul Nobles, Office of Purchasing, Purchasing Manager

That the Board take the following action concerning PD 02-03.79, Professional Services as Governed by Florida Statute 287.055:

A. Award and Authorize the County Administrator to sign Task Order Based Continuing Contract to L&W Engineering, Inc., d/b/a Inovia Consulting Group, civil engineering, based on the "Current Averages for Audited Overhead, Expense and Facilities Capital Cost of Money (FCCM) Rates" as provided in the current Florida Department of Transportation (FDOT) Negotiation Handbook Guidelines for Professional Services Contracts; and

B. Authorize the Department(s), in conjunction with the Office of Purchasing, to negotiate Task Orders, according to Florida Statute 287.055, "Consultants Competitive Negotiation Act" (A&E Services) on a project-by-project basis.

[Funding: Funds to be budgeted for on an annual and project basis]

BACKGROUND:

The legal advertisement for this "Request for Letters of Interest" (RLI) was originally advertised in the Pensacola News Journal on Sunday, August 24, 2003, in compliance with Professional Services as Governed by Florida Statute F.S. 287.055. Due to the ongoing open nature of this solicitation, responses are accepted continually. This Contract has been approved for usage by the Gulf Coast Purchasing Cooperative.

L&W Engineering, Inc., d/b/a Inovia Consulting Group, submitted all necessary documents on April 2, 2020.

BUDGETARY IMPACT:

Funds to be budgeted for on an annual and project basis.

LEGAL CONSIDERATIONS/SIGN-OFF:

Attorney Standard Form of Contract Form F, Consulting Services

PERSONNEL:

N/A

POLICY/REQUIREMENT FOR BOARD ACTION:

This Recommendation is in compliance with the Code of Ordinances of Escambia County, FL 1999, Chapter 46, Finance, Article II, Purchases and Contracts and Florida Statute 287.055, Competitive Consultants Negotiation Act.

IMPLEMENTATION/COORDINATION:

Upon receipt of post award compliance documentation and Agreement signature, the Office of Purchasing shall notify the Department(s). The Office of Purchasing shall work with Department(s) in negotiation of Task Orders.

AGREEMENT

This is an Agreement between Escambia County, a political subdivision of the State of Florida, by and through its Board of County Commissioners, its successors and assigns, with its administrative offices located at 221 Palafox Place, Pensacola, Florida 32502-1590, (hereinafter referred to as "County,") and L&W Engineering, Inc., d/b/a Inovia Consulting Group, a for-profit corporation, authorized to do business in the State of Florida, its successors and assigns, whose federal identification number is 59-3580739, and whose business address is, 25 W. Cedar Street, Suite 350, Pensacola, FL 32502, (hereinafter referred to as "Consultant").

WITNESSETH:

NOW, THEREFORE, in consideration of the mutual terms and conditions, promises, covenants and payments hereinafter set forth, the County and the Consultant agree as follows:

ARTICLE 1
DEFINITIONS AND IDENTIFICATIONS

For the purposes of this Agreement and the various covenants, conditions, terms and provisions which follow, the definitions and identifications set forth below are assumed to be true and correct and are therefore agreed upon by the parties.

1.1 BOARD OF COUNTY COMMISSIONERS:

The Board of County Commissioners is the governing body of Escambia County, Florida.

1.2 CONSULTANT:

L&W Engineering, Inc., d/b/a Inovia Consulting Group is the Consultant selected to perform professional services pursuant to this Agreement.

1.3 CONTRACT ADMINISTRATOR:

Whenever the term Contract Administrator is used herein, it is intended to mean Paul R. Nobles, Purchasing Manager, Escambia County Office of Purchasing. In the administration of this Agreement, as contrasted with matters of policy, all parties may rely upon instructions or determinations made by the Contract Administrator.

1.4 COUNTY:

Escambia County, Florida is a body corporate and politic and a political subdivision of the State of Florida.

1.5 NOTICE TO PROCEED:

The Notice to Proceed is the written authorization as defined in Section 1.10 issued by the County or the Contract Administrator to commence the project.

1.6 PROJECT:

The project is the task, as defined in Section 1.10, assigned to the Consultant pursuant to this Agreement.

1.7 PROJECT MANAGER:

The project manager shall mean the staff person within the County who is assigned by the Contract Administrator to oversee the task order work.

1.8 SCOPE OF SERVICES:

The intent of this Agreement is to make available certain design, engineering, surveying, and inspection services for Escambia County as requested and as outlined herein.

1.9 SCOPE OF WORK:

The scope of work is the specific information relating to those certain services provided to the Consultant on an individual project task order including, but not limited to: project description with boundaries, intent of project, anticipated services required, and expected deliverables.

1.10 TASK ORDER:

The task order is a formal written assignment of work, based upon negotiation, which is issued to the Consultant pursuant to this Agreement.

ARTICLE 2
PREAMBLE

In order to establish the background, context and frame of reference for this Agreement and to generally express the objectives and intentions of the respective parties herein, the following statements, representations, and explanations shall be accepted as predicates for the undertakings and commitments included within the provisions which follow and that may be relied upon by the parties as essential elements of the mutual considerations upon which this Agreement is based.

2.1 Negotiations pertaining to hourly rates for professional services to be performed by the Consultant were undertaken between the Consultant and a committee selected by the Board of County Commissioners, and this Agreement incorporates the results of such negotiations.

2.2 The Board of County Commissioners has met the requirements of Section 287.055, Florida Statutes, as amended, the Consultants' Competitive Negotiation Act, and has selected L&W Engineering, Inc., d/b/a Inovia Consulting Group, to perform such services hereunder.

2.3 Escambia County will budget funds for each task order issued under the Agreement.

ARTICLE 3
SCOPE OF SERVICES

3.1 The Consultant will provide Professional Services as Governed by Florida Statute 287.055 as hereinafter described in this Article 3 for tasks outlined in Escambia County's RFP Specification No. P.D. 02-03.79. In the event of a conflict between the terms of the RFP and this Agreement, the terms of this Agreement shall prevail.

3.2 The basic professional services to be provided are as set forth in Exhibit "A," attached hereto and incorporated by reference herein, and unless otherwise specifically excluded from any particular task order, these services shall comport with County guidelines for construction and retrofitting of projects, and local ordinances, State, and Federal laws and regulations.

ARTICLE 4
ORDERING OF THE WORK

4.1 The Consultant is one of several firms selected to perform professional services on same or similar terms pursuant to this Agreement. The County expressly reserves the exclusive right to assign specific task orders to the firm it deems best suited for the type of work to be accomplished. This Agreement does not guarantee any amount or type of task orders to be assigned to the Consultant.

4.2 The scope of work, provided by the County, will constitute the basis for negotiation of each task order. When requested by the County, the Consultant will provide a proposal to the County to perform the services requested under this scope of work. The County and the Consultant will enter negotiations to determine a fair and reasonable number of hours, by discipline, for such requested services pursuant to Section 3.2.

4.3 In the event a mutually agreeable number of hours is reached, the County will issue a task order which describes the services to be provided by the Consultant and the amount of compensation to be provided by the County. In the event a mutually agreeable number of hours cannot be reached, the Consultant will be requested to provide a best and final offer to the County. If this best and final offer is not acceptable to the County, negotiations will cease with the Consultant, and the County will open negotiations for the same scope of work with another firm.

ARTICLE 5
TIME FOR PERFORMANCE

5.1 As a part of its task order proposal, the Consultant shall submit to the County a schedule for completion of the scope of work. Pursuant to Article 4 above, this schedule is a negotiable item during task order negotiations.

5.2 Prior to beginning the performance of any basic professional services under this Agreement, the Consultant must receive a written Notice to Proceed from the County. For those task orders where a mutual agreement of a fair and reasonable price has been reached, a copy of the fully executed task order will serve as the Consultant’s written approval to begin the performance of the Consultant’s services. Prior to granting approval for the Consultant to proceed to a subsequent phase of a task order, the Contract Administrator may at his or her sole discretion require the Consultant to submit such documents and drawings as may be reasonably necessary for review and approval by the County.

ARTICLE 6
COMPENSATION AND METHOD OF PAYMENT

6.1 COMPENSATION:

(a) The County agrees to pay the Consultant as compensation for its services under Section 3.1 of this Agreement a fee to be computed as described below and based upon the schedule set forth in Exhibit B, attached hereto and made a part hereof. Individual task orders submitted to the Consultant will be paid through a budget line item recommended by the staff individual of user department and approved by the Board of County Commissioners. For each such task order, the consultant will be compensated by a lump sum fee as negotiated, unless otherwise mutually agreed to by the parties hereto.

(b) The term "salary costs" as used herein shall mean the hourly rate as shown on Exhibit B, attached hereto and made a part hereof, including but not limited to, principals, engineers, surveyors, draftsmen, clerks, plus costs for sick leave, vacation, unemployment, excise and payroll taxes, contributions for social security, employment compensation insurance, retirement benefits, and medical and insurance benefits. Said salary costs shall be only for time directly chargeable to a task order under this Agreement. A detailed breakdown for these costs shall be kept current and readily accessible to the County.

6.2 ANNUAL APPROPRIATION:

Pursuant to the requirements of Florida law and Article II of Chapter 46, Escambia County Code of Ordinances, the County's performance and obligation to fund this Agreement shall be contingent upon an annual appropriation by the Escambia County Board of County Commissioners.

6.3 DIRECT EXPENSES:

(a) Direct expenses directly attributable to a task order will be borne by the Consultant and will include, but not be limited to, the following:

1. Transportation expenses in connection with any task order.

2. Living expenses in connection with travel inside and outside of Escambia County and other related expenses.

3. Long distance communications and other miscellaneous communications expenses.

4. Cost of printing drawings and specifications which are required by or of the Consultant to deliver services set forth in this Agreement.

5. Cost of any software or hardware used or developed for any task order.

(b) Direct expenses to be borne by the Consultant shall not include project permit fees or compensation owed to subcontractors engaged according to Section 10.5 of this Agreement.

6.4 METHOD OF BILLING AND PAYMENT:

(a) The Consultant shall submit monthly estimates (payment requisitions) for the amount and value of the work accomplished and services performed by the Consultant which meet standards of quality established under this Agreement. The estimates shall be prepared by the Consultant and shall be accompanied by any supporting data required by the County. Where the monthly estimate includes work done by a subcontractor, the Consultant shall attach copies of that subcontractor's invoice for such work. The Consultant agrees no markup for overhead and profit on subcontractor's invoices shall be allowed on any project task order.

(b) For lump sum contracts, the Consultant may submit bills at the completion and approval of each phase or for partial completion of each phase on a pro-rata basis. However, requests for payment shall not be made more frequently than once a month.

(c) Upon approval of the estimate by the County, payment upon properly executed payment requisitions shall be made to the Consultant within forty five (45) days.

(d) Payments under this Agreement and interest on any late payments shall be governed by the Florida Prompt Payment Act, §§ 218.70, et seq., Florida Statutes, as amended.

6.5

Payment requisitions will be sent to:	Notices will be sent to:
To Be Determined Per Task Order	County Administrator Escambia County Administrator 221 Palafox Place Pensacola, Florida 32502-1590 (850) 595-4900 (850) 595-4908

6.6 Payments and notices will be made to the Consultant at:

Russell Large, Principal
L&W Engineering, Inc., d/b/a Inovia Consulting Group
2015 Centre Pointe Blvd., Ste. 103
Tallahassee, FL 32308

(a) Any notice required hereunder or desired by the party giving such notice shall be given in writing and delivered by hand or through the instrumentality of certified mail of the United States Postal Service or other private courier service, such as Federal Express.

(b) Unless otherwise notified in writing of a new address, notices, payments, and invoices shall be made to each party at the listed addresses. Rejection, or other refusal by the addressee to accept, or the inability of the courier service, or the United States Postal Service to deliver because of a changed address of which no notice was given, shall be deemed to be receipt of the notice sent. Any party shall have the right, from time to time, to change the address to which notices shall be sent by giving the other party at least ten (10) days prior notice of the address change.

ARTICLE 7
ADDITIONAL SERVICES AND CHANGES IN SCOPE OF SERVICES

7.1 The County or the Consultant may request changes that would increase, decrease, or otherwise modify the Scope of Services provided under this Agreement. Such changes must be in accordance with the procurement policies of Escambia County and must be contained in a written amendment, executed by the parties thereto, with the same formality and of equal dignity prior to any deviation from the terms of this Agreement, including the initiation of any extra work.

7.2 The County or the Consultant may request changes that would increase, decrease, or otherwise modify the Scope of Work of individual project task orders. Such changes must be negotiated and mutually agreed upon by both parties. This mutual agreement will be formalized by a written change order to the task order issued by the County to the Consultant.

7.3 The County shall have authority to order extensions in the Consultant's schedule for completion of the Scope of Work of individual project task orders by providing written notice to the Consultant.

ARTICLE 8
COUNTY'S RESPONSIBILITIES

8.1 The County shall assist the Consultant by placing at its disposal all available information pertinent to the project including previous reports and any other data relative to design or construction of the project.

8.2 The County shall make available to the Consultant, as required for performance of the Consultant's basic services, data prepared by or services of others, including without limitation (as may be appropriate) core borings, probings, and subsurface explorations, hydraulic surveys, laboratory tests and inspections of samples, materials and equipment; appropriate professional interpretations of all of the foregoing; environmental assessment and impact statements; property boundary, easement, rights-of-way, topographic and utility surveys; property descriptions; zoning, deed and other land use restriction; and other special data or consultations.

8.3 The County shall arrange for access to and make all provisions for the Consultant to enter upon public and private property as required for the Consultant to perform its services.

8.4 The County shall examine, within a reasonable time so as not to delay the services of the Consultant, all studies, reports, sketches, drawings, specifications, proposals and other documents presented by the Consultant, obtain advice of an attorney, insurance counselor and other consultants, as the County deems appropriate, for such examination and the rendering of written opinions or decisions pertaining thereto.

8.5 The County will assist in obtaining approvals and permits from all governmental authorities having jurisdiction over the project and such approvals and consents from others as may be necessary for completion of the task order by the Consultant.

8.6 The County shall give prompt written notice to the Consultant whenever the County observes or otherwise becomes aware of any development that affects the scope of timing of the Consultant's services, or any defect in the work of the Consultant.

8.7 The County will perform an evaluation of the services provided by the Consultant at the completion of work of each task order. This evaluation will consider the timeliness as well as the quality of services provided during that task order for the purpose of determining whether additional task orders will be awarded to the Consultant by the County.

ARTICLE 9
CONSULTANT'S RESPONSIBILITIES

9.1 QUALITY OF SERVICES:

(a) The Consultant shall be responsible for the professional quality, technical accuracy, and the coordination of all designs, drawings, specifications, and other services furnished pursuant to this Agreement.

(b) To that end, the Consultant shall correct or shall revise, without additional compensation, any errors or deficiencies in its work product or shall make such revisions as are necessary as the result of the failure of the Consultant to provide an accurate, more efficient, and properly constructable product in its designs, drawings, specifications, or other services.

(c) Neither the County's review of, approval of, or acceptance of, nor payment for, the services required by this Agreement shall be construed to operate as a waiver of any rights or of any cause of action arising out of the performance of this Agreement. Additionally, the Consultant shall be and remain liable to the County in accordance with applicable law for all damages to the County caused by the Consultant's negligent performance of any of the services furnished under this Agreement.

(d) The rights and remedies of the County provided for under this Agreement are in addition to any other rights and remedies otherwise provided by law.

9.2 CONSULTANT PROFESSIONAL REGISTRATION AND CERTIFICATION:

(a) The design services provided to the County by the Consultant shall be certified by professional engineers registered to practice and in good standing in the State of Florida. Any project inspection services also shall be reviewed and shall be approved by such professional engineers.

(b) The survey services provided to the County by the Consultant shall be certified by professional land surveyors registered to practice and in good standing in the State of Florida.

(c) Permit applications to State and Federal agencies prepared by the Consultant shall be signed and shall be sealed by the Consultant, as the project's Engineer of Record. For all such permit applications, post-construction certification also shall be made by the Consultant to the appropriate State or Federal permitting agency.

ARTICLE 10
GENERAL CONDITIONS

10.1 OWNERSHIP OF DOCUMENTS

(a) Drawings, specifications, designs, models, photographs, reports, surveys, calculations, and other data provided in connection with this Agreement are and shall remain the property of the County whether the project for which they are made is executed or not. Such finished or unfinished documents, data, calculations, studies, surveys, specifications, drawings, maps, models, photographs and reports prepared by the Consultant shall be delivered by the Consultant to the County at the conclusion of the project or the termination of the Consultant's services.

(b) When such documents are provided to other parties, the Consultant shall ensure return of the County's property by collecting a deposit equal to the cost of reproduction. Such deposit shall be returned if the documents are timely returned in a useable condition. Otherwise, such deposit shall be retained by the Consultant.

10.2 SUSPENSION OR TERMINATION OF WORK:

(a) The County, in writing, may order the Consultant to suspend, delay, or interrupt all or any part of the work of a task order for the period of time that the County determines to be appropriate for the convenience of the County. The Consultant expressly acknowledges and agrees that it shall receive no damages for delays. The Consultant's sole remedy, if any, against the County will be the right to seek an extension to the contract time as provided for the completion of the project.

(b) This Agreement may be terminated by either party for cause, or by the County for convenience, upon fourteen (14) days written notice by the terminating party to the other party of such termination in which event the Consultant shall be paid its compensation for services performed to termination date, including all reimbursable expenses then due or incurred to the date of termination.

(c) Termination of the Consultant for cause shall include, but not be limited to, misuse of funds, fraud, lack of compliance with applicable rules, laws, regulations, and ordinances, and failure to perform in a timely manner any provision of this Agreement.

(d) In no event shall a termination for convenience by the County be deemed a default, and any such termination shall not subject the County to any penalty or other claim for damages. If the Consultant abandons this Agreement or causes it to be terminated, the Consultant shall indemnify the County against any loss pertaining to this termination up to a maximum of 1.3 times the full contracted fee amount of the project.

(e) Vendor suspension or debarment proceedings brought by the County pursuant to Article II of Chapter 46, Escambia County Code of Ordinances, shall be grounds for immediate termination of this Agreement.

10.3 RECORDS:

(a) The Consultant shall keep such records and accounts and shall require any subcontractors to keep records and accounts as may be necessary in order to record

complete and correct entries as to personnel hours charged to this engagement and any expenses for which the Consultant expects to be reimbursed. Such books and records will be available at all reasonable times for examination and audit by the County, and shall be kept for a period of three (3) years after the completion of all work to be performed pursuant to this Agreement. Incomplete or incorrect entries in such books and records will be grounds for disallowance by the County of any fees or expenses based upon such entries.

(b) The Consultant acknowledges that this Agreement and any related financial records, audits, reports, plans, correspondence, and other documents may be subject to disclosure to members of the public pursuant to Chapter 119, Florida Statutes, as amended. The Consultant shall maintain all such public records and, upon request, provide a copy of the requested records or allow the records to be inspected within a reasonable time. The Consultant shall also ensure that any public records that are exempt or exempt and confidential from disclosure are not disclosed except as authorized by law. Upon the expiration or termination of the Agreement, Consultant agrees to maintain all public records for a minimum period of five (5) fiscal years in accordance with the applicable records retention schedules established by the Florida Department of State. In the event the Consultant fails to abide by the provisions of Chapter 119, Florida Statutes, the County may, without prejudice to any right or remedy and after giving the Consultant and its surety, if any, seven (7) days written notice, during which period the Consultant still fails to allow access to such documents, terminate the employment of the Consultant. In such case, the Consultant shall not be entitled to receive any further payment. Reasonable terminal expenses incurred by the County may be deducted from any payments left owing the Consultant (excluding monies owed the Consultant for subcontractor work).

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

Escambia County
Office of the County Administrator
221 Palafox Place, Suite 420
Pensacola, Florida 32502
(850) 595-4947

10.4 NO CONTINGENT FEES:

The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this provision, the County shall have the right to terminate the Agreement without liability and at its discretion, to deduct from the contract price,

or otherwise recover, the full amount of such fee, commission, percentage, gift or consideration.

10.5 SUBCONTRACTORS

In the event the Consultant, during the course of the work under this Agreement, requires the services of any subcontractors or other professional associates in connection with services covered by this Agreement, the Consultant must secure the prior written approval of the County unless such work is specifically detailed in the task order.

Any subcontractors or other professional associates retained by Consultant must carry the appropriate insurance coverage as specified in paragraph 10.8 below in an amount equal to or greater than the coverage carried by the Consultant.

10.6 ASSIGNMENT:

This Agreement, or any interest herein, shall not be assigned, transferred or otherwise encumbered, under any circumstances, by the Consultant, without the prior written consent of the County. However, the Agreement shall run with the Escambia County Government and its successors.

10.7 HOLD HARMLESS AND INDEMNIFICATION OF COUNTY

The Consultant agrees to hold harmless and indemnify the County and its agents, officers, and employees from all liabilities, damages, losses, and costs, including attorneys' fees and paralegals' fees, incurred by County to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Consultant or by any person, firm, or corporation to whom any portion of the performance of this Agreement is subcontracted to or used by the Consultant, or by any other person for whom the Consultant is legally liable. Consultant's obligation as provided herein shall be limited to its proportionate share of liability to the extent caused by the negligence, recklessness or intentional wrongful misconduct of Consultant or by any person, firm or corporation to whom any portion of the Work is subcontracted by Consultant, and Consultant shall not be required to indemnify and hold harmless County where County's negligence, recklessness, or intentional wrongful misconduct is determined by a court of competent jurisdiction to be the sole cause of its liabilities, damages, losses and costs, including attorney's and paralegal fees.

County and Consultant agree one percent (1%) of the Contract Amount paid by County to Consultant shall be given as separate consideration for this indemnification, and any other indemnification of County by Consultant provided for within the Contract Documents, the sufficiency of such separate consideration being acknowledged by Consultant by Consultant's acceptance and execution of the Agreement.

Consultant agrees that such indemnification by the Consultant relating to any matter which is the subject of this Agreement shall extend throughout the term of this Agreement and any statutes of limitations thereafter. The Consultant's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

10.8 INSURANCE:

The Consultant is required to carry the following insurance:

(a) Commercial General Liability with $1,000,000 minimum per occurrence, including coverage parts of bodily injury, property damage, broad form property damage, personal injury, independent contractors, blanket contractual liability, and completed operations.

(b) Automobile Liability with $1,000,000 per occurrence minimum combined single limits for all hired, owned, and non-owned vehicles.

(c) Professional Liability coverage with $1,000,000 minimum limit, except where the estimated construction contract price for the project described in the Agreement is greater than $5 Million dollars, the minimum limit of professional liability coverage shall be equal to 25% of the estimated construction contract price for the project. Said coverage shall be continuously maintained and in effect for a period of not less than **five (5) years** from the effective date of this Agreement. The policy limit of liability shall not include legal fees and other defense costs. If a claims made form of coverage is provided, the retroactive date of coverage shall be no later than the effective date of this Agreement and shall not be advanced.

If at any time during the aforementioned policy period there should be a cancellation, non-renewal, or lapse in coverage, professional liability coverage shall be extended for the remainder of the five year period with a supplemental extended reporting period (SERP) endorsement to take effect upon expiration of the policy period referenced above. The limits of liability applicable to the SERP coverage shall be equal to the limits of liability applicable to the policy referenced above and to which the endorsement attaches.

(d) Florida statutory workers' compensation and employers' liability with employer's liability limits of at least $100,000 each accident and $100,000 each employee/$500,000 policy limit for disease.

(e) It is understood and agreed by the parties that in the event that the Consultant, as defined in Section 1.2, consists of a joint venture, partnership, or other association of professional or business firms, each such firm shall be required to individually carry the above cited coverages.

(f) All liability coverage shall be through carriers admitted to do business in the State of Florida. Carriers shall be a minimum financial size of VII according to the latest edition of the AM Best Rating Guide. An A or better Best Rating is "preferred"; however, other ratings if "Secure Best Ratings" may be considered. Liability policies shall be underwritten on the occurrence basis, except the professional and environmental impairment coverage may be provided on a claims made basis. Escambia County and the Board of County Commissioners shall be "additional insureds" on all liability policies (except professional liability). Certificates of insurance shall be provided to Paul Nobles, Purchasing Manager, P.O. Box 1591, Pensacola, Florida 32597-1591 prior to commencement of work hereunder. Certificates shall reflect the additional insured status of Escambia County and shall provide for a minimum of thirty (30) days notice of cancellation. Escambia County and the Board of County Commissioners also shall be the certificate holders.

10.9 CLAIMS AND DISPUTES:

(a) A claim is a demand or assertion by one of the parties to this Agreement seeking an adjustment or interpretation of the terms of the contract documents, payment of money, extension of time or other relief with respect to the terms of the contract documents. The term "claim" also includes other disputes and matters in question between the County and the Consultant arising out of or relating to the contract documents. The responsibility to substantiate a claim shall rest with the party making the claim.

(b) Claims by the Consultant shall be made in writing to the County with supporting data. All claims shall be submitted during the performance term of the Agreement or else the Consultant shall be deemed to have waived that claim.

(c) The Consultant shall proceed diligently with its performance, as directed by the County, regardless of any pending claim, legal action, suit, or administrative proceeding, unless otherwise agreed to by the County in writing. The County shall continue to make payments in accordance with the contract documents during the pendency of such claim.

10.10 REPRESENTATIVE OF COUNTY AND CONSULTANT:

(a) It is recognized that questions in the day-to-day conduct of the project will arise. The Contract Administrator, upon request by the Consultant, shall designate and shall advise the Consultant in writing, persons to whom all communications pertaining to the day-to-day conduct of the project shall be addressed.

(b) The Consultant shall inform the Contract Administrator in writing of the representative of the Consultant to whom matters involving the conduct of the project shall be addressed.

10.11 ALL PRIOR AGREEMENTS SUPERSEDED

(a) This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, or understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements, or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representations or agreements whether oral or written.

(b) It is further agreed that no modification, amendment or alteration in the terms or conditions contained herein shall be effective unless contained in a written document executed with the same formality and of equal dignity herewith.

10.12 TRUTH-IN-NEGOTIATION CERTIFICATE:

Signature of this Agreement by the Consultant shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete, and current at the time of contracting. The original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the County determines the contract price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such contract adjustments shall be made within one (1) year following the end of this Agreement.

10.13 HEADINGS:

Headings and subtitles used throughout this Agreement are for the purpose of convenience only, and no heading or subtitle shall modify or be used to interpret the text of any section.

10.14 GRATUITIES:

Neither the Consultant nor any of its employees, agents, and representatives shall offer or give to an officer, official, or employee of the County gifts, entertainment, payments, loans, or other gratuities. The Consultant acknowledges knowledge of the State of Florida's ethics statutes and to the extent applicable to the Consultant, the Consultant agrees to abide with such statutes.

10.15 CONFLICT OF INTEREST:

The Consultant hereby certifies that it will completely disclose to the County all facts bearing upon any possible conflicts, direct or indirect, with its performance which it believes that any officer, employee, or agent of the Consultant now has or will have. Said disclosure shall be made by the Consultant contemporaneously with the execution of this Agreement and at any time thereafter that such facts become known to the Consultant. The Consultant at all times shall perform its obligations under this Agreement in a manner consistent with the best interests of the County. Failure to abide by this section shall result in the immediate termination of this Agreement pursuant to Article II of Chapter 46 of the Escambia County Code of Ordinances.

10.16 SURVIVAL:

All other provisions which, by their inherent character, sense, and context are intended to survive termination of this Agreement, shall survive the termination of this Agreement.

10.17 GOVERNING LAW:

This Agreement shall be governed by and construed in accordance with the laws of the State of Florida, and the parties stipulate that venue for any matter which is a subject of this Agreement shall be in the County of Escambia.

10.18 INTERPRETATION:

For the purpose of this Agreement, the singular includes the plural and the plural shall include the singular. References to statutes or regulations shall include all statutory or regulatory provisions consolidating, amending, or replacing the statute or regulation referred to. Words not otherwise defined that have well-known technical or industry meanings, are used in accordance with such recognized meanings. References to persons include their respective permitted successors and assigns and, in the case of governmental persons, persons succeeding to their respective functions and capacities.

(a) If the Consultant discovers any material discrepancy, deficiency, ambiguity, error, or omission in this Agreement, or is otherwise in doubt as to the meaning of any provision of the Agreement, the Consultant shall immediately notify the County and request clarification of the County's interpretation of this Agreement.

(b) This Agreement shall not be more strictly construed against either party hereto by reason of the fact that one party may have drafted or prepared any or all of the terms and provisions hereof.

10.19 SEVERABILITY:

The invalidity or non-enforceability of any portion or provision of this Agreement shall not affect the validity or enforceability of any other portion or provision. Any invalid or unenforceable portion or provision shall be deemed severed from this Agreement and the balance hereof shall be construed and enforced as if this Agreement did not contain such invalid or unenforceable portion or provision.

10.20 COMPLIANCE WITH LAWS:

The Consultant shall keep fully informed regarding and shall fully and timely comply with all current laws and future laws that may affect those engaged or employed in the performance of this Agreement. Without limiting the generality of the foregoing, the Consultant shall observe all rules and regulations of federal, state, and local officials relating to the subject matter of this Agreement.

10.21 EMPLOYMENT ELIGIBILITY VERIFICATION (E-VERIFY):

In accordance with State of Florida, Office of the Governor, Executive Order 11-116 (superseding Executive Order 11-02; Verification of Employment Status), in the event performance of this Agreement is or will be funded using state or federal funds, the CONTRACTOR must comply with the Employment Eligibility Verification Program ("E-Verify Program") developed by the federal government to verify the eligibility of individuals to work in the United States and 48 CFR 52.222-54 (as amended) is incorporated herein by reference. If applicable, in accordance with Subpart 22.18 of the Federal Acquisition Register, the CONTRACTOR must (1) enroll in the E-Verify Program, (2) use E-Verify to verify the employment eligibility of all new hires working in the United States, except if the CONTRACTOR is a state or local government, the CONTRACTOR may choose to verify only new hires assigned to the Agreement; (3) use E-Verify to verify the employment eligibility of all employees assigned to the Agreement; and (4) include these requirement in certain subcontracts, such as construction. Information on registration for and use of the E-Verify Program can be obtained via the internet at the Department of Homeland Security Web site: http://www.dhs.gov/E-Verify.

10.22 PARTICIPATION IN OTHER PROCEEDINGS:

At the County's request, the Consultant shall allow itself to be joined as a party in any legal proceeding that involves the County regarding the design, construction, or installation of any matter which is the subject of this Agreement. This provision is for the benefit of the County and not for the benefit of any other party.

10.23 FURTHER DOCUMENTS:

The parties shall execute and deliver all documents and perform further actions that may be reasonably necessary to effectuate the provisions of this Agreement.

10.24 NO WAIVER:

The failure of the Consultant or the County to insist upon the strict performance of the terms and conditions hereof shall not constitute or be construed as a waiver or relinquishment of any other provision or of either party's right to thereafter enforce the same in accordance with this Agreement.

IN WITNESS WHEREOF, the Parties hereto have made and executed this Agreement on the respective dates under each signature: Escambia County, Florida through its Board of County Commissioners, signing by its County Administrator, duly authorized to execute this Agreement and L&W Engineering, Inc., d/b/a Inovia Consulting Group, signing by and through its Principal, duly authorized to execute same.

19. RELEVANT PROJECTS

a.

(1) TITLE AND LOCATION *(City and State)*: SR 20 (US 27) Apalachee Parkway Turn Lane at Target

(2) YEAR COMPLETED — PROFESSIONAL SERVICES: 2013 — CONSTRUCTION *(If applicable)*: 2014

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE

ü Check if project performed with current firm

Engineer of Record for this project which included the addition of a left turn lane along Apalachee Parkway and a receiving lane within the entrance to the Target Shopping Center. Mr. Andree was responsible for the design of the roadway and drainage elements by providing construction drawings and specifications.

b.

(1) TITLE AND LOCATION *(City and State)*: SR 10 (US 90 / Mahan Drive) from Apex Drive to East of CR 59

(2) YEAR COMPLETED — PROFESSIONAL SERVICES: 2011 — CONSTRUCTION *(If applicable)*: 2017

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE

ü Check if project performed with current firm

Project Engineer for the plans update portion of this project. Responsibilities included researching all design criteria updates between when the original design was completed and the plans update was requested, revising the plans accordingly and updating all quantities and cost estimates.

c.

(1) TITLE AND LOCATION *(City and State)*: SR 263 (Capital Circle SW) from Springhill to SR 61

(2) YEAR COMPLETED — PROFESSIONAL SERVICES: 2020 — CONSTRUCTION *(If applicable)*: 2024

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE

ü Check if project performed with current firm

Project Engineer for the Traffic Control Plans for this capacity project to upgrade Capital Circle from two-lane rural to six-lane divided urban section. Responsibilities included the preparation of construction plans, coordination between the other roadway and drainage elements, and providing roadway design assistance.

d.

(1) TITLE AND LOCATION *(City and State)*: SR 13 (Henricks Avenue) from Cornell Road to San Marco Boulevard

(2) YEAR COMPLETED — PROFESSIONAL SERVICES: 2015 — CONSTRUCTION *(If applicable)*: 2017

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE

ü Check if project performed with current firm

Project Engineer for this resurfacing project including re-striping to accommodate bike lanes and on-street parking. Since the on-street parking and bicycle facilities had the potential for competing interest, the new green painted standard for bike lanes was used to warn both drivers and cyclist of the potential conflict.

e.

(1) TITLE AND LOCATION *(City and State)*: SR 16 at Peters Creek

(2) YEAR COMPLETED — PROFESSIONAL SERVICES: 2014 — CONSTRUCTION *(If applicable)*: 2015

(3) BRIEF DESCRIPTION *(Brief scope, size, cost, etc.)* AND SPECIFIC ROLE

ü Check if project performed with current firm

Project Engineer for this bridge culvert replacement and widening project. Provided value engineering change proposal for the traffic control plans.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Capacity improvement project to widen Capital Circle from a 2-lane rural to a 6-lane divided highway. The project includes new bridges at Munson Slough, intersection improvements at SR 61 (Crawfordville Hwy), and multi-use paths throughout the corridor. The roadway typical section will be in keeping with other segments of Capital Circle already completed. This project is administered by FDOT and includes involvement of the Blueprint2000 agency. Utility improvements include upgrades of the City of Tallahassee water and sewer collection systems, which are proposed to be completed under a Joint Participation Agreement. The project is designed to accommodate existing high capacity utilities including a 36" re-use force main and a 42" raw sewer force main through the corridor.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Inovia was responsible for creating the design plans for milling and resurfacing SR 10 (US 90) in Leon County, Florida. This segment of SR 10 begins north of the I-10 overpass at Apex Drive and ends east of the CR 59 intersection. In addition to the resurfacing, narrow bridge striping and signage was required for the Black Creek bridge. Other improvements incorporated in the design were evaluating the clear zone hazards and mitigating the hazards found to comply with current design standards. Inovia was instrumental in obtaining a Design Exception to preserve over
600 Crepe Myrtle trees. Inovia also facilitated utility coordination, permitting and public involvement for the Florida Department of Transportation on this project.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Inovia was responsible for creating the design plans for milling and resurfacing SR 83 (US 331) in DeFuniak Springs, Florida. This segment of SR 83 began south of the I-10 overpass as a rural section, transitioned to an urban section through town and ended at the US 90 intersection. In addition to the resurfacing, the left turn lane at Bruce Avenue was extended to accommodate school bus traffic which required a median closure at Park Avenue. Other improvements incorporated in the design were sidewalk and curb ramp repairs to meet current Americans with Disabilities Act (ADA) standards. Inovia also facilitated utility coordination, permitting and public involvement for the Florida Department of Transportation on this project. Coordination with Walton County and the City of Defuniak Springs.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

This design-build project in the historical and highly recognizable Lafayette Street corridor in Tallahassee, Florida is an example of what can be accomplished with multi-agency coordination and cooperation. The project included roadway reconstruction, roadway milling and resurfacing, water and sewer utilities upgrades, stormwater improvements, turn lane additions, sidewalk construction, and landscape improvements on Lafayette Street between Seminole Drive and Winchester Lane, omitting the Magnolia Drive Intersection, which was previously improved with a different project. This project was recognized as the Big Ben AWPA 2014 Project of the Year in the Beautification Category.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

The Florida Department of Transportation is undertaking this project to widen Woodville Highway north of Capital Circle to Paul Russell Road. The project also consists of relocation of the St. Marks Trail, redirection of tra-ffic patterns at Gail Avenue, and a loop road connection between South Adams Street and South Monroe Street. Inovia is part of the design team as sub consultant to Lochner to perform utility coordination and preparation of utility relocation plans. The current design has been coordinated with the City of Tallahassee Utilities to avoid conflict with an existing high-pressure gas main. Other conflicts are being coordinated to minimize impacts with existing gravity sewer. BluePrint2000 is also involved to guide aesthetic improvements as this corridor is considered a gateway corridor to the community.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

This is a federally funded FDOT Local Agency Program (LAP) project which includes the addition of 2.3 miles of sidewalk along CR 67 (Tallahassee Street) in Carrabelle, Florida. The project begins north of Avenue A North and continues along CR 67 on both sides of the road until the intersection of Three Rivers Road/Avenue K North, then on the east side only from Three Rivers Road/ Avenue K North to Crooked Creek Road. The work primarily consists of a new ADA compliant pedestrian walkway system including concrete sidewalks, crosswalks, pavement markings and other appurtenances.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Inovia Consulting Group was responsible for the design of the Gadsden County roadway rehabilitation and resurfacing projects funded by the American Recovery and Reinvestment Act. Inovia and Peavy & Sons Construction were the design-build team chosen by FDOT for the rehabilitation and resurfacing of County Road 269 and County Road 12 B (Glades Road). Because of frequent parallel parking and high traffic volume, Maintenance of Traffic was a key consideration during planning and design. Design also included upgrades to non-compliant ADA sidewalks.

Proposal for Professional Engineering Services

March 31, 2020

Escambia County, Engineering Department
Construction Management Division
3363 West Park Place
Pensacola, FL 32505

Inovia Consulting Group is pleased to submit this proposal for Professional Engineering Consulting Services for Escambia County Florida. Within our proposal, we trust you will find the Inovia team's qualifications provide a combination of experience and commitment to serving the public that is unmatched.

FIRM BACKGROUND

Founded in 1999, Inovia Consulting Group provides consulting engineering services in the disciplines of general civil engineering, stormwater and drainage design, roadway design, utility engineering, structural engineering, environmental permitting and land planning. Through 20 plus years of operation and over 50 years combined engineering experience, we have focused the company based upon a simple business philosophy:

"To develop a genuine professional relationship with our clients by taking a proactive interest and approach to the success of their projects."

INOVIA'S COMPETITIVE ATTRIBUTES

In addition to our dedication to all of our clients, we believe our professional relationship with our clients has been successful due to several factors. These factors are what separates Inovia from the crowd and why we are the logical choice for this selection.

- Proudly, Inovia is a small firm that has the flexibility and aggressiveness to execute project requirements very quickly.
- Inovia's company ownership is hands-on and has direct involvement in project management and engineering issues, therefore, expediting the development of engineering solutions for our clients.
- Inovia has demonstrated commitment and dedication to our clients, the quality of our work product, and to the public at large.
- Inovia staff has the ability to communicate effectively, both written, graphically, and orally with clients and the public on projects with which we are engaged.
- Inovia has extensive knowledge of FDOT project production especially including work in the environmentally sensitive area of Perdido Key.

Along with the above attributes, we understand the importance of keeping our customers in mind during the development of various project responsibilities. Our customers are many and include not only the public at large, but intermediate and future users of our work product such as Escambia County staff, contractors, material suppliers, and many others. Inovia will always strive to provide the highest level of quality and service to all our customers. We know that working side-by-side with Escambia County staff, its consultants and having the ability to effectively communicate and coordinate efforts during design is critical to the overall success of projects.

TEAM CAPABILITIES
Our staff brings experience to the firm in the production and management of engineering projects that range from complete utility system rehabilitation and replacement, major highway interchange design, stormwater and drainage improvement projects and studies, structural engineering to local land development and permitting.

Inovia staff includes managing principals, project managers, design engineers, as well as technical and administrative support staff. Inovia's staff, which currently totals 6, may be categorized as follows.

Managing Principals: 2 Registered PE's
Project Managers: 1 Registered PE's
Technical Support: 2 Non-Registered
Administrative: 1

Indicative of the Inovia team's capability to manage projects with a high degree of efficiency and professionalism, our recent accomplishments include:

- Selection by FDOT for various projects including roadway capacity projects, resurfacing projects, and multi-use path projects.
- Long standing professional relationships with public sector clients based on a reputation for successful projects.

COMMITMENT
Through this combination key personnel and track record of successful projects, we offer for your consideration a team that has the commitment that is essential to meet your needs and exceed your expectations for customer service, responsiveness, and quality. We appreciate the opportunity to submit this proposal for this very important contract. We are excited about the opportunity to be of service to Escambia County. Thank you for your consideration.

RESPONSIBLE OFFICE
The responsible office will be the Tallahassee office of Inovia Consulting Group, and the authorized respondent is:

Russell Large, P.E., Principal
Inovia Consulting Group
2015 Centre Pointe Blvd., Suite 103
Tallahassee, Florida 32308
Phone 850.298.4213
RTL@inoviagroup.COM

The proposal submitted herewith is in all respects fair and in good faith without collusion or fraud and I have the authority to bind the principal proponent.

Respectfully,
INOVIA CONSULTING GROUP

Russell Large, P.E.
Principal

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17843 **County Administrator's Report 12. 51.**
BCC Regular Meeting **Budget & Finance Consent**
Meeting Date: 05/07/2020
Issue: Coronavirus Emergency Supplemental Funding Program Solicitation FY 2020 Formula Grant Solicitation
From: William Powell, Director, Corrections
Organization: Corrections
CAO Approval:

RECOMMENDATION:

Recommendation Concerning a Bureau of Justice Assistance Application for the Coronavirus Emergency Supplemental Funding Program Solicitation Fiscal Year 2020 Formula Grant Solicitation - William R. Powell, Director of Corrections

That the Board take the following action concerning the Application to provide funding to assist eligible local units of government in preventing, preparing for, and responding to the coronavirus, as related to related law enforcement and corrections programs, in the amount of $370,107:

A. Approve the Bureau of Justice Assistance Application for the Coronavirus Emergency Supplemental Funding (CESF) Program Solicitation Fiscal Year 2020 Formula Grant Solicitation. This Application is for a two-year Grant period beginning January 20, 2020, totaling $370,107;

B. Authorize the Chairman to electronically sign the Application for funding assistance, the standard assurances, certifications regarding lobbying, debarment and drug-free workplace requirements regarding the local coronavirus response project, and sign the Financial Management and System of Internal Controls Questionnaire; and

C. Authorize the Chairman to electronically submit the Application on behalf of the Board through the Bureau of Justice Assistance Grant portal.

[Funding: This Grant does not require matching funds, Fund 001, Cost Center 290401 and Fund 001, Cost Center 290402]

BACKGROUND:

The U.S. Department of Justice, Bureau of Justice Assistance (BJA) released the Fiscal Year 2020 Coronavirus Emergency Supplemental Funding (CESF) Program Formula Grant Solicitation on March 30, 2020. The program is intended to provide funding to assist eligible governmental agencies in preventing, preparing for, and responding to the coronavirus. These funds will go directly to support criminal justice needs related to coronavirus. Escambia county, based on the formula Grant, has been allocated $370,107; no local match is required.

Management teams from Escambia County Corrections (Corrections), Escambia County Sheriff's Office (ECSO), Clerk of Court, and County Administration met via teleconference on April 21, 2020 and April 22, 2020, to discuss project proposals based on the permissible uses of CESF funds. An agreement was reached to allocate Corrections $105,000 and ECSO $265,107. Corrections proposes the utilization of Grant funds for Personal Protective Equipment, sanitation/disinfection supplies and equipment, enhanced filtration supplies for HVAC systems, and advanced indoor air quality purification equipment. ECSO requests CESF allocation to fund off-road all-terrain vehicles (*ATV*) to patrol and enforce beach closures and social distancing requirements, laptop computers to provide portable work access for employees practicing Florida's "Safer at Home" executive order, Personal Protective Equipment, and sanitation/disinfection supplies.

While the solicitation is covered by Executive Order 12372, the Florida State Clearinghouse confirmed via email that the solicitation was not select for review.

BUDGETARY IMPACT:

The Grant draw-downs will be processed on a cost reimbursement basis. No additional funds are being requested from the Board.

LEGAL CONSIDERATIONS/SIGN-OFF:

The Application has been reviewed and approved for legal sufficiency by Kristin Hual, Senior Assistant County Attorney.

PERSONNEL:

The Corrections Department staff will manage and implement the Grant project.

POLICY/REQUIREMENT FOR BOARD ACTION:

This Recommendation complies with all provisions of the Board of County Commissioners' Grant Policy.

IMPLEMENTATION/COORDINATION:

Corrections Department Staff will administer the Grant related project.

FLORIDA TIMELINE

The coronavirus was first detected in Florida on March 1, 2020 with Escambia detecting their first positive resident on March 16, 2020. Since then, the numbers have continued to swell. Florida has been ordered to temporarily close bars and night clubs, discontinue dining room service in restaurants, encouraging to-go orders, close all school campuses, and theme parks have voluntarily ceased operations. In an effort to reduce the transmission of coronavirus, Escambia County closed their beaches on March 20, 2020 at midnight. On April 1, 2020 Florida Governor Ron DeSantis issued a statewide stay-at-home order for Florida residents.

CORONAVIRUS PROJECTS

SUPPLIES

- Personal Protective Equipment and sanitizing/disinfecting supplies are essential for the daily utilization by law enforcement and corrections staff. Most items of this nature are consumable and onetime use. Both organizations combined employ over 1,000 employees with daily contact with the public. PPE and sanitizing supplies are paramount to deputy and corrections officer health, safety and welfare. Coronavirus cases continue to grow in Escambia therefore the depletion of inventory is expected to occur rapidly. For the health and safety of deputies and officers it is projected there will continue to be an enormous need for the next several months. It is imperative that these items are well stocked and accessible inhouse.

- Escambia County Corrections will utilize grant funding to provide the inmate housing area and administrative offices with a robust filtration system for the Heating, Ventilation, and Air Conditioning (HVAC) system. The coronavirus can spread in confined spaces despite screening at inmate intake, restrictions on visits and other measures the corrections department has already taken. To add another level of protection the filtration system will capture airborne viruses and bacteria from coughs and sneezes. While there's no guarantee a strong air filter will protect individuals from the coronavirus, clean air helps keep the immune system strong.

EQUIPMENT

- Escambia County Corrections will apply grant funding for the procurement of advanced air purification equipment that will target airborne allergens and pollutants in the corrections facility and improve indoor air quality. Bacteria and viruses indoors are transmitted widely by airborne dispersal. Infectious particles form free-floating droplets that can be inhaled. Eliminating infectious organisms at the source is difficult therefore the advanced air purification equipment is designed to remove airborne particles. An air purifier which removes viruses from the air reduces virus concentrations in the affected area thus reduces the potential for exposure.
- Escambia County is the western-most county in the state of Florida which is inviting to nearby states making Escambia County beaches a popular vacation destination as it is driving distance to many major metropolitan areas. Many of the metropolitan areas are considered hotspots for coronavirus infection. In order to deter residents and tourist from visiting area beaches and enforce beach closures, deputies from the Escambia

County Sheriff's Office (ECSO) were dispatched to area beaches to inform individuals of beach closures and prior to closures, social distancing rules. With 39 miles of sandy beaches to safeguard, the deputies will utilize all-terrain vehicles to most effectively reach individuals in the widespread beach area.

- Upon the Florida Governor's issuance of the statewide stay-at-home order, ECSO's sworn and non-sworn administrative employees required desktops to provide them with portable access to ECSO servers to work form home. These employees had access only to desktop computers at work. Due to size and number of components necessary it was not considered a viable option for transport. In order to maintain essential operations while following social distancing orders the laptops were necessary to fulfil daily work obligations for law enforcement staff.

Budget Detail - Year 1

Does this budget contain conference costs which is defined broadly to include meetings, retreats, seminars, symposia, and training activities? - Y/N [(DOJ Financial Guide, Section 3.10)]

		Total(s)	**$202,682**	**$0**	**$202,682**

Narrative

Escambia County Corrections will apply grant funding for the procurement of advanced air purification equipment that will target airborne allergens and pollutants in the corrections facility and improve indoor air quality. Escambia County Sheriff's Office have been required to increase patrolling and enforcement social distancing then the subsequent beach closures in Escambia County. In order to quickly and efficiently attend to the congregation of large groups, the SO will utilize ATVs to deploy and navigate through beach sand to address offenders. ECSO’s sworn and non-sworn administrative employees required desktops to provide them with portable access to ECSO servers to work form home.

E. Supplies

Supply Items *Provide a list of the types of items to be purchased with grant funds.*	**Computation** *Describe the item and the compute the costs. Computation: The number of each item to be purchased X the cost per item.*				
	# of Items	***Unit Cost***	***Total Cost***	***Non-Federal Contribution***	***Federal Request***
Personal Protective Equipment (Corrections)	12	$2,500.00	$30,000		$30,000
Personal Protective Equipment (ECSO)	12	$6,630.83	$79,570		$79,570
Sanitizing and Disinfection Supplies (Corrections)	12	$937.50	$11,250		$11,250
Sanitizing and Disinfection Supplies (ECSO)	12	$2,529.58	$30,355		$30,355
HVAC Filtration Materials (Corrections)	1	$16,250.00	$16,250		$16,250
		Total(s)	**$167,425**	**$0**	**$167,425**

Narrative

Personal Protective Equipment and sanitizing/disinfecting supplies are essential for the daily utilization by law enforcement and corrections staff. Most items of this nature are consumable and onetime use. Both organizations combined employ over 1,000 employees with daily contact with the public. PPE and sanitizing supplies are paramount to deputy and corrections officer health, safety and welfare. The PPE and santiation/disinfection supplies are based on purchases in tweleve months. Costs are expected to surpass the CESF allocation due to the response duration of coronavirus. The Escambia County Corrections will utilize grant funding to provide the inmate housing area and administrative offices with a robust filtration system for the Heating, Ventilation, and Air Conditioning (HVAC) system. The coronavirus can spread in confined spaces despite screening at inmate intake, restrictions on visits and other measures the corrections department has already taken. To add another level of protection the filtration system will capture airborne viruses and bacteria from coughs and sneezes.

F. Construction						
Purpose *Provide the purpose of the construction*	**Description of Work** *Describe the construction project(s)*	**Computation** *Compute the costs (e.g., the number of each item to be purchased X the cost per item)*

U.S. DEPARTMENT OF JUSTICE

CERTIFIED STANDARD ASSURANCES

On behalf of the Applicant, and in support of this application for a grant or cooperative agreement, I certify under penalty of perjury to the U.S. Department of Justice ("Department"), that all of the following are true and correct:

(1) I have the authority to make the following representations on behalf of myself and the Applicant. I understand that these representations will be relied upon as material in any Department decision to make an award to the Applicant based on its application.

(2) I certify that the Applicant has the legal authority to apply for the federal assistance sought by the application, and that it has the institutional, managerial, and financial capability (including funds sufficient to pay any required non-federal share of project costs) to plan, manage, and complete the project described in the application properly.

(3) I assure that, throughout the period of performance for the award (if any) made by the Department based on the application--

a. the Applicant will comply with all award requirements and all federal statutes and regulations applicable to the award;
b. the Applicant will require all subrecipients to comply with all applicable award requirements and all applicable federal statutes and regulations; and
c. the Applicant will maintain safeguards to address and prevent any organizational conflict of interest, and also to prohibit employees from using their positions in any manner that poses, or appears to pose, a personal or financial conflict of interest.

(4) The Applicant understands that the federal statutes and regulations applicable to the award (if any) made by the Department based on the application specifically include statutes and regulations pertaining to civil rights and nondiscrimination, and, in addition--

a. the Applicant understands that the applicable statutes pertaining to civil rights will include section 601 of the Civil Rights Act of 1964 (42 U.S.C. § 2000d); section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794); section 901 of the Education Amendments of 1972 (20 U.S.C. § 1681); and section 303 of the Age Discrimination Act of 1975 (42 U.S.C. § 6102);
b. the Applicant understands that the applicable statutes pertaining to nondiscrimination may include section 809(c) of Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10228(c)); section 1407(e) of the Victims of Crime Act of 1984 (34 U.S.C. § 20110(e)); section 299A(b) of the Juvenile Justice and Delinquency Prevention Act of 2002 (34 U.S.C. § 11182(b)); and that the grant condition set out at section 40002(b)(13) of the Violence Against Women Act (34 U.S.C. § 12291(b)(13)), which will apply to all awards made by the Office on Violence Against Women, also may apply to an award made otherwise;
c. the Applicant understands that it must require any subrecipient to comply with all such applicable statutes (and associated regulations); and
d. on behalf of the Applicant, I make the specific assurances set out in 28 C.F.R. §§ 42.105 and 42.204.

(5) The Applicant also understands that (in addition to any applicable program-specific regulations and to applicable federal regulations that pertain to civil rights and nondiscrimination) the federal regulations applicable to the award (if any) made by the Department based on the application may include, but are not limited to, 2 C.F.R. Part 2800 (the DOJ "Part 200 Uniform Requirements") and 28 C.F.R. Parts 22 (confidentiality - research and statistical information), 23 (criminal intelligence systems), 38 (regarding faith-based or religious organizations participating in federal financial assistance programs), and 46 (human subjects protection).

(6) I assure that the Applicant will assist the Department as necessary (and will require subrecipients and contractors to assist as necessary) with the Department's compliance with section 106 of the National Historic Preservation Act of 1966 (54 U.S.C. § 306108), the Archeological and Historical Preservation Act of 1974 (54 U.S.C. §§ 312501-312508), and the National Environmental Policy Act of 1969 (42 U.S.C. §§ 4321-4335), and 28 C.F.R. Parts 61 (NEPA) and 63 (floodplains and wetlands).

(7) I assure that the Applicant will give the Department and the Government Accountability Office, through any authorized representative, access to, and opportunity to examine, all paper or electronic records related to the award (if any) made by the Department based on the application.

(8) I assure that, if the Applicant is a governmental entity, with respect to the award (if any) made by the Department based on the application--

a. it will comply with the requirements of the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (42 U.S.C. §§ 4601-4655), which govern the treatment of persons displaced as a result of federal and federally-

assisted programs; and

b. it will comply with requirements of 5 U.S.C. §§ 1501-1508 and 7324-7328, which limit certain political activities of State or local government employees whose principal employment is in connection with an activity financed in whole or in part by federal assistance.

(9) If the Applicant applies for and receives an award from the Office of Community Oriented Policing Services (COPS Office), I assure that as required by 34 U.S.C. § 10382(c)(11), it will, to the extent practicable and consistent with applicable law--including, but not limited to, the Indian Self- Determination and Education Assistance Act--seek, recruit, and hire qualified members of racial and ethnic minority groups and qualified women in order to further effective law enforcement by increasing their ranks within the sworn positions, as provided under 34 U.S.C. § 10382(c)(11).

(10) If the Applicant applies for and receives a DOJ award under the STOP School Violence Act program, I assure as required by 34 U.S.C. § 10552(a)(3), that it will maintain and report such data, records, and information (programmatic and financial) as DOJ may reasonably require.

I acknowledge that a materially false, fictitious, or fraudulent statement (or concealment or omission of a material fact) in this certification, or in the application that it supports, may be the subject of criminal prosecution (including under 18 U.S.C. §§ 1001 and/or 1621, and/or 34 U.S.C. §§ 10271-10273), and also may subject me and the Applicant to civil penalties and administrative remedies for false claims or otherwise (including under 31 U.S.C. §§ 3729-3730 and 3801-3812). I also acknowledge that the Department?s awards, including certifications provided in connection with such awards, are subject to review by the Department, including by its Office of the Inspector General.

U.S. DEPARTMENT OF JUSTICE

CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. The certifications shall be treated as a material representation of fact upon which reliance will be placed when the U.S. Department of Justice ("Department") determines to award the covered transaction, grant, or cooperative agreement.

1. LOBBYING

As required by 31 U.S.C. § 1352, as implemented by 28 C.F.R. Part 69, the Applicant certifies and assures (to the extent applicable) the following:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the Applicant, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If the Applicant's request for Federal funds is in excess of $100,000, and any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal grant or cooperative agreement, the Applicant shall complete and submit Standard Form - LLL, "Disclosure of Lobbying Activities" in accordance with its (and any DOJ awarding agency's) instructions; and

(c) The Applicant shall require that the language of this certification be included in the award documents for all subgrants and procurement contracts (and their subcontracts) funded with Federal award funds and shall ensure that any certifications or lobbying disclosures required of recipients of such subgrants and procurement contracts (or their subcontractors) are made and filed in accordance with 31 U.S.C. § 1352.

2. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS

A. Pursuant to Department regulations on nonprocurement debarment and suspension implemented at 2 C.F.R. Part 2867, and to other related requirements, the Applicant certifies, with respect to prospective participants in a primary tier "covered transaction", as defined at 2 C.F.R. § 2867.20(a), that neither it nor any of its principals--

(a) is presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) has within a three-year period preceding this application been convicted of a felony criminal violation under any Federal law, or been convicted or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, tribal, or local) transaction or private agreement or transaction;

(c) is presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, tribal, or local) with commission of any of the offenses enumerated in paragraph (b) of this certification; and/or

(d) has within a three-year period preceding this application had one or more public transactions (Federal, State, tribal, or local) terminated for cause or default.

B. Where the Applicant is unable to certify to any of the statements in this certification, it shall attach an explanation to this application. Where the Applicant or any of its principals was convicted, within a three-year period preceding this application, of a felony criminal violation under any Federal law, the Applicant also must disclose such felony criminal conviction in writing to the Department (for OJP Applicants, to OJP at Ojpcompliancereporting@usdoj.gov; for OVW Applicants, to OVW at OVW.GFMD@usdoj.gov; or for COPS Applicants, to COPS at AskCOPSRC@usdoj.gov), unless such disclosure has already been made.

3. FEDERAL TAXES

A. If the Applicant is a corporation, it certifies either that (1) the corporation has no unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, or (2) the corporation has provided written notice of such an unpaid tax liability (or liabilities) to the Department (for OJP Applicants, to OJP at Ojpcompliancereporting@usdoj.gov; for OVW Applicants, to OVW at OVW.GFMD@usdoj.gov; or for COPS Applicants, to COPS at AskCOPSRC@usdoj.gov).

B. Where the Applicant is unable to certify to any of the statements in this certification, it shall attach an explanation to this application.

4. DRUG-FREE WORKPLACE (GRANTEES OTHER THAN INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, as implemented at 28 C.F.R. Part 83, Subpart F, for grantees, as defined at 28 C.F.R. §§ 83.620 and 83.650:

A. The Applicant certifies and assures that it will, or will continue to, provide a drug-free workplace by--

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in its workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about--

(1) The dangers of drug abuse in the workplace;

(2) The Applicant's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the award be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the award, the employee will--

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of the employee's conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the Department, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title of any such convicted employee to the Department, as follows:

For COPS award recipients - COPS Office, 145 N Street, NE, Washington, DC, 20530;

For OJP and OVW award recipients - U.S. Department of Justice, Office of Justice Programs, ATTN: Control Desk, 810 7th Street, N.W., Washington, D.C. 20531.

Notice shall include the identification number(s) of each affected award;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency; and

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

5. COORDINATION REQUIRED UNDER PUBLIC SAFETY AND COMMUNITY POLICING PROGRAMS

As required by the Public Safety Partnership and Community Policing Act of 1994, at 34 U.S.C. § 10382(c)(5), if this application is for a COPS award, the Applicant certifies that there has been appropriate coordination with all agencies that may be affected by its award. Affected agencies may include, among others, Offices of the United States Attorneys; State, local, or tribal prosecutors; or correctional agencies.

I acknowledge that a materially false, fictitious, or fraudulent statement (or concealment or omission of a material fact) in this certification, or in the application that it supports, may be the subject of criminal prosecution (including under 18 U.S.C. §§ 1001 and/or 1621, and/or 34 U.S.C. §§ 10271-10273), and also may subject me and the Applicant to civil penalties and administrative remedies for false claims or otherwise (including under 31 U.S.C. §§ 3729-3730 and 3801-3812). I also acknowledge that the Department's awards, including certifications provided in connection with such awards, are subject to review by the Department, including by its Office of the Inspector General.

U.S. DEPARTMENT OF JUSTICE
OFFICE OF JUSTICE PROGRAMS

Approved: OMB No. 1121-0329
Expires 11/30/2020

Background

Recipients' financial management systems and internal controls must meet certain requirements, including those set out in the "Part 200 Uniform Requirements" (2.C.F.R. Part 2800).

Including at a minimum, the financial management system of each OJP award recipient must provide for the following:

(1) Identification, in its accounts, of all Federal awards received and expended and the Federal programs under which they were received. Federal program and Federal award identification must include, as applicable, the CFDA title and number, Federal award identification number and year, and the name of the Federal agency.

(2) Accurate, current, and complete disclosure of the financial results of each Federal award or program.

(3) Records that identify adequately the source and application of funds for Federally-funded activities. These records must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income, and interest, and be supported by source documentation.

(4) Effective control over, and accountability for, all funds, property, and other assets. The recipient must adequately safeguard all assets and assure that they are used solely for authorized purposes.

(5) Comparison of expenditures with budget amounts for each Federal award.

(6) Written procedures to document the receipt and disbursement of Federal funds including procedures to minimize the time elapsing between the transfer of funds from the United States Treasury and the disbursement by the OJP recipient.

(7) Written procedures for determining the allowability of costs in accordance with both the terms and conditions of the Federal award and the cost principles to apply to the Federal award.

(8) Other important requirements related to retention requirements for records, use of open and machine readable formats in records, and certain Federal rights of access to award-related records and recipient personnel.

1. Name of Organization and Address:

Organization Name: ESCAMBIA COUNTY BOARD OF COUNTY COMMISSIONERS
Street1: 221 PALAFOX PLACE
Street2:
City: PENSACOLA
State: FLORIDA
Zip Code: 32502

2. Authorized Representative's Name and Title:

Prefix: First Name: Steven Middle Name:
Last Name: Barry Suffix:
Title: Chairman

3. Phone: (850) 595-4950 4. Fax:

5. Email: district5@myescambia.com

6. Year Established:	7. Employer Identification Number (EIN):	8. DUNS Number:
1821	596000598	75079673

9. a) Is the applicant entity a nonprofit organization (including a nonprofit institution of higher education) as described in 26 U.S.C. 501(c)(3) and exempt from taxation under 26 U.S.C. 501(a)? ☐ Yes ☒ No

If "No" skip to Question 10.

If "Yes", complete Questions 9. b) and 9. c).

AUDIT INFORMATION

9. b) Does the applicant nonprofit organization maintain offshore accounts for the purpose of avoiding paying the tax described in 26 U.S.C. 511(a)?	☐ Yes ☐ No
9. c) With respect to the most recent year in which the applicant nonprofit organization was required to file a tax return, does the applicant nonprofit organization believe (or assert) that it satisfies the requirements of 26 C.F.R. 53.4958-6 (which relate to the reasonableness of compensation of certain individuals)? If "Yes", refer to "Additional Attachments" under "What An Application Should Include" in the OJP solicitation (or application guidance) under which the applicant is submitting its application. If the solicitation/guidance describes the "Disclosure of Process related to Executive Compensation," the applicant nonprofit organization must provide -- as an attachment to its application -- a disclosure that satisfies the minimum requirements as described by OJP.	☐ Yes ☐ No

For purposes of this questionnaire, an "audit" is conducted by an independent, external auditor using generally accepted auditing standards (GAAS) or Generally Governmental Auditing Standards (GAGAS), and results in an audit report with an opinion.

10. Has the applicant entity undergone any of the following types of audit(s)(Please check all that apply):

- ☒ "Single Audit" under OMB A-133 or Subpart F of 2 C.F.R. Part 200
- ☐ Financial Statement Audit
- ☐ Defense Contract Agency Audit (DCAA)
- ☐ Other Audit & Agency (list type of audit):
- ☐ None (if none, skip to question 13)

11. Most Recent Audit Report Issued: ☒ Within the last 12 months ☐ Within the last 2 years ☐ Over 2 years ago ☐ N/A

Name of Audit Agency/Firm: Warren Averett CPAs and Advisors

AUDITOR'S OPINION

12. On the most recent audit, what was the auditor's opinion?

☒ Unqualified Opinion ☐ Qualified Opinion ☐ Disclaimer, Going Concern or Adverse Opinions ☐ N/A: No audits as described above

Enter the number of findings (if none, enter "0": 0

Enter the dollar amount of questioned costs (if none, enter "$0"): $ 0

Were material weaknesses noted in the report or opinion? ☐ Yes ☒ No

ACCOUNTING SYSTEM

13. Which of the following best describes the applicant entity's accounting system:

☐ Manual ☒ Automated ☐ Combination of manual and automated

14. Does the applicant entity's accounting system have the capability to identify the receipt and expenditure of award funds separately for each Federal award?	☒ Yes ☐ No ☐ Not Sure
15. Does the applicant entity's accounting system have the capability to record expenditures for each Federal award by the budget cost categories shown in the approved budget?	☒ Yes ☐ No ☐ Not Sure
16. Does the applicant entity's accounting system have the capability to record cost sharing ("match") separately for each Federal award, and maintain documentation to support recorded match or cost share?	☒ Yes ☐ No ☐ Not Sure

17. Does the applicant entity's accounting system have the capability to accurately track employees actual time spent performing work for each federal award, and to accurately allocate charges for employee salaries and wages for each federal award, and maintain records to support the actual time spent and specific allocation of charges associated with each applicant employee?	☒ Yes ☐ No ☐ Not Sure
18. Does the applicant entity's accounting system include budgetary controls to preclude the applicant entity from incurring obligations or costs that exceed the amount of funds available under a federal award (the total amount of the award, as well as the amount available in each budget cost category)?	☒ Yes ☐ No ☐ Not Sure
19. Is applicant entity familiar with the "cost principles" that apply to recent and future federal awards, including the general and specific principles set out in 2 C.F.R Part 200?	☒ Yes ☐ No ☐ Not Sure
PROPERTY STANDARDS AND PROCUREMENT STANDARDS	
20. Does the applicant entity's property management system(s) maintain the following information on property purchased with federal award funds (1) a description of the property; (2) an identification number; (3) the source of funding for the property, including the award number; (4) who holds title; (5) acquisition date; (6) acquisition cost; (7) federal share of the acquisition cost; (8) location and condition of the property; (9) ultimate disposition information?	☒ Yes ☐ No ☐ Not Sure
21. Does the applicant entity maintain written policies and procedures for procurement transactions that -- (1) are designed to avoid unnecessary or duplicative purchases; (2) provide for analysis of lease versus purchase alternatives; (3) set out a process for soliciting goods and services, and (4) include standards of conduct that address conflicts of interest?	☒ Yes ☐ No ☐ Not Sure
22. a) Are the applicant entity's procurement policies and procedures designed to ensure that procurements are conducted in a manner that provides full and open competition to the extent practicable, and to avoid practices that restrict competition?	☒ Yes ☐ No ☐ Not Sure
22. b) Do the applicant entity's procurement policies and procedures require documentation of the history of a procurement, including the rationale for the method of procurement, selection of contract type, selection or rejection of contractors, and basis for the contract price?	☒ Yes ☐ No ☐ Not Sure
23. Does the applicant entity have written policies and procedures designed to prevent the applicant entity from entering into a procurement contract under a federal award with any entity or individual that is suspended or debarred from such contracts, including provisions for checking the "Excluded Parties List" system (www.sam.gov) for suspended or debarred sub-grantees and contractors, prior to award?	☒ Yes ☐ No ☐ Not Sure
TRAVEL POLICY	
24. Does the applicant entity: (a) maintain a standard travel policy? ☒ Yes ☐ No (b) adhere to the Federal Travel Regulation (FTR)? ☒ Yes ☐ No	
SUBRECIPIENT MANAGEMENT AND MONITORING	
25. Does the applicant entity have written policies, procedures, and/or guidance designed to ensure that any subawards made by the applicant entity under a federal award -- (1) clearly document applicable federal requirements, (2) are appropriately monitored by the applicant, and (3) comply with the requirements in 2 CFR Part 200 (see 2 CFR 200.331)?	☒ Yes ☐ No ☐ Not Sure ☐ N/A - Applicant does not make subawards under any OJP awards

26. Is the applicant entity aware of the differences between subawards under federal awards and procurement contracts under federal awards, including the different roles and responsibilities associated with each?	☒ Yes ☐ No ☐ Not Sure ☐ N/A - Applicant does not make subawards under any OJP awards
27. Does the applicant entity have written policies and procedures designed to prevent the applicant entity from making a subaward under a federal award to any entity or individual is suspended or debarred from such subawards?	☒ Yes ☐ No ☐ Not Sure ☐ N/A - Applicant does not make subawards under any OJP awards

DESIGNATION AS 'HIGH-RISK' BY OTHER FEDERAL AGENCIES

28. Is the applicant entity designated "high risk" by a federal grant-making agency outside of DOJ? (High risk includes any status under which a federal awarding agency provides additional oversight due to the applicant's past performance, or other programmatic or financial concerns with the applicant.)

☐ Yes ☒ No ☐ Not Sure

If "Yes", provide the following:

(a) Name(s) of the federal awarding agency:

(b) Date(s) the agency notified the applicant entity of the "high risk" designation:

(c) Contact information for the "high risk" point of contact at the federal agency:

Name:

Phone:

Email:

(d) Reason for "high risk" status, as set out by the federal agency:

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17846 **County Administrator's Report 12. 52.**
BCC Regular Meeting **Budget & Finance Consent**
Meeting Date: 05/07/2020
Issue: Software Upgrade for CorrecTek which is the Electronic Health Record software for the Correction Health Services Department
From: William Powell, Director, Corrections
Organization: Corrections
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Database Preparation for the Upgrade of the Current Software System for the Electronic Health Record - William R. Powell, Director of Corrections

That the Board approve and authorize the issuance of a Purchase Order totaling $59,360 for CorrecTek database preparation for the Spark Transition for the software upgrade to the current electronic health record software, per the quote provided.

BACKGROUND:

On July 7, 2009, Correctek and the Escambia County Sheriff's Office entered into an Agreement to obtain a license to CorrecTek's software and technology, in order to replace a paper-based system for the medical department management. On September 16, 2013, Escambia County Sheriff's Office and CorrecTek assigned the contract to the Escambia County Board of County Commissioners. Information Resources has been in contact with CorrecTek for this implementation.

BUDGETARY IMPACT:

Fund 111, Detention Jail Commissary, Cost Center 290406, Detention, Object Code 55201

LEGAL CONSIDERATIONS/SIGN-OFF:

Kristin Hual, Senior Assistant County Attorney, reviewed the initial Agreement and assignment.

PERSONNEL:

N/A

POLICY/REQUIREMENT FOR BOARD ACTION:

The Recommendation is in compliance with the Code of Ordinances of Escambia County, FL 1999. Chapter 46, Finance, Article II Purchases and Contracts.

IMPLEMENTATION/COORDINATION:

The Office of Purchasing will issue the Purchase Order. The Corrections Department will be the Contract Administrator for this Agreement.

SOFTWARE LICENSE AGREEMENT

This Software License Agreement is entered into by and between CorrecTek, Inc., a Kentucky corporation with a place of business at CorrecTek, Inc., 1640 McCracken Blvd., Paducah, Kentucky 42001, and Escambia County Sheriff's Office ("CLIENT"), with a mailing address at 2935 N "L" Street, Pensacola, FL 32523. The effective date of this Agreement shall be the last executed below ("Effective Date").

RECITALS

A. CORRECTEK, Inc. is the owner of a comprehensive software system, CorrecTek, designed to replace a paper-based system of medical department management.

B. ESCAMBIA COUNTY SHERIFF'S OFFICE, is a law enforcement agency operating a correctional facility desiring to enter into a Licensing Agreement for the non-exclusive right to utilize CorrecTek in a Correctional Facility Medical Department setting.

C. ESCAMBIA COUNTY SHERIFF'S OFFICE desires to obtain a license to certain CORRECTEK software and technology, in order to replace a paper-based system of medical department management. CORRECTEK is willing to grant ESCAMBIA COUNTY SHERIFF'S OFFICE such a license upon the terms and conditions set forth below.

AGREEMENT

1. DEFINITIONS

1.1 "SOFTWARE" means the CORRECTEK software developed or acquired by CORRECTEK to replace a paper-based system of medical department management.

1.2 "AUTHORIZED USER" (User) means any Agency employee employed by Licensee.

2. GRANT OF RIGHTS

2.1 Subject to payment of applicable license fees, CORRECTEK grants ESCAMBIA COUNTY SHERIFF'S OFFICE a non-exclusive and non-transferable license to use the executable code version of the SOFTWARE and accompanying documentation by AUTHORIZED USERS, according to the terms and conditions of this agreement.

2.2 ESCAMBIA COUNTY SHERIFF'S OFFICE agrees that it will not use SOFTWARE except as authorized herein, and ESCAMBIA COUNTY SHERIFF'S OFFICE may not (i) modify or create any derivative works of any SOFTWARE or documentation, including the translation or localization; (ii) decompile, disassemble, reverse engineer, or otherwise attempt to derive the source code for SOFTWARE (except to the extent applicable laws specifically prohibit such restriction); (iii) redistribute, encumber, sell, rent, lease, sublicense, or use the SOFTWARE in a timesharing or service bureau arrangement, or otherwise transfer rights to any SOFTWARE; (iv) copy the SOFTWARE (except for an archival copy which must be stored on media other than a computer hard

drive) or documentation (copies shall contain the notices regarding proprietary rights that were contained in the SOFTWARE originally delivered by CORRECTEK); (v) remove or alter any trademark, logo, copyright or other proprietary notices, legends, symbols, or labels in the SOFTWARE; (vi) modify any header files or class libraries in any SOFTWARE; (vii) create or alter tables or reports relating to the database portion of the SOFTWARE (except as necessary for operating the SOFTWARE); (viii) use CORRECTEK SOFTWARE on a computer system that has more workstations or computers than have been licensed from other vendors.

2.3 Assignment of Rights. As additional consideration, ESCAMBIA COUNTY SHERIFF'S OFFICE agrees that it will transfer and assign all rights to any customization, add-ons, modules or source code developed by CorrecTek and entered by Users into existing area formats of the SOFTWARE that ESCAMBIA COUNTY SHERIFF'S OFFICE creates, uses or embeds in or as part of its use of the SOFTWARE to CORRECTEK irrevocably and forever.

2.4 No Other Licenses. The licenses granted under this Agreement are specifically set forth herein, and no licenses are granted by CORRECTEK to ESCAMBIA COUNTY SHERIFF'S OFFICE by implication or estoppel.

3. INSTALLATION

CORRECTEK will provide the CORRECTEK SOFTWARE and database to the appropriate County IT personnel for implementation. It will be the sole discretion of County IT to install the initial database, CORRECTEK software and any subsequent updates.

4. FEES AND TAXES

4.1 ESCAMBIA COUNTY SHERIFF'S OFFICE shall pay fees to CORRECTEK, Inc. according to the fee schedule set forth in Exhibit "A" attached hereto and incorporated herein by reference.

4.2 The license fees due hereunder are exclusive of any applicable taxes. ESCAMBIA COUNTY SHERIFF'S OFFICE shall pay all taxes, including any sales and/or use tax (and any related interest/penalty), imposed as a result of the existence or operation of this Agreement, except any income tax upon CORRECTEK by any governmental entity.

4.3 Taxes. In addition to any other payments due under this Agreement, ESCAMBIA COUNTY SHERIFF'S OFFICE agrees to reimburse and hold CORRECTEK harmless from any sales, use, excise import or export, value added or similar tax or duty, or any other tax not based on CORRECTEK's net income, and any governmental permit and license fees, customs fees and similar fees levied upon delivery of the deliverable and/or services hereunder which CORRECTEK may incur in respect of this Agreement.

5. SUPPORT

5.1 Training. CORRECTEK will provide orientation and training to providers and staff of ESCAMBIA COUNTY SHERIFF'S OFFICE. Training shall commence on a mutually agreed upon schedule and date. Training will be conducted at the ESCAMBIA COUNTY SHERIFF'S OFFICE facility or a mutually agreeable

facility. Training for new or additional employees following the initial training and implementation of the SOFTWARE will be billed at the rate set forth on the Fee Schedule in Exhibit "A" attached hereto. Training and Certification in the use of the SOFTWARE is mandatory for all User employees of ESCAMBIA COUNTY SHERIFF'S OFFICE.

5.2 Support. CORRECTEK shall make Technical Support available to ESCAMBIA COUNTY SHERIFF'S OFFICE in respect to the SOFTWARE for as long as SOFTWARE remains part of CORRECTEK's product line. ESCAMBIA COUNTY SHERIFF'S OFFICE entitlement to technical support shall be contingent upon payment of the fees set forth in Exhibit "A" attached hereto.

6. TERM.

This Agreement shall have a term of one (1) year commencing on the date it is executed by both parties hereto, and thereafter it shall automatically renew for successive renewal terms of one year each unless either party gives written notice of its intent not to renew to the other party at least thirty (30) days prior to the date of any renewal. Upon renewal of this Agreement, ESCAMBIA COUNTY SHERIFF'S OFFICE shall pay CORRECTEK all fees set forth in Exhibit "A" attached hereto.

7. PROPRIETARY RIGHTS

7.1 Title. ESCAMBIA COUNTY SHERIFF'S OFFICE acknowledges that the SOFTWARE and MANUALS are the valuable trade secrets of CORRECTEK. CORRECTEK shall be the sole and exclusive owner of the SOFTWARE.

7.2 Proprietary Rights Notices. ESCAMBIA COUNTY SHERIFF'S OFFICE agrees that it will not alter or otherwise obscure any proprietary rights notices appearing in the SOFTWARE or MANUALS.

8. WARRANTY

ESCAMBIA COUNTY SHERIFF'S OFFICE acknowledges that because of the complexity of computer technology, CORRECTEK cannot and does not warrant that the software operations will be uninterrupted and error free. CORRECTEK warrants that for a period of Ninety (90) days after installation of the SOFTWARE (the "Warranty Period") the SOFTWARE will perform substantially in accordance with the Documentation. In the event of any defect arising during the Warranty Period, CORRECTEK shall correct such performance problems promptly following receipt of written notice from ESCAMBIA COUNTY SHERIFF'S OFFICE of such defects.

9. LIMITATION OF LIABILITY

Except as otherwise herein provided: (A) CORRECTEK shall not have any liability for incidental, consequential, indirect, special or punitive damages of any kind or for loss of revenue or loss of business arising out of or in connection with this agreement, regardless of the form of the action, whether in contract, tort (including negligence), strict software liability or otherwise, even if any representative of a party hereto has been advised of the possibility of such

damages; and (B) in no event shall CORRECTEK's liability under this agreement exceed the amounts paid by ESCAMBIA COUNTY SHERIFF'S OFFICE to CORRECTEK under this Agreement.

10. SOFTWARE ESCROW AGREEMENT

10.1 CorrecTek, Inc. has entered into a software escrow agreement, a copy of which is attached hereto as Exhibit "B" and incorporated by reference herein, whereby CorrecTek, Inc. has agreed to deposit with Escrow Agent, McMurray and Livingston, a Kentucky professional service corporation, a sealed package containing disk(s), disk packs, or other forms of media, in machine readable form and the written documentation prepared in connection therewith (the "Deposited Materials") for the computer software product CorrecTek. Based upon the terms of the Software Escrow Agreement, upon certain events the deposited materials can be made available to licensees of the computer software product CorrecTek.

11. DISPUTE RESOLUTION

11.1 Negotiation and Mediation. In the event of any dispute arising between the parties to this Agreement, other than a claim for non-payment of fees by CorrecTek against ESCAMBIA COUNTY SHERIFF'S OFFICE, negotiation will commence upon written notice from one party to the other. Settlement discussions and materials will be confidential and inadmissible in any subsequent proceeding without both parties' written consent. If the dispute is not resolved by negotiation within 45 days following such notice, the parties will refer the dispute to non-binding mediation conducted in the Florida county in which ESCAMBIA COUNTY SHERIFF'S OFFICE is located unless otherwise agreed upon by the parties. The parties shall share the costs of mediation.

11.2 Arbitration. If the dispute is not resolved within 45 days after mediation, the parties will refer the dispute to binding arbitration for final resolution pursuant to the Commercial Arbitration Rules of the American Arbitration Association ("AAA"), by one arbitrator appointed in accordance with such rules. All arbitration proceedings shall take place in the Florida county in which ESCAMBIA COUNTY SHERIFF'S OFFICE is located and the laws applicable to the arbitration proceeding shall be the laws of the State of Florida. The award of the arbitrator shall be the sole and exclusive remedy between the parties regarding any claims, counterclaims, issues or accountings presented or pled to the arbitrator; shall be made and shall promptly be payable free of any tax, deduction or offset; any costs, fees or taxes incident to enforcing the award shall, to the maximum extent permitted by law, be charged against the party resisting such enforcement. Judgment upon the award of the arbitrator may be entered in the court having jurisdiction thereof, or application may be made to such court for a judicial acceptance of the award or an order of enforcement.

11.3 Legal Fees. In the event of any dispute arising between the parties, the prevailing party shall be reimbursed by the non-prevailing party for any and all costs associated therewith, including reasonable attorneys' fees and paralegal fees for all stages of dispute resolution.

11.4 Limitations Period. Absent fraudulent concealment, neither party may raise a claim more than three years after it arises or any shorter period provided by applicable statutes of limitations.

12. MISCELLANEOUS

12.1 Entire Agreement. This Agreement constitutes the entire Agreement between the parties concerning the subject matter hereof and supersedes all prior and contemporaneous agreements and communications, whether oral or written, between the parties relating to the subject matter hereof, and all past courses of dealing or industry custom. The terms and conditions hereof shall prevail exclusively over any written instrument submitted by ESCAMBIA COUNTY SHERIFF'S OFFICE including any purchase order, and ESCAMBIA COUNTY SHERIFF'S OFFICE hereby disclaims any terms therein, except for terms therein relating to product description, quantity thereof, pricing thereof, shipment and delivery.

12.2 Terms of Agreement Severable. If a court having jurisdiction should hold any provision in this Agreement illegal or unenforceable, such provision shall be modified to the extent necessary to render it enforceable without losing its intent; or severed from this Agreement if no such modification is possible, and other provisions of this Agreement shall remain in full force and effect.

12.3 Headings. The headings of the sections of this Agreement are used for convenience only and shall have no substantive meaning.

12.4 Survival. The provisions of Sections 2.2, 2.3, 7.1, 7.2, 9, 10.1, 11.1, 11.2, 11.3 and 11.4 shall survive the termination of this Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by their duly authorized representatives, on the date first above written.

FEE SCHEDULE

The license and services provided to ESCAMBIA COUNTY SHERIFF'S OFFICE pursuant to this Agreement include four components. They are (1) a non-exclusive facility software license; (2) training, implementation and customization of the software system; (3) additional services, such as adding additional user interfaces and training new employees after the initial implementation; and (4) annual technical support and upgrades. ESCAMBIA COUNTY SHERIFF'S OFFICE agrees to pay CORRECTEK the following fees for the license and services:

FIRST YEAR FEES:

1. **NON-EXCLUSIVE FACILITY SOFTWARE LICENSE FEE..... $90,000.00**
   The Facility Software License Fee is a one-time charge for the software license granted pursuant to this Software License Agreement.

2. **TRAINING, IMPLEMENTATION AND CUSTOMIZATION FEE..... $47,447.04**
   Training, Implementation and Customization includes a facility assessment, delivery and installation of the software, on-site initial User training, on-site "Go Live" support and software customization. All CORRECTEK travel costs are included in the Training and Implementation Fee.

3. **ADDITIONAL FEES:**

   ADDITIONAL INTERFACE FEES:..... **$25,000.00**
   This fee is for modifications to accommodate specialized user interfaces for other software systems such as pharmacy, laboratory and jail management systems.

   1st year annual Technical support and upgrades fee...**(waived, 1st year)**..... **$11,520.00**

   TOTAL FIRST YEAR FEES..... $162,447.00

SUBSEQUENT YEAR FEES:

4. **ANNUAL TECHNICAL SUPPORT AND UPGRADE FEE..... $11,500.00**
   The Technical Support and Upgrade Fee is payable annually at the beginning of the second year of the Agreement and every year thereafter for which such support is desired. The Technical Support and Upgrade Fee includes all software upgrades, which will be provided as they are developed.

   This rate will remain effective for a period of **TWO (2) YEARS** after commencement of this Agreement. Thereafter, CORRECTEK may increase the Annual Maintenance and Support Fee by sending written notice of such increase to ESCAMBIA COUNTY SHERIFF'S OFFICE at least sixty (60) days prior to the annual contract renewal.

PAYMENT SCHEDULE:

ESCAMBIA COUNTY SHERIFF'S OFFICE agrees to pay the Total First Year Fees on the following schedule:

- 70% due upon execution of this Agreement;
- 25% due upon completion of installation and initial User training;
- 5% due Ninety (90) days after the "Go Live" date.

ASSIGNMENT AND ASSUMPTION
OF SOFTWARE LICENSE AGREEMENT

THIS ASSIGNMENT AND ASSUMPTION OF SOFTWARE LICENSE AGREEMENT (hereinafter referred to as "ASSIGNMENT") is entered into as of the 10th day of ~~August~~ September, 2013, by and between ESCAMBIA COUNTY SHERIFF'S OFFICE (hereinafter referred to as "ASSIGNOR"), ESCAMBIA COUNTY BOARD OF COUNTY COMMISSIONERS (ECBOCC), (hereinafter referred to as "ASSIGNEE"), and CORRECTEK, INC. (hereinafter referred to as "CORRECTEK"), (collectively the "PARTIES"), who hereby agree as follows:

1. Software License. "SOFTWARE LICENSE" means that certain Software License Agreement effective June 30, 2009 between CORRECTEK and ASSIGNOR, for the license of certain correctional EHR software to ASSIGNOR. A copy of the Software License Agreement is attached hereto as Exhibit A.

2. Assignment. For good and valuable consideration received by ASSIGNOR, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR hereby grants, transfers, and assigns to ASSIGNEE all of the right, title and interest of ASSIGNOR in and to the SOFTWARE LICENSE.

3. Consent. Notwithstanding the provisions of the SOFTWARE LICENSE to the contrary, CORRECTEK ratifies, approves, and consents to ASSIGNOR assigning its right, title and interest in the SOFTWARE LICENSE to ASSIGNEE.

4. Assumption. ASSIGNEE hereby assumes the covenants, agreements, rights, duties, and obligations of ASSIGNOR which are applicable to the period, and required to be performed, from and after the date of this ASSIGNMENT, but not otherwise. No person or entity other than ASSIGNOR shall be deemed a beneficiary of the provisions of this Section 4.

5. Indemnification. ASSIGNOR agrees to be responsible, to the extent permitted by Florida law, for all obligations of the ASSIGNOR under the SOFTWARE LICENSE to the extent such obligations were applicable to the period, and required to be performed, prior to the date of this ASSIGNMENT . ASSIGNEE agrees to be responsible, to the extent permitted by Florida law, for all obligations assumed by the ASSIGNEE under the SOFTWARE LICENSE to the extent that such obligations are required to be performed, from and after the date of this ASSIGNMENT. ASSIGNEE is a state agency or political subdivision as defined in §768.28, Fla.Stat., and agrees to be fully responsible for the acts and omissions of his own agents or employees to the extent permitted by law. Nothing herein shall operate as a waiver of the ASSIGNEE'S sovereign immunity pursuant to the Florida Constitution and §768.28, Fla.Stat. There are no intended third party beneficiaries to this agreement and nothing herein shall be construed to grant any person, firm, or other entity which is not a signatory to this ASSIGNMENT any rights, benefits, or privileges to rely on or demand performance of any provision of this ASSIGNMENT.

6. Legal Expenses. PARTIES shall be responsible for their own attorneys' fees and costs in connection with any legal proceeding(s) seeking to enforce the terms of this ASSIGNMENT.

7. Jury Trial Waiver; Venue. The PARTIES hereby irrevocably, knowingly and voluntarily waive trial by jury in any action, proceeding or counterclaim brought by any of the parties against the other or their successors in respect to any matter arising out of or in connection with this ASSIGNMENT.

8. Successors and Assigns. This ASSIGNMENT shall be binding upon and inure to the benefit of each of the Parties and their respective successors and assigns.

9. Power and Authority. The PARTIES represent and warrant to the other that it is fully empowered and authorized to execute and deliver this ASSIGNMENT, and the individual signing this ASSIGNMENT on behalf of such Party represents and warrants to the other Party that he or she is fully empowered and authorized to do so.

IN WITNESS WHEREOF, the PARTIES have executed and delivered this Assignment as of the day and year first above written.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17830 **County Administrator's Report 12. 1.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: State Law Enforcement Trust Fund Appropriation
From: Henrique Dias, Chief Financial Officer
Organization: Escambia County Sheriff's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning State Law Enforcement Trust Fund - Henrique Dias, Chief Financial Officer, Escambia County Sheriff's Office Finance Division

That the Board approve the following allocations of Law Enforcement Trust (LET) Funds, per the requirements of F.S. 932.7055(5), for Outside Agency partners in Escambia County for Fiscal Year 2019/2020:

A. Gulf Coast Council, Boy Scouts of America, in the amount of $7,500; and

B. The Her Foundation in the amount of $1,000.

Upon approval of these funding allocations, the Sheriff's Office will process all appropriate paperwork and submit for payment from LET Funds to the Escambia Clerk of the Circuit Court and Comptroller.

[Funding Source: Fund 121, Law Enforcement Trust Fund, Cost Center 540103, Aids to Private Organizations 58201]

BACKGROUND:

Per F.S. 932.7055(5), certain law enforcement activities generate a revenue stream that must be appropriated into the Law Enforcement Trust to be expended by the Sheriff. These funds support various law enforcement related activities in Escambia County.

List of Agencies with amount (appropriate backup for each agency is attached):

Gulf Coast Council, Boy Scouts of America - $7,500

The Her Foundation - $1,000

Attn: William Egan
9440 University Parkway, Pensacola FL 32514

Re: Your Request for Funds from the Escambia Law Enforcement Trust Fund dated March 1, 2020.

Dear William Egan,

We have received your request to provide your organization with funds from the Escambia Law Enforcement Trust (LET) fund. Your request for funding for Crime Prevention, Drug Prevention, Drug Education, Safe Neighborhood or other law enforcement purposes has been reviewed and approved by the Sheriff for the amount of $7500. The Sheriff has submitted your request to the Escambia County Board of County Commissioner with his written certification that the funds will be used for a purpose authorized by law.

Your request for LET funding, as approved by the Sheriff, is now awaiting review by the Escambia County Board of County Commissioners. The funds cannot be provided to you until your request is approved by the Board.

Please contact the County Commissioner for your district for information on the status of your request.

Point of contact in this matter is Daniel Capozzolo, C.F.O. administrative assistant at 850-436-9949.

Supporting Documentation is attached. Please see attached. If you have a further questions please give me a call.

The SLET funds will be used to educate Scouts of Pensacola Bay District of the Gulf Coast Council and elementary age youth within Escambia County School District. We are requesting $15,000, of course any amount the Sheriff's Department can allocate is greatly appreciated. Here is the breakdown for the funds requested.

Local scouting produces local activities throughout the year that engage boys and girls from 7-21 years old and instill values into them through drug awareness, community service, and gun safety. Youth are taught at an early age that any type of a firearm is not a toy and should never be used as such, as they grow through our program, they learn more important details of gun safety from NRA base trained range masters. We offer drug awareness training for youth of all ages to learn to avoid the dangers. And finally, we offer youth a postive experience in which they learn the importance of giving back to the community. Our nearly 2,000 local registered scouters, recorded over 11,000 hours of community service in 2019.

1) **Crime Prevention Merit Badge Sponsor - $5,000** We are educating today's youth and helping them to become better citizens and leaders for tomorrow. We teach them to have them live by the Scout Oath and Scout Law which emphasizes (Trustworthy, Loyal, Helpful, Friendly, Courteous, Kind, Obedient, Cheerful, Brave, Clean, and Reverent), which will allow them to be the leaders and citizens that we want in the future. We will use the funds and designate the Escambia County Sheriff's Office as the official Crime Prevention Merit Badge Sponsor for the Gulf Coast Council (I have attached a sheet with the Merit Badge Sponsorship details.) It will go into the overall operating budget for the council to help provide the programs for the scouts of today that will make them the leaders for tomorrow. These funds provide the necessary financial support to fund several opportunities throughout the year for local youth to participate in the Crime Prevention Merit Badge. We host a summer camp program where boys and girls 11-18 can participate in Merit Badge classes during a weeklong program along with gun safety programs. We host a day long Merit Badge University that we can offer this as an option for youth to earn the Merit Badge and learn about crime prevention. We will also host merit badge classes in online sessions throughout the year in which youth can log

on and participate in a one-day online session about the Crime Prevention Merit Badge.

2) **Fall Camporee T-shirt Sponsor - $2,500** (will have approved Sheriff Artwork on the shirts) This is an annual weekend long campout for boys and girls from 11-21 that traditionally hosts 350-450 youth for activities and will be held in September of 2020.
3) **Cub Scout Day Camp Sponsor - $2,500** (will have approved Sheriff Artwork on the shirts) – this is an annual weeklong event over the summer for elementary age children 6-10 years old. We traditionally have 70+ youth participants, and it is through sponsorships such as this that we can keep the costs low for the participants. This gives youth an opportunity to learn about gun safety, community service, interactive activities, and STEM based learning projects.
4) **In School Drug Abuse Prevention Awareness Program - $7,500** (will have approved Sheriff Artwork on all flyers) Flyers are distributed to every Escambia County Student grade K-5th. We would use the following program offered through the Boy Scouts of America to train staff and leadership and purchase all the supplies necessary to provide handouts to the youth and present this program to elementary age youth through partnering with Escambia County School District and presenting classroom presentations or smaller assemblies. ***Drugs: A Deadly Game!*** is the drug abuse prevention awareness program of the Boy Scouts of America. It is a drug education experience designed to stimulate discussion in small groups and classroom settings and to get children talking—and learning—about the dangers of drug use and abuse. This is a program that we actively use with our youth annually through our program.

BOY SCOUTS OF AMERICA®
NATIONAL COUNCIL

January 26, 2018

Spencer C. Page, SE
Gulf Coast, #773
9440 University Parkway
Pensacola, FL 32514-5434

Re: Requests for information regarding your council's federal tax-exempt status

Dear Spencer:

This letter clarifies the tax-exempt status of your council. The Boy Scouts of America, National Council, is recognized as a public charity and tax exempt under IRC Section 501(c)(3), as well as IRC Section 170(b)(1)(A)(vi). We are not a private foundation as described in IRC Section 509(a). A copy of our current tax-exempt determination letter is attached.

For tax purposes, your council is a bona fide subordinate organization of the Boy Scouts of America, in good standing, and covered under the Boy Scouts of America's group exemption ruling, IRS Ruling No. 1761. Though the council is a separate entity and responsible for its own, independent audit, our exemption ruling extends the same recognition of tax-exempt status to this council as to the Boy Scouts of America National Council.

Each year, the Boy Scouts of America National Service Center submits to the IRS in electronic format a list of approved subordinate organizations which includes all local councils and their endowment trusts. Your council's information is on the attached list of subordinates.

On behalf of the many young men and women you serve in your council area, thank you again for all you do for Scouting. Questions, if any, can be directed to Russ McNamer, Associate General Counsel – Tax and Corporate, National Service Center, Legal Department, (972) 580-2226 (O), (214) 801-6974 (C) or Russ.McNamer@scouting.org.

Very truly yours,

Michael B. Surbaugh
Chief Scout Executive

Employer identification number: 22-1576300
Group exemption number: 1761

Dear Taxpayer:

This is in response to your request dated Jan. 09, 2018, for information about your tax-exempt status.

Our records indicate we issued a determination letter to you in NOVEMBER 1965, and you're currently exempt under Internal Revenue Code (IRC) Section 501(c)(03).

We also recognized the subordinates on the list you submitted as exempt from federal income tax under IRC Section 501(c)(03).

For federal income tax purposes, donors can deduct contributions they make to you as provided in IRC Section 170. You're also qualified to receive tax deductible bequests, legacies, devises, transfers, or gifts under IRC Sections 2055, 2106 and 2522.

Because IRC Section 170(c) describes your subordinate organizations, donors can deduct contributions they make to them.

Please refer to www.irs.gov/charities for information about filing requirements. Specifically, IRC Section 6033(j) provides that, if you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked on the filing due date of the third required return or notice.

In addition, each subordinate organization is subject to automatic revocation if it doesn't file a required return or notice for three consecutive years. Subordinate organizations can file required returns or notices individually or as part of a group return.

For tax forms, instructions, and publications, visit www.irs.gov or call 1-800-TAX-FORM (1-800-829-3676).

If you have questions, call 1-877-829-5500 between 8 a.m. and 5 p.m., local time, Monday through Friday (Alaska and Hawaii follow Pacific Time).

is exempt from the payment of Florida sales and use tax on real property rented, transient rental property rented, tangible personal property purchased or rented, or services purchased.

FLORIDA

Important Information for Exempt Organizations

DR-14
R. 10/15

1. You must provide all vendors and suppliers with an exemption certificate before making tax-exempt purchases. See Rule 12A-1.038, Florida Administrative Code (F.A.C.).

2. Your *Consumer's Certificate of Exemption* is to be used solely by your organization for your organization's customary nonprofit activities.

3. Purchases made by an individual on behalf of the organization are taxable, even if the individual will be reimbursed by the organization.

4. This exemption applies only to purchases your organization makes. The sale or lease to others of tangible personal property, sleeping accommodations, or other real property is taxable. Your organization must register, and collect and remit sales and use tax on such taxable transactions. Note: Churches are exempt from this requirement except when they are the lessor of real property (Rule 12A-1.070, F.A.C.).

5. It is a criminal offense to fraudulently present this certificate to evade the payment of sales tax. Under no circumstances should this certificate be used for the personal benefit of any individual. Violators will be liable for payment of the sales tax plus a penalty of 200% of the tax, and may be subject to conviction of a third-degree felony. Any violation will require the revocation of this certificate.

6. If you have questions regarding your exemption certificate, please contact the Exemption Unit of Account Management at 800-352-3671. From the available options, select "Registration of Taxes," then "Registration Information," and finally "Exemption Certificates and Nonprofit Entities." The mailing address is PO Box 6480, Tallahassee, FL 32314-6480.

Form **W-9**
(Rev. November 2017)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
Gulf Coast Council Boy Scouts of America

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ _____

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
9440 University Parkway

Requester's name and address (optional)

6 City, state, and ZIP code
Pensacola, FL 32514

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
☐☐☐ – ☐☐ – ☐☐☐☐

or

Employer identification number
5 9 – 0 6 2 4 4 0 5

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ _____ Date ▶ 4.23.18

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Re: Your Request for Funds from the Escambia Law Enforcement Trust Fund dated March 17, 2020.

Dear Nancy Bullock-Prevot,

We have received your request to provide your organization with funds from the Escambia Law Enforcement Trust (LET) fund. Your request for funding for Crime Prevention, Drug Prevention or other law enforcement purposes has been reviewed and approved by the Sheriff for the amount of $1000. The Sheriff has submitted your request to the Escambia County Board of County Commissioner with his written certification that the funds will be used for a purpose authorized by law.

Your request for LET funding, as approved by the Sheriff, is now awaiting review by the Escambia County Board of County Commissioners. The funds cannot be provided to you until your request is approved by the Board.

Please contact the County Commissioner for your district for information on the status of your request.

Point of contact in this matter is Daniel Capozzolo, C.F.O. administrative assistant at 850-436-9949.

To whom it may concern,

The HER Foundation is a nonprofit 501c3 (38-4012413) founded in 2016 that is dedicated to Honoring, Empowering, and Rebuilding our sisters in arms. Our organization helps reduce crime and drug abuse in the community by providing homeless females with food, housing, and adequate resources necessary for survival, preventing them from committing high risk acts such as theft, prostitution, drug trafficking, or sex trafficking. A large number of our female residents have also been victims of domestic violence crimes. Providing shelter and support through our foudation has allowed many females in our community to not only escape repeated domestic violence crimes, but become active advocates in the prevention of domestic violence in the community. On November 13th, 2020 the HER Foundation is hosting the "All Service Ball" in honor of all branches of the United States Armed Forces, local law enforcement, first responders, and spouses for a night of celebration and to honor those who serve and protect our community. To make this event successful, we need support from buisnesses and individuals. To help the foundation fund this event we are requesting a $5,000 donation packet purchased from your organization. Sponsorship of the "All Service Ball" will offset the cost of the event and will help The HER Foundation continue its mission to help prevent crime in the community and provide support, medical care, education, housing, and job placement services to homeless female veterans. Your donation would include 8 reserved seats at the "All Service Ball," swag bags for 8 guests, bottle service, 8 signature drink tickets, logo placement/listing on all market materials (social medi, press release, website, flyers, posters), verbal mention as event sponsor on all televsion and radio promos, and post-event recognition in print media. Please review the sponsorship information and send in your pledge to support our "All Service Ball." Thank you for considering this request. Please feel free to contact me with any questions and to discuss this opportunity and future partnership.

Sincerely,

Nancy Bullock-Prevot

We changed your mailing address

We updated our records for your mailing address.

We update our records anytime the address entered on a tax return is different from what we have in our records, or a Form 8822-B is received.

The address shown above is where we will mail any IRS notice or letter about your tax account. We also sent a confirmation notice to your previous mailing address.

What you need to do

Our update to your address may be for minor changes in words and abbreviations, such as using "Street" rather than "St." in your address. To avoid confusion, you or your tax preparer should always enter your correct mailing address in exactly the same way every time you file tax returns.

If the mailing address for IRS notices and letters shown above is correct, you do not need to do anything.

If the mailing address shown above is incorrect, call or write to us using the contact information at the top of this page. If you call, please review the most recent tax returns you filed for differences in addresses entered. For written correspondence, include a copy of this notice.

Caution for employers regarding third-party payroll providers

If we find any issues with an account, we send a letter or notice to your address of record. We strongly caution any employer against changing the address of record to that of a payroll service provider or other third party as it may significantly limit our ability to inform the employer of tax matters involving the business. The employer is ultimately responsible for depositing and paying all federal employment tax liabilities.

For more information, visit www.irs.gov and search keywords, "Change of Address" or "Outsourcing Payroll Duties."

Additional information

- Visit www.irs.gov/cp148a
- For tax forms, instructions, and publications, visit www.irs.gov or call 1-800-TAX-FORM (1-800-829-3676).
- Keep this notice for your records.

If you need assistance, please don't hesitate to contact us.

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here Signature of U.S. person ▶ [signature] Date ▶ [illegible]

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at *www.irs.gov/fw9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding? on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17744 **County Administrator's Report 12. 2.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: Recommendation Concerning the Acquisition of Real Property at 164 Diego Circle
From: CLARA LONG, Acting Director
Organization: Neighborhood & Human Svcs
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Acquisition of Real Property Located at 164 Diego Circle for the Erress Boulevard and Diego Circle Blight Reduction Project - Clara Long, Interim Neighborhood & Human Services Department Director

That the Board either approve, by super majority vote, or deny the following action:

A. Authorize the purchase of real property located at 164 Diego Circle, from Allen L. Janssen, for the Erress Boulevard and Diego Circle Blight Reduction Project, in the amount of $25,000 (County's appraised value is $19,000);

B. Approve the Contract for Sale and Purchase for the acquisition of real property located at 164 Diego Circle (.0560 acres); and

C. Authorize the County Attorney's office to prepare, and the Chairman or Vice Chairman to execute, subject to Legal Review and sign-off, any documents necessary to complete the acquisition of this property without further action of the Board.

This parcel is located in Commission District 3.

[Funding: Fund 129/2017 CDBG, Cost Center 370231]

BACKGROUND:

Westernmark subdivision located on Erress Boulevard and Valencia Arms subdivision located on Diego Circle are neighborhoods located in the CRA Palafox Redevelopment District. Many of the units within the neighborhood have become neglected and/or abandoned, leading to severe blighted and slum conditions. Escambia County has conducted multiple refuse "clean sweeps" through the neighborhood; there have been numerous repetitive code violations in which properties currently have outstanding liens.

During the June 22, 2017, BCC Meeting, the Board authorized staff to begin the process to pursue acquisition on all properties that had vacant lots and unoccupied structures. Neighborhood & Human Services staff have identified over 30 potential parcels to solicit for acquisitions. Staff has sent correspondence to all identified vacant properties and have completed appraisal reports, title insurance commitments, and other related activities in implementing the project. The acquisition checklist has been provided with this Recommendation.

A preliminary offer was made to the owner for the appraised value of the property at $19,000, but the owner has counter-offered with $25,000. The current property value from the Escambia County Property Appraiser notes the value at $13,592. Four votes from the Board would be needed to authorize this purchase price.

BUDGETARY IMPACT:

Funding for acquisition is budgeted in Fund 129, 2017 CDBG, Cost Center 370231.

LEGAL CONSIDERATIONS/SIGN-OFF:

Contract for Sale and Purchase was reviewed and approved as to form and legal sufficiency by Stephen West, Senior Assistant County Attorney. Any additional documents will be reviewed by the County Attorney's office for approval.

PERSONNEL:

Not applicable to this Recommendation. All work associated with this request is being handled by County staff.

POLICY/REQUIREMENT FOR BOARD ACTION:

These actions are consistent with the provisions of Section 46-139 of the Escambia County Code of Ordinances.

IMPLEMENTATION/COORDINATION:

Upon Board action, Neighborhood & Human Services Department staff will implement in consultation with the County Attorney's office.

Contract-164DiegoCircle-May72020

CONTRACT FOR SALE AND PURCHASE

This is a Contract for Sale and Purchase ("Contract"), between Allen L. Janssen, a married man, whose address is 7895 Hestia Place, Pensacola, Florida 32506 ("Seller"), and ESCAMBIA COUNTY, a political subdivision of the State of Florida, acting by and through its duly authorized Board of County Commissioners, whose address is 221 Palafox Place, Pensacola, Florida 32502 ("Buyer").

1. AGREEMENT. Seller agrees to sell and Buyer agrees to buy the real property described in Exhibit A, together with all structures, fixtures, and improvements (the "Property") upon the terms and conditions stated in this Contract. Authorization for this purchase was obtained during a duly advertised meeting of the Board of County Commissioners held on _____.

2. PURCHASE PRICE; PAYMENT. The purchase price is $25,000, payable to Seller at closing.

3. TIME FOR ACCEPTANCE; EFFECTIVE DATE; FACSIMILE. If the Contract is not executed by and delivered to all parties, or fact of execution communicated in writing between the parties, the Contract will be null and void. A facsimile copy of the Contract and any signatures on the Contract will be considered for all purposes as originals. The effective date ("Effective Date") of the Contract is the date when the last party signs the Contract.

4. TITLE EVIDENCE. Within thirty (30) days from the Effective Date of this Contract, Buyer shall examine title to the Property. If the title is found to be defective in Buyer's opinion, Buyer shall notify Seller in writing specifying the defects, and Seller shall have one hundred twenty (120) days from receipt of notice within which to cure the defects and the date for closing shall be accordingly extended. If Seller is unsuccessful in removing the defects within that time to Buyer's reasonable satisfaction, Buyer shall have the option of either (i) accepting title as it then is, including the title defect, or (ii) terminating this Contract, whereupon Buyer and Seller shall be released for all obligations under the Contract.

5. SELLER'S AFFIDAVIT AS TO UNRECORDED MATTERS, POSSESSION AND MECHANIC'S LIENS. Subject to any provisions in the Contract to the contrary, Seller must furnish to Buyer at closing an affidavit in a form acceptable to the Buyer and sufficient to remove standard printed exceptions to title in an owner's policy of title insurance regarding (i) unrecorded matters (except for taxes not yet due and payable and special assessments not shown by the public records), (ii) parties in possession, except for the rights of tenants, if any, as tenants only, in possession and occupancy of the Property under written leases which have been furnished to Buyer by Seller and accepted by Buyer in writing, and (iii) mechanic's liens. Seller represents to Buyer that there are and at closing there will be no tenants or lessees occupying the Property or any portion of the Property. The Seller's Affidavit must contain information required for completion of Internal Revenue Service 1099 Form and a FIRPTA disclosure.

6. COSTS AND EXPENSES. Seller and Buyer will pay costs and expenses as follows: prorated ad valorem taxes and assessments (Seller); Deed Documentary Stamp Tax (Seller); Survey (Buyer); Title Insurance (Buyer); Recording of Deed (Buyer); Buyer's Attorney's Fees (Buyer); Seller's Attorney's Fees (Seller); Environmental Assessment (Buyer), costs to cure title defects and encumbrances on title (Seller).

7. BROKERS. Neither Buyer nor Seller have utilized the services of, or for any other reason owes compensation to, a licensed real estate broker.

8. TAXES AND ASSESSMENTS. All real estate taxes and assessments which are or which may become a lien against the Property must be satisfied by Seller at closing. In the event the closing occurs between January 1 and November 1, Seller must, in accordance with Section 196.295, Florida Statutes, place in escrow with the county tax collector an amount equal to the current taxes prorated to the date of transfer, based upon the current assessment and millage rates on the Property. In the event the closing occurs on or after November 1, Seller must pay to the tax collector an amount equal to the taxes that are determined to be legally due and payable.

9. CONVEYANCE AND TRANSFER OF TITLE. Seller shall convey title to the Property by Warranty Deed.

10. CLOSING. This transaction will be closed, and the Warranty Deed and other closing documents prepared by the Office of the County Attorney, 221 Palafox Place, Suite 430, Pensacola, Florida 32502. Closing shall occur on or before thirty (30) days from the Effective Date of this Contract unless the date for closing is extended by mutual agreement of the parties or as otherwise provided in this Contract.

11. CLOSING PROCEDURE; DISBURSEMENT OF PROCEEDS OF SALE. At closing, Seller shall deliver the Warranty Deed and the proceeds of the sale will be disbursed to Seller in accordance with a settlement statement signed by both parties.

12. FAILURE OF PERFORMANCE. If Buyer fails or refuses to perform the Contract and Seller is not in default under this Contract, Seller will receive the deposit/earnest money, if any, plus all interest accrued, and other reasonable costs incurred by the Seller in reliance on the Contract, to be paid by Buyer as liquidated damages, consideration for the execution of the Contract and in full settlement of any claims for damages and as Seller's sole remedy under the Contract and Seller has no right of specific performance. If Seller fails or refuses to perform the Contract for any reason and Buyer is not in default under the Contract, (i) Buyer may proceed in law or in equity to enforce Buyer's rights under the Contract, or (ii) Buyer may elect to terminate the Contract and to receive the return of Buyer's deposit, plus interest earned, and reimbursement from Seller for all costs and expenses Buyer incurred with regard to the Contract in full settlement of any claims for damages.

13. ATTORNEYS' FEES; COSTS. Each party shall be responsible for their own attorneys' fees and costs in connection with any litigation or other dispute resolution proceeding.

14. SURVIVAL. All representations and warranties contained in the Contract and any provision of the Contract which by their nature and effect are required to be observed, kept or performed after closing, (i) survive closing and the delivery of the Warranty Deed, and (ii) remain binding upon and for the benefit of the parties to the Contract, their respective successors and assigns, until fully observed, kept or performed.

15. ASSIGNABILITY. Buyer and Seller cannot assign the Contract or rights under the Contract without the express written consent of the other.

16. RISK OF LOSS. The risk of loss to the Property is the responsibility of Seller until closing.

17. RADON GAS. Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from the Escambia County public health unit.

18. OTHER AGREEMENTS. No prior or present agreements or representations are binding upon Buyer or Seller unless included in the Contract. No modification or change in the Contract is valid or binding upon the parties unless in writing and executed by the parties to be bound.

19. NOTICES. Any notice or demand to be given or that may be given under this Contract must be in writing and delivered by hand or delivered through the United States mail to:

TO BUYER:
Neighborhood Enterprise Division
c/o Meredith Reeves
221 Palafox Place, Suite 200
Pensacola, Florida 32502

TO SELLER:
Allen L. Janssen
7895 Hestia Place
Pensacola, Florida 32506

WITH A COPY TO:
Escambia County Attorney's Office
221 Palafox Place, Suite 430
Pensacola, Florida 32502

20. COUNTERPARTS. The Contract will be executed in duplicate counterparts, both of which taken together constitute one and the same instrument and any party or signatory may execute the Contact by signing a counterpart.

21. THIRD PARTY LEASES AND CONTRACTS. Seller shall at closing furnish to Buyer releases from any mortgage or existing leases.

22. SURVEY. Buyer may obtain a survey at its own expense. If Buyer prepares a survey and objectionable items are disclosed, objectionable matters will be viewed as title defects

and the provisions of Paragraph 4 shall apply.

23. INSPECTION OF PROPERTY. Upon reasonable notice and without disruption of Seller's current use of the Property, Buyer may have subsurface investigations and environmental audits of the Property made by qualified geotechnical and environmental engineers sufficient in the judgment of the inspecting engineer to ascertain whether or not the Property meets the standards acceptable to Buyer. In the event that the report indicates that the Property does not meet Buyer's standards, Buyer, by notice to Seller on or before 10 days prior to closing, has the option of terminating the Contract and Seller agrees to return any deposit paid by Buyer. Seller warrants that there are no facts known to Seller materially affecting the value of the Property, which are not readily observable by Buyer or which have not been disclosed to Buyer.

24. ACCESS. Upon prior notice to Seller, Buyer and Buyer's agents and representatives shall have the right to access the Property at any reasonable time prior to closing for the purpose of making the investigations, environmental audits, inspections and surveys authorized by the Contract, provided neither Buyer nor its agents interfere with the use of the Property by Seller or its employees or customers.

25. OCCUPANCY AND POSSESSION. Seller warrants delivery of possession of the Property to Buyer at closing.

26. CONDEMNATION. Seller conveys by sale the Property for public use and waives any right to compensation for the Property other than as provided for in the Contract. If at any time prior to closing, the Property or any portion of the Property is taken by the exercise of eminent domain by another entity possessing those powers or if any preliminary steps in any taking by eminent domain of all or any portion of the Property occurs prior to closing, Buyer may, at Buyer's option, within 10 days after notice of this fact from Seller, rescind the Contract and Seller must return any deposit paid under the Contract to Buyer. Upon refund of the deposit, plus any interest earned, Buyer and Seller are released, as to one another, of all further obligations under the Contract. Seller shall notify Buyer of any taking by eminent domain and all steps preliminary to any taking immediately upon Seller's knowledge of the occurrence. If Buyer does not exercise Buyer's option to rescind under this Paragraph, the Contract remains in full force and effect. In this event Seller, (i) shall pay to Buyer at closing all proceeds previously received by Seller from the condemning authority, and (ii) shall assign to Buyer at closing all proceeds to be paid by the condemning authority after closing by an instrument of assignment in a form reasonably acceptable to Buyer.

27. FOREIGN INVESTMENT AND REAL PROPERTY TAX ACT (FIRPTA) AFFIDAVIT. Seller agrees to furnish to Buyer at closing a transferor's certification disclosing under penalty of perjury Seller's foreign or non-foreign status and Seller's United States federal identification number. The certification must be, (i) in a form acceptable to Buyer, and (ii) if Buyer has non-foreign status, in a form meeting the requirements of Section 1445(a) of the Internal Revenue Code of 1986, as amended, and the Regulations under Section 1445(a).

THIS CONTRACT IS INTENDED TO BE A LEGALLY BINDING CONTRACT. IF NOT FULLY UNDERSTOOD, SEEK THE ADVICE OF AN ATTORNEY PRIOR TO SIGNING.

THIS CONTRACT SHALL NOT BE EFFECTIVE UNLESS APPROVED BY THE ESCAMBIA COUNTY BOARD OF COUNTY COMMISSIONERS AT A DULY NOTICED PUBLIC MEETING.

BOUNDARY SURVEY

EXHIBIT "A"

Legal Description (Per Official Record Book 5474, Page 1338).
Prepared at the request of the Community Redevelopment Agency
February 13, 2020

Lot 35, Valencia Arms, according to the plat thereof recorded in Plat Book 7, Page 99, Public Records of Escambia County, Florida.

SURVEYOR'S NOTES:

1) Measurements were made in accordance with the United States Standard Foot.
2) Basis of Bearings Reference: Grid North and the grid bearings shown hereon are based on the following:
   a. Projection Zone: Florida North (State Plane)
   b. Projection Type: Lambert Conformal Conic
   c. Datum: North American Datum of 1983 with a datum tag of 2011 (NAD83 (2011))
   d. North as shown hereon is referenced to Florida Department of Transportation (FDOT) Horizontal Control Network.
3) Joseph Barrett, Florida Professional Surveyor and Mapper did not perform a title search, nor however a title search been provided. Therefore, the survey shown hereon is subject to any facts that may be disclosed by a full and accurate title search.
4) Lands shown hereon were not abstracted by Joseph Barrett, Florida Professional Surveyor and Mapper, and is, therefore, subject to deeds of record, unrecorded deeds, easements, right-of-ways, building setbacks, restrictive covenants, or other instruments which could affect the boundaries or use of the subject property.
5) This survey does not reflect, determine, or guarantee ownership.
6) No attempt was made to locate any underground foundations, septic/drain fields, underground utilities, or overhead utilities.
7) Additions or deletions to survey map(s) or report(s) by other than the signing party or parties is prohibited without written consent of the signing parties.
8) The horizontal positions shown hereon were derived from the utilization of a TopCon Hiper V Real Time Kinematic (RTK) Global Positioning System (GPS) dual frequency receiver in RTK Mode utilizing the Florida Department of Transportation (FDOT) Florida Permanent Reference Network (FPRN).
9) The field survey was performed between February 6, 2020 through February 10, 2020 and recorded in Field Book 540, Pages 42 & 43.
10) Right of way and parcel lines are based on the Escambia County Property Appraiser's maps. They are "For Illustrative Purposes Only".
11) Improvement locations shown hereon may be exaggerated and not to scale for clarity purposes.
12) Documents used in the preparation of this Boundary survey: Escambia County Property Appraiser's Maps; existing field monumentation, and the Following Legal Description recorded in the Public Records of Escambia County, Florida: O.R. Book 5474, Page 1338, Plat Book 7, Page 99 of the public records of Escambia County, Florida.
13) Improvement locations shown hereon may be exaggerated and not to scale for clarity purposes.
14) The description and boundary survey are not full and complete without the other.
15) Boundary lines as shown were determined by a boundary survey performed by Escambia County.
16) The official record of this survey is the original signed and sealed paper version. Any electronic version(s) is not valid unless it is identical in all forms and respects to the original signed and sealed paper version. The onus of comparison is placed on the user of the electronic version.
17) The Survey Error of Closure meets the Survey Standards of practice.

Value Reconciliation

The sales comparison approach was used exclusively for this report. The comparable sales utilized bracket the subject well. All sales share many similarities in age, location, design, and size. Sales were limited for this size, age, and quality of home.

Legal Information: LT 35 VALENCIA ARMS PB 7 P 99 OR 5474 P 1338

This appraisal report is based on information obtained from a third-party inspector who has completed either a drive-by inspection and took photos from the public road; or a third party inspector who actually inspected the interior of the subject and who has provided photographs of the improvements and a condition rating along with other pertinent information that is assumed to be accurate and not misleading. I am relying on this information (in addition to other data as outlined) to discern information about the subject property for such features as quality, condition, and any amenities that may be revealed from a third-party (non-appraiser) inspector. I am making an assumption that my conclusions from this data are true and correct and I have no reason to believe that this information is incorrect.

How did you reconcile your value opinion? Was there a particular comparable that was most similar and supports your opinion of value?
The comparable sales bracket the subject property well. Comparable sale #1 is listed as slightly superior with an attached carport and larger lot size. Both sales #2 & #3 share similarities with location, size, age, and design of the subject property.

Was it necessary to use distant comparables or older sales?
Yes: Do to the limited comparable sales for the area. The date range was extended past one year in order to properly bracket the subject property.

Was your opinion of value bracketed by the sale price of the comparables? If not, why could it not be bracketed?
Yes:

Did you reconcile towards one end of the range because of market conditions?
Yes: The value is reconciled toward the upper end of the bracketed range due to the similarity in overall gross living area when compared to sale #3.

Market Conditions:
The market segment extends over several blocks and is primarily comprised of moderately priced homes with a wide range of pride of ownership. The community is bordered by Massachussetts Ave to the north, Fairfield Dr. to the south, Hwy 90 to the west, and N W street to the east. Montclair Elementary School is located to the north within walking distance of this property, as well as a local park that borders the community.

The supply and demand levels are balanced for this market and values are stable.

Market times are above average for the area and quality level of the homes with signs of sales stable.

Subject History

The subject has not been sold in the last 36 months

The Subject does not appear to have been listed in the MLS in the past year.

Additional Comments: The subject property has not been sold or listed for sale in the last three years. This was confirmed by county property records and the local MLS.

Scope of Work

SCOPE OF WORK:This assignment is an appraisal with a drive by (street only) site inspection by the appraiser. The appraiser has viewed the subject property from the street only and has not inspected the interior of the property. An exterior inspection of the comparable sales is not required. The appraiser will utilize resources typically available in standard appraisal practice to analyze and determine the specific details of the interior of the subject. At a minimum, if available through the normal course of business, the appraiser will investigate the specifics of the subject and comparable properties using public records, multiple listings services, aerial photography, and street view services. The level of inspection was completed based on the assignment conditions by the client, or to the degree the appraiser believed to be necessary to produce credible assignment results. The data used in the development of the opinion of value is reflective of this information and other relevant data available through public and/or private data sources. The appraiser developed a sales comparison approach using a qualitative relative comparison analysis. The cost approach and income approach were considered, but they were not completed because they are not necessary for a credible result within the definition of Market Value and the Scope of Work of this assignment. This report will only be completed if the appraiser deems available information to be relevant, reliable and sufficient to produce a credible result. The appraiser will summarize all information, analysis, opinions, and conclusions within the report. There is no personal property, fixtures or intangible items included in the opinion of value. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

Note: Mapping in this report is automated by geocoding the addresses of the comparable properties and is not assignment results of the appraiser. Manual corrections to geocoding errors are not controlled by the appraiser and must occur in quality control (QC) department of the client. The appraiser will receive a final copy of the report if quality control modifies any report elements beyond the appraisers control. The appraiser may accept these corrections or choose to reconsider their assignment results.

INTENDED USER: The client identified in the body of this appraisal report is the only intended user. This appraisal report content is specific to the needs of the intended user, and therefore, may not be appropriate for other users.

INTENDED USE: This appraisal report is intended to be used by the identified client/user solely for internal risk assessment as it relates to the value of the subject property. The Scope of Work is specific to the intended use and may not be appropriate for other uses.

DEFINITION OF MARKET VALUE:As defined in the Agencies' appraisal regulations, the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition are the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: Buyer and seller are typically motivated; Both parties are well informed or well advised, and acting in what they consider their own best interests; A reasonable time is allowed for exposure in the open market; Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. Source: Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

EXTRAORDINARY ASSUMPTIONS:An extraordinary assumption is directly related to a specific assignment and presumes uncertain information to be factual. If found to be false this assumption could alter the appraiser's opinions or conclusions. Any extraordinary assumption may affect the assignment results. In the absence of an interior inspection, the appraiser has made the following assumptions that, if found to be false, may affect the assignment results, including the following: Unless otherwise stated, the subject property characteristics are assumed to be the same as those provided from data sources available through the normal course of business (MLS public record etc.). The data provided by public/private data sources is accurate and reliable. The subject property is assumed to be legal and in compliance with current zoning and other local property ordinances. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) affecting the subject site or improvements.

HYPOTHETICAL CONDITIONS: A hypothetical condition is that which is contrary to what exists, but is asserted by the appraiser for the purpose of analysis. Any hypothetical condition may affect the assignment results. This appraisal is not subject to Hypothetical Conditions.

STATEMENT OF CONTINGENT AND LIMITING CONDITIONS: The Appraiser's Certification that appears in this report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property.
2. The appraiser assumes the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
3. The appraiser will not give testimony or appear in court because he or she performed this appraisal unless specific arrangements to do so have been made beforehand.
4. The appraiser has not made an interior inspection of the subject property. The appraiser assumes that there are no adverse conditions associated with the improvements or the subject site.Unless otherwise stated in the report, the appraiser has no knowledge of any hidden or apparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) present in the improvements, on the site or in the immediate vicinity that would make the property more or less valuable, and has assumed that there are no such conditions. The appraiser makes no guarantees or warranties, express or implied, regarding the condition of the property. Unless otherwise stated, the appraiser assumes that the improvements are in average condition. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report may not be considered an environmental assessment of the property. Should it be discovered that such item or similar items do exist; the opinion of value in this appraisal report may no longer be credible and should not be relied upon by anyone.
5. The appraiser based the information, estimates, and opinions that were expressed in the appraisal report on information developed from sources that he or she considers reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. See EXTRAORDINARY ASSUMPTIONS
6. Neither all nor any part of the contents of this report (especially any conclusions as to value, identity of the appraiser of the firm with which appraiser is connected, or any reference to appraisal organizations and designations) shall be disseminated to the public through advertising media, public relations media, news media, sales media or any other public means of communication, or to any other third parties, without the prior written consent and approval of the undersigned.

Appraiser's Certification

APPRAISER'S CERTIFICATION: The appraiser certifies, to the best of my knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions and conclusions.
3. I have no present or prospective interest in the property that is the subject of the report, and no personal interest with respect to the parties involved.
4. I have performed no (unless specified below) services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
5. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
9. I have performed an exterior inspection of the property that is the subject of this report. I have not inspected the comparable sales.
10. No one provided significant real property appraisal assistance to the person signing this report, unless otherwise noted and acknowledged within this report.
11. Jimmie Potts Trainee# RI24475 (Supervisor: G. Daniel Green, MAI, SRA St. Cert. Gen. REA #RZ836), is the only individual who has provided significant real property appraisal assistance to the person signing this certification.

CERTIFICATION FOR CONTRACTS, GRANTS, LOANS AND COOPERATIVE AGREEMENTS

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, and officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form To Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U. S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

AMERICAN LAND TITLE ASSOCIATION COMMITMENT

SCHEDULE B - SECTION I

Commitment No.: **147852-59**

1. Pay and/or disburse the agreed amounts for the interest in the land to be insured and/or according to the mortgage to be insured.

2. Pay us the premiums, fees and charges for the policy.

3. Pay all taxes and/or assessments, levied and assessed against the land, which are due and payable.

4. The following documents, satisfactory to us, creating the interest in the land and/or the mortgage to be insured, must be signed, delivered and recorded:

   a. **Warranty Deed from Allen L. Janssen, as a single person or joined by spouse, if married, to Escambia County, Florida conveying the land.**

   NOTE: Spouse of individual(s), if any, to join in the above required instrument(s) OR the document must state that captioned property is not the homestead of the grantor/mortgagor.

5. **Written evidence, from appropriate governmental authorities, that Special Taxing District, City and County Special Assessment Liens, MSBU Assessment Liens, Impact Fees, and Water, Sewer and Trash Removal Charges, if any, have been paid.**

6. **Perform an Office of Foreign Asset Control (OFAC) search (formerly known as a Patriot Act search) on all seller(s) and/or buyer(s), and follow proper procedures if any party's name appears on OFAC's Specially Designated Nationals (SDN) list.**

7. **For each policy to be issued as identified in Schedule A, Item 2, the Company shall not be liable under this commitment until it receives a specific designation of a Proposed Insured and/or the Amount of Coverage to be afforded and has revised this commitment to reflect same. As provided in Commitment Condition 4, the Company may amend this commitment to add, among other things, additional exceptions or requirements after the designation of the Proposed Insured or inclusion of the Amount of Coverage.**

8. **NOTE: Real Estate Taxes for the year 2019 were paid in the amount of $306.54; Gross Amount $319.31; Exemptions: No ; Folio No.: 0925S30-0550-000-035.**

9. **The following note is incorporated herein for informational purposes only and is not part of the exceptions from coverage (Schedule B-II of the commitment and Schedule B Part I of the policy): The following instrument(s) affecting said land is/are the last conveyancing instrument(s) filed for record within 24 months of the effective date of this commitment: Warranty Deed recorded August 11, 2004 in Book 5474, Page 1338.**

Item A of Schedule B - Section II is hereby deleted. However, immediately prior to the disbursement of the closing proceeds, the search of the public records must be continued from the effective date hereof. The Company reserves the right to raise such further exceptions and requirements as an examination of the information revealed by such search requires, provided, however, that such exceptions or requirements shall not relieve the Company from its liability under this Commitment arising from the matters which would be revealed by such search, to the extent that Company, or its Agent countersigning this Commitment, has disbursed said proceeds.

AMERICAN LAND TITLE ASSOCIATION COMMITMENT

SCHEDULE B - SECTION II

Commitment No.: **147852-59**

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

A. Defects, liens, encumbrances, adverse claims or other matters, if any, created, first appearing in the public records or attaching subsequent to the effective date hereof but prior to the date the Proposed Insured acquires for value of record the estate or interest or mortgage thereon covered by this Commitment.

1. Any rights, interests or claims of parties in possession of the land not shown by the public records.
2. Any encroachment, encumbrance, violation, variation or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the land.
3. Any lien for services, labor, or materials in connection with improvements, repairs or renovations provided before, on, or after Date of Policy, not shown by the public records.
4. Any dispute as to the boundaries caused by a change in the location of any water body within or adjacent to the land prior to Date of Policy, and any adverse claim to all or part of the land that is, at Date of Policy, or was previously under water.
5. Taxes or special assessments not shown as lien in the public records or in the records of the local tax collecting authority, at Date of Policy.
6. Any minerals or mineral rights leased, granted or retained by current or prior owners.
7. Taxes and assessments for the year 2019 and subsequent years, which are not yet due and payable.
8. **Restrictions, dedications, conditions, reservations, easements and other matters shown on the Plat of VALENCIA ARMS as recorded in Plat Book 7, Page(s) 99, but deleting any covenant, condition or restriction indicating a preference, limitation or discrimination based on race, color, religion, sex, handicap, familial status or national origin to the extent such covenants, conditions or restrictions violate 42 USC 3604(c).**
9. **Restrictions, covenants, conditions and easements as contained in that certain instrument recorded in Book 517, Page 431 and amended in Book 554, Page 783.**
10. **Gulf Power Company Easement as recorded in Book 591, Page 306.**
11. **Gulf Power Company Easement as recorded in Deed Book 277, Page 355.**
12. **Gulf Power Company Easement as recorded in Book 411, Page 983.**
13. **Any lien as provided for by Chapter 159, Florida Statutes, in favor of any city, town, village or port authority for unpaid service charges for service by any water, sewer or gas systems supplying the lands described herein.**

Note: All the recording information contained herein refers to the Public Records of Escambia County, Florida, unless otherwise indicated. Any reference herein to a Book and Page or Instrument Number is a reference to the Official Records Books of said county, unless indicated to the contrary.

Megan T. Polk

From: Stephen G. West
Sent: Thursday, February 13, 2020 11:13 AM
To: Megan T. Polk
Cc: Beth A. Larrieu
Subject: RE: 164 Diego Circle Acquisition Checklist

Megan:

The title insurance commitment is OK. I do not anticipate that the seller will have any problem satisfying the requirements in Schedule B-I. The exceptions from coverage in Schedule B-II are consistent with the other Diego Circle properties.

WARNING! This email originated from an outside network. **DO NOT CLICK** links or attachments unless you recognize the sender and know the content is safe.

Dear Tourist Development Council,

My name is Juston Takacs, as a lifelong member of the Gulf Breeze/Pensacola Beach community, I would like to be considered for the open seat on the council. I have had the pleasure of being the Executive Food & Beverage Director at the Margaritaville Beach Hotel for the past three years. I am responsible for overseeing all Food & Beverage operations that include two seasonal outlets, one full time restaurant open 365 days a year, room service, and catering. The annual budget for my department is $3.5 Million. In addition to my responsibilities to the hotel, I am serving my third year on the Pensacola Beach Chamber of Commerce Board of Directors as the finance chair as I am dedicated to promoting tourism on Pensacola Beach. This position has allowed me to oversee the allocation of funds for several events on the beach that drive more tourism to the area like New Years Eve Fireworks, Fourth of July Fireworks, Taste of the Beach, and many more. I believe that I would be a good addition to this board due to my proven track record with financial decision making and the number of hotels that my company is a part of on Pensacola Beach.

Thank you for your consideration,

MARGARITAVILLE Beach Hotel PENSACOLA BEACH

OBJECTIVE

To obtain a management position that will provide the opportunity to maximize my abilities and increase experience.

EXPERIENCE

December 2017 - Current
Food & Beverage Director, Margaritaville Beach Hotel, Pensacola Beach, FL
A 162 room 4-star hotel on Pensacola Beach that caters to traveling business executives, families, musicians, and visiting professional athletes that are being cared for by the Andrew's Institute. The food and beverage operations include two seasonal outlets, a 1200 sq. foot banquet hall, boardroom, a restaurant open daily, and room service generating 3.2 million dollars in food & beverage revenue.

- Oversee all training & service aspects of the Frank & Lola Love Pensacola Café, poolside tiki bar, LandShark Beach Bar, Banquets, and In Room Dining.
- Book all live entertainment for LandShark Landing Beach Bar and the tiki bar
- Plans and implements department's budget
- Schedule all staff, including management, for the restaurant, tiki bar, banquets, & beach bar, keeping labor costs to a minimum
- Cost and design menus for all dining outlets
- Develop Job Descriptions fro Front of House Management
- Develop Training manuals for Front of House Staff

July 2016 - December 2017
Assistant General Manager, Hampton Inn Oceanfront, Jacksonville Beach, FL
A 177 room hotel on Jacksonville Beach that caters to traveling business executives and families. The hotel has an overall budget of 10 million dollars in annual revenue with the food and beverage operations including one seasonal outlet, 2 banquet halls totaling 2500 sq. feet, and a restaurant open daily generating 1.2 million dollars in food & beverage revenue.

- Increased Hilton's Service And Loyalty Tracking scores by over 600 hotels in the brand
- Inspect rooms to determine vacant clean to vacant ready for guest check in
- Perform duties at front desk such as checking in/out guests during peak times
- Oversee all training & service aspects of the Food & Beverage Operation
- Book all live entertainment for the beach bar
- Plan and implement department budgets
- Schedule all staff, including management, for the restaurant, beach bar, and banquets keeping labor costs to a minimum

May 2015 - July 2016
Food & Beverage Director, The Florida Yacht Club, Jacksonville, FL
Renowned North Florida Landmark since its founding in 1876. The food and beverage operation generates 2.6 million dollars in revenue. The club has over nine hundred members ranging in age, from all walks of life and offers a full service facility featuring Tennis, Sailing, Power Boating, Croquet, Food and Beverage.

- Oversee all training & service aspects of the Pirates Den Dining Room, Pool Bar, and Banquets.
- Maintain beverage inventory cost below 27%
- Represent the Club on both the Food & Beverage Committee and the Entertainment Committee
- Plans and implements department's budget
- Schedule all staff, including management, for the restaurant, pool bar, and banquets keeping labor costs to a minimum
- Implemented an entirely new compensation package for service staff. Moved away from just an hourly rate to a sales based compensation package.

EDUCATION & AWARDS

- Certified Food & Beverage Executive by the American Hotel & Lodging Educational Institute
- Recipient of the Palm Tree Pin for being a vital nutrient for the continued "growth" of the company by the Margaritaville Home Office.
- LandShark Landing voted #24 Beach Bar in the world by USA Today Travel
- Florida State University Fall 2003-2007
- National Registry of Food Safety Professionals (expires May 2023)
- Pensacola Beach Chamber of Commerce Board of Directors – Finance Chair 2018-Current

COMPUTER SKILLS

- Proficient in MS Word, Excel, Power Point, Internet
- Knowledge of Jonas, Club Soft, Micros, and Digital Dining POS Systems
- Efficient with ADI, Kronos, Time Force, Timeco Time Keeping
- Knowledge of Eatec and Accubar inventory systems
- Knowledge of OnQ Hilton Worldwide Reservations system

OTHER SKILLS

- Assertive manager with outstanding interpersonal and communication skills
- Self starter, self motivator
- Time management ability, well organized

Dear Shamara Jernigan and the Board of County Commissioners,

This letter is to acknowledge my interest to serve on the Tourist Development Council representing someone not only from the "Hotel/Motel Industry" but also someone from the Asian American Hotel Owners Association which represent over 70% of all the hotels in our local area.

Please look over the attached resume that is required and I hope that you are able to appoint me to this TDC board for the betterment of our local area in all things related to Tourism and Hospitality. If I can be of any assistance to provide any other information or clarification please reach out to me at anytime. Thank you for your consideration and attention to this interest.

Thank you,

Mitesh Patel

FAMILY HISTORY & BACKGROUND

Born in Modesto, California but have been in Pensacola since 1982; went to school at Pensacola Christian Academy from kindergarten until graduating from high school. My family has always been in the hotel/motel industry so naturally I grew up in the business and have worked every position there is to learn the business, grow our local footprint in the industry, and continue to be passionate about Pensacola, the hotel industry, and development of new properties locally.

EDUCATION:

2002 Bachelors Degree University of West Florida in Finance and Business Management

2003 to Present Florida Real Estate License

2009 CHO Certified

WORK / BUSINESS EXPERIENCE

1997 – 2002 General Manager of Executive Inn (Pensacola, Florida)

2003-2005 Owned/Managed 2 Convenience Stores/Gas Stations (Pensacola, Florida)

2005-2007 Fully Renovated and Managed Hampton Inn (Ocean Springs, Ms.)

2006 Temporarily Managed and Sold Super 8 Motel (Moss Point, Ms)

2007 Completed Construction and Opened Best Western Blue Angel Inn (Pensacola, Fl.)

2008-2009 Completed Construction and Opened Best Western Troy Inn (Troy, Al.)

2009 Completed Construction and Opened Holiday Inn Express (Pensacola, Fl.)

2010 Purchased Baymont Inn and Suites (formerly Holiday Inn Express) Pensacola, Fl.

2010 Purchased Closed down Clarion Inn (formerly Holiday Inn) Pensacola, Fl.

2010-2011 Renovated Baymont Inn and Opened closed down property as Americas Best Value Inn and Suites

2012-2013 Purchased and Renovated Americas Best Value Inn (Pensacola, Fl.)

2014 Acquire land on Blackwell Lane of Pensacola for future hotel development

2016 Purchased Property in Downtown Pensacola for future hotel development

2019 Purchased property on Navy Blvd, start construction in 2020 for a new hotel

VOLUNTEER/ COMMUNITY INVOLVMENT

Since 2008 been a Lifetime Member of Asian American Hotel Owners Association

2010 to 2013 Served on the Emerging Leadership Council

2016 – 2019 Served on the board for Visit Pensacola

2019 to Present Serving on the board for NEP

2019 to Present Serving on the board of Gulf Coast Indian Association

In closing, it would be an honor and privilege to be given the opportunity to serve on the Tourist Development Council and I hope that my qualifications and criteria meets and exceeds what the Board of County Commissioners are looking for to fill the seat that is available; my time with Visit Pensacola and serving on that board has definitely impacted me to volunteer for the opening now available on the Tourist Development Council. Thank you for your consideration and I look forward to being more involved to positively changing and improving these industry matters that affect not just our own employees, businesses, and families but can affect the thousands of people who daily drive the local tourism industry in our area.

Thank You,

Mitesh Patel

WARNING! This email originated from an outside network. **DO NOT CLICK** links or attachments unless you recognize the sender and know the content is safe.

Good afternoon Shamara,

Please see my attached resume for consideration of the open Hotel/Motel, Owner/Operator seat on the Escambia County Tourism Council.

As Innisfree Hotels' Vice-President of Operations, I have a unique multi-market view of tourism economics and how it impacts, in a very real way, the quality of life in the markets in which we operate. As a resident of Escambia County, I have a vested and personal interest in leveraging the tourism industry to enhance the quality of life for all of the citizens of the County. As past Chairman, Board Member and Committee Member of Visit Pensacola, I see the opportunity to serve the citizens of Escambia County via the Escambia County Tourism Development Council as an extension of over 10 years of volunteer work helping shape the local tourism industry and the citizens it supports.

It would be my honor to serve the Citizens of Escambia County as a member of the Escambia County Tourism Council.

Volunteer Sought for the Tourist Development Council

The Escambia County Board of County Commissioners is seeking Escambia County residents interested in volunteering to be considered for an appointment as a "Hotel/Motel Industry" representative on the Escambia County Tourist Development Council.

Escambia County residents interested in serving on the Tourist Development Council are asked to submit a resume and letter indicating their desire to serve on the council by the close of business on Friday, March 20. Resumes should be submitted to Shamara Jernigan, Program Coordinator, Board of County Commissioners, P.O. Box 1591, Pensacola, FL 32502, or emailed to boardapply@myescambia.com.

Please be aware that resumes submitted to a BCC agenda for consideration will become part of the official minutes and are subject to public records requests.

The Escambia County Tourist Development Council was created in accordance with Florida Statutes through County Ordinance 77-34, and revised by County Ordinance 89-7. The council's duties are to review each proposal for expenditure of funds to determine if it complies with the Tourist Development Plan as outlined in the ordinance. The ordinance provides that the council is to review all expenditures of revenue from the trust fund; expenditures that the council believes to be authorized are to be reported to the county commission and the Florida Department of Revenue.

Members shall be owners/operators of motels, hotels, recreational vehicle parks or other tourist accommodations in the county and subject to the

tax, and/or individuals involved in the tourist industry or who have demonstrated an interest in development but are not owners/operators within the tourist industry. Council members serve a four-year term of office and meet quarterly for approximately two hours.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17757 **County Administrator's Report 12. 4.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: West Florida Public Libraries Board of Governance Appointees
From: TODD HUMBLE, Library Services Director
Organization: Library Services
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Appointments to the West Florida Public Library Board of Governance - Todd Humble, Library Services Director

That the Board take the following action:

Consider the appointment of two of the following to the West Florida Public Library Board of Governance, for a two-year term, effective March 1, 2020, to February 28, 2022:

1. Dr. Laura P. Bryant;

2. Grace Buenavista;

3. Diane Davis; or

4. Catherin Storey

to the West Florida Public Libraries Board of Governance, for a two-year term, effective March 1, 2020 to February 28, 2022.

BACKGROUND:

Escambia County's Community and Media relations Office posted a General Alert on the County's website from January 6, 2020, through February 14, 2020, to seek volunteers to be considered for an appointment to the West Florida Public Library Board of Governance. The Resumes of four individuals interested in serving. During the February 24, 2020, Library Board of Governance meeting, the Library Board expressed their desire to see Dr. Laura P. Bryant, one of the four

applicants, reappointed to another two year term (See provided February 24, 2020, minutes, item XI).

BUDGETARY IMPACT:

The Library Board of Governance is comprised of volunteers.

LEGAL CONSIDERATIONS/SIGN-OFF:

The Library Board of Governance recommends the Library budget to the BOCC annually.

PERSONNEL:

As per the Library Board of Governance bylaws, the Library Board is comprised of volunteers, three appointed by the BCC, one appointed by the Pensacola city council, and one appointed by the Pensacola mayor, and has no fiscal impact on personnel.

POLICY/REQUIREMENT FOR BOARD ACTION:

In accordance with Section 1, Part B.1, of the Board of County Commisioner's Policy Manual, Board approval is required for all appointments/reappointments to the Boards and Committees established by the Board of County Commisioners.

IMPLEMENTATION/COORDINATION:

Nominees will be notified of the Board's decisions upon approval.

Regular Board Meeting held Monday, February 24th at 4:00 pm, Westside Branch Library, 1301 West Gregory, Pensacola, FL 32502

Board Members Present:

- Sally Fox, Library Board of Governance, Chairman
- Dr. Laura Bryant, Library Board of Governance, Chairman-Elect
- Bradley Vinson, Library Board of Governance Member
- Dr. Patsy Barrington, Library Board of Governance Member

Board Members Absent:

- Dr. Carol B. Tanksley, Library Board of Governance Member

Library Administration Present:

- Todd Humble, Director
- Kim Ball, Division Manager

I. Call to Order

Ms. Fox called the meeting to order at 4:15 p.m.

II. Pledge of Allegiance

Ms. Fox led the Pledge of Allegiance to the Flag of the United States.

III. Approval of Agenda

- The Chairman approved the agenda.

V. Public Forum

- Ms. Ann Roberts introduced herself to the Board as the new branch manager of the Pensacola Library.

IV. Friends' Reports

- The Southwest Friend's report was provided to the Board via email.
- The WFPL Friend's report was provided to the Board via email.

VI. Approval of the Minutes

- Dr. Barrington made a motion to approve the minutes of January 27th, 2020, Ms. Vinson seconded the motion, and the minutes were unanimously approved.

VII. Chairman's Report

- Nothing to report

VIII. Library Director's Report

- Mr. Humble briefed the Board on the current state of the D1 library.
- Mr. Humble and the Board discussed the open BoG positions.
- Mr. Humble briefed the Board on current empty and filled library positions and possible staffing solutions for the Bellview Branch.

IX. Unfinished Business

- The Board reviewed and edited the Code of Conduct Policy.

X. New Business

- Mr. Humble discussed the upcoming FY 20-21 Budget plans.

XI. Open Board Discussion

- **The Board expressed their desire to see Dr. Bryant reappointed to the Board.**

XII. Future Meeting Schedule and Location

Next Regular Meeting: March 23rd, 2020 at 4:00 pm at the Brownsville Community Center Library, 3200 West Desoto, Pensacola, FL 32505.

XIII. Adjournment

Meeting was adjourned by Ms. Fox at 5:12 PM.

Laura Bryant

5807 Perkins Street

Pensacola, FL 32526

To Whom It May Concern,

I, Laura Bryant, wish to be considered for reappointment to the West Florida Public Library Board of Governance (WFPL BoG) to continue working for the residents of Escambia. I have been an Escambia County resident for the past 22 years and feel I am qualified to continue in this role. I have been a community volunteer with Big Brothers Big Sisters, the Lupus Support Network, The Pensacola Rose Society, and the Greater Pensacola Orchid Society. I currently serve as the Vice-Chairperson for the WFPL BoG and am (should I be reappointed) the incoming chair starting in March of 2020. I am also the Chairwoman of the Northwest District 1 Advisory Committee, serving in this role for over 1 year as we work to shape the development in the D1 area. Part of this has been securing approval and funding for the area for a local library. Happily we did both the plans are now underway to move through the process of establishing the library design and from there constructing the first library in the D1 area.

I am a user of the library and have enjoyed its services since becoming a resident in 1998. I believe that the libraries in our area serve a vital function and would like to see that function continue and grow utilizing new technologies as they become available. As a professor at both the University of West Florida and Pensacola State College, I have first-hand experience with the needs of local residents with respect to their local libraries. Additionally, I am an avid user of computer technology, smart devices, and the internet which allows me to better connect with my students and teach them the myriad of ways that their local libraries can help them be successful and contributing members of our local community. As a professor, I regularly teach classes of over 25 students and am comfortable not only of standing in front of large groups of people but also of getting them to become comfortable with each other to get the most out of their educational experience.

Finally, I have both long- and short-term planning experience in my full-time job as a personnel psychologist. In this capacity I must develop a year and a half schedule and a monthly schedule to ensure exams are developed, updated, and reviewed in a timely fashion. I am also responsible for facilitating conferences with subject matter experts to ensure that work is completely in a timely fashion and that the work passes our quality assurance standards. As a team lead I also serve as the facilitator for three different teams which are all involved in different parts of a larger redevelopment process taking place within the organization over the next 5 years.

I appreciate the time you have taken to consider me for this position. Feel free to contact me if you have any questions.

Very Respectfully,

Laura Bryant, PhD

CURRENT POSITIONS

Personnel Psychologist April 2008-Present
Exam Development Division
Naval Education and Training Professional Development Center, Saufley Field Pensacola, FL

Duties:

- Provide professional oversight in the development, production, and validation of norm-referenced Navy enlisted advancement examinations which are used to select individual sailors for promotion
- Develop and provide briefs to organizational leadership concerning the status of process improvement teams and deliverables
- Develop instructional programs to correct examination deficiencies, evaluate and interpret trends in psychometrics, including norm-referenced and criterion-referenced testing, performance-based testing and meta-analysis
- Evaluate and report on statistical analysis of end-of-course examinations
- Provide professional oversight and facilitation of teams of senior enlisted fleet subject matter experts and associated NAC personnel during Advancement Exam Readiness Reviews (AERRs) to ensure the development, review, maintenance, and revision of test banks used in high-stakes testing
- Serve as senior exam project leader and coordinator for AERRs
- Directly deliver formal training, on-the-job training, and mentoring to junior personnel psychologists and interns
- Identify and address deficiencies within the Navy Enlisted Advancement System including exam development, bank health and maintenance, test construction, job analysis, and item development
- Interpret statistical results and develop strategies to improve exams that deviate from desired statistical outcomes
- Keep current in relevant peer-reviewed literature concerning testing methods (criterion, norm referenced, and performance), measurement techniques, organizational design and performance, and leadership techniques and models
- Instruct military and civilian personnel on the principles of examination development and statistical and psychometric analysis
- Serve as acting branch head in the absence of the branch head
- Serve on process improvement teams including the redesign of test development program used to develop enlisted examinations
- Maintain active Secret security clearance

Major Accomplishments:

- Worked with consultants from EasiConsult to develop processes related to job analysis, psychometric principles of exam development, industry-standard item writing requirements for norm-referenced examinations, and development of a training process for Navy Advancement Personnel in the new processes
- Created a new exam development process used to for Navy enlisted examinations to include a job

analysis process, an item writing standards process, and a bank management process in accordance with current job analysis and test development standards including but not limited to the Uniform Guidelines on Employee Selection Procedures, the SIOP Principles for the Validation and Use of Personnel Selection Procedures, and the Standards for Educational and Psychological testing
- Developed long-term strategic plan to implement new exam construction processes
- Developed new standard operating procedures for the development of exam test plans and test outlines
- Developed new programs using psychometrics to analyze the health, reliability, and needs of exam banks
- Lead team of select individuals in the implementation of new test development processes for exam team leaders
- Developed new training processes to provide formal, on-the-job-training and mentoring to junior personnel psychologists
- Trained 3 new team leaders over the course of 6 years requiring individual mentoring and training for, on average, 1 year to ensure new employees were fully trained

Adjunct Professor March 2016 – December 2018
School of Business, Engineering, Information Technology, Humanities, & Social Sciences
Eastern Gateway Community College, Steubenville, OH

Duties (varies hours/week $1300.00/course):
- Prepare psychology and management lectures for delivery to students
- Set-up online classroom environments for web delivery of content for class to students and collection of class materials via online submission
- Evaluate student papers and examinations during the semester and provide verbal and written feedback on ways to improve and/or continue being successful in the course
- Engage students during the learning process, integrating textbook and scholarly peer-reviewed journal articles into their daily life and providing the information in conjunction with related current news content
- Provide weekly individualized feedback to students regarding their success and progress throughout the course
- Develop course content including, exams, discussion, and writing assignments to keep students engaged in the online program and to encourage critical thinking throughout the course of the subject matter presented

Assistant Professor June 2018 – Present
School of Arts and Humanities
American Public University System

Duties:
- Set-up online classroom environments (Sakai LMS) for web delivery of content for class to students and collection of class materials via online submission
- Engage students during the learning process, integrating textbook and scholarly peer-reviewed journal articles into their daily life and providing the information in conjunction with related current news content
- Provide weekly individualized feedback to students regarding their success and progress throughout

the course
- Facilitate discussions of textbook topics between students with regard to the application of the topics to their daily lives and past experiences
- Participate in at least two professional seminars
- Develop and maintain course content and textbooks for 6 undergraduate and graduate courses

Major Accomplishments
- Serve as curriculum developer for undergraduate and graduate Psychology courses
  - Develop and maintain current and relevant references from scholarly/peer-reviewed/academic sources for the course
  - Develop tests and writing assignments in accordance with Carnegie Hour Standards
  - Restructure graduate Psychology course to meet new University requirements and allow course to be auto-imported
  - Develop new electronic assignment rubrics and standards within the rubrics to determine proficiency levels for assignments
- Serve on committee charged with revising and developing Academic Standards of Course Quality for the University with the goal of implementing standards University-wide within the next 12 months

Current Board and Committee Memberships

West Florida Public Library Board of Governance Vice-Chairwoman (Incoming Chairwoman)
West Florida Public Library System
Pensacola, FL

Duties:
- Advise and assist the West Florida Public Library and Library Director, with its programs, activities, and operational issues as defined in the strategic and annual plan(s)
- Approve any discontinuance in the operation and funding of the library system's facilities or consolidation of library system facilities
- Conduct an annual evaluation of the Library Director/Library Administrator
- Establish policy and oversee the management of the West Florida Public Library in conjunction with the Library Director
- Make recommendations to the Escambia County Board of County Commissioners regarding the annual budget (over 5 million dollars annually)
- Oversee the administration and operation of the WFPL
- Review bylaws and policies annually
- Submit an annual budget in accordance with the budget calendar to the Escambia County Board of County Commissioners

Major Accomplishments
- Approve new commercial vehicles for use by the West Florida Public Library including a new bookmobile
- Determine and approve use of budget and surplus funds to construct District 1 library
- Develop plan to build a new library in District 1 of Escambia county which currently has no library facilities
- Investigate and approve property for use in the creation of a District 1 library

Northwest Florida District 1 County Commissioner Advisory Council
Chairwoman
Pensacola, FL

Duties:

- Analyze information relating to development of properties in Escambia County
- Explore, research, and provide technical expertise concerning the best use of land using county funds
- Develop surveys to gather information concerning needs and wants of citizens to be analyzed and examined in the context of district and county needs and wants and provide this information in everyday language to citizens and county commissioners
- Develop agenda and schedule for advisory council and preside over meeting
- Lead group in the development and implementation of a long-term master plan for District 1 of Escambia County, Florida
- Investigate possible solutions for pending issues of importance to the communities of District 1
- Provide cost analysis for potential use of land and development to the Escambia County Commissioners
- Provide briefs to the County Commissioners concerning needs of the county as weighed against the needs and wants of the local community residents
- Coordinate with the Escambia County District 1 Commissioner on the use of other areas in the district which are also be developed
- Submit an annual report regarding issues deliberated by the committee and any additional reports or recommendations that the committee deems necessary

Previous Employment Experience

Adjunct Professor January 2013 – December 2018
Psychology, History Languages, and Social Sciences Department
Pensacola State College, Pensacola, FL

Duties (3 hours/week $1300.00/course):

- Prepare psychology lectures for delivery to students
- Set-up online classroom environment (Canvas and Angel) for web delivery of content for class to students and collection of class materials via online submission
- Evaluate student papers and examinations during the semester and provide verbal and written feedback on ways to improve and/or continue being successful in the course
- Engage students during the learning process, integrating textbook and scholarly peer-reviewed journal articles into their daily life and providing the information in conjunction with related current news content
- Facilitate discussions of textbook topics between students with regard to the application of the topics to their daily lives and past experiences
- Develop course content including, exams, discussion, and writing assignments to keep students engaged in the online program and to encourage critical thinking throughout the course of the subject matter presented

Adjunct Faculty October 2017 – June 2019
School of Psychology, College of Online and Continuing Education
Southern New Hampshire University

Duties (varies hours/week $2200.00/course):

- Set-up online classroom environments (eLearning) for web delivery of content for class to students and collection of class materials via online submission
- Engage students during the learning process, integrating textbook and scholarly peer-reviewed journal articles into their daily life and providing the information in conjunction with related current news content
- Provide weekly individualized feedback to students regarding their success and progress throughout the course
- Facilitate discussions of textbook topics between students with regard to the application of the topics to their daily lives and past experiences

Adjunct Faculty August 2017 – December 2018
School of Psychology, College of Social and Behavioral Science
University of West Florida, Pensacola, FL

Duties (varies hours/week $2200.00/course):

- Develop and deliver I/O psychology lectures to students
- Set-up online classroom environments (eLearning) for web delivery of content for class to students and collection of class materials via online submission
- Evaluate student papers and examinations during the semester and provide verbal and written feedback on ways to improve and/or continue being successful in the course
- Engage students during the learning process, integrating textbook and scholarly peer-reviewed journal articles into their daily life and providing the information in conjunction with related current news content
- Provide weekly individualized feedback to students regarding their success and progress throughout the course
- Develop course content including, exams, discussion, and writing assignments to keep students engaged in the online program and to encourage critical thinking throughout the course of the subject matter presented

Applications Analyst May 2005-April 2008
Naval Aerospace Medical Institute
Lockheed Martin Corporation, NAS Pensacola, FL

Duties (40 hours/week $42,000.00/annually):

- Analyze data collected from Aviation Selection Test Battery (ASTB) prototype testing using statistical software
- Assist in the planning and testing of prototype tests for ASTB
- Assist the lab manager with administration of other tests currently under development
- Develop and review potential items to be used on the ASTB

- Develop and test prototype tests for the ASTB
- Facilitate conferences to evaluate and revise test item banks for Navy pilot admission
- Maintain the item database for the ASTB
- Provide briefs concerning the status of the ASTB development and items to be used to Senior-level Navy Officers

Major Accomplishments:

- Part of development team charged with revalidating the ASTB using principles of item-response theory to become an online, on-demand computer adaptive exam
- Developed three parallel forms of the current paper and pencil test battery to ensure effectiveness was maintained while the new online battery was developed
- Field tested every new item for the ASTB using future Navy pilots to ensure validity and reliability of test items

Assistant Store Manager October 2003-May 2005
Blockbuster Inc.
Milton, FL
Duties (36 hours/week $32,000.00/annually):

- Supervised and trained customer service representatives
- Assisted in interviewing and hiring new individuals for the company
- Trained new employees and managers
- Evaluated employees for performance
- Ensured development of personnel improvement development plans
- Provided direction and disciplinary action to customer service representatives
- Handled customer complaints and concerns
- Developed store monthly, quarterly, and yearly budget including projections for payroll, purchases, and training requirements
- Analyzed store finance trends for employee hours, payroll needs, and purchasing needs
- Ensured adherence to federal labor laws, EEO guidance, and company policies by all employees
- Assigned daily work tasks to subordinates
- Received shipments into inventory
- Counted cash drawers and made daily bank deposits
- Completed monthly budget including projecting payroll and store expenses

Academic Experience

Course Instruction

Scope. Over the last 6 years I have instructed both online and face-to-face classroom undergraduate and graduate courses in business, industrial/organizational psychology, marketing, assessments and testing, human growth and development, and general psychology as adjunct and full-time faculty at several institutions. A list of courses instructed by institution is provided below.

American Public University System Course Instructed
PSYC 101 Introduction to Psychology
PSYC 360 Psychology of Terrorism

PSYC 431 Psychology of Disaster
PSYC 498 Senior Seminar in Psychology
PSYC 630 Crisis and Emergency Intervention

Eastern Gateway Community College Courses Instructed
BUS 201 Principles of Marketing
BUS 206 Entrepreneurship
MGT 202 Organizational Behavior
PSY 101 General Psychology
PSY 203 Social Psychology

Pensacola State College Courses Instructed
DEP 2004 Human Growth and Development
PSY 2012 General Psychology

Southern New Hampshire University Courses Instructed
PSY 335 Assessment and Testing
PSY 324 Cross-Cultural Psychology
PSY 258 Industrial & Organizational Psychology
PSY 224 Research 2: Scientific Investigation
SCS 224 Social Science Research Methods

University of West Florida Course Instructed
INP 3004 Industrial and Organizational Psychology

Professional Education
PhD (2022 expected) Walden University, Public Policy & Administration
PhD (2016) Walden University, Organizational Psychology
MS (2009) Walden University, Industrial/Organizational Psychology
BA (2005) University of West Florida, General Psychology

Educational Courses Relevant to Desired Position (Masters degree level and higher)
Ethics and Standards of Professional Practice
Foundations of I/O Psychology
Governance and Public Policy
Group Dynamics
Leadership & Organizational Change
Leadership Development
Leadership Process Change
Management & Leadership in a Global Context
Personnel Psychology in the Workplace
Psychology of Organizational Behavior
Qualitative Reasoning
Quantitative Reasoning
Research Design
Research Theory
Strategic Planning: Collaboration, Coordination, and Cooperation

Statistics I
Statistics II
Tests and Measurements

Certifications/Qualifications

Lean Six Sigma Green Belt
20 additional CE credits in statistical analysis (certified through the American Psychological Association)

Technological Proficiencies

Microsoft Excel
Microsoft Word
Microsoft PowerPoint
Microsoft Access
Statistical Packages for the Social Sciences (SPSS)

Personal Awards

Escambia County Big Sister of the Year
On the Spot Award, Navy Advancement Center (4)
Civilian of the Week

Professional Memberships

- American Psychological Association
- Society for Industrial and Organizational Psychology (annual meeting submission reviewer)
- Academy of Management (annual meeting submission reviewer)
- PSI CHI Association
- Association of Florida Colleges
- American Association of University Professors

Publications, Presentations, and Facilitations (select)

- Panel Moderator, *Internalizing Patriarchy*, 16th Annual Women's Studies Conference (2017), University of West Florida, Pensacola, FL
- Bryant, L. (2016). Faculty Career-Enhancing Training Opportunity Effects on Perceived Organizational Support, Job Satisfaction, and Organizational Commitment (Dissertation) – Examined the interaction of job satisfaction, perceived organizational support, and organizational commitment with each other and also the level of influence that the receipt of career-enhancing training (internal training opportunities for leadership development, external attendance at professional conferences, external training for skill development, etc.) had on each of these variables individually and with each other. A moderation analysis was conducted using SPSS, after collecting data, using previously validated instruments to measure job satisfaction, organizational commitment, and perceived organizational and an individually develop survey to measure types and frequency of career-enhancing training opportunities.

Subject: [EXTERNAL]Volunteer Application - West Florida Public Library Board of Governance
Attachments: Grace Buenavista Resume 2020-02-04.pdf

WARNING! This email originated from an outside network. **DO NOT CLICK** links or attachments unless you recognize the sender and know the content is safe.

Dear Mr. Todd J. Humble:

Helping others be the best they can be is my life's passion.

Serving as a member for the West Florida Public Library Board of Governance will enable me to make a positive difference in our community.

I am volunteering because I want to Pay it Forward.

Growing up in the Philippines in a family of very modest means, I recognized the value of libraries in helping people searching for knowledge be the best they can be.

Personally, the books I have read opened my eyes to a world of endless possibilities.

The knowledge I gained over the years has shaped me in becoming the person that I am today.

- An Engineer
- A Published Author
- A successful Naturalized American Citizen

Truly, libraries offer a wealth of resources that can make the world a better place.

If selected, I aim to bring to the team over 18 years of rich, work experiences in the Telecommunications and Utility industries.

My strengths include a combination of solid technical and business experiences.

It would be an honor to share my perspective from working in a Corporate environment and, along with it, the many best practices I have learned along the way.

I am submitting my resume for your kind consideration.

Respectfully,

Grace Buenavista

GRACE BUENAVISTA

4320 Molino Meadows Road
Molino, FL 32577
gracegv@icloud.com

850-393-4581

A safety leader with 18+ years of technical and business experiences working in the Telecommunications and Electric Utility industries.

Brings to the team a wealth of experience in managing tasks, using excellent organizational, interpersonal, and multi-tasking skills to achieve goals, and using computer applications to meet business needs.

PROFESSIONAL PROFILE

- Electric Utility: 15+ years of Gulf Power experience working with internal and external customers in the Distribution Control Center; Pensacola District Engineering, and Transmission (Substation; Protection & Control; and Project Management) departments.
- Telecommunications: Maintained the hardware and software of two major Call Centers in the Philippines. Experience includes providing technical support to Call Center representatives desktop application issues. Provided computer network solutions to commercial and industrial businesses.
- Expert knowledge of General Work Order management, working knowledge of Accounting, Supply Chain Purchasing, Budget, Project Scheduling, FPSC rules and regulations regarding the Distribution Service Reliability Reporting and Electric Infrastructure Storm Hardening initiatives.
- Experience in Training teammates (On-the-Job and formal) on business processes and computer applications.

SKILLS

- Working with People – to improve the workplace environment, increase productivity, and resolve communication issues.
- Team Player. Problem Solver. Analytical. Detail-oriented.
- Bilingual - Fluent in English and Philippine languages (Tagalog and Ilocano)
- Technology - Used Customer Service System (CSS) when troubleshooting customers' power outage issues. Strong computer applications skills such as Microsoft Office Suite, Primavera and SAP, Enterprise Solution (PowerPlan, Maximo, and Oracle).

RELEVANT WORK EXPERIENCE

- Improved accountability between the Field and Supply Chain by creating an effective reporting system to properly record parts, source, and nomenclature of equipment that are used, changed, and/or installed. Greatly improved the capacitor accountability program and the method of reporting outages geared to pass audits.
- Improved the working relationship between my department and Accounting by following strict guidelines. As the General Work Order management expert, I became a ready resource for those who open and close work orders.
- Improved the productivity between my department and Supply Chain Purchasing, observing and reporting on Budget, FPSC rules and regulations regarding the Distribution Service Reliability Reporting and Electric Infrastructure Storm Hardening initiatives.

ACHIEVEMENTS

Gulf Power Rewards and Recognition:

- 2017 President's Safety Excellence Award
- 2016 TSAC Safety Pro Award
- 2005 and 2006 - Awarded 1st place in safety poster contests

Served in various leadership roles *(see tables below)*

2019 - Published Author
AWESOME in SECONDS
50 Positive Affirmations that Inspire YOU to SHINE

2009 - Naturalized Citizen of the United States of America

1996 - Passed the Philippine National Board of Electronics and Communications Engineering professional licensure exam

(773) 315-1809

January 23, 2020

Mr. Todd J. Humble
Director
West Florida Public Libraries
239 N. Spring St.
Pensacola FL 32502

Dear Mr. Humble:

I would like to volunteer to be considered for an appointment to the West Florida Public Library Board of Governance. I have been a resident of Pensacola for nearly 7 years, having moved here from Chicago, where I also maintain a home. During that time, I have participated in the Popular Literature Book Club, aptly facilitated by Amy Horosky, and have attended various presentations and meetings at the downtown library. And, of course, I've used the library collection.

A brief resume is attached, and I have outlined some of my experiences that I believe to be most relevant to some of the duties of a library board member:

Oversight of the Management of Library Services – I have been involved with libraries virtually my entire life. Probably my most relevant work experience is that as a Dean of two different academic divisions at Oakton College; I served on selection committees and supervised/evaluated the work of 3 librarians in each of these divisions. As VP I was responsible for hiring and evaluating the work of the Director of Library Services and the Director of Media Services. I found working with the library staff a real bright spot in my work; they were all very bright, well-read professionals who had one thing on their minds—serving the students, faculty, and the community.

Annual Budget – At Deltak, Inc. I was responsible for the development and administration of the Education Consulting budget accommodating sales projections, staffing levels, and corporate training costs. Plus, at the college, division budgets under my control were governed tightly by State statute, real estate tax revenues, and college mission statements--and they were sizable. I have done both zero-based and incremental budgeting—each method has strengths and challenges—and probably learned the most about how to develop workable budgets by defending my choices to a miserly VP of Finance, who subsequently became a friend. This was a frustrating experience that was also quite instructive.

Working with Interlocal Agreements – Two areas of experience come to mind here: 1) College transfer programs at a community college center around developing transfer/articulation agreements between the college and various transfer institutions. I

have had extensive experience in developing articulation agreements, including cooperative agreements directly with universities to share faculty and students in some professional teaching areas. So, I think I understand the need to maintain the integrity of those agreements that have often been hard-fought compromises. 2) As a Director for the Illinois Education Association, I negotiated labor contracts and processed grievances and arbitrations, all subject to state and federal employment laws. So, I am well aware of the need to adhere to all existing policies, procedures, and governmental regulations along with ratified contract provisions.

Annual and Long-range Strategic Planning – Having participated in scores of planning processes in my professional and volunteer life and having conducted training seminars on how to develop such processes, I'm well aware of the importance of the involvement of stake holders, the need to keep the organization's mission and purpose in the forefront of the process, and the desirability of a process that is so straight forward as to encourage real, not magical, thinking. So many plans—even well-crafted ones--end up in file cabinets without ever being looked at again. I've learned that an effective plan, whether it be short- or long-term, needs to be a living document, one that can be massaged as needed as the unknowable future unfolds and new community needs emerge. The plan should be a blueprint of where to start and how to proceed, all while knowing that certain risks are worth taking.

In summary, and looking at your needs from ten paces back, I believe my many years of experience as a professional educator in public and private schools, as a training consultant for Fortune 500 corporations, as a labor negotiator, and as a community member in small and large cities in Illinois and Florida, have prepared me to be an effective member of your Board. And, there's no question in my mind: I would be an enthusiastic one! Plus, knowing myself, I love to work with people, to help diverse groups come to a meeting of the minds—consensus, if you will—and to listen to the multiple voices that have to be heard and considered. And, I think it would be fun to work with a group of like-minded individuals who just want to help Northwest Florida be the best place in the country to live, work, learn, and enjoy congregating at the library. What a great way to give back to this dynamic community!

If I can provide more information or ideas, don't hesitate to contact me at 773-315-1809; I would happy to meet with you or your committee as this process unfolds. Thanks so much for your consideration.

Sincerely,

B. Diane Davis

Todd J. Humble

Director

West Florida Public Libraries

239 N. Spring St.

Pensacola, Fl 32502

Dear Mr. Humble,

My name is Catherin Storey, I am a life-long resident of Escambia County, and my daughter and I have enjoyed the Library facilities and programs for many years. In fact, when my husband was working with the county as an EMT, we began spending our Sunday afternoons in the children's area of the main branch, and then would grab ice cream at Bubba's Sweet Spot. While he has been retired for 3 years, and my daughter has matured to more advanced activities, this is a tradition we still strive to maintain.

As we have so many happy memories in the library, I would like to extend my resume for consideration for the voluntary position on the West Florida Public Library Board of Governance. Through my work with Everwell Specialty Pharmacy I have developed skills in business development, annual budget planning and execution, as well as multi departmental communication and regulatory adherence. I feel that this experience will aid me in being a contributing member to the Board. I am hopeful that I will be able to serve our community in an organization that I respect and revere.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Catherin Storey

Enclosure

Application Deadline Extended for West Florida Public Library Board of Governance

The Escambia County Board of County Commissioners is seeking county residents interested in volunteering to be considered for an appointment to the West Florida Public Library Board of Governance.

The duties of the board include establishing policy and overseeing the management of Escambia County library services and making recommendations to the BCC regarding the annual budget according to the purposes and authority set forth in resolutions, interlocal agreements and other agreements, as well as state and federal laws. These duties also include establishing an annual plan of service and the long-range strategic planning of library services.

West Florida Public Libraries provides service to all of Escambia County, with the board typically meeting on the fourth Monday of the month from 4-6:30 p.m.

Residents interested in serving on the board are asked to submit a resume and letter indicating their desire to serve by close of business on Friday, Feb. 14. Resumes should be submitted to Todd J. Humble, Director, West Florida Public Libraries, 239 N. Spring St., Pensacola, FL, 32502 or by email to tjhumble@mywfpl.com.

Please be aware that resumes submitted to a BCC agenda for consideration will become part of the official minutes and are subject to public records requests.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17844 **County Administrator's Report 12. 6.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: Innerarity Island Association (IIA) Homeowners Association Resolution and Municipal Services Benefit Unit (MSBU)
From: Joy Jones, Director
Organization: Engineering
CAO Approval:

RECOMMENDATION:

Recommendation Concerning the Innerarity Island Association (IIA) Homeowners Resolution and Municipal Services Benefit Unit (MSBU) - Joy Jones, P.E., Engineering Department Director

That the Board discuss the Innerarity Island Association (IIA) Homeowners Resolution and Municipal Service Benefit Unit (MSBU), in which the Homeowners Association is requesting that Escambia County take the following action:

A. Direct staff to request additional Grants from the Department of Environmental Protection (DEP), and to seek other grant opportunities, such as Restore/Triumph funds, to assist IIA residents in mitigating costs of the sewer MSBU project;

B. Procure the services of a Real Estate Broker to prepare a market analysis of the County properties, propose new pricing to the IIA Board, and list the surplus lots for sale; and

C. Apply any Grant or property revenues to the IIA Sewer System MSBU prior to the final assessment calculation.

This project is located in Commission District 2.

BACKGROUND:

On March 21, 2014, Escambia County took ownership, by Court order, of the Innerarity Island Water and Sewer System. In 2018, a water system upgrade was completed, and Emerald Coast Utilities Authority (ECUA) took ownership and maintenance responsibility.

On March 2, 2017, the Board approved an Ordinance creating the Innerarity Island Development Corporation (IIDC) Sewage System Improvement MSBU, which allowed Escambia County to financially support improvements to the entire sewage system and to assess benefiting property owners for the project costs. Project construction started in October 2019 and is expected to be completed in October 2020. As ECUA will be responsible for long term maintenance, they are overseeing and managing the construction of the system. To move forward with construction, the Board approved an inter-fund loan on July 18, 2019, in the amount of $5,605,174, from Local Options Sales Tax (LOST) III provided temporary project funding.

A $1,500,000 Grant from the Department of Environmental Protection (DEP) was secured to offset the water and sewer project costs, which include engineering design and permitting, construction management/inspection services, waterline construction, operation/repair of water/sewer system, and partial grinder pump equipment purchase. MSBU-calculated (owner-financed) assessment includes sewer system construction, tax collector fee (2%), administrative fee (10%), contingency (20%), and Year 1 fee (10%). No additional Grants or property sales have been included in the current MSBU annual assessment calculations. As construction is on track to be completed in Fall 2020, assessment collection will not begin until November 2021.

On May 4, 2017, the Board declared 21 parcels as surplus and authorized staff to use an online real estate auction company to market and sell the properties to the bidder with the highest offer received at or above the minimum bid amount, and also authorized an appraisal to be performed on six lots to determine current market value for comparison purposes. Seven parcels have sold to date for a total of $219,150. 14 parcels are still available to auction. The Office of Management and Budget is working with the Purchasing Department to procure a new auction service for surplus properties as the last one is no longer available.

On April 9, 2020, the Innerarity Island Association (IA) Homeowners Association Board adopted a Resolution requesting that Escambia County take the following actions:

A. Escambia County should make every reasonable effort to request State Grants and Restore/Triumph Funds to assist IIA residents to mitigate the costs of the MSBU; and

B. Escambia County should select a Florida Real Estate Broker to perform the following tasks:

1. Prepare a market analysis of the lots;
2. Propose new pricing to the IIA Board;
3. List the surplus lots with said Broker so that they can be properly advertised; and
4. Apply the sales price to offset the MSBU.

This property is located in Commission District 2.

BUDGETARY IMPACT:

Project is funded by an interfund loan from LOST III and a DEP Grant until property owners begin repaying the County through MSBU assessments.

INNERARITY ISLAND ASSOCIATION (IIA) HOA

Innerarity Sewer System MSBU
Resolution of the Board of Directors

WHEREAS the Board of Directors of the Association is charged with the responsibility representing the interest of the property owners; and

WHEREAS the vast majority of property owners believe that, as property taxes to Escambia County, that the BOCC should be responsive to the needs and interests of all the citizens of the County; and

WHEREAS the replacement of the current operational sewer system was presented as a demand and the option for the IIA to upgrade the existing sewer system was not given as an option, and

WHEREAS the past Board members were advised that it would be in the best interest of the Association to adopt a position of support in regards to installation of the new sewer system that meets the specifications of the County and ECUA since the costs would be mitigated by Grants and Property Sales, and

WHEREAS the past and present Board members further believed any new MSBU for state of the art Low Pressure Sewer with Grinder Pumps would be heavily reduced by Grants and Property sales and, therefore, since Escambia County now plans to place the full cost of the new sewer system on the property owners, the present Board is now tasked to find ways of reducing the MSBU, and

WHEREAS the estimated total costs per ECUA of the sewer system , as of 1-21-2020, has inflated to an estimated costs $4.5 million, to the point that many property owners are retirees on fixed incomes and this MSBU would create a financial hardship for them and some would be forced to sell their retirement home, and

Whereas, IIA was perhaps the first HOA to request and gain approval of a MSBU to widen and slightly raise the Causeway, and only way in and out to the island, and thereby obtain County ownership and maintenance for a roadway that is prone to flooding and washout, cutting off residents egress to/from the island. The roadway MSBU costs approximately $560,000 and has been paid off by property owners over ten-year period, and

Whereas NOW THEREFORE, BE IT RESOLVED that the Board of Directors of the **IIA HOA** (The Association) adopts the following position on behalf of the property owners:

1.0 Obligation to make every effort to Obtain State and Federal Grant to offset Sewer System Costs. A major reason that State/Federal Grants could be supported is based on the multiple septic tanks located on the island in close proximity to Perdido Bay. While grants were obtained to help pay for the reconditioning of the water system, no effort has been made to apply for or obtain funds to assist in offsetting the massive costs of the much more expensive sewer system.

2.0 Sale of County owned Lots on the island to offset MSBU costs. Owners and IIA Board were also led to believe by the County, in addition to State Grants, that it would also help reduce the costs of the MSBU by selling off the approximate $1.400,000 in surplus lots now owned by the County. Escambia County has not sold any lots via Auction since October 2018.

3.0 Request for Action by the Escambia County BOCC:

a) Escambia County honor its prior commitments and make every reasonable effort to request State Grants and Restore/Triumph Funds to assist IIA residents to mitigate the costs of the massive MSBU.

b) Escambia County should select a FL real estate broker to perform the following tasks: (1) prepare a market analysis of the lots (2) propose new pricing to the IIA Board (3) list the surplus lots with said Broker so they can be properly advertised and (4) apply the sales price to the offset of the MSBU.

4.0 The IIA HOA, on behalf of the tax paying property owners of Innerarity Island, humbly requests that the Escambia County honor their previous commitments to reduce the pending outrageous MSBU costs to taxpayers and faithfully represent the interest of the citizens of Innerarity Island.

This resolution of the Board of Directors has been duly adopted at the April 9, 2020 IIA Board of Directors meeting.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17756 **County Attorney's Report 12. 1.**
BCC Regular Meeting **Action**
Meeting Date: 05/07/2020
Issue: Settlement of FDOH Administrative Complaint
From: CHARLES PEPPLER, Deputy County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:
Recommendation Concerning Settlement of FDOH Administrative Complaint.

That the Board approve the settlement agreement proposed by the Florida Department of Health and authorize the County Administrator to execute the agreement on behalf of Escambia County Public Safety Department.

BACKGROUND:
On or about March 5, 2020, Escambia County Public Safety Department was served with an Administrative Complaint by the Florida Department of Health alleging that in or about the year 2018, that Emergency Medical Services, as a licensee of the Department of Health, engaged in unprofessional conduct by issuing recertification to instructors who had not met recertification requirements. The Administrative Complaint did not name any of the employees involved who had issued recertifications for teaching credentials. However, after the filing of the Administrative Complaint, three former employees, Leon Salter, Stephen White and James Bonoyer and current employee, Katherine Kenney, were arrested for various felonies related to the issuance of teaching credentials without proper recertification. Ms. Kenney was terminated from her employment.

The Department of Health proposes to issue a letter of reprimand by the Bureau of Emergency Medical Oversight. A copy of the proposed letter of reprimand is attached to this recommendation. In addition, the proposed settlement would require the payment of a $5000.00 fine. The proposed settlement agreement is attached to this recommendation.

Both the County Attorney's Office and the County Administrator have reviewed the proposed settlement agreement and letter of reprimand and recommend approval

as a reasonable disposition of the Administrative Complaint.

BUDGETARY IMPACT:

Proposed Settlement Agreement

Letter of Reprimand

STATE OF FLORIDA
DEPARTMENT OF HEALTH
BUREAU OF EMERGENCY MEDICAL OVERSIGHT

DEPARTMENT OF HEALTH,

Petitioner,

vs.

Case No. 2019-11689

ESCAMBIA COUNTY PUBLIC SAFETY DEPARTMENT,
Respondent.
_____/

SETTLEMENT AGREEMENT

Escambia County Public Safety Department, referred to as the "Respondent," and the Department of Health, referred to as "Department," stipulate and agree to the following Agreement and to the entry of a Final Order of the Department incorporating the Stipulated Facts and Stipulated Disposition in this matter.

Petitioner is the state agency charged with regulating emergency medical services pursuant to section 20.43, Florida Statutes, and chapter 401, Florida Statutes.

Petitioner has jurisdiction over Respondent by virtue of the provisions of chapter 401, Florida Statutes.

STIPULATED FACTS

1. At all times material hereto, Respondent has been licensed as an EMS Service provider, license number ALS1703.

2. The Department charged Respondent with an Administrative Complaint that was filed and properly served upon Respondent, alleging violation of chapter 401, Florida

Statutes, and the rules adopted pursuant thereto. The violations alleged in the Administrative Complaint occurred in or about 2018. A true and correct copy of the Administrative Complaint has been furnished with this Settlement Agreement.

3. Respondent neither admits nor denies the allegations contained in the Administrative Complaint.

STIPULATED CONCLUSIONS OF LAW

4. Respondent admits that it is subject to the provisions of chapter 401, Florida Statutes, and the jurisdiction of the Department.

5. Respondent admits that the facts alleged in the Administrative Complaint, if proven, would constitute violation of chapter 401, Florida Statutes, as alleged in the Administrative Complaint.

6. Respondent agrees that the Stipulated Disposition in this case is fair, appropriate and acceptable to Respondent.

STIPULATED DISPOSITION

7. **Fine** - The Bureau of Emergency Medical Oversight shall Impose an administrative fine of ***Five Thousand Dollars ($5,000.00)*** against Respondent to be paid by Respondent to the Florida Department of Health and mailed to Kimberley Moore, Bureau of Emergency Medical Oversight, Investigation Section, 4052 Bald Cypress Way, Bin A22, Tallahassee, FL 32399-1722, within thirty (30) days from the date of receipt of this Agreement. **All fines shall be paid by cashier's check or money order**.

8. **Reprimand** – The Bureau of Emergency Medical Oversight shall issue a letter of reprimand against Respondent's license.

STANDARD PROVISIONS

9. **Enforceability** - It is expressly understood that this Agreement is a legal and binding document and is fully enforceable against all parties in any court of competent jurisdiction. The signatories hereto are vested with the authority to execute this Agreement on behalf of their respective principals, and as designated representatives, to fully bind such principals.

10. **Future Conduct** - In the future, Respondent shall not violate chapter 401, Florida Statutes, or the rules promulgated pursuant thereto, or any other state or federal law, rule, or regulation relating to its providing of emergency medical services. Prior to signing this agreement, the Respondent shall read chapter 401, Florida Statutes.

11. **Purpose of Agreement** - Respondent, for the purpose of avoiding further administrative action with respect to this cause, executes this Agreement. Respondent expressly waives all further procedural steps and/or judicial review of this subject matter. The parties hereby agree to waive all claims, rights, charges, recoveries, and amounts with respect to the subject matter of Case Number 2019-11689.

12. **Waiver of Attorney's Fees and Costs** - The parties hereby agree they will bear their own attorney's fees and costs resulting from prosecution or defense of this

matter. Respondent waives the right to seek any attorney's fees or costs from the Department in connection with this matter.

BCC Regular Meeting **Action**
Meeting Date: 05/07/2020
Issue: Approval of the Settlement and Release of Claims for the Terry Dennis Rigby Inventory Dispute
From: KIA JOHNSON, Assistant County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Approval of the Settlement and Release of Claims for the Terry Dennis Rigby Inventory Dispute.

That the Board take the following actions:

A. Approve the settlement reached for the sum of $10,000.00 to be paid to Terry Dennis Rigby's surviving spouse, Sherri Rigby, in exchange for the execution of a Release of Claims; and

B. Approve the Release of Claims entered into by Sherri Rigby.

BACKGROUND:

Terry Dennis Rigby was previously employed as a Fleet Maintenance Supervisor in the Waste Services Department. On October 4, 2019, Mr. Rigby retired from employment with the County. Upon separation from County employment, Mr. Rigby informed the County that during his tenure in the Waste Services Department he had intermingled hundreds of his personal work tools with the County's work tools. Due to the number and character of the items of inventory in dispute, the County and Mr. Rigby worked to resolve this dispute for several weeks after Mr. Rigby's separation from County employment. The County was continuing to work with Mr. Rigby to resolve this inventory dispute at the time of Mr. Rigby's passing on February 10, 2020.

BUDGETARY IMPACT:

Funding Source: Fund 401, Solid Waste Fund; Cost Center 230314, Operations; Object Code 55201, Operating Supplies.

Release of Claims

General Liability Claim Form

RELEASE OF CLAIMS

THIS RELEASE is entered into by Sherri Rigby (hereinafter referred to as "Mrs. Rigby"), the surviving spouse of Terry Dennis Rigby (hereinafter referred to as "Mr. Rigby"), whose principal address is 4180 Hwy 99 A, Walnut Hill, FL 32568.

WHEREAS, there was previously a dispute between Mr. Rigby and Escambia County, Florida related to miscellaneous work tools or inventory Mr. Rigby alleged to have left in the custody of Escambia County upon his separation from employment; and

WHEREAS, Mrs. Rigby desires to resolve this inventory dispute with Escambia County, Florida, and Mrs. Rigby hereby desires to memorialize this resolution in this Release of Claims.

NOW THEREFORE, in consideration of the payment and other good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged, Mrs. Rigby hereby agrees as follows:

In consideration of receiving payment in the amount of $10,000.00, reflecting the settlement amount for the inventory dispute described above, Mrs. Rigby does hereby release, remise and forever discharge ESCAMBIA COUNTY, FLORIDA and the ESCAMBIA COUNTY BOARD OF COUNTY COMMISSIONERS, including its employees, agents, volunteers, and elected and appointed officials (hereinafter referred to collectively as the "COUNTY"), from any and all claims, suits, actions, damages, expenses, losses, penalties, interest, demands, judgments, and liabilities, claims and related expenses in connection with the loss thereof, and costs of suit, including attorneys' fees and paralegals' fees, for any expenses, damages, or liability incurred by Mr. or Mrs. Rigby, whether for direct or consequential damages, or economic loss or use thereof, arising directly or indirectly on account of the inventory dispute settled herein, and any and all other persons, associations, and corporations, whether herein named or referred to or not, and who, together with all the above named, may be jointly or severally liable to Mr. or Mrs. Rigby, of and from any and all manner of actions and causes of actions, rights, suits, and covenants, contracts, agreements, judgments, claims and demands whatsoever in law or equity, including claims for contribution, arising from and by reason of any and all known and unknown, foreseen and unforeseen negligence of the COUNTY, and especially from all liability arising out of Mr. Rigby's inventory alleged to have been left in the custody of the County, the inventory lists prepared by Mr. Rigby, and all items of inventory Mr. and Mrs. Rigby have failed to list or assert.

Further, Mrs. Rigby expressly declares and agrees:

1. That this Release shall be interpreted under and its performance governed by the laws of the State of Florida, and any action relating to this Release shall be instituted and prosecuted in the courts of Escambia County, Florida;
2. That this full and final Release shall never be considered as evidence of or an admission of any liability at any time whatsoever; and
3. That this full and final Release covers and includes all claims several or otherwise, past, present, or future, which can or may ever be asserted by any person or persons as heirs or otherwise as the result of damages as aforesaid or the effects or consequences thereof.

By signing below, Mrs. Rigby acknowledges that she has read, understands, and consents to the terms of this Release.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17805 **County Attorney's Report 12. 3.**
BCC Regular Meeting **Action**
Meeting Date: 05/07/2020
Issue: Approval of Proposed Settlement of Workers' Compensation Claims Brought by Ray Boutwell
From: CHARLES PEPPLER, Deputy County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Approval of Proposed Settlement of Workers' Compensation Claims Brought by Ray Boutwell.

That the Board approve a proposed settlement in the sum of $70,000.00 payable to Ray Boutwell in exchange for a complete resolutions of all claims to benefits to which Mr. Boutwell would be entitled under the Florida Workers' Compensation Act. The settlement sum would be reimbursed by the excess carrier.

BACKGROUND:

Ray Boutwell is 61 years old and sustained his injuries as a result of an accident in the course and scope of his employment with the Department of Public Works of Escambia County when he was operating heavy equipment on July 25, 2006 and was struck from behind by a dump truck. Since that time, Mr. Boutwell has undergone extensive treatment for injuries to the neck, back, arm and leg. He received cervical discectomy and fusion procedures in 2011 and 2016, plus a posterior lumbar fusion in 2012. He has had extensive medical treatment involving physical therapy, injections and other pain management techniques. Mr. Boutwell has been unable to return to work and was determined to be permanently and totally disabled. In 2012, his claim for future indemnity benefits was setted in the sum of $200,000.00.

Thus far, Mr. Boutwell has incurred $700,000.00 in medical benefits since the date of the accident. In recent years, Mr. Boutwell has been weaning himself from pain medications to the point where he is utilizing only $4,000.00 in medical benefits over the past two years. The Centers for Medicare and Medicaid Services have agreed upon and approved a Medicare set-aside of $16,793.00. However, given

the severity of his injuries, the likelihood of a catastrophic event is substantially greater because of the extent of his injuries and medical treatment. A further catastrophic event would greatly exceed the proposed settlement amount of $70,000.00.

Pursuant to Section 440.20(11), Fla. Stat. (the washout settlement procedure), the parties negotiated a provisional settlement agreement which would release Escambia County Board of County Commissioners and PGCS, the third-party administrator, from future liability for medical benefits in exchange for the payment of $70,000.00. Because the self-insured retention has been exhausted, the excess insurance carrier will be ultimately responsible for payment of and reimbursing all proposed settlement funds. The excess carrier has already agreed and approved the proposed settlement amount. This proposed settlement would resolve any and all benefits, including attorney's fees and costs, to which Mr. Boutwell would be entitled in connection with the claim. Retained counsel for the County and the Workers' Compensation carrier, Brian T. Hanley, recommends that the Board of County Commissioners approve the proposed settlement agreement.

BUDGETARY IMPACT:

N/A

LEGAL CONSIDERATIONS/SIGN-OFF:

Mr. Hanley will prepare the settlement documents.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17806 **County Attorney's Report 12. 4.**
BCC Regular Meeting **Action**
Meeting Date: 05/07/2020
Issue: Authorize Rescheduling a Public Hearing to Consider an Ordinance Creating Volume 1, Chapter 94, Article 1, Section 94-9
From: MATTHEW SHAUD, Assistant County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Authorizing the Rescheduling of a Public Hearing to Consider an Ordinance Creating Volume 1, Chapter 94, Article 1, Section 94-9 relating to Micromobility Devices and Motorized Scooters on Pensacola Beach.

That the Board authorize the rescheduling of a public hearing from Thursday, June 4, 2020, to Thursday, August 6, 2020, at 5:31 p.m. to consider an Ordinance creating Volume 1, Chapter 94, Article 1, Section 94-9 relating to Micromobility Devices and Motorized Scooters on Pensacola Beach.

BACKGROUND:

Recent changes to the Florida Uniform Traffic Control Law allow counties to enact ordinances to permit, control, or regulate the operation of vehicles, golf carts, mopeds,
motorized scooters, and other mobility devices on sidewalks or sidewalk areas, so long
as certain requirements are met. The Santa Rosa Island Authority requested the Board
of County Commissioners enact an ordinance governing the use and operation of micromobility devices and motorized scooters on Pensacola Beach. County Attorney
staff drafted this Ordinance, which regulates the operation of such devices on Pensacola
Beach. This Ordinance will be presented and discussed during Santa Rosa Island Authority meetings in May and June 2020.

BUDGETARY IMPACT:

N/A

LEGAL CONSIDERATIONS/SIGN-OFF:

The proposed Ordinance was drafted by Matthew R. Shaud, Assistant County Attorney, and will be advertised in the Pensacola News Journal on Saturday, July 25, 2020.

Ordinance Draft

ORDINANCE NUMBER 2020-____

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, CREATING VOLUME 1, CHAPTER 94, ARTICLE I, SECTION 94-9 OF THE ESCAMBIA COUNTY CODE OF ORDINANCES RELATING TO DOCKLESS SHARED MICROMOBILITY DEVICES ON PENSACOLA BEACH; PROVIDING FOR SEVERABILITY AND CONFLICTS; PROVIDING FOR INCLUSION IN THE CODE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Florida Uniform Traffic Control Law allows counties to enact ordinances to permit, control, or regulate the operation of vehicles, golf carts, mopeds, motorized scooters, and electric personal assistive mobility devices on sidewalks or sidewalk areas when such use is permissible under federal law, so long as such vehicles or devices are restricted to a maximum speed of 15 miles per hour. *Section 316.008(7)(a)*, *Florida Statutes*; and

WHEREAS, Section 316.008, Florida Statutes, with respect to streets and highways, allows counties to regulate or prohibit stopping, standing, or parking, restrict the use of streets, and regulate or prohibit the use of heavily traveled streets by any class or kind of traffic found to be incompatible with the normal and safe movement of traffic; and

WHEREAS, the Santa Rosa Island Authority was created by special act to provide oversight of Santa Rosa Island for such purposes as it shall deem to be in the public interests; and

WHEREAS, the Santa Rosa Island Authority has asked the Board of County Commissioners to enact an ordinance relative to micromobility devices;

WHEREAS, the Santa Rosa Island Authority strives to keep the County rights-of-way compliant with the Americans with Disabilities Act (ADA), and other federal and state

DRAFT

regulations, and is committed to keeping Pensacola Beach accessible for the mobility-challenged; and

WHEREAS, dockless shared micromobility devices and motorized scooters left unattended and parked, leaned on walls, or left on sidewalks creates a hazard to pedestrians and individuals needing access and maneuverability for ADA mobility devices; and

WHEREAS, the Santa Rosa Island Authority has a significant interest in ensuring public safety and order in promoting the free flow of pedestrian traffic on streets, sidewalks, and sidewalk areas.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA:

Section 1. Chapter 94, Article 1, Section 94-9 of the Code of Ordinances of Escambia County, Florida is hereby created as follows:

Section 94-9. Pensacola Beach Micromobility Device and Motorized Scooter Ordinance.

(1) Title. This section shall be known as "The Pensacola Beach Micromobility Device and Motorized Scooter Ordinance," and may be cited as such, and will be referred to herein as "this Section."

(2) Legislative Findings.

a. The purpose of this Section is to permit and regulate Dockless Shared Micromobility Devices and Motorized Scooters on Pensacola Beach.

DRAFT

b. The provisions of this Section shall apply to commercial Dockless Shared Micromobility Devices and private Micromobility Devices and Motorized Scooters on Pensacola Beach.

c. For the purpose of this Section 94-9, all Commercial Master Lessees and sublessees of any Commercial Master Lessees operating a business for the sale or rental of Micromobility Devices and Motorized Scooters on Santa Rosa Island and any owner of Micromobility Devices and Motorized Scooters operating Micromobility Devices and Motorized Scooters on Santa Rosa Island for commercial use or private use shall be liable for complying with the provisions of this Section.

(3) Definitions. For the purpose of this Section, the following words and phrases, when used in this Section, shall have the meanings respectively ascribed to them in this subsection. The definitions in Chapter 316, Florida Statutes, as amended, apply to this Section and are hereby incorporated by reference.

a. *Commercial Master Lessee* means any individual, partnership, firm, organization, corporation, association, or any other legal entity, whether singular or plural, who has a lease directly with the SRIA for the possession and use of realty and the improvements thereto used for nonresidential, commercial, governmental, or industrial purposes, and either for itself or through a sublessee of the Commercial Master Lessee owns, operates, redistributes, or rebalances Dockless Shared Micromobility Devices (DSMDs), or operates a Dockless Shared Micromobility Device (DSMD) System on or within Pensacola Beach.

b. *Commercial Core Area of Pensacola Beach* means the predominately commercial district of Pensacola Beach more particularly described as beginning at a point

DRAFT

on the Northerly R/W line of Ft. Pickens Rd. and the Southeast Corner of Block "C", La Caribe, being a subdivision recorded in Plat Book 15, Page 10 of the Public Records of Escambia County, Florida; thence depart said Northerly R/W line and run Northerly along the Easterly Boundary line of La Caribe Subdivision to the water's edge of Little Sabine Bay, thence run Northeasterly, Northerly and Northwesterly along the meanderings of said water's edge of Little Sabine Bay to the Bulkhead of the Bob Sikes Bridge at Pensacola Beach Blvd.; thence continue Easterly along said Bulkhead to the Southerly water's edge of Santa Rosa Sound; thence run Northeasterly, Southwesterly, Southerly, Southeasterly and Easterly along the meanderings of said water's edge of Santa Rosa Sound to a point lying on the extension of the Western Boundary of Lot 3, Block 3, Villa Primera, being a Subdivision recorded in Plat Book 2, Page 78 of the Public Records of Escambia County, Florida; thence Southerly along said Western Boundary of Lot 3 to the Southwest Corner of said Lot 3, Block 3, Villa Primera; thence Easterly along the Southern Boundary of said Lot 3, Block 3, a distance of 35 Ft. to the Northeast Corner of Lot 14, Block 3, Villa Primera Subdivision; thence Southerly along the Eastern Boundary of Lot 14, Block 3, a distance of 93.88 Ft. to the Northerly R/W line of Via De Luna Drive; thence Westerly along said Northerly R/W line of Via De Luna Dr. to a point of intersection with the Northerly extension of the Westerly R/W line of Avenida 10; thence Southerly along said Westerly extension, West R/W line and Southerly extension of Westerly R/W line to the water's edge of the Gulf of Mexico; thence Southwesterly along said water's edge of the Gulf of Mexico to a point of intersection with the Westerly Boundary line of Block H, First Addition to Villa Sabine, being a Subdivision recorded in Plat Book 5, Page 75 of the Public Records of Escambia County, Florida; thence Northwesterly along said Boundary line of Block H to the Northerly R/W of Fort Pickens Rd.; thence Northeasterly along said R/W to the Southeast Corner of Lot 1, Block A, Spanish Landing Subdivision, being a subdivision recorded in Plat Book 8, Page 24 of the Public Records of Escambia County, Florida; thence Northwesterly along the Easterly Boundary line of said Lot 1, Block A, Spanish Landing to the Southerly water's edge of Little Sabine

DRAFT

Bay; thence Northeasterly and Easterly along the Southerly shoreline of said Little Sabine Bay to a point of intersection of the water's edge and the Westerly Boundary line of Deep Water Cove Condominium Phase I; thence Southeasterly along said Westerly Boundary line to the Northerly R/W line of Fort Pickens Rd.; thence Northeasterly along the Northerly R/W line of Fort Pickens Rd. to the Point of beginning. This area is comprised of 222.6 acres, and is generally depicted in the following map:

c. ***Customer*** means a person who uses a Dockless Shared Micromobility Device (DSMD).

d. *Dockless Shared Micromobility Device* (hereinafter "DSMD") means a Micromobility Device or Motorized Scooter made available for shared use or rent to individuals on a short-term basis for a price or fee.

e. *Dockless Shared Micromobility Device (DSMD) System* means a system generally, in which Dockless Shared Micromobility Devices (DSMDs) are made available for shared use or rent to individuals on a short-term basis for a price or fee.

f. *Geofencing* means the use of GPS (Global Positioning System) or RFID (Radio-Frequency Identification) technology to create a virtual geographic boundary, enabling software to trigger a response when a DSMD enters or leaves a particular geographic area.

g. *Micromobility Device* shall have the same meaning as ascribed in Section 316.003, Florida Statutes, as amended. Micromobility Device is further defined as a vehicle that is powered by a motor with or without a seat or saddle for the use of the rider, which is designed to travel on not more than three wheels, and which is not capable of propelling the vehicle at a speed greater than 20 miles per hour on level ground.

h. *Motorized Scooter* means any vehicle or Micromobility Device that is powered by a motor with or without a seat or saddle for the use of the rider, which is designed to travel on not more than three wheels, and which is not capable of propelling the vehicle at a speed greater than 20 miles per hour on level ground.

i. *Pedestrian* means any person utilizing Sidewalks, Sidewalk Areas, or Rights-of-way on foot, and shall include people using wheelchairs or other ADA-compliant devices.

DRAFT

j. *Rebalancing* means the process by which DSMDs are redistributed geographically to ensure their availability throughout a service area and to prevent excessive buildup of DSMDs in a particular geographic area.

k. *Relocate or Relocating* means the process by which DSMDs are relocated and secured at locations or distribution points approved by the SRIA.

l. *Residential Leasehold* means an improved leasehold under a direct lease with the SRIA which is used as a dwelling.

m. *Right(s)-of-way* means the surface and space above and below any real property in which the County has an interest in law or equity, devoted to, associated with, or required for use as a transportation facility, including streets, easements, and sidewalks, but excluding parks.

n. *Santa Rosa Island Authority (SRIA)* means that board created and appointed by the county commissioners of Escambia County to provide oversight of Santa Rosa Island for such purposes as it shall deem to be in the public interests, pursuant to Chapter 24500, Laws of Florida, Special Acts 1947, as amended.

o. *Service Area* means the geographical area approved by the SRIA on or within Pensacola Beach where a Commercial Master Lessee or sublessee of a Commercial Master Lessee or their respective Customers are authorized to operate a DSMD.

p. *Sidewalk* means that portion of a street between the curb line, or the lateral line, of a roadway and the adjacent property lines, intended for use by pedestrians.

q. *Sidewalk Area(s)* include trail in the area of a sidewalk, as well as the sidewalk, and may be a median strip or a strip of vegetation, grass, bushes, trees, street

DRAFT

furniture, or a combination of these between the curb line of the roadway and the adjacent property.

(4) Prohibition.

a. It shall be a violation of this Section to operate a Micromobility Device or Motorized Scooter in the Commercial Core Area of Pensacola Beach.

b. It shall be a violation of this Section to operate a Micromobility Device or Motorized Scooter on any street or roadway which has a posted speed limit greater than 25 miles per hour.

(5) Dockless Shared Micromobility Devices (DSMDs) and Motorized Scooters on Pensacola Beach Public Rights-of-Way Outside of Prohibited Area; Criteria.

a. DSMDs shall not be operated on Pensacola Beach unless a Commercial Master Lessee has received SRIA approval and has entered into a fully executed lease amendment for the operation of DSMDs on Pensacola Beach, or a sublessee has received SRIA approval and has entered into a fully executed sublease with a Commercial Master Lessee.

b. DSMDs are not available for shared use or rent from a Residential Leasehold on Pensacola Beach.

c. If two or more DSMDs from a Commercial Master Lessee are found at a distance of three feet or less from one another on or within Pensacola Beach, it will be presumed that such DSMDs have been deployed by that Commercial Master Lessee, and it will be presumed that the Commercial Master Lessee is in violation of this Section, and the DSMDs are subject to impoundment per subsection 1.(8) herein.

DRAFT

d. To operate DSMDs on Pensacola Beach, a Commercial Master Lessee shall submit an application for such operation with the SRIA using such forms approved by the SRIA, along with a fee of $500.00, which shall be used to assist with offsetting costs to the SRIA related to any administration and enforcement of this Section, as well as a fee in the amount of $100.00 per DSMD proposed to be deployed. Such fees will be refunded if the prospective Commercial Master Lessee or the sublessee of a Commercial Master Lessee is not approved to operate DSMDs. If the SRIA authorizes fewer DSMDs to be deployed than the number proposed, the SRIA shall refund the fees for each DSMD not authorized for deployment.

e. The SRIA approval of a Commercial Master Lessee to operate DSMDs shall include: (i) determination of the terms and conditions of such operation by Commercial Master Lessee, including but not limited to percentage lease fees; and (ii) determination of the total number of DSMDs which may operate on Pensacola Beach.

f. The total number of DSMDs shall be distributed among Commercial Master Lessees approved to operate DSMDs as determined by the SRIA. DSMDs that are impounded shall count towards the maximum permitted DSMDs authorized on or within Pensacola Beach.

g. To the extent allowed by law, the SRIA may from time to time adopt further regulations and policies pertaining to DSMDs which may be necessary to implement this Section and facilitate the safe operation of such devices on Pensacola Beach.

DRAFT

(6) Operation of a Dockless Shared Micromobility Device (DSMD) System; Commercial Master Lessee's Responsibilities and Obligations; Dockless Micromobility Device Specifications.

a. The Commercial Master Lessee or sublessee of a Commercial Master Lessee of a DSMD System is responsible for maintenance of each DSMD.

b. The DSMD shall be restricted to a maximum speed of 15 miles per hour on or within authorized geographic areas of operation on Pensacola Beach.

c. Each DSMD shall predominantly display the Commercial Master Lessee's or sublessee's name and contact information, which may be satisfied by printing the Commercial Master Lessee's or sublessee's Uniform Resource Locator (URL) or providing a code to download the Commercial Master Lessee's or sublessee's mobile application, if any.

d. Commercial Master Lessees or sublessees of a Commercial Master Lessees must comply with all applicable local, state, and federal regulations and laws.

e. As part of the application submitted to the SRIA, Commercial Master Lessees or sublessees of a Commercial Master Lessee must provide to the SRIA an emergency preparedness plan acceptable to the SRIA that details where the DSMDs will be located and the amount of time it will take to secure all DSMDs once a tropical storm or hurricane watch or warning has been issued by the National Weather Service for Pensacola Beach, or once the SRIA or Escambia County has declared any other safety emergency declared by the Board of County Commissioners or the County Administrator.

DRAFT

f. Commercial Master Lessees or sublessees of a Commercial Master Lessee must obtain approval from SRIA, or its designee, regarding when, and where, it is safe to redistribute the DSMDs on or within Pensacola Beach when there is no longer a declared emergency as referenced in subsection 1.(6)e. herein.

g. DSMDs that are inoperable or damaged, improperly parked, blocking ADA accessibility, or do not comply with this Section must be removed by the Commercial Master Lessees or sublessee of a Commercial Master Lessee within one (1) hour upon receipt of a complaint.

    1. An inoperable or damaged DSMD is one that has non-functioning features or is missing components.
    2. A DSMD that is not removed within this timeframe is subject to impoundment and any applicable impoundment fees, code enforcement fees, or penalties per subsections 1.(8) and 1.(10) herein.

h. Commercial Master Lessees or sublessees of a Commercial Master Lessee must provide details on how Customers can utilize the DSMD without a smartphone.

i. Commercial Master Lessees or sublessees of a Commercial Master Lessee must Rebalance the DSMDs daily, unless otherwise agreed in writing with the SRIA.

j. The Commercial Master Lessees', or their respective sublessees', or their respective designees' mobile application and website must inform Customers how to safely and legally ride a DSMD.

k. The Commercial Master Lessees', or their respective sublessees', or their respective designees' mobile application must clearly direct Customers to customer support mechanisms, including but not limited to phone numbers or

DRAFT

websites. Commercial Master Lessees, or their respective sublessees, or their respective designees must provide a staffed, toll-free Customer Service line which must provide support 24 hours per day, 365 days per year.

l. Commercial Master Lessees or sublessees of a Commercial Master Lessee must provide a direct customer service or operations staff contact to SRIA staff.

m. All DSMDs shall comply with the lighting standards set forth in Section 316.2065(7), Florida Statutes, as may be amended or revised, which requires a reflective white light visible from a distance of at least 500 feet and a reflective rear red light visible from a distance of at least 600 feet.

n. All DSMDs shall be equipped with GPS, cell phone, or a comparable technology for the purpose of tracking.

o. All DSMDs must include a kickstand capable of keeping the unit upright when not in use.

p. The only signage allowed on a DSMD is that which identifies the Commercial Master Lessees or sublessees of a Commercial Master Lessee. Third-party advertising is not allowed on any DSMD.

q. DSMDs shall be parked in the same areas authorized for bicycles within the Service Area.

(7) Operation and Parking of Dockless Shared Micromobility Devices (DSMDs) and Motorized Scooters.

a. The riding and operating of DSMDs is permissible upon all Sidewalks, Sidewalk Areas, and other areas a bicycle may legally travel, located on or within Pensacola Beach limits, except the areas listed below:

DRAFT

1. DSMDs and Motorized Scooters are prohibited from operating or parking, at all times, on Streets, Sidewalks, bike paths, Sidewalk Areas, or Rights-of-way within the Commercial Core Area of Pensacola Beach.
2. Micromobility Devices and Motorized Scooters are prohibited from operating or parking, at all times, on any street or roadway, which has a posted speed limit greater than 25 miles per hour, or on any Sidewalks, bike paths, Sidewalk Areas, or Rights-of-way adjacent to any street or roadway, which has a posted speed limit greater than 25 miles per hour.

b. A Customer of a DSMD or Motorized Scooter has all the rights and duties applicable to the rider of a bicycle under Section 316.2065, Florida Statutes, as amended.

c. DSMDs and Motorized Scooters shall be restricted to a maximum speed of 15 miles per hour.

d. A Customer operating a DSMD upon and along a Sidewalk, Sidewalk Area, or across a roadway upon and along a crosswalk, has all the rights and duties applicable to a bicyclist under the same circumstances, and shall yield the right-of-way to any Pedestrian and shall give an audible signal before overtaking and passing such Pedestrian.

e. A Customer operating a DSMD must comply with all applicable local, state, and federal laws.

f. Use of public sidewalks for parking DSMDs or Motorized Scooters shall not:

1. Adversely affect the use of streets or sidewalks;
2. Inhibit pedestrian movement;

DRAFT

3. Inhibit the ingress and egress of vehicles parked on-street or off-street;
4. Create conditions which are a threat to public safety or security;
5. Prevent a minimum four (4) foot pedestrian clear path;
6. Impede access to existing docking stations, if applicable;
7. Impede loading zones, handicap accessible parking zones, or other facilities specifically designated for handicap accessibility, on-street parking spots, curb ramps, business or residential entryways, driveways, travel lanes, bicycle lanes, or be within 15 feet of a fire hydrant; or
8. Violate Americans with Disabilities Act (ADA) accessibility requirements.

g. To the extent Escambia County, the Escambia County Sheriff, and/or the SRIA collect sufficient data, any such party may, but is not required to, request the Board of County Commissioners amend this Section so as to provide for the safety of citizens and visitors. Such data may include, but is not limited to:
1. Number and type of traffic and pedestrian accidents involving DSMDs;
2. Number and type of injuries sustained by riders and non-riders of DSMDs;
3. Number and type of criminal complaints issued (e.g., private property damage or trespass upon private property) involving DSMDs;
4. Number and type of traffic stops made involving DSMDs; and
5. Total amount of resources used to regulate DSMDs and enforce this Section.

(8) Impoundment; Removal or Relocating.

a. Any Shared Micromobility Device that is inoperable or damaged, improperly parked, blocking ADA accessibility, does not comply with this Section, or is left

DRAFT

unattended on public property, including Sidewalks, Sidewalk Areas, Rights-of-way, and parks, may be impounded, removed, or relocated by Escambia County staff, persons under contract with Escambia County, any law enforcement officer, or lifeguard.

1. Unattended or abandoned DSMDs in violation of this Section are a public nuisance.
2. A DSMD is not considered unattended if it is secured in a designated parking area, rack (if applicable), parked correctly, or in another location or device intended for the purpose of securing such device.

b. Any DSMD that is displayed, offered, or made available for rent on or within Pensacola Beach by any person or entity, including but not limited to Commercial Master Lessees or sublessees of a Commercial Master Lessee, without approval by the SRIA is subject to impoundment or Removal, and will be subject to applicable impoundment fees or removal fines as specified in this Section.

c. Escambia County staff, persons under contract with Escambia County, any law enforcement officer, or lifeguard may, but are not obligated to, remove or relocate any DSMD that is in violation of this Section.

1. A Commercial Master Lessee or sublessee of a Commercial Master Lessee shall pay to the agency responsible for impounding or removing a DSMD, a $100.00 fee per device that is removed or relocated, in order to retrieve the impounded or removed DSMD, in additional to any other costs, expenses, and/or towing fees incurred pursuant to this Section.

DRAFT

d. Impoundment shall occur in accordance with Section 713.78, Florida Statutes, as amended. The Commercial Master Lessee or sublessee of a Commercial Master Lessee shall be solely responsible for all expenses, towing fees, and costs required by the towing company to retrieve any impounded Micromobility Device(s). The Commercial Master Lessee or sublessee of a Commercial Master Lessee of a Micromobility Device impounded under this Section will be subject to all liens and terms described under Section 713.78, in addition to payment of all applicable penalties, costs, fines, or fees that are due in accordance with this Section and applicable local, state, and federal law.

(9) High Impact Event on Santa Rosa Island.

a. *High impact event* means an event or gathering on beach property in Escambia County or on Santa Rosa Island or Pensacola Beach during which one (1) or more of the following occur:

1. An event, activity, or period of time that generates a significant spike in social media conversations, increasing audience impressions, and attention to the County, Santa Rosa Island, or Pensacola Beach, which is expected to generate attendance by more than five thousand (5,000) people for an area of beach property;
2. An event is held pursuant to a special permit which is expected to result in attendance by more than twenty-five thousand (25,000) people on beach property;

DRAFT

3. A maintenance of traffic plan would be required, or is required (e.g., including, but not limited to, street closures, lane closures, shuttle service) based upon the high impact event or pursuant to a special event permit;
4. Hotel occupancy levels are anticipated to be greater than eighty-five (85) percent on Santa Rosa Island or Pensacola Beach; or
5. Law enforcement mutual aid or other assistance from outside law enforcement agencies is required to provide for the safety and well-being of residents and visitors to the beach property.

b. Whenever the County Administrator, or his or her designee, determines that a high impact event on beach property will occur, or is in progress, he or she may prohibit or limit the use of DSMDs, Motorized Scooters, and/or the DSMD Systems on or within Pensacola Beach.

c. In the event the County Administrator, or his or her designee, prohibits or limits use of DSMDs, Motorized Scooters, and/or the DSMD System during a high impact event, notice of such action and duration shall be filed with the Clerk of Court and delivered to all appropriate news and social media for publication and to local radio and television stations for broadcast. If practicable, signs may be posted in the impacted area(s) advising of the prohibition or limitation during the duration of such action by Escambia County.

d. Any refusal to comply with the action(s) taken during a high impact event shall be prosecuted in the same manner as misdemeanors are prosecuted and shall be punished by a fine not to exceed $500.00 or by imprisonment in the county jail not

DRAFT

to exceed 60 days or by both such fine and imprisonment, as provided for in Section 1-17 of this Code, or as otherwise allowed by state law.

(10) Enforcement, Fees, Fines, and Penalties.

a. Violations of this Section shall be punished by a fine not to exceed $500.00 or by imprisonment in the county jail not to exceed 60 days or by both such fine and imprisonment, as provided for in Section 1-17 of this Code, or as otherwise allowed by state law.

b. The SRIA reserves the right to suspend any prior Commercial Master Lessee's or sublessee of a Commercial Master Lessee's approval, if there is a violation of this Section, public health, safety or general welfare, or for other good and sufficient cause as determined by the SRIA in its sole discretion, in addition to any other remedies available to the SRIA, including but not limited to lease termination for a default under the master lease between the SRIA and the Commercial Master Lessee.

c. Violations of Operating a DSMD System without SRIA approval shall be fined $250.00 per day for an initial offense, and $500.00 per day for any repeat offenses within thirty (30) days of the last offense by the same Commercial Master Lessee or sublessee of a Commercial Master Lessee. Each day of non-compliance shall constitute a separate offense.

d. The following fees, costs, and fines shall apply to Commercial Master Lessees or sublessees of a Commercial Master Lessee:

DRAFT

Commercial Master Lessee or sublessee of a Commercial Master Lessee Fee	$500.00; non-refundable
One time per unit fee	$100.00 per unit; non-refundable
Removal or Relocation	$100.00 per device
Operating without SRIA approval	$250.00 per day; $500.00 per day for repeat offense

e. At the discretion of the SRIA Executive Director, a Commercial Master Lessee or sublessee of a Commercial Master Lessee is subject to a fleet size reduction or operation approval revocation should the following occur:

   1. If the violations of the regulations set forth in this Section are not addressed by the Commercial Master Lessee or its sublessee in a timely manner as defined under the master lease, as amended, between the SRIA and the Commercial Master Lessee; or
   2. Fifteen (15) unaddressed violations of the regulations set forth in this Section within a 30-day period; or
   3. Submission of inaccurate or fraudulent data by the Commercial Master Lessee or sublessee of a Commercial Master Lessee.

f. In the event of fines being assessed as specified herein or operation approval revocation, the SRIA or County shall provide written notice of the fines or revocation via certified mail informing the Commercial Master Lessee or sublessee of a Commercial Master Lessee of the violations, fines, or revocation.

DRAFT

(11) Data Sharing.

a. All permitted Commercial Master Lessees or sublessees of a Commercial Master Lessee shall provide the County Administrator, or his or her designee, with the following data on a monthly basis in PDF format:

1. Number of DSMDs in circulation;
2. Number of daily, weekly, and monthly Customers;
3. Total number of miles traveled by Customers (daily, weekly, monthly, quarterly, and annually);
4. Average amount of time each DSMD is available (not in use);
5. Number of rides per Customer per day;
6. Number of rides per DSMD per day;
7. Duration of rides per Customer per day;
8. Average duration of Customer per day of the week;
9. Monthly summary of DSMD distribution and GPS-based natural movement in heat map format;
10. Summary of fleet numbers of DSMDs lost to theft and/or vandalism;
11. Summary of Customer comments and complaints, resolution to, and time required to resolve each complaint;
12. Summary of repairs per DSMD per month.

b. Such data shall be provided to the County Administrator, or his or her designee, within the first five (5) business days of each month. Failure to comply will result in a suspension of a Commercial Master Lessee's or sublessee of a Commercial Master Lessee's approval to operate DSMDs.

DRAFT

(12) Indemnification and Insurance.

a. As a condition of Commercial Master Lessee or sublessee of a Commercial Master Lessee approval by the SRIA, the Commercial Master Lessee or sublessee of a Commercial Master Lessee agrees to indemnify, hold harmless, and defend the SRIA and the County, its representatives, employees, and elected and appointed officials, from and against all ADA accessibility claims and any and all liability, claims, damages, suits, losses, and expenses of any kind, including reasonable attorney's fees and costs for appeal, associated with or arising out of the use of right-of-way or county-owned property for DSMD operations, or arising from any negligent act, omission, or error of the Commercial Master Lessee or sublessee of a Commercial Master Lessee, its agents or employees, or from failure of the Commercial Master Lessee or sublessee of a Commercial Master Lessee, its agents, or employees, to comply with each and every requirement of this Ordinance, or with any other federal, state, or local traffic law or any combination of the same.

b. Prior to commencing DSMD operation on Pensacola Beach, the Commercial Master Lessee or sublessee of a Commercial Master Lessee shall provide and maintain such liability insurance, property damage insurance, and any other specified coverages in amounts and types as determined by the SRIA, necessary to protect the SRIA and the County, its representatives, employees, and elected and appointed officials, from all claims and damage to property or bodily injury, including death, which may arise from any aspect of DSMD operation.

DRAFT

c. A Commercial Master Lessee or sublessee of a Commercial Master Lessee shall include language in an amendment to the master lease or in the sublease that requires, to the fullest extent permitted by law, the Customer to fully release, indemnify, and hold harmless the SRIA and the County.

d. The Commercial Master Lessee or sublessee of a Commercial Master Lessee shall provide proof of all required insurance prior to receiving SRIA approval to operate DSMDs.

Section 2. Severability. If any section, sentence, clause or phrase of this Ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then the holding shall in no way affect the validity of the remaining portions of this Ordinance.

Section 3. Conflict with Other Ordinances and Codes. All ordinances or parts of ordinances of Escambia County in conflict with the provisions of this Ordinance are hereby repealed to the extent of such conflict.

Section 4. Inclusion in the Code. It is the intention of the Board of County Commissioners that the provisions of this ordinance shall be codified as required by Section 125.68, Florida Statutes, and the sections, subsections and other provisions of this ordinance may be renumbered or re-lettered and the word “ordinance” may be changed to “section,” “article,” or such other appropriate word or phrase in order to accomplish such intentions.

Section 5. Effective Date. This Ordinance shall become effective upon filing with the Department of State.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17754 **County Attorney's Report 12. 1.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: Escambia County State of Local Emergency, Letters, Grants, Contracts and Agreements
From: ALISON ROGERS, County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:

Recommendation Concerning Escambia County State of Local Emergency, Letters, Grants, Contracts and Agreements.

That the Board discuss and consider the following actions:

A. Ratification of Escambia County State of Local Emergency Resolution R2020-36, R2020-37, R2020-38 and R2020-39; and

B. Ratification of Letters to Senators and Representative regarding Naval Hospital Pensacola; and

C. Ratification of Small Business COVID-19 Recovery Grant; and

D. Ratification of Memorandum of Understanding for Sterilization Services; and

E. Ratification of Memorandum of Understanding for manufacturing Face Shields; and

F. Extension of Escambia County State of Local Emergency.

BACKGROUND:

Due to the COVID-19 pandemic and attendant federal and state declarations of emergency, the Board has continued under a state of local emergency pursuant to ch. 37 of the Escambia County Code of Ordinances and ch. 252, Fla. Stat. since March 16, 2020. During the state of local emergency, both the Chairman of the Board and the Administrator have executed documents related to the pandemic

response, including extending the state of local emergency. Those documents are reflected in items A. through E. of the recommendation. As Governor DeSantis' Executive Order 20-112 provides for a partial reopening of the state's economy, item F. would continue the state of local emergency through 1:59 p.m. on May 18, 2020.

RESOLUTION R2020-36
DECLARATION OF STATE OF LOCAL EMERGENCY

A RESOLUTION OF THE CHAIRMAN OF THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, EXTENDING THE DECLARATION OF A STATE OF LOCAL EMERGENCY RELATED TO THE NOVEL CORONAVIRUS DISEASE 2019 (COVID-19)

WHEREAS, the World Health Organization (WHO) raised its assessment of the Coronavirus Disease 2019 ("COVID-19") threat from high to very high and declared a public health emergency of international concern related to COVID-19; and

WHEREAS, the Centers for Disease Control and Prevention has declared the potential public health threat posed by COVID-19 as "high", both in the United States and throughout the world; and

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-51 declaring that appropriate measures to control the spread of COVID-19 in the State of Florida are necessary and, therefore, directed that a Public Health Emergency be declared in the State of Florida; and

WHEREAS, on March 9, 2020, Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency in the State of Florida regarding the COVID-19 pandemic; and

WHEREAS, Escambia County has a duty to take protective measures to support the public health and safety of the community; and

WHEREAS, the Chairman of the Board of County Commissioners of Escambia County has been informed by its emergency management staff of the continued threat posed by COVID-19; and

WHEREAS, COVID-19 and infectious diseases have the capacity to pose a significant, imminent, and dangerous threat to the health, safety, and welfare of the inhabitants of Escambia County, Florida, visitors and tourists in Escambia County, Florida, as well as to their real and personal property; and

WHEREAS, the COVID-19 virus has the propensity to attach to surfaces for prolonged periods of time, thus causing property damage and continuing the spread of the virus; and

WHEREAS, previous States of Local Emergency were established by Resolutions R2020-24, R2020-25, R2020-26 and R2020-35 declaring a state of local emergency that shall expire at 1:59 p.m. on the 13th day of April 2020; and

WHEREAS, the Chairman of the Board of County Commissioners has been informed of risks facing Escambia County and considered whether or not to continue a state of local emergency.

NOW THEREFORE, pursuant to ch. 252, Fla. Stat., and Escambia County Code Section 37-35(a)(1), the Chairman of the Board of County Commissioners hereby resolves, finds, and declares:

1. The above recitals are true and are incorporated herein.

2. A state of local emergency hereby continues to exist in Escambia County, Florida, effective for seven (7) additional days beginning at 2:00 p.m., central daylight time, on the 13th day of April, 2020, and to expire at 1:59 p.m., central daylight time, on the 20th day of April, 2020.

3. The Chairman of the Board of County Commissioners, hereby waives the procedures and formalities otherwise required of Escambia County pertaining to:

    a. Performance of public work and taking whatever prudent action is necessary to insure the health, safety, and welfare of the community.

    b. Entering into contracts.

    c. Incurring obligations.

    d. Employment of permanent and temporary workers.

    e. Utilization of volunteer workers.

    f. Rental of equipment.

    g. Acquisition and distribution, with or without compensation, of supplies, materials, and facilities.

    h. Appropriation and expenditure of public funds.

4. The County Administrator, or her designee, is hereby empowered, authorized, and directed to exercise, on behalf of the Board of County Commissioners, such emergency powers necessary to carry out the provisions of Chapter 252, Florida Statutes, including, but not limited to, the powers to

direct and compel evacuation of all or part of the population from stricken or threatened areas within the County, if such action is deemed necessary to reduce the vulnerability of people in communities of Escambia County to damage, injury, and loss of life and property resulting from the imminent threat, as well as any other powers expressly or implicitly conferred pursuant to Chapters 125 and 252, Florida Statutes, and any other provision of law or county ordinance.

5. The Comprehensive Emergency Management Plan (CEMP) is hereby activated.

6. This authority shall extend only for the period of the state of local emergency, as determined by the County Administrator or her designee, or until further action by the Board of County Commissioners, or until the Board terminates such authority or declares that the state of local emergency has ended.

7. This Resolution shall be transmitted to the Secretary of State upon adoption.

Adopted this 8th day of April, 2020.

    h. Appropriation and expenditure of public funds.

4. The County Administrator, or her designee, is hereby empowered, authorized, and directed to exercise, on behalf of the Board of County Commissioners, such emergency powers necessary to carry out the provisions of Chapter 252, Florida Statutes, including, but not limited to, the powers to

direct and compel evacuation of all or part of the population from stricken or threatened areas within the County, if such action is deemed necessary to reduce the vulnerability of people in communities of Escambia County to damage, injury, and loss of life and property resulting from the imminent threat, as well as any other powers expressly or implicitly conferred pursuant to Chapters 125 and 252, Florida Statutes, and any other provision of law or county ordinance.

5. The Comprehensive Emergency Management Plan (CEMP) is hereby activated.

6. This authority shall extend only for the period of the state of local emergency, as determined by the County Administrator or her designee, or until further action by the Board of County Commissioners, or until the Board terminates such authority or declares that the state of local emergency has ended.

7. This Resolution shall be transmitted to the Secretary of State upon adoption.

Adopted this 28th day of April, 2020.

Telefax (850) 595-4908

The Honorable Matt Gaetz
226 Palafox Place, Suite 600
Pensacola, FL 32502

April 9, 2020

Dear Representative Gaetz,

On behalf of the Escambia County Board of County Commissioners, please know that we are working to put in place a COVID-19 plan that will both protect the citizens of Northwest Florida and serve to further the nation's military mission. To this end, Escambia County leadership is coordinating with the City of Pensacola, the US Navy and our local civilian hospitals to include Baptist Health Care, Ascension Sacred Heart Hospital and West Florida Healthcare. All parties are concerned about the prospect of the local health care capacity being pushed beyond its limits.

To address this concern, we propose and support a plan to capitalize on the underutilization of the Naval Hospital Pensacola, by designating that in the event of capacity issues at our civilian hospitals, Naval Hospital Pensacola would become the Non-COVID hospital for this area. The three civilian hospitals would then concentrate on treatment of COVID positive cases. It is understood that as part of this plan, there may be need for sharing of personnel, PPE and other supplies as well as space between and among these facilities.

Our request of you is to ask that you please support this contingency plan to utilize the Pensacola Naval Hospital and further, that you make the request that this plan be supported through the appropriate federal government channels to allow for this arrangement to be approved by FEMA should the need arise.

We are thankful that we are not in immediate need to utilize this plan, but as the circumstances are rapidly evolving, please take steps to allow for the appropriate authorization.

If you have additional questions, please contact our Administrator at 850-595-4947.

Sincerely,

Steven Barry,
Chairman, Escambia County Board of County Commissioners

UNIVERSITY of WEST FLORIDA | UWF Foundation, Inc.

THE UNIVERSITY OF WEST FLORIDA FOUNDATION, INC.

Escambia County, FL Small Business COVID-19 Recovery Grant Fund
GIFT AGREEMENT
April 9, 2020

Escambia County, a political subdivision of the State of Florida ("Donor"), requests that the University of West Florida Foundation, Inc. ("Foundation"), use the funds as outlined below. This gift and any future contributions to this fund are to be held by the University of West Florida Foundation, Inc., and administered in accordance with Foundation policies (see www.uwf.edu/foundation) with a total administrative fee of 3% for each gift to the fund. The fund will be administered under the following guidelines:

1. The name of the fund is the **Escambia County, Florida Small Business COVID-19 Recovery Grant Fund.**

2. The manager of the fund is the University of West Florida Foundation, Inc.

3. The fund will provide funding to the UWF Small Business Development Center to provide financial support to small businesses within Escambia County, Florida that have been financially impacted by the Covid-19 emergency and that could benefit from grants to assist with financial recovery. This financial support would include direct grant funds in the range of $2,500.00 per business based on SBDC criteria.

4. The Donor or others may from time to time make additional gifts which shall be added to the principal of the fund. Such additional gifts shall be subject to the terms of this agreement.

5. An annual report will be prepared by Foundation officials and mailed to the Donor representative, if requested. Also, a representative from the Office of Development will be available to meet, annually or as needed, with Escambia County representatives to review additional details of the fund.

6. In the unlikely event the needs outlined above in #3 should cease to exist, the Foundation shall return to Escambia County all funds not awarded, minus the administrative fee.

7. The fund will bear the name **Escambia County, Florida Small Business COVID-19 Recovery Grant Fund** for as long as the fund is in existence.

The Foundation and the Donor have signed on the dates shown below.

MEMORANDUM OF UNDERSTANDING
FOR
STERILIZATION SERVICES

THIS MEMORANDUM OF UNDERSTANDING (the "MOU") is made and entered into as of the date of the last signature below ("Effective Date") by and between Baptist Hospital, Inc. ("Donor) and Escambia County Board of County Commissioners ("Donee").

WHEREAS, as a result of the global pandemic caused by COVID-19, the need for N95 face masks ("PPE") has outpaced the supply available to health care organizations and first responders; and

WHEREAS, the Donee has a shortage of PPE and desires the services of Donor to sterilize the PPE for re-use by Donee's workforce; and

WHEREAS, Donor is not in the business of sterilizing PPE for third party or commercial use outside of its own workforce; does not maintain product liability, general liability, or other liability insurance for such a process; does not hold itself out to the public as being in the sterilization business; and does not seek to make a profit from the sterilization of PPE; and

WHEREAS, in response to Donee's request, and solely for the purpose of helping Donee save lives during the COVID-19 pandemic when PPE is unavailable, Donor is willing to utilize its internal UV sterilization process and equipment to sterilize PPE for Donee's use (the "Sterilization Services") at no charge, provided that Donee agrees to the terms of this MOU.

NOW, THEREFORE, in consideration of the foregoing recitals, and intending to be legally bound, the Parties to this MOU agree as follows:

1. Obligations of Donor. Subject to the terms of this MOU, Donor agrees to accept Donee's used PPE; treat it in accordance with Donor's internal UV sterilization process; and return it to Donee.

2. Obligations of Donee. In consideration for the receipt of Donor's Sterilization Services:

    2.1. Donee understands, acknowledges and agrees that Donor is not, pursuant to this MOU or its performance of the Sterilization Services, assuming responsibility for any aspect of Donee's use, attempted use, or non-use of the PPE.

    2.2. Donee assumes sole and exclusive responsibility for all aspects of Donee's use, attempted use, or non-use of the PPE sterilized by Donor.

    2.3. Donee acknowledges and agrees that Donor has not and will not be providing Donee with any medical advice or advice regarding the use of the PPE. Donee acknowledges that the Sterilization Services utilized by Donor have not been reviewed, approved or cleared by the FDA, CDC, or any regulatory body. Donee acknowledges and agrees that it is receiving the Sterilization Services for its own use only and not for resale to any third party.

DocuSign Envelope ID: D84BADE5-1F9A-4369-B745-B307502A0D79

2.4. Donee is fully aware of, and assumes, the potential risks involved and potential hazards connected with its workforce's use of the PPE after receiving the Sterilization Services, including without limitation the risk that the Sterilization Services may not be as effective as utilizing new PPE and that the Sterilization Services may degrade the effectiveness of the PPE. Donee hereby elects to voluntarily receive and accept the Sterilization Services with the full knowledge of these risks and hazards, and agrees that any obligation to disclose these risks to the users of the PPE is the sole obligation of Donee and not Donor.

2.5. Donee agrees to abide by all applicable federal, state and local laws, ordinances regulations and policies related to the use of the PPE or any other obligations hereunder.

2.6. Donee agrees that it is responsible for any injuries to persons or property which may be incurred in connection with the use of PPE treated by the Sterilization Services.

3. Release. In consideration for receiving the Sterilization Services from Donor, Donee hereby releases Donor, its affiliates, and their employees, agents, and directors (the "Released Parties"), from all actions, causes of actions, damages, claims or demands which Donee or its successors, administrators, employees, contractors, or assigns may have against any or all of the Released Parties for any and all claims arising out of or related to this MOU or the Sterilization Services, including but not limited to, personal injuries or damage to any property or disruption of any business, known or unknown. This release is effective whether or not such a claim was foreseeable to Donor and whether or not such claim was the result of negligence, gross negligence, or intentional or reckless behavior on the part of Donor.

4. Indemnification. Donee hereby agrees to indemnify, defend and hold harmless the Released Parties from any actual loss, liability, damage or cost (collectively referred to as a "Claim") arising from, or in connection with, the Sterilization Services received by Donee pursuant to this MOU. Donee expressly agrees that the foregoing release and indemnification is intended to be as broad and inclusive as its terms provide, to the extent permitted by the law of the State of Florida, and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect. The foregoing obligations of Donee are applicable to the Released Parties only and do not give any rights to third parties.

5. **DISCLAIMER OF WARRANTY**: THE STERILIZATION SERVICES ARE PROVIDED "AS IS" WITHOUT ANY WARRANTY, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. DONOR MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING THE QUALITY, NATURE, CONDITION, OR EFFECTIVENESS OF THE STERILIZATION SERVICES. DONEE FREELY AND VOLUNTARILY RECEIVES, ACCEPTS AND EXPRESSLY ASSUMES ALL RISKS, DANGERS, HAZARDS THAT MAY ARISE FROM THE STERILIZATION SERVICES AND/OR ANY ACTIVITIES THAT COULD RESULT IN PERSONAL INJURY, LOSS OF LIFE AND/OR PROPERTY DAMAGE.

DocuSign Envelope ID: D84BADE5-1F9A-4369-B745-B307502A0D79

6. Third Parties. Donor is not liable for the acts of third parties or the consequences of the acts of third parties. There shall be no third-party beneficiaries to this MOU.

7. Governing Law and Venue. This MOU is governed by the laws of the State of Florida, without regard to its conflicts of law principles. Exclusive venue of any actions shall be in the state courts of Escambia County, Florida where the Sterilization Services are being provided.

8. Voluntary Agreement. This MOU contains important legal commitments, releases and waivers. By signing below, the signatories acknowledge that they fully understand the terms of this MOU and are entering into it knowingly and voluntarily. This MOU shall not be construed against either party as the drafter.

9. Term, Termination, Suspension, and Notice. This MOU shall be effective as of the Effective Date and thereafter for a period of one (1) year. Either Party may terminate this MOU with or without cause upon no less than seven (7) days written notice to the other. Notice shall be provided via electronic mail to the addresses set forth in the signature blocks below. Notwithstanding anything herein to the contrary, Donee acknowledges that the Sterilization Services may become unavailable to it as a result of high volume, equipment failure, or other circumstances that would make the Sterilization Services too disruptive to the operations of Donor. In such circumstances, Donor may suspend the Sterilization Services without prior notice to Donee for such period of time as deemed necessary by Donor.

10. Relationship of the Parties. Each of the parties is an independent contractor and nothing in the MOU shall designate any of the employees or agents of one party as employees or agents of the other.

In consideration of the foregoing, the mutual promises herein made and exchanged, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties, through their duly authorized representatives, hereby agree to the terms of this MOU.

UNIVERSITY OF WEST FLORIDA BUSINESS ENTERPRISES, INC.
AND ESCAMBIA COUNTY, FLORIDA
MEMORANDUM OF UNDERSTANDING

THIS MEMORANDUM OF UNDERSTANDING (the "MOU") is made and entered into by and between the University of West Florida Business Enterprises, Inc. (the "UWF BEI", a direct support organization of the University of West Florida Board of Trustees) and Escambia County, a political subdivision of the State of Florida ("Donee"). UWF BEI and Donee are each referred to herein as a "Party" and collectively as the "Parties".

WHEREAS, as a result of the global pandemic caused by coronavirus disease 2019 ("COVID-19"), the need for certain medical devices and medical supplies, including face shields and other personal protective equipment ("PPE"), has outpaced the supply available to health care organizations because of the high demand and overall interruptions to the global supply chain;

WHEREAS, the Food and Drug Administration ("FDA") and the Centers for Disease Control and Prevention have recognized an ongoing national shortage of medical supplies, and have determined that various technologies and organizations not typically involved in the manufacture of medical devices may be deployed to assist in meeting demand for certain essential products during the COVID-19 pandemic when conventional products are unavailable or when traditional manufacturers cannot meet demand;

WHEREAS, the Donee has a shortage of face shields and has requested that UWF BEI manufacture disposable acrylic face shields (the "Face Shields") for use in its clinical setting by its healthcare providers;

WHEREAS, the UWF BEI has access to certain fabrication instruments that can be re-purposed to produce the Face Shields; however, the UWF BEI does not presently and has not previously manufactured PPE or other medical devices including Face Shields, does not maintain product liability insurance for such devices, is not in and does not hold itself out to the public as being in the manufacturing business, and does not seek to make a profit from the production of Face Shields;

WHEREAS, in response to Donee's request, and solely for the purpose of helping Donee save lives during the COVID-19 pandemic when conventional face shields and other PPE are unavailable, the UWF BEI is willing to re-purpose the fabrication instruments to manufacture an agreed-upon number of Face Shields and provide such Face Shields to Donee at no charge, provided that Donee agrees to the terms of this MOU and the attached UWF BEI Addendum ("Addendum"), the terms of which are incorporated herein by reference; and

WHEREAS, UWF BEI is donating the Face Shields to selected donees and Donee wishes to receive the Face Shields donated by UWF BEI; and

WHEREAS, UWF BEI requires all donees to enter into this Agreement as a condition of receiving donated Face Shields

NOW, THEREFORE, in consideration of the foregoing recitals, and intending to be legally bound, the Parties to this MOU agree as follows:

1. Obligations of UWF BEI. Subject to the terms of this MOU and the Addendum, the UWF BEI agrees to donate Face Shields to Donee, without cost, to the extent feasible in light of the fact that the current emergency may result in a Force Majeure event limiting the UWF BEI's ability to produce the agreed upon number of Face Shields. Upon the parties' determination of the number of Face Shields to be produced, the UWF BEI shall issue Donee a written acknowledgment. The UWF BEI may issue Donee multiple written acknowledgments as requested by Donee.

2. Obligations of Donee. In consideration for the receipt of an agreed-upon number of Face Shields:

2.1 Donee understands, acknowledges and agrees that UWF BEI is not, pursuant to this MOU or its production of Face Shields, assuming responsibility for any aspect of Donee's use, attempted use, or non-use of the Face Shields.

2.3 Donee assumes sole and exclusive responsibility for all aspects of Donee's use, attempted use, or non-use of the Face Shields.

2.4 Donee acknowledges and agrees that UWF BEI has not and will not be providing Donee with any medical advice or advice regarding the use of the Face Shields. Donee acknowledges that the Face Shields have not been reviewed, approved or cleared by the FDA as medical devices. Donee acknowledges and agrees that the Face Shields are only to be used by trained healthcare workers when utilizing other FDA-cleared or approved PPE (if available) such as N-95 respirators, and only when FDA-cleared or approved face shields are unavailable. Donee agrees to inform each of its employees of the foregoing use restrictions prior to distributing any Face Shield to any employee. Donee acknowledges and agrees that it is receiving the Face Shields for its own use only and not for resale to any third party.

2.5 Donee is fully aware of, and assumes, the potential risks involved and potential hazards connected with its employees' use of the Face Shields, including without limitation the risk that employees wearing the Face Shield may be exposed to the coronavirus or other pathogens. Donee hereby elects to voluntarily receive and accept the Face Shields with the full knowledge of these risks and hazards, and to disclose these risks and hazards to its employees prior to any use of the Face Shields.

2.6 Donee acknowledges and agrees to convey to the users of the Face Shields the instructions, warnings, disclaimers and other information provided on, with, or alongside the Face Shields.

3. Release. In consideration for receiving the Face Shields from the UWF BEI, Donee hereby releases the State of Florida, the University of West Florida Board of Trustees and the UWF BEI, as well as their officers, directors, agents, and employees (the "Released Parties"), from all actions, causes of actions, damages, claims or demands which Donee or its successors, administrators, or assigns may have against any or all of the Released Parties for any and all personal injuries or damage to any property or disruption of any business, known or unknown, which Donee has or may incur by use of the Face Shields. Donee is responsible for any injuries to persons or property which may be incurred in connection with the Face Shields.

4. Indemnification. To the extent permitted by law and subject to the limitations provided in §768.28, Florida Statutes, Donee hereby agrees to indemnify, defend and hold harmless the Released Parties

from any actual loss, liability, damage or cost (collectively referred to as a "Claim") arising from, or in connection with, the Face Shields received by Donee pursuant to this MOU. Donee expressly agrees that the foregoing release and indemnification is intended to be as broad and inclusive as its terms provide, to the extent permitted by the law of the State of Florida, and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect. The foregoing obligations of Donee are applicable to the Released Parties only and do not give any rights to third parties. Nothing herein is intended to serve as a waiver of sovereign immunity by either party beyond the waiver provided by §768.28, Florida Statutes, and nothing herein shall be construed as consent by either party to be sued by third parties in any matter arising out of this Agreement.

5. **DISCLAIMER OF WARRANTY**: THE FACE SHIELDS ARE PROVIDED "AS IS" WITHOUT ANY WARRANTY, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE UNIVERSITY MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING THE QUALITY, NATURE, CONDITION, OR COMPOSITION OF THE FACE SHIELDS. DONEE FREELY AND VOLUNTARILY RECEIVES, ACCEPTS AND EXPRESSLY ASSUMES ALL RISKS, DANGERS, HAZARDS THAT MAY ARISE FROM THE FACE SHIELDS AND/OR ANY ACTIVITIES THAT COULD RESULT IN PERSONAL INJURY, LOSS OF LIFE AND/OR PROPERTY DAMAGE.

6. Governing Law and Venue. This MOU is governed by the laws of the State of Florida, without regard to its conflicts of law principles. Exclusive venue of any actions shall be in the state courts of Escambia County, Florida. The University is entitled to the full benefits of sovereign immunity.

7. Voluntary Agreement. This MOU contains important legal commitments, releases and waivers. By signing below, the signatories acknowledge that they fully understand the terms of this MOU and are entering into it knowingly and voluntarily. This MOU shall not be construed against either Party as the drafter.

(intentionally left blank)

In consideration of the foregoing, the mutual promises herein made and exchanged, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties, through their duly authorized representatives, hereby agree to the terms of this MOU.

Approved as to form and legal sufficiency.

By/Title:

Date: 4/16/2020

UNIVERSITY OF WEST FLORIDA BUSINESS ENTERPRISES, INC.

1. Incorporation by Reference. The University of West Florida Business Enterprises, Inc. ("UWF BEI") and the undersigned ("Donee") hereby incorporate this Supplemental Addendum ("Addendum") into the Memorandum of Understanding between UWF BEI and Donee (the "Agreement") dated of even date herewith.

2. Purpose. The purpose of this Addendum is as described in the Agreement.

3. Relationship of the Parties. Each of the parties is an independent contractor and nothing in the Agreement shall designate any of the employees or agents of one party as employees or agents of the other. Donee is not authorized to bind UWF BEI to any contracts or other obligations.

4. Confidentiality. To the extent Donee has access to UWF BEI information (e.g., financial, business, strategic, health or student records), Donee agrees to maintain the confidentiality of such information and shall not disclose, discuss, or divulge any such information other than as directly and expressly required to fulfill Donee's obligations under the Agreement or as other required by law.

5. Public Records. UWF BEI is subject to Chapter 119 of Florida Statutes, known as the Public Records Law, under certain circumstances. The Agreement, this Addendum and any related documents and/or correspondence shall also become a public record subject to the Public Records Law if required by law, regardless of any confidentiality provision outlined in the Agreement. UWF BEI may unilaterally cancel the Agreement for Donee's refusal to allow public access to public records related to the Agreement. Additionally, Donee shall comply with all applicable requirements of the Public Records Laws, particularly if Donee is a "Contractor" as defined under § 119.0701, F.S. This provision shall survive the expiration or termination of the Agreement. The parties do not anticipate that Donee is a "Contractor" of UWF BEI under the foregoing statute.

6. Work Product. All right, title and interest in and to any invention, work product, idea or creation conceived, developed or produced during the provision of goods/services/benefits under the Agreement (including, but not limited to writing, copyrights, trademarks, creative, copy, scripts, story boards, art, music, software and documentation, ideas, charts, graphics, plans, proposals, business systems or ideas, and research projects) if created by UWF BEI shall be property of UWF BEI, or if created jointly with the Donee shall be owned jointly by the Parties. This provision shall survive the expiration or earlier termination of the Agreement. If appropriate, UWF BEI may offer Donee a license to use the Work Product, such terms to be mutually agreed to by the parties.

7. LIMITATION OF LIABILITY. IN NO EVENT SHALL EITHER PARTY BE LIABLE FOR INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND, EVEN IF A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE PARTIES AGREE TO THE ALLOCATION OF RISK SET FORTH HEREIN.

8. Compliance. Donee agrees to abide by all applicable federal, state, local and UWF BEI laws, ordinances regulations and policies, specifically including without limitation those pertaining to the privacy and use of student records, health information, and other UWF BEI data.

9. Publicity. Donee shall not make any announcements relating to the Agreement, nor shall Donee use UWF BEI's name, trademarks, logos or marks, without the prior written approval from UWF BEI in each instance.

10. Insurance. UWF BEI, as a public body corporate and direct support organization, warrants and represents that it is self-funded for general liability insurance, with said protection being applicable to officers, employees, servants, and agents while acting within the scope of their employment by UWF BEI. Any provision requiring UWF BEI to provide or acquire insurance coverage other than such self-insurance shall not be effective.

11. Force Majeure. If, as a result of an act of force majeure, including without limitation, an act of God, war, riot, labor dispute, strike or threat thereof, intervention of a governmental agency, pandemic, or the occurrence beyond the control of either party, the obligations of this Agreement cannot be carried out, then either party, upon notifying the other, shall have the right to suspend performance until the event of force majeure has passed. If UWF BEI intends to invoke this provision, it shall immediately notify Donee.

12. Third Parties. Neither party shall be liable for the acts of third parties or the consequences of the acts of third parties. There shall be no third-party beneficiary to the Agreement.

13. Conflicts. Donee represents that it is aware of the requirements of Chapter 112, Florida Statutes and, to the best of its knowledge, in compliance with the requirements thereof, and other laws and regulations concerning conflicts of interests in dealing with entities of the State of Florida. Violation of this section shall be grounds for termination of the Agreement.

14. Termination. Upon giving at least thirty (30) days' written notice to Donee, UWF BEI may terminate the Agreement without penalty.

15. Notices. All notices required to be given under the Agreement shall be sent by certified mail to: University of West Florida Business Enterprises, Inc., Attn: Dr. Ed Ranelli, Bldg. 10, 11000 University Parkway, Pensacola, Florida 32514.

16. Deletion. Any term and/or condition in the Agreement on the following subject matters are hereby deleted in their entirety and declared null and void: (a) Grants of exclusivity by UWF BEI to Donee; (b) Restrictions on the hiring of Donee's employees; (c) UWF BEI's responsibility to pay intangible taxes, property taxes, or sales taxes; (d) Automatic renewals of the term of the Agreement; (e) Limitation of time to bring suit; (f) that UWF BEI performs reporting functions and/or maintains certain types of operations (g) Granting Donee any right to audit UWF BEI; (h) Attorneys' or collection fees provisions; (i) Arbitration and mediation clauses; and (j) Indemnification of Donee by UWF BEI.

17. Assignment. Donee may not, without the advance written approval of UWF BEI, not to be unreasonably withheld, assign any right or duties under the Agreement, or transfer, pledge, surrender or otherwise encumber its interest in any portion of the Agreement. Any assignment made without UWF BEI's consent shall be, at UWF BEI's option, null and void. No subcontracting or delegation shall in any event relieve Donee of any obligation or liability under the Agreement.

18. Entire Agreement. In the event of inconsistency between the Agreement and this Addendum, the Agreement will govern. This Addendum and the Agreement embody the entire agreement of the parties, and there are no other representations, promises, agreements, conditions or understandings, either oral or written, between UWF BEI and Donee other than are set forth therein. Any renewals, amendments, alterations or modifications to the Agreement must be signed or initialed and approved by all signatories of the Agreement. To be clear, the Agreement shall not auto-renew and must be upon the written agreement of the parties.

19. Signatures. The parties represent and warrant that any person signing the Agreement has the authority to do so and that such signature shall be sufficient to bind Donee. The Agreement may be signed electronically and shall be considered signed if/when a party's signature is delivered by facsimile or e-mail transmission of a ".pdf" format date file, including via DocuSign. Such signature shall be treated in all respects as having the same force and effect as an original signature.

By signing below, Donee's authorized representative agrees to incorporate this Addendum into the Agreement, and hereby executes this Addendum as of the date set forth below.

RESOLUTION R2020-_____
DECLARATION OF STATE OF LOCAL EMERGENCY

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA, EXTENDING THE DECLARATION OF A STATE OF LOCAL EMERGENCY RELATED TO THE NOVEL CORONAVIRUS DISEASE 2019 (COVID-19)

WHEREAS, the World Health Organization (WHO) raised its assessment of the Coronavirus Disease 2019 ("COVID-19") threat from high to very high and declared a public health emergency of international concern related to COVID-19; and

WHEREAS, the Centers for Disease Control and Prevention has declared the potential public health threat posed by COVID-19 as "high", both in the United States and throughout the world; and

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-51 declaring that appropriate measures to control the spread of COVID-19 in the State of Florida are necessary and, therefore, directed that a Public Health Emergency be declared in the State of Florida; and

WHEREAS, on March 9, 2020, Governor Ron DeSantis issued Executive Order 20-52 declaring a State of Emergency in the State of Florida regarding the COVID-19 pandemic; and

WHEREAS, Escambia County has a duty to take protective measures to support the public health and safety of the community; and

WHEREAS, the Board of County Commissioners of Escambia County has been informed by its emergency management staff of the continued threat posed by COVID-19; and

WHEREAS, COVID-19 and infectious diseases have the capacity to pose a significant, imminent, and dangerous threat to the health, safety, and welfare of the inhabitants of Escambia County, Florida, visitors and tourists in Escambia County, Florida, as well as to their real and personal property; and

WHEREAS, the COVID-19 virus has the propensity to attach to surfaces for prolonged periods of time, thus causing property damage and continuing the spread of the virus; and

WHEREAS, previous States of Local Emergency were established by Resolutions R2020-24, R2020-25, R2020-26, R2020-35, R2020-36, R2020-37, R2020-38 and R2020-39 declaring a state of local emergency that shall expire at 1:59 p.m. on the 11th day of May 2020; and

WHEREAS, the Board of County Commissioners has been informed of risks facing Escambia County and considered whether or not to continue a state of local emergency.

NOW THEREFORE, pursuant to ch. 252, Fla. Stat., and Escambia County Code Section 37-35(a)(1), the Board of County Commissioners hereby resolves, finds, and declares:

1. The above recitals are true and are incorporated herein.

2. A state of local emergency hereby continues to exist in Escambia County, Florida, effective for seven (7) additional days beginning at 2:00 p.m., central daylight time, on the 11th day of May, 2020, and to expire at 1:59 p.m., central daylight time, on the 18th day of May, 2020.

3. The Board of County Commissioners, hereby waives the procedures and formalities otherwise required of Escambia County pertaining to:

   a. Performance of public work and taking whatever prudent action is necessary to insure the health, safety, and welfare of the community.

   b. Entering into contracts.

   c. Incurring obligations.

   d. Employment of permanent and temporary workers.

   e. Utilization of volunteer workers.

   f. Rental of equipment.

   g. Acquisition and distribution, with or without compensation, of supplies, materials, and facilities.

   h. Appropriation and expenditure of public funds.

4. The County Administrator, or her designee, is hereby empowered, authorized, and directed to exercise, on behalf of the Board of County Commissioners, such emergency powers necessary to carry out the provisions of Chapter 252, Florida Statutes, including, but not limited to, the powers to

direct and compel evacuation of all or part of the population from stricken or threatened areas within the County, if such action is deemed necessary to reduce the vulnerability of people in communities of Escambia County to damage, injury, and loss of life and property resulting from the imminent threat, as well as any other powers expressly or implicitly conferred pursuant to Chapters 125 and 252, Florida Statutes, and any other provision of law or county ordinance.

5. The Comprehensive Emergency Management Plan (CEMP) is hereby activated.

6. This authority shall extend only for the period of the state of local emergency, as determined by the County Administrator or her designee, or until further action by the Board of County Commissioners, or until the Board terminates such authority or declares that the state of local emergency has ended.

7. This Resolution shall be transmitted to the Secretary of State upon adoption.

Adopted this _____ day of May, 2020.

BOARD OF COUNTY COMMISSIONERS

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17866 **County Attorney's Report 12. 2.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: TDT Late Penalty and Interest Amnesty Resolution
From: ALISON ROGERS, County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:
Recommendation Concerning TDT Late Penalty and Interest Amnesty Resolution.

That the Board approve the attached resolution granting amnesty from payment of late penalty and interest associated with delinquent Tourist Development Tax returns due on April 20, 2020 (for March 2020 tax collections). This amnesty period shall run from April 20, 2020 until April 30, 2020.

BACKGROUND:
Ordinance 2005-01, allows for the Board of County Commissioners to declare by resolution a general financial amnesty on late penalties and interest charges for dealers and other persons responsible for remitting tax payments to the County under this article. The impact of COVID-19 may prevent transient rental businesses from being able to timely file tourist development tax returns. While not eliminating the requirement to collect and remit tourist tax, the attached resolution will provide relief to businesses not able to comply with filing requirements timely due to the Pandemic.

BUDGETARY IMPACT:
The potential revenue to be lost from late penalty and interest will be minimal.

LEGAL CONSIDERATIONS/SIGN-OFF:
The Resolution was reviewed by the County Attorney's Office.

Resolution

RESOLUTION R2020-

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA EXTENDING THE DUE DATE FOR REMITTANCE OF TOURIST DEVELOPMENT TAX; GRANTING WAIVER FROM PENALTIES AND INTEREST FOR THE LATE PAYMENT OF TOURIST DEVELOPMENT TAXES; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Board of County Commissioners of the State of Florida are authorized under Section 125.0104, Florida Statutes to levy a Tourist Development Tax on Short Term Renters of living quarters or accommodations of six months or less and

WHEREAS, pursuant to that authority, the Board of County Commissioners of Escambia County has levied such a tax in the County, which is now codified at Chapter 90, Article II, Division 2, Sections 90-51 through 90-64 of the Escambia County Code of Ordinances: and

WHEREAS, it is the duty of any person in the County collecting such tax to remit it in a timely manner to the Clerk of the Circuit Court and Comptroller of Escambia County or face certain financial penalties and interest on the late payments made to the County; and

WHEREAS, on March 9, 2020, the Governor of the State of Florida, Ron DeSantis, issued Executive Order 20-52 declaring a state of emergency for the entire State of Florida as a result of COVID-19; and

WHEREAS, on March 13, 2020, President Donald J. Truman declared the COVID-19 outbreak constituted a national emergency beginning March 1, 2020; and

WHEREAS, on March 16, 2020, Governor Ron DeSantis, directed the Florida Department of Revenue to provide flexibility on the deadlines of taxes due such as Sales and Use Tax (SUT) to assist businesses that are adversely affected from the COVID-19 mitigation measures

WHEREAS, on March 26, 2020, the Florida Department of Revenue, issued Order of Emergency Waiver/Deviation (Order # 20-52-DOR-002) extending the due date for taxpayers to remit Tourist Development Tax for the February and March 2020 reporting periods.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF ESCAMBIA COUNTY, FLORIDA AS FOLLOWS:

Section 1. The due date for the remittance of Tourist Development Tax collected in March 2020 shall be extended ten (10) days from April 20, 2020 to April 30, 2020.

Section 2. Any penalties and interest incurred from the failure to remit and report Tourist Development Tax collected in March 2020 by April 20, 2020 shall be waived if the taxpayer remitted such payment to the Clerk of the Circuit Court by April 30, 2020.

Section 3. This Resolution shall take effect immediately upon its adoption by the Board of County Commissioners.

BOARD OF COUNTY COMMISSIONERS
Escambia County, Florida

AI-17872 **County Attorney's Report 12. 3.**
BCC Regular Meeting **Discussion**
Meeting Date: 05/07/2020
Issue: Extension of Escambia County Emergency Order Related to Tolling Permits
From: ALISON ROGERS, County Attorney
Organization: County Attorney's Office
CAO Approval:

RECOMMENDATION:
Recommendation Concerning Extension of Escambia County Emergency Order Related to Tolling Permits.

That the Board discuss extending the Escambia County Emergency Order related to tolling permits.

BACKGROUND:
On March 20, 2020 the Board voted to enact Emergency Order 20-2 that provided for the tolling of County permits due to the concerns and complications raised by the COVID-19 pandemic. The affected permits includes but is not limited to building permits, solid waste facility permits and development orders. Due to Governor's Executive Order 20-112 as well as the economic uncertainty facing our community, the Board may wish to continue to toll County permits and, if so, for a period of time as determined by the Board.

BUDGETARY IMPACT:
N/A

LEGAL CONSIDERATIONS/SIGN-OFF:
The County Attorney's Office has reviewed the Emergency Order.

Tolling Permits Emergency Order

EMERGENCY ORDER EO 20-____

TOLLING THE EXPIRATION DATE OF COUNTY ISSUED PERMITS, LAND USE APPROVALS, AND DEVELOPMENT ORDERS

WHEREAS, on March 1, 2020, Governor Ron DeSantis issued Executive Order 20-51 directing the State Health Officer and Surgeon General to declare a Public Health Emergency due to the discovery of COVID-19 in the State of Florida; and

WHEREAS, on March 9, 2020, Governor Ron DeSantis issued Executive Order 20-52 declaring a state of emergency for the State of Florida; and

WHEREAS, on March 13, 2020, President Donald J. Trump declared a state of emergency for the United States of America effective March 1, 2020; and

WHEREAS, pursuant to Section 252.38, Florida Statutes, political subdivisions are authorized to declare and enact a local state of emergency for a period of up to seven days, thereby waiving the procedures and formalities otherwise required by law; and

WHEREAS, pursuant to Section 252.38, Florida Statutes, and Section 37-35, Escambia County Code, the Chairman of the Board of County Commissioners declared a state of local emergency for Escambia County by Resolution R2020-24, effective as of 2:00 p.m. on March 16, 2020; and

WHEREAS, the Board of County Commissioners extended the state of local emergency for Escambia County by Resolutions R2020-25, R2020-26, R2020-35, R2020-36, R2020-37, R2020-38 and R2020-39 until 1:59 p.m. on May 11, 2020; and

WHEREAS, formerly routine processes are disrupted and taking longer to accomplish due to COVID-19 precautions being mandated by the Federal and State Governments; and

WHEREAS, on March 20, 2020, by Board action during a Special Meeting of the Board of County Commissioners, the Board approved the measures implemented herein, as memorialized in Emergency Order 20-2; and

WHEREAS, on April 2, 2020, by Board action during a Regular Meeting of the Board of County Commissioners, the Board extended the measures implemented herein, as memorialized in Emergency Order 20-5; and

WHEREAS, the ongoing and lingering economic effects of COVID-19 continue to create uncertainty for the personal and business interests of the citizens of Escambia County; and

WHEREAS, the precarious economic situation may last for an indefinite period of time; and

WHEREAS, providing for the certainty of tolled permits serves a vital public purpose.

NOW THEREFORE, pursuant to Chapter 252, Florida Statutes, and Chapter 37, Escambia County Code, the Board of County Commissioners hereby declares the following and extends Emergency Order 20-5, as set forth below:

1. The above recitals are true and are incorporated herein.

2. The following permits, land use approvals, and development orders issued by Escambia County are hereby tolled for the period set forth in paragraph 5:

    a) Building Permits;

    b) Land use approvals (including Fence Permits, Construction in County Right-of-Way Permits, and Driveway Construction in County Right-of-Way Permits);

    c) Development Orders;

    d) Recycling Facility Permits;

    e) Borrow Pit Permits;

    f) Solid Waste Management Permits;

    g) Construction and Demolition Debris (C&DD) Facility Permits;

    h) Land Clearing Disposal (LCD) Facility Permits; and

    i) Hazardous Waste Facility Permits.

3. The tolling measures implemented herein shall not apply to a permit holder who is deemed by Escambia County to be out of code or regulatory compliance. If a permit holder is determined to be out of compliance, then Escambia County shall have the discretion to terminate the tolling period as to that particular permit holder.

4. The tolling measures implemented herein shall remain in effect for the period set forth in paragraph 5 even in the event of the termination of either the emergency declaration issued by the State of Florida or the emergency declaration issued by Escambia County.

5. This Order shall be effective as of _____ p.m. (CDT) on May 7, 2020 and shall continue for a period of _____ days or until further action by the Board of County Commissioners.

Adopted this 7th day of May, 2020.
